PRELIMINARY PROSPECTUS

Digital Landscape Group, Inc.

Class A Common Shares Warrants Series A Founder Preferred Shares

We were incorporated under the laws of the British Virgin Islands on November 1, 2017 and were formed to undertake an acquisition of a target company or business. On February 10, 2020, we completed an acquisition of AP WIP Investments, LLC and its subsidiaries (the “APW Group”) for consideration of approximately \$859,500,000, consisting of cash, shares and assumption of debt (the “APW Acquisition”), as further described herein. In connection with the Domestication (defined below), we intend to change our name to “Radius Global Infrastructure, Inc.”

This prospectus relates to our proposal to change our jurisdiction of incorporation from the British Virgin Islands to the State of Delaware (the “Domestication”) by effecting a discontinuance under Section 184 of the BVI Business Companies Act, 2004, as amended (the “BVI Companies Act”), and a domestication under Section 388 of the General Corporation Law of the State of Delaware (the “DGCL”). To effect the Domestication, upon the final approval of our board of directors (the “Board”) and effectiveness of the registration statement of which this prospectus is a part, we intend to file a notice of continuation out of the British Virgin Islands with the British Virgin Islands Registrar of Corporate Affairs (the British Virgin Islands entity prior to the Domestication, “DLGI BVI”) and file a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of the State of Delaware, pursuant to which we will be domesticated and continue as the same legal entity incorporated under the laws of Delaware (the Delaware entity following the Domestication, “DLGI Delaware”). In the Domestication:

- each issued and outstanding ordinary share, no par value, of DLGI BVI (collectively, the “Ordinary Shares”) will automatically convert, by operation of law, on a one-to-one basis into a share of Class A common stock, par value \$0.0001 per share, of DLGI Delaware (collectively, the “Class A Common Shares”);
- each issued and outstanding Class B share, no par value, of DLGI BVI (collectively, the “BVI Class B Shares”) will automatically convert, by operation of law, on a one-to-one basis into a share of Class B common stock, par value \$0.0001 per share, of DLGI Delaware (collectively, the “Class B Common Shares”);
- each issued and outstanding preferred share, no par value, of DLGI BVI of any series will automatically convert, by operation of law, on a one-to-one basis into a share of preferred stock, par value \$0.0001 per share, of DLGI Delaware of a corresponding series; and
- all outstanding options, warrants and other rights to acquire shares of DLGI BVI will automatically become options, warrants and other rights to acquire the corresponding shares of DLGI Delaware, on the same terms and, if applicable, in the same proportions.

We are not asking you for a proxy and you are requested not to send us a proxy. Shareholders are not required to approve the Domestication in order to effect the Domestication. For more information, see “The Domestication”.

In addition, this prospectus relates to the issuance by DLGI Delaware of the Class A Common Shares that will be issuable upon the exercise or settlement of our outstanding warrants (the “Warrants”), options and restricted stock following the Domestication. Each Warrant will entitle the holder (each, a “Warrantholder”) to receive one-third of a Class A Common Share at an exercise price of \$11.50 per share, in – each case subject to adjustment in accordance with the warrant instrument governing the Warrants. See “Description of Capital Stock – Warrants”.

This prospectus also relates to the issuance by DLGI Delaware of up to 1,600,000 Class A Common Shares that will be issuable upon the conversion of the Series A Founder Preferred Shares following the Domestication and upon the terms and conditions described herein. See “Description of Capital Stock – Series A Founder Preferred Shares – Conversion into Class A Common Shares”.

This prospectus further relates to the resale of Class A Common Shares (the “Resale Shares”) that, after the Domestication, may be offered for sale from time to time by the selling stockholders named in this prospectus. See “Selling Stockholders”. The selling stockholders may from time to time sell, transfer or otherwise dispose of any or all of their Resale Shares in a number of different ways and at varying prices. See “Plan of Distribution”. We will not receive any proceeds from the resales of any Class A Common Shares by the selling stockholders. See “Use of Proceeds”.

The Ordinary Shares and Warrants are currently traded on the London Stock Exchange (the “LSE”) under the symbols “DLGI” and “DLGW”, respectively. We intend to apply to list the Class A Common Shares on the Nasdaq Global Market (“Nasdaq”) under the symbol “RADI”, effective upon the completion of the Domestication. We intend to cancel the listing of the Ordinary Shares and Warrants on the LSE upon the listing of the Class A Common Shares on Nasdaq.

We may amend or supplement this prospectus from time to time by filing amendments or supplements as required.

You should read this entire prospectus and any amendments or supplements carefully before you make your investment decision.

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and therefore have elected to comply with certain reduced public company reporting requirements for this prospectus and future filings. CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus constitute forward-looking statements that do not directly or exclusively relate to historical facts, and which may concern our possible or assumed future results of operations, including descriptions of our business strategy. In some cases, these forward-looking statements can be identified by the use of forward-looking terminology, including the terms “targets”, “believes”, “estimates”, “anticipates”, “expects”, “intends”, “may”, “will”, “should” or, in each case, their negative or other variations or comparable terminology. Any forward-looking statements contained in this prospectus are based upon our historical performance and on our current plans, estimates and expectations in light of information currently available to us. The inclusion of this forward-looking information should not be regarded as a representation by us, the selling stockholders or any other person that the future plans, estimates or expectations contemplated by us will be achieved. These forward-looking statements are subject to various risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business, prospects, growth strategy and liquidity. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to:

- the extent to which wireless carriers or tower companies consolidate their operations, exit the wireless communications business or share site infrastructure to a significant degree;
- the extent to which new technologies reduce demand for wireless infrastructure;
- competition for assets;

Table of Contents

- whether the Tenant Leases (as defined herein) for the wireless communication tower or antennae located on our real property interests are renewed with similar rates or at all;
- the extent of unexpected lease cancellations, given that substantially all of the Tenant Leases associated with our assets may be terminated upon limited notice by the wireless carrier or tower company and unexpected lease cancellations could materially impact cash flow from operations;
- economic, political, cultural and other risks to our operations outside the U.S., including risks associated with fluctuations in foreign currency exchange rates and local inflation rates;
- the effect of foreign currency exchange rates;
- the effect of the Electronic Communications Code enacted in the United Kingdom, which may limit the amount of lease income we generate in the United Kingdom;
- the extent to which we continue to grow at an accelerated rate, which may prevent us from achieving profitability or positive cash flow at a company level (as determined in accordance with U.S. GAAP) for the foreseeable future, particularly given the APW Group's history of net losses and negative net cash flow;
- the fact that we have incurred a significant amount of debt and may in the future incur additional indebtedness;
- the extent to which the terms of our debt agreements limit our flexibility in operating our business;
- the ongoing COVID-19 (coronavirus) pandemic and the response thereto;
- the extent to which unfavorable capital markets environments impair our growth strategy, which requires access to new capital;
- the adverse effect that increased market interest rates may have on our interest costs, the value of our assets and on the growth of our business;
- the adverse effect that perceived health risks from radio frequency energy may have on the demand for wireless communication services;
- our ability to protect and enforce our real property interests in, or contractual rights to, the revenue streams generated by leases on our communications sites;
- the loss, consolidation or financial instability of any of our limited number of customers;
- our ability to pay dividends or satisfy our other financial obligations, including dividends we may be required to pay on our Class A Common Shares;
- whether we are required to issue additional Class A Common Shares pursuant to the terms of the Series A Founder Preferred Shares or the APW OpCo LLC Agreement or upon the exercise of the Warrants or options to acquire Class A Common Shares, which would dilute the interests of our securityholders in the Class A Common Shares;
- the possibility that an active, liquid and orderly trading market for our securities may not develop or be maintained following the Domestication;
- the possibility that securities or industry analysts do not publish or cease publishing research or reports about us, our business, or our market, or if they change their recommendations regarding our securities adversely;
- the possibility that the Warrants may not be in the money at a time when they are exercisable or may be mandatorily redeemed prior to their exercise, which may render them worthless to the Warrantholders;
- the effect that the significant resources and management attention required as a U.S. public company may have on our results and on our ability to attract and retain executive management and qualified Board members; and
- the other risks and uncertainties described under "Risk Factors".

[Table of Contents](#)

These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included elsewhere in this prospectus. The forward-looking statements made in this prospectus relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly update or review any forward-looking statement except as required by law, whether as a result of new information, future developments or otherwise.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this prospectus that could cause actual results to differ before making an investment decision with respect to our securities. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

Our Company

Digital Landscape Group, Inc. (formerly known as Landscape Acquisition Holdings Limited and expected to be renamed as “Radius Global Infrastructure, Inc.” in connection with the Domestication) (“DLGI” or the “Company”) was incorporated under the laws of the British Virgin Islands on November 1, 2017 and was formed to undertake an acquisition of a target company or business. On November 20, 2017, the Ordinary Shares and Warrants were admitted to listing on the LSE, and DLGI raised approximately \$500 million before expenses through its initial placement of Ordinary Shares and Warrants in the UK (the “2017 Placing”) and a private subscription by the Series A Founders for the series A founder preferred shares, no par value, of DLGI BVI (the “BVI Series A Founder Preferred Shares”).

On February 10, 2020, DLGI completed its initial acquisition by purchasing the APW Group from Associated Partners in the APW Acquisition. See “– Recent Developments – The APW Acquisition”.

Following the APW acquisition, DLGI is a holding company with no material assets other than its 91.8% interest in APW OpCo LLC, a Delaware limited liability company (“APW OpCo”) and the sole member of AP WIP Investment Holdings, LP, a Delaware limited partnership (“AP Wireless”), which in turn is the parent of AP WIP Investments, LLC, a Delaware limited liability company (“AP WIP Investments” and, together with its subsidiaries, the “APW Group”). The remaining interests in APW OpCo, all of which are exchangeable for shares in DLGI, are held by the Continuing OpCo Members (as defined and further described under “– APW Acquisition” below).

The APW Group is one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights. The APW Group was established as a U.S. cell site lease aggregator in 2010 and made its first foreign lease investment in November of 2011. Since that time, it has entered into, and holds assets in, a total of 18 jurisdictions in addition to the United States. We believe that the APW Group was a “first mover” in many of these jurisdictions; that is, until its market entry no other parties were engaged in the systematic aggregation of cell site leases in any kind of scale.

Our Business Model

We purchase, primarily for a lump sum, the right to receive future rental payments generated pursuant to an existing ground lease or rooftop lease (and any subsequent lease or extension or amendment thereof) between a property owner and an owner of a wireless tower or antennae (each such lease, a “Tenant Lease”). Typically, we acquire the rental streams by way of a purchase of a real property interest in the land underlying the wireless tower or antennae, most commonly easements, usufructs, leasehold and sub-leasehold interests, or fee simple interests, each of which provides us with the right to receive all communications rents relating to the property, including the rents from the Tenant Lease. In addition, we purchase contractual interests, such as an assignment of rents, either in conjunction with the property interest or as a stand-alone right.

We believe that our business model and the nature of our assets provides us with stable, predictable and growing cash flow. First, we seek to acquire real property interests and rental streams subject to triple net or

effectively triple net lease arrangements, whereby all taxes, utilities, maintenance costs and insurance are the responsibility of either the owner of the tower or antennae or the property owner (as further described under “Business” herein). Furthermore, Tenant Leases contain contractual rent increase clauses, or “rent escalators”, calculated either as a fixed rate, typically between 2% and 3%, or tied to a consumer price index (“CPI”), or subject to open market valuation (“OMV”). As of March 31, 2020, approximately 99% of the Company’s Tenant Leases had contractual rent escalators; approximately 65% (as a percentage of revenue for the year ended December 31, 2020) and 68% (as a percentage of annualized in-place rents as of March 31, 2020) of our Tenant Lease contractual rent escalators were either tied to a local CPI or subject to OMV, and the remainder were fixed escalators. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”. In addition, the APW Group has historically experienced low annual churn as a percentage of revenue, ranging from 1% to 2% during the fiscal years ended December 31, 2019 and 2018, primarily due to the significant network challenges and expenses incurred by owners of wireless communications towers and antennae in connection with the relocation of these infrastructure assets to alternative sites. Finally, we seek to obtain the ability to negotiate amendments and renewals of our Tenant Leases, thereby providing us with additional recurring revenue and one-time fees.

As of March 31, 2020 and December 31, 2019, we had interests in approximately 6,300 and 6,100 leases that generate rents for us, respectively. These leases related to properties that were situated on approximately 4,800 and 4,600 different communications sites, respectively, located throughout the United States and 18 other countries. For the year ended December 31, 2019, the APW Group’s revenue was \$55.7 million, and the annualized contractual revenue from the rents expected to be collected on the leases we had in place at that time (the annualized “in-place rents”) from the APW Group assets was approximately \$62.1 million. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures”.

Our Strategy

We seek to continually expand our business by primarily implementing organic growth strategies, including expanding into different geographies, asset classes and technologies; continued acquisition of real estate interests and contractual rights (as well as other revenue streams) in wireless communications sites and other communications infrastructure (as well as through annual rent escalators, the addition of new tenants and/or lease modifications) and developing a portfolio of infrastructure assets including through acquisition or build to suit. We intend to achieve these objectives by executing the following strategies:

Grow Through Additional Acquisitions. We intend to pursue acquisitions of real property interests and contractual rights underlying wireless communications cell sites, utilizing the expertise of our management and our proven, proprietary underwriting process to identify and assess potential acquisitions. When acquiring real property interests and contractual rights, we aim to target communications infrastructure locations that are essential to the ongoing operations and profitability of the respective tenants, which we expect will result in continued high tenant occupancy and cash flow stability. We have established a local presence in high opportunity countries in order to expand our operating jurisdictions. In addition, we can utilize our advanced acquisition expertise to pursue acquisitions and investments in either single assets or portfolios of assets.

Increase Cash Flow Without Additional Capital Investment. We seek to organically grow our cash flow on our existing portfolio without additional capital investment through (i) contractual rent escalations, (ii) lease renewals, at higher rates, with existing tenants, (iii) rent increases based on equipment, technology or site modification upgrades at our infrastructure locations and (iv) the addition of new tenants to existing locations.

Leverage Existing Platform to Expand our Business into the Broader Communications Infrastructure. We intend to explore other potential areas of growth within the communications infrastructure market segment that have similar characteristics to our core “Tenant Lease” (i.e., an existing ground lease or rooftop lease

between a property owner and an owner of a wireless tower or antennae) business and plan to explore expansion into other existing rental streams underlying critical communications infrastructure. Areas of expansion may include investing in Tenant Leases underneath (i) mobile switching centers, which is a telephone exchange that makes the connection between mobile users within a network, from mobile users to the public switched telephone network, and from mobile users to other mobile networks, (ii) data centers, which is a large group of networked computer servers typically used by organizations for remote storage, processing or distribution of large amounts of data that are typically located in a stand-alone building and (iii) distributed antenna system (DAS) networks, which is a way to address isolated spots of poor coverage in a large building or facility (such as a hospital or transportation hub) by installing a network of small antennae to serve as repeaters.

Explore Expansion Opportunities into Digital Infrastructure Assets. As part of our expansion strategy, we intend to explore opportunities to develop other digital infrastructure assets, including build-to-suit opportunities where we would be contracted to build communications infrastructure (such as wireless towers) and lease such equipment to tenants on a long-term basis. Cell:cm Chartered Surveyors (“Cell:cm”), which is a wholly-owned subsidiary within the APW Group, already offers building consultancy services including architecture and design, building and roof maintenance, building surveys and development, and project monitoring.

Recent Developments

APW Acquisition

On November 19, 2019, we announced our entry into a definitive agreement to acquire AP Wireless and its subsidiaries from Associated Partners. Upon completion of the APW Acquisition on the Acquisition Closing Date, we acquired a 91.8% interest in APW OpCo, the parent of AP Wireless and the indirect parent of the APW Group, for consideration of approximately \$860 million less (i) debt as of June 30, 2019 of approximately \$539 million, (ii) approximately \$65 million to redeem a minority investor in the AP Wireless business and (iii) allocable transaction expenses of approximately \$10.7 million plus (iv) cash as of June 30, 2019 of approximately \$66.5 million (subject to certain limited adjustments). The acquisition was completed through a merger of one of DLGI’s subsidiaries with and into APW OpCo, with APW OpCo surviving such merger as a majority owned subsidiary of ours. Following the APW Acquisition, we own 91.8% of APW OpCo, with certain former partners of Associated Partners who were members of APW OpCo immediately prior to the Acquisition Closing Date and who elected to roll over their investment in APW OpCo in connection with the APW Acquisition (the “Continuing OpCo Members”) owning the remaining 8.2% interest in APW OpCo. As a result, the AP Wireless business is 100% owned by DLGI and the Continuing OpCo Members. See “Certain Relationships and Related Party Transactions – APW Merger Agreement” for more information.

Certain securities of APW OpCo issued and outstanding upon completion of the APW Acquisition are subject to time and performance vesting conditions. In addition, all securities of APW OpCo held by persons other than the Company are exchangeable for Ordinary Shares and, following the Domestication, will be exchangeable for Class A Common Shares. If all APW OpCo securities vested and no securities have been exchanged for Ordinary Shares or Class A Common Shares, as applicable, the Company will own approximately 82.0% of APW OpCo. See “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement” for more information about the APW OpCo securities, and “Security Ownership by Management and Certain Beneficial Owners” for more information about ownership of our securities.

The APW Acquisition constituted a “Reverse Takeover” under UK listing rules, causing the listing on the LSE of the Ordinary Shares and Warrants to be suspended on November 20, 2019, pending the Company publishing a prospectus in relation to admission of the Class A Common Shares and Warrants to listing on the LSE. The UK Financial Conduct Authority accepted the Company’s application for listing on March 27, 2020 and trading of the Company’s Ordinary Shares and Warrants on the LSE recommenced on April 1, 2020. In connection with the filing of the registration statement of which this prospectus is a part, we intend to apply to

list the Class A Common Shares on the Nasdaq Global Market (“Nasdaq”) under the symbol “RADI”, effective upon the completion of the Domestication. We intend to cancel the listing of the Ordinary Shares and Warrants on the LSE upon the listing of the Class A Common Shares and Warrants on Nasdaq.

Centerbridge Subscription

In connection with the APW Acquisition, we entered into a subscription agreement, dated as of November 20, 2019 and amended and supplemented as of February 7, 2020 (the “Centerbridge Subscription Agreement”), with the Centerbridge Entities. Pursuant to the Centerbridge Subscription Agreement, the Centerbridge Entities subscribed for \$100 million of Ordinary Shares, at a price of \$10 per Ordinary Share, on the Acquisition Closing Date (the “Centerbridge Subscription”). The cash proceeds from the Centerbridge Subscription are available for general working capital purposes, including the acquisition of real property interests and revenue streams critical for wireless communications. As a result of the Centerbridge Subscription, as of July 24, 2020, after giving pro forma effect to the Domestication, the Centerbridge Entities beneficially own approximately 17.12% of the issued and outstanding Class A Common Shares.

Pursuant to the Centerbridge Subscription Agreement, we agreed to register the Class A Common Shares held by the Centerbridge Entities for resale under the Securities Act prior to cancelling the listing of our Ordinary Shares on the LSE. Accordingly, the Centerbridge Entities have been named as “selling stockholders” that may, from time to time after the Domestication, offer and sell pursuant to this prospectus any or all of the Resale Shares owned by them. See “Selling Stockholders”.

Also pursuant to the Centerbridge Subscription Agreement, we and the Centerbridge entities entered into a Registration Rights Agreement dated July 10, 2020 providing the Centerbridge Entities with the certain registration rights (including piggy-back registration rights), effective from and after the date on which the Company becomes a U.S. reporting company under SEC rules.

Our obligations to maintain an effective registration statement with respect to sales by the Centerbridge Entities of shares acquired pursuant to the Centerbridge Subscription Agreement (or in exchange therefor) will terminate on the first date on which the Centerbridge Entities can sell such shares under Rule 144 of the Securities Act without limitation as to the manner of sale or the amount of such securities that may be sold.

We have agreed to bear most of the costs associated with the fulfilment of our registration obligations under the Centerbridge Subscription Agreement and related Registration Rights Agreement, including all costs, expenses and fees in connection with the registration of the Resale Shares offered under this registration statement. The Centerbridge Entities, however, will bear all commissions and discounts, if any, attributable to their sale of the Resale Shares. See “Plan of Distribution”. We have also agreed to indemnify the Centerbridge Entities and their respective officers, directors, employees, advisors and agents (subject to certain limited exceptions) against liabilities that may arise from sales made by them in connection with the exercise of their registration rights.

The Centerbridge Entities have also entered into a voting agreement, dated February 7, 2020, with us, pursuant to which the Centerbridge Entities agreed to vote, for a period of one year following the Acquisition Closing Date, all voting securities of the Company owned by them, certain of their transferees and any of their affiliates (i) in favor of any and all director nominees that are nominated by our Board’s Nominating and Corporate Governance Committee and (ii) against the removal of any such nominee that is subsequently elected to the Board who is subject to removal without cause.

For more information about the Centerbridge Subscription, the Centerbridge Subscription Agreement and related matters, see “Certain Relationships and Related Party Transactions – Centerbridge Agreements”.

The Domestication

We intend to domesticate to the United States from the British Virgin Islands and incorporate in Delaware, as DLGI Delaware, by means of a statutory domestication under Section 388 of the DGCL and Section 184 of the BVI Business Companies Act (the “Domestication”). We intend to effect the Domestication (the time of such effectiveness, the “Effective Time”) as promptly as practicable after the effectiveness of the registration statement of which this prospectus forms a part. In connection with the Domestication, the Company intends to change its name to “Radius Global Infrastructure, Inc.”

To effect the Domestication, upon the final approval of our Board and the effectiveness of the registration statement of which this prospectus is a part, we intend to file with the British Virgin Islands Registrar of Corporate Affairs a notice of continuation out of the British Virgin Islands and file with the Secretary of State of the State of Delaware a certificate of corporate domestication and the certificate of incorporation of DLGI Delaware (the “Charter”), to be effective upon the Domestication. Prior to the effectiveness of the registration statement of which this prospectus is a part and the Domestication, the Board and the shareholders will approve the Charter. In connection with the Domestication, the Board will adopt the bylaws of DLGI Delaware (the “Bylaws”), to be effective upon the Domestication. DLGI is not required by British Virgin Islands law to receive, and has not sought or received, approval of a plan of arrangement in the British Virgin Islands, and no plan of arrangement is contemplated.

Following the Domestication, DLGI Delaware will be deemed to be the same legal entity as DLGI BVI. None of our business, assets and liabilities on a consolidated basis, nor our directors, executive officers, principal business locations and fiscal year, are expected to change as a result of the Domestication. For more information about the Domestication and its effects, see “The Domestication”.

Background and Reasons for the Domestication

The Board has approved the Domestication, as well as the related registration of the securities of DLGI Delaware under the Securities Act. We consider Delaware to be a longstanding leader in adopting, implementing and interpreting comprehensive and flexible corporate laws that are responsive to the legal and business needs of corporations. The Board believes that the Domestication will, among other things:

- provide legal, administrative and other similar efficiencies;
- relocate our jurisdiction of organization to one that is the choice of domicile for many publicly-traded corporations, in part because there is an abundance of case law to assist in interpreting the DGCL and the Delaware legislature frequently updates the DGCL to reflect current technology and legal trends; and
- provide a more favorable corporate environment which will help us compete more effectively with other publicly-traded companies in raising capital and in attracting and retaining skilled, experienced personnel, including because Delaware law is more developed and provides more guidance than British Virgin Islands law on matters regarding a company’s ability to limit director liability.

Domestication Share Conversion

In the Domestication, DLGI BVI’s issued and outstanding securities will automatically convert into securities of DLGI Delaware. Specifically, at the Effective Time:

- each issued and outstanding Ordinary Share will automatically convert, by operation of law, on a one-to-one basis into a Class A Common Share;
- each issued and outstanding BVI Class B Share will automatically convert, by operation of law, on a one-to-one basis into a Class B Common Share;

- each issued and outstanding BVI Series A Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series A Founder Preferred Share;
- each issued and outstanding BVI Series B Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series B Founder Preferred Share;
- all outstanding Warrants to acquire Ordinary Shares will automatically become Warrants to acquire Class A Common Shares under the same terms and in the same proportion; and
- all outstanding options and any other rights to acquire shares of DLGI BVI will automatically become options and other rights to acquire the corresponding shares of DLGI Delaware under the same terms.

Consequently, at the Effective Time, each holder of an Ordinary Share, BVI Class B Share, BVI Founder Preferred Share or Warrant or option to acquire Ordinary Shares will instead hold a Class A Common Share, Class B Common Share, Founder Preferred Share or Warrant or option to acquire Class A Common Shares, respectively, representing the same proportional equity interest in DLGI Delaware as that holder held in DLGI BVI immediately prior to the Effective Time. The number of shares of DLGI Delaware outstanding immediately after the Effective Time will be the same as the number of shares of DLGI BVI outstanding immediately prior to the Effective Time.

Comparison of Shareholder Rights

As described above, the Domestication will change our jurisdiction of incorporation from the British Virgin Islands to the State of Delaware and, as a result, our organizational documents will change and will be governed by Delaware law rather than British Virgin Islands law. Those new organizational documents of DLGI Delaware, which consist of the Charter and the Bylaws, will contain, and Delaware law contains, provisions that may differ in certain respects from those in DLGI BVI's current organizational documents, which consist of the BVI Articles, and British Virgin Islands law.

The following are among the most significant differences between the existing BVI Articles of DLGI BVI and British Virgin Islands law, on the one hand, and the Charter and Bylaws of DLGI Delaware and Delaware law, on the other hand:

- Delaware law will provide that amendments to the Charter must be approved by both the Board and by the stockholders of DLGI Delaware, while British Virgin Islands law permits amendments to the BVI Articles to be made either by the shareholders or, where the BVI Articles and British Virgin Islands law permit, by resolutions of the Board (although the BVI Articles do not currently permit any amendments to be made by the Board);
- Delaware law prohibits the repurchase of shares of DLGI Delaware when its capital is impaired or would become impaired by the repurchase, while there are no such capital limitations in the BVI Companies Act;
- the Bylaws require stockholders desiring to bring a matter before an annual meeting of stockholders or to nominate a candidate for election as director to provide notice to DLGI Delaware within certain time frames, while the BVI Articles do not contain similar advance notice requirements;
- under Delaware law, only the stockholders may remove directors, while under British Virgin Islands law, a majority of the directors may remove a fellow director (although this power has been restricted under the BVI Articles);
- under Delaware law, directors may not act by proxy, while under British Virgin Islands law, directors may appoint another director or person to vote in his place, exercise his other rights as director, and perform his duties as director;

- the Charter and Bylaws do not provide stockholders of DLGI Delaware with preemptive rights, while the BVI Articles provide shareholders of DLGI BVI with certain preemptive rights;
- the Charter will provide that, absent our written consent to an alternative forum, the Court of Chancery of the State of Delaware or, in the case of actions arising under the Securities Act, the federal district courts of the United States of America, will be the sole and exclusive jurisdiction for certain actions against us; and
- under Delaware law, “business combinations” with “interested stockholders” (each as defined in Section 203 of the DGCL) are prohibited for a certain period of time absent certain requirements, while British Virgin Islands law provides no similar prohibition.

For a more detailed description of the material differences between the rights that shareholders of DLGI BVI currently have under the BVI Articles and British Virgin Islands law, and the rights that stockholders of DLGI Delaware will have under the Charter, Bylaws and Delaware law after we become a Delaware corporation in the Domestication, see “Comparison of Stockholder Rights”.

No Vote or Dissenters’ Rights of Appraisal in the Domestication

Under the BVI Companies Act and the BVI Articles, our shareholders do not have statutory rights of appraisal or any other appraisal rights of their shares as a result of the Domestication. Nor does Delaware law provide for any such rights. Shareholder approval of the Domestication is not required by the BVI Companies Act or the BVI Articles to effect the Domestication, and the Domestication is not conditioned on receipt of such approval. We are not asking you for a proxy and you are requested not to send us a proxy.

Material U.S. Federal Income Tax Consequences of the Domestication

U.S. Holders (as defined in “Material United States Federal Income Tax consequences”) will not recognize taxable gain or loss upon (a) the conversion of their Ordinary Shares into Class A Common Shares, (b) the conversion of their BVI Series A Founder Preferred Shares into Series A Founder Preferred Shares or (c) the conversion of their Warrants to acquire Ordinary Shares into Warrants to acquire Class A Common Shares as a result of the Domestication for U.S. federal income tax purposes. A U.S. Holder will have an initial tax basis in the Class A Common Shares, Series A Founder Preferred Shares or Warrants deemed received in the Domestication equal to its adjusted tax basis in the Ordinary Shares, BVI Series A Founder Preferred Shares or Warrants deemed surrendered in exchange therefor. The holding period for the Class A Common Shares, Series A Founder Preferred Shares or Warrants deemed received in the Domestication will include such holder’s holding period for the Ordinary Shares, BVI Series A Founder Preferred Shares or Warrants deemed surrendered in exchange therefor. See “Material United States Federal Income Tax Consequences” for important information regarding U.S. federal income tax consequences relating to (i) the Domestication and (ii) the ownership and disposition of our securities.

Implications of Being an Emerging Growth Company

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). We will remain an emerging growth company until the earlier of (a) the last day of the fiscal year (i) following the fifth anniversary of the completion of this offering, (ii) in which we have total annual gross revenue of at least \$1.07 billion or (iii) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30 and (b) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References in this prospectus to “emerging growth company” have the meaning ascribed to such term in the JOBS Act.

An emerging growth company may take advantage of specified reduced reporting requirements and other burdens that are otherwise applicable generally to public companies. These provisions include, but are not limited to:

- being permitted to present only two years of audited financial statements and only two years of related Management’s discussion and analysis of financial condition and results of operations in this prospectus;
- not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, as amended (the “Sarbanes-Oxley Act”);
- an exemption from compliance with any new requirements adopted by the Public Company Accounting Oversight Board requiring mandatory audit firm rotations;
- reduced disclosure obligations regarding executive compensation in our periodic reports, proxy statements and registration statements;
- exemptions from the requirement to hold a nonbinding advisory vote on executive compensation and to obtain stockholder approval of any golden parachute payments not previously approved; and
- an extended transition period for complying with new or revised accounting standards applicable to public companies until those standards would otherwise apply to private companies.

We have elected to opt out of the extended transition period for complying with new or revised accounting standards under Section 107(b) of the JOBS Act, which election is irrevocable. As a result, we will adopt new or revised accounting standards on the same timeline as other public companies.

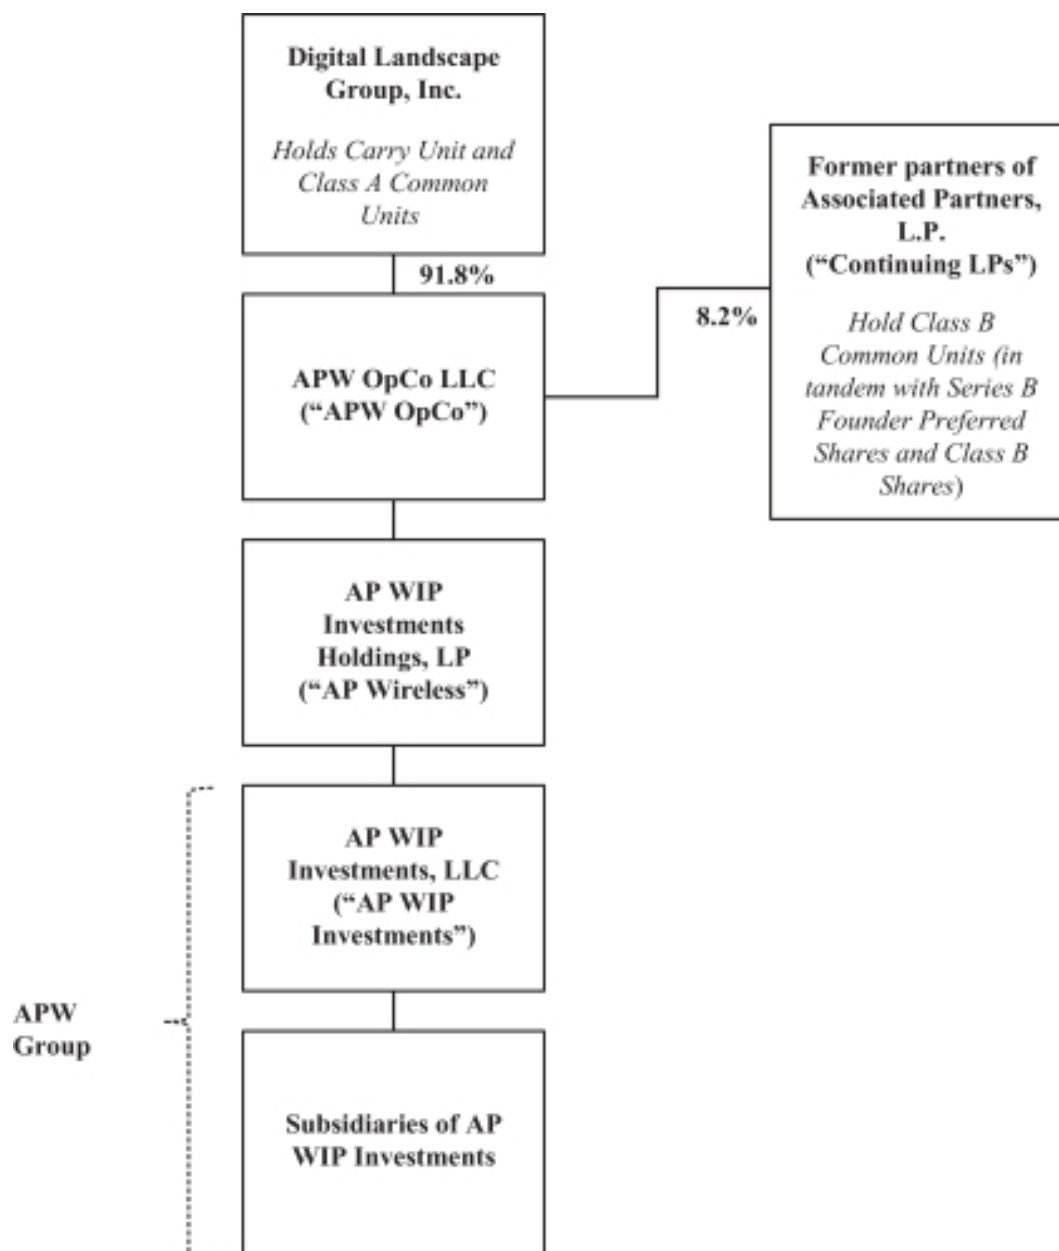

We may use these provisions until such time as we cease to be an emerging growth company.

- (1) Leases is an operating metric that represents each lease acquired by the APW Group. Each site purchased by the APW Group consists of at least one revenue producing lease stream, and many of these sites contain multiple lease streams.
- (2) Sites is an operating metric that represents each individual physical location where the APW Group has acquired a real property interest or a contractual right that generates revenue.
- (3) Acquisition Capex is a non-GAAP financial measure. Acquisition Capex represents the total cash spent and committed to be spent for the Company's acquisitions of revenue-producing assets during the period measured. Management believes the presentation of Acquisition Capex provides valuable additional information for users of the financial statements in assessing our financial performance and growth, as it is a comprehensive measure of our investments in the revenue-producing assets that we acquire in a given period. Acquisition Capex has important limitations as an analytical tool, because it excludes certain fixed and variable costs related to our selling and marketing activities included in selling, general and administrative expenses in the consolidated statements of operations, including corporate overhead expenses. Further, this financial measure may be different from calculations used by other companies and comparability may therefore be limited. You should not consider Acquisition Capex or any of the other non-GAAP measures we utilize as an alternative or substitute for our results.

The following is a reconciliation of Acquisition Capex to the amounts included as an investing cash flow in our consolidated statements of cash flows for investments in real property interests and related intangible assets, the most comparable GAAP measure, which generally represents up-front payments made in connection the acquisition of these assets during the period. The primary adjustment to the comparable GAAP measure is “committed contractual payments for investments in real property interests and intangible assets”, which represents the total amount of future payments that we were contractually committed to make in connection with our acquisitions of real property interests and intangible assets that occurred during the period. Additionally, foreign exchange translation adjustments impact the determination of Acquisition Capex.

- (4) EBITDA and Adjusted EBITDA are non-GAAP measures. EBITDA is defined as net income (loss) before net interest expense, income tax expense, and depreciation and amortization. Adjusted EBITDA is calculated by taking EBITDA and further adjusting for management incentive plan expense, non-cash impairment – decommission of cell sites expense, realized and unrealized gains and losses on foreign currency debt, realized and unrealized foreign exchange gains/losses associated with intercompany account balances denominated in a currency other than the functional currency and one-time severance costs included in selling, general and administrative expenses. Management believes the presentation of EBITDA and Adjusted EBITDA provides valuable additional information for users of the financial statements in assessing the financial condition and results of operations of the APW Group. Each of EBITDA and Adjusted EBITDA has important limitations as analytical tools because they exclude some, but not all, items that affect net income, therefore the calculation of these financial measures may be different from the calculations used by other companies and comparability may therefore be limited. You should not consider EBITDA, Adjusted EBITDA or any of our other non-GAAP financial measures as an alternative or substitute for AP WIP Investments’ results.

The following are reconciliations of EBITDA and Adjusted EBITDA to net income (loss), the most comparable GAAP measure:

| Adjusted EBITDA (a) | \$ 829 | \$ 2,704 | \$ 5,799 | \$ 20,473 | \$ 19,699 |

- (a) Adjusted EBITDA includes the impact of 100% of selling, general, and administrative expense from the applicable statement of operations, other than one-time severance expense. Management estimates that approximately 80% of the historical selling, general, and administrative costs for each of the periods presented are related to the acquisition of revenue producing assets.
- (5) Annualized in-place rents is a non-GAAP measure that measures performance based on annualized contractual revenue from the rents expected to be collected on the leases in place as of the measurement date. Annualized in-place rents is calculated using the implied monthly revenue from all revenue producing leases that are in place as of the measurement date multiplied by twelve. Implied monthly revenue for each lease is calculated based on the most recent rental payment made under such lease. Management believes the presentation of annualized in-place rents provides valuable additional information for users of the financial statements in assessing the financial performance and growth of the APW Group. Annualized in-place rents has important limitations as an analytical tool because, among other things, the underlying leases used in calculating the Annualized in-place rents financial measure may be terminated, new leases may be acquired, or the contractual rents payable under such leases may not be collected. In these respects, among others, annualized in-place rents differs from “revenue”, which is the closest comparable GAAP measure and which represents all revenues (contractual or otherwise) earned over the applicable period. You should

not consider annualized in-place rents or any of the other non-GAAP measures we utilize as an alternative or substitute for AP WIP Investments' results. The following is a comparison of annualized in-place rents to revenue, the most comparable GAAP measure:

Summary Unaudited Pro Forma Condensed Combined Financial Information

The summary unaudited pro forma condensed combined financial information presented below has been prepared from the respective historical consolidated financial statements of DLGI and the APW Group and has been adjusted to reflect the estimated effects of (i) the APW Acquisition and (ii) the Centerbridge Subscription (collectively, the “Transactions”). The summary unaudited pro forma condensed combined financial information included below is not necessarily indicative of future results and should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operation” and the more detailed unaudited pro forma condensed combined financial information and the related notes appearing under “Unaudited Pro Forma Condensed Combined Financial Information”, as well as the separate consolidated financial statements of DLGI and the APW Group and notes thereto included elsewhere in this prospectus. The summary unaudited pro forma condensed combined financial information, which has been provided for illustrative purposes only, by its nature addresses a hypothetical situation and, therefore, does not purport to represent our actual results or what they would have been had the Transactions occurred on the date assumed, and may not be indicative of future results.

RISK FACTORS

Investing in our securities carries a significant degree of risk. You should carefully consider the risks described below, together with all of the other information in this prospectus, including our consolidated financial statements and related notes included elsewhere in this prospectus, before deciding whether to invest in our securities. If any or a combination of the following risks were to materialize, our results of operations, financial condition and prospects could be materially adversely affected. If that were to be the case, the market price of our securities could decline, and investors could lose all or part of their investment. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business.

Risks Relating to Our Business and the Industry

If the wireless carriers or tower companies consolidate their operations, exit the wireless communications business or share site infrastructure to a significant degree, our business and profitability could be materially and adversely affected.

The U.S. wireless carrier industry has experienced, and may continue to experience, significant consolidation, such as the recent merger between Sprint and T-Mobile. Historically, consolidation among wireless carriers has resulted in the decommissioning of certain existing communications sites, due to overlap of the networks or the consolidation of different technologies. For example, the Sprint-Nextel merger led to significant churn as the consolidated company terminated leases of sites on which iDen technology had been located. Internationally, wireless carriers are increasingly entering into active and passive network sharing agreements or roaming or resale arrangements. For example, in 2019 Vodafone announced that it had entered into active and passive network sharing agreements in Italy, Spain and the UK. These agreements could also result in decommissioning of certain existing communications sites due to network overlap or redundancy.

The underlying Tenant Leases from which we derive our revenue can typically be terminated upon a very short notice period, generally 30-180 days, regardless of the length of the lease term. To the extent that a wireless carrier does not need a redundant communications site, it may terminate the site's lease prior to the end of the lease term or simply refuse to renew the lease. As part of our business strategy, we purchase the revenue stream under a lease from the site owner, typically including any renewal periods, and assumes the risk that such lease is early terminated or not renewed. As we do not have recourse to the site owner in the case of such early termination (absent fraud or breach of contractual representations or covenants by such site owner), our ongoing in-place rents and future results may be negatively impacted if a significant number of these leases are terminated or not renewed, materially impairing the value of our real property and contractual interests in such sites.

Consolidation can also potentially reduce the diversity of the tenants from which we derive revenue and give tenants greater leverage over us, as their effective landlord, by increasing co-location on nearby existing sites and aggressively negotiating master lease terms for multiple sites, all of which could materially and adversely affect our revenue.

New technologies may significantly reduce demand for wireless infrastructure and therefore negatively impact our revenue and future growth.

Improvements in the efficiency of wireless networks could reduce the demand for the wireless carriers' or tower companies' wireless infrastructure. For example, signal combining technologies that permit one antenna to service multiple frequencies and, thereby, more customers, may reduce the need for wireless infrastructure. In addition, other technologies, such as Wi-Fi, femtocells, other small cells, or satellite (such as low earth orbiting) and mesh transmission systems may, in the future, serve as substitutes for, or alternatives to, leasing additional tower or antennae sites that might otherwise be anticipated as wireless infrastructure had such technologies not existed. Any significant reduction in wireless infrastructure leasing demand resulting from the previously mentioned technologies or other technologies could materially and adversely affect our revenue, financial condition and future growth.

We may become involved in expensive litigation or other contentious legal proceedings relating to our real property interests and contractual rights, the outcome of which is unpredictable and could require us to change our business model in certain jurisdictions or exit certain markets altogether.

The tenants under our Tenant Leases are typically wireless carriers and tower companies that may have competitive or other concerns regarding the assignment of the right to receive lease payments to us from the site owners, and as a result some of these tenants may challenge our real property interests and contractual rights. For example, wireless carriers and tower companies have challenged certain of our real property interests in Brazil, Chile, Colombia and the Netherlands and alleged that the grant of the real property interest in the land underlying the wireless tower or antennae violated either a contractual non-assignment provision or a statutory pre-emptive right. In Hungary, a regulatory agency has initiated an inquiry that may result in new regulations on some of our activities. In addition, certain wireless carriers in Canada have filed claims alleging that our business and marketing practices constitute harassment of the landlords, defamation of the carriers and interference of their site leases. In addition, under eminent domain laws (or equivalent laws in jurisdictions outside of the United States), governments can take real property without the owner's consent, sometimes for less compensation than the owner believes the property is worth. If these or similar claims are successful, we may not be able to continue to operate in those jurisdictions using our current business model, or at all, which could have a material adverse effect on our ability to acquire new assets or grow our business as planned.

Any litigation or other proceeding, even if resolved favorably, could require us to incur substantial costs and be a distraction to management. Also, such litigation could be used as a nuisance to disrupt our business. Litigation results are highly unpredictable, particularly in some of the jurisdictions in which we operate. Even if we believe we have a strong legal basis to defend such claims, we may not prevail in any litigation or other proceeding in which we may become involved. If we are unsuccessful in defending claims by our tenants relating to our business model in a particular jurisdiction, it may be difficult or impossible to continue operations in those jurisdictions, or we may incur significant additional expense to adjust our business model in response to any legal order or judgment, any of which could have a material adverse effect on our business and results of operations.

We have a history of net losses and negative net cash flow; if we continue to grow at an accelerated rate, we may be unable to achieve profitability or positive cash flow at a company level (as determined in accordance with U.S. GAAP) for the foreseeable future.

We had an accumulated deficit as of December 31, 2018 and 2019 and as of March 31, 2020, and had net losses of \$35.7 million and \$44.4 million for the years ended December 31, 2018 and 2019, respectively, compared to net income of \$6.2 million for the Predecessor period from January 1 to February 9, 2020 and net loss of \$79.1 million for the Successor period from February 10 to March 31, 2020. For the years ended December 31, 2018 and 2019, we had negative operating cash flow of \$10.7 million and \$6.6 million, respectively, and negative cash flow from investing activities of \$68.0 million and \$73.9 million, respectively. For the Predecessor period from January 1 to February 9, 2020 and the Successor period from February 10 to March 31, 2020, we had negative operating cash flow of \$3.5 million and \$28.9 million, respectively, and negative cash flow from investing activities of \$296.2 million and \$22.6 million, respectively. Our accumulated deficit and net losses have historically resulted primarily from expenses incurred in acquiring assets, recognizing depreciation and amortization in connection with the properties we own and interest expense. Our negative cash flows have historically resulted from the substantial investments required to grow our business, including the significant increase in recent periods in the number of assets we have acquired. We expect that these costs and investments will continue to increase as we continue to grow our business. These expenditures will make it more difficult for us to achieve profitability and positive cash flow from operations and investing activities, and we cannot predict whether we will achieve profitability for the foreseeable future.

Competition for assets could adversely affect our ability to achieve our anticipated growth.

If we are unable to make accretive acquisitions of real property interests and contractual rights in the revenue streams of Tenant Leases, our growth could be limited. As none of the individual revenue streams that

we acquire are material, our business model requires us to identify and negotiate a significant number of new interests each year in order to deliver material growth. We may experience increased competition for these assets from new entrants to the industry. Further, in some jurisdictions, including Europe, the number of wireless towers and antennae owned by tower companies, as compared to wireless carriers, is growing quickly. These tower companies may be more likely to seek to own or control the land underlying their tower as that is their asset or service as compared to the wireless carriers who have traditionally allocated their capital to network development rather than acquisition of the underlying real property. This could make the acquisition of high-quality assets significantly more costly or prohibitive. The wireless tower companies are larger than us and may have greater financial resources than we do, while other competitors may apply less stringent investment criteria than we do. Higher prices for assets or the failure to add new assets to our portfolio could make it more difficult to achieve our anticipated returns on investment or future growth, which could materially and adversely affect our business, results of operations or financial condition.

If the Tenant Leases for the wireless communication tower or antennae located on our real property interests are not renewed with similar rates or at all, our future revenue may be materially affected.

A significant portion (as of March 31, 2020, approximately 25% of revenue for the year ended December 31, 2019 and 23% of annualized in-place rents as of March 31, 2020) of the Tenant Leases located on communications sites on which we hold a property interest are either hold-over leases or will be subject to renewal over the next 12 months. The wireless carriers and tower companies are under no obligation to renew their ground or rooftop leases. In addition, there is no assurance that such tenants will renew their current leases with similar terms or rental rates even if they do want to renew. The extension, renewal or replacement of existing leases depends on a number of factors, several of which are beyond our control, including the level of existing and new competition in markets in which we operate; the macroeconomic factors affecting lease economics for our current and potential customers; the balance of supply and demand on a short-term, seasonal and long-term basis in our markets; the extent to which customers are willing to contract on a long-term basis and the effects of international, federal, state or local regulations on the contracting practices of our customers. Unsuccessful negotiations could potentially reduce revenue generated from the assets. As a result, we may not fully recognize the anticipated benefits of the assets that we acquire, which could have a material adverse effect on our results of operations and cash flow. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”.

Substantially all of the Tenant Leases associated with our assets may be terminated upon limited notice by the wireless carrier or tower company, and unexpected lease cancellations could materially impact cash flow from operations.

Virtually every Tenant Lease associated with our assets permits the wireless carrier or tower company tenant to cancel the lease at any time with limited prior written notice. The termination provisions vary from lease to lease, but substantially all of the Tenant Leases underlying our assets require the tenant to provide only 30-180 days’ advance notification to terminate the lease. Cancellations are determined by the tenants themselves in their sole discretion. For instance, sites are independently assessed by tenants for their ability to provide coverage. This assessment is made prior to construction or installation of the asset and there is no guarantee such coverage will remain static in the future due to independent developments, technological developments, property and infrastructure developments (e.g., construction of new buildings and roads), foliage growth or other physical changes in the landscape that are unforeseeable and out of our control. We have previously experienced terminations and cancellations of leases for the following reasons:

- network consolidations and mergers that make a particular tower site redundant for a wireless carrier;
- primarily in the UK, where the wireless carrier has a shared lease with the tower company or tower owner and we only receive a portion of the shared rent;
- the wireless carrier secures an alternative site to allow it to save operational expenses; and

- the wireless carrier identifies a location that provides better coverage and renders the existing site obsolete or unused.

Such results could lead to site removal or relocation, leading to a reduction in our revenue. Any significant number of cancellations will adversely affect our revenue and cash flow.

Our operations outside the U.S. are subject to economic, political, cultural and other risks that could materially and adversely affect our revenues or financial position, including risks associated with fluctuations in foreign currency exchange rates.

For the year ended December 31, 2019, approximately 72% of the APW Group's revenue arose from business operations outside the U.S. and approximately 74% of the APW Group's annualized in-place rents as of December 31, 2019 arose from business operations outside the U.S. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see "Management's Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures". We anticipate that the overall proportion of revenues from our international operations will continue to grow. Accordingly, our business is subject to risks associated with doing business internationally that could materially and adversely affect our business and results of operations, including:

- laws and regulations that dictate how we conduct business, including zoning, maintenance and environmental matters, and laws related to ownership of real property interests;
- uncertain, inconsistent or changing interpretations of laws and regulations, especially those that address our business model, as well as judicial systems that may move more slowly, or be more unpredictable, than U.S. judicial systems;
- changes in a specific country's or region's political or economic conditions, including inflation or currency devaluation;
- laws affecting communications infrastructure, including the sharing of such infrastructure;
- laws and regulations that tax or otherwise restrict repatriation of earnings or other funds or otherwise limit distributions of capital;
- changes to existing or enactment of new domestic or international tax laws;
- expropriation and governmental regulation restricting foreign ownership or requiring reversion or divestiture;
- laws and regulations governing employee relations, including occupational health and safety matters and employee compensation and benefits matters;
- our ability to comply with, and the costs of compliance with, anti-bribery laws such as the U.S. Foreign Corrupt Practices Act of 1977, the UK Bribery Act 2010 and similar international anti-bribery laws;
- changes to zoning regulations or construction laws, which could be applied retroactively to our existing communications sites;
- reluctance or unwillingness of communications site property owners in an existing country of our operations, or in a new country that we determine to enter, generally to do business with a U.S.-headquartered company or a company engaged in our business, especially where there is no history of such a business in the country; and
- actions restricting or revoking the wireless carriers' spectrum licenses or suspending or terminating business under prior licenses.

Our results may be negatively affected by foreign currency exchange rates.

We conduct our business and incur costs in the local currencies in the countries in which we operate and, as a result, are subject to foreign exchange exposure due to changes in exchange rates, both as a result of translation and transaction risks.

We are exposed to foreign currency risk to the extent that we enter into transactions denominated in currencies other than our functional currencies (non-functional currency risk), such as our indebtedness. For example, we generate revenue from our Brazilian operations, which are denominated in Brazilian reals, while the indebtedness that funds those operations is presently denominated in Euros. Although we generally seek to match the currency of our obligations with the functional currency of the operations supporting those obligations, we are not always able to match the currency of our costs and expenses with the currency of our revenues. Changes in exchange rates with respect to amounts recorded in our consolidated financial statements related to these items will result in unrealized (based upon period-end exchange rates) or realized foreign currency transaction gains and losses upon settlement of the transactions.

Although substantially all of our operations are conducted in the local currency of the countries in which we operate, we are also exposed to unfavorable and potentially volatile fluctuations of the U.S. dollar (our reporting currency), against the currencies of our operating subsidiaries when their respective financial statements are translated into U.S. dollars for inclusion in our consolidated financial statements. Increasing exchange rate risk has been brought on by external factors such as increasing interest rates in the United States, as well as internal factors as a consequence of high fiscal and external deficits in some of the jurisdictions in which we operate. Volatility in exchange rates can affect our reported revenue, margins and stockholders' equity both positively and negatively and can make our results difficult to predict. Cumulative translation adjustments are recorded in accumulated other comprehensive earnings or loss as a separate component of equity. Any increase (or decrease) in the value of the U.S. dollar against any foreign currency that is the functional currency of one of our operating subsidiaries will cause us to experience unrealized foreign currency translation losses (gains) with respect to amounts already invested in such foreign currencies. Accordingly, we may experience a positive or negative impact on our comprehensive earnings or loss and equity solely as a result of foreign currency translation. The APW Group's primary exposure to exchange rate risk during the 12 months ended December 31, 2019 was to the British pound sterling, Euro, Brazilian real and the Australian dollar, representing 27%, 14%, 9% and 5% of our reported revenue during the period, respectively. In addition, our reported operating results are impacted by changes in the exchange rates for the Chilean peso, Mexican peso, Canadian dollar, Colombian peso, Hungarian forint and Romanian leu. We generally do not hedge against the risk that we may incur non-cash losses upon the translation of financial statements of our subsidiaries and affiliates into U.S. dollars; however, even if we were to enter into such hedges, they may not be effective to off-set any such non-cash losses.

The Electronic Communications Code enacted in the United Kingdom may limit the amount of lease income we generate in the United Kingdom, which would have a material adverse effect on our results of operations and financial condition.

The Electronic Communications Code, which came into force on December 28, 2017 as part of the United Kingdom's Digital Economy Act 2017, governs certain relationships between landowners and operators of electronic communications services, such as cellular towers. It gives operators certain rights to install, inspect and maintain electronic communications apparatus including masts, cables and other equipment on land, even where the operator cannot agree with the landowner as to the terms of the rights. Among other measures, the Electronic Communications Code restricts the ability of landowners to charge premium prices for the use of their land by basing the consideration paid on the underlying value of the land, not the value attributable to the high public demand for communications services, and provides authority to the courts to determine the rent if the parties are unable to come to agreement. As a result, our future results may be negatively impacted if a significant number of our leases in the United Kingdom are renegotiated at lower rates. The APW Group's revenue run rate as of December 31, 2019 generated by property located in the United Kingdom was

approximately 24.5%. A material reduction in our annualized in-place rents in the United Kingdom would have a material adverse impact on our results of operations and financial condition.

We have incurred a significant amount of debt and may in the future incur additional indebtedness. Our payment obligations under such indebtedness may, in the longer term, limit the funds available to us.

As of March 31, 2020 and December 31, 2019, we had total outstanding indebtedness of \$572.4 million and \$588.2 million, respectively, the majority of which was secured through multiple liens, pledges and other security interests on its different assets. Our ability to make scheduled payments or refinance our obligations depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business, legislative, regulatory and other factors beyond our control. Taking into consideration our current cash on hand and our available credit facilities, including the maturity of such facilities, we do not believe our ability to service our debt and sustain our operations will be materially affected for at least a 12-month period following the date of this prospectus. In the longer term, however, we may be unable to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness and to pursue growth. If our cash flows and capital resources are insufficient in the longer term to fund our obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness and other obligations or our lenders could seek to foreclose on our assets or could also sell all or substantially all of our assets under such foreclosure or other realization upon those encumbrances without prior approval of our stockholders. In the longer term, we may not be able to effect any such alternative measures, if necessary, on commercially reasonable terms or at all and, even if successful, those alternative actions may not allow us to meet our scheduled debt obligations. For more information about our debt obligations, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources”.

The terms of our debt agreements may restrict our flexibility in operating our business.

Under certain of our existing debt instruments, we and certain of our subsidiaries are subject to limitations regarding our business and operations, including limitations on the amount of certain types of assets that can be acquired, or the jurisdictions in which assets can be acquired, limitations on incurring additional indebtedness and liens, limitations on certain consolidations, mergers, and sales of assets, and restrictions on the payment of dividends or distributions. Any debt financing that we secure in the future could involve additional restrictive covenants relating to our capital-raising activities and other financial and operational matters, which may make it more difficult for us to obtain additional capital to pursue business opportunities, including potential acquisitions.

These restrictions could limit our ability to plan for or react to market conditions, meet extraordinary capital needs or otherwise take actions that we believe are in our best interests. Further, a failure by us to comply with any of these covenants and restrictions could result in an event of default that, if not waived or cured, could result in the acceleration of all or a substantial portion of the outstanding indebtedness thereunder. For more information about our debt obligations and the covenants and restrictions thereunder, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources”.

Our growth strategy requires access to new capital, which could be impaired by unfavorable capital markets.

Our growth strategy requires significant capital as we primarily purchase for an upfront fee the future stream of rental payments. Any limitations on access to new capital will impair our ability to execute our growth strategy. If the cost of capital becomes too expensive, our ability to grow will be limited. We may not be able to raise the necessary funds on satisfactory terms, if at all. To the extent that we raise capital through issuance of equity, our stockholders may suffer significant dilution. To the extent that we raise capital through additional debt, that debt (i) may adversely affect our profitability, (ii) may be secured and (iii) would rank senior to any of our equity. We have historically raised a significant portion of our capital through the issuance of secured debt,

which has a lower coupon rate than unsecured debt, but our ability to obtain secured debt in the future to execute our growth strategy is subject to our having sufficient assets eligible for securitization that are not subject to prior securitization from our existing debt. Weak economic conditions and volatility and disruption in the financial markets, including as a result of the ongoing COVID-19 pandemic, could increase the cost of raising money in the debt and equity capital markets substantially while diminishing the availability of funds from those markets which could materially impact our ability to implement our growth strategy.

An increase in market interest rates could increase our interest costs on future debt, reduce the value of our assets and affect the growth of our business, all of which may materially and adversely affect our results of operations and financial condition.

Fluctuations in interest rates may negatively impact our business. Interest rates are highly sensitive to many factors beyond our control, including general economic conditions, both domestic and foreign, and the monetary and fiscal policies of various governmental and regulatory authorities. If interest rates increase, so could our interest expense for new debt, making the financing of new assets costlier. We may incur variable interest rate indebtedness in the future. Rising interest rates could limit our ability to refinance existing debt when it matures or cause us to pay higher interest rates upon refinancing and increased interest expense on refinanced indebtedness.

Changes in interest rates may also affect the value of our assets and affect our ability to acquire new assets as site owners may be more reluctant to sell their interests during times of higher interest rates or may demand a higher cost than we have historically paid for our assets. If we cannot acquire additional assets at appropriate prices and returns or determine to pay higher amounts for additional assets, we will not be able to grow revenue to the extent expected, which could have a material adverse effect on our financial results and condition.

Our revenue is primarily derived from lease payments due from wireless carriers and tower operators; consequently, a slowdown in the demand for wireless communication services may adversely affect our business.

Our assets consist primarily of real property interests in wireless communications sites and contractual rights to the revenue stream generated from Tenant Leases. If consumers significantly reduce their minutes of use or data usage or fail to widely adopt and use wireless data applications or new technologies, wireless carriers could experience a decrease in demand for their services. In addition, delays or changes in the deployment of new technologies could reduce consumer demand. To the extent that the demand for wireless communications services decreases, the owners and operators of wireless communications towers and antennae may be less willing or able to invest additional capital in their networks, and may even reduce the number of wireless communications sites in their networks, all of which could materially and adversely affect the demand for our assets, the revenue that we are able to generate, and the rate of growth in our business.

The ongoing COVID-19 (coronavirus) pandemic could have a material adverse effect on our results of operations and financial condition.

The recent outbreak of COVID-19 (commonly referred to as coronavirus) which first occurred in Wuhan City, China and has subsequently spread to many countries throughout the world, including each of the jurisdictions in which we operate, has had a negative impact on economic conditions globally and there are concerns for a prolonged deterioration of global financial conditions. The COVID-19 outbreak has resulted in a more widespread public health crisis than that observed during the SARS epidemic of 2002-2003, which has resulted in protracted volatility in international markets and a decline in global economic conditions, including as a consequence of disruptions to travel and retail segments, tourism and manufacturing supply chains. Beginning in March 2020, we took measures to mitigate the broader public health risks associated with COVID-19 to our business and employees, including through office closures and self-isolation of employees where possible in line with the recommendations of relevant health authorities; however, the full extent of the COVID-19 outbreak and

the adverse impact this may have on our workforce and operations is unknown. Our offices globally were largely shut down beginning in the middle of March, with employees working remotely from their homes. In addition, as a result of the COVID-19 outbreak, there have been and may continue to be short-term impacts on our ability to acquire new rental streams. For example, leasing transactions in certain civil law jurisdictions such as France, Italy and Portugal often require the notarization of legal documents in person as part of the closing procedure. Government-imposed restrictions on the opening of offices and/or self-isolation measures have had, and may continue to have an adverse impact on the availability of notaries or other legal service providers or the availability of witnesses to legal documents in common law jurisdictions such as the UK and Ireland and, consequently, our ability to complete transactions may be adversely impacted during the COVID-19 outbreak. Similarly, government-imposed travel restrictions may impair our employees' ability to conduct physical inspections of cell-site infrastructure which are part of our normal transaction underwriting process.

The extent to which COVID-19 may impact our results of operations and financial condition will depend on numerous evolving factors that we cannot predict, including the duration and scope of the pandemic; governmental, business and individuals' actions that have been and continue to be taken in response to the outbreak; the impact of the outbreak on global economic activity and financial markets, including the possibility of a global recession and volatility in the global capital markets which, among other things, may increase the cost of capital and adversely impact our access to capital. For example, global macro-economic conditions have resulted in declines in foreign currency exchange rates and heightened volatility in foreign currency exchange rates across multiple currencies. These impacts, individually or collectively, could have a material adverse impact on our results of operations and financial condition as the pandemic continues. Further, the impact of COVID-19 may heighten or exacerbate many of the other risks discussed in this prospectus, any of which could have a material impact on us.

Perceived health risks from radio frequency ("RF") energy could reduce demand for wireless communications services.

The U.S. and other governments impose requirements and other guidelines relating to exposure to RF energy. Exposure to high levels of RF energy can cause negative health effects. The potential connection between exposure to low levels of RF energy and certain negative health effects, including some forms of cancer, has been the subject of substantial study by the scientific community. According to the U.S. Federal Communications Commission, the results of these studies to date have been inconclusive. However, public perception of possible health risks associated with cellular and other wireless communications media could slow the growth of wireless carriers, which could in turn slow our growth. In particular, negative public perception of, and regulations regarding, health risks could cause a decrease in the demand for wireless communications which could materially and adversely affect the demand for our assets, the revenue that we are able to generate, and the rate of growth in our business. Moreover, if a connection between exposure to low levels of RF energy and possible negative health effects, including cancer, were demonstrated, we could be subject to numerous claims relating to exposure to RF energy and, even if such claims ultimately had no merit, our financial condition could be materially and adversely affected by having to defend such claims.

If we are unable to protect and enforce our real property interests in, or contractual rights to, the revenue streams generated by leases on our communications sites, our business and operating results could be materially adversely affected.

Pursuant to our business model, we purchase the stream of future rental payments generated by an existing lease, and that will be generated by future leases, between a site owner and an owner or operator of a wireless communications tower or wireless antennae. As a lease generating such revenue stream already exists, our business model effectively puts us in the position of landlord without the consent of the wireless carrier or tower operator. Where possible, we seek to purchase an "in rem" real property interest in the land underlying the wireless tower or antennae, typically easements, usufructs, leasehold and sub-leasehold interests, and fee simple interests. If that is not feasible due to local legal requirements or commercial limitations, we will purchase a

contractual assignment of rents. As we are one of the first companies to develop an asset portfolio of revenue streams from existing wireless communications sites in some of the jurisdictions in which we operate, the “in rem” right that we have purchased has not traditionally been used in a commercial context. Consequently, our real property rights may be subject to challenge by third parties, including the wireless carriers or tower companies that are counterparties to the underlying site leases, or become subject to new regulations. Further, where we have rooftop easements (or comparable property interests), we are subject to the risk that the underlying property owners may block access to the rooftop. If we cannot enforce our real property and contractual rights, particularly to the extent any claim or regulatory constraint impacts a large number of our assets, our business and results of operations could be materially adversely affected.

Due to the long-term expectations of revenue from our assets, our results are sensitive to the creditworthiness and financial strength of our tenants and their sub-lessees.

We have purchased, for an upfront fee, the future revenue stream pursuant to the underlying Tenant Leases and subsequent leases and do not have recourse to the site owner if the tenant fails to make such future payments (absent fraud or breach of contractual representations or covenants by such site owner). Due to the long-term nature of most cell site leases, including the Tenant Leases and their sub-leases, our financial performance is dependent on the continued financial strength of the tenants, including the wireless carriers, tower companies and other owners of structures where we own the attached property rights, many of whom operate with substantial leverage. Many tenants and potential tenants rely on capital raising activities to fund their operations and capital expenditures, and downturns in the economy or disruptions in the financial and credit markets may make it more difficult and more expensive to raise capital. If, as a result of a prolonged economic downturn or otherwise, one or more of our tenants experienced financial difficulties or filed for bankruptcy, such an event could result in uncollectible accounts receivable and an impairment of our deferred rent asset. In addition, it could result in the loss of significant customers and all or a portion of our anticipated lease revenue from certain tenants, all of which could have a material adverse effect on our business, results of operations and cash flows. In addition, if the Tenant Lease tenants or sub-lessees (or potential tenants or sub-lessees) are unable to raise adequate capital to fund their business plans, they may reduce their spending, which could materially and adversely affect demand for the communications sites and the rental rates that we will be able to charge upon renewal.

Certain of our real property interests are subordinated to senior debt such as mortgages on the underlying properties.

The real property interests and contractual rights we purchase typically relate to a portion of a larger parcel of land that is owned by the site owner from whom we acquired the interests or rights. As a result, mortgages and other encumbrances, including any tax liens, which attach to the parcel as a whole, may also attach to or have enforcement priority over our interests or rights. We make an effort to target investment opportunities that are free from mortgages and other encumbrances. Where that option is not available, we make an effort to obtain non-disturbance agreements or locally comparable protections on the real property interests we acquire on mortgaged sites, but sometimes we are unable to do so. Under certain circumstances and in the absence of a non-disturbance agreement or locally comparable protections, if the underlying property owner fails to comply with or make payments under debt arrangements that grant creditors with claims on the property that are senior to ours, an event of default may result, which would allow the creditors to foreclose on any of our real property interests and contractual rights associated with that site. Any such default or foreclosure could have a material adverse effect on our results of operations and cash flow.

The tenants on the Tenant Leases underlying our assets may be exposed to force majeure events and other unforeseen events for which their insurance may not provide adequate coverage.

The communications sites underlying our real property interests and contract rights are subject to risks associated with natural disasters, such as ice and windstorms, fires, tornadoes, floods, hurricanes and earthquakes, cyber-attacks, terrorism as well as other unforeseen damage. Substantially all of the leases in our

portfolio allow the tenants either to terminate the lease or to withhold rent payments until the site is restored to its original condition should such a disaster cause damage to one of these communications sites or the equipment on such site. While tenants generally maintain insurance coverage for natural disasters, they may not have adequate insurance to cover the associated costs of repair or reconstruction for a future major event. Furthermore, while all of the Tenant Leases require that the tenants have access to the communications site, we often must rely on the site owners to take all the necessary steps to restore access to the site. In the event of any damage to the communications equipment, federal, state and local regulations may restrict the ability to repair or rebuild damaged towers or antennae. If the tenants are unwilling or unable to repair or rebuild due to damage, we may experience losses in revenue due to terminated leases and/or lease payments that are withheld pursuant to the terms of the Tenant Lease while the site is repaired.

A substantial portion of our revenue is derived from a small number of wireless carriers or tower companies in each of the jurisdictions in which we operate, and the loss, consolidation or financial instability of any of our limited number of customers may materially decrease revenue.

In each of the jurisdictions in which we operate, there are a small number of wireless carriers or tower companies. Consequently, the loss of any one of our large customers as a result of consolidation, merger, bankruptcy, insolvency, network sharing, roaming, joint development, resale agreements with other wireless carriers or otherwise may result in (i) a material decrease in our revenue, (ii) uncollectible account receivables, (iii) an impairment of our deferred site rental receivables, site rental contracts, customer relationships or intangible assets or (iv) other adverse effects on our business. Additionally, the rental payments due to us from foreign affiliates and subsidiaries of large, nationally recognized wireless carriers or tower companies may not provide for full recourse to the larger, more creditworthy parent entities affiliated with our lessees.

We may not be able to consummate or successfully integrate future acquisitions into our business, which could result in unanticipated expenses and losses.

Part of our strategy is to seek to grow through acquisitions of portfolios of assets or entities that are engaged in similar or complementary businesses. Our ability successfully to implement our acquisition strategy will depend on our ability to identify, negotiate, complete and integrate acquisitions and, if necessary, to obtain satisfactory debt or equity financing to fund those acquisitions. Mergers and acquisitions are inherently risky, and any mergers and acquisitions that we complete may not be successful. The process of integrating a large portfolio of assets or an acquired company's business into our operations is challenging and may result in expected or unexpected operating or compliance challenges, which may require significant expenditures and a significant amount of management's attention that would otherwise be focused on the ongoing operation of our business. The potential difficulties or risks of integrating an acquired company's business that could materially and adversely affect our business and results of operations include the following, which risks can be magnified when one or more integrations are occurring simultaneously or within a small period of time:

- the effect of the acquisition on our financial and strategic positions and our reputation;
- risk that we may be unable to obtain the anticipated benefits of the acquisition, including synergies, economies of scale, revenues and cash flow;
- challenges in retaining, assimilating and training new employees;
- potential increased expenditure on human resources and related costs;
- retention risk with respect to an acquired company's key executives and personnel;
- potential disruption to our ongoing business;
- investments in immature businesses or assets with unproven track records that have an especially high degree of risk, with the possibility that we may lose the value of our entire investment or incur additional unexpected liabilities (including becoming subject to foreign laws and regulations not previously applicable to us);

- potential diversion of cash for an acquisition or integration activities that would limit other potential uses for cash including marketing, and other investments;
- the assumption of known and unknown debt and other liabilities and obligations of the acquired company;
- potential integration risks relating to acquisition targets that had not previously maintained internal controls and policies and procedures over financial reporting as would be required of a public company, which may amplify our risks and liabilities with respect to our ability to develop and maintain appropriate internal controls and procedures; and
- challenges in reconciling accounting issues, especially if an acquired company utilizes accounting principles different from those used by us.

Unforeseen liabilities under environmental laws could have a material adverse effect on our results of operations and cash flow.

Laws and regulations governing the discharge of materials into the environment or otherwise relating to the protection of the environment are applicable to the communications sites in which we have a real property interest and to the businesses and operations of our lessees, property owners and other surface owners or operators. International, federal, state and local government agencies issue regulations that often require difficult and costly compliance measures that carry substantial administrative, civil and criminal penalties and that may result in injunctive obligations for non-compliance. These laws and regulations often require permits before operations commence, restrict the types, quantities and concentrations of various substances that can be released into the environment, require remediation of released substances, and limit or prohibit construction or operations on certain lands (e.g. wetlands). Although we do not conduct any operations on our properties, the wireless carriers or tower companies on our communications sites may maintain small quantities of materials that, if released, would be subject to certain environmental laws. Similarly, the site owners, lessees and other surface interest owners may have liability or responsibility under these laws that could have an indirect impact on our business. For those communications sites in which we hold real property interests that are not full fee simple ownership, our liability is typically limited to damages caused by our actions. However, in limited circumstances certain jurisdictions may seek to impose liability if all other owners are not available. With respect to the communications sites that we own in fee simple, we are subject to environmental liability in accordance with local law. Although we do not purchase property where we are aware that there are or may be any environmental issues, we do not conduct any environmental due diligence such as Phase 1 Environmental Assessments in the United States or similar inquiries outside the United States before purchasing the real property. Our agreements with lessees, counterparties and other surface owners generally include environmental representations, warranties and indemnities to minimize the extent to which we may be financially responsible for liabilities arising under these laws. However, these counterparties may not have the financial ability to comply with their assumed obligations, which may have a material adverse effect on our results of operations.

Although our real property and contractual interests generally do not make it contractually responsible for the payment of real property taxes, in our U.S. operations, if the responsible party fails to pay real property taxes, the resulting tax lien could put our real property interest in jeopardy.

Substantially all of our real property and contractual interests (87% of revenue for the year ended December 31, 2019 and 89% of annualized in-place rents as of March 31, 2020) are subject to triple net or effectively triple net lease arrangements under which we are not responsible for paying real property taxes. In the United States, if the property owner or tenant fails to pay real property taxes, any lien resulting from such unpaid taxes would be senior to our real property interest or contract rights in the applicable site. Failure of the property owner or tenant to pay such real property taxes could result in our real property interest or contract rights being impaired or extinguished or we may be forced to incur costs and pay the real property tax liability to avoid impairment of our assets. Internationally, although our real property interests would typically be senior to any

subsequent tax lien, those assets that are contractual rights (such as an assignment of rents) could be subject to liens and be deemed subordinate to such governmental claims. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”.

The failure of the property owner or tenant to maintain the property or infrastructure assets could result in a diminution of our real property and contractual interest, which could materially and adversely affect our results of operations.

Substantially all of our real property and contractual interests (87% of revenue for the year ended December 31, 2019 and 89% of annualized in-place rents as of March 31, 2020) are subject to triple net or effectively triple net lease arrangements under which we are not responsible for maintenance expenditures related to the property or infrastructure. Failure of the property owner or tenant to maintain the property or infrastructure could result in a diminution of our real property and contractual interests, or we may be forced to incur costs to maintain the property to avoid diminution of our assets. For example, the placement and performance of wireless transmissions might be impaired in a situation where a structure is not adequately maintained by the property owner, which would result in a diminution of the property. A diminution of the property could materially and adversely affect our results of operations through losses in revenue due to terminated Tenant Leases and/or lease payments that are withheld, lower lease renewal rates, the inability to lease the property, costs to maintain the assets and costs related to litigation related to the diminution of the property. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”.

Security breaches and other disruptions could compromise our information, which would cause our business and reputation to suffer.

As part of our day-to-day operations, we rely on information technology and other computer resources and infrastructure to carry out important business activities and to maintain our business records. We utilize both cloud infrastructure as well as on-premise systems physically located in our offices. These (cloud) systems are subject to interruption or damage from power outages, ISP failures, computer viruses, security breaches, errors, catastrophic events such as natural disasters and other events beyond our control which could halt or impede our business activities. Depending on the nature and scope of the incident, backups might have to be restored in order to resume business. In extreme events, backup systems could become compromised as well.

If such systems and backup systems are compromised, degraded, damaged or breached, or otherwise cease to function properly, we could suffer interruptions in our operations or unintentionally allow misappropriation of proprietary or confidential information including information about the wireless carriers or tower companies or the site owners. This could damage our reputation and disrupt operations which could adversely affect our business and operating results.

We are subject to laws, regulations and other legal obligations related to privacy, data protection, information and cyber security, and the costs of compliance with, and potential liability associated with, our actual or perceived failure to comply with such obligations could harm our business.

We receive, store and process personal information and other data from and about (i) site owners from whom we have purchased assets, (ii) the wireless carriers and tower companies from whom we receive rental payments and (iii) our employees and other service providers. Our handling of data is subject to a variety of laws and regulations by state, local and foreign agencies, as well as contractual obligations and industry standards. Regulatory focus on data privacy and security concerns continues to increase globally, and laws and regulations concerning the collection, use, and disclosure of personal information are expanding and becoming more complex.

In the United States, these include security breach notification laws and consumer protection laws, as well as state laws addressing privacy and data security. Internationally, various foreign jurisdictions in which we operate have established, or are developing, their own data privacy and security legal framework with which we or our customers must comply. In certain cases, these international laws and regulations are more restrictive than those in the United States. Our significant operations in the European Union are subject to the General Data Protection Regulation (“GDPR”), which imposes stringent data protection requirements on companies that receive or process personal information from EU residents and establishes significant penalties for non-compliance. Violations of the GDPR can result in penalties up to the greater of €20.0 million or 4% of global annual revenues and may also lead to damages claims by data controllers and data subjects. Such penalties are in addition to any civil litigation claims by data controllers, customers and data subjects. Further, the United Kingdom’s departure from the European Union (“Brexit”) has created uncertainty regarding the regulation of data protection in the United Kingdom. In particular, although the United Kingdom enacted a Data Protection Act in May 2018 that is designed to be consistent with the GDPR, uncertainty remains regarding how data transfers to and from the United Kingdom will be regulated following Brexit.

Compliance with privacy, data protection and information security laws, regulations and other obligations, which includes a long-term engagement with a cybersecurity firm to assess IT security and implement IT best practices, penetration testing by independent external parties on a recurring basis and investment in additional server hardware and licenses to monitor security events through the use of a Security Information and Event Management System (“SIEM”), is costly, and we may encounter difficulties, delays or significant expenses in connection with our compliance, or because of our customers’ need to comply or our customers’ interpretation of their own legal requirements. In addition, any failure or perceived failure by us to comply with laws, regulations, policies, legal or contractual obligations, industry standards or regulatory guidance relating to privacy or data security could result in governmental investigations and enforcement actions, litigation, fines and penalties, exposure to indemnification obligations or other liabilities, and adverse publicity, all of which could have an adverse effect on our reputation, as well as our business, financial condition, and results of operation.

Our compliance with data security laws, regulations and legal obligations is in a context in which the frequency, intensity, and sophistication of cyber-attacks, ransom-ware attacks, and other data security incidents has significantly increased in recent years. As with many other businesses, we are continually at risk of being subject to attacks and incidents. Due to the increased risk of these types of attacks and incidents, we expend significant resources on information technology and data security tools, measures, and processes designed to protect our information technology systems, as well as the personal, confidential, or sensitive information stored on or transmitted through those systems, and to ensure an effective response to any cyber-attack or data security incident. Whether or not these measures are ultimately successful, these expenditures could have an adverse impact on our financial condition and results of operations and divert management’s attention from pursuing our strategic objectives.

If we were to lose the services of certain of senior management, it could negatively affect our business.

Our senior management developed our business model and have been integral in implementing this model in the jurisdictions in which we operate. Our success depends to a significant extent upon the performance and active participation of our senior management key personnel. We cannot guarantee that we will be successful in retaining the services of members of our senior management. Although we have employment agreements with certain members of our senior management, these agreements do not ensure that those officers will continue with us in their current capacity for any particular period of time. If any of our key personnel were to leave or retire, we may not be able to find an appropriate replacement on a timely basis and our results of operations could be negatively affected.

Our directors (the “Directors”), officers and/or certain of their respective affiliates may in the future enter into related party transactions with us, which may give rise to conflicts of interest between us and some or all of our directors and officers.

Our directors and/or officers, and/or one or more of their affiliates may in the future enter into agreements with us that are not currently contemplated. While we will not enter into any related party transaction without the approval of our Audit Committee, it is possible that the entering into of such an agreement might raise conflicts of interest between us and some of our Directors and officers. For more information and a description of our policy with respect to related party transactions, see “Certain Relationships and Related Party Transactions”.

We may enter into additional credit agreements or mortgage, pledge, hypothecate or grant a security interest in all or a portion of our assets without prior approval of our stockholders.

We expect to incur additional debt to finance our operations all or a portion of which will be secured by a lien on our assets. We anticipate that the leverage we employ will vary depending on our ability to sell additional Company debt, obtain credit facilities, the targeted leveraged return we expect from our portfolio and our ability to meet ongoing covenants related to our asset mix and financial performance. Our results of operations and cash flow may be materially adversely affected to the extent that changes in market conditions cause the cost of our future financings to increase. Any significant indebtedness incurred by us or our subsidiaries could have the following material consequences, among others:

- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of cash flow to fund acquisitions, working capital, capital expenditures, dividends, research and development efforts and other general corporate purposes;
- increase the amount of our interest expense because our borrowings could include instruments with variable rates of interest, which, if interest rates increase, would result in higher interest expense;
- increase our vulnerability to general adverse economic and industry conditions;
- limit our ability to make strategic acquisitions, introduce new technologies or exploit business opportunities;
- place us at a competitive disadvantage compared to our competitors that have less indebtedness; and
- limit, among other things, our ability to borrow additional funds.

We may have limited redress in respect of claims under the APW Merger Agreement.

On February 10, 2020, DLGI acquired the APW Group from Associated Partners pursuant to the APW Merger Agreement. Except in the event of fraud, we cannot make a claim for indemnification against Associated Partners for a breach of the representations and warranties or covenants in the APW Merger Agreement. In connection with the APW Acquisition, we obtained a representation and warranty insurance policy to provide indemnification for breaches of certain representations and warranties, which policy will be subject to certain specified limitations and exclusions. There can be no assurance that, in the event of a claim, the insurance policy will cover the relevant losses, or that proceeds that are recoverable under the insurance policy (if any) will be sufficient to compensate us for any losses incurred. Therefore, we may have limited redress against Associated Partners and/or the representations and warranties insurance provider in respect of claims for breach of the warranties, covenants and other provisions in the APW Merger Agreement which could have a material adverse effect on our financial condition and results of operations.

The due diligence undertaken by us in connection with the APW Acquisition may not have revealed all relevant considerations or liabilities of the APW Group, which could have a material adverse effect on our financial condition or results of operations.

Although we conducted due diligence in connection with the APW Acquisition, we cannot assure you that this due diligence revealed all relevant facts necessary to evaluate the APW Acquisition. Furthermore, the

information provided during due diligence may have been incomplete, inadequate or inaccurate. As part of the due diligence process, we also made subjective judgments regarding the results of operations, financial condition and prospects of the APW Group. If the due diligence investigation failed to correctly identify material issues and liabilities that may be present in the APW Group, or if we considered certain material risks to be commercially acceptable relative to the opportunity, we may incur substantial impairment charges or other losses should such risks materialize. In addition, we may be subject to significant, previously undisclosed liabilities of the APW Group that were not identified during due diligence and that could contribute to poor operational performance and have a material adverse effect on our financial condition and results of operations.

The unaudited pro forma condensed combined financial information included in this prospectus may not be indicative of what our actual financial position or results of operations would have been.

The unaudited pro forma condensed consolidated combined financial information for the Company following the APW Acquisition contained in this prospectus is presented for illustrative purposes only and is not necessarily indicative of what our actual financial position or results of operations would have been had the APW Acquisition been completed on the dates indicated. See “Unaudited Pro Forma Condensed Combined Financial Information” in the financial statements included elsewhere in this prospectus.

We are a holding company whose principal source of operating cash is the income received from our subsidiaries, which may limit our ability to pay dividends or satisfy our other financial obligations.

We are a holding company with no material assets other than our limited liability company interests in APW OpCo LLC, a Delaware limited liability company (“APW OpCo”) and the indirect parent company of the APW Group, and therefore we have no independent means of generating revenue or cash flow. To the extent APW OpCo has available cash, we intend to cause APW OpCo (i) to make distributions to its unitholders, including us, in an amount sufficient to cover all applicable taxes at assumed tax rates and (ii) to reimburse us for our expenses. Our ability to pay dividends will be dependent upon the financial results and cash flows of APW OpCo and distributions received from APW OpCo with respect to our limited liability company interests in APW OpCo. The amount of distributions and dividends, if any, which may be paid from APW OpCo to us will depend on many factors, including its results of operations and financial condition, limits on dividends under applicable law, our subsidiaries’ constitutional documents and documents governing any indebtedness of our subsidiaries, and other factors that may be outside our control. If our subsidiaries are unable to generate sufficient cash flow or APW OpCo does not make distributions to us with respect to our limited liability company interests in APW OpCo for any other reason, we may be unable to make distributions and dividends on the Class A Common Shares, pay our expenses or satisfy our other financial obligations, including our obligations to service and repay our indebtedness and to pay any dividends that may be required to be paid in respect of the Series A Founder Preferred Shares.

Risks Relating to Our Securities

We cannot assure you that we will declare dividends on our Class A Common Shares or have the available cash to make such dividend payments.

Although we may pay dividends on the Class A Common Shares at such times (if any) and in such amounts (if any) as the Board determines appropriate, our current intention is to retain any earnings for use in our business operations, and we do not anticipate declaring any dividends on the Class A Common Shares in the foreseeable future. Any future determination by us to pay dividends on our Class A Common Shares will be made at the discretion of the Board, subject to applicable laws, and may depend on a number of factors, including our financial condition, results of operations, capital requirements, contractual, legal, tax and regulatory restrictions, general business conditions and other factors that the Board may deem relevant. If our subsidiaries are unable to generate sufficient cash flow or APW OpCo does not make distributions to us with respect to our limited liability company interests in APW OpCo for any other reason, we may be unable to make distributions and dividends on

our Class A Common Shares and other securities. In addition, our ability to pay cash dividends may be restricted by the terms of any future debt financing arrangements, which may contain terms restricting or limiting the amount of dividends that may be declared or paid on our Class A Common Shares and other securities. Holders of our Class A Common Shares should be aware that they have no contractual or other legal right to dividends that have not been declared. See “Dividend Policy”.

We may be required to issue additional Class A Common Shares pursuant to the terms of the Series A Founder Preferred Shares, which may dilute your interests in the Class A Common Shares.

The terms of the Series A Founder Preferred Shares will provide (i) that they will, in accordance with their terms, automatically convert into Class A Common Shares on a one-for-one basis (subject to adjustment in accordance with the certificate of incorporation of DLGI Delaware (the “Charter”), to be effective upon the Domestication) on the last day of the seventh full financial year after the Acquisition Closing Date, i.e., December 31, 2027, (or if such date is not a trading day, the first trading day immediately following such date) and (ii) that some or all of them may be converted at the option of the holder, at any time, five trading days following the Company’s receipt of a written request from the holder.

In addition, once the average price per Class A Common Share (subject to adjustment in accordance with the Charter) for any ten consecutive trading days is at least \$11.50, holders of Series A Founder Preferred Shares will be entitled to receive – when, as and if declared by the Board, and payable in preference and priority to the declaration or payment of any dividends on the Class A Common Shares and any other junior stock – a cumulative dividend in an annual dividend amount, calculated in accordance with the Charter (the “Annual Dividend Amount”). Such Annual Dividend Amount will be payable in Class A Common Shares or cash, in the sole discretion of the Board. If the Board determines to pay such Annual Dividend Amount in Class A Common Shares, then the Annual Dividend Amount will be paid by the issue of a number of Class A Common Shares equal to the Annual Dividend Amount divided by the Dividend Price. For more information on certain terms used in this paragraph and the Series A Founder Preferred Shares, see “Description of Capital Stock – Founder Preferred Shares – Series A Founder Preferred Shares”.

The precise number of Class A Common Shares that we may issue pursuant to the terms of the Series A Founder Preferred Shares cannot be ascertained at this time. The issuance of Class A Common Shares pursuant to the terms of the Series A Founder Preferred Shares will increase the number of Class A Common Shares outstanding and may therefore dilute your interests in our Class A Common Shares and/or have an adverse effect on the market price of the Class A Common Shares and the Warrants.

We may be required to issue additional Class A Common Shares pursuant to the terms of the APW LLC Operating Agreement upon the redemption or exchange of certain APW OpCo units, which may dilute your interests in the Class A Common Shares.

At any time beginning 180 days after the Acquisition Closing Date, a member of APW OpCo (other than the Company) holding Class B Common Units of APW OpCo that are Redeemable Units (as defined herein) may cause APW OpCo to redeem such Redeemable Units upon compliance with the procedures set forth in the First Amended and Restated Limited Liability Company Agreement of AP OpCo (the “APW LLC Operating Agreement”). In redemption of the Redeemable Units so redeemed, the holders thereof will be entitled to receive either (i) the Share Settlement (as defined herein) of a number of Class A Common Shares equal to such Redeemable Units or (ii) the Cash Settlement (as defined herein), as determined in accordance with the procedures set forth in the APW LLC Operating Agreement by our Independent Directors who are disinterested. The Independent Directors who are disinterested may, in accordance with the procedures set forth in the APW LLC Operating Agreement, also effect the direct exchange of such Redeemable Units for the Share Settlement or the Cash Settlement, as applicable, rather than through a redemption by APW OpCo. Simultaneous with such redemption (or direct exchange), the member of APW OpCo whose Redeemable Units were redeemed or exchanged is required to surrender to the Company for no consideration, and the Company is required to cancel

for no consideration, a number of Class B Common Shares or Series B Founder Preferred Shares, as applicable, equal to the number of Redeemable Units so redeemed or exchanged. See “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement – Redemption of Class B Common Units” and “Description of Capital Stock – Class B Common Shares – Transfer of Class B Common Shares”.

The issuance of additional Class A Common Shares pursuant to a redemption or exchange of Redeemable Units pursuant to the APW LLC Operating Agreement will increase the number of Class A Common Shares outstanding and may therefore dilute your interests in our Class A Common Shares and/or have an adverse effect on the market price of the Class A Common Shares and the Warrants.

We will be required to issue additional Class A Common Shares upon the exercise of the Warrants and/or our options, which may dilute your interests in the Class A Common Shares.

The terms of the Warrants will provide for the issuance of Class A Common Shares upon any exercise of the Warrants. Each Warrant will entitle the holder to one-third of a Class A Common Share, exercisable in multiples of three Warrants at \$11.50 per Class A Common Share (subject to adjustment in accordance with the terms and conditions of the Warrant Instrument). Based on the number of Warrants outstanding as of July 24, 2020, after giving pro forma effect to the Domestication, the maximum number of Class A Common Shares that we may be required to issue pursuant to the terms of the Warrants, subject to adjustment in accordance with the terms and conditions of the Warrant Instrument, is 16,675,000. The exercise of the Warrants will result in a dilution of the value of a stockholder’s interests in our Class A Common Shares if the value of a Class A Common Share exceeds the exercise price payable on the exercise of a Warrant at the relevant time.

In addition, as of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding options to acquire 2,647,000 Class A Common Shares (125,000 of which were vested). The exercise of such options will result in a dilution of the value of a stockholder’s interests in our Class A Common Shares.

The potential for the issuance of additional Class A Common Shares pursuant to exercise of the Warrants or the Options could have an adverse effect on the market price of the Class A Common Shares. See “Description of Capital Stock – Warrants”.

We may issue additional shares of preferred stock in the future, and the terms of such preferred stock may reduce the value of our existing securities.

The Charter will authorize us to issue up to 202,986,033 shares of preferred stock, par value \$0.0001 per share, of the Company. As of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding 1,600,000 Series A Founder Preferred Shares and 1,386,033 Series B Founder Preferred Shares. We may issue additional shares or series of preferred stock in the future, and the terms of such preferred stock may reduce the value of the Class A Common Shares, Founder Preferred Shares and Warrants.

The Board will be authorized to create and issue one or more additional series of preferred stock, and, with respect to each series, to fix the number of shares constituting the series and the designation of such series, the powers (including voting powers), if any, of the shares of such series and the preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations or restrictions, if any, of the shares of such series, in each case without stockholder approval. If we create and issue one or more additional series of preferred stock, it could affect your rights or reduce the value of your investment in our securities. The Board could, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power of the holders of our Common Shares, including holders of the Class A Common Shares, and which could have certain anti-takeover effects. See “Description of Capital Stock – Additional Preferred Stock”.

Future sales of substantial amounts of our securities, or the perception that such sales could occur, may have an adverse effect on the price of our securities.

Sales of substantial amounts of the Class A Common Shares or our other securities in the public market, particularly sales by our directors, executive officers and significant stockholders, or the perception that these sales could occur, could adversely affect the market price of our Class A Common Shares and could impair our ability to raise capital through the sale of additional equity securities.

The Charter will authorize us to issue up to 1,790,000,000 shares of common stock, consisting of 1,590,000,000 Class A Common Shares and 200,000,000 Class B Common Shares. As of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding 58,425,000 Class A Common Shares and 11,414,030 Class B Common Shares. In addition, as of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding restricted stock awarded in respect of 207,002 Class A Common Shares (none of which was vested). Holders of the Class A Common Shares and the holders of the Class B Common Shares will vote together as a single class on all matters to be voted on by our stockholders, except as otherwise provided in the Charter and subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares. See “Description of Capital Stock”.

As of the Effective Time, the outstanding Class A Common Shares, Founder Preferred Shares and Warrants of DLGI Delaware will have been registered under the Securities Act, and the Class A Common Shares and Warrants may be immediately sold either by our stockholders who are not our affiliates or by the selling stockholders pursuant to this prospectus (subject, in the case of certain selling stockholders, to the transfer restrictions described below and elsewhere in this prospectus). Moreover, once we have been a reporting company subject to the reporting requirements of Section 13 or Section 15(d) of the Exchange Act for 90 days, and assuming the availability of certain public information about us, our Directors, executive officers and other affiliates who have beneficially owned our securities for at least six months, including certain Class A Common Shares and Warrants covered by this prospectus to the extent not sold hereunder, will be entitled to sell such securities subject to volume limitations under Rule 144 under the Securities Act and certain transfer restrictions described below and elsewhere in this prospectus.

In connection with the 2017 Placing, the Series A Founders, the Series A Founder Entities and each of DLGI BVI’s directors at that time (including Michael Fascitelli and Noam Gottesman) entered, and upon the Acquisition Closing Date the Series A Founder Preferred Holder entered, into lock up arrangements pursuant to which they agreed not to offer, sell or otherwise dispose of any Ordinary Shares or any other securities exchangeable for or convertible into, or substantially similar to, Ordinary Shares (including Warrants, BVI Series A Founder Preferred Shares and, following the Domestication, Class A Common Shares and Series A Founder Preferred Shares) they may hold until 365 days after we completed an initial acquisition of an interest in an operating company or business, subject to certain customary exceptions. Because the Acquisition Closing Date occurred on February 10, 2020, these lock up arrangements will terminate on February 9, 2021. As of the date of this prospectus, 2,400,000 Ordinary Shares, 4,000,000 Warrants and 1,600,000 BVI Series A Founder Preferred Shares are subject to these lock up arrangements (all of which are also subject to the transfer restrictions under the Shareholders Agreement described below). See “Certain Relationships and Related Party Transactions – Lock-Up Agreements”.

Further, in connection with the APW Acquisition, we entered into the Shareholders Agreement, pursuant to which the Founder Entities and the other Investors (as defined herein) agreed not to make or solicit, until December 31, 2027, any transfer of any equity securities of the Company (or, in the case of Scott Bruce, Richard Goldstein and their respective permitted transferees, any BVI Series B Founder Preferred Shares or Series B Founder Preferred Shares, as applicable) owned or acquired by them or their affiliates, in each case at the time of or in connection with the APW Acquisition, subject to limited exceptions. As of the date of this prospectus, 2,400,000 Ordinary Shares, 2,781,485 BVI Class B Shares, 4,000,000 Warrants, 1,600,000 BVI Series A Founder Preferred Shares and 1,386,033 BVI Series B Founder Preferred Shares are subject to these transfer restrictions. See “Certain Relationships and Related Party Transactions – Shareholders Agreement – Transfer Restrictions”.

Also pursuant to the Shareholders Agreement, the Investors are entitled to certain demand and registration rights. See “Certain Relationships and Related Party Transactions – Shareholders Agreement – Registration Rights” and “Certain Relationships and Related Party Transactions – Centerbridge Agreements – Centerbridge Subscription Agreement – Registration Rights”. We may also choose to provide additional entities certain demand and registration rights in the future, in connection with a merger, acquisition or similar transaction, or otherwise. Any registration statement we file to register additional shares of our capital stock, whether as a result of registration rights or otherwise, could have an adverse effect on the market price of our securities.

Further, at any time beginning 180 days after the Acquisition Closing Date, a member of APW OpCo (other than the Company) holding Redeemable Units may cause APW OpCo to redeem such Redeemable Units upon compliance with the procedures set forth in the APW LLC Operating Agreement and, in redemption thereof, may be entitled to receive a Share Settlement consisting of a number of Class A Common Shares equal to such Redeemable Units. See “Certain Relationships and Related Party Transactions – APW LLC Operating Agreement – Redemption of Class B Common Units”.

We also may issue capital stock or securities convertible into our capital stock from time to time in connection with a financing, acquisition, investments or otherwise. Any such issuance could result in substantial dilution to our existing stockholders and have an adverse effect on the market price of the Common Shares, Founder Preferred Shares and Warrants.

Holders of our Common Shares will have the right to elect only four out of our eight Directors, which will limit the ability of such holders to influence the composition of the Board.

Pursuant to the Charter, so long as the Founder Entities, their affiliates and their permitted transferees under the Shareholders Agreement in the aggregate hold 20% or more of the issued and outstanding Founder Preferred Shares, the holders of the Founder Preferred Shares will, acting together, have the right to appoint four of the eight Directors on the Board (such Directors, the “Founder Directors”), two appointed by the AG Investor and two appointed by the Series A Founder Preferred Holder. In addition, the AG Group will have the right to designate a majority of the Nominating and Governance Committee of the Board, and at least four-ninths of other committee of the Board will be comprised of Founder Directors or other Directors selected by them. As a result, holders of our Common Shares (which include holders of both our Class A Common Shares and our Class B Common Shares) will have the right to elect only four out of our eight Directors, which will limit such holders’ ability to influence the composition of the Board and, in turn, potentially influence and impact future actions taken by the Board. As of the date of this prospectus, the Founder Entities hold approximately 94.98% of the outstanding BVI Founder Preferred Shares. Further, so long as Founder Preferred Shares remain outstanding, the Company may not increase the size of the Board to more than nine Directors without the prior vote or consent of the holders of at least 80% in voting power of the outstanding Founder Preferred Shares. See “Description of Capital Stock – Founder Preferred Shares” and “Certain Relationships and Related Party Transactions – Shareholders Agreement – Founder Directors”.

In addition, for so long as the Centerbridge Entities hold at least 50% of the Ordinary Shares that they purchased under the Centerbridge Subscription Agreement (or any shares of DLGI issued in exchange therefor, including Class A Common Shares), they are entitled to nominate one Director to the Board, subject to reasonable approval by AP WIP Investments Holdings, LP, a Delaware limited partnership and the parent company of the APW Group (“AP Wireless”). As of the date of this prospectus, the Centerbridge Entities hold 100% of such shares. The Centerbridge Entities also entered into a voting agreement with us whereby the Centerbridge Entities have agreed to vote any voting securities of DLGI owned by them, certain of their transferees or any of their affiliates in favor of the Founder Director nominees for a period of one year following the Acquisition Closing Date. See “Certain Relationships and Related Party Transactions – Centerbridge Agreements”.

Anti-takeover provisions in our organizational documents and under Delaware law could delay, discourage or prevent takeover attempts or changes in our management that stockholders may consider favorable.

The Charter and bylaws (the “Bylaws”) of DLGI Delaware, to be effective upon the Domestication, will contain provisions that could have the effect of delaying, discouraging or preventing takeover attempts or changes in our management without the consent of the Board. These provisions include:

- that so long as the Founder Entities, their affiliates and their permitted transferees under the Shareholders Agreement in aggregate hold 20% or more of the issued and outstanding Founder Preferred Shares, four of our eight Directors will be Founder Directors, appointed by the holders of the Founder Preferred Shares without any vote of the holders of our Common Shares;
- no cumulative voting in the election of directors, which may limit the ability of minority stockholders to elect Director candidates;
- the exclusive right of our Board to elect a director to fill a vacancy on the Board resulting from an increase in the authorized number of directors, or from death, resignation, disqualification, removal or other cause (subject to the rights of the holders of Founder Preferred Shares), which prevents stockholders from being able to fill vacancies on our Board;
- a prohibition on stockholder action by written consent (subject to exceptions for action by holders of Founder Preferred Shares), which forces stockholder action to be taken at an annual or special meeting of our stockholders;
- the ability of our Board to issue preferred stock and to determine the price and other terms of those shares, including preferences and voting rights, without stockholder approval, which could be used to significantly dilute the ownership of a hostile acquirer;
- the requirement that an annual meeting of stockholders may be called only (a) by (i) the chairman or a co-chairman of the Board, (ii) the chief executive officer, (iii) the Board or (iv) an officer of the Company authorized by the Board to do so or (b) upon the written request of holders of at least 30% of the voting power of our outstanding capital stock, which may delay the ability of our stockholders to force consideration of a proposal or to take action, including the removal of directors;
- advance notice procedures that stockholders must comply with in order to nominate candidates to our Board or to propose matters to be acted upon at a stockholders’ meeting, which may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to obtain control of us;
- limitations on the liability of, and the provision of indemnification to, our directors and officers; and
- absent our written consent to an alternative forum, the exclusive jurisdiction of the Court of Chancery of the State of Delaware or, in the case of actions arising under the Securities Act, the federal district courts of the United States of America, for certain actions against us.

In addition, effective upon the Domestication, we and our organizational documents will be governed by Delaware law. The application of Delaware law to us may have the effect of deterring hostile takeover attempts or a change in control. In particular, Section 203 of the DGCL imposes certain restrictions on “business combinations” (defined to include mergers, asset sales and other transactions) between us and “interested stockholders” (defined to include persons who hold 15% or more of our voting stock and their affiliates). Any provision of the Charter or Bylaws or Delaware law that has the effect of delaying or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their securities and could also affect the price that some investors are willing to pay for our securities.

For more information, see “Description of Capital Stock – Anti-Takeover Provisions”.

There has been no prior public market for our securities in the United States, and an active, liquid and orderly trading market for our securities may not develop or be maintained in the United States, which could limit your ability to sell our securities.

There has previously been no public market for the Class A Common Shares in the United States. Although we intend to apply to list the Class A Common Shares on Nasdaq, we cannot assure you that Nasdaq will approve such listing or that an active U.S. public market for our securities will develop or be sustained after this offering. If an active market does not develop, you may experience difficulty selling the Class A Common Shares at a price that is attractive to you or at all.

If securities or industry analysts do not publish or cease publishing research or reports about us, our business or our market, or if they change their recommendations regarding our securities adversely, the market price and trading volume of our securities could decline.

The trading market for our securities will be influenced by the research and reports that industry or securities analysts may publish about us, our business, our market or our competitors. Currently, securities and industry analysts do not publish research on us. If there is limited or no securities or industry analyst coverage of us, the market price and trading volume of our securities would likely be negatively impacted. If any of the analysts who may cover us adversely changes their recommendation regarding our securities, provides more favorable relative recommendations about our competitors, or publishes incorrect or unfavorable research about us, the price of our securities could decline. If any analyst who may cover us were to cease coverage of us or fail to regularly publish reports on us, we could lose visibility in the financial markets or demand for our securities could decrease, which could cause the market price or trading volume of our securities to decline.

You may not be able to realize returns on your investment in our securities within a period that you would consider to be reasonable.

Investments in our securities may be relatively illiquid. There may be a limited number of investors and this factor, together with the number of Class A Common Shares, Series A Founder Preferred Shares and Warrants outstanding, may contribute both to infrequent trading in our securities and to volatile market price movements. Investors should not expect that they will necessarily be able to realize their investment in our securities within a period that they would regard as reasonable. Accordingly, the Class A Common Shares, Series A Founder Preferred Shares and Warrants may not be suitable for short-term investment. Even if an active trading market develops, the market price for the Class A Common Shares may fall below the price at which they were purchased.

There is no guarantee that the Warrants will be in the money at a time when they are exercisable, and they may expire worthless. In addition, the terms of the Warrants may be amended without the consent of all holders.

The exercise price for the Warrants will be \$11.50 per share (subject to adjustment in accordance with the terms of the Warrant Instrument). There is no guarantee that the Warrants will be in the money at a time when they are exercisable, and as such, the Warrants may expire worthless.

In addition, the Warrant Instrument will provide that we may amend the terms of the Warrants in a manner adverse to a holder if holders of at least 75% of the then outstanding Warrants approve of such amendment. Although our ability to amend the terms of the Warrants with the consent of holders of at least 75% of the then outstanding Warrants will be unlimited, examples of such amendments could include amendments to, among other things, increase the exercise price of the Warrants, shorten the exercise period or decrease the number of Class A Common Shares purchasable upon exercise of a Warrant. See “Description of Capital Stock – Warrants”.

The Warrants may be mandatorily redeemed prior to their exercise at a time that is disadvantageous to holders, thereby making the Warrants worthless.

The Warrants will be subject to mandatory redemption at \$0.01 per Warrant if at any time the average price per Class A Common Share equals or exceeds \$18.00 (subject to any prior adjustment in accordance with the terms and conditions set out in the Warrant Instrument) for a period of ten consecutive trading days. See “Description of Capital Stock – Warrants”.

Mandatory redemption of the outstanding Warrants could force holders of Warrants:

- to exercise their Warrants and pay the exercise price therefor at a time when it may be disadvantageous for them to do so;
- to sell their Warrants at the then-current market price when they might otherwise wish to hold their Warrants; or
- to accept the nominal redemption price which, at the time the outstanding Warrants are called for redemption, is likely to be substantially less than the market value of their Warrants.

The market price of our securities may fluctuate significantly, and such volatility could adversely affect your investment in our securities.

Fluctuations in the market price of our securities could contribute to the loss of all or part of your investment in our securities. Even if an active market for our securities develops and is maintained, the market price of our securities could be volatile and subject to wide fluctuations in response to various factors, some of which are beyond our control. Any of the factors listed below could have a material adverse effect on your investment in our securities and our securities may trade at prices significantly below the price you paid for them. In such circumstances, the trading price of our securities may not recover and may experience a further decline. A decline in the market price of our securities also could adversely affect our ability to issue additional securities and our ability to obtain additional financing in the future.

Factors that may cause the market price of our securities to fluctuate significantly include, among others:

- quarterly variations in our operating results;
- interest rate changes;
- changes in the market’s expectations about our operating results;
- our operating results failing to meet the expectation of securities analysts or investors in a particular period;
- changes in financial estimates and recommendations by securities analysts concerning our company or our industry in general;
- operating and stock price performance of other companies that investors deem comparable to us;
- news reports relating to trends in our markets;
- additions or departures of our Directors or executive officers;
- changes in laws and regulations affecting our business;
- material announcements by us or our competitors;
- sales of substantial amounts of our securities by our Directors, executive officers or significant stockholders, or the perception that such sales could occur;
- announcement or expectation of additional equity or debt financing efforts by us;

[Table of Contents](#)

- general economic and political conditions such as recessions, acts of war or terrorism and global pandemics (including the COVID-19 pandemic); and
- the risk factors set forth in this prospectus and other matters discussed herein.

Furthermore, broad market and industry factors could cause the market price of our securities to materially decline. The stock markets have experienced significant price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations have often been unrelated or disproportionate to the operating performance of the particular companies affected. A loss of investor confidence in the market for retail stocks or the stocks of other companies which investors perceive to be similar to us, as well as fluctuations in general economic, political and market conditions, could depress the price of our securities regardless of our business, prospects, financial conditions or results of operations.

We are an emerging growth company, and we cannot be certain if the reduced reporting requirements applicable to us will make our securities less attractive to investors.

We qualify as an “emerging growth company” as defined in the JOBS Act. As such, we may take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies for as long as we continue to be an emerging growth company, including (i) the exemption from the auditor attestation requirements with respect to internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act, (ii) the exemptions from say-on-pay, say-on-frequency and say-on-golden parachute voting requirements and (iii) reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements. As a result, our stockholders may not have access to certain information they deem important. We will remain an emerging growth company until the earliest of (i) the last day of the fiscal year (a) following the fifth anniversary of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A Common Shares that are held by non-affiliates exceeds \$700 million as of the last business day of our prior second fiscal quarter and (ii) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

In addition, Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the exemption from complying with new or revised accounting standards provided in Section 7(a)(2)(B) of the Securities Act. An emerging growth company can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The JOBS Act provides, however, that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies, but any such election to opt out is irrevocable. We have elected to opt out of such extended transition period. As a result, we will adopt new or revised accounting standards on the same timeline as other public companies, and we will not be able to revoke such election.

We cannot predict if investors will find our securities less attractive because of our status as an emerging growth company and reliance on related exemptions. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and our stock price may be more volatile.

Being a U.S. public company requires significant resources and management attention and may affect our ability to attract and retain executive management and qualified Board members.

As a U.S. public company following this offering, we will incur legal, accounting and other expenses that we did not previously incur. We will be subject to the Exchange Act, including the reporting requirements thereunder, the Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act, Nasdaq listing requirements and other applicable securities rules and regulations. Compliance with these rules and regulations will increase our legal and financial compliance costs, make some activities more difficult, time consuming or costly and increase demand on our systems and resources, particularly after we are no longer an emerging growth company.

Pursuant to Section 404 of the Sarbanes-Oxley Act (“Section 404”), we will be required to furnish a report by our management on our internal control over financial reporting, including an attestation report on internal control over financial reporting issued by our independent registered public accounting firm. However, while we remain an emerging growth company, we will not be required to include this attestation report on internal control over financial reporting issued by our independent registered public accounting firm. When our independent registered public accounting firm is required to undertake an assessment of our internal control over financial reporting, the cost of complying with Section 404 will significantly increase and management’s attention may be diverted from other business concerns, which could adversely affect our business and results of operations. We may need to hire more employees in the future or engage outside consultants to comply with these requirements, which will further increase our costs and expenses. If we fail to implement the requirements of Section 404 in the required timeframe, we may be subject to sanctions or investigations by regulatory authorities, including the SEC and Nasdaq. Furthermore, if we are unable to conclude that our internal control over financial reporting is effective, we could lose investor confidence in the accuracy and completeness of our financial reports, the market price of our securities could decline, and we could be subject to sanctions or investigations by regulatory authorities. Failure to implement or maintain effective internal control systems required of public companies could also restrict our future access to the capital markets. In addition, enhanced legal and regulatory regimes and heightened standards relating to corporate governance and disclosure for public companies result in increased legal and financial compliance costs and make some activities more time consuming.

The Charter will provide that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for substantially all disputes between us and our stockholders. The Charter will also provide that the federal district courts of the United States of America will be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. These choice of forum provisions could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our Directors, officers or employees.

The Charter will provide that, unless we consent in writing to an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for: (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our Directors, officers or employees to us or our stockholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL, the Charter or the Bylaws and (iv) any action asserting a claim that is governed by the internal affairs doctrine of the State of Delaware (in each case, unless the Court of Chancery of the State of Delaware lacks jurisdiction over any such action or proceeding, in which case the sole and exclusive forum for such action or proceeding will be another state or federal court located within the State of Delaware).

The Charter will also provide that, unless we consent in writing to an alternative forum, the federal district courts of the United States of America will be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. While the Delaware Supreme Court has recently upheld provisions of the certificates of incorporation of other Delaware corporations that are similar to this forum provision, a court of a state other than the State of Delaware could decide that such provisions are not enforceable under the laws of that state.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock will be deemed to have notice of and have consented to the forum provisions in the Charter. These choice of forum provisions may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our Directors, officers, other employees or stockholders which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provisions contained in the Charter to be inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Neither the Delaware nor the Securities Act forum provisions are intended by us to limit the forums available to our stockholders for actions or proceedings asserting claims arising under the Exchange Act.

Risks Relating to Taxation

Holders of Series A Founder Preferred Shares may have to pay taxes if we make distributions of Class A Common Shares on the Series A Founder Preferred Shares, even if such holders do not receive any cash.

Under certain circumstances, the holders of Series A Founder Preferred Shares may receive distributions of Class A Common Shares. The distribution of Class A Common Shares may be treated as a taxable stock dividend under Section 305(b) of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), depending on the circumstances that exist at the time of the distribution. One such instance in which a distribution would be taxable is where, as a result of a stock dividend, a shareholder’s proportionate interest in the earnings and profits or assets of the Company is increased while any other shareholder receives a distribution (or deemed distribution) of cash or other property from the Company. The application of Section 305 of the Code to the distribution of Class A Common Shares on the Series A Founder Preferred Shares is not clear, and it is possible that the IRS will take a view that is contrary to the position that we take at the time of any future distribution. If Section 305(b) of the Code is applied to a distribution, a holder of Series A Founder Preferred Shares who receives Class A Common Shares could be treated as having received a taxable distribution in an amount equal to the value of such Class A Common Shares. Holders of the Series A Founder Preferred Shares should read “Material United States Federal Income Tax Consequences” and consult their tax advisers regarding the risk of having a taxable distribution as a result of the receipt of Class A Common Shares.

Holders may have to pay taxes if we adjust the number of Class A Common Shares into which the Series A Founder Preferred Shares are convertible, or if we adjust the exercise price with respect to the Warrants, even though holders would not receive any cash.

Holders of the Warrants and Series A Founder Preferred Shares may, in certain circumstances, be deemed to have received constructive distributions where an adjustment is made to the number of Class A Common Shares into which Series A Founder Preferred Shares are convertible, or an adjustment is made to the exercise price with respect to the Warrants. If such adjustments are made, the holders of the Series A Founder Preferred Shares or the Warrants, as applicable, may be deemed to have received a taxable distribution. Accordingly, U.S. Holders could be considered to have received distributions taxable as dividends even though they did not receive any cash or property as a result of such adjustments. In addition, non-U.S. Holders (as defined in “Material United States Federal Income Tax Consequences”) of the Series A Founder Preferred Shares or the Warrants may, in certain circumstances, be deemed to have received a distribution subject to U.S. federal withholding tax. Please consult your tax advisor and read “Material United States Federal Income Tax Consequences” regarding the U.S. federal income tax consequences of such adjustments.

THE DOMESTICATION

Overview

As promptly as practicable following the effectiveness of the registration statement of which this prospectus is a part, DLGI BVI intends to domesticate to the United States from the British Virgin Islands and will incorporate in Delaware, as DLGI Delaware, by means of a statutory domestication under Section 388 of the DGCL and Section 184 of the BVI Business Companies Act (the “Domestication”). We refer to the effective time of the Domestication as the “Effective Time”.

To effect the Domestication, upon the final approval of our Board and the effectiveness of the registration statement of which this prospectus is a part, we intend to file with the British Virgin Islands Registrar of Corporate Affairs a notice of continuation out of the British Virgin Islands and file with the Secretary of State of the State of Delaware a certificate of corporate domestication and the Charter. Under British Virgin Islands law and Delaware law, the Domestication is deemed effective upon the filing of the certificate of corporate domestication and the Charter with the Secretary of State of the State of Delaware. In addition, DLGI must file with the British Virgin Islands Registrar of Corporate Affairs certified copies of the certificates filed with the Secretary of State of the State of Delaware within 30 days of the date of their issuance by the Secretary of State of the State of Delaware. Upon our making this filing in the British Virgin Islands, the British Virgin Islands Registrar of Corporate Affairs will issue a certificate of discontinuance and, at that time, DLGI shall cease to be registered as a company in the British Virgin Islands. We intend to file the certified copies of the certificates filed with the Secretary of State of the State of Delaware with the British Virgin Islands Registrar of Corporate Affairs on the same day such certified copies are issued by the Secretary of State of the State of Delaware. Prior to the effectiveness of the registration statement of which this prospectus is a part and the Domestication, the Board and the shareholders will approve the Charter. In connection with the Domestication, the Board will adopt the Bylaws, to be effective upon the Domestication. DLGI is not required by British Virgin Islands law to receive, and has not sought or received, approval of a plan of arrangement in the British Virgin Islands, and no plan of arrangement is contemplated.

Following the Domestication, DLGI Delaware will be deemed to be the same legal entity as DLGI BVI. As further discussed below, none of our business, assets and liabilities on a consolidated basis, nor our directors, executive officers, principal business locations and fiscal year, are expected to change as a result of the Domestication. In connection with the Domestication, the Company intends to change its name to “Radius Global Infrastructure, Inc.”

Background and Reasons for the Domestication

We consider Delaware to be a longstanding leader in adopting, implementing and interpreting comprehensive and flexible corporate laws that are responsive to the legal and business needs of corporations. The Board believes that the Domestication will, among other things:

- provide legal, administrative and other similar efficiencies;
- relocate our jurisdiction of organization to one that is the choice of domicile for many publicly-traded corporations, in part because there is an abundance of case law to assist in interpreting the DGCL and the Delaware legislature frequently updates the DGCL to reflect current technology and legal trends; and
- provide a more favorable corporate environment which will help us compete more effectively with other publicly-traded companies in raising capital and in attracting and retaining skilled, experienced personnel, including because Delaware law is more developed and provides more guidance than British Virgin Islands law on matters regarding a company’s ability to limit director liability.

Effects of the Domestication

The BVI Companies Act permits a British Virgin Islands company to discontinue from the British Virgin Islands and continue in an appointed jurisdiction (which includes Delaware) as if it had been incorporated under the laws of that other jurisdiction. While we intend to seek and obtain shareholder approval of the Charter prior to the effectiveness of this registration statement, shareholder approval of the Domestication is not required by the BVI Companies Act or the BVI Articles to effect the Domestication, and the Domestication is not conditioned on receipt of such approval. We are not asking you for a proxy and you are requested not to send us a proxy. The BVI Companies Act does not provide shareholders with statutory rights of appraisal in relation to a discontinuance under the BVI Companies Act.

Section 388 of the DGCL provides that an entity organized in a country outside the United States may become domesticated as a corporation in Delaware by filing in Delaware a certificate of incorporation and a certificate of corporate domestication stating, among other things, that the domestication has been approved as provided in the organizational documents of the non-U.S. entity or applicable non-Delaware law, as appropriate. Section 388 of the DGCL provides that prior to the filing of a certificate of corporate domestication with the Secretary of State of the State of Delaware, the domestication and the certificate of incorporation to be filed with the Secretary of State of the State of Delaware must be approved in the manner provided for by the document, instrument, agreement or other writing, as the case may be, governing the internal affairs of the non-U.S. entity and the conduct of its business or by applicable non-Delaware law, as appropriate. Section 388 of the DGCL does not provide any other approval requirements for a domestication. The DGCL does not provide stockholders with statutory rights of appraisal in connection with a domestication under Section 388.

Pursuant to Section 184 of the BVI Companies Act, upon discontinuation DLGI BVI will cease to be a company incorporated under the BVI Companies Act and will continue as the same legal entity incorporated under the laws of Delaware. Similarly, Section 388 of the DGCL provides that, upon domesticating in Delaware:

- DLGI Delaware shall be deemed to be the same entity as DLGI BVI, and the domestication shall constitute a continuation of the existence of DLGI BVI in the form of DLGI Delaware;
- all rights, privileges and powers, as well as all property, of DLGI BVI shall remain vested in DLGI Delaware;
- all debts, liabilities and duties of DLGI BVI shall remain attached to DLGI Delaware and may be enforced against DLGI Delaware to the same extent as if originally incurred by it; and
- unless otherwise agreed to or otherwise required under applicable British Virgin Islands law, the domestication shall not be deemed a dissolution of DLGI BVI.

No Change in Business, Locations, Fiscal Year or Employee Plans

The Domestication will effect a change in our jurisdiction of incorporation, and other changes of a legal nature, including changes in our organizational documents, which are described in this prospectus. However, DLGI Delaware will be deemed to be the same legal entity as DLGI BVI.

Accordingly, the business, assets and liabilities of DLGI and its subsidiaries on a consolidated basis, as well as our principal locations and fiscal year, will be the same upon effectiveness of the Domestication as they are prior to the Domestication. Further, upon effectiveness of the Domestication, all of our obligations will continue as outstanding and enforceable obligations of DLGI Delaware.

All DLGI BVI employee benefit plans and agreements will be continued by DLGI Delaware. The terms of our share-based benefit plans provide that, following the Domestication, shares of stock in DLGI Delaware will be issued upon the exercise of any options or the payment of any other share-based awards granted under the plans.

Accounting Treatment of the Domestication

There will be no accounting effect or change in the carrying amount of the consolidated assets and liabilities of DLGI BVI as a result of Domestication. The consolidated business, capitalization, assets, liabilities and financial statements of DLGI Delaware immediately following the Domestication will be the same as those of DLGI BVI immediately prior thereto.

Our Directors and Executive Officers

Our Directors before the effectiveness of the Domestication will be the Directors of DLGI Delaware from and after the effectiveness of the Domestication. Our current Directors are William H. Berkman, Michael D. Fascitelli, Nick S. Advani, Antoinette Cook Bush, Noam Gottesman, Paul A. Gould, Thomas C. King and William D. Rahm. See “Directors, Executive Officers and Corporate Governance – Directors”.

Our executive officers before the effectiveness of the Domestication will be the executive officers of DLGI Delaware from and after the effectiveness of the Domestication. Our current executive officers are William H. Berkman (*Chief Executive Officer*), Scott G. Bruce (*President*), Richard I. Goldstein (*Chief Operating Officer*), Glenn J. Breisinger (*Chief Financial Officer and Treasurer*) and Jay L. Birnbaum (*General Counsel*). See “Directors, Executive Officers and Corporate Governance – Executive Officers”.

In addition, Daniel Hasselman and Scott Langeland will continue to serve as Co-CEOs of the AP Wireless Operating Subsidiaries (as defined herein). See “Directors, Executive Officers and Corporate Governance – Certain Officers of AP Wireless Operating Subsidiaries”.

Domestication Share Conversion

In the Domestication, DLGI BVI’s issued and outstanding securities will automatically convert into securities of DLGI Delaware. Specifically, at the Effective Time:

- each issued and outstanding Ordinary Share will automatically convert, by operation of law, on a one-to-one basis into a Class A Common Share;
- each issued and outstanding BVI Class B Share will automatically convert, by operation of law, on a one-to-one basis into a Class B Common Share;
- each issued and outstanding BVI Series A Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series A Founder Preferred Share;
- each issued and outstanding BVI Series B Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series B Founder Preferred Share;
- all outstanding Warrants to acquire Ordinary Shares will automatically become Warrants to acquire Class A Common Shares under the same terms and in the same proportion; and
- all outstanding options and any other rights to acquire shares of DLGI BVI will automatically become options and other rights to acquire the corresponding shares of DLGI Delaware under the same terms.

Consequently, at the Effective Time, each holder of an Ordinary Share, BVI Class B Share, BVI Founder Preferred Share or Warrant or option to acquire Ordinary Shares will instead hold a Class A Common Share, Class B Common Share, Founder Preferred Share or Warrant or option to acquire Class A Common Shares, respectively, representing the same proportional equity interest in DLGI Delaware as that holder held in DLGI BVI immediately prior to the Effective Time. The number of shares of DLGI Delaware outstanding immediately after the Effective Time will be the same as the number of shares of DLGI BVI outstanding immediately prior to the Effective Time.

We do not intend to issue new stock certificates to DLGI Delaware stockholders who currently hold any of our share certificates in connection with the Domestication, and it is not necessary for shareholders of DLGI BVI to exchange their existing share certificates for share certificates of DLGI Delaware in connection with the Domestication. A shareholder who currently holds any of our share certificates will receive a new stock certificate upon request pursuant to Section 158 of the DGCL or upon any future transaction in common stock of DLGI Delaware that requires our transfer agent to issue stock certificates in exchange for existing share certificates. Until surrendered and exchanged, each certificate evidencing Ordinary Shares will be deemed for all purposes of the Company to evidence the identical number of Class A Common Shares. Holders of uncertificated Ordinary Shares immediately prior to the effectiveness of the Domestication will continue as holders of uncertificated Class A Common Shares upon effectiveness of the Domestication.

Similarly, DLGI Delaware will not issue new options, warrants or other rights to acquire shares in DLGI Delaware until a future transaction that requires the issuance of options, warrants or other rights to acquire shares in DLGI Delaware in exchange for existing options, warrants or rights to acquire shares in DLGI BVI. Until surrendered and exchanged, each existing option, warrant or other right to acquire Ordinary Shares or any other shares in DLGI BVI will be deemed for all purposes of the Company to evidence an option, warrant or other right to acquire the identical number (or fraction, as applicable) of Class A Common Shares or other corresponding shares in DLGI Delaware.

Comparison of Shareholder Rights

As described above, the Domestication will change our jurisdiction of incorporation from the British Virgin Islands to the State of Delaware and, as a result, our organizational documents will change and will be governed by Delaware law rather than British Virgin Islands law. Those new organizational documents of DLGI Delaware, which consist of the Charter and the Bylaws, will contain, and Delaware law contains, provisions that may differ in certain respects from those in DLGI BVI's current organizational documents, which consist of the BVI Articles, and British Virgin Islands law.

The following are among the most significant differences between the existing BVI Articles of DLGI BVI and British Virgin Islands law, on the one hand, and the Charter and Bylaws of DLGI Delaware and Delaware law, on the other hand:

- Delaware law will provide that amendments to the Charter must be approved by both the Board and by the stockholders of DLGI Delaware, while British Virgin Islands law permits amendments to the BVI Articles to be made either by the shareholders or, where the BVI Articles and British Virgin Islands law permit, by resolutions of the Board (although the BVI Articles do not currently permit any amendments to be made by the Board);
- Delaware law prohibits the repurchase of shares of DLGI Delaware when its capital is impaired or would become impaired by the repurchase, while there are no such capital limitations in the BVI Companies Act;
- the Bylaws require stockholders desiring to bring a matter before an annual meeting of stockholders or to nominate a candidate for election as director to provide notice to DLGI Delaware within certain time frames, while the BVI Articles do not contain similar advance notice requirements;
- under Delaware law, only the stockholders may remove directors, while under British Virgin Islands law, a majority of the directors may remove a fellow director (although this power has been restricted under the BVI Articles);
- under Delaware law, directors may not act by proxy, while under British Virgin Islands law, directors may appoint another director or person to vote in his place, exercise his other rights as director, and perform his duties as director;
- the Charter and Bylaws do not provide stockholders of DLGI Delaware with preemptive rights, while the BVI Articles provide shareholders of DLGI BVI with certain preemptive rights;

- the Charter will provide that, absent our written consent to an alternative forum, the Court of Chancery of the State of Delaware or, in the case of actions arising under the Securities Act, the federal district courts of the United States of America, will be the sole and exclusive jurisdiction for certain actions against us; and
- under Delaware law, “business combinations” with “interested stockholders” (each as defined in Section 203 of the DGCL) are prohibited for a certain period of time absent certain requirements, while British Virgin Islands law provides no similar prohibition.

For a more detailed description of the material differences between the rights that shareholders of DLGI BVI currently have under the BVI Articles and British Virgin Islands law, and the rights that stockholders of DLGI Delaware will have under the Charter, Bylaws and Delaware law after we become a Delaware corporation in the Domestication, see “Comparison of Stockholder Rights”.

No Vote or Dissenters’ Rights of Appraisal in the Domestication

Under the BVI Companies Act and the BVI Articles, our shareholders do not have statutory rights of appraisal or any other appraisal rights of their shares as a result of the Domestication. Nor does Delaware law provide for any such rights. Shareholder approval of the Domestication is not required by the BVI Companies Act or the BVI Articles to effect the Domestication, and the Domestication is not conditioned on receipt of such approval. We are not asking you for a proxy and you are requested not to send us a proxy.

USE OF PROCEEDS

We will not receive any proceeds from the offering of the Class A Common Shares, Series A Founder Preferred Shares or the Warrants in the Domestication.

We will receive the proceeds from the exercise of Warrants, but not from the sale of the underlying shares. In the event of the exercise of all of the outstanding Warrants at an exercise price of \$11.50 per share, we would expect to receive \$191,762,500. We intend to use any proceeds for general corporate purposes, including acquisitions.

We will not receive any proceeds from the sale of any Class A Common Shares by the selling stockholders. The selling stockholders will receive all of the net proceeds from the sale of any Class A Common Shares offered by them under this prospectus. The selling stockholders will pay any underwriting discounts and commissions and expenses incurred by the selling stockholders for brokerage, accounting, tax, legal services or any other expenses incurred by the selling stockholders in disposing of such shares. We will bear all other costs, fees and expenses incurred in effecting the registration of the Class A Common Shares covered by this prospectus.

DIVIDEND POLICY

We may pay dividends on the Class A Common Shares at such times (if any) and in such amounts (if any) as the Board determines. Our current intention is to retain any earnings for use in our business operations, and we do not anticipate declaring any dividends on the Class A Common Shares in the foreseeable future. We will pay dividends only to the extent that to do so is in accordance with all applicable laws.

Once the Average Price per Class A Common Share (subject to adjustment in accordance with the Charter) for any ten consecutive Trading Days is at least \$11.50, a holder of Series A Founder Preferred Shares will be entitled to receive – when, as and if declared by the Board, and payable in preference and priority to the declaration or payment of any dividends on the Class A Common Shares and any other junior stock – a cumulative annual dividend of the Annual Dividend Amount for each relevant Dividend Year. Such dividend will be payable in Class A Common Shares or cash, in the sole discretion of the Board. In the first Dividend Year in which such dividend becomes payable, such dividend will be equal in value to (i) 20% of the increase in the market value of one Class A Common Share, being the difference between \$10.00 and the Dividend Price, multiplied by (ii) such number of Class A Common Shares equal to the Preferred Share Dividend Equivalent.

Thereafter, the Annual Dividend Amount will become payable, when, as and if declared by the Board, only if the Dividend Price during any subsequent Dividend Year is greater than the highest Dividend Price in any preceding Dividend Year in which a dividend was paid in respect of the Series A Founder Preferred Shares. Such Annual Dividend Amount will be equal in value to 20% of the increase in the Dividend Price over the highest Dividend Price in any preceding Dividend Year multiplied by the Preferred Share Dividend Equivalent. On the last day of the seventh full financial year after the Acquisition Closing Date, i.e. December 31, 2027, (or, if any such day is not a Trading Day, the first Trading Day immediately following such day), the Series A Founder Preferred Shares will automatically convert to Class A Common Shares on a one-to-one basis (subject to adjustment in accordance with the Charter).

The Series A Founder Preferred Shares will participate in any dividends on the Class A Common Shares on an as-converted to Class A Common Shares basis. In addition, commencing on and after the Acquisition Closing Date, where the Company pays a dividend on the Class A Common Shares, the Series A Founder Preferred Shares will also receive an amount equal to 20% of the dividend that would be distributable on such number of Class A Common Shares equal to the Preferred Share Dividend Equivalent. All such dividends on the Series A Founder Preferred Shares will be paid contemporaneously with the dividends on the Class A Common Shares.

The Class B Common Shares and the Series B Founder Preferred Shares will not entitle their holders to receive any distributions or dividends.

For more information on the terms used in this section and the dividend rights of the Series A Founder Preferred Shares, see “Description of Capital Stock – Founder Preferred Shares – Series A Founder Preferred Shares”.

SELECTED HISTORICAL FINANCIAL INFORMATION OF THE PREDECESSOR AND THE SUCCESSOR

Following the closing of the APW Acquisition on February 10, 2020, the APW Group is considered to be our Predecessor and DLGI and its subsidiaries is considered to be our Successor for financial reporting purposes.

The following tables present selected historical consolidated financial information of our Predecessor and our Successor, as of the dates and for each of the periods indicated. - (1) Leases is an operating metric that represents each lease acquired by the APW Group. Each site purchased by the APW Group consists of at least one revenue producing lease stream, and many of these sites contain multiple lease streams.
- (2) Sites is an operating metric that represents each individual physical location where the APW Group has acquired a real property interest or a contractual right that generates revenue.
- (3) Acquisition Capex is a non-GAAP financial measure. Acquisition Capex represents the total cash spent and committed to be spent for the Company's acquisitions of revenue-producing assets during the period measured. Management believes the presentation of Acquisition Capex provides valuable additional information for users of the financial statements in assessing our financial performance and growth, as it is a comprehensive measure of our investments in the revenue-producing assets that we acquire in a given period. Acquisition Capex has important limitations as an analytical tool, because it excludes certain fixed and variable costs related to our selling and marketing activities included in selling, general and administrative expenses in the consolidated statements of operations, including corporate overhead expenses. Further, this financial measure may be different from calculations used by other companies and comparability may therefore be limited. You should not consider Acquisition Capex or any of the other non-GAAP measures we utilize as an alternative or substitute for our results.

assets, the most comparable GAAP measure, which generally represents up-front payments made in connection the acquisition of these assets during the period. The primary adjustment to the comparable GAAP measure is “committed contractual payments for investments in real property interests and intangible assets”, which represents the total amount of future payments that we were contractually committed to make in connection with our acquisitions of real property interests and intangible assets that occurred during the period. Additionally, foreign exchange translation adjustments impact the determination of Acquisition Capex.

- (4) EBITDA and Adjusted EBITDA are non-GAAP measures. EBITDA is defined as net income (loss) before net interest expense, income tax expense, and depreciation and amortization. Adjusted EBITDA is calculated by taking EBITDA and further adjusting for management incentive plan expense, non-cash impairment – decommission of cell sites expense, realized and unrealized gains and losses on foreign currency debt, realized and unrealized foreign exchange gains/losses associated with intercompany account balances denominated in a currency other than the functional currency and one-time severance costs included in selling, general and administrative expenses. Management believes the presentation of EBITDA and Adjusted EBITDA provides valuable additional information for users of the financial statements in assessing the financial condition and results of operations of the APW Group. Each of EBITDA and Adjusted EBITDA has important limitations as analytical tools because they exclude some, but not all, items that affect net income, therefore the calculation of these financial measures may be different from the calculations used by other companies and comparability may therefore be limited. You should not consider EBITDA, Adjusted EBITDA or any of our other non-GAAP financial measures as an alternative or substitute for AP WIP Investments’ results.

| Adjusted EBITDA (a) | \$ 829 | \$ 2,704 | \$ 5,799 | \$ 20,473 | \$ 19,699 |

- (a) Adjusted EBITDA includes the impact of 100% of selling, general, and administrative expense from the applicable statement of operations, other than one-time severance expense. Management estimates that approximately 80% of the historical selling, general, and administrative costs for each of the periods presented are related to the acquisition of revenue producing assets.

- (5) Annualized in-place rents is a non-GAAP measure that measures performance based on annualized contractual revenue from the rents expected to be collected on the leases in place as of the measurement date. Annualized in-place rents is calculated using the implied monthly revenue from all revenue producing leases that are in place as of the measurement date multiplied by twelve. Implied monthly revenue for each lease is calculated based on the most recent rental payment made under such lease. Management believes the presentation of annualized in-place rents provides valuable additional information for users of the financial statements in assessing the financial performance and growth of the APW Group. Annualized in-place rents has important limitations as an analytical tool because, among other things, the underlying leases used in calculating the Annualized in-place rents financial measure may be terminated, new leases may be acquired, or the contractual rents payable under such leases may not be collected. In these respects, among others, annualized in-place rents differs from “revenue”, which is the closest comparable GAAP measure and which represents all revenues (contractual or otherwise) earned over the applicable period. You should not consider annualized in-place rents or any of the other non-GAAP measures we utilize as an alternative or substitute for AP WIP Investments’ results. The following is a comparison of annualized in-place rents to revenue, the most comparable GAAP measure:

Notes to the Unaudited Pro Forma Condensed Combined Financial Information

Note 1 – Basis of Presentation and Description of Transactions

The unaudited pro forma condensed combined financial information was prepared in accordance with U.S. GAAP and pursuant to the rules and regulations of SEC Regulation S-X and presents the pro forma results of operations of the combined companies based upon the historical data of DLGI and the APW Group.

Description of Transactions

On February 10, 2020, the Company completed the APW Acquisition, acquiring AP Wireless in a business combination. The acquisition was completed through a merger of a newly created DLGI subsidiary with and into APW OpCo, with APW OpCo surviving the merger as a majority -owned subsidiary of DLGI. Following completion of the APW Acquisition on the Acquisition Closing Date, DLGI owned 91.8% of APW OpCo, with certain former partners of Associated Partners who were members of APW OpCo immediately prior to the Acquisition Closing Date and who elected to roll over their investment in APW OpCo in connection with the APW Acquisition (the “Continuing OpCo Members”) owning the remaining 8.2%.

The aggregate acquisition consideration transferred in the APW Acquisition was approximately \$389.6 million, which consisted of cash consideration of approximately \$325.4 million and equity consideration of approximately \$64.2 million. The cash component of the consideration, which includes approximately \$65 million to redeem a minority investor in the AP Wireless business, was funded through the liquidation of cash equivalents owned by DLGI. The equity component of the consideration represents the fair value of the limited liability company units in APW OpCo issued to the Continuing OpCo Members, and includes Class B Common Units, Series A Rollover Profits Units and Series B Rollover Profits Units (collectively, the “Consideration Units”).

In connection with the APW Acquisition, DLGI entered into the Centerbridge Subscription Agreement with the Centerbridge Entities. Pursuant to the Centerbridge Subscription Agreement, the Centerbridge Entities subscribed for \$100 million of Ordinary Shares, at a price of \$10.00 per Ordinary Share, on the Acquisition Closing Date. The cash proceeds from the Centerbridge Subscription are available for general working capital purposes.

Basis of Presentation

The historical consolidated financial statements have been adjusted in the pro forma condensed combined financial statements to give effect to pro forma events that are (1) directly attributable to the APW Acquisition, (2) factually supportable and (3) with respect to the pro forma condensed combined statement of operations, expected to have a continuing impact on the combined results of DLGI following the APW Acquisition.

The APW Acquisition is being accounted for as a business combination using the acquisition method with DLGI as the accounting acquirer in accordance with ASC Topic 805, Business Combinations. As the accounting acquirer, DLGI has estimated the fair value of the APW Group’s assets acquired and liabilities assumed and conformed the accounting policies of the APW Group to its own accounting policies.

As a result of the APW Acquisition, DLGI is the acquirer for accounting purposes, and the APW Group is the acquiree and accounting predecessor. DLGI’s financial statement presentation as of and for the three months ended March 31, 2020 distinguishes the Company’s financial performance into two distinct periods, the period up to the Acquisition Closing Date (labeled “Predecessor”) and the period including and after the Acquisition Closing Date (labeled “Successor”).

The Pro Forma Statements do not necessarily reflect what the combined company’s results of operations would have been had the acquisition occurred on the date assumed. They also may not be useful in predicting the future results of operations of the combined company. The actual results of operations may differ significantly from the pro forma amounts reflected herein due to a variety of factors.

Items Not Adjusted in the Unaudited Pro Forma Condensed Combined Financial Information

During the APW Group's fiscal year ended December 31, 2019 and for the Predecessor period from January 1, 2020 to February 9, 2020, the APW Group was a portfolio company of Associated Partners, and the APW Group's executive officers were employees of Associated Group Management, LLC ("Associated Group Management"), the manager of Associated Partners, and were therefore responsible for managing Associated Partners' investment in the APW Group. Following the Acquisition Closing Date, such executive officers were employees of DLGI, and DLGI's business encompasses both the investment management role previously performed at the Associated Group Management level and the business operations previously conducted by the APW Group. DLGI anticipates that the APW Acquisition will result in an estimate of approximately \$11.5 million of annual incremental selling, general and administrative expenses for the internalization of the APW Group management team, which prior to the APW Acquisition were obligations of Associated Group Management and therefore excluded from the selling, general, and administrative expenses of the APW Group. Additionally, DLGI estimates that the APW Acquisition will result in an additional \$7.0 million of public company costs, which are also excluded from the selling, general, and administrative expenses of the APW Group. The inclusion of these costs on the unaudited pro forma statement of operations for the year ended October 31, 2019 and for the three months ended March 31, 2020 would increase selling, general and administrative expenses by approximately \$18.5 million and \$2.3 million, respectively, and increase net loss by approximately \$18.5 million and \$2.3 million, respectively.

Note 2 – Preliminary purchase price allocation

The aggregate purchase consideration transferred in the APW Acquisition was estimated to be approximately \$389.6 million, and is calculated as the sum of the fair values of the cash and equity consideration, as follows:

| | |
|---------------------------------|-------------------|
| <i>(in thousands)</i> | |
| Cash consideration | \$ 325,424 |
| Equity consideration | 64,193 |
| Total acquisition consideration | <u>\$ 389,617</u> |

In connection with the APW Acquisition, the APW OpCo units held by the Continuing OpCo Members prior to the APW Acquisition were canceled and converted into the right to receive BVI Class B Shares and the Consideration Units in APW OpCo as equity consideration. The Company determined that the Consideration Units represent and were then accounted for as a single, hybrid financial instrument, classified as permanent equity and presented as noncontrolling interests in the consolidated balance sheet of the Company. The estimated fair value of the Consideration Units was calculated using a Monte Carlo simulation model, which used the following assumptions: 18.6% expected volatility, a risk-free interest rate of 1.5%, estimated term of 7 years and a fair value of DLGI's Ordinary Shares of \$10.00.

[Table of Contents](#)

DLGI recorded a preliminary allocation of the acquisition consideration to the APW Group's identified tangible and identifiable intangible assets acquired and liabilities assumed based on their fair value as of the Acquisition Closing Date. The excess of the acquisition consideration over the fair value of the assets acquired and liabilities assumed was recorded as goodwill. The following is a summary of the estimated fair values of the assets acquired and liabilities assumed as of the Acquisition Closing Date:

| | |
|--|-------------------|
| <i>(in thousands)</i> | |
| Cash and restricted cash | \$ 48,359 |
| Trade receivables | 8,077 |
| Prepaid expenses and other assets | 31,775 |
| Real property interests | 900,147 |
| Intangible assets | 5,400 |
| Accounts payable and other liabilities | (23,441) |
| Rent received in advance | (15,837) |
| Real property interest liabilities | (33,398) |
| Long-term debt | (570,174) |
| Deferred tax liability | (50,547) |
| Net identifiable assets acquired | 300,361 |
| Goodwill | 89,256 |
| Total acquisition consideration | <u>\$ 389,617</u> |

The preliminary allocation of the acquisition consideration is based on preliminary valuations performed to determine the fair value of the APW Group's net assets as of the Acquisition Closing Date. This allocation is subject to revision as the assessment is based on preliminary information. Identified intangible assets relate to in-place tenant leases.

The preliminary purchase price allocation has been used to prepare pro forma adjustments in the pro forma condensed combined statement of operations. The final purchase price allocation will be determined when the Company has completed the detailed valuations and necessary calculations. The final allocation could differ materially from the preliminary allocation used in the pro forma adjustments. The Company expects to finalize the allocation of the purchase price upon finalization of the valuation primarily for the real property interests and finance lease and cell site leasehold interest liabilities, as well as the finalization of the valuation of noncontrolling interests. Any adjustments to the preliminary fair values will be made as soon as practicable but no later than one year from the Acquisition Closing Date.

Amortization related to the fair value adjustments to the real property interests and identified in-place tenant lease intangible assets is reflected as a pro forma adjustment in the unaudited pro forma condensed combined statement of operations based on the estimated remaining useful lives, as further described in Note 3(e) and Note 3(f). The fair value of the real property interests and identified in-place tenant lease intangible assets and related amortization are preliminary and are based on preliminary valuations prepared by third-party advisors and reviewed by management. As discussed above, the amount that will ultimately be allocated to real property interests and identified in-place tenant lease intangible assets and the related amount of amortization, may differ materially from this preliminary allocation. In addition, the amortization impacts will ultimately be based upon the periods in which the associated economic benefits or detriments are expected to be derived. Therefore, the amount of amortization following the APW Acquisition may differ significantly between periods based upon the final value assigned and amortization methodology used for each the real property interests and identified in-place tenant lease intangible asset.

Note 3 – Pro forma adjustments

The pro forma adjustments are based on preliminary estimates and assumptions that are subject to change. In certain circumstances, the pro forma adjustment was based on a determination of fair value. Estimating fair value requires management judgment and often involves the use of estimates and assumptions that market participants would use in pricing the asset, liability or equity at the measurement date. The following adjustments have been reflected in the unaudited pro forma condensed combined statement of operations:

- a) Reflects the elimination of material, nonrecurring transaction costs recorded by DLGI and APW Group during the three months ended March 31, 2020 and year ended October 31, 2019. Costs primarily include financial advisory fees, attorney's fees and accountants' fees.
- b) Adjustment to eliminate share-based expense associated with the grant date fair value of the Annual Dividend Amount in respect of the BVI Series A Founder Preferred Shares, which was triggered upon the closing of the APW Acquisition. The share-based expense, which was recorded by DLGI during the Successor period from February 10, 2020 to March 31, 2020, represents a one-time expense recorded at the closing of the APW Acquisition and will not have a continuing impact on the consolidated statement of operations in future periods.
- c) Adjustment to eliminate share-based expense associated with the grant date fair value of stock options granted to three of DLGI BVI's directors – Lord Myners and Messrs. Isaacs and Yamen (collectively, the "Independent Non-Founder DLGI BVI Directors") – , which was triggered upon the closing of the APW Acquisition. See "Certain Relationships and Related Party Transactions – Director Options and Warrants". The share-based expense, which was recorded by DLGI during the Successor period from February 10, 2020 to March 31, 2020, represents a one-time expense recorded at the closing of the APW Acquisition and will not have a continuing impact on the consolidated statement of operations in future periods.
- d) Adjustment to record the amortization of long-term incentive awards granted to certain executives of APW Group in conjunction with the APW Acquisition. The grant date fair value of the long-term incentive awards will be recognized ratably over the service periods, ranging from approximately 3 to 7 years. The estimated grant date fair values of the long-term incentive awards were calculated either: (1) based upon the price of the Ordinary Shares pursuant to the Centerbridge Subscription Agreement or (2) using a Monte Carlo simulation model, using the following assumptions: fair value of DLGI's Ordinary Shares of \$10.00, 18.4-19.7% expected volatility, a risk-free interest rate of 1.5-1.6% and estimated term of 7.9-9.9 years.
- e) Represents the amortization adjustment of acquired real property interests resulting from the fair value adjustment of these assets. For the year ended December 31, 2019, the amortization adjustment was calculated as the estimated future annual amortization amounts on the real property interests less historical amortization recorded on the real property interests during the period. For the three months ended March 31, 2020, the amortization adjustment was calculated as the estimated future quarterly amortization amounts on the real property interests less historical amortization recorded on the real property interests during the Predecessor period from January 1, 2020 to February 9, 2020 and the Successor period from February 10, 2020 to March 31, 2020. The estimated future amortization amounts on the real property interest was determined using a straight-line method of depreciation based on an estimated weighted average remaining useful lives of the right-of-use assets and cell site leasehold interests of approximately 25 years and 21 years, respectively.
- f) Represents the amortization adjustment of the in-place tenant lease intangible asset resulting from the fair value adjustment to these assets. For the year ended December 31, 2019, the amortization adjustment was calculated as the estimated future annual amortization amounts less historical amortization recorded on the intangible assets during the period. For the three months ended March 31, 2020, the amortization adjustment was calculated as the estimated future quarterly amortization amounts on the intangible assets less historical amortization recorded on the intangible assets during the Predecessor period from January 1, 2020 to February 9, 2020 and the Successor period from February 10, 2020 to March 31, 2020. The future amortization of the in-place tenant lease intangible asset was based on an estimated useful life of

approximately 9 years. The estimated useful life was determined based on a review of the time period over which the economic benefit is estimated to be generated, generally considered to be the remaining cell site lease term with the in-place tenant, including ordinary renewals at the option of the tenant.

- g) Adjustment to eliminate DLGI's investment income for the period from January 1, 2020 to February 9, 2020 and during the year ended October 31, 2019. The marketable securities and cash equivalents that generated the investment income were used as proceeds in the APW Acquisition and therefore would not have resulted in investment income if the APW Acquisition had been completed as of the date assumed.
- h) Adjustment to allocate net income (loss) to noncontrolling interest holders as a result of the issuance of limited liability company units in APW OpCo as part of the consideration transferred in the APW Acquisition. The net income (loss) allocated to noncontrolling interest is computed by applying the percentage of limited liability company units in APW OpCo issued to the Continuing OpCo Members of approximately 8.2%.
- i) For the three months ended March 31, 2020, pro forma weighted average shares is equal to the weighted average shares of DLGI for the Successor period from February 10, 2020 to March 31, 2020. For the year ended October 31, 2019, the increase in weighted average shares reflects the issuance of 10 million Ordinary Shares pursuant to the Centerbridge Subscription.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS BUSINESS

The following is a discussion and analysis of our financial condition and result of operations and should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this prospectus. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Please see "Cautionary Note Regarding Forward-Looking Statements". Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this prospectus, particularly under "Risk Factors".

Overview

We are a holding company with no material assets other than our limited liability company interests in APW OpCo, the sole member of AP Wireless and indirect parent of the APW Group. We were incorporated under the laws of the British Virgin Islands on November 1, 2017 and were formed to undertake an acquisition of a target company or business. On November 20, 2017, we raised approximately \$500 million before expenses through the 2017 Placing and a private subscription by the Series A Founders for the BVI Series A Founder Preferred Shares, and our Ordinary Shares and Warrants were listed on the LSE.

On February 10, 2020, we completed the APW Acquisition. Effective as of the Acquisition Closing Date, the APW Group is considered to be our Predecessor for financial reporting purposes. Except as the context otherwise requires, for all dates and periods ending on or before the Acquisition Closing Date, the historical financial results discussed below with respect to such periods reflect the results of the APW Group. We did not own the APW Group during any such periods, and such historical financial results may not be indicative of the results we would expect to recognize for periods after the Acquisition Closing Date, or that we would have recognized had we owned the APW Group during such periods.

Except as the context otherwise requires, references in the following discussion to the "Company", "DLGI", "we", "our" or "us" with respect to periods prior to the Acquisition Closing Date are to our Predecessor, the APW Group, and its operations prior to the Acquisition Closing Date; such references with respect to periods after to the Acquisition Closing Date are to our Successor, DLGI and its subsidiaries (including the APW Group), and their operations after the Acquisition Closing Date. AP Wireless and its subsidiaries (including AP WIP Investments) continue to exist as separate subsidiaries of DLGI and those entities are separately financed, with each having debt obligations that are not obligations of DLGI. See "– Liquidity and Capital Resources – Debt Obligations" below. For a chart showing our simplified organizational structure following the APW Acquisition, see "– Liquidity and Capital Resources – Debt Obligations" below.

In connection with the Domestication, we intend to change our name from Digital Landscape Group, Inc. to "Radius Global Infrastructure, Inc."

The APW Group

The APW Group is one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights. The APW Group purchases, primarily for a lump sum, the right to receive future rental payments generated pursuant to an existing Tenant Lease (and any subsequent lease or extension or amendment thereof). Typically, the APW Group acquires the rental stream by way of a purchase of a real property interest in the land underlying the wireless tower or antennae, most commonly easements, usufructs, leasehold and sub-leasehold interests, or fee simple interests, each of which provides the APW Group the right to receive the rents from the Tenant Lease. In addition, the APW Group purchases contractual interests, such as an assignment of rents, either in conjunction with the property interest or as a stand-alone right. As of March 31, 2020 and December 31, 2019, we had interests in

approximately 6,300 and 6,100 leases that generate rents for us, respectively. These leases related to properties that were situated on approximately 4,800 and 4,600 different communications sites, respectively, throughout the United States and 18 other countries. For the year ended December 31, 2019, the APW Group's revenue was \$55.7 million, and annualized in-place rents were approximately \$62.1 million. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see "—Non-GAAP Financial Measures" below.

The APW Group's primary objectives are to continuously acquire, aggregate and hold underlying real property interests and revenue streams critical for wireless communications. The APW Group purchases the right to receive future rental payments generated pursuant to an existing Tenant Lease between a property owner and an owner of a wireless tower or antennae either through an up-front payment or on an installment basis from landowners who have leased their property to companies that own telecommunications infrastructure assets. The real property interests (other than fee simple interests which are perpetual) typically have stated terms of 30 to 99 years, although some are shorter, and provide the APW Group with the right to receive the future income from the future Tenant Lease rental payments over a specified duration. In most cases, the stated term of the real property interest is longer than the remaining term of the Tenant Lease, which provides the APW Group with the right and opportunity for renewals and extensions. In addition to real property rights, the APW Group acquires contractual rights by way of an assignment of rents. The rent assignment is a contractual obligation pursuant to which the property owner assigns its right to receive all communications rents relating to the property, including rents arising under the Tenant Lease, to the APW Group. A rent assignment relates only to an existing Tenant Lease and therefore would not provide the APW Group the ability automatically to benefit from lease renewals beyond those provided for in the existing Tenant Lease. However, in these cases, the APW Group either limits the purchase price of the asset to the term of the current Tenant Lease or obtains the ability to negotiate future leases and a contractual obligation from the property owner to assign rental streams from future Tenant Lease renewals.

The APW Group's primary long-term objective is to continue to grow its business organically, through annual rent escalators, the addition of new tenants and/or lease modifications, and acquisitively, as it has done in recent years, and fully take advantage of the established asset management platform it has created.

APW Acquisition Transactions

APW Acquisition

On November 19, 2019, we announced our entry into a definitive agreement to acquire AP Wireless and its subsidiaries from Associated Partners. Upon completion of the APW Acquisition on the Acquisition Closing Date, we acquired a 91.8% interest in APW OpCo, the parent of AP Wireless and the indirect parent of the APW Group, for consideration of approximately \$860 million less (i) debt as of June 30, 2019 of approximately \$539 million, (ii) approximately \$65 million to redeem a minority investor in the AP Wireless business and (iii) allocable transaction expenses of approximately \$10.7 million plus (iv) cash as of June 30, 2019 of approximately \$66.5 million (subject to certain limited adjustments). The acquisition was completed through a merger of one of DLGI's subsidiaries with and into APW OpCo, with APW OpCo surviving such merger as a majority owned subsidiary of ours. Following the APW Acquisition, we own 91.8% of APW OpCo, with certain former partners of Associated Partners who were members of APW OpCo immediately prior to the Acquisition Closing Date and who elected to roll over their investment in APW OpCo in connection with the APW Acquisition (the "Continuing OpCo Members") owning the remaining 8.2% interest in APW OpCo. As a result, the AP Wireless business is 100% owned by DLGI and the Continuing OpCo Members. See "Certain Relationships and Related Party Transactions—APW Merger Agreement" for more information.

Certain securities of APW OpCo issued and outstanding upon completion of the APW Acquisition are subject to time and performance vesting conditions. In addition, all securities of APW OpCo held by persons other than the Company are exchangeable for Ordinary Shares and, following the Domestication, will be exchangeable for Class A Common Shares. If all APW OpCo securities vested and no securities have been

exchanged for Ordinary Shares or Class A Common Shares, as applicable, the Company will own approximately 82.0% of APW OpCo. See “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement” for more information about the APW OpCo securities, and “Security Ownership by Management and Certain Beneficial Owners” for more information about ownership of our securities.

The APW Acquisition constituted a “Reverse Takeover” under United Kingdom listing rules, causing the listing on the LSE of the Ordinary Shares and Warrants to be suspended on November 20, 2019 pending the Company publishing a prospectus in relation to admission of the Class A Common Shares and Warrants to listing. The United Kingdom Financial Conduct Authority accepted the Company’s application for listing on March 27, 2020 and trading of the Company’s Ordinary Shares and Warrants on the LSE recommenced on April 1, 2020. In connection with the filing of the registration statement of which this prospectus is a part, we intend to apply to list the Class A Common Shares on Nasdaq under the symbol “RADI”, effective upon the completion of the Domestication. We intend to cancel the listing of the Ordinary Shares and Warrants on the LSE upon the listing of the Class A Common Shares and Warrants on Nasdaq.

Centerbridge Subscription

In connection with the APW Acquisition, the Company entered into the Centerbridge Subscription Agreement with the Centerbridge Entities, pursuant to which the Centerbridge Entities subscribed for \$100 million of Ordinary Shares, at a price of \$10 per Ordinary Share, on the Acquisition Closing Date. The cash proceeds from the Centerbridge Subscription are available for general working capital purposes, including the acquisition of real property interests and revenue streams critical for wireless communications. See “Certain Relationships and Related Party Transactions – Centerbridge Agreements – Centerbridge Subscription Agreement” for more information.

Basis of Presentation

As a result of the APW Acquisition, for accounting purposes, DLGI is the acquirer and the APW Group is the acquiree and, effective as of the Acquisition Closing Date, is the accounting Predecessor to DLGI, as DLGI had no operations prior to the APW Acquisition. Accordingly, the financial statement presentation set forth herein includes the financial statements of the APW Group as “Predecessor” for periods prior to the Acquisition Closing Date and DLGI as “Successor” for periods on and after the Acquisition Closing Date, including the consolidation of the APW Group. The APW Acquisition was accounted for as a business combination under the scope of the Financial Accounting Standards Board’s Accounting Standards Codification 805, *Business Combinations*.

Except as the context otherwise requires, for all dates and periods ending on or before the Acquisition Closing Date, the historical financial results discussed below with respect to such periods reflect the results of our Predecessor, the APW Group. We did not own the APW Group during any such periods, and such historical financial results may not be indicative of the results we would expect to recognize for periods after the Acquisition Closing Date, or that we would have recognized had we owned the APW Group during such periods.

For the Successor period from February 10, 2020 through March 31, 2020, DLGI consolidated the financial position and results of operations of AP WIP Investments and its subsidiaries. For the Predecessor periods prior to February 10, 2020, the consolidated financial statements presented and discussed below include the accounts of AP WIP Investments and its wholly owned subsidiaries, as well as a variable interest entity (“VIE”) for which a subsidiary of AP WIP Investments was considered the primary beneficiary. Such consolidated financial statements were prepared in accordance with U.S. GAAP, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. All intercompany transactions and account balances have been eliminated.

Key Factors Affecting Financial Results

We operate in a complex environment with several factors affecting our operations in addition to those described above. The following discussion describes key factors affecting the Company, including AP Wireless and the APW Group, and that will affect the financial condition and results of operations of the Company.

Impact of the COVID-19 global pandemic

The recent outbreak of COVID-19 (commonly referred to as coronavirus) and the response thereto has had an impact in each of the jurisdictions in which we operate and has had a negative impact on economic conditions globally. At the end of the first quarter of 2020, particularly during the last two weeks of March 2020, many of the markets and countries in which we operate saw the imposition of stay at home orders and other lock down measures in response to COVID-19. Accordingly, beginning in March 2020, we took measures to mitigate the broader public health risks associated with COVID-19 to our business and employees, including through office closures and self-isolation of employees (including by holding virtual meetings) where possible in line with the recommendations of relevant health authorities. While in the second quarter of 2020 we have begun to lift certain of these restrictions in line with such evolving recommendations, we continue to monitor developments related to the pandemic, and our decisions will continue to be driven by the health and well-being of our employees, business partners and communities.

Government-imposed restrictions on the opening of offices and/or self-isolation measures had an impact on our operations in March 2020 and into the second quarter of 2020. In particular, our offices globally were largely shut down beginning in the middle of March 2020, although in all cases our operations have continued with employees working remotely from their homes. More recently, our offices in France, Ireland, Italy and Hungary have reopened. Further, in common law jurisdictions such as the UK and Ireland we experienced minor delays in the processing of transactions due to periodic unavailability of third parties, such as notaries public and witnesses to legal documents. Further, global macro-economic conditions resulted in declines in foreign currency exchange rates and heightened volatility in foreign currency exchange rates across multiple currencies.

Despite the foregoing effects, our revenue and results of operations more generally have not been significantly impacted in the first quarter of 2020 by the COVID-19 pandemic. To date, COVID-19 has had a limited impact on our underlying assets and revenue streams. We attribute this in part to the fact that telecom and digital infrastructure usage gained in importance while stay at home orders have been in place. We also experienced no material interruption in rent payment and collections and no material changes in the rate of lease terminations or non-renewals as a result of the effects of COVID-19 on our tenants and business partners. In addition, we believe the fact that substantially all of our essential cash functions are processed electronically has helped to minimize the incidence of operational disruptions due to lock-downs. However, there can be no assurance that we will not experience disruptions or negative impacts to our revenues and results of operations as the pandemic continues.

We believe we have sufficient liquidity to operate our business and that we have the ability to continue investing in our business and acquiring assets during the current phase of the pandemic. As of March 31, 2020, we had \$248.9 million in cash and cash equivalents and access to \$12.6 million of borrowing capacity under the Facility Agreement (described below), which matures in October 2027, available for acquisition capital expenditures.

Nevertheless, the extent to which COVID-19 will ultimately impact our results of operations and financial condition will depend on numerous evolving factors that we cannot predict, including the duration and scope of the pandemic; governmental, business and individuals' actions that have been and continue to be taken in response to the outbreak; the impact of the outbreak on global economic activity and financial markets, including the possibility of a global recession and volatility in the global capital markets which, among other things, may increase the cost of capital and adversely impact our access to capital.

Fluctuations in currency exchange rates, interest rates, and inflation rates

Our results are affected by fluctuations in currency exchange rates that give rise to translational exchange rate risks. The extent of such fluctuations is determined in part by global economic conditions and macro-economic trends. For example, in the first half of 2020, the COVID-19 pandemic led to declines in foreign exchange rates (i.e., the strength of the U.S. dollar has increased relative to most other currencies) and heightened volatility in exchange rates across multiple currencies.

Translation Risks

Our business consists of eleven different functional currencies. The reporting currency of the Company is U.S. dollars. Movement in exchange rates have a direct impact on the reported revenues of the business.

A portion of the impact to the revenues reported from movement in exchange rates is offset from expenses denominated in the same functional currencies.

We have debt facilities denominated in Euro and British pounds sterling. Movement to the exchange rates for the Euro and Pound Sterling will impact the amount of interest expense reported by the Company.

Interest Rate Risks

Changes in global interest rates may have an impact on the acquisition price of cell site lease prepayments. Changes to the acquisition price can impact our ability to deploy capital at company targeted returns. We limit interest rate risk on debt instruments through long term debt with fixed interest rates.

Inflation Rate Risks

As of March 31, 2020, approximately 65% (as a percentage of revenue for the year ended December 31, 2020) and 68% (as a percentage of annualized in-place rents as of March 31, 2020) of our Tenant Lease contract escalators were tied to a local CPI or OMV. Low global inflation rates could have a material impact on the annual growth of our revenue and annualized in-place rents. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”.

Competition

We face varying levels of competition in the acquisition of its assets in each operating country. Some competitors are larger and include public companies with greater access to capital and scale of operations than we do. Competition can drive up the acquisition price of cell site lease prepayment, which would have an impact on the amount of revenue acquired on an annual basis.

Network Consolidation

Virtually all Tenant Leases associated with our assets permit the tenant to cancel the lease at any time with limited prior notices. Generally, a lease termination is permitted with only 30–180 days’ notice from the tenant. The risk of termination is greater upon a network consolidation and merger between two wireless carriers. The APW Group’s two largest customers accounted for 22% of its revenue for each of the years ended December 31, 2019 and 2018. See “Risk Factors – Risks Relating to Our Business and the Industry – If the wireless carriers or tower companies consolidate their operations, exit the wireless communications business or share site infrastructure to a significant degree, our business and profitability could be materially and adversely affected”.

Seasonality

The APW Group has historically acquired approximately 35% of annual cell cite lease prepayments in the fourth quarter of the year. The impact and timing of these cell lease prepayments in the fourth quarter can have a

[Table of Contents](#)

delayed impact on the annual revenue recognized by us. For the years ended December 31, 2019 and 2018, the below table compares the revenue recognized on the audited financial statements compared to the annualized in-place rents of the APW Group as of the end of that period. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures”.

| <u>(in thousands)</u> | <u>2019</u> | <u>2018</u> |
|---|-------------|-------------|
| Revenue for year ended December 31 | \$ 55,706 | \$ 46,406 |
| Annualized in-place rents as of December 31 | \$ 62,095 | \$ 51,221 |

Key Statement of Operations Items

Revenue

We generate revenue by acquiring the right to receive future rental payments at operating wireless communications sites generated pursuant to existing Tenant Leases between a property owner and companies that own and operate cellular communication towers and other telecommunications infrastructure. Revenue is generated on in-place existing Tenant Leases, amendments and extensions on in-place existing Tenant Leases, and additional Tenant Leases at the operating wireless communications site. Revenue is recorded as earned over the term of the lease.

Selling, general, and administrative expense

Selling, general, and administrative expense predominantly relates to activities associated with the acquisition of wireless communications assets and consists primarily of sales and related compensation expense, marketing expense, data accumulation cost, underwriting costs, site inspection cost, notary fees and other legal and professional fees, travel and facilities costs.

Share-based compensation expense

Share-based compensation expense is recorded for equity awards granted to employees and nonemployees over the requisite service period associated with the award, based on the grant-date fair value of the award. Calculating the fair value of share-based awards requires that we make highly subjective assumptions, as well as making judgments regarding the most acceptable valuation methodology to use in each circumstance. Generally, we use Monte Carlo simulation and Black-Scholes option pricing models. Use of either valuation technique requires that we make assumptions as to the expected volatility of our ordinary shares, the expected term associated with the award, the risk-free interest rate for a period that approximates the expected term and our expected dividend yield.

Realized and unrealized gain (loss) on foreign currency debt

Our debt facilities are denominated in Euros, Pound Sterling and U.S. dollars, with U.S. dollars being our functional currency. The borrowings under the Facility Agreement are denominated in Euros and Pound Sterling and the borrowings under the Subscription Agreement are denominated in Euros. The obligation balances of both agreements are translated to U.S. dollars in the balance sheet date and any resulting translation adjustments are reported in our statement of operations as a gain (loss) on foreign currency debt.

Interest expense, net

Interest expense primarily includes interest due under our debt agreements and amortization of deferred financing costs and debt discounts, net of interest earned on invested cash.

Key Performance Indicators

Leases

Leases is an operating metric that represents each lease acquired by the Company. Each site purchased by us consists of at least one revenue producing lease stream, and many of these sites contain multiple lease streams. We had 6,284 leases as of March 31, 2020, 6,046 leases as of December 31, 2019, and 4,904 leases as of December 31, 2018.

Sites

Sites is an operating metric that represents each individual physical location where we have acquired a real property interest or a contractual right that generates revenue. We had 4,789 sites as of March 31, 2020, 4,586 sites as of December 31, 2019, and 3,717 sites as of December 31, 2018.

Non-GAAP Financial Measures

We identify certain additional financial measures to be used internally not defined by GAAP which are beneficial in assessing its annual financial performance. The non-GAAP measures are additional financial measures not defined by GAAP that provide supplemental information we believe is useful to analysts and investors to evaluate our financial performance and ongoing results of operations, when considered alongside other GAAP measures such as net income, operating income, gross profit and net cash provided by operating activities. These non-GAAP measures exclude the financial impact of items management does not consider in assessing our ongoing operating performance, and thereby facilitate review of our operating performance on a period-to-period basis.

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA are non-GAAP measures. EBITDA is defined as net income (loss) before net interest expense, income tax expense, and depreciation and amortization. Adjusted EBITDA is calculated by taking EBITDA and further adjusting for management incentive plan expense, non-cash impairment—decommission of cell sites expense, realized and unrealized gains and losses on foreign currency debt, unrealized foreign exchange gains/losses associated with intercompany account balances denominated in a currency other than the functional currency and severance costs included in selling, general and administrative expenses. Management believes the presentation of EBITDA and Adjusted EBITDA provides valuable additional information for users of the financial statements in assessing our financial condition and results of operations. Each of EBITDA and Adjusted EBITDA has important limitations as analytical tools because they exclude some, but not all, items that affect net income, therefore the calculation of these financial measures may be different from the calculations used by other companies and comparability may therefore be limited. You should not consider EBITDA, Adjusted EBITDA or any of our other non-GAAP financial measures as an alternative or substitute for our results.

The following are reconciliations of EBITDA and Adjusted EBITDA to net income (loss), the most comparable GAAP measure:

- (a) Adjusted EBITDA includes the impact of 100% of selling, general, and administrative expense from the applicable statement of operations, other than one-time severance expense. Management estimates that approximately 80% of the historical selling, general, and administrative costs for each of the periods presented are related to the acquisition of revenue producing assets.

Acquisition Capex

Acquisition Capex is a non-GAAP financial measure. Acquisition Capex represents the total cash spent and committed to be spent for the Company's acquisitions of revenue-producing assets during the period measured. Management believes the presentation of Acquisition Capex provides valuable additional information for users of the financial statements in assessing our financial performance and growth, as it is a comprehensive measure of our investments in the revenue-producing assets that we acquire in a given period. Acquisition Capex has important limitations as an analytical tool, because it excludes certain fixed and variable costs related to our selling and marketing activities included in selling, general and administrative expenses in the consolidated statements of operations, including corporate overhead expenses. Further, this financial measure may be different from calculations used by other companies and comparability may therefore be limited. You should not consider Acquisition Capex or any of the other non-GAAP measures we utilize as an alternative or substitute for our results.

The following is a reconciliation of Acquisition Capex to the amounts included as an investing cash flow in our consolidated statements of cash flows for investments in real property interests and related intangible assets, the most comparable GAAP measure, which generally represents up-front payments made in connection the acquisition of these assets during the period. The primary adjustment to the comparable GAAP measure is "committed contractual payments for investments in real property interests and intangible assets", which

Table of Contents

represents the total amount of future payments that we were contractually committed to make in connection with our acquisitions of real property interests and intangible assets that occurred during the period. Additionally, foreign exchange translation adjustments impact the determination of Acquisition Capex.

Annualized In-Place Rents

Annualized in-place rents is a non-GAAP measure that measures performance based on annualized contractual revenue from the rents expected to be collected on the leases in place as of the measurement date. Annualized in-place rents is calculated using the implied monthly revenue from all revenue producing leases that are in place as of the measurement date multiplied by twelve. Implied monthly revenue for each lease is calculated based on the most recent rental payment made under such lease. Management believes the presentation of annualized in-place rents provides valuable additional information for users of the financial statements in assessing our financial performance and growth. Annualized in-place rents has important limitations as an analytical tool because, among other things, the underlying leases used in calculating the annualized in-place rents financial measure may be terminated, new leases may be acquired, or the contractual rents payable under such leases may not be collected. In these respects, among others, annualized in-place rents differs from “revenue”, which is the closest comparable GAAP measure and which represents all revenues (contractual or otherwise) actually received over the applicable period. You should not consider annualized in-place rents or any of the other non-GAAP measures we utilize as an alternative or substitute for our results. The following is a comparison of annualized in-place rents to revenue, the most comparable GAAP measure:

Revenue

Revenue was \$8.8 million and \$6.8 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$13.2 million for the Predecessor three-month period ended March 31, 2019. The increase in revenue was primarily attributable to the additional revenue streams from investments in real property interests during 2019, as the number of leases acquired by us increased by 22.5% during the twelve-month period subsequent to March 31, 2019. Also contributing to the period over period increase in revenues was escalations on the existing asset base that increased over the twelve months subsequent to the three months ended March 31, 2019.

Cost of service

Cost of service was \$71 and \$34 for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$51 for the Predecessor three-month period ended March 31, 2019. The increase in cost of service was driven primarily by recurring expenses associated with fee simple interests acquired during the twelve months subsequent to the three months ended March 31, 2019.

Selling, general, and administrative expense

Selling, general and administrative expense was \$8.7 million and \$4.3 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$7.4 million for the Predecessor three-month period ended March 31, 2019. Selling general and administrative expense for the Successor period from February 10 to March 31, 2020 included expenses not incurred in the previous periods for employee-related costs associated with the DLGI management team and staff of approximately \$1.1 million and transfer taxes resulting from the APW Acquisition of \$1.8 million. Additionally, compensation expense increased by approximately \$1.2 million primarily as a result of an increase in headcount associated with the growth of our investments in real property interests.

Share-based compensation

Share-based compensation expense totaling \$71.4 million was recognized in the Successor period from February 10 to March 31, 2020. In November 2017, DLGI issued 1,600,000 BVI Series A Founder Preferred Shares to certain of its founders in connection with the 2017 Placing. See “Certain Relationships and Related Party Transactions—2017 Subscription”. The BVI Series A Founder Preferred Shares were structured to provide a return based on the future appreciation of the market value of the Company’s Ordinary Shares, and provided for an annual dividend amount to be payable subsequent to an acquisition by DLGI and based on the market price of the Company’s Ordinary Shares. This dividend feature was deemed to be compensatory to the DLGI founders receiving the BVI Series A Founder Preferred Shares and classified as a market condition share-based compensation award. As the right to the annual dividend amount was triggered only upon an acquisition event, which was not considered probable until an acquisition had been consummated, the fair value of the annual dividend amount measured on the date of issuance of the BVI Series A Founder Preferred Shares, which approximated \$69.5 million, was then recognized upon the consummation of the APW Acquisition as share-based compensation expense in the Successor period from February 10 to March 31, 2020. In addition, share-based compensation expense totaling \$363 was recognized in the Successor period and was associated with stock options to purchase 125,000 Ordinary Shares that were issued to non-founder directors of DLGI in November 2017 and that vested upon the consummation of an acquisition. For more information about such options, see “Certain Relationships and Related Party Transactions—Director Options and Warrants”.

In the Successor period from February 10 to March 31, 2020, the Company granted each executive officer of the Company an initial award of LTIP Units and, in tandem with the LTIP Units an equal number of BVI Class B Shares and/or BVI Series B Founder Preferred Shares (collectively, the “Tandem Shares”), subject to the terms and conditions of the Equity Plan. The Tandem Shares are subject to the same vesting and forfeiture condition as the related LTIP Units. The total number of LTIP Units granted was 6,786,033 and had a weighted-average grant date fair value of approximately \$7.88. Also, in the Successor period, restricted stock was granted to certain employees in respect of a total of 136,002 Ordinary Shares, which restricted stock vests one year from grant. Share-based compensation expense recognized in the Successor period from February 10 to March 31, 2020 for LTIP Units and restricted stock awards was \$1,464 and \$49, respectively.

Amortization and depreciation

Amortization and depreciation expense was \$7.1 million and \$2.6 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$4.5 million for the Predecessor three-month period ended March 31, 2019. In connection with recording fair value adjustments in the accounting for the APW Acquisition, the increase in the carrying amount of our real property interests and intangible assets resulted in additional amortization expense in the Successor period from February 10 to March 31, 2020 of approximately \$3.4 million. The remaining increase was due primarily due to amortization on the real property interests added during the twelve months subsequent to the three months ended March 31, 2019.

Impairment—decommission of cell sites

Impairment-decommission of cell sites was \$0.5 million for each of the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, compared to \$0.5 million for the Predecessor three-month period ended March 31, 2019. The increase was driven primarily by an increase in tenant decommissions of cell sites in the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, as compared to the Predecessor three-month period ended March 31, 2019.

Realized and unrealized gain (loss) on foreign currency debt

Realized and unrealized gain on foreign currency debt was \$4.3 million and \$11.5 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$0.2 million for the Predecessor three-month period ended March 31, 2019. A large portion of the Company's debt is denominated in Euro and Pound Sterling, and the respective gains and losses were due to foreign exchange movements in the Euro and Pound Sterling relative to the U.S. dollar. In each of the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, both the Pound Sterling and Euro decreased significantly relative to the U.S. dollar.

Interest expense, net

Interest expense, net was \$3.5 million and \$3.6 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$7.8 million for the Predecessor three-month period ended March 31, 2019. Higher average invested cash balances during the Successor period from February 10 to March 31, 2020 resulted in approximately \$0.4 million in higher interest income, as compared to each of the Predecessor periods from January 1 to February 9, 2020 and the three-month period ended March 31, 2019.

Other income (expense), net

Other income (expense), net was income of \$0.2 million and expense of \$0.3 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to income of \$0.4 million for the Predecessor three-month period ended March 31, 2019. For the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, foreign exchange losses recorded in other income (expense), net were \$0.7 million and \$0.5 million, respectively, as compared to a foreign exchange gain of \$0.3 million in the Predecessor three-month period ended March 31, 2019.

Income tax expense

Income tax expense was \$1.0 million and \$0.8 million for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020, respectively, compared to \$0.5 million for the Predecessor three-month period ended March 31, 2019. The increase in income tax expense was due primarily to higher taxable income in certain foreign jurisdictions.

Comparison of the results of operations for the years ended December 31, 2019 and December 31, 2018

The selected financial information for the Predecessor for the years ended December 31, 2019 and December 31, 2018 set out below has been extracted without material adjustment from the consolidated financial information of the Predecessor included elsewhere in this prospectus.

Revenue

Revenue increased by 20% to \$55.7 million for the year ended December 31, 2019 from US \$46.4 million for the year ended December 31, 2018. The increase in revenue during the year ended December 31, 2019 compared to the year ended December 31, 2018 was primarily attributable to the additional revenue streams from investments in real property interests during 2019. Also contributing to the period over period increase in revenues was escalations on the existing asset base as well as a full twelve months of revenues recorded on assets acquired during the year ended December 31, 2018

Cost of service

Cost of service increased by 40% to \$0.3 million for the year ended December 31, 2019, compared to \$0.2 million for the year ended December 31, 2018. The increase in cost of service during the year ended December 31, 2019 compared to the year ended December 31, 2018 was driven primarily by the acquisition of fee simple interests in 2019.

Selling, general, and administrative expense

Selling, general and administrative expense increased by 32% to \$36.8 million for the year ended December 31, 2019, compared to \$27.9 million for the year ended December 31, 2018. The overall increase in selling general and administrative expense of \$8.9 million for the year ended December 31, 2019 as compared to the year ended December 31, 2018 was primarily due to an increase in compensation expense of approximately \$7.1 million. This increase was primarily due to an increase in costs associated with the growth of the Predecessor's investments in real property interests, as well as expenses for severance costs recorded in 2019 totaling \$2.3 million.

Management incentive plan

Management incentive plan expenses decreased to \$0.9 million for the year ended December 31, 2019, compared to \$5.2 million for the year ended December 31, 2018. Management incentive plan expense relates to loans made to participants in the management carve-out plan, which are expensed because these loans are non-recourse. The decrease in management carve-out expense during the year ended December 31, 2019 compared to the year ended December 31, 2018 was due to larger loans made in 2018 compared to 2019.

Amortization and depreciation

Amortization and depreciation expense decreased by 34% to \$19.1 million for the year ended December 31, 2019, compared to \$29.2 million for the year ended December 31, 2018. In 2019, the Predecessor adjusted the remaining estimated useful life of cell site leasehold interests as of January 1, 2019 based on a twenty five-year useful life of the underlying cell site asset, which previously was considered to be a fifteen-year useful life. This change in estimate was accounted for prospectively effective January 1, 2019, and resulted in a decrease in amortization and depreciation expense of \$13.3 million for the year ended December 31, 2019 from that which would have been reported if the previous estimates of useful life had been used. The decrease in amortization and depreciation resulting from the change in the remaining estimated useful life was offset by amortization on the real property interests added during 2019.

Impairment – decommission of cell sites

Impairment related to the decommission of cell site increased to \$2.6 million for the year ended December 31, 2019, compared to \$0.3 million for the year ended December 31, 2018. The increase in impairment during the year ended December 31, 2019 compared to the year ended December 31, 2018 was driven primarily by an increase in decommissions from tenants' period over period.

Realized and unrealized gain (loss) on foreign currency debt

The Predecessor recorded a loss on foreign currency debt of \$6.1 million for the year ended December 31, 2019 compared to a gain on foreign currency debt of \$13.8 million for the year ended December 31, 2018. A large portion of the Predecessor's debt was denominated in Euro and Pound Sterling, and the respective gains and losses were due to foreign exchange movements in the Euro and Pound Sterling relative to the U.S. dollar.

Interest expense, net

Interest expense increased by 15% to \$32.0 million for the year ended December 31, 2019, compared to \$27.8 million for the year ended December 31, 2018. The increase in interest expense between the year ended December 31, 2019 compared to the year ended December 31, 2018 was primarily a result of additional borrowings in 2019, which were primarily used to acquire additional assets.

Other (expense) income, net

Other income (expense), net changed to income of \$0.2 million for the year ended December 31, 2019, compared to an expense of \$2.5 million for the year ended December 31, 2018. The change in other income (expense), net during the year ended December 31, 2019 compared to the year ended December 31, 2018 was driven primarily by unrealized foreign exchange gains totaling \$0.6 million in 2019 and losses totaling \$3.9 million in 2018, resulting primarily from remeasurements of APW Group subsidiaries' intercompany account balances that are denominated in currency other than the subsidiary's functional currency.

Income tax expense (benefit)

Income tax expense decreased to \$2.5 million for the year ended December 31, 2019 from \$2.8 million for the year ended December 31, 2018. The decrease in income tax expense between the year ended December 31,

[Table of Contents](#)

2019 compared to the year ended December 31, 2018 was the result of a decrease in expense associated with uncertain income tax positions of \$1.1 million, partially offset by higher tax expense resulting from increased taxable income in certain foreign jurisdictions.

Liquidity and Capital Resources

Our future liquidity will depend primarily on: (i) the profitability of the APW Group, (ii) our management of available cash, (iii) cash distributions on sale of existing assets, (iv) the use of borrowings, if any, to fund short term liquidity needs and (v) dividends or distributions from subsidiary companies. Our operating cash is derived from income received from the APW Group, and we are dependent on the income generated by the APW Group to meet our expenses and operating cash requirements. See “We are a holding company whose principal source of operating cash is the income received from our subsidiaries, which may limit our ability to pay dividends or satisfy our other financial obligations” in the section entitled “Risk Factors”.

We require cash to pay our operating expenses, service our debt obligations and acquire additional real property interests and rental streams underlying wireless communication cell sites. Our principal sources of liquidity include revenue generated from our sites and related leases, our cash and cash equivalents and borrowings available under our credit arrangements. As of December 31, 2019, we had negative working capital of approximately \$18.8 million, including \$62.9 million in cash and \$1.1 million in short term restricted cash, compared to approximately \$165.7 million as of March 31, 2020, including \$248.9 in cash and cash equivalents and \$1.0 in short term restricted cash. Included in our working capital as of December 31, 2019 and as of March 31, 2020, was the current portion of long-term debt of \$48.9 million and \$49.0 million, respectively, associated with outstanding borrowings under the Mezzanine Loan Agreement. Additionally, as of December 31, 2019 and as of March 31, 2020, we had access to \$14.0 million and \$12.6 million, respectively, in long-term restricted cash available under the Facility Agreement for acquisition capital expenditures. In addition to the available borrowing capacity under the Facility Agreement, we expect to have access to the worldwide credit and capital markets, subject to market conditions, in order to issue additional debt if needed or desired.

Although we believe that our cash on hand, available restricted cash, and future cash from operations, together with our access to cash at APW OpCo and the credit and capital markets, will provide adequate resources to fund our operating and financing needs, our access to, and the availability of, financing on acceptable terms in the future will be affected by many factors, including: (i) the performance of the APW Group and/or its operating subsidiaries, as applicable, (ii) our credit rating or absence of a credit rating and/or the credit rating of our operating subsidiaries, as applicable, (iii) the provisions of any relevant credit agreements and similar or associated documents, (iv) the liquidity of the overall credit and capital markets and (v) the current state of the economy. There can be no assurances that we will continue to have access to the credit and capital markets on acceptable terms. See “Risk Factors” for more information.

Cash used in operating activities

Net cash used in operating activities for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020 was \$28.9 million and \$3.5 million, respectively, compared to \$0.9 million for the Predecessor three-month period ended March 31, 2019. Cash used in the Successor period included payments made for accrued expenses of Landscape for professional fees and other expenses incurred prior to the Successor period of approximately \$28.0 million.

Net cash used in operating activities for the year ended December 31, 2019 was \$6.6 million, compared to \$10.7 million for the year ended December 31, 2018. This year-over-year decrease was primarily due to the decrease in management incentive plan expense of \$4.3 million to \$0.9 million for the year ended December 31, 2019 from \$5.2 million for the year ended December 31, 2018.

Cash used in investing activities

Net cash used in investing activities for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020 was \$296.2 million and \$22.6 million, respectively, compared to \$11.2 million for the Predecessor three-month period ended March 31, 2019. Cash paid in the APW Acquisition net of the cash acquired in the Successor period was \$277.1 million. During the Predecessor period from January 1 to February 9, 2020 and the Successor period from February 10 to March 31, 2020, advances under a promissory note agreement with an unaffiliated borrower were made totaling \$17.5 million and \$2.5 million, respectively. Payments to acquire real property interests were \$16.5 million the Successor period and \$5.1 million in the Predecessor period from January 1 to February 9, 2020, as compared to \$11.1 million in the Predecessor three-month period ended March 31, 2019.

Net cash used in investing activities for the year ended December 31, 2019 was \$73.9 million, compared to \$68.1 million in the year ended December 31, 2018. This year-over-year increase was primarily attributable to an increase in cash payments for real property interests and intangible assets of \$10.9 million, partially offset by \$4.5 million cash received upon the contribution by Associated Partners of 100% of the limited liability company interests in the Servicer (as defined under “– Debt Obligations” below) to AP WIP Investments Holdings, LP.

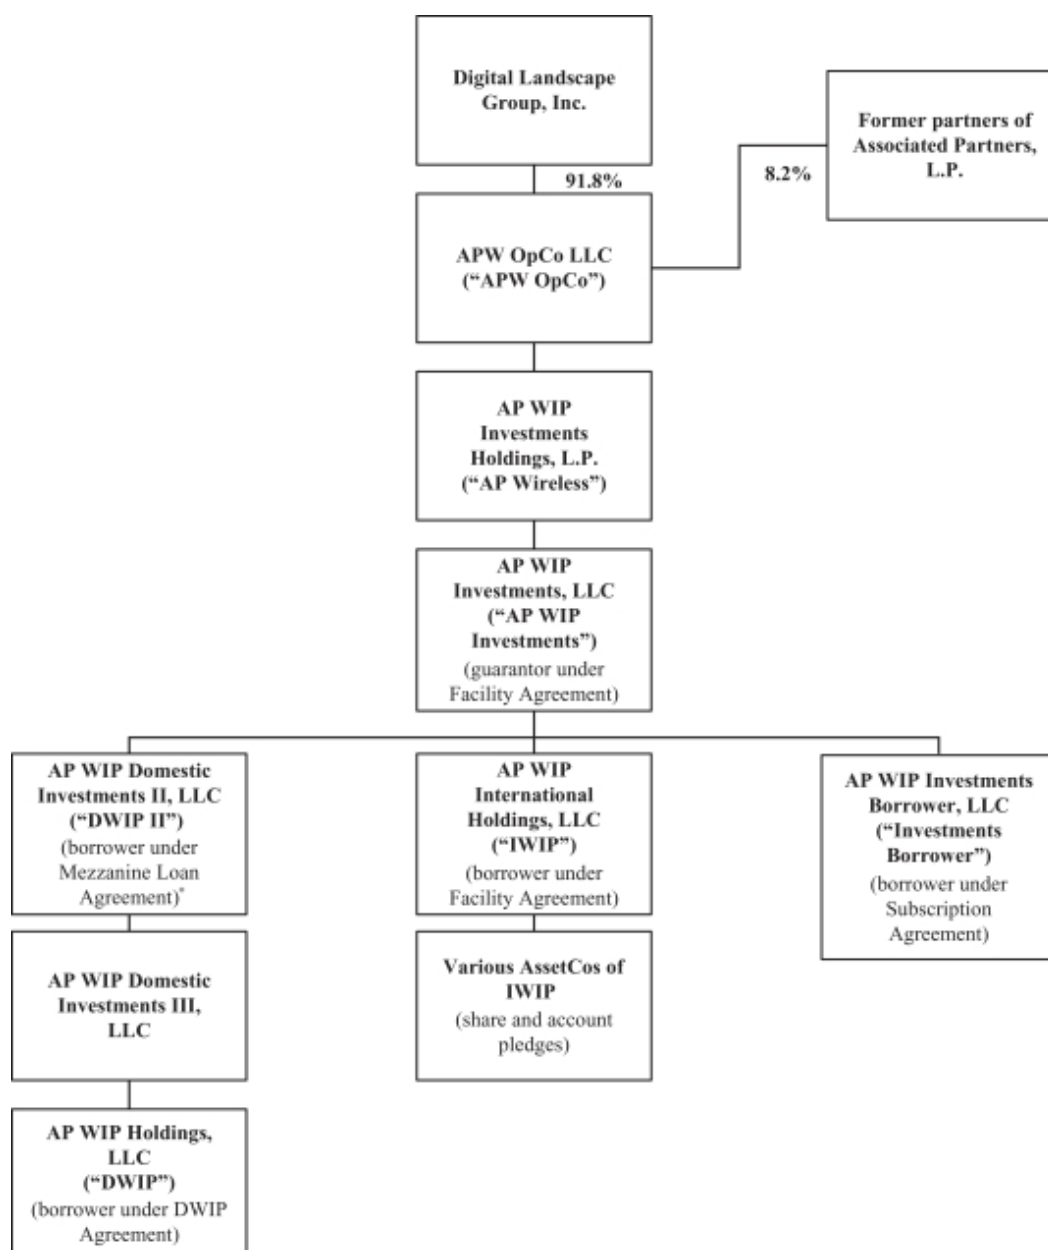

Cash provided by (used in) financing activities

Net cash used in financing activities for the Successor period from February 10 to March 31, 2020 and the Predecessor period from January 1 to February 9, 2020 was \$124 and \$3.4 million, respectively, compared to \$3.1 million for the Predecessor three-month period ended March 31, 2019. For each period presented, cash used in financing activities primarily included payments due under installment arrangements and finance lease liabilities.

Net cash provided by financing activities for the year ended December 31, 2019 was \$59.1 million, compared to \$81.4 million for the year ended December 31, 2018. Borrowings under the Facility Agreement decreased by \$22.9 million in 2019 as compared to 2018.

Debt Obligations

The following group structure chart sets forth where our debt is owed within the Company as of March 31, 2020 and December 31, 2019:

* On April 21, 2020, APW OpCo acquired all the rights to the loans and obligations under the Mezzanine Loan Agreement from the lenders thereunder, as further described below. Following consummation of the acquisition by APW OpCo, the Mezzanine Loan Agreement remains effect and any amounts outstanding thereunder are treated as intercompany loans between DWIP II and APW OpCo.

DWIP Agreement

On August 12, 2014, AP WIP Holdings, LLC (“DWIP”), a subsidiary of AP WIP Investments, entered into a \$115 million loan agreement (as amended or supplemented, the “DWIP Agreement”). Under the terms of the DWIP Agreement, DWIP is the sole borrower and the lending syndicate is a collection of lenders managed by an affiliate of the administrative agent (the “DWIP Lender”). AP Service Company, LLC (“Servicer”), a wholly owned subsidiary of AP Wireless, is the servicer under the DWIP Agreement. An unrelated party to DWIP was named as backup servicer in the event of a default by the Servicer as defined in the DWIP Agreement. The DWIP Agreement requires an annual rating be performed by Fitch Ratings, Inc. The private securitization loan provided pursuant to the DWIP Agreement is structured as non-recourse to other collateral of the APW Group.

On October 16, 2018, DWIP signed an amendment to the DWIP Agreement that (i) extended the maturity of the DWIP loan from August 10, 2019, to October 16, 2023, at which time all outstanding principal balances are required to be repaid, and (ii) reduced the fixed rate coupon from 4.50% to 4.25% per annum. The amendment provides that principal balances may be prepaid in whole on any date, provided that a prepayment premium equal to: 3.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 24 months after October 16, 2018, 2.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 36 months after October 16, 2018 but after 24 months after October 16, 2018, 1.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 60 months after October 16, 2018 but after 36 months after October 16, 2018, and 0% of the prepayment loan amount shall apply if the payment occurs after 60 months after October 16, 2018.

Interest and fees due under the DWIP Agreement are payable monthly through the application of funds secured in a bank account controlled by the collateral agent (the collection account). The collateral agent sweeps customer collections from DWIP’s lockbox account each month. After receipt of a monthly report prepared by the Servicer detailing loan activity, borrowing compliance, customer collections, and general reserve account required balances, the collateral agent disburses funds monthly for interest, fees, deposits to the reserve account (if required), mandatory prepayments (if required), and remaining amounts from the prior months’ collections to DWIP. Fees equal to 0.80% to 1.00% of the \$102.6 million loan amount are payable to the DWIP Lender, Servicer, backup servicer, and rating agency of the loan, as applicable.

Pursuant to the DWIP Agreement, DWIP is subject to restrictive covenants relating to, among others, a leverage cap of 7.75x eligible annual cash flow, future indebtedness, transfers of control of DWIP and compliance with a financial ratio relating to interest coverage (as defined in the DWIP Agreement as Debt Service). For the periods presented, DWIP was in compliance with all covenants associated with the DWIP Agreement.

Amounts outstanding under the DWIP Agreement are due in full on the maturity date of October 16, 2023. As of March 31, 2020 and December 31, 2019, the balance outstanding under the DWIP Agreement was \$102.6 million.

Facility Agreement

On October 24, 2017, AP WIP International Holdings, LLC (“IWIP”), a subsidiary of AP WIP Investments, entered into a facility agreement (the “Facility Agreement”) providing for loans of up to £1.0 billion, with AP WIP Investments, as guarantor, Telecom Credit Infrastructure Designated Activity Company (“TCI DAC”), as original lender, Goldman Sachs Lending Partners LLC, as agent, and GLAS Trust Corporation Limited, as security agent. The Facility Agreement provides for funding in the form of 10-year term loans consisting of tranches in Euros, Pounds Sterling, Canadian dollars, Australian dollars and U.S. dollars.

TCI DAC is an Irish Section 110 Designated Activity Company and is a passive/holding vehicle. The TCI DAC is an uncommitted, £1.0 billion note issuance program with an initial 10-year term (due 2027) and was created by Associated Partners, in its capacity as sponsor (“Sponsor”), as a special purpose vehicle with the

objective of issuing notes from time to time and using proceeds thereof to originate and acquire loans (“Portfolio Loans”) to the Sponsor (including its successors and assigns, including DLGI) subsidiary companies, secured by cash flows from communication infrastructure assets (ground leases, towers and other opportunistic assets) in predominantly OECD jurisdictions according to “Investment Criteria” in the Trust Deed dated October 24, 2017, governing the issuance of the notes. Pursuant to the Investment Criteria, the notes may be issued in U.S. dollars, Pounds Sterling, Euros, Australian dollars or Canadian dollars, and no rating of the loans is required. Portfolio Loans are fixed rate senior secured loans of portfolio companies which are wholly owned or controlled and will not be available to invest in preferred or common equity, unsecured debt or subordinated debt. At least 80% of the revenue generated by assets backing any Portfolio Loan must be from Investment Grade Permitted Jurisdictions. The notes are listed on the International Stock Exchange (TISE).

The TCI DAC issuer has no subsidiaries and raises funds through the issuance of notes to investors. All notes issued by the DAC are cross collateralized and rank *pari-passu* upon recovery. Additional note holders may be added with the issuance of additional notes over time.

Portfolio Loans acquired by Telecom DAC support the notes issued on a pass-through basis and are not cross collateralized or cross defaulted to other Portfolio Loans. The initial Portfolio Loans were made to IWIP in 2017 and 2018 and additional Loans may be issued through additional Tranches or Series as per the Facility agreement up to the Limit.

Under the terms of the Facility Agreement, IWIP is the sole borrower and the finance parties include a lender, an agent and certain other financial institutions. AP WIP Investments is a guarantor of the loan and the loan is secured by the direct equity interests in IWIP. The loan is also secured by a debt service reserve account and escrow cash account of IWIP available for growth as well as direct equity interests and bank accounts of all significant IWIP’s asset owning subsidiaries. The Servicer is the Servicer under the Facility Agreement. The loan is senior in right of payment to all other debt of IWIP. The payments under the Facility Agreement are made quarterly.

On October 30, 2017, \$266.2 million of the amount available under the Facility Agreement was funded. This amount comprised €115.0 million (“Series 1-A Tranche”) and £100.0 million (“Series 1-B Tranche”). The Series 1-A Tranche and the Series 1-B Tranche loans accrue interest of 4.098% and 4.608% per annum, respectively. At closing of the Facility Agreement, \$5.0 million was funded to and is required to be held in an escrow account.

On November 26, 2018, an additional \$98.4 million of the amount available under the Facility Agreement was funded. This amount comprised of €40.0 million (“Series 2-A Tranche”) and £40.0 million (“Series 2-B Tranche”). The Series 2-A Tranche and the Series 2-B Tranche loans accrue interest of 3.442% and 4.294% per annum, respectively.

Each tranche may include sub-tranches which may have a different interest rate than the other loans under the initial tranche. All tranches will have otherwise identical terms. For any floating interest rate portion of any tranche (or sub tranche), the interest rate is as reported and delivered to IWIP five days prior to a quarter end date. Coupons do not reflect certain related administration or servicing costs from third parties.

IWIP is subject to certain financial condition and testing covenants (such as interest coverage, leverage cap of 9.0x eligible annual cash flow and equity requirements and limits) pursuant to Facility Agreement documentation, as well as restrictive covenants relating to, among other things, future indebtedness (issuance cap of 8.25x eligible annual cash flow), liens and other material activities of IWIP and its subsidiaries. IWIP was in compliance with all covenants associated with the Facility Agreement as of March 31, 2020 and as of December 31, 2019.

Loans under the Facility Agreement mature on October 30, 2027, at which time all outstanding principal balances shall be repaid. Principal balances under the Facility Agreement may be prepaid in whole on any date,

subject to the payment of a make-whole at the related benchmark plus a 50 basis point margin (as calculated pursuant to the applicable Facility Agreement documentation). Amounts outstanding under the Facility Agreement as of March 31, 2020 and December 31, 2019 totaled \$345.2 million and \$359.8 million, respectively.

Mezzanine Loan and Security Agreement

On September 20, 2018, AP WIP Domestic Investment II, LLC (“DWIP II”), a wholly owned subsidiary of AP WIP Investments, entered into an amended and restated loan and security agreement (as further amended by first amendment to amended and restated loan and security agreement dated July 25, 2019, the “Mezzanine Loan Agreement”). This Mezzanine Loan Agreement provided credit facilities that are designed to work in concert with the DWIP Agreement described under “– DWIP Agreement” above. Such credit facilities also replaced the \$40.0 million facility provided to DWIP II under a secured loan and security agreement dated December 15, 2015.

Pursuant to the Mezzanine Loan Agreement, DWIP II obtained an original term loan of \$56.3 million and a bridge loan of \$18.6 million, which each accrue interest at a rate of 6.5% per annum, with interest payable monthly. The original term loan matures on the earlier of (i) June 30, 2020, and (ii) the maturity date under the DWIP Agreement. The bridge loan was repaid on November 8, 2019. All amounts received by AP WIP Domestic Investments II, LLC on account of its indirect ownership of AP WIP Holdings, LLC are pledged as security. AP WIP Investments is a guarantor of the obligations under the Mezzanine Loan Agreement, and loans under the Mezzanine Loan Agreement are subordinated in right of repayment upon default under the senior DWIP Agreement.

Amortization under the Mezzanine Loan Agreement is \$250,000 per calendar quarter plus that amount necessary such that the total of the outstanding balance of the DWIP Agreement and the term loans do not exceed 12.0x Eligible Free Cash Flow (as defined in the Mezzanine Loan Agreement). Principal payments are applied first to the bridge loan until paid in full and then to the original term loan. The original term loan may be prepaid voluntarily at any time without premium or penalty. DWIP II is subject to mandatory prepayments in full upon the repayment or prepayment of the DWIP loan and of any proceeds in excess of \$10 million upon an asset sale or refinancing. The Mezzanine Loan Agreement contains limited negative covenants that, among other things, restrict the borrower’s ability to incur additional indebtedness other than as described in the agreement, create certain liens on assets, pay dividends and make distributions and make certain investments. In addition, DWIP II cannot permit the outstanding debt under the DWIP loan to exceed \$102.6 million. As of March 31, 2020 and as of December 31, 2019, DWIP II was in compliance with all covenants associated with the Mezzanine Loan Agreement. Amounts outstanding under the Mezzanine Loan Agreement as of March 31, 2020 and as of December 31, 2019 totaled \$49.0 million and \$49.3 million, respectively.

On April 21, 2020, APW OpCo acquired all of the rights to the loans and obligations under the Mezzanine Loan Agreement from the lenders thereunder for approximately \$48.0 million, including accrued interest. Following consummation of the acquisition by APW OpCo, the Mezzanine Loan Agreement remains in effect and any amounts outstanding thereunder are treated as intercompany loans between DWIP II and APW OpCo.

Subscription Agreement

On November 6, 2019, AP WIP Investments Borrower, LLC (“AP WIP Investments Borrower”), a subsidiary of AP WIP Investments, entered into a subscription agreement (the “Subscription Agreement”) to borrow funds for working capital and other corporate purposes. Under the terms of the Subscription Agreement, AP WIP Investments Borrower is the sole borrower and AP WIP Investments is the guarantor of the loan and the loan is secured by AP Wireless’ direct equity interests in AP WIP Investments. The loan is senior in right of payment to all other debt of AP WIP Investments Borrower. There is no cross default or cross acceleration to senior secured debt other than if there is an acceleration under the senior debt in relation to certain events as per documentation such as the breach by the Guarantor in certain cases. The Subscription Agreement provides for uncommitted funding up to £250.0 million in the form of nine-year term loans consisting of three tranches available in Euros, Pounds Sterling and U.S. dollars.

[Table of Contents](#)

On November 8, 2019, \$75.5 million of the amount available under the Subscription Agreement was funded (Class A, Tranche 1 Euro). This amount was comprised of €68.0 million. At closing of the Subscription Agreement, \$3.0 million was funded to and is required to be held in a debt service reserve account.

Other tranches maybe be issued as long as in compliance and certain parameters in the deal documentation such as (a) loan to value less than 65%; (b) Interest Coverage is not less than 1.5x; and (c) Leverage as at any Collection Period End Date shall not exceed 10.0x (each as defined in the Subscription Agreement).

The initial Euro Class A Tranche balance outstanding under the Facility Agreement accrues interest at a fixed annual rate equal to 4.25%, which is payable quarterly on the twentieth day following the end of each calendar quarter; provided that, on February 10, 2020 the Subscription Agreement was amended to provide that the first quarterly interest payment (including the amount accrued from November 8, 2019 through December 31, 2019) would be due on the twentieth day following March 31, 2020. The loans under the Subscription Agreement mature on November 6, 2028, at which time all outstanding principal balances shall be repaid. The loans also carry a 2.00% payment-in-kind interest (PIK), payable on repayment of principal. Principal balances under the Facility Agreement may be prepaid in whole on any date, subject to the payment of any applicable prepayment fee. Each Tranche may include sub-tranches, which may have a different interest rate than other promissory certificates under its related Tranche.

Pursuant to the Subscription Agreement, AP WIP Investments Borrower is subject to certain financial condition and testing covenants (such as interest coverage of 1.5x and leverage cap of 12.0x eligible annual cash flow) as well as restrictive and operating covenants relating to, among others, future indebtedness and liens and other material activities of AP WIP Investments Borrower and its affiliates. As of March 31, 2020 and December 31, 2019, AP WIP Investments Borrower was in compliance with all covenants associated with the Subscription Agreement. The amounts outstanding under the Subscription Agreement as of March 31, 2020 and December 31, 2019 totaled \$75.6 million and \$76.6 million, respectively.

Grants of Equity Awards

During the three months ended June 30, 2020, we granted to certain of our employees restricted stock in respect of 71,000 Ordinary Shares and options to acquire 2,647,000 Ordinary Shares in the aggregate (125,000 of which options were forfeited in July 2020). Of such restricted stock, stock in respect of 50,000 shares vests over four years following grant and stock in respect of 21,000 vests over five years following grant. The options have an exercise price of \$7.67 and vest over five years following grant.

Off-Balance Sheet Arrangements

As of March 31, 2020 and December 31, 2019, we had no off-balance sheet arrangements.

Quantitative and Qualitative Disclosures About Market Risk

Our activities expose us to a variety of financial risks, including translational exchange rate risk, interest rate risk, credit risk and liquidity risk. Risk management is led by senior management and is mainly carried out by the finance department.

Translational Exchange Rate Risk

We are exposed to foreign exchange rate risk arising from the retranslation of our debt agreements in currencies other than its functional currency. In particular, this affects Euro and Pound Sterling loan balances and fluctuation in these loan balances is caused by variation in the closing exchange rates from Euro and Pound Sterling to the U.S. dollar. As of December 31, 2019, 43.7% of our total debt outstanding was denominated in Euros and 32.4% of its total debt outstanding was denominated in Pound Sterling, compared to

[Table of Contents](#)

43.1% denominated in Euros and 30.5% denominated in Pound Sterling as of March 31, 2020. We are also exposed to translational foreign exchange impacts when we convert our international subsidiaries' financial statements to U.S. dollars from the local currency. See "Risk Factors – Risks Related to Our Business and Operations – Our results may be negatively affected by foreign currency exchange rates".

To date, we have not entered into any hedging arrangements with respect to foreign currency risk or other derivative financial instruments. During the fiscal year ended December 31, 2019, the effect of a hypothetical 10% change in foreign currency exchange rates applicable to the Predecessor's business would not have a material impact on its consolidated financial statements.

Interest Rate Risk

All of our borrowed funds are at fixed interest rates. If we were to borrow funds that have floating interest rates, we would expect to manage this risk by maintaining an appropriate mix between fixed and floating rate borrowings and hedging activities. During the fiscal year ended December 31, 2019, the effect of a hypothetical 10% increase or decrease in interest rates would not have had a material impact on the Predecessor's consolidated results of operations.

Credit Risk

In the event of a default by a tenant, we will suffer a shortfall in revenue and incur additional costs, including expenses incurred to attempt to recover the defaulted amounts and legal expenses. Although we monitor the creditworthiness of our customers and maintain minimal trade receivable balances on an asset by asset basis, a substantial portion of our revenue is derived from a small number of customers. The loss, consolidation or financial instability of, or network sharing among, any of the limited number of customers may materially decrease revenue.

Liquidity Risk

We manage our liquidity risk by maintaining adequate reserves and banking facilities and continuously monitoring forecasted and actual cash flows. As of December 31, 2019, cash was \$62.9 million and restricted cash was \$15.2 million; total debt outstanding was \$588.2 million, including \$102.6 million outstanding under the DWIP Loan Agreement, \$359.8 million outstanding under the Facility Agreement, \$49.3 million outstanding under the Mezzanine Loan Agreement and \$76.6 million outstanding under the Subscription Agreement. As of March 31, 2020, cash and cash equivalents was \$248.9 million and restricted cash was \$13.5 million; total debt outstanding was \$572.4 million, including \$102.6 million outstanding under the DWIP Loan Agreement, \$345.2 million outstanding under the Facility Agreement, \$49.0 million outstanding under the Mezzanine Loan Agreement and \$75.6 million outstanding under the Subscription Agreement. We have remained compliant with all the covenants contained in our debt obligations throughout the periods presented.

Contractual Obligations

As of December 31, 2019, our contractual obligations were as follows:

| (\$ in thousands) | Total | Less than 1 year | 1-3 years | 3-5 years | More than 5 years |
|--|-------------------|---------------------|------------------|-------------------|----------------------|
| Debt obligations | \$ 588,181 | \$ 49,250 | \$ — | \$ 102,600 | \$ 436,331 |
| Cell site leasehold interest liabilities | 18,607 | 8,762 | 7,487 | 2,029 | 329 |
| Finance lease liabilities | 18,895 | 5,829 | 6,991 | 4,303 | 1,772 |
| Other lease liabilities (a) | 2,224 | 868 | 1,074 | 174 | 108 |
| Total | \$ 627,907 | \$ 64,709 | \$ 15,552 | \$ 109,106 | \$ 438,540 |

- (a) Other lease liabilities includes amounts included in other long-term liabilities in our consolidated balance as of December 31, 2019, totaling \$1,303. Other long-term liabilities also included liabilities associated with unrecognized income tax benefits and other taxes, totaling \$4,228, which are excluded from this table because the timing of eventual payment cannot be reliably estimated.

Critical Accounting Policies

Our consolidated financial statements are prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

While our significant accounting policies are described in greater detail in the notes to our consolidated financial statements appearing elsewhere in this prospectus, we believe that the following accounting policies are those most critical to the judgments and estimates used in the preparation of our consolidated financial statements.

Real Property Interests

Our core business is to contract for the purchase of cell site leasehold interests either through an up-front payment or on an installment basis from property owners who have leased their property to companies that own telecommunications infrastructure assets. Real property interests include costs recorded under cell site leasehold interest arrangements either as intangible assets or right of use assets, depending on whether or not the arrangement is determined to be a lease at the inception of the agreement. For acquisitions of real property interests that meet the definition of an asset acquisition, the cell site leasehold interests are recorded as intangible assets and are stated at cost less accumulated amortization. Amortization is computed using the straight-line method over the estimated useful lives of these real property interests, which is estimated as the lesser of the useful life of the underlying cell site asset or the term of the arrangement.

Accounting Standards Update No. 2016-02, Leases (“ASU 2016-02” and or “ASC 842”) requires us to recognize assets and liabilities arising from a lease for both financing and operating leases, along with qualitative and quantitative disclosures. This classification determines whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record right-of-use asset and a lease liability in the balance sheet for all leases with a term of greater than twelve months regardless of their classification.

On January 1, 2019, the Predecessor adopted the new lease standard using the modified retrospective method applied to lease arrangements that were in place on the transition date. Results for reporting periods beginning January 1, 2019 are presented under the new standard, while prior-period amounts are not adjusted and continue to be reported in accordance with accounting under the previously applicable guidance.

The Predecessor elected certain available practical expedients which permit the adopter to not reassess certain items upon adoption, including: (i) whether any existing contracts are or contain leases, (ii) the classification of existing leases, (iii) initial direct costs for existing leases and (iv) short-term leases, which permits an adopter to not apply the lease standard to leases with a remaining maturity of one year or less and applied the new lease accounting standard to all leases, including short-term leases. The Predecessor also elected the practical expedient related to easements, which permits carryforward accounting treatment for land easements (included in cell site leasehold interests in the consolidated balance sheets) on existing agreements.

Commencing with the adoption of ASC 842, we determine if an arrangement, including cell site leasehold interest arrangements, is a lease at the inception of the agreement. We consider an arrangement to be a lease if it conveys the right to control the use of the asset for a specific period of time in exchange for consideration.

Our lease liability, recorded in real property interest liabilities, is the present value of the remaining minimum rental payments to be made over the remaining lease term, including renewal options reasonably certain to be exercised. We also consider termination options and factors those into the determination of lease payments when appropriate. To determine the lease term, we consider all renewal periods that are reasonably certain to be exercised, taking into consideration all economic factors, including the cell site's estimated economic life. Leases with an initial term of twelve months or less are not recorded in the consolidated balance sheet. The finance lease right-of-use asset is amortized over the lesser of the lease term or the estimated useful life of the underlying asset associated with the leasing arrangement, which is estimated to be twenty-five years.

The Company continually reassesses the estimated useful lives used in determining amortization of its real property interests. The Predecessor reviewed its estimates of the useful lives of its existing cell site leasehold interest arrangements as of January 1, 2019. Assessments of the remaining useful lives of the underlying cell site assets associated with leasehold interest arrangements indicated that the estimated useful lives used in the determination of amortization expense of cell site leasehold interests accounted for as asset acquisitions should be increased based upon the Company's experience as well as observable industry data. Accordingly, as of January 1, 2019, the Predecessor adjusted the remaining useful life of the existing cell site leasehold interests based on a twenty five-year useful life of the underlying cell site asset, which previously was considered to be a fifteen-year useful life. This change in estimate was accounted for prospectively effective January 1, 2019, and resulted in a decrease in amortization and depreciation expense, operating loss and net loss of \$13,259 for the year ended December 31, 2019 from that which would have been reported if the previous estimates of useful life had been used.

Long-Lived Assets, Including Definite-Lived Intangible Assets

Our primary long-lived assets include real property interests and intangible assets. Intangible assets recorded for in-place tenant leases are stated at cost less accumulated amortization and are amortized on a straight-line basis over the remaining cell site lease term with the in-place tenant, including ordinary renewals at the option of the tenant. The carrying amount of any long-lived asset group is evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows derived from such assets. If the carrying amount of the long-lived asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value.

Revenue Recognition

We receive rental payments from in-place tenants of wireless communication sites under operating lease agreements. Revenue is recorded as earned over the period in which the lessee is given control over the use of the wireless communication sites and recorded over the term of the lease, not including renewal terms, since the operating lease arrangements are cancellable by both parties. Rent received in advance is recorded when we receive advance rental payments from the in-place tenants. Contractually owed lease prepayments are typically paid one month to one year in advance.

JOBS Act

We qualify as an "emerging growth company" as defined in the JOBS Act. As such, we may take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies. In particular, Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the exemption from complying with new or revised accounting standards provided in Section 7(a)(2)(B) of the Securities Act. An emerging growth company can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The JOBS Act provides, however, that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies, but any such election to opt out is

irrevocable. We have elected to opt out of such extended transition period. As a result, we will adopt new or revised accounting standards on the same timeline as other public companies.

Recent Accounting Pronouncements

Accounting Pronouncement Not Yet Adopted

In December 2019, the FASB issued ASU No. 2019-12, Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes, (“ASU 2019-12”). The ASU removes certain exceptions for recognizing deferred taxes for investments, performing intraperiod allocation and calculating income taxes in interim periods. The ASU also adds guidance to reduce complexity in certain areas, including recognizing deferred taxes for goodwill and allocating taxes to members of a consolidated group. The ASU is effective for annual reporting periods beginning after December 15, 2020, including interim reporting periods within those annual periods, with early adoption permitted. We are currently evaluating the impact of the new guidance on our consolidated financial statements.

Recently Adopted

In 2014, the FASB issued a new revenue recognition standard entitled Revenue from Contracts with Customers. The objective of the standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows from a contract with a customer. The Predecessor adopted Accounting Standards Update No. 2014-09 during the year ended December 31, 2018 and concluded that the adoption of Accounting Standards Update No. 2014-09 did not have a material impact on its consolidated financial statements as current revenue contracts are leases and not within the scope of the Revenue from Contracts with Customers (Topic 606).

In November 2016, the FASB issued new guidance on amounts described as restricted cash or restricted cash equivalents within the statement of cash flows. The guidance requires amounts generally described as restricted cash and restricted cash equivalents be included with cash when reconciling the beginning-of-period and end-of-period balances in the statement of cash flows. The Predecessor adopted ASU 2016-18 during the year ended December 31, 2018.

In June 2016, the FASB issued guidance that modifies how entities measure credit losses on most financial instruments. The new guidance replaces the current “incurred loss” model with an “expected credit loss” model that requires consideration of a broader range of information to estimate expected credit losses over the lifetime of the asset. Effective January 1, 2020, the Predecessor adopted the new guidance and noted that operating lease receivables are not within the scope of this guidance. As such, there was no cumulative-effect adjustment to the consolidated balance sheet as of the effective date. The adoption of this guidance did not have an impact on our consolidated financial statements.

In January 2017, the FASB issued Accounting Standard Update (“ASU”) No. 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment (“ASU-2017-04”). The new ASU removes Step 2 of the goodwill impairment test and requires the assessment of fair value of individual assets and liabilities of a reporting unit to measure goodwill impairments. Goodwill impairment will then be the amount by which a reporting unit’s carrying amount exceeds its fair value. The Predecessor adopted the new standard on January 1, 2020, and the adoption did not have an impact on our consolidated financial statements.

In April 2019, the FASB issued ASU No. 2019-04, Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments (“ASU 2019-04”), to clarify and address implementation issues around the new standards related to credit losses, hedging and recognizing and measuring financial instruments. The Predecessor adopted the new standard on January 1, 2020, and the adoption did not have an impact on our consolidated financial statements.

In March 2020, the FASB issued ASU No. 2020-03, Codification Improvements to Financial Instruments (“ASU 2020-03”). The ASU clarifies disclosure guidance for fair value options, adds clarifications to the subsequent measurement of fair value, clarifies disclosure for depository and lending institutions, clarifies the line-of-credit or revolving-debt arrangements guidance, and the interaction of Financial Instruments - Credit Losses (Topic 326) with Leases (Topic 842) and Transfers and Servicing-Sales of Financial Assets (Subtopic 860-20). The Predecessor adopted the new standard on January 1, 2020, and the adoption did not have an impact on our consolidated financial statements.

BUSINESS

Our Business

Through our ownership of the APW Group, we are one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights. We purchase, primarily for a lump sum, the right to receive future rental payments generated pursuant to an existing ground lease or rooftop lease (and any subsequent lease or extension or amendment thereof) between a property owner and an owner of a wireless tower or antennae (each such lease, a “Tenant Lease”). Typically, we acquire the rental streams by way of a purchase of a real property interest in the land underlying the wireless tower or antennae, most commonly easements, usufructs, leasehold and sub-leasehold interests, or fee simple interests, each of which provides us with the right to receive all communications rents relating to the property, including the rents from the Tenant Lease. In addition, we purchase contractual interests, such as an assignment of rents, either in conjunction with the property interest or as a stand-alone right.

We believe that our business model and the nature of our assets provides us with stable, predictable and growing cash flow. First, we seek to acquire real property interests and rental streams subject to triple net or effectively triple net lease arrangements, whereby all taxes, utilities, maintenance costs and insurance are the responsibility of either the owner of the tower or antennae or the property owner. Furthermore, Tenant Leases contain contractual rent increase clauses, or “rent escalators”, calculated either as a fixed rate, typically between 2% and 3%, or tied to a consumer price index (“CPI”), or subject to open market valuation (“OMV”). As of March 31, 2020, approximately 99% of the Company’s Tenant Leases had contractual rent escalators; approximately 65% (as a percentage of revenue for the year ended December 31, 2020) and 68% (as a percentage of annualized in-place rents as of March 31, 2020) of our Tenant Lease contractual rent escalators were either tied to a local CPI or subject to OMV, and the remainder were fixed escalators. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”. In addition, the APW Group has historically experienced low annual churn as a percentage of revenue, ranging from 1% to 2% during the fiscal years ended December 31, 2019 and 2018, primarily due to the significant network challenges and expenses incurred by owners of wireless communications towers and antennae in connection with the relocation of these infrastructure assets to alternative sites. Finally, we seek to obtain the ability to negotiate amendments and renewals of our Tenant Leases, thereby providing us with additional recurring revenue and one-time fees.

As of March 31, 2020 and December 31, 2019, we had interests in approximately 6,300 and 6,100 leases that generate rents for us, respectively. These leases related to properties that were situated on approximately 4,800 and 4,600 different communications sites, respectively, throughout the United States and 18 other countries. For the year ended December 31, 2019, the APW Group’s revenue was \$55.7 million, and the annualized contractual revenue from the rents expected to be collected on the leases we had in place at that time (the annualized “in-place rents”) from the APW Group assets was approximately \$62.1 million. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures”.

Our Company

DLGI is a holding company with no material assets other than its limited liability company interests in APW OpCo, which is the sole member of AP Wireless, which in turn is the direct parent of the APW Group. DLGI was incorporated under the laws of the British Virgin Islands on November 1, 2017 and was formed to undertake an acquisition of a target company or business. On November 20, 2017, the Ordinary Shares and Warrants were admitted to listing on the LSE, and DLGI raised approximately \$500 million before expenses through its initial placement of Ordinary Shares and Warrants in the 2017 Placing and a private subscription by the Series A Founders for the BVI Series A Founder Preferred Shares.

On February 10, 2020, DLGI completed its initial acquisition by purchasing the APW Group from Associated Partners in the APW Acquisition. For more information relating to the APW Acquisition, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Recent Developments—The APW Acquisition”. Except as the context otherwise requires, references in the following discussion to the “Company”, “DLGI”, “we”, “our” or “us” with respect to periods prior to the Acquisition Closing Date are to our Predecessor, the APW Group, and its operations prior to the Acquisition Closing Date; such references with respect to periods after to the Acquisition Closing Date are to our Successor, DLGI and its subsidiaries (including the APW Group), and their operations after the Acquisition Closing Date.

The APW Group was established as a U.S. cell site lease aggregator in 2010 and made its first foreign lease investment in November of 2011. Since that time, it has entered into, and holds assets in, a total of 18 jurisdictions in addition to the U.S. We believe that the APW Group is a “first mover” in many of these jurisdictions; that is, until its market entry no other parties were engaged in the systematic aggregation of cell site leases in any kind of scale.

Strategy

We seek to continually expand our business by primarily implementing organic growth strategies, including expanding into different geographies, asset classes and technologies; continued acquisition of real estate interests and contractual rights (as well as other revenue streams) in wireless communications sites and other communications infrastructure (as well as through annual rent escalators, the addition of new tenants and/or lease modifications); and developing a portfolio of infrastructure assets including through acquisition or build to suit. We intend to achieve these objectives by executing the following strategies:

Grow Through Additional Acquisitions. We intend to pursue acquisitions of real property interests and contractual rights underlying wireless communications cell sites, utilizing the expertise of our management and our proven, proprietary underwriting process to identify and assess potential acquisitions. When acquiring real property interests and contractual rights, we aim to target communications infrastructure locations that are essential to the ongoing operations and profitability of the respective tenants, which we expect will result in continued high tenant occupancy and cash flow stability. We have established a local presence in high opportunity countries in order to expand our operating jurisdictions. In addition, we can utilize our advanced acquisition expertise to pursue acquisitions and investments in either single assets or portfolios of assets.

Increase Cash Flow Without Additional Capital Investment. We seek to organically grow our cash flow on our existing portfolio without additional capital investment through (i) contractual rent escalations, (ii) lease renewals, at higher rates, with existing tenants, (iii) rent increases based on equipment, technology or site modification upgrades at our infrastructure locations and (iv) the addition of new tenants to existing locations.

Leverage Existing Platform to Expand our Business into the Broader Communications Infrastructure. We intend to explore other potential areas of growth within the communications infrastructure market segment that have similar characteristics to our core “Tenant Lease” (i.e., an existing ground lease or rooftop lease between a property owner and an owner of a wireless tower or antennae) business and plan to explore expansion into other existing rental streams underlying critical communications infrastructure. Areas of expansion may include investing in Tenant Leases underneath (i) mobile switching centers, which is a telephone exchange that makes the connection between mobile users within a network, from mobile users to the public switched telephone network, and from mobile users to other mobile networks, (ii) data centers, which is a large group of networked computer servers typically used by organizations for remote storage, processing or distribution of large amounts of data that are typically located in a stand-alone building, and (iii) distributed antenna system (DAS) networks, which is a way to address isolated spots of poor coverage in a large building or facility (such as a hospital or transportation hub) by installing a network of small antennae to serve as repeaters.

Explore Expansion Opportunities into Digital Infrastructure Assets. As part of our expansion strategy, we intend to explore opportunities to develop other digital infrastructure assets, including build-to suit opportunities

where we would be contracted to build communications infrastructure (such as wireless towers) and lease such equipment to tenants on a long-term basis. Cell:cm Chartered Surveyors, which is a wholly-owned subsidiary within the APW Group, already offers building consultancy services including architecture and design, building and roof maintenance, building surveys and development, and project monitoring.

Our Assets

Types of Assets

As of March 31, 2020, we have acquired a total of 6,613 leases since the inception of the APW Group in 2010 (including non-renewed or terminated leases). As of March 31, 2020 and December 31, 2019, we had interests in approximately 6,300 and 6,100 leases that generate rents for us, respectively. These outstanding leases related to properties that were situated on approximately 4,800 and 4,600 different communications sites, respectively. Each of these “assets” is the right to receive the rent payable under the Tenant Lease entered into between the property owner or current lessor of the property and the owner of the wireless communication towers or antennae located on such site. These tower or antennae owners are typically either wireless carriers (mobile network operators, or “MNOs”) or tower companies. We acquire these interests primarily through individually negotiated transactions with the property owners. Our revenue growth rate has historically ranged from approximately 3% to 4%, and approximately 1% to 2% of our leases are lost annually due to non-renewal or terminations.

The majority of these assets are real property interests of varying legal structures (for example, easements, usufructs, leases, surface rights or fee simple interests), which provide the Company the right to receive the income from the Tenant Lease rental payments over a specified duration. The real property right granted to us is typically limited to the land underlying the communication asset. However, in certain circumstances we purchase interest in a larger portion of the real property. For rooftop interests, we typically create an interest in the entire rooftop rather than just the portion of the rooftop underlying an antenna, to permit it to grant additional rights to new or existing tower or antenna operators. The scope of the real property interest is also typically tied to our use for wireless communication assets. We also purchase contractual rights in the rental stream, such as through an assignment of rents, either individually or in connection with the purchase of the real property right.

As set forth in the table below, approximately 87% and 88% of the total portfolio was generated from real property interests (including fee simple interests), based on total revenue for the year ended December 31, 2019 and annualized in-place rents as of March 31, 2020, respectively, and 9% and 12% was generated from contractual property interests, based on total revenue for the year ended December 31, 2019 and annualized in-place rents as of March 31, 2020, respectively. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures”.

(a) Relates to Cell:cm operations.

Real Property Interests. As of March 31, 2020, we had an aggregate of 6,284 leases arising from real property interests, other than fee simple interests. These real property interests vary by jurisdiction and often bifurcate portions of ownership. In the U.S. the real property interests are generally easements. In the United Kingdom, we typically enter into “head leases” with the property owner or leaseholder which, as a matter of law, inserts us between the property owner or leaseholder and the Tenant. In other jurisdictions, we may purchase from the property owners (i) a “usufruct”, which is a real property right that provides us with the ability to benefit from a property arising from the specified use (in this case use for wireless communications services) for a specified duration or (ii) a “surface right”, which is a real property right to benefit from and use the surface of a property for a specified duration. Under a Usufruct or Surface Right, we become, in accordance with local law, the legal beneficiary of any leases pre-existing on such property and typically have the right to negotiate any new leases during the specified duration. At the end of the specified duration, the full property rights again are vested in the property owner. In each case, these real property rights are registered with the property registry in the applicable jurisdiction to provide “constructive notice” of such interests and to protect against subsequent creditors.

As of March 31, 2020, we had an aggregate 821 assets associated with fee simple interests in land. These assets were primarily held in the United Kingdom (553), the United States (40), The Netherlands (47) and Hungary (55). Fee simple ownership confers the greatest bundle of property rights available to us in any jurisdiction. The size of these land holdings is typically limited to the land underlying the communication structure and, in certain cases, the surrounding areas for ancillary buildings. When we hold a fee simple interest in land we will enter into a Tenant Lease directly with the tower owner (the MNO or tower company). In substantially all of our fee simple interests, we have entered into a Tenant Lease that imposes on the tower owner responsibility for taxes, insurance, maintenance and utilities for such property.

Contractual Rights. In addition to real property rights, we acquire contractual rights by way of an assignment of rents, typically where legal limitations of local real estate law or commercial circumstances do not make the acquisition of a real property interest practical. These assignments of rent also arise with rooftops where the building is owned by a condominium or governmental entity and it is not feasible to obtain a real property interest. The rent assignment is a contractual obligation pursuant to which the property owner assigns its right to receive the rent arising under the Tenant Lease to us. A rent assignment relates only to an existing Tenant Lease and therefore would not provide us with the ability automatically to benefit from lease renewals beyond those provided for in the existing Tenant Lease. However, in these cases, we either limit the purchase price of the asset to the term of the current Tenant Lease or obtain an irrevocable power of attorney from the property owner that provides us with the ability to negotiate future leases and a contractual obligation from the property owner to assign rental streams from future Tenant Lease renewals.

Common Asset Attributes

Non-disturbance Agreements. When we acquire a real property interest in connection with a property subject to a mortgage, we usually also enter into a non-disturbance agreement (or local equivalent) with the mortgage lender in order to protect us from potential foreclosure on the property owner at the infrastructure location, which foreclosure could, absent a non-disturbance agreement (or local equivalent), extinguish our real property interest. In some instances where we obtain non-disturbance agreements, we remain subordinated to some indebtedness. As of March 31, 2020 and December 31, 2019, substantially all of our real property interests were either subject to non-disturbance agreements or had been otherwise recorded in local real estate records in senior positions to any mortgages.

Revenue Sharing. In most jurisdictions, the instruments granting us the real property interests or contractual rights often contain revenue sharing arrangements with property owners. These revenue sharing arrangements have varying structures and terms, but generally provide that, upon an increase in the rent due under a new Tenant Lease, the existing lease or a renewal of such lease, the property owner is entitled to receive a percentage of the additional rent payments. These revenue sharing amounts are individually negotiated and range from 20% to 50%.

Table of Contents

Triple Net Nature of the Assets. Through the acquisition of real property interests and contractual rights from the property owner, we obtain the property owner's rights to the rental streams payable under the Tenant Lease. Generally, we do not assume, or contract back to the property owner, the obligations under the pre-existing Tenant Lease, such as the obligations to provide quiet enjoyment of the property or to pay property taxes. Typically, our assets are subject to "triple net" or effectively triple net lease arrangements, meaning that the tenants or the underlying property owners are contractually responsible for property level operating expenses, including taxes, utilities, maintenance capital and operating expenditures and insurance. For the years ended December 31, 2018 and 2019, our property taxes, utilities, maintenance and insurance expenses were less than 1% of revenue. The Directors believe that our triple net and effectively triple net lease arrangements support a stable, consistent and predictable cash flow profile due to the following characteristics:

- no equipment maintenance costs or obligations;
- no property level maintenance capital expenditures; and
- limited property tax or insurance obligations.

Assets with triple net lease arrangements represented 87% of revenue for the year ended December 31, 2019 and 89% of annualized in-place rents as of March 31, 2020. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see "Management's Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures".

Asset Terms. The terms of our real property interests, other than our fee simple interests, generally range from 30 years to 99 years, although some are shorter, and provide us with the right to receive the future income from the future Tenant Lease rental payments over a specified duration. The average remaining term of our real property interests is approximately 45 years. As of March 31, 2020, the weighted average remaining term of our real property interests was 49.6 years for our interests in North America, 49.9 years for our interests in Europe and 27.6 years for our interests in South America. In most cases, the stated term of the real property interest is longer than the remaining term of the Tenant Lease, which provides us with the right and opportunity for renewals and extensions. The table below provides an overview of the remaining term under our real property interests and contractual rights as of March 31, 2020. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see "Management's Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures".

Our structure types include rooftop sites, wireless towers (including monopoles, self-supporting towers, stealth towers and guyed towers) and other structures (including, for example, water towers and church steeples) on which wireless communications assets are located. Before entering into a new geographic market, we evaluate numerous factors, including the following: (i) political stability, (ii) the rule of law, including the ability to obtain judicial enforcement of our property rights and contract rights, (iii) the reliability, quality, and accessibility of local property registries, (iv) macro-economic fundamentals, including inflation and exchange rates, (v) the ability to raise reasonably priced debt to support local acquisitions, (vi) the total addressable market, (vii) taxes, including transfer and/or recordation taxes and indirect taxes such as VAT, (viii) regulatory issues, if any, (ix) the extent of competition in and the maturity of the wireless communications market, (x) consolidation risk among tower companies and wireless carriers, (xi) the potential for sale-leasebacks and/or lease-leasebacks between wireless carriers and tower companies, (xii) passive and active network sharing risk between wireless carriers, (xiii) the nature and creditworthiness of the local tower companies and/or wireless carriers, (xiv) our relationships with local tower companies and wireless carriers in the market based on our operations in other markets, and (xv) the overall cultural compatibility with the target jurisdiction in question.

Tenant Base

The counterparties to the Tenant Leases from which we derive our revenue are generally either large, investment grade MNOs or tower companies that have a national or international footprint. For the year ended December 31, 2019, our top 20 tenants comprised 84% of our revenue. As of March 31, 2020, our top 20 tenants represented 84% of our annualized in-place rents. Of those 20 tenants, 16 had a credit rating of BBB or better, representing 76% of our revenue for the year ended December 31, 2019 and 73% of our total annualized in-place rents as at March 31, 2020. Such investment grade tenants, which include AT&T Mobility, Verizon, Telefónica, Orange, Telstra and Vodafone in the wireless carrier industry and American Tower and Crown Castle in the cellular tower industry, also constituted 87% of the revenue of our top 20 customers. For the year ended December 31, 2019, our top five tenants generated approximately 43% of our revenue, and, as of March 31, 2020, generated approximately 41% of our annualized in-place rents. In addition, for the year ended December 31, 2019, investment grade tenants comprised approximately 83% of total revenue. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations – Non-GAAP Financial Measures”.

Our property rights enable us to benefit from the high renewal rates experienced in the cellular industry. Based on the technical challenges and significant expense associated with the decommissioning and repositioning of an existing antennae within a carrier’s network, and the potential adverse effect on the carrier’s network quality and coverage, churn in the wireless industry has historically been low. Furthermore, zoning restrictions in many countries have typically significantly delayed, hindered or prevented the construction of new sites, thereby limiting the alternatives available to carriers. In addition, as carriers seek to expand network coverage, we expect that carriers will seek to deploy additional antennae through co-location on existing towers and rooftops, positioning us to benefit from additional revenue opportunities on many of the towers and other structures located on sites where we hold real property interests. We believe each of these attributes helps us achieve stable, consistent and predictable cash flow.

We monitor tenant credit quality on an ongoing basis by reviewing, where available, the publicly filed financial reports, press releases and other publicly available industry information regarding the parent entities of tenants.

Tenant Lease Terms

The Tenant Leases underlying our assets are typically structured with automatically renewable periodic terms. Tenant Leases, as originally entered into with the property owners and classified as operating leases, typically have initial stated terms of 5 years, with multiple 5-year renewal periods at the option of the tenant. As of March 31, 2020, the average remaining lease term of our Tenant Leases is approximately 10 years including renewal terms. Each of our Tenant Leases produce an average of approximately \$850 per month in U.S. GAAP rental payments, but can range above and below that significantly. In addition, substantially all of our Tenant Leases include built in rent escalators, which are typically structured as fixed amount increases, fixed percentage increases, CPI increases, or open market review (“OMV”) increases and increase rent annually or on the renewal of the lease term. As of March 31, 2020, approximately 99% of the Company’s Tenant Leases had contractual rent escalators; approximately 65% (as a percentage of revenue for the year ended December 31, 2020) and 68% (as a percentage of annualized in-place rents as of March 31, 2020) of our Tenant Lease contractual rent escalators were either tied to a local CPI or subject to OMV, and the remainder were fixed escalators. The table below sets forth our contractual rent escalators as of March 31, 2020, including as a percentage of revenue and as a percentage of annualized in-place rents. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see “Management’s Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures”.

Although Tenant Leases are typically structured as long-term leases with fixed rents and rent escalators, Tenants generally have the contractual right to terminate their leases upon 30 to 180 days’ notice. Our Acquisition Platform

We have developed experienced and proprietary techniques associated with (i) market targeting and evaluation, (ii) jurisdiction-specific structuring from legal, financial and tax perspectives, (iii) jurisdiction-specific documentation, (iv) asset identification, targeting and evaluation, (v) culturally appropriate marketing and acquisition techniques, (vi) jurisdiction-specific commercial and legal due diligence, (vii) relationships with more than 50 investment grade wireless carriers and tower companies world-wide, (viii) ongoing relationships with regional and local financial, legal and tax advisors who are familiar with our business, (ix) relationships with local notaries in civil law countries, and (x) jurisdiction-specific property management and human resources practices.

Our global real estate acquisition and property management platform consists of four phases: (1) lead generation and marketing, (2) investment origination, (3) underwriting and closing and (4) property management.

Lead Generation

We have developed a proprietary lead generation system, which we use across the jurisdictions in which we operate. This system is based on each jurisdiction’s local language and is used to identify asset prospects. Once an infrastructure location prospect has been identified, our global data management team leverages a variety of publicly available data and proprietary data and resources to obtain contact information for the property owner. Once the property owner’s address and contact information are verified, a “lead” is created in our proprietary customer relationship management (“CRM”) database and made available to our local teams.

Investment Origination

The investment origination process begins with a material interaction between one of our acquisitions professionals and the property owner, at which point a lead becomes an investment “opportunity.” Depending on the jurisdiction in question, initial interactions are either telephonic or in person. In most cases our personnel will physically meet with the property owner one or more times prior to closing. During this process we will evaluate the transaction alternatives and the property owner’s interest level in transacting with us. Once we obtain a copy of the lease from the property owner, relevant data is entered into our proprietary asset evaluation system to generate an initial term sheet or option agreement. Terms then are negotiated with the property owner and, upon acceptance of a term sheet or option agreement, we proceed with further diligence.

Underwriting and Closing

After the proposal has been accepted by the property owner and a term sheet or option agreement has been executed, the investment opportunity moves to our underwriting and closing teams. The potential transaction enters a comprehensive due diligence process. Curative measures are taken to clear title on the real property interest during the underwriting and due diligence process.

In the underwriting stage, we review various transaction-related material, documents and other information for compliance with our underwriting criteria.

As a general matter, when acquiring real property interests, we will target infrastructure locations that are material to the operations of the existing tenants. The majority of our acquisitions include leases with investment grade tenants or tenants whose sub-tenants are investment grade companies. Additionally, we will focus on infrastructure locations with characteristics that are difficult to replicate in the respective market, and those with tenant assets that cannot be easily moved to alternative sites or replaced by new construction.

While we typically make a single upfront payment in exchange for the revenue stream, the underwriting process also provides for the option to structure our payments to the property owner over a period of time, typically paying over a 2- to 5-year period (as opposed to 100% upfront).

Once an opportunity is deemed to meet due diligence and underwriting standards, it proceeds to our investment committee for transaction approval. Pending approval, legal closing documents are prepared, executed and delivered.

Property Management

After funding, the tenant is notified of the transaction and a notarized payment re-direction letter is sent advising the tenant to redirect rental payments to us. The asset management phase includes collections, tenant payment conversion, tenant contact management, the negotiation of lease renewals, modifications, cancellations, reductions, document and consent requests, landlord and tenant complaints and new leasing of available tenant sites. The objective of the asset management function is to ensure that we efficiently receive and process our rental income while optimizing our ability to capitalize on opportunities for additional revenue opportunities.

Employees

As of December 31, 2019, the APW Group had 280 employees. We have continued to hire personnel and, as of March 31, 2020, we had 281 employees at the APW Group level and an additional 16 employees at APW OpCo and DLGI. The following tables provide a breakdown of the APW Group's employees by geography as of December 31, 2018 and 2019.

Regulatory and Environmental Matters

Our international operations may be subject to limitations on foreign ownership of land in certain areas. Non-compliance with such regulations may lead to monetary penalties or deconstruction orders. Our international operations are also subject to various regulations and guidelines regarding employee relations and other occupational health and safety matters. As we expand our operations into additional international geographic areas, we will be subject to regulations in these jurisdictions.

In the United Kingdom, for example, we are subject to the revised Electronic Communications Code, which came into force on December 28, 2017 as part of the United Kingdom's Digital Economy Act 2017. The Electronic Communications Code governs certain relationships between landowners and operators of electronic communications services, such as cellular towers. It gives operators certain rights to install, inspect and maintain electronic communications apparatus, including masts, cables and other equipment on land, even where the operator cannot agree with the landowner as to the terms of the rights. Among other measures, the Electronic Communications Code restricts the ability of landowners to charge premium prices for the use of their land by basing the consideration paid on the underlying value of the land, not the value attributable to the high public demand for communications services and provides authority to the courts to determine the rent if the parties are unable to come to agreement. As a result, our future results may be negatively impacted if a significant number of our leases in the United Kingdom are renegotiated at lower rates. Nonetheless, despite the revised Electronic Communications Code coming into effect over three years ago, it has not had an impact on the rents which we are currently receiving.

Laws and regulations governing the discharge of materials into the environment or otherwise relating to the protection of the environment are applicable to the communications sites in which we have a real property interest and to the businesses and operations of our lessees, property owners and other surface owners or operators. International, Federal, state and local government agencies issue regulations that often require difficult and costly compliance measures that carry substantial administrative, civil and criminal penalties and that may result in injunctive obligations for non-compliance. These laws and regulations often require permits before operations commence, restrict the types, quantities and concentrations of various substances that can be released into the environment, require remediation of released substances, and limit or prohibit construction or operations on certain lands (e.g. wetlands). Although we do not conduct any operations on our properties, the wireless carriers or tower companies on our communications sites may maintain small quantities of materials that, if released, would be subject to certain environmental laws. Similarly, the site owners, lessees and other surface interest owners may have liability or responsibility under these laws that could have an indirect impact on our business. For those communications sites in which we hold real property interests that are not full fee simple ownership, our liability is typically limited to damages caused by our actions. However, in limited circumstances certain jurisdictions may seek to impose liability if all other owners are not available. With respect to the communications sites that we own in fee simple, we are subject to environmental liability in accordance with local law.

Seasonality

Historically, we have generally acquired approximately 35% of annual cell site lease prepayments in the fourth quarter of the year. The impact and timing of these cell lease prepayments in the fourth quarter can have a delayed impact on the revenue we recognize. For the years ended December 31, 2019 and 2018, the below table compares the revenue recognized on the audited financial statements compared to our annualized in-place rents as of the end of that period. For a definition of annualized in-place rents and a comparison to the most directly comparable GAAP financial measure, revenue, see "Management's Discussion and Analysis of Results of Operations—Non-GAAP Financial Measures".

|--|-------------|-------------|
| Revenue for year ended December 31: | \$55,706 | \$46,406 |
| Annualized in-place rents as of December 31: | \$62,095 | \$51,221 |

Competition

We face competition in the acquisition of our assets. Some of the competitors are larger than us and include public entities with greater access to capital and scale of operations than us. Our principal competitors include large independent tower companies such as American Tower, Crown Castle International and SBA Communications, large MNO/wireless carriers and private and public acquirers of similar assets. In some

jurisdictions, including Europe, the number of wireless towers and antennae owned by tower companies, as compared to wireless carriers, is growing quickly. These tower companies may be more likely to seek to own or control the land underlying their tower as that is their asset/service as compared to the wireless carriers who have traditionally allocated their capital to network development rather than acquisition of the underlying real property. These wireless tower companies are larger and may have greater financial resources than us.

Significant Trends

Consumer demand for data is the primary driver of the telecom infrastructure services that our tenants, predominantly mobile network operators and tower companies, provide. Consumer demand continues to grow due to increases in data consumption and the increased penetration of bandwidth-intensive devices. There is a need for enhanced network coverage and densification to meet speed and capacity demands. We believe that we are well positioned to benefit from this increase in consumer demand. The following trends are expected to continue to impact the industry:

Mobile Data Traffic Growth. The proliferation of mobile devices such as smartphones and tablets and the omnipresence of sophisticated, data-intensive mobile applications and services are expected to drive a strong demand for mobile bandwidth supporting an explosive growth of data usage. The Ericsson Mobility Report, published in November 2019 by Telefonaktiebolaget LM Ericsson (the “Ericsson Mobility Report 2019”), estimated that around 95% of all mobile subscriptions will be for mobile broadband by the end of 2024. This demand is expected to drive major wireless carriers to continue to upgrade and enhance their networks in an effort to improve network quality and capacity. Additionally, global mobile data traffic is predicted to grow by 27% annually between 2019 and 2025, according to the Ericsson Mobility Report 2019. With users demanding faster communication speeds and higher bandwidth, and MNOs looking to compete on network quality, we expect our tenants to continue to enjoy strong demand for their services.

Adoption of Higher Capacity Communication Standards. As data usage continues to rapidly increase, consumer demand is expected to continue to drive the transition from 2G and 3G networks to 4G/LTE and 5G networks globally. Forecasts published in the Ericsson Mobility Report 2019 predict there to be 1.9 billion 5G subscriptions globally for enhanced mobile broadband by the end of 2024, with 63% of all North American mobile subscriptions expected to be for 5G in 2024. The continued adoption of bandwidth-intensive applications is expected to result in a growing demand for high-capacity, multi-location, fiber-based network solutions.

New Technologies and Services. Next generation technologies and new uses for wireless communications are expected to result in new entrants or increased demand in the wireless industry, which may include companies involved in the continued evolution and deployment of machine-to-machine applications (“M2M”), such as connected cars, smart cities and virtual reality. As one example of M2M connections, the proliferation of self-driving cars is expected to significantly accelerate in the near future. The commercial application of partially and fully autonomous vehicles will require the deployment of sophisticated and dense mobile networks, with high connection speeds, reliability and low latency. This and other increases in new technologies and services will require further development of new infrastructures to meet territorial and population coverage requirements.

Consolidation Among Wireless Carriers. The U.S. wireless carrier industry has experienced, and may continue to experience, significant consolidation, such as the recent merger between Sprint and T-Mobile, resulting in the decommissioning of certain existing communications sites, due to overlap of the networks or the rationalization of technology. Internationally, wireless carriers are increasingly entering into active and passive network sharing agreements or roaming or resale arrangements which could also result in decommissioning of certain existing communications sites due to network overlap or redundancy. To the extent that a wireless carrier does not need a redundant communication site, it may seek to early terminate or not renew its lease. Consolidation can also potentially reduce the diversity of tenants and give tenants greater leverage over their landlords, such as us, due to overlapping coverage, ability to increase co-location on nearby existing sites and through aggressive lease negotiations on multiple sites.

Legal Proceedings

We are not currently subject to any legal proceedings, and to the best of our knowledge, no such proceeding is threatened, in each case the results of which would have a material impact on our properties, results of operation, or financial condition. Nor, to the best of our knowledge, are any of our officers or directors involved in any legal proceedings in which we are an adverse party.

Corporate Governance

Responsibilities of the Board

The Directors are responsible for carrying out the Company's objectives, implementing its business strategy and conducting its overall supervision. Acquisition, divestment and other strategic decisions will all be considered and determined by the Board.

The Board seeks to provide leadership within a framework of prudent and effective controls. The Board establishes the corporate governance values of the Company and has overall responsibility for setting the Company's strategic aims, defining the business plan and strategy and managing the financial and operational resources of the Company. Prior to completing the APW Acquisition, the Company did not have any executive officers or full-time employees.

Consistent with the Governance Guidelines (discussed below), the Board schedules quarterly meetings and will hold additional meetings as and when required. The Board expects that this will result in at least four meetings of the Board each year.

Composition of the Board

The Board currently consists of eight Directors. No changes are expected to be made to the composition of the Board in connection with the Domestication. We expect to hold the first annual meeting of stockholders of DLGI Delaware in 2021. The BVI Articles currently provide, and upon the Domestication the Charter will provide, that so long as the Founder Entities, their affiliates and their permitted transferees under the Shareholders Agreement in the aggregate hold 20% or more of the issued and outstanding BVI Founder Preferred Shares or Founder Preferred Shares, as applicable, the holders of such shares will, acting together, have the right to appoint four of the eight Directors on the Board (such Directors, the "Founder Directors"), two appointed by the AG Investor and two appointed by the Series A Founder Preferred Holder. As of the date of this prospectus, the Founder Entities hold approximately 94.98% of the outstanding BVI Founder Preferred Shares. The Founder Directors currently serving on the Board are Michael D. Fascitelli, William H. Berkman, Noam Gottesman and William D. Rahm. Messrs. Berkman and Rahm are designees of the AG Group, and Messrs. Fascitelli and Gottesman are designees of the Series A Group.

In addition, so long as any Founder Directors are serving on the Board, the AG Group will have the right to designate a majority of the Nominating and Governance Committee, and at least four-ninths of each committee

[Table of Contents](#)

of the Board will be comprised of Founder Directors or other Directors selected by them. Pursuant to the Shareholders Agreement, the AG Investors' Representative also has the ability to select a majority of the members of the Nominating and Corporate Governance Committee. Further, so long as Founder Preferred Shares remain outstanding, the Company will not be permitted to increase the size of the Board to more than nine Directors without the prior vote or consent of the holders of at least 80% in voting power of the outstanding Founder Preferred Shares.

In addition, pursuant to the Centerbridge Subscription Agreement, so long as the Centerbridge Entities hold at least 50% of the shares purchased under the Centerbridge Subscription Agreement, they are entitled to nominate one Director to our Board, subject to such person's reasonable approval by AP Wireless. As of the date of this prospectus, the Centerbridge Entities hold 100% of such shares. William D. Rahm currently acts as the Director nominee of the Centerbridge Entities on the Board.

For more information, see "Description of Capital Stock – Founder Preferred Shares", "Certain Relationships and Related Party Transactions – Shareholders Agreement" and "Certain Relationships and Related Party Transactions – Centerbridge Agreements – Centerbridge Subscription Agreement".

Independence of the Board

If the Class A Common Shares and the Warrants are accepted to listing on Nasdaq, the composition of the Board and its committees will be subject to the independence standards set forth under Nasdaq corporate governance listing standards applicable to domestic U.S. issuers (the "Nasdaq Governance Standards"), as well as the Code of Conduct (as defined below) that has been adopted by the Board. The Nasdaq independence definition includes a series of objective tests, including that a director is not, and has not been for at least three years, one of our employees and that neither a director nor any of his family members has engaged in various types of business dealings with us. The Board has determined that each of the Independent Directors is independent under these bright line tests. In addition, as required by the Nasdaq Governance Standards, the Board has made a subjective determination as to each Independent Director that no relationships exist, which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

In making each of these independence determinations, the Board has considered all of the information provided by each Director in response to detailed inquiries concerning his or her independence and any direct or indirect business, family, employment, transactional or other relationship or affiliation of such Director with us.

Based on information provided by each director concerning his or her background, employment and affiliations, we believe that all of the Directors other than Mr. Berkman are "independent" directors for the purposes of the Nasdaq Governance Standards required of U.S. domestic issuers. Mr. Berkman, who serves as our Chief Executive Officer, is an executive director and is therefore not considered to be independent.

Code of Conduct and Governance Guidelines

The Company is firmly committed to high standards of corporate governance and maintaining a sound framework through which the strategy and objectives of the Company are set and the means of attaining these objectives and monitoring performance are determined.

The Company has adopted a Code of Business Conduct and Ethics (the "Code of Conduct") that is applicable to all of our and our subsidiaries' employees, officers and directors. The Code of Conduct addresses, among other things, compliance with law, rules and regulations, conflicts of interest, corporate opportunity requirements, competition and fair dealing, anti-discrimination and harassment, financial controls and reporting, confidentiality, proper use of company assets and the process for reporting violations of the Code of Conduct or any other company policy or any illegal or unethical behavior. Following the completion of the Domestication,

the Code of Conduct will be available on our website. The Audit Committee is responsible for overseeing the Code of Conduct and may be required to approve any waivers of the Code of Conduct for employees, officers or directors. We expect that any amendments to the Code of Conduct, or any waivers of its requirements, will be disclosed on our website or in filings under the Exchange Act as required by applicable law or regulation.

In addition, on February 4, 2020, the Board adopted Corporate Governance Guidelines (the “Governance Guidelines”), which it believes reflects the Board’s commitment to monitor and oversee the effectiveness of policy- and decision making both at the Board and at the senior management level. The Governance Guidelines address, among other things, Director independence, Director retirement and tenure, Director resignation, Board duties and responsibilities, frequency and confidentiality of Board meetings, Director communication, Director access to management, employees and outside counsel and auditors, Director and Board performance evaluation and conflicts of interest. Following the completion of the Domestication, the Governance Guidelines will be available on our website.

Board Committees

The Board has established three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Each standing committee has a written charter that the Board believes would meet the requirements of the Nasdaq Governance Standards. Copies of the written charters of each of our three standing committees will be available on our website upon completion of the Domestication. If the need should arise, the Board may set up additional committees as appropriate.

So long as any Founder Directors are serving on the Board, the AG Group will have the right to designate a majority of the Nominating and Governance Committee, and at least four-ninths of each committee of the Board will be comprised of Founder Directors or other Directors selected by them. See “– Corporate Governance – Composition of the Board” above.

The current members of each committee are expected to be the members of those committees following the completion of the Domestication.

Audit Committee

The purpose of the Audit Committee is to have and exercise the power and authority of the Board relating to (i) the Company’s financial statements and financial reporting process, (ii) the independence and qualifications of the Company’s independent auditors, (iii) the Company’s systems of internal accounting and financial controls and (iv) the Company’s legal compliance and ethics programs, as established by management and the Board.

The Audit Committee is responsible for, among other things:

- the appointment, compensation, retention and oversight of the work of any registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attestation services for the Company (including resolution of any disagreements between management and the independent auditors);
- the review and approval of all audit engagement fees and terms, as well as non-audit engagements, with the Company’s independent auditors;
- overseeing our internal audit function; and
- compliance with legal and regulatory requirements and internal compliance.

In addition, the Audit Committee has the exclusive power (except where such power is expressly delegated to another committee) to review and approve Related Party Transactions (as defined under Item 404 of Regulation S-K under the Securities Act).

The Audit Committee is currently comprised of three members: Thomas C. King, Nick S. Advani and Antoinette Cook Bush. The Audit Committee is chaired by Thomas C. King, whom the Board has determined is an audit committee financial expert in accordance with the Sarbanes-Oxley Act. The Board has reviewed the background, experience and independence of the Audit Committee members. Based on this review, the Board has determined that each member meets the independence and other requirements of the Nasdaq Governance Standards.

Compensation Committee

The purpose of the Compensation Committee is to have and exercise the power and authority of the Board relating to the design and implementation of the Company's executive compensation program and plans, the compensation of the Company's executive officers and Directors and the review of the Company's executive succession plan.

The Compensation Committee is responsible for, among other things:

- assisting the Board in evaluating potential candidates for executive positions;
- making recommendations to the Independent Directors with respect to the compensation of the Chief Executive Officer and determining the compensation of all other executive officers;
- reviewing the Company's incentive compensation and other equity-based compensation plans and making recommendations to the Board with respect thereto; and
- reviewing, on a periodic basis, director compensation and making recommendations to the Board with respect to such compensation.

The Compensation Committee is currently comprised of three members: Michael D. Fascitelli, William D. Rahm and Paul A. Gould. The Compensation Committee is chaired by Michael D. Fascitelli. The Board has reviewed the background, experience and independence of the Compensation Committee members. Based on this review, the Board has determined that each member meets the independence requirements of the Nasdaq Governance Standards.

Compensation Committee Interlocks and Insider Participation

None of the Directors who currently serve, are expected to serve after the Domestication or in the past year have served, on the Compensation Committee (i) serve, or in the past year have served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Board, (ii) are, or in the past year have been, an officer or employee of DLGI or its subsidiaries (including the APW Group) or (iii) have, or in the past year have had, any other relationships requiring disclosure by us under the SEC's rules requiring disclosure of certain relationships and related party transactions by Compensation Committee members. During the fiscal year ended December 31, 2019, the Board of DLGI BVI did not have a compensation committee or separate committee performing equivalent functions, or any executive officers.

Nominating and Corporate Governance Committee

The purpose of the Nominating and Corporate Governance Committee is to have and exercise the power and authority of the Board relating to the (i) identification of qualified individuals to be elected or appointed to the Board (other than the Founder Directors), consistent with criteria approved by the Board, (ii) selection of nominees for election or appointment to the Board (other than the Founder Directors), (iii) development of a set of corporate governance principles applicable to the Company and (iv) process for the evaluation of the Board.

The Nominating and Corporate Governance Committee is responsible for, among other things (subject to the rights of the holders of Founder Preferred Shares as described under “– Corporate Governance – Composition of the Board” above):

- identifying qualified individuals and selecting nominees for election or appointments to the Board;
- recommending to the Independent Directors to serve as members of each Board committee;
- developing and recommending a set of corporate governance principles applicable to the Company and overseeing the process for evaluation of the Board; and
- keeping the structure, size and composition of the Board under regular review, and making recommendations to the Board with regard to any changes necessary.

Pursuant to the Shareholders Agreement, the AG Investors’ Representative, which is an affiliate of Mr. Berkman, has the ability to select a majority of the Nominating and Corporate Governance Committee. See “Certain Relationships and Related Party Transactions – Shareholders Agreement – Founder Directors”.

The Nominating and Corporate Governance Committee is currently comprised of three members: Paul A. Gould, Noam Gottesman and Nick S. Advani. The Nominating and Corporate Governance Committee is chaired by Paul A. Gould. The Board has reviewed the background, experience and independence of the Nominating and Corporate Governance Committee members. Based on this review, the Board has determined that each member meets the independence requirements of the Nasdaq Governance Standards.

| | <i>Performance-Vesting Series A LTIP Units</i> | 100,000 |

- (1) The Company also granted Mr. Birnbaum an additional 100,000 Five-Year Time-Vesting Series A LTIP Units and 100,000 Performance-Vesting Series A LTIP Units on March 18, 2020. Such additional LTIP Units are subject to the same vesting conditions as his Initial Award, except that the vesting commencement date is February 10, 2020 (which is the grant date of his Initial Award).

Time-Vesting Series A LTIP Units. The Three-Year Time-Vesting Series A LTIP Units vest 33.33% on each anniversary of the grant date and the Five-Year Time-Vesting Series A LTIP Units vest 20% on each anniversary of the grant date, in each case, subject to the executive officer’s continued employment on such vesting date.

Performance-Vesting Series A LTIP Units. Performance-Vesting Series A LTIP Units are subject to both time and performance-based vesting conditions and will only become vested upon satisfaction of both applicable time and performance-based vesting conditions. The time-based vesting conditions will be satisfied with respect to 50% of the Performance-Vesting Series A LTIP Units on each of the third and fifth anniversaries of the grant date, in each case, subject to the executive officer's continued employment on such date. The performance-based vesting criteria will be satisfied as follows: (i) 25% of the Performance-Vesting Series A LTIP Units will vest if the 10-day VWAP (as defined in the applicable award agreement) during the last 10 trading days of any year ending on or prior to December 31, 2027 equals at least \$11.50 per Ordinary Share or Class A Common Share, as applicable; (ii) an additional 25% of the Performance-Vesting Series A LTIP Units (i.e., 50% in the aggregate) will vest if the 10-day VWAP during the last 10 trading days of any year ending on or prior to December 31, 2027 equals at least \$13.50 per Ordinary Share or Class A Common Share, as applicable; (iii) an additional 25% of the Performance-Vesting Series A LTIP Units (i.e., 75% in the aggregate) will vest if the 10-day VWAP during the last 10 trading days of any year ending on or prior to December 31, 2027 equals at least \$15.50 per Ordinary Share or Class A Common Share, as applicable; and (iv) an additional 25% of the Performance-Vesting Series A LTIP Units (i.e., 100% in the aggregate) will vest if the 10-day VWAP during the last 10 trading days of any year ending on or prior to December 31, 2027 equals at least \$17.50 per Ordinary Share or Class A Common Share, as applicable. The performance period for Performance-Vesting Series A LTIP Units expires on December 31, 2027 and any Performance-Vesting Series A LTIP Units that have not satisfied both the applicable time-based and performance-based vesting conditions as of such date will be canceled and forfeited.

Performance-Vesting Series B LTIP Units. Performance-Vesting Series B LTIP Units are subject to both time-based and performance-based vesting conditions, subject to the Executive Officer's continued employment and will only become vested upon satisfaction of both applicable time and performance-based vesting conditions. The performance-based vesting criteria will be satisfied with respect to a pro rata portion of the Performance-Vesting Series B LTIP Units if the 10-day VWAP during the last 10 trading days of any year ending on or prior to December 31, 2029 exceeds \$10.00 per Ordinary Share or Class A Common Share, as applicable, with 0% vesting at \$10.00 per Ordinary Share or Class A Common Share, as applicable, and linear vesting through and until 100% vesting at \$20.00 per Ordinary Share or Class A Common Share, as applicable. For example, if the 10-day VWAP during the last 10 trading days of the year ending December 31, 2020 is \$14.00 per Class A Common Share, 40% of the Performance-Vesting Series B LTIP Units vest on such date. If the 10-day VWAP during the last 10 trading days of the year ending December 31, 2021 is then \$13.00 per Class A Common Share, there is no additional vesting on such date. If the 10-day VWAP during the last 10 trading days of the year ending December 31, 2022 is then \$15.00 per Class A Common Share, an additional 10% of the Performance-Vesting Series B LTIP Units vest on such date (such that 50% has vested in the aggregate). The performance period for Performance-Vesting Series B LTIP Units expires on December 31, 2029 and any Performance-Vesting Series B LTIP Units that have not satisfied both applicable time-based and performance-based vesting conditions as of such date will be canceled and forfeited.

Termination of Employment; Change in Control. Under the applicable award agreement, in the event of an executive officer's termination of employment (not in connection with a Change in Control (as defined in the Equity Plan)), his outstanding LTIP Units will be treated as follows:

- in the event of a termination for Cause or resignation without Good Reason (each, as defined in the Equity Plan), any unvested LTIP Units (and related Tandem Shares) will be forfeited;
- in the event of a termination of employment without Cause or resignation for Good Reason, all LTIP Units will vest in full; and
- in the event of a termination due to death or disability, (i) in the case of Time-Vesting Series A LTIP Units, accelerated vesting of a portion of the LTIP Units for the one-year period on which the termination occurs, plus an additional year of vesting (i.e., an additional 40% for Five-Year Time-Vesting Series A LTIP Units and an additional 66.6% for Three-Year Time-Vesting Series A LTIP Units), (ii) in the case of Performance-Vesting Series A LTIP Units, accelerated vesting of the time-

based vesting condition based on the portion of the year elapsed through the date of the termination, plus an additional year of vesting, and awards remain subject to performance hurdles and (iii) in the case of Performance-Vesting Series B LTIP Units, accelerated vesting of all LTIP Units.

Under the applicable award agreement, in the event of a Change in Control, an executive officer's outstanding LTIP Units will be treated as follows:

- all Time-Vesting Series A LTIP Units and Performance-Vesting Series B LTIP Units will vest in full upon such Change in Control; and
- to the extent outstanding Performance-Vesting Series A LTIP Units are assumed or substituted by the successor entity, the performance-based vesting criteria will be deemed satisfied upon such Change in Control and the Performance-Vesting Series A LTIP Units will remain outstanding and subject to only time-based vesting conditions; *provided* that if following such Change in Control the executive is terminated within twelve months without cause, for good reason or due to death or disability, such awards will accelerate. If the outstanding Performance-Vesting Series A LTIP Units are not assumed or substituted by the successor entity, then all such LTIP Units will vest in full upon such Change in Control.

Voting Rights and Transferability. The executive officers have voting rights with respect to their LTIP Units and related Tandem Shares immediately upon the grant date regardless of whether vested or unvested. Vested and unvested LTIP Units are transferable, except that unvested LTIP Units are not transferable within the two-year period following grant.

Severance

In the event of certain terminations of employment, each executive officer is eligible to receive the following severance benefits pursuant to his Employment Agreement:

- in the event of a termination due to death or disability, (i) payment of a pro rata portion of his annual bonus in respect of the fiscal year of termination based on the number of days elapsed in such year through the termination date and actual achievement of applicable company performance goals (the "Pro Rata Bonus Payment"), (ii) payment of any earned, but unpaid bonus, (iii) payment of monthly COBRA premiums for a period of eighteen months following termination (or, in the case of Mr. W. Berkman, twenty-four months) (the "COBRA Equivalent Payment"), (iv) vesting of the time-based component of all outstanding Company equity-based awards based on the number of full or partial years that have elapsed between the applicable grant date and the termination date, plus one additional year of service and (v) in the case of Mr. W. Berkman only, full vesting of all outstanding Performance-Vesting Series B LTIP Units and related Tandem Shares;
- in the event of a termination by the Company other than for Cause, due to death or disability, or by the executive officer with good reason (each, a "Qualifying Termination"), in each case other than during the twelve-month period following a Change in Control (as defined in the applicable Employment Agreement), (i) a payment equal to one-times (or, in the case of Mr. W. Berkman only, two-times) the sum of (x) his base salary and (y) his annual bonus earned in respect of the prior fiscal year (the "Prior Year Bonus"), (ii) the Pro Rata Bonus Payment, (iii) payment of any earned, but unpaid bonus, (iv) payment of the COBRA Equivalent Payment and (v) full accelerated vesting of his Initial Award (any other Company equity-based awards will be treated in accordance with the applicable award agreements); and
- in the event of (x) a termination by the Company in anticipation of a Change in Control or (y) a Qualifying Termination during the twelve-month period following a Change in Control, (i) a payment equal to two times the sum of (x) his base salary and (y) the Prior Year Bonus, (ii) payment of a pro rata portion of his target bonus based on the number of days elapsed in the fiscal year of termination through the termination date, (iii) payment of any earned, but unpaid bonus, (iv) payment of the

COBRA Equivalent Payment and (v) full accelerated vesting of all LTIP Units, Tandem Shares and other Company equity-based awards.

The foregoing severance payments and benefits are conditioned upon the executive officer's execution and delivery of a release of claims. The executive officers are subject to twelve-month (or, in the case of Mr. W. Berkman only, twenty-four month) non-competition and non-solicitation covenants following a termination of employment, and perpetual confidentiality and mutual non-disparagement covenants.

Digital Landscape 2020 Equity Incentive Plan

Administration

The Digital Landscape 2020 Equity Incentive Plan (the "Equity Plan") is administered by the Compensation Committee. Subject to the terms of the Equity Plan, the Compensation Committee is authorized to select eligible persons to receive awards, determine the type, number and other terms and conditions of, and all other matters relating to, awards, adjust the term and conditions of any such award, alter administrative rules, guidelines and practices governing the Equity Plan as it deems advisable, prescribe award agreements (which need not be identical for each participant), and the rules and regulations for the administration of the Equity Plan, construe and interpret the Equity Plan and award agreements, and correct default, supply omissions or reconcile inconsistencies therein and make all other decisions and determinations as the Compensation Committee may deem necessary or advisable for the administration of the Equity Plan.

Eligibility

The Equity Plan is discretionary and will enable the Compensation Committee to grant awards to any director, officer, employee, advisor, consultant of the Company or any of its subsidiaries or affiliates, and prospective employees and consultants who have accepted offers of employment or consultancy from the Company or its subsidiaries or affiliates, although the current intention of the Compensation Committee is that awards be granted only to directors and senior management.

Maximum Shares

Subject to adjustment, the maximum number of shares of Company stock (either Ordinary Shares, Class B Shares or Series B Founder Preferred Shares) that may be issued or paid under or with respect to all awards granted under the Equity Plan is 13,500,000, in the aggregate. Class B Shares are only issuable in tandem with Series A LTIP Units or upon the conversion of the Series B Founder Preferred Shares and Series B Founder Preferred Shares are only issuable in tandem with Series B LTIP Units. The number of shares remaining available for issuance will be increased by the number of shares with respect to which awards granted under our Equity Plan are forfeited or otherwise terminate without issuance of shares, or that are settled for cash or otherwise do not result in the issuance of shares. Awards issued in substitution for awards previously granted by a company acquired by the Company or any of its affiliates, or with which the Company or any of its affiliates combines, do not reduce the limit on grants of awards under the Equity Plan. Additionally, when an Ordinary Share is issued in exchange for a Class B Share or Series B Founder Preferred Share, the number of shares remaining available for issuance will be (i) reduced to reflect the Ordinary Share that has been issued and (ii) increased to reflect the canceled Class B Share or Series B Founder Preferred Share, such that the net impact on the number of available shares is neutral. As of July 24, 2020, there were 9,670,035 shares of Company stock subject to outstanding awards granted under the Equity Plan.

Awards

Under the Equity Plan, the Compensation Committee is authorized to grant stock options, stock appreciation rights, restricted stock, stock units, other equity-based awards and cash incentive awards. Awards may be subject to a combination of time and performance-based vesting conditions, as may be determined by the Compensation Committee. Except as otherwise provided by the Compensation Committee or set forth in an award agreement,

[Table of Contents](#)

awards are not transferable except by will or by laws of descent and distribution. In no event may any award be transferred to a third party in exchange for value without the consent of the Company's shareholders prior to vesting.

Minimum Vesting Conditions

Except for certain limited situations (including death, disability, retirement, a Change in Control, grants to new hires to replace forfeited compensation, grants representing payment of achieved performance goals or that vest upon the satisfaction of performance goals or other incentive compensation, substitute awards, grants to non-employee directors or replacement of previously outstanding awards), all awards granted under the Equity Plan are subject to a minimum vesting period of one year (the "Minimum Vesting Condition"). The Minimum Vesting Condition will not be required on the Initial Awards or awards covering, in the aggregate a number of shares not to exceed 5% of the maximum share pool limit.

Change in Control

Unless otherwise determined by the Compensation Committee, in the event of a Change in Control, awards will remain outstanding; *provided, however*, that upon an involuntary termination of employment of the participant (other than for Cause or due to death or disability) during the twelve-month period following a Change in Control, the participant's awards will become fully vested and all applicable restrictions will lapse. Notwithstanding the foregoing, in the event that the successor in a Change in Control does not assume or substitute the outstanding awards, then all such awards will vest in full upon such Change in Control.

Adjustments

The Compensation Committee may make such adjustments to awards as it considers appropriate to preserve their value in the event of an extraordinary dividend, recapitalization, stock split, spin-off or any other event that constitutes an equity restructuring, including adjustments to the terms of (i) the number of shares with respect to which awards may be granted under the Equity Plan and (ii) the terms of outstanding awards (including adjustments to exercise prices of options and other affected terms of awards).

Term; Amendments

The Equity Plan will remain in effect for ten years following February 10, 2020, the closing date of the APW Acquisition, unless terminated earlier by the Board. The Compensation Committee may amend the Equity Plan as it considers appropriate, subject to the written consent of participants if such changes adversely affect the participants' outstanding awards. Shareholder approval is required to increase the permitted dilution limits and change eligibility requirements.

Narrative to Director Compensation

On November 15, 2017, each of Messrs. Fascitelli, Gottesman, Isaacs and Yamen and Lord Myners entered into a Director’s Letter of Appointment with DLGI BVI (the “Director Letters of Appointment”) pursuant to which each director was entitled to be reimbursed by the Company for travel, hotel and other expenses incurred in connection with performing their duties as directors of DLGI BVI. Under their respective Director Letters of Appointment, Lord Myners and Messrs. Isaacs and Yamen were also entitled to receive annual director fees of \$100,000, \$75,000 and \$75,000, respectively, payable in quarterly arrears. For more information regarding such annual director fees, see “Certain Relationships and Related Party Transactions – Director Options and Warrants”.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

The following provides a description of each transaction since January 1, 2017, and each currently proposed transaction, not described elsewhere in this prospectus (including the director and executive compensation arrangements discussed under “Executive and Director Compensation”), in which:

- we have been or are to be a participant;
- the amount involved exceeded or is expected to exceed \$120,000; and
- any related person (as defined pursuant to SEC rules, and which includes any of our directors, executive officers, any shareholder owning more than 5% of any class of our outstanding voting securities, and any immediate family member of any of the foregoing) had or will have a direct or indirect material interest.

Certain agreements summarized below are filed as exhibits to the registration statement of which this prospectus is a part, and the summaries below are qualified in their entirety by reference thereto.

2017 Subscription

In November 2017, in connection with the 2017 Placing, DLGI BVI issued a total of 1,600,000 BVI Series A Founder Preferred Shares at \$10 per share to TOMS Acquisition II LLC and Imperial Landscape Sponsor LLC (the “Series A Founder Entities”), entities controlled by Noam Gottesman and Michael Fascitelli (the “Series A Founders”), respectively. We also issued Warrants to the Series A Founder Entities on the basis of one Warrant per BVI Series A Founder Preferred Share. In connection with the closing of the APW Acquisition, the BVI Series A Founder Preferred Shares and related Warrants were transferred to Digital Landscape Partners Holding LLC (the “Series A Founder Preferred Holder”), an entity controlled by the Series A Founder Entities and in which Scott Bruce and Richard Goldstein each also hold a 2.85% economic (non-voting) interest.

Director Options and Warrants

As described under “Director and Executive Compensation—Director Compensation”, pursuant to their respective Director Letters of Appointment, three of DLGI BVI’s directors for the fiscal year ended October 31, 2019—Lord Myners and Messrs. Isaacs and Yamen (collectively, the “Independent Non-Founder DLGI BVI Directors”)—were entitled to receive certain annual director fees. Solely for the fiscal year ended October 31, 2018, each of Lord Myners and Messrs. Isaacs and Yamen had the option to elect to receive their annual director fees as a lump sum, subject to the admission of the Ordinary Shares and the Warrants to trading on the LSE. If so elected, the election would constitute an irrevocable undertaking to subscribe such lump sum amount (less any tax withheld by DLGI BVI) for Ordinary Shares (with matching Warrants). Each Independent Non-Founder DLGI BVI Director elected to receive his annual director fees in respect of the fiscal year ended October 31, 2018 in a lump sum and, accordingly, the Independent Non-Founder DLGI BVI Directors collectively subscribed for and were issued an aggregate net sum of \$250,000 for Ordinary Shares (with matching Warrants at a price of \$10.00 per share). Of this aggregate amount, Lord Myners subscribed for 10,000 Ordinary Shares (with matching Warrants) and each of Messrs. Isaacs and Yamen subscribed for 7,500 Ordinary Shares (with matching Warrants) at a price of \$10.00 per share by way of a direct issuance of Ordinary Shares (with matching Warrants). In the Domestication, each matching Warrant to acquire Ordinary Shares will automatically convert into a Warrant to acquire an equivalent number of Class A Common Shares.

The Independent Non-Founder Directors also entered into option deeds with DLGI BVI pursuant to which they received a grant of a five-year option to acquire Ordinary Shares totaling 50,000, 37,500 and 37,500, respectively, in each case at an exercise price of \$11.50 per share. In the Domestication, each such option to acquire Ordinary Shares will automatically convert into an option to acquire an equivalent number of Class A Common Shares.

Shareholders Agreement

On the Acquisition Closing Date, we entered into a shareholder agreement (the “Shareholders Agreement”) with William Berkman and BF Investments (collectively the “AG Investor”), Scott Bruce and Richard Goldstein (together with the AG Investor and their permitted transferees thereunder, the “AG Group”); BF Investments, in its capacity as agent, proxy and attorney-in-fact for the AG Group (the “AG Investors’ Representative”); the Series A Founder Entities and TOMS Acquisition II LLC, in its capacity as agent, proxy and attorney-in-fact for the Series A Founder Entities and the Series A Founder Preferred Holder (the “Landscape Investors’ Representative” and, together with the AG Investors’ Representative, the “Investor Representatives”) and their permitted transferees thereunder (collectively, the “Series A Group”). We refer to the AG Group, the Series A Group and their permitted transferees under the Shareholders Agreement, collectively, as the “Investors”.

Founder Directors

The Shareholders Agreement provides that, until December 31, 2028 (the “Board Designation Expiration Date”), each of the AG Investors’ Representative (on behalf of the AG Group) and the Landscape Investors’ Representative (on behalf of the Series A Founder Preferred Holder), may designate two of the four Founder Directors for election by the holders of the BVI Founder Preferred Shares or the Founder Preferred Shares, as applicable (unless an investors’ representative fails to designate, on behalf of its applicable Investors, its two Founder Directors, in which case the other investors’ representative will be entitled to designate the remaining Founder Director nominees). The Shareholders Agreement further provides that, for so long as Mr. Berkman is our CEO, the AG Investors’ Representative will designate him as one of their Founder Directors (unless we receive advance notice that one of our shareholders intends to nominate one or more directors at the next meeting of shareholders, in which case Mr. Berkman may be replaced as an AG Investor Founder Director effective as of such meeting). Until the Board Designation Expiration Date, each of the Investors has agreed, among other things, to vote its voting securities in accordance with the provisions in the Shareholders Agreement, and Digital Landscape Partners Holding LLC (the “Series A Founder Preferred Holder”), Scott Bruce and Richard Goldstein have irrevocably granted to and appointed the AG Investors’ Representative as their proxy to effect the foregoing voting arrangement. The remaining nominees for the Board (initially four persons) will be selected by the Nominating and Corporate Governance Committee. In addition, the AG Group has the right to select a majority of directors serving on the Nominating and Corporate Governance Committee. The Founder Directors currently serving on the Board are Michael D. Fascitelli, William H. Berkman, Noam Gottesman and William D. Rahm. Messrs. Berkman and Rahm are designees of the AG Group, and Messrs. Fascitelli and Gottesman are designees of the Series A Group.

In addition, in the event the Board recommends the Domestication or the adoption of the Charter to the Company’s shareholders, the Investors have agreed, among other things, to cooperate and use all commercially reasonable efforts so as to cause the Company to effect the Domestication and to cause the Charter to become effective.

Registration Rights

Pursuant to the Shareholders Agreement, AG Investor, Imperial Landscape Sponsor LLC and TOMS Acquisition II LLC are entitled to the following registration rights:

- once we have been a U.S. reporting company under SEC rules for at least 12 months, (i) the right to request that we file, within 45 days of our receipt of such request, a registration statement under the Securities Act for the resale of registrable securities held by them and to have such registration statement remain effective until there are no more registrable securities and (ii) the right to require us to effect an underwritten offering subject to certain limitations; and
- after the 30-month anniversary of the effective date of the Shareholders Agreement, provided we are a U.S. reporting company under SEC rules at that time, customary piggy-back registration rights subject to certain limitations.

Our obligations to each of AG Investor, Imperial Landscape Sponsor LLC and TOMS Acquisition II LLC, with respect to the registration of their securities will terminate on the date on which the entire amount of all voting securities of the Company owned by each of them may be sold in a single sale, in the opinion of counsel satisfactory to the Company and the Investor Representatives, without any limitation as to volume under Rule 144 of the Securities Act.

We have also agreed to indemnify each Investor and its respective affiliates, and its respective directors, officers and employees, in connection with any such registration of registrable securities pursuant to the provisions of the Shareholders Agreement from any and all losses, claims, liabilities or judgments arising out of or based upon (i) any untrue or alleged untrue statement of material fact contained in any part of any registration statement that covers such registrable securities or any prospectus or other disclosure document used in connection with such registrable securities, any issuer free writing prospectus or any amendment or supplement to any of the foregoing, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, or (ii) any violation or alleged violation by the Company or any of its subsidiaries of any federal, state, foreign or common law rule or regulation applicable to the Company or any of its subsidiaries and relating to action or inaction in connection with any such registration, registration statement, other disclosure document or issuer free writing prospectus (in each case, unless such untrue statement or omission was made in reliance on and in conformity with information with respect to any indemnified person furnished to us in writing by the Investors expressly for use therein).

Transfer Restrictions

The Shareholders Agreement further provides that, until December 31, 2027 (the “Restricted Period”), without the prior written consent of the AG Investors’ Representative and Landscape Investors’ Representative, no Investor will make or solicit any “Transfer” (as defined in the Shareholders Agreement) of any of our equity securities owned or acquired by such Investor or its affiliates, in each case, in connection with the consummation of the APW Acquisition (provided that, in the case of Scott Bruce, Richard Goldstein and their permitted transferees, such restrictions will only apply with respect to BVI Series B Founder Preferred Shares or Series B Founder Preferred Shares, as applicable). Following the end of the Restricted Period, each Investor has agreed not to make or solicit any Transfer unless (i) such equity securities would not represent more than 5% of our voting securities; and (ii) to the best knowledge of such Investor, after giving effect to such Transfer, such person or group would not have record or beneficial ownership of more than 10% of our voting securities. However, the foregoing transfer restrictions will not apply to Transfers of equity securities (i) to “Permitted Transferees” (as defined in the Shareholders Agreement), (ii) to us or our subsidiaries, (iii) that the Investor acquired after the Acquisition Closing Date or (iv) up to 25% of the number of Ordinary Shares or Class A Common Shares, as applicable, beneficially owned by such Investor or its affiliates at the Acquisition Closing Date, on a fully diluted basis.

As of the date of this prospectus, 2,400,000 Ordinary Shares, 2,781,485 BVI Class B Shares, 4,000,000 Warrants, 1,600,000 BVI Series A Founder Preferred Shares and 1,386,033 BVI Series B Founder Preferred Shares are subject to the foregoing transfer restrictions.

Standstill Restrictions

The Shareholders Agreement also provides that, until December 31, 2029 (or such later date on which the investor percentage interest for the applicable “investor group” (i.e., the AG Group or the Series A Group) has been less than 5% for 180 consecutive days), subject to certain exceptions (and without prior approval of not less than a majority of the Board), no Investor will, and no Investor will permit any of its affiliates or general partners to, directly or indirectly acquire, offer to acquire, by purchase or otherwise, (i) record or beneficial ownership of any of our equity securities, or any direct or indirect right to acquire record or beneficial ownership of any of our equity securities, or (ii) any cash-settled call options or other derivative securities or contracts or instruments in any way related to the price of our equity securities. The Investors have also agreed to certain additional

restrictions, including restrictions on voting their securities, applicable during the period described above and subject to certain exceptions.

Notwithstanding the foregoing, such restrictions will not apply to, among other things, (i) the acquisition of equity securities (a) by the AG Group pursuant to the APW Acquisition or the conversion of APW OpCo Units or the exchange of Class B Common Shares or Series B Founder Preferred Shares, (b) by either investor group of up to 24.9% of the Class A Common Shares (on a fully diluted basis) with respect to any investor group, (c) by either investor group pursuant to our distributions to all holders of Class A Common Shares and/or the Series A Founder Preferred Shares (or, in each case, the equivalent shares of DLGI BVI prior to the Domestication) or (ii) certain strategic transactions.

Information Rights and Restrictions

The Shareholders Agreement also provides the Investors with certain information rights and imposes certain obligations on the Investors to keep confidential Company information and certain Investor information.

Centerbridge Agreements

Centerbridge Subscription Agreement

On November 20, 2019, we entered into a subscription agreement, subsequently amended and supplemented on February 7, 2020 by an amendment thereto and letter agreement (the “Centerbridge Subscription Agreement”), with Centerbridge Partners Real Estate Fund, L.P., Centerbridge Partners Real Estate Fund SBS, L.P. and Centerbridge Special Credit Partners III, L.P. (collectively, the “Centerbridge Entities”) pursuant to which the Centerbridge Entities subscribed for \$100 million of Ordinary Shares at a price of \$10.00 per share (the “Centerbridge Subscription”) in connection with, and contingent upon the consummation of, the APW Acquisition. Pursuant to the Centerbridge Subscription Agreement, the aggregate cash proceeds from the sale of the shares sold thereunder are available for general corporate purposes.

Centerbridge Director Nominee

For so long as the Centerbridge Entities hold at least 50% of the shares purchased under the Centerbridge Subscription Agreement, they are entitled to nominate one Director to our Board, subject to such person’s reasonable approval by AP Wireless. As of the date of this prospectus, the Centerbridge Entities hold 100% of such shares. William D. Rahm currently acts as the Director nominee of the Centerbridge Entities on the Board.

Registration Rights

Pursuant to the Centerbridge Subscription Agreement, we agreed to register the Class A Common Shares held by the Centerbridge Entities for resale under the Securities Act prior to cancelling the listing of our Ordinary Shares on the LSE. Accordingly, the Centerbridge Entities have been named in this prospectus as “selling stockholders” that may, from time to time after the Domestication, offer and sell pursuant to this prospectus any or all of the Resale Shares owned by them. See “Selling Stockholders”.

Also pursuant to the Centerbridge Subscription Agreement, we and the Centerbridge Entities entered into a Registration Rights Agreement dated July 10, 2020 providing the Centerbridge Entities with the following registration rights, effective from and after the date on which we become a U.S. reporting company under SEC rules:

- the right to require us to effect one underwritten offering of the Class A Common Shares held by the Centerbridge Entities each year subject to certain limitations (and provided that any such demand registration in which a Centerbridge Entity is subject to cutback in excess of 25% of the securities it requested to register shall not count as a demand registration); and
- customary “piggy-back” rights on all registrations of sales of our equity securities, subject to certain limitations.

Our obligations to maintain an effective registration statement with respect to the sales by the Centerbridge Entities of shares acquired pursuant to the Centerbridge Subscription Agreement (or in exchange therefor) will terminate on the first date on which the Centerbridge Entities can sell all such shares under Rule 144 of the Securities Act without limitation as to the manner of sale or the amount of such securities that may be sold.

We have agreed to bear most of the costs associated with fulfillment of our registration obligations owed to the Centerbridge Entities, including all costs, expenses and fees in connection with the registration of the Resale Shares offered under this registration statement. The Centerbridge Entities, however, will bear all commissions and discounts, if any, attributable to their sale of the Resale Shares. See “Plan of Distribution”. We have also agreed to indemnify the Centerbridge Entities and their respective officers, directors, employees, advisors and agents (subject to certain limited exceptions) against liabilities that may arise from sales made by them in connection with the exercise of their registration rights.

Centerbridge Commitment Letter

On November 20, 2019, in connection with our entry into the Centerbridge Subscription Agreement, we entered into a commitment letter (the “Centerbridge Commitment Letter”) with certain affiliates of the Centerbridge Entities (the “commitment parties”), pursuant to which the commitment parties committed to provide up to a \$100 million loan facility, conditioned on, among other things, our entry into the APW Merger Agreement. In consideration for such commitments, upon the completion of the APW Acquisition, we paid to the commitment parties a non-refundable commitment fee in an amount equal to 4.0% of the \$100 million committed amount. The commitments under the Centerbridge Commitment Letter terminated upon the completion of the APW Acquisition, without any loans being funded thereunder.

Centerbridge Voting Agreement

On February 7, 2020, the Centerbridge Entities entered into a voting agreement (the “Centerbridge Voting Agreement”) with us, pursuant to which the Centerbridge Entities agreed to vote, for a period of one year following the closing of the APW Acquisition, all voting securities of the Company owned by them, certain of their transferees and any of their affiliates (i) in favor of any and all Director nominees that are nominated by our Board’s Nominating and Corporate Governance Committee and (ii) against the removal of any such nominee that is subsequently elected to the Board who is subject to removal without cause.

APW Merger Agreement

On November 19, 2019, we entered into the Agreement and Plan of Merger (the “APW Merger Agreement”) to acquire a 91.8% interest in APW OpCo, the parent of AP Wireless, from Associated Partners for approximately \$860 million less (i) debt as of June 30, 2019 of approximately \$539 million, (ii) approximately \$65 million to redeem a minority investor in the AP Wireless business and (iii) allocable transaction expenses of approximately \$10.7 million plus (iv) cash as of June 30, 2019 of approximately \$66.5 million (subject to certain limited adjustments). The acquisition was completed on the Acquisition Closing Date through a merger of LAH Merger Sub LLC, a Delaware limited liability company and wholly-owned subsidiary of the Company (“Merger Sub”), with and into APW OpCo, with APW OpCo surviving such merger as a majority owned subsidiary of the Company (the “APW Merger”).

Following the APW Acquisition, we own 91.8% of APW OpCo, with the former partners of Associated Partners who were members of APW OpCo immediately prior to the Acquisition Closing Date and who elected to roll over their investment in APW OpCo in connection with the APW Acquisition (the “Continuing OpCo Members”) owning the remaining 8.2% interest in APW OpCo. As a result, the AP Wireless Business is 100% owned by DLGI and the Continuing OpCo Members. Certain securities of APW OpCo issued and outstanding upon completion of the APW Acquisition are subject to time and performance vesting conditions. In addition, all securities of APW OpCo held by persons other than the Company are exchangeable for Ordinary Shares and,

following the Domestication, will be exchangeable for Class A Common Shares. If all APW OpCo securities vested and no securities have been exchanged for Ordinary Shares or Class A Common Shares, as applicable, we will own approximately 82.0% of APW OpCo. For more information about the APW OpCo securities, see “– APW OpCo LLC Agreement”; see “Prospectus Summary – Organizational Structure” for a depiction of our organizational structure, giving effect to the APW Acquisition and the Domestication.

Effect of the APW Merger

Pursuant to the terms of the APW Merger Agreement, by virtue of the APW Merger on the Acquisition Closing Date:

- The APW OpCo units held by the Continuing OpCo Members, which include Paul A. Gould and certain controlled affiliates of William H. Berkman, were canceled and converted into the right to receive BVI Class B Shares, Class B Common Units and Rollover Profits Units (as defined below). Pursuant to this conversion in the APW Merger, controlled affiliates of Mr. Berkman collectively received 1,395,452 BVI Class B Shares, 1,250,431 Class B Common Units, 1,250,431 Series A Rollover Profits Units and 145,021 Series B Rollover Profits Units; and Mr. Gould received 17,597 BVI Class B Shares, 15,768 Class B Common Units, 15,768 Series A Rollover Profits Units and 1,829 Series B Rollover Profits Units.
- The APW OpCo units held by each other former partner of Associated Partners who was a member of APW OpCo immediately prior to the Acquisition Closing Date and who elected to receive cash in exchange for their interests in APW OpCo (the “Former OpCo Members”), were canceled and converted into the right to receive a cash payment in an amount calculated pursuant to the terms of the APW Merger Agreement.
- The limited liability company interests of Merger Sub were converted into the Carry Unit (described under “– APW OpCo LLC Agreement – Units” below) and a number of Class A Common Units equal to the number of Ordinary Shares and Series A Founder Preferred Shares issued and outstanding immediately prior to the Acquisition Closing Date. As a result, the Company became the holder of the Carry Unit and all 60,025,000 Class A Common Units.

In addition, pursuant to the APW Merger Agreement, the Company was appointed as the sole manager of APW OpCo. For more information about APW OpCo and its securities, see “– APW OpCo LLC Agreement” below.

Post-Acquisition Board Composition

The APW Merger Agreement provided that, effective as of the Acquisition Closing Date, our Board would be comprised of Directors designated by William H. Berkman, acting in his capacity as the Company Partners’ Representative under the APW Merger Agreement, and reasonably acceptable to the Company. The APW Merger Agreement also provided that such Directors would include William H. Berkman (who would also serve as the Company’s CEO) and Michael D. Fascitelli (who would serve with William H. Berkman as Co-Chairmen of the Board) and Noam Gottesman.

AP Wireless D&O Indemnification and Insurance

Pursuant to the APW Merger Agreement, we agreed that all rights to indemnification, limitations on liability and exculpation in favor of any director, officer or employee of AP Wireless or its subsidiaries existing as of the Acquisition Closing Date will continue in full force and effect for six years after the Acquisition Closing Date.

Additionally, AP Wireless and its subsidiaries have agreed (and in the event they are unable to do so, we have agreed) to cause APW OpCo to maintain, for six years after the Acquisition Closing Date, the insurance policies and fiduciary liability insurance policies of the directors and officers of AP Wireless and each of its subsidiaries.

Tax Indemnification and Insurance

On the Acquisition Closing Date, pursuant to the terms of the APW Merger Agreement and as a condition to the completion of the APW Acquisition, the Company deposited \$10 million into the Tax Escrow Account (as defined below), which funds were allocated to the Former OpCo Members and the Continuing OpCo Members and accordingly reduced the consideration received by such members pursuant to the APW Merger Agreement. Pursuant to the APW Merger Agreement, the Former OpCo Members and the Continuing OpCo Members agreed to indemnify the Company and its affiliates (including, following the Acquisition Closing Date, AP Wireless and its subsidiaries) and their respective directors, officers, employees, agents and other advisors and representatives, from amounts then available in the Tax Escrow Account, from and against any and all losses incurred, suffered or paid by them and arising out of, relating to or resulting from the Tax Indemnification Matters (as defined in the APW Merger Agreement).

Additionally, pursuant to the APW Merger Agreement, AP Wireless was required to obtain, and prior to the Acquisition Closing Date we did obtain, a \$25 million tax insurance policy.

Escrow Agreement

On February 10, 2020, in connection with the APW Acquisition, we entered into an escrow agreement (the “Escrow Agreement”) with AP Wireless, Associated Partners, as the representative of the Continuing OpCo Members and the Former OpCo Members, and Citibank, N.A., as escrow agent (the “Escrow Agent”). Pursuant to the Escrow Agreement, and in accordance with the terms of the APW Merger Agreement, the parties thereto established an escrow account (the “Tax Escrow Account”) to hold \$10 million dollars in cash, to be used solely for the applicable purposes set forth in the APW Merger Agreement, as described above, and to be disbursed by the Escrow Agent in accordance with the terms of the Escrow Agreement.

The Escrow Agent will release escrow funds by wire transfer of immediately available funds or check upon (i) the receipt of a joint written instruction delivered by the Company and Associated Partners to the Escrow Agent in accordance with the APW Merger Agreement (a “joint release instruction”), within two business days after receipt of, and in accordance with, such joint release instruction or (ii) the receipt from either party to the Escrow Agreement of a certified copy of a final non-appealable order of any court of competent jurisdiction directing the disbursement of escrow funds and related disbursement instructions, on the fifth business day following receipt thereof, and in accordance therewith.

Prior to their release, the escrowed funds and all products and proceeds thereof (“escrow earnings”) will be retained by the Escrow Agent and reinvested and will be disbursed as part of the escrow funds (which shall be held in an FDIC-insured, interest-bearing deposit account). Pursuant to the APW Merger Agreement, the Company and Associated Partners have agreed to provide joint release instructions requiring the Escrow Agent to release to the Company an amount equal to 25% of the amount of any taxable income the Company recognizes in respect of the escrow earnings.

The Escrow Agreement will automatically terminate upon the earlier to occur of (i) the distribution of all escrow funds in accordance with the terms of the Escrow Agreement or (ii) delivery to the Escrow Agent of a written notice of termination executed jointly by the parties to the Escrow Agreement.

APW OpCo LLC Agreement

APW OpCo was initially formed as a Delaware limited liability company on November 15, 2019, with Associated Partners as its sole member. Effective as of the Acquisition Closing Date, the Company and certain other members of APW OpCo (comprising the Continuing OpCo Members) amended and restated the initial limited liability company agreement of APW OpCo (as so amended and restated, the “APW OpCo LLC Agreement”).

Units

The limited liability company interests of APW OpCo are represented by units (the “Units”). As of the Acquisition Closing Date, the Units were comprised of the following classes and series of Units, which, as of July 24, 2020, were issued and held by the members of APW OpCo as follows:

- Class A Common Units — 60,025,000 issued and outstanding. Held solely by the Company.
- Class B Common Units — 5,389,030 issued and outstanding. Held solely by members of APW OpCo (other than the Company), which at the Acquisition Closing Date and as of the date of this prospectus are the Continuing OpCo Members. The Class B Common Units are held in tandem with BVI Class B Shares (and, following the Domestication, will be held in tandem with the Class B Common Shares). Beginning 180 days after the Acquisition Closing Date, a member of APW OpCo (other than the Company) may redeem the Class B Common Units for cash or Ordinary Shares (and, following the Domestication, for Class A Common Shares), at the option of the Company, subject to certain terms and conditions, including the surrender (for no consideration) by the redeeming holder of the BVI Class B Shares (or Class B Common Shares) held in tandem with the Class B Common Units being redeemed. See “– Redemption of Class B Common Units” below.
- Series A Rollover Profits Units — 5,389,030 issued and outstanding. Held solely by members of APW OpCo (other than the Company), which at the Acquisition Closing Date and as of the date of this prospectus are the Continuing OpCo Members. The Series A Rollover Profits Units are forfeited, subject to certain exceptions and limitations, upon the earlier of (i) the date of the conversion of all of the BVI Series A Founder Preferred Shares into Ordinary Shares or Series A Founder Preferred Shares into Class A Common Shares, as applicable, and (ii) the date on which there are no BVI Series A Founder Preferred Shares or Series A Founder Preferred Shares outstanding.
- Series B Rollover Profits Units — 625,000 issued and outstanding. Held solely by members of APW OpCo (other than the Company), which at the Acquisition Closing Date and as of the date of this prospectus are the Continuing OpCo Members. Once equitized (as described below), the Series B Rollover Profits Units are treated for all purposes as Class B Common Units.
- Series A LTIP Units — 5,400,000 issued and outstanding. Held by William Berkman, Scott Bruce, Richard Goldstein, David Berkman, Glenn Breisinger and Jay Birnbaum. The Series A LTIP Units are held in tandem with BVI Class B Shares (and, following the Domestication, will be held in tandem with the Class B Common Shares). Approximately 62.5% of the Series A LTIP Units vest in equal annual installments over three or five years and approximately 37.5% will vest subject to achieving certain share price performance hurdles over a seven-year period. Once equitized (as described below), the Series A LTIP Units are treated for all purposes as Class B Common Units.
- Series B LTIP Units — 1,386,033 issued and outstanding. Held by William Berkman, Scott Bruce and Richard Goldstein. The Series B LTIP Units are held in tandem with BVI Series B Founder Preferred Shares (and, following the Domestication, will be held in tandem with the Series B Founder Preferred Shares). The Series B LTIP Units will vest subject to achieving certain share price performance hurdles over a nine-year period. Once equitized (as described below), the Series B LTIP Units are treated for all purposes as Class B Common Units.
- Carry Unit — A single non-voting Unit held solely by the Company.

We refer to the Class A Common Units and the Class B Common Units as the “Common Units”; the Series A Rollover Profits Units and Series B Rollover Profits Units as the “Rollover Profits Units”; and the Series A LTIP Units and Series B LTIP Units as the “LTIP Units”.

Equitization

LTIP Units become equitized when the capital account of such LTIP Unit exceeds the “LTIP Notional Amount” (as defined in the applicable LTIP Agreement) with respect to such LTIP Unit. As of the date of this

prospectus, the LTIP Notional Amount for each LTIP Unit is \$10.00. Once equitized, an LTIP Unit is treated for all purposes as one Class B Common Unit.

Series B Rollover Profits Units become equitized when the capital account of such Series B Rollover Profits Unit exceeds \$10.00. Once equitized, a Series B Rollover Profits Unit is treated for all purposes as one Class B Common Unit.

Manager and Management

APW OpCo is managed by and under the direction of the Company, as manager of APW OpCo (the “Manager”), unless there is a situation which specifically requires approval of the members of APW OpCo under the Delaware Limited Liability Company Act, as amended, or the APW OpCo LLC Agreement. The APW OpCo LLC Agreement generally eliminates voting rights of members of APW OpCo (in their capacity as such) except for certain specified amendments to the APW OpCo LLC Agreement and a limited number of other matters. Where voting rights exist, all Units (other than the Carry Unit, which is non-voting) entitle their holders to one vote per Unit. Members other than the Company have voting rights at the DLGI level as holders of Class B Common Shares.

The Company, as the Manager, may resign as the Manager at any time by giving written notice to the members of APW OpCo, and may be removed or replaced by the members of APW OpCo (including the Company in its capacity as a member of APW OpCo) holding a majority of the voting Units of APW OpCo then outstanding.

The APW OpCo LLC Agreement prohibits the Manager from entering into or conducting any business or operations other than in connection with (i) its capacity as a member of APW OpCo and the ownership, acquisition and disposition of Common Units, (ii) the management of the business and affairs of APW OpCo and its majority controlled subsidiaries, (iii) the operation of the Company as a reporting company with a class or classes of securities registered under Section 12 of the Exchange Act and listed on a securities exchange, (iv) the offering, sale, syndication, private placement or public offering of stock, bonds, securities or other interests, (v) financing or refinancing of any type related to APW OpCo, its majority-controlled subsidiaries or their assets or activities and (vi) such activities as are incidental to the foregoing. The APW OpCo LLC Agreement generally requires the Company to make the net proceeds of any financing or refinancing available to APW OpCo and to take commercially reasonable measures to ensure that the economic benefits and burdens of assets that are acquired or held by the Company other than through APW OpCo and its majority-controlled subsidiaries are otherwise vested in APW OpCo or such subsidiaries, through assignment, mortgage, loan or otherwise.

The APW OpCo LLC Agreement provides that the Manager has the same fiduciary duties of loyalty and care as a director of a corporation under the DGCL. The APW OpCo LLC Agreement provides that the Manager is not liable to APW OpCo, its members or any other person that is a party to or is otherwise bound by the APW OpCo LLC Agreement, for monetary damages for breach of fiduciary duty as a manager of APW OpCo, except for (i) any breach of the Manager’s duty of loyalty to APW OpCo and its members, (ii) any act or omission not in good faith or which involves intentional misconduct or knowing violation of law or (iii) any transaction from which the Manager derived an improper personal benefit.

The APW OpCo LLC Agreement requires APW OpCo to indemnify the Manager to the fullest extent permitted by law to the extent that the Manager was or is made or threatened to be made a party or is otherwise involved in any action, suit or proceeding by reason of the fact that the Manager is or was the Manager, against all liability and loss suffered and expenses (including reasonable attorneys’ fees) reasonably incurred. The APW OpCo LLC Agreement also requires APW OpCo to pay the expenses (including reasonable attorneys’ fees) incurred by the Manager in defending such an action, suit or proceeding in advance of its final disposition.

Distributions

The APW OpCo LLC Agreement provides that the members of APW OpCo, including the Company, are entitled to “Ordinary Distributions” and “Tax Distributions”. In addition, the Company, in its capacity as a member of APW OpCo, is entitled to “Founder Distributions” and, in connection therewith, holders of Series A Rollover Profits Units are entitled to “Rollover Distributions”. Such Founder Distributions and Rollover Distributions are not offset against any Ordinary Distributions that the applicable member of APW OpCo is entitled to receive.

Ordinary Distributions. The Manager may declare and cause APW OpCo to pay distributions out of the cash that could be distributed by APW OpCo in accordance with the DWIP Agreement, the Facility Agreement, the Mezzanine Loan and Security Agreement and the Subscription Agreement (each, as defined under “Management’s Discussion and Analysis of Results of Operations”) or other funds or property legally available therefor (such distributions, “Ordinary Distributions”). Ordinary Distributions are required to be apportioned among the members of APW OpCo in the order of priority set forth in the APW OpCo LLC Agreement, which generally provides that such distributions will be made:

- *First*, to the holders of Common Units (including equitized Units), pro rata in proportion to the deemed capital contributions with respect to their Common Units until they have received aggregate distributions of an amount equal to such deemed capital contributions;
- *Second*, to the holders of LTIP Units (excluding equitized LTIP Units) and Series B Rollover Profits Units (excluding equitized Series B Rollover Profits Units), beginning with holders of Time-Based LTIP Units and Series B Rollover Profits Units, followed by holders of Vested Performance-Based LTIP Units and ending with holders of Unvested Performance-Based LTIP Units (each as defined in the APW OpCo LLC Agreement), in each case until they have received aggregate distributions of an amount equal to (i) in the case of the LTIP Units, the LTIP Notional Amount (as defined in the applicable LTIP Agreement) with respect to their LTIP Units and (ii) in the case of the Series B Rollover Profits Units, \$10.00 per Series B Rollover Profits Unit; and
- *Last*, to the holders of Common Units (including equitized Units).

Tax Distributions. APW OpCo is required pursuant to the APW OpCo LLC Agreement to make distributions to the members of APW OpCo intended to approximate the U.S. federal, state and local taxes such members are required to pay in respect of net income allocated to such members with respect to their Units, which distributions are treated as advances of and offset against the “Ordinary Distributions” and “Rollover Distributions” that such members are entitled to receive as described herein.

Founder Distributions. The APW OpCo LLC Agreement also requires APW OpCo to make distributions (“Founder Distributions”) to the Company, as the holder of the Carry Unit, of an amount in cash equal to the Annual Dividend Amount payable to the holder of Series A Founder Preferred Shares; *provided* that if such Annual Dividend Amount is paid in Ordinary Shares (or, after the Domestication, Class A Common Shares), APW OpCo is required to issue to the Company a number of Class A Common Units that is equal to the number of Ordinary Shares (or Class A Common Shares) issued in respect of such Annual Dividend Amount.

Rollover Distributions. Concurrently with any Founder Distribution made to the Company, APW OpCo is required to make a corresponding distribution (a “Rollover Distribution”) to each holder of Series A Rollover Profits Units equal to the product of (a) the amount of the Founder Distribution, multiplied by (b) a fraction, (i) the numerator of which is the number of Series A Rollover Profits Units then held by such holder and (ii) the denominator of which is the sum of (A) the number of then outstanding Common Units (but not including Class A Common Units issued with respect to the Carry Unit, Class B Common Units issued to holders of Series A Rollover Profits Units in connection with the distribution to the Carry Unit, or the Series A Rollover Profits Units), (B) the number of then outstanding LTIP Units, (C) the number of then outstanding Rollover Profits Units (other than Series A Rollover Profits Units) and (D) the number of then outstanding preferred units issued in the

future then held by the other members of APW OpCo. Rollover Distributions will be made in cash or Class B Common Units to the same extent as the corresponding Founder Distribution was made in cash or Class A Common Units, respectively.

Transfer Restrictions

Pursuant to the APW OpCo LLC Agreement, members and assignees of APW OpCo may not transfer Units or interests in Units other than (i) with the written approval of the Manager and (ii) in certain “Permitted Transfers” described in the APW OpCo LLC Agreement (including transfers to affiliates and certain family members). In addition, in either of the foregoing cases:

- Common Units, LTIP Units or Rollover Profits Units may not be transferred unless the transfer is accompanied by the transfer of an equal number of the BVI Class B Shares, BVI Series B Founder Preferred Shares, Class B Common Shares or Series B Founder Preferred Shares, as applicable, held by the transferor of such Units in tandem with such Units;
- Units may not be transferred by or to a party to the Shareholders Agreement other than in accordance with the terms and conditions of the Shareholders Agreement; and
- LTIP Units may not be transferred other than in accordance with the applicable terms and conditions of the award agreement applicable to such LTIP Unit entered into by and among the Company, APW OpCo and the member of APW OpCo holding such LTIP Unit (each such agreement, an “LTIP Agreement”).

Redemption of Class B Common Units

At any time beginning 180 days after the Acquisition Closing Date (i.e., August 8, 2020), a member of APW OpCo (other than the Company) holding Redeemable Units (as defined below) may cause APW OpCo to redeem such Redeemable Units upon compliance with the procedures set forth in the APW OpCo LLC Agreement. “Redeemable Units” are Class B Common Units (including any equitized LTIP Units or equitized Rollover Profits Units that are treated under the terms of the APW OpCo LLC Agreement as equal to an equivalent or lesser number of Class B Common Units) that are not prohibited by an agreement between their holder and APW OpCo or the Company, including in an LTIP Agreement, from being redeemed.

In exercising such redemption right as to one or more Redeemable Units (the “Redeemed Units”), the holder will be entitled to receive either (i) a number of Ordinary Shares (or, following the Domestication, Class A Common Shares) equal to the number of Redeemed Units (the “Share Settlement”) or (ii) immediately available U.S. dollars in an amount equal to the product of (x) the Share Settlement and (y) the Class A Trading Price (as defined below) (the “Cash Settlement”), as determined by the Company’s Independent Directors who are disinterested. “Class A Trading Price” is defined as the arithmetic average of the volume weighted average prices for a Class A Common Share on the principal securities exchange or automated or electronic quotation system on which the Class A Common Shares are traded or quoted, as reported by Bloomberg, L.P. or its successor, for each of the five consecutive full trading days ending on and including the last full trading day immediately prior to the applicable redemption date, subject to adjustment for any stock splits, reverse splits, stock dividends or similar events. If the Class A Common Shares are no longer trading on a securities exchange or automated or electronic quotation system, then a majority of the Independent Directors shall determine the Class A Trading Price in good faith.

Our Independent Directors who are disinterested may also choose to effect the direct exchange of the Redeemed Units for the Share Settlement or the Cash Settlement, as applicable, rather than through a redemption by APW OpCo by delivering (prior to the redemption date) a notice to APW OpCo and the redeeming member setting forth DLGI’s election to effect such an exchange.

Simultaneous with such redemption (or direct exchange), the member of APW OpCo whose Redeemed Units were redeemed (or exchanged) shall surrender to the Company for no consideration, and the Company

shall cancel for no consideration, a number of BVI Class B Shares or BVI Series B Founder Preferred Shares (or, following the Domestication, Class B Common Shares or Series B Founder Preferred Shares), as applicable, equal to the number of such Redeemed Units.

The APW OpCo LLC Agreement also provides that any transfer or redemption of Class B Common Units and/or BVI Class B Shares or Class B Common Shares, as applicable, held in tandem with Class B Common Units prior to the third anniversary of the Acquisition Closing Date (i.e., February 10, 2023) will result in the automatic cancellation of a proportionate number of such Class B Common Units holder's Series B Rollover Profits Units and BVI Class B Shares or Class B Common Shares, as applicable, held in tandem with such Series B Rollover Profits Units.

Indemnity Agreements

We have entered into indemnification agreements with each of our executive officers and Directors that provide, in general, that we will indemnify them to the fullest extent permitted by law in connection with their service to us or on our behalf.

Lock-up Agreements

In connection with the 2017 Placing, the Series A Founders, the Series A Founder Entities and each of DLGI BVI's directors at that time (including Michael Fascitelli and Noam Gottesman) entered, and upon the Acquisition Closing Date the Series A Founder Preferred Holder entered, into lock up arrangements pursuant to the terms of the placing agreement, dated November 15, 2017, entered into with Credit Suisse Securities (Europe) Limited, Goldman Sachs International and Morgan Stanley & Co. International plc, who were the placing agents for the 2017 Placing (the "2017 Placing Agents"). These lock up arrangements prohibit such persons from, without the prior written consent of the 2017 Placing Agents, offering, selling or otherwise disposing of any Ordinary Shares or any other securities exchangeable for or convertible into, or substantially similar to, Ordinary Shares (including Warrants, BVI Series A Founder Preferred Shares and, following the Domestication, Class A Common Shares and Series A Founder Preferred Shares) they may hold until 365 days after we completed an initial acquisition of an interest in an operating company or business, subject to certain customary exceptions. Because the Acquisition Closing Date occurred on February 10, 2020, these lock up arrangements will terminate on February 9, 2021. As of the date of this prospectus, 2,400,000 Ordinary Shares, 4,000,000 Warrants and 1,600,000 BVI Series A Founder Preferred Shares are subject to these lock up arrangements (all of which are also subject to the transfer restrictions described under "– Shareholders Agreement – Transfer Restrictions", above).

The lock up restrictions are subject to certain usual and customary exceptions and exceptions for:

- gifts;
- transfers for estate-planning purposes;
- transfers to trusts for the benefit of the directors, their families or charitable organizations;
- transfers to the directors;
- transfers to affiliates or direct or indirect equity holders, holders of partnership interests or members of the Series A Founder Entities, in each case, subject to certain conditions; transfers between and among the Series A Founders and the Series A Founder Entities (including any affiliates thereof or direct or indirect equity holders, holders of partnership interests or members of a Series A Founder Entity or employees of an affiliate of a Series A Founder Entity);
- transfers to any of our direct or indirect subsidiaries, a target company or shareholders of a target company in connection with an acquisition, provided that in each of the foregoing cases, the transferees enter into a lock up agreement for the remainder of the period during which the lock up arrangements apply, subject to identical exceptions to those set out in this paragraph;

[Table of Contents](#)

- transfers of any Ordinary Shares, Class A Common Shares or Warrants acquired after the date of 2017 Placing in an open market transaction, or the acceptance of, or provision of, an irrevocable undertaking to accept, a general offer made to all shareholders of the Company on equal terms;
- after the APW Acquisition, transfers to satisfy certain tax liabilities in connection with, or as a result of transactions related to, completion of the APW Acquisition, the exercise of Warrants or the receipt of stock dividends; and
- after the APW Acquisition, transfers by a Director, Series A Founder or a Series A Founder Entity (or certain connected or permitted transferees thereof) of up to 10% of such person's shares for purposes of charitable gifts.

Subject to the expiration or waiver of any lock up arrangement entered into between the Series A Founder Entities and the 2017 Placing Agents, we have agreed to provide, at our own cost, such information and assistance as the Series A Founder Entities may reasonably request to enable them to effect a disposal of all or part of their Ordinary Shares, Class A Common Shares or Warrants at any time upon or after the completion of the APW Acquisition, including, without limitation, the preparation, qualification and approval of a prospectus in respect of such securities.

Contribution of AP Service Company

On October 16, 2019, Associated Partners, then the indirect parent company of AP Wireless Infrastructure Partners, LLC, contributed 100% of the limited liability company interests in AP Service Company, LLC, the direct parent company of AP Wireless Infrastructure Partners, LLC, to AP Wireless, making AP Service Company, LLC, and thus AP Wireless Infrastructure Partners, LLC, a sister company to AP WIP Investments. AP Service Company, LLC, is the Servicer under the DWIP Agreement.

Family Relationship

David Berkman, the brother of William Berkman, the Company's Chief Executive Officer, is employed by the Company as Special Advisor to the Board. For the fiscal year ending December 31, 2020, Mr. D. Berkman will receive an annual salary of \$125,000 and is eligible to receive an annual bonus, the amount of which depends on the amount of services performed and the degree to which annual performance goals established by the Board have been achieved. On February 10, 2020, the Company granted Mr. D. Berkman 1,077,149 Three-Year Time-Vesting Series A LTIP Units pursuant to his employment agreement. Additionally, pursuant to his employment agreement, in the event of certain terminations of employment, Mr. D. Berkman), which are described under the section entitled "– Executive Compensation Arrangements with the Company's Executive Officers – Employment Agreements". Mr. D. Berkman is also subject to a twelve-month non-competition and non-solicitation period following termination and perpetual confidentiality and mutual non-disparagement covenants.

The Board has determined that the Audit Committee is best suited to review and approve or ratify transactions with related persons in accordance with such policy. Such review will apply to any "Related Party", who engages in a "Related Party Transaction". A "Related Party" includes any Director or Executive Officer of the Company, any nominee for Director, any shareholder owning in excess of 5% of any class of the Company's voting securities, and any immediate family member of any such person. A "Related Party Transaction" for the purposes of the policy is (i) any financial transaction, arrangement or relationship in which (a) the aggregate amount exceeds \$120,000, (b) the Company is a participant and (c) any Related Party has or will have a direct or indirect material interest and (ii) any material

amendment or modification to an existing Related Party Transaction regardless of whether such transaction has previously been approved in accordance with the policy.

In reviewing Related Party Transactions, the Audit Committee will use any process and review any information it deems appropriate in light of the circumstances to determine if the Related Party Transaction is reasonable. Such factors include, but are not limited to, (i) the terms of, and the Related Party's interest in, the transaction, (ii) whether the Company is a party to the transaction, and if not, the nature of the Company's participation in the transaction, (iii) the approximate dollar value of the transaction and the approximate dollar value of the Related Party's interest in the transaction and (iv) whether the proposed transaction includes any potential reputational risk issues that may arise as a result of or in connection with the proposed transaction. No member of the Audit Committee will participate in any review, consideration or approval of any Related Party Transaction with respect to which such member or any of his or her immediate family is the Related Party.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The table below sets forth information regarding beneficial ownership of shares of voting securities of DLGI BVI, which consist of the Ordinary Shares, the BVI Class B Shares and the BVI Founder Preferred Shares, as of July 24, 2020 by:

- each person who is known by the Company to own beneficially more than 5% of the outstanding shares of the Company's voting securities;
- each of the Company's named executive officers; and
- all current executive officers and Directors of the Company, as a group.

Beneficial ownership is determined according to the rules and regulations of the SEC, which generally provide that a person has beneficial ownership of a security if such person possesses sole or shared voting or investment power over that security or has the right to acquire such power within 60 days. Accordingly, in calculating the number of shares beneficially owned by a person and the percentage ownership of that person, securities that are currently convertible or exercisable into our shares, or convertible or exercisable into our shares within 60 days of the date hereof are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of calculating the percentage ownership of any other person.

Pursuant to the SEC rules, the table below therefore reflects a person's beneficial ownership of:

- our outstanding voting securities, which consist of the Ordinary Shares, the BVI Class B Shares and the BVI Founder Preferred Shares;
- the Ordinary Shares underlying the outstanding Warrants, which are currently exercisable by the Warrantholders;
- the Ordinary Shares underlying the outstanding and vested options or other rights to acquire Ordinary Shares, which are currently exercisable by their holders;
- the Ordinary Shares underlying the outstanding BVI Series A Founder Preferred Shares, which are currently convertible at the option of the holder into Ordinary Shares; and
- the BVI Class B Shares underlying the outstanding BVI Series B Founder Preferred Shares, which are currently convertible at the option of the holder into BVI Class B Shares.

The table below does not reflect ownership of outstanding Class B Common Units in APW OpCo, which are redeemable at the option of the holder at any time after August 8, 2020, because they will be redeemable or exchangeable for cash or Class A Common Shares, at the option of the Company (see "Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement"). Nor does it reflect ownership of any outstanding but unvested options or restricted stock, none of which vest within 60 days of the date of this prospectus.

The information presented below is based on voting securities issued and outstanding as of July 24, 2020. As of July 24, 2020, we had outstanding (i) 58,425,000 Ordinary Shares, (ii) 11,414,030 BVI Class B Shares, (iii) 1,600,000 BVI Series A Founder Preferred Shares and (iv) 1,386,033 BVI Series B Founder Preferred Shares.

In the Domestication, each issued and outstanding share in DLGI BVI will automatically convert, on a one-to-one basis, into a corresponding share in DLGI Delaware, and each option, warrant or other right to acquire shares in DLGI BVI will become an option, warrant or other right to acquire corresponding shares in DLGI Delaware. See "The Domestication – Domestication Share Conversion". Accordingly, we expect beneficial ownership of the Company's voting securities immediately prior to the Domestication and immediately after the Domestication to be identical.

Table of Contents

Except as otherwise indicated in the footnotes to the table below, we believe that all persons named in the table below have sole voting and investment power with respect to all shares of voting securities indicated as beneficially owned by them.

SELLING STOCKHOLDERS

This prospectus covers the public resale of certain Class A Common Shares (the “Resale Shares”) to be issued in the Domestication in respect of Ordinary Shares owned by the selling stockholders named below. Such selling stockholders may, from time to time after the Domestication, offer and sell pursuant to this prospectus any or all of the Resale Shares owned by them.

The table below sets forth information regarding the selling stockholders and the Resale Shares as of July 24, 2020, after giving pro forma effect to the Domestication. Specifically, the table below sets forth:

- the name of each selling stockholder;
- the number of Class A Common Shares beneficially owned by each selling stockholder prior to the sale of the Resale Shares covered by this prospectus, after giving pro forma effect to the Domestication;
- the number of Resale Shares that may be offered by each selling stockholder pursuant to this prospectus;
- the number of Resale Shares beneficially owned by each selling stockholder following the sale of all Resale Shares covered by this prospectus; and
- the percentage of our issued and outstanding Class A Common Shares to be owned by each selling stockholder before and after the sale of the Resale Shares covered by this prospectus. Such percentage ownership is based on 58,425,000 Class A Common Shares issued and outstanding as of July 24, 2020, after giving pro forma effect to the Domestication.

The Resale Shares being registered by the selling stockholders represent the Class A Common Shares issued to the Centerbridge Entities pursuant to the Centerbridge Subscription Agreement on the Acquisition Closing Date, which are required to be registered for resale pursuant to the Centerbridge Subscription Agreement. We have also agreed to cause the registration statement of which this prospectus is a part to remain effective for the period set forth in the Centerbridge Subscription Agreement. For more information, see “Certain Relationships and Related Party Transactions – Centerbridge Agreements – Centerbridge Subscription Agreement – Registration Rights”.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC, which generally provide that a person has beneficial ownership of a security if such person possesses sole or shared voting or investment power over that security or has the right to acquire such power within 60 days. All information contained in the table below is based upon information provided to us by or on behalf of the selling stockholders. Except as otherwise indicated in the footnotes to the table below, we believe that the selling stockholders have sole voting and investment power with respect to all shares of voting securities indicated as beneficially owned by them.

Because the selling stockholders may sell some, all or none of their securities, we cannot provide an estimate as to the number of our securities that will be held by the selling stockholders upon termination of any offering or offerings covered by this prospectus. In addition, the selling stockholders may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time and from time to time, the securities they hold in transactions exempt from the registration requirements of the Securities Act after the date on which they provided the information set forth on the table below. For the purposes of the table below, however, we have assumed that the selling stockholders (i) will sell all of the Resale Shares owned beneficially by them, (ii) will not sell any other securities of ours that they currently own and (iii) will not acquire beneficial ownership of any additional securities of ours. We are not aware of any agreements, arrangements or understandings with respect to the sale of any of the Resale Shares or other securities of ours by any of the selling stockholders.

For more information regarding the selling stockholders' method of distributing the Resale Shares, see "Plan of Distribution".

Additional selling stockholders not named in this prospectus will not be able to use this prospectus for resales until they are named in the table above by prospectus supplement or post-effective amendment. Transferees, successors and donees of identified selling stockholders will not be able to use this prospectus for resales until they are named in the table above by prospectus supplement or post-effective amendment. If required, we will add transferees, successors and donees by prospectus supplement in instances where the transferee, successor or donee has acquired its Resale Shares from selling stockholders named in this prospectus after the effective date of this prospectus. We may also amend or supplement this prospectus from time to time in the future to make other updates or changes to the list of selling stockholders and the securities that may be resold by them.

Material Relationships with Selling Stockholders

None of the selling stockholders has had any position, office or other material relationship with us since our inception in 2017, except as described elsewhere in this prospectus, including under "Certain Relationships and Related Party Transactions – Centerbridge Agreements".

PLAN OF DISTRIBUTION

Resale of Class A Common Shares by Selling Stockholders

We are registering the resale of the Resale Shares by the selling stockholders named in this prospectus. Each selling stockholder (which term as used in this section includes, except as the context otherwise requires, donees, pledgees, transferees or other successors-in-interest selling Resale Shares or interests in Resale Shares received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other transfer) may, from time to time, sell, transfer or otherwise dispose of any or all of its Resale Shares on any stock exchange, market or trading facility on which the Resale Shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

A selling stockholder may use any one or more of the following methods when disposing of Resale Shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the Resale Shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- underwriting transactions;
- “at the market” offerings, as defined in Rule 415 under the Securities Act, at negotiated prices, at prices prevailing at the time of sale or at prices related to such prevailing market prices, including sales made directly on a national securities exchange or sales made through a market maker other than on an exchange or other similar offerings through sales agents;
- through trading plans entered into by the Company or a selling stockholder pursuant to Rule 10b5-1 under the Exchange Act, that are in place at the time of an offering pursuant to this prospectus and any applicable prospectus supplement hereto that provide for periodic sales of their securities on the basis of parameters described in such trading plans;
- short sales effected after the effective date of the registration statement of which this prospectus is a part;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- through broker-dealers who may agree with the selling stockholders to sell a specified number of such Resale Shares at a stipulated price per share;
- a combination of any of the foregoing; and
- any other method permitted under applicable law.

Beginning 90 days after the effectiveness of the registration statement of which this prospectus is a part, the selling stockholders also may resell all or a portion of their Resale Shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided that they meet the criteria and conform to the requirements of that rule.

The selling stockholders may, from time to time, pledge or grant a security interest in some or all of the Resale Shares owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell Resale Shares, from time to time, under this prospectus, or under a

post-effective amendment to this prospectus amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer the Resale Shares in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of their Resale Shares or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of such Resale Shares in the course of hedging the positions they assume. The selling stockholders may also sell Resale Shares short and deliver these securities to close out their short positions, or loan or pledge the Resale Shares to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of the Resale Shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The aggregate proceeds to the selling stockholders from the sale of the Resale Shares offered by them will be the purchase price of such Resale Shares less discounts or commissions, if any. Each of the selling stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of Resale Shares to be made directly or through agents. We will not receive any of the proceeds from the sale by the selling stockholders of the Resale Shares. See “Use of Proceeds”.

The selling stockholders and any underwriters, broker-dealers or agents that participate in the sale of the Resale Shares therein may be “underwriters” within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the Resale Shares may be underwriting discounts and commissions under the Securities Act. Selling stockholders who are “underwriters” within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the Resale Shares to be sold, the names of the selling stockholders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the Resale Shares may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the Resale Shares may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling stockholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of Resale Shares in the market and to the activities of the selling stockholders and their affiliates. In addition, to the extent applicable, we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the Resale Shares against certain liabilities, including liabilities arising under the Securities Act.

We have also agreed to indemnify the selling stockholders and their respective officers, directors, employees, advisors and agents (subject to certain limited exceptions) against liabilities, including liabilities arising under the Securities Act and state securities laws, relating to the registration of the Resale Shares offered by this prospectus.

DESCRIPTION OF CAPITAL STOCK

The following description of the capital stock of DLGI Delaware reflects our capital stock as it will exist from and after the Effective Time, as governed by the certificate of incorporation (the “Charter”) and bylaws (the “Bylaws”) of DLGI Delaware, each to be effective upon the Domestication, and Delaware law. Because this description is only a summary, it does not contain all the information that may be important to you. We urge you to read in their entirety the forms of the Charter and Bylaws (which are attached as exhibits to the registration statement of which this prospectus is a part) and the other documents referenced herein that are included as exhibits to the registration statement of which this prospectus is a part, as well as the applicable provisions of Delaware law. For a description of the material differences between the rights that shareholders of DLGI BVI currently have under the BVI Articles and British Virgin Islands law, and the rights that stockholders of DLGI Delaware will have under the Charter, Bylaws and Delaware law after we become a Delaware corporation in the Domestication, see “Comparison of Stockholder Rights”.

General

Effective upon the Domestication, our authorized capital stock will consist of:

- 1,590,000,000 shares of Class A common stock, par value \$0.0001 per share (the “Class A Common Shares”);

- 202,986,033 shares of preferred stock, par value \$0.0001 per share (“Preferred Shares”), of which (i) 1,600,000 will be designated “Series A Founder Preferred Stock” (the “Series A Founder Preferred Shares”) and (ii) 1,386,033 will be designated “Series B Founder Preferred Stock” (the “Series B Founder Preferred Shares” and, together with the Series A Founder Preferred Shares, the “Founder Preferred Shares”).

As of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding:

- 11,414,030 Class B Common Shares, held by 27 holders of record;
- 1,600,000 Series A Founder Preferred Shares, held by one holder of record, the Series A Founder Preferred Holder;
- 1,386,033 Series B Founder Preferred Shares, held by three holders of record;
- 50,250,000 Warrants to acquire 16,675,000 Class A Common Shares (subject to adjustment as described under “– Warrants” below), held by 38 Warrantholders (as defined under “– Warrants” below);

In addition, as of July 24, 2020, after giving pro forma effect to the Domestication, there were issued and outstanding 5,389,030 Class B Common Units in APW OpCo (as defined in the APW OpCo LLC Agreement and hereafter, the “Class B Common Units”). Such Class B Common Units are held solely by members of APW OpCo other than the Company (the “Continuing OpCo Members”) that are the former partners of Associated Partners that were members of APW OpCo immediately prior to the Acquisition Closing Date and that elected, pursuant to the APW Merger Agreement, to receive Class B Common Units, Rollover Profits Units (as defined in the APW OpCo LLC Agreement) and Class B common shares, no par value, of DLGI BVI (“BVI Class B Shares”) (rather than cash) in the APW Acquisition. The Class B Common Units are held in tandem with BVI

Class B Shares and, following the Domestication, will be held in tandem with the Class B Common Shares. The Class B Common Units are redeemable at the option of the holder or exchangeable, at any time following 180 days after the Acquisition Closing Date (i.e., August 8, 2020), for cash or Class A Common Shares, at the option of the Company. If in the future any other Units in APW OpCo qualify as “Equitized Units” under the APW OpCo LLC Agreement, the APW OpCo LLC Agreement will similarly provide for the redemption or exchange of such Units for cash or Class A Common Shares, at the option of the Company. For more information, see “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement”.

The Board will be authorized to issue additional shares of authorized capital stock of DLGI Delaware without stockholder approval (except as may be required by the listing standards of Nasdaq).

Class A Common Shares

As of July 24, 2020, DLGI BVI had outstanding 58,425,000 ordinary shares, no par value (“Ordinary Shares”), comprised of (i) 48,425,000 Ordinary Shares issued in connection with the 2017 Placing and (ii) 10,000,000 Ordinary Shares issued to the Centerbridge Entities pursuant to the Centerbridge Subscription Agreement. In the Domestication, each outstanding Ordinary Share will be converted, by operation of law, on a one-to-basis into a Class A Common Share.

Voting Rights

The holders of the Class A Common Shares and the holders of the Class B Common Shares will vote together as a single class on all matters to be voted on by our stockholders, except as otherwise provided in the Charter and subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares. Delaware law could require either holders of our Class A Common Shares and Class B Common Shares to vote separately as a single class in the following circumstances:

- if we were to seek to amend the Charter to increase the authorized number of shares of a class of stock, or to increase or decrease the par value of a class of our capital stock, then that class would be required to vote separately to approve the proposed amendment; and
- if we were to seek to amend the Charter in a manner that alters or changes the powers, preferences, or special rights of a class of our capital stock in a manner that affected its holders adversely, then that class would be required to vote separately to approve the proposed amendment.

Each holder of record of Class A Common Shares will be entitled to cast one vote for each Class A Common Share standing in such holder’s name on the stock transfer records of the Company. The holders of the Class A Common Shares will not have cumulative voting rights.

Dividend Rights

Holders of Class A Common Shares will be entitled to ratably receive dividends and other distributions in cash, stock or property of the Company when, as and if declared thereon by the Board from time to time out of assets or funds of the Company legally available therefor, subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares.

Notwithstanding the foregoing, without the prior vote of the holders of a majority of the Class A Common Shares then outstanding and the holders of a majority of the Class B Common Shares then outstanding, each voting separately as a single class, no dividend will be declared or paid or set apart for payment on the Class A Common Shares in (i) Class A Common Shares or rights, options or warrants to purchase Class A Common Shares unless there will also be or have been declared and set apart for payment on the Class B Common Shares, a dividend of an equal number of Class B Common Shares or rights, options or warrants to purchase Class B Common Shares or (ii) Class B Common Shares or rights, options or warrants to purchase Class B Common

Shares unless there will also be or have been declared and set apart for payment on the Class B Common Shares, a dividend of an equal number of Class B Common Shares or rights options or warrants to purchase Class B Common Shares. The Charter and Bylaws, as initially in effect, will provide that the holders of Class B Common Shares will not be entitled to receive any dividends in respect of their Class B Common Shares. See “– Class B Common Shares – No Dividend Rights”.

No Preemptive Rights

Holders of the Class A Common Shares will not be entitled to preemptive rights.

Liquidation Rights

In the event of any liquidation, dissolution or winding up (either voluntary or involuntary) of the Company, the holders of Class A Common Shares will be entitled to receive the assets and funds of the Company available for distribution to stockholders of the Company, subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares.

Conversion

Class A Common Shares will not be convertible into or exchangeable for any other class or series of capital stock of the Company.

Stock Splits

Without the prior vote of the holders of a majority of the Class A Common Shares then outstanding and the holders of a majority of the Class B Common Shares then outstanding, each voting separately as a single class, no reclassification, subdivision or combination will be effected on the Class A Common Shares unless the same reclassification, subdivision or combination, in the same proportion and manner, is made on the Class B Common Shares.

Merger or Consolidation

In the event of a merger or consolidation of the Company with or into another entity (whether or not the Company is the surviving entity), the holders of each Class A Common Share will be entitled to receive the same per share consideration on a per share basis.

Class B Common Shares

As of July 24, 2020, DLGI BVI had outstanding 11,414,030 BVI Class B Shares, all of which were issued to (i) the Continuing OpCo Members on the Acquisition Closing Date pursuant to the APW Merger Agreement and (ii) certain officers of the Company pursuant to the Long-Term Incentive Plan (as defined and described under “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement”). In the Domestication, each outstanding BVI Class B Share will be converted, by operation of law, on a one-to-one basis into a Class B Common Share.

Equal Status

Except as otherwise expressly provided in the Charter, the powers (including voting powers), if any, preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations and restrictions, if any, of the holders of Class A Common Shares and holders of Class B Common Shares, which are summarized herein, will be in all respects identical.

Voting Rights

The holders of the Class B Common Shares and the holders of the Class A Common Shares will vote together as a single class on all matters to be voted on by our stockholders, except as otherwise provided in the Charter and subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares. See “– Class A Common Shares – Voting Rights”.

Each holder of record of Class B Common Shares will be entitled to cast one vote for each Class B Common Share standing in such holder’s name on the stock transfer records of the Company. The holders of Class B Common Shares will not have cumulative voting rights.

No Dividend Rights

Class B Common Shares will be deemed to be non-economic interests. The holders of Class B Common Shares will not be entitled to receive any dividends (including cash, stock or property) in respect of their Class B Common Shares.

No Preemptive Rights

Holders of the Class B Common Shares will not be entitled to preemptive rights.

No Liquidation Rights

In the event of any liquidation, dissolution or winding up (either voluntary or involuntary) of the Company, the holders of Class B Common Shares will not be entitled to receive any assets or funds of the Company available for distribution to stockholders of the Company, subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares.

Stock Splits

Without the prior vote of the holders of a majority of the Class B Common Shares then outstanding and the holders of a majority of the Class A Common Shares then outstanding, each voting separately as a single class, no reclassification, subdivision or combination will be effected on the Class B Common Shares unless the same reclassification, subdivision or combination, in the same proportion and manner, is made on the Class A Common Shares.

Merger or Consolidation

In the event of a merger or consolidation of the Company with or into another entity (whether or not the Company is the surviving entity), the holders of Class B Common Shares will not be entitled to receive any consideration in respect of their Class B Common Shares.

Exchange and Cancellation of Class B Common Shares

To the extent that either (i) any holder of Class B Common Shares exercises its right pursuant to the APW OpCo LLC Agreement to have its Class B Common Units redeemed by APW OpCo in accordance with the APW OpCo LLC Agreement or (ii) the Company exercises its option pursuant to the APW OpCo LLC Agreement to effect a direct exchange with such holder in lieu of the redemption described in clause (i), then upon the surrender of the Class B Common Shares to be redeemed or exchanged and simultaneous with the payment of, at the Company’s option, cash or Class A Common Shares to the holder of such Class B Common Shares by APW OpCo (in the case of a redemption) or the Company (in the case of an exchange), the Class B Common Shares so redeemed or exchanged will be automatically cancelled for no consideration. For more information about the APW OpCo LLC Agreement, see “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement”.

If any Class B Common Share is converted, redeemed, repurchased or otherwise acquired by the Company, in any manner whatsoever, or is cancelled pursuant to the Charter, such Class B Common Share will, to the fullest extent permitted by applicable law, be retired and cancelled upon such acquisition, and will become an authorized but unissued Class B Common Share.

Transfer of Class B Common Shares

Upon a transfer of a Class B Common Unit or other applicable Units in accordance with the APW OpCo LLC Agreement, an equal number of Class B Common Shares will automatically be transferred from the holder to the same transferee. No holder of Class B Common Shares will be permitted to transfer such share other than with an equal number of Class B Common Units (as such number may be adjusted to reflect equitably any stock split, subdivision, combination or similar change with respect to the Class B Common Shares or Class B Common Units) in accordance with the APW OpCo LLC Agreement.

Any purported transfer of Class B Common Shares in violation of the transfer restrictions in respect of the Class B Common Shares described in the Charter or the APW OpCo LLC will, to the fullest extent permitted by applicable law, be null and void and not be recognized by the Company or its transfer agent.

If the Board determines that a person has attempted or is attempting to transfer or to acquire any Class B Common Shares, or has purportedly transferred or acquired Class B Common Shares, in violation of such transfer restrictions, the Board may take such lawful action as it deems advisable to refuse to give effect to such attempted or purported transfer or acquisition on the books and records of the Company.

The Board may, to the fullest extent permitted by applicable law, from time to time establish, modify, amend or rescind, by bylaw or otherwise, regulations and procedures that are consistent with the provisions of the Charter and the APW OpCo LLC Agreement for determining whether any transfer or acquisition of Class B Common Shares would violate such transfer restrictions and for the orderly application, administration and implementation of the provisions of the Charter relating thereto.

The Board will, to the fullest extent permitted by applicable law, have all powers necessary to implement the transfer restrictions relating to the Class B Common Shares described in the Charter, including without limitation the power to prohibit the transfer of any Class B Common Shares in violation thereof.

For more information regarding the APW LLC OpCo Agreement, see “Certain Relationships and Related Party Transactions – APW OpCo LLC Agreement”.

Founder Preferred Shares

The Founder Preferred Shares consist of the Series A Founder Preferred Shares and the Series B Founder Preferred Shares. As of July 24, 2020, after giving pro forma effect to the Domestication, we had outstanding 1,600,000 Series A Founder Preferred Shares, and 1,386,033 Series B Founder Preferred Shares.

Background

In connection with the 2017 Placing, the Company issued a total of 1,600,000 series A founder preferred shares, no par value, of DLGI BVI (the “BVI Series A Founder Preferred Shares”) at \$10 per share to TOMS Acquisition II LLC and Imperial Landscape Sponsor LLC (the “Series A Founder Entities”), entities controlled by Noam Gottesman and Michael Fascitelli (the “Series A Founders”), respectively. The BVI Series A Founder Preferred Shares were transferred to Digital Landscape Partners Holding LLC (the “Series A Founder Preferred Holder”), an entity controlled by the Series A Founder Entities, in connection with the closing of the APW Acquisition. In the Domestication, each issued and outstanding BVI Series A Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series A Founder Preferred Share.

In connection with the APW Acquisition, the Company issued a total of 1,386,033 series B founder preferred shares, no par value, of DLGI BVI (the “BVI Series B Founder Preferred Shares”) to William Berkman, Scott Bruce and Richard Goldstein (together with the Series A Founder Entities, the Series A Founder Preferred Holder and Berkman Family Investments, LLC, the “Investors”), each of whom is an executive officer of the Company. In the Domestication, each issued and outstanding BVI Series B Founder Preferred Share will automatically convert, by operation of law, on a one-to-one basis into a Series B Founder Preferred Share. As described below, and in contrast to the Series A Founder Preferred Shares, the Series B Founder Preferred Shares will not entitle their holders to receive dividends or distributions.

Also in connection with the APW Acquisition, the Investors entered into the Shareholders Agreement, pursuant to which they agreed, among other things, not to make or solicit any transfer of their Founder Preferred Shares prior to December 31, 2027, subject to certain exceptions. See “Certain Relationships and Related Party Transactions – Shareholders Agreement”.

For more information regarding the ownership interests of our Directors, executive officers and principal stockholders, see “Security Ownership of Certain Beneficial Owners and Management”.

Rights Relating to Board and Committee Composition

For so long as the Series A Founder Entities and William Berkman (collectively, the “Founder Entities”), their affiliates and their permitted transferees under the Shareholders Agreement in aggregate hold 20% or more of the issued and outstanding Founder Preferred Shares, the holders of a majority in voting power of the outstanding Founder Preferred Shares, voting or consenting together as a single class, will be entitled, at any meeting of the holders of the outstanding Founder Preferred Shares held for the election of directors or by consent in lieu of a meeting of the holders of the outstanding Founder Preferred Shares, to:

- elect four members of the Board (the “Founder Directors”);
- remove from office, with or without cause, any Founder Director; and
- fill any vacancy caused by the death, resignation, disqualification, removal or other cause of any Founder Director.

As of the date of this prospectus, after giving pro forma effect to the Domestication, the Founder Entities hold approximately 94.98% of the outstanding Founder Preferred Shares.

Pursuant to the Shareholders Agreement, two of the Founder Directors will be appointed by the AG Investor and two by the Series A Founder Preferred Holder. The Charter will provide that a majority of the Founder Directors must be “independent” under the rules of the primary stock exchange or quotation system on which the Class A Common Shares are then listed or quoted. In addition, so long as any Founder Director is serving on the Board, at least four-ninths of each committee of the Board shall be comprised of Founder Directors or other Directors selected by the Founder Directors. In addition, pursuant to the Shareholders Agreement, the AG Investors’ Representative has the ability to select a majority of the members of the Nominating and Corporate Governance Committee.

Rights Related to Amendments

For so long as the Founder Entities, their affiliates and their permitted transferees under the Shareholders Agreement in aggregate hold 20% or more of the issued and outstanding Founder Preferred Shares, the Company will not, without the prior vote or consent of the holders of at least a majority in voting power of the Founder Preferred Shares then outstanding, voting or consenting together as a single class, amend, alter or repeal any provision of the Charter, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers (including voting powers), if any, or the preferences or relative, participating,

optional, special rights or other rights, if any, or the qualifications, limitations or restrictions, if any, of the Founder Preferred Shares. As of the date of this prospectus, after giving pro forma effect to the Domestication, the Founder Entities hold approximately 94.98% of the outstanding Founder Preferred Shares.

Notwithstanding the foregoing, for so long as the Founder Preferred Shares remain outstanding, the Company will not, without the prior vote or consent of the holders of at least 80% in voting power of the Founder Preferred Shares then outstanding, voting or consenting together as a single class:

- amend, alter, repeal or adopt any provision that would be inconsistent with certain voting or conversion rights of the Founder Preferred Shares set forth in the Charter (including those described in this subsection and under “– Rights Related to Board and Committee Composition” above);
- fix the number of directors constituting the Board (including the Founder Directors) at greater than nine; or
- issue any additional Founder Preferred Shares other than any additional Founder Preferred Shares issued or issuable in connection with the transactions contemplated by the APW Merger Agreement.

Voting Rights

Except as may otherwise be provided in the Charter or by applicable law, each holder of Founder Preferred Shares, as such, will be entitled to a number of votes equal to the number of Class A Common Shares or Class B Common Shares, as applicable, into which each Founder Preferred Share held of record by such holder could then be converted, as described below under “Series A Founder Preferred Shares – Conversion into Class A Common Shares” and “Series B Founder Preferred Shares – Conversion into Class B Common Shares”, on all matters on which stockholders are generally entitled to vote.

No Restriction on Repurchase or Redemption.

There is no restriction on the repurchase or redemption by the Company of the Founder Preferred Shares while there is any arrearage in the payment of dividends or sinking fund installments in respect of the Founder Preferred Shares, except in circumstances when the repurchase or redemption of the Founder Preferred Shares is otherwise prohibited or restricted by statute or common law.

Series A Founder Preferred Shares

Dividend Rights

In addition to providing long-term capital, the Series A Founder Preferred Shares were issued to have the effect of incentivizing the Series A Founders to achieve the Company’s objectives. As described below, they are structured to provide a return based on the future appreciation of the market value of the Class A Common Shares, in order to align the interests of the Series A Founders with those of the Company’s stockholders on a long-term basis.

Annual Dividend Amount. Once the Average Price per Class A Common Share (subject to adjustment in accordance with the Charter) for any ten consecutive Trading Days is at least \$11.50, a holder of Series A Founder Preferred Shares will be entitled to receive, when, as and if declared by the Board, and payable in preference and priority to the declaration or payment of any dividends on the Class A Common Shares or any other junior stock, a cumulative annual dividend of the Annual Dividend Amount for each relevant Dividend Year. Such dividend will be payable in Class A Common Shares or cash, in the sole discretion of the Board.

In the first Dividend Year in which such dividend becomes payable, such dividend will be equal in value to (i) 20% of the increase in the market value of one Class A Common Share, being the difference between \$10.00 and the Dividend Price, multiplied by (ii) such number of Class A Common Shares equal to the Preferred Share Dividend Equivalent.

Thereafter, the Annual Dividend Amount will only become payable if the Dividend Price during any subsequent Dividend Year is greater than the highest Dividend Price in any preceding Dividend Year in which a dividend was paid in respect of the Series A Founder Preferred Shares. Such Annual Dividend Amount will be equal in value to 20% of the increase in the Dividend Price over the highest Dividend Price in any preceding Dividend Year multiplied by the Preferred Share Dividend Equivalent.

For the purposes of determining the Annual Dividend Amount, the Dividend Price is the Average Price per Class A Common Share for the Dividend Determination Period.

The amounts used for the purposes of calculating an Annual Dividend Amount and the relevant numbers of Class A Common Shares are subject to adjustment to account for any subdivision (by stock split, subdivision, exchange, stock dividend, reclassification, recapitalization or otherwise) or combination (by reverse stock split, exchange, reclassification, recapitalization or otherwise) or similar reclassification or recapitalization of the outstanding Class A Common Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding Series A Founder Preferred Shares.

Participation in Dividends. The Series A Founder Preferred Shares will also participate in any dividends on the Class A Common Shares on an as-converted to Class A Common Shares basis. In addition, where the Company pays a dividend on the Class A Common Shares, the Series A Founder Preferred Shares will also receive an amount equal to 20% of the dividend that would be distributable on such number of Class A Common Shares equal to the Preferred Share Dividend Equivalent. All such dividends on the Series A Founder Preferred Shares will be paid contemporaneously with the dividends on the Class A Common Shares.

Conversion into Class A Common Shares

Automatic Conversion. On the last day of the seventh full financial year of the Company after the Acquisition Closing Date, i.e. December 31, 2027 (or if any such date is not a Trading Day, the first Trading Day immediately following such date), the Series A Founder Preferred Shares will automatically convert into Class A Common Shares on a one-for-one basis, as adjusted to account for any subdivision (by stock split, subdivision, exchange, stock dividend, reclassification, recapitalization or otherwise) or combination (by reverse stock split, exchange, reclassification or otherwise) or similar reclassification or recapitalization of the outstanding Class A Common Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding Series A Founder Preferred Shares. In the event of an automatic conversion of Series A Founder Preferred Shares, the Dividend Date for the relevant Dividend Year will be the Trading Day immediately prior to the automatic conversion date and accordingly an Annual Dividend Amount will be calculated as of such Dividend Date.

Optional Conversion. A holder of Series A Founder Preferred Shares may require some or all of such holder's Series A Founder Preferred Shares to be converted into an equal number of Class A Common Shares, as adjusted to account for any subdivision (by stock split, subdivision, exchange, stock dividend, reclassification, recapitalization or otherwise) or combination (by reverse stock split, exchange, reclassification or otherwise) or similar reclassification or recapitalization of the outstanding Class A Common Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding Series A Founder Preferred Shares, by notice in writing to the Company. In such circumstances, those Series A Founder Preferred Shares that are the subject of such conversion request will be converted into Class A Common Shares five Trading Days after receipt by the Company of the written notice. In the event of a conversion at the request of the holder, no Annual Dividend Amount will be payable in respect of those Series A Founder Preferred Shares for the Dividend Year in which the date of conversion occurs.

Liquidation

In the event that the Company enters liquidation, the Dividend Date for the relevant Dividend Year will be the Trading Day immediately prior to the date of commencement of liquidation and, accordingly, an Annual Dividend Amount will be calculated as of such Dividend Date.

Adjustments

In circumstances where the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, determine that an adjustment should be made to (i) any factor relevant for the calculation of the Annual Dividend Amount (including the amount which the Average Price per Class A Common Share must meet or exceed for any ten consecutive Trading Days in order for the right to an Annual Dividend Amount to commence (initially set at \$11.50)), or (ii) the Preferred Share Dividend Equivalent, whether following a consolidation or sub-division of the issued and outstanding Class A Common Shares, the Company will either (x) make such adjustment as is mutually determined by the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares (acting reasonably), voting separately as a single class, or (y) failing agreement within a reasonable time, at the Company's expense appoint auditors, or such other person as the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, will, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) will be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration will not apply, the determination of the auditors (or such other expert as may be appointed) will be final and binding on all concerned and the auditors (or such other expert as may be appointed) will be given by the Company all such information and other assistance as they may reasonably require.

In any circumstances where the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, determine that an adjustment should be made to the number of Class A Common Shares into which the outstanding Series A Founder Preferred Shares will convert, whether following a consolidation or a sub-division of the issued and outstanding Class A Common Shares, the Company will either (i) make such adjustment as is mutually determined by the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, acting reasonably, or (ii) failing agreement within a reasonable time, at the Company's expense, appoint auditors or such other person as the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, will, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) will be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration will not apply, the determination of the auditors (or such other expert as may be appointed) will be final and binding on all concerned and the auditors (or such other expert as may be appointed) will be given by the Company all such information and other assistance as they may reasonably require.

The Series B Founder Preferred Shares will not confer upon the holder thereof any right to dividends or distributions at any time, including upon the Company’s liquidation.

Conversion into Class B Common Shares

Automatic Conversion. On the last day of the seventh full financial year of the Company after the Acquisition Closing Date, i.e. December 31, 2027 (or if any such date is not a Trading Day, the first Trading Day immediately following such date), the Series B Founder Preferred Shares will automatically convert into Class B Common Shares on a one-for-one basis, as adjusted to account for any subdivision (by stock split, subdivision, exchange, stock dividend, reclassification, recapitalization or otherwise) or combination (by reverse stock split, exchange, reclassification or otherwise) or similar reclassification or recapitalization of the outstanding Class B Common Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series B Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding Series B Founder Preferred Shares.

Additional Preferred Shares

The Board will be authorized, by resolution and without further action by our stockholders, to provide from time to time out of the unissued Preferred Shares, one or more series of Preferred Shares, and, with respect to each such series, to fix the number of shares constituting such series and the designation of such series, the powers (including voting powers), if any, of the shares of such series and the preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations or restrictions, if any, of the shares of such series. The designations, powers (including voting powers), preferences and relative, participating, optional, special and other rights of each series of Preferred Shares, if any, and the qualifications, limitations or restrictions thereof, if any, may differ from those of any and all other series of Preferred Shares at any time outstanding. The issuance of Preferred Stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of our Company and might adversely affect the market price of our securities.

Sinking Funds

There are no sinking funds provisions applicable to the Common Shares or the Founder Preferred Shares.

Warrants

In connection with the 2017 Placing, we issued warrants to purchase Ordinary Shares at an initial exercise price of \$11.50 pursuant to the Warrant Instrument, dated November 15, 2017 (as amended from time to time, the “Warrant Instrument”). Effective upon the Domestication, such warrants will automatically become, pursuant to the terms of the Warrant Instrument, warrants to purchase Class A Common Shares at an exercise price of \$11.50 (as it may be adjusted in accordance with the Warrant Instrument, the “Exercise Price”). In connection with the Domestication, we intend to adopt certain limited amendments to the Warrant Instrument to reflect the change in jurisdiction of incorporation of DLGI Delaware from the British Virgin Islands to Delaware. A form of the amended and restated Warrant Instrument is attached as an exhibit to the registration statement of which this prospectus is a part. For purposes of the following discussion, we refer to the warrants as in effect following the Domestication as the “Warrants”, and the holders thereof as “Warrantholders”.

Each Warrant will entitle a Warrantholder to subscribe, during the Subscription Period (as defined below), for one-third of a Class A Common Share upon exercise (subject to any prior adjustment in accordance with the terms and conditions set out in the Warrant Instrument and described below). Based on the number of Warrants outstanding as of July 24, 2020, after giving pro forma effect to the Domestication, the maximum number of Class A Common Shares that we may be required to issue pursuant to the terms of the Warrants, subject to adjustment in accordance with the terms and conditions of the Warrant Instrument, is 16,675,000.

Subscription Rights

During the Subscription Period, a Warrantholder will have the right to subscribe in cash for a whole number of Class A Common Shares at the Exercise Price and subject to the other restrictions and conditions described

below and in the Warrant Instrument. The “Subscription Period” means the period commencing on November 20, 2017 and ending on the earlier to occur of (i) 5:00 p.m. on the third anniversary of the completion of the APW Acquisition (i.e., February 10, 2023), and (ii) in the event that, prior to such anniversary, an acquisition offer satisfying certain criteria is made to all holders of Class A Common Shares, such earlier date as determined pursuant to the Warrant Instrument (or, in each case, if such day is not a trading day, the trading day immediately following such day). If the Warrants are not exercised during this period, they will lapse worthless.

Each Warrant will entitle a Warrantholder to subscribe, upon valid exercise during the Subscription Period, for one-third of a Class A Common Share, subject to any prior adjustment in accordance with the terms and conditions set out in the Warrant Instrument and described below. Subject to any such prior adjustment, Warrantholders will be required to hold and validly exercise three Warrants in order to receive one Class A Common Share. No fractions of a Class A Common Share will be issued to a Warrantholder upon exercise of any Warrants. Where a Warrantholder purports to exercise Warrants that would otherwise result in a fractional entitlement to a Class A Common Share, such fractional entitlement will be rounded down to the nearest whole number of Class A Common Shares and the Warrants giving rise to such fractional entitlement will lapse and be cancelled.

The Warrants registered in a Warrantholder’s name will be evidenced by a warrant certificate issued by or on behalf of the Company. Subject to compliance with all applicable laws and regulations, the Company may make arrangements to enable the Warrants to be held in uncertificated form (whether in the form of depositary interests or otherwise) in such manner as the Board may determine from time to time. The Company expects to make arrangements to enable Warrantholders who wish to hold Warrants through the Depositary Trust Company (“DTC”) system to hold depositary interests representing the underlying Warrant and to exercise their subscription rights through the DTC system.

In order to exercise its subscription rights, a Warrantholder must deliver the relevant warrant certificate(s) having completed and signed the notice of exercise of subscription rights thereon (or any other document(s) as the Company may, in its absolute discretion, accept) to the Registrar’s (as defined below) receiving agent (or to any other person or address which may from time to time be notified to Warrantholders) during the Subscription Period, accompanied by a remittance in cleared funds for the aggregate Exercise Price for the Class A Common Shares in respect of which such subscription rights are being exercised. Warrants will be deemed to be exercised on the business day upon which the receiving agent (or such other person which from time to time may be designated by the Registrar) will have received the relevant documentation and remittance in cleared funds of the Exercise Price. For these purposes, “business day” means any day (excluding a Saturday or a Sunday) on which banks in the United States or, if the Registrar’s receiving agent is not located in the United States, the country of location of the receiving agent (or such other person which may from time to time be notified to Warrantholders), are open for business.

The exercise of a Warrantholder’s subscription rights must be made subject to, and in compliance with, any laws and regulations for the time being in force and upon payment of any taxes, duties and other governmental charges payable by reason of the exercise (other than taxes and duties imposed on the Company). The Registrar, its receiving agent and the Company reserve the right to delay taking any action on any particular instructions from a Warrantholder if any of them considers that it needs to do so to obtain further information from the Warrantholder or to comply with any legal or regulatory requirement binding on it (including the obtaining of evidence of identity to comply with money laundering regulations), or to investigate any concerns they may have about the validity of or any other matter relating to the Warrantholder’s instruction. Warrants may not be exercised by, or Class A Common Shares issued or delivered to, any Warrantholder in any state or other jurisdiction in which such exercise or issue and delivery of Class A Common Shares would be unlawful.

Adjustments

If the Company (i) issues any Class A Common Shares by way of dividend or distribution to holders of Class A Common Shares, (ii) subdivides (by any share split, recapitalization or otherwise) the number of Class A

Common Shares outstanding into a larger number of Class A Common Shares or (iii) consolidates (by consolidation, combination, reverse share split or otherwise) the number of outstanding Class A Common Shares into a smaller number of Class A Common Shares, then in each such case the Exercise Price will be divided by the quotient of (x) the number of Class A Common Shares outstanding immediately after such event divided by (y) the number of Class A Common Shares outstanding immediately before such event (the result of such quotient is referred to herein as the “Adjustment Percentage”). Any adjustment made pursuant to clause (i) of this paragraph will become effective immediately after the record date for the determination of stockholders entitled to receive such dividend or distribution, and any adjustment pursuant to clause (ii) or (iii) of this paragraph will become effective immediately after the effective date of such subdivision or consolidation. Following each adjustment to the Exercise Price pursuant to the immediately preceding clauses (i), (ii) or (iii), the number of Class A Common Shares to which each Warrant relates will also be adjusted by multiplying the applicable portion of a Class A Common Share to which each Warrant relates by the Adjustment Percentage so that after such adjustment the aggregate Exercise Price payable following adjustment will be the same as the aggregate Exercise Price in effect immediately prior to such adjustment.

If (i) the Board determines that an adjustment should be made to the Exercise Price and/or the number of Class A Common Shares to which each Warrant relates as a result of one or more events or circumstances not referred to above or (ii) an event which gives or may give rise to an adjustment as described above occurs in circumstances such that the Board, in its absolute discretion, determines that the adjustment-relevant provisions need to be modified in order to give a result which is fair and reasonable in all such circumstances, then the Board may make any adjustment to the Exercise Price and/or the number of Class A Common Shares to which each Warrant relates as it determines in good faith to be fair and reasonable to take account of the relevant event or circumstance and upon determination the adjustment (if any) will be made and will take effect in accordance with the determination.

Mandatory Redemption

If the Average Price of a Class A Common Share for any ten consecutive Trading Days is equal to or greater than \$18.00 (the “Redemption Event”), each Warrant, unless previously exercised or cancelled before the date set for redemption by the “Redemption Notice” (i.e., the notice provided to Warrantholders by the Company of the Redemption Event having occurred within 20 days of its occurrence in accordance with the terms of the Warrant Instrument), will be mandatorily redeemed by the Company for \$0.01 per Warrant.

If the Board determines that an adjustment should be made to the \$18.00 redemption trigger price as a result of matters such as any consolidation or subdivision of the Class A Common Shares or issue Class A Common Shares to stockholders by way of dividend or distribution, the Board will determine in good faith as soon as practicable what adjustment (if any) to such redemption trigger price is fair and reasonable and the date on which the adjustment should take effect and upon determination the adjustment (if any) will be made and will take effect in accordance with the determination.

Purchase by the Company

We have the right to purchase Warrants in the market, by tender or by private treaty or otherwise, on such terms as the Board determines in its absolute discretion (acting in good faith), provided that such purchases are made in accordance with applicable laws and regulations and the rules of any stock exchange or trading platform on which the Warrants are listed or traded and we may accept the surrender (for no consideration) of Warrants at any time. All Warrants so purchased or surrendered will be cancelled and will not be available for reissue or resale.

Transfer

Each Warrant will be in registered form and will be transferable individually and in integral multiples by way of novation by an instrument of transfer in any usual or common form, or in any other form which may be

approved by the Board. Notwithstanding the foregoing, no transfer of any Warrant to any person will be registered without our consent if, in the reasonable determination of the Board, the transferee is or may be a Prohibited Person (as defined in the Warrant Instrument) or is or may be holding such Warrants on behalf of a beneficial owner who is or may be a Prohibited Person. The Company may decline to recognize any instrument of transfer unless such instrument is deposited at the office of the Registrar's agent (or such other place as the Registrar may appoint).

Anti-Takeover Provisions

The provisions of Delaware law, the Charter and the Bylaws will contain provisions that may delay, discourage or prevent another party from acquiring control of us, even if the acquisition could be beneficial to stockholders. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the Board, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give the Board the power to discourage acquisitions that some stockholders may favor.

Board and Committee Composition

As described above under “– Founder Preferred Shares – Rights Related to Board and Committee Composition”, so long as the Founder Entities, their affiliates and their permitted transferees under the Shareholders Agreement in aggregate hold 20% or more of the issued and outstanding Founder Preferred Shares, four of our eight Directors will be Founder Directors, appointed by the holders of the Founder Preferred Shares without any vote of the holders of our Common Shares. In addition, the AG Group will have the right to designate a majority of the Nominating and Governance Committee of the Board, and at least four-ninths of each committee of the Board will be comprised of Founder Directors or other Directors selected by them. As a result, holders of our Common Shares will have the right to elect only four out of our eight initial Directors, which will limit a potential acquirors' ability to influence the composition of the Board and, in turn, potentially influence and impact actions taken by the Board.

Further, so long as Founder Preferred Shares remain outstanding, the Company will not be permitted to increase the size of the Board to more than nine Directors without the prior vote or consent of the holders of at least 80% in voting power of the outstanding Founder Preferred Shares. See “– Founder Preferred Shares – Rights Related to Amendments”.

Cumulative Voting

The DGCL provides that stockholders are not entitled to cumulative votes in the election of directors unless a corporation's certificate of incorporation provides otherwise. The Charter will not provide for cumulative voting in the election of directors.

Director Vacancies

The Charter and Bylaws will authorize only our Board to elect a director to fill vacancies on the Board resulting from an increase in the authorized number of directors, or from death, resignation, disqualification, removal or other cause (in each case, subject to the rights of the holders of Founder Preferred Shares). These provisions will prevent stockholders from being able to fill vacancies on our Board and would therefore prevent a stockholder from increasing the size of our Board and then gaining control of our board of directors by filling the resulting vacancies with its own nominees. See also “– Board and Committee Composition” above.

Stockholder Action by Written Consent

The DGCL provides that, unless otherwise stated in a corporation's certificate of incorporation, the stockholders may act by written consent without a meeting. The Charter will provide that our stockholders may

not take action by written consent; *provided, however*, that holders of our Founder Preferred Shares may act by written consent in accordance with the Charter, as described below. As a result, stockholders (other than holders of Founder Preferred Shares) may only take action at annual or special meetings of our stockholders.

With respect to the Founder Preferred Shares, the Charter will provide that, subject to certain procedures and conditions described therein, any action required or permitted to be taken at any meeting of the holders of (i) the outstanding Founder Preferred Shares, voting together as a single class, (ii) the Series A Founder Preferred Shares, voting separately as a single class, or (iii) Series B Founder Preferred Shares, voting separately as a single class, as applicable, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing or by electronic transmission, setting forth the action so taken, are signed by the holders of the outstanding shares of the applicable classes or class, voting separately as a single class, having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which holders of all shares of such applicable classes or class were present and voted.

Special Meeting of Stockholders; Advance Notice Requirements for Stockholder Proposals

The Bylaws will provide that, subject to the rights of the holders of any outstanding series of Preferred Shares, special meetings of stockholders, for any purpose or purposes, (a) may be called at any time, but only by (i) the chairman of the Board, if there is one, or if there are co-chairmen of the Board, either of them, (ii) the Chief Executive Officer, (iii) the Board or (iv) an officer authorized by the Board to do so and (b) shall be called by (i) the chairman of the Board, if there is one, or, if there are co-chairmen of the Board, either of them, or (ii) the Chief Executive Officer, upon the written request of the holders of at least 30% of the voting power of the then outstanding capital shares of the Company generally entitled to vote on the matter for which such special meeting of stockholders is called.

In addition, the Bylaws will establish advance notice procedures for stockholders seeking to bring business before our annual meeting of stockholders or to nominate candidates for election as directors at our annual meeting, including that any such stockholder must give timely notice of any stockholder proposal in writing to our corporate secretary prior to the meeting at which the action is to be taken. To be timely, such notice will generally be required to be delivered or mailed and received not less than 90 days nor more than 120 days prior to the anniversary of our immediately preceding annual meeting of stockholders. The Bylaws will also specify certain requirements regarding the form and content of a stockholder's notice. These provisions might preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders if the proper procedures are not followed. These procedures may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of us.

Further, any meeting of the stockholders may be adjourned or postponed from time to time by the chairman of such meeting or by the Board, without the need for approval thereof by stockholders to reconvene or convene, respectively, at the same or some other place. These provisions could have the effect of delaying until the next stockholder meeting any stockholder actions, even if they are favored by the holders of a majority of our outstanding voting securities.

Authorized but Unissued Preferred Shares

The Charter will authorize the Board, by resolution and without further action by our stockholders, to provide from time to time out of the unissued Preferred Shares for one or more series of Preferred Shares, and, with respect to each such series, to fix the number of shares constituting such series and the designation of such series, the powers (including voting powers), if any, of the shares of such series and the preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations or restrictions, if any, of the shares of such series. The existence of authorized but unissued and unreserved preferred shares could make more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Limitations on Liability and Indemnification of Officers and Directors

The Charter and Bylaws will provide for certain limitations on liability and indemnification for our directors and officers to the fullest extent permitted by the DGCL. The effect of such provisions is to restrict our rights and the rights of our stockholders in derivative suits to recover monetary damages against a director for breach of fiduciary duties as a director. In addition, we have entered into indemnity agreements with our Directors and officers. See “Certain Relationships and Related Party Transactions – Indemnity Agreements”.

Exclusive Forum

The Charter will provide that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or employee of the Company or the Company’s stockholders, (iii) any action asserting a claim arising pursuant to any provision of the DGCL, the Charter or Bylaws or (iv) any action asserting a claim governed by the internal affairs doctrine of the State of Delaware (unless the Court of Chancery of the State of Delaware lacks jurisdiction over any such action or proceeding, in which case the sole and exclusive forum for such action or proceeding shall be another state or federal court located within the State of Delaware).

The Charter will also provide that, unless we consent in writing to an alternative forum, the federal district courts of the United States of America will be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock will be deemed to have notice of and have consented to the forum provisions in the Charter.

Section 203 of the DGCL

Upon effectiveness of the Domestication, we and our organizational documents will be governed by Delaware law, including Section 203 of the DGCL (“Section 203”). In general, Section 203 prohibits a public Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder unless:

- prior to such transaction, the corporation’s board of directors approves either the business combination or the transaction in which the stockholder became an interested stockholder;
- upon completion of such transaction, the interested stockholder owns at least 85% of the outstanding voting stock (with certain exclusions); or
- at the time or after the person became an interested stockholder, the business combination was approved by the corporation’s board of directors and authorized by a vote of at least 66 2/3% of the outstanding voting stock of the corporation not owned by the interested stockholder.

A “business combination” includes mergers, asset sales, stock sales and other transactions resulting in a financial benefit to the stockholder. An “interested stockholder” is defined as an entity or person (other than the corporation and any direct or indirect majority-owned subsidiary of the corporation) beneficially owning 15% or more of the outstanding voting stock of the corporation, based on voting power, and any entity or person affiliated with or controlling or controlled by such an entity or person. Although a Delaware corporation may opt out of this provision either with an express provision in its original certificate of incorporation or in an amendment to its certificate of incorporation or by-laws approved by its stockholders, we do not intend to opt out of Section 203. Section 203 could prohibit or delay mergers or other takeover or change of control attempts with respect to us and, accordingly, may discourage attempts that might result in a premium over the market price for the shares held by our stockholders.

Listing of Securities

We intend to apply to have the Class A Common Shares approved for listing on Nasdaq under the symbol “RADI”.

Transfer Agent and Registrar

The transfer agent and registrar for our Common Shares and Warrants (in such capacity, the “Transfer Agent” and “Registrar”, respectively) will be Computershare Trust Company, N.A. Its address is 150 Royall Street, Canton, MA 02021, USA.

COMPARISON OF STOCKHOLDER RIGHTS

The rights of DLGI BVI's shareholders are currently governed by the BVI Companies Act and DLGI BVI's amended and restated memorandum and articles of association (the "BVI Articles"). After the Domestication, the rights of the holders of our securities will be governed by Delaware law and DLGI Delaware's Charter and Bylaws. Set forth below is a summary of the material differences between the rights that shareholders of DLGI BVI currently have under the BVI Articles and British Virgin Islands law, and the rights that stockholders of DLGI Delaware will have under the Charter, Bylaws and Delaware law after we become a Delaware corporation in the Domestication. This summary is not intended to be a complete discussion of the respective rights and it is qualified in its entirety by reference to the BVI Articles, Charter and Bylaws (which are attached as exhibits to the registration statement of which this prospectus is a part), as well as to British Virgin Islands law and Delaware law.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following discussion is a summary of the material U.S. federal income tax issues that may be relevant to a holder regarding the Domestication and the ownership and disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares after the Domestication. This section applies only to holders that hold Ordinary Shares, Class A Common Shares, Warrants, BVI Series A Founder Preferred Shares or Series A Founder Preferred Shares (together, the “Securities”), as applicable, as capital assets for U.S. federal income tax purposes (generally, property held for investment). This section is general in nature and does not discuss all aspects of U.S. federal income taxation that might be relevant to a particular holder in light of its personal investment circumstances or status, nor does it address tax considerations applicable to a holder that is a member of a special class of holders subject to special rules, including:

- a broker or dealer in securities;
- a trader in securities that elects to use a mark-to-market method of accounting for securities holdings;
- a tax-exempt organization, qualified retirement plan, individual retirement account or other tax deferred account;
- a financial institution, underwriter, insurance company, real estate investment trust or regulated investment company;
- a person liable for alternative minimum tax;
- a U.S. expatriate or former long-term resident of the United States;
- a partnership or other pass-through entity for U.S. federal income tax purposes, or a beneficial owner of a partnership or other pass-through entity;
- a person that holds the Securities as part of a straddle, hedging or conversion transaction, or constructive sale;
- a person that is required to accelerate the recognition of any item of gross income with respect to the Securities as a result of such income being recognized on an applicable financial statement;
- a U.S. Holder whose functional currency is not the U.S. dollar;
- a person that received Securities as compensation for services;
- a controlled foreign corporation; or
- a passive foreign investment company.

This section is based on the U.S. Internal Revenue Code of 1986, as amended (the “Code”), its legislative history, existing and proposed Treasury regulations promulgated under the Code (the “Treasury Regulations”), published rulings by the U.S. Internal Revenue Service (“IRS”) and court decisions, all as of the date hereof. These laws are subject to change, possibly on a retroactive basis. This discussion does not address U.S. federal tax laws other than those pertaining to U.S. federal income taxation (such as estate or gift tax laws or the Medicare tax on investment income), nor does it address any aspects of U.S. state or local or non-U.S. taxation.

The Company has determined that, by reason of the APW Acquisition and the application of Section 7874 of the Code, it has been treated for U.S. federal income tax purposes as a U.S. domestic corporation as of the date of the APW Acquisition, notwithstanding that after the APW Acquisition it remained incorporated under the laws of the British Virgin Islands. The Company has not and does not intend to seek any rulings from the IRS regarding the Domestication and the APW Acquisition. In addition, the Domestication will be effected in part under the applicable provisions of British Virgin Islands law which are not identical to analogous provisions of U.S. corporate law. There is no assurance that the IRS will not take positions concerning the tax consequences of the APW Acquisition and the Domestication that are different from those discussed herein, or that any such different positions would not be sustained by a court.

If a partnership (including for this purpose any entity or arrangement so characterized for U.S. federal income tax purposes) holds Securities, the tax treatment of such partnership and a person treated as a partner of such partnership generally will depend on the status of the partner and the activities of the partnership. Partnerships holding Securities and persons that are treated as partners of such partnerships should consult their own tax advisors as to the particular U.S. federal income tax consequences of the Domestication and holding or disposing of the Securities.

Holders or prospective holders of the Class A Common Shares, Warrants or Series A Founder Preferred Shares are urged to consult their tax advisors with respect to the U.S. federal, state and local tax consequences and the non-U.S. tax consequences of the Domestication and the ownership and disposition of the Class A Common Shares, Warrants or Series A Founder Preferred Shares.

Subject to the qualifications, assumptions and limitations in the opinion attached as Exhibit 8.1 to the registration statement of which this prospectus forms a part, the statements of law and legal conclusions set forth under “—U.S. Holders” and “—Non-U.S. Holders” represent the opinion of Cravath, Swaine & Moore LLP.

U.S. Holders

The following describes the material U.S. federal income tax consequences of the Domestication and the ownership and disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares after the Domestication to a U.S. Holder. For purposes of this discussion, a “U.S. Holder” means a beneficial owner of Securities that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S. or any state thereof (including the District of Columbia);
- an estate whose income is subject to U.S. federal income tax regardless of its source; or
- a trust if (1) a U.S. court can exercise primary supervision over the trust’s administration and one or more U.S. Persons are authorized to control all substantial decisions of the trust; or (2) the trust has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. Person.

U.S. Federal Income Tax Characterization and Consequences of the Domestication

Under Section 368(a)(1)(F) of the Code, a reorganization (an “F Reorganization”) is a “mere change in identity, form, or place of organization of one corporation, however effected”. The Domestication will qualify as an F Reorganization and the remainder of this section assumes that the Domestication so qualifies. Therefore, U.S. Holders will not recognize taxable gain or loss upon (a) the conversion of their Ordinary Shares into Class A Common Shares, (b) the conversion of their Warrants to acquire Ordinary Shares into Warrants to acquire Class A Common Shares or (c) the conversion of their BVI Series A Founder Preferred Shares into Series A Founder Preferred Shares as a result of the Domestication for U.S. federal income tax purposes. A U.S. Holder will have an initial tax basis in the Class A Common Shares, Warrants or Series A Founder Preferred Shares deemed received in the Domestication equal to its adjusted tax basis in the Ordinary Shares, Warrants or BVI Series A Founder Preferred Shares deemed surrendered in exchange therefor. The holding period for the Class A Common Shares, Warrants or Series A Founder Preferred Shares deemed received in the Domestication will include such holder’s holding period for the Ordinary Shares, Warrants or BVI Series A Founder Preferred Shares deemed surrendered in exchange therefor.

Distributions with respect to Class A Common Shares, Warrants and Series A Founder Preferred Shares

Cash Distributions

Distributions of cash, if any, paid on the Class A Common Shares or the Series A Founder Preferred Shares generally will be treated as dividends to the extent of our current or accumulated earnings and profits. Dividends

paid to a non-corporate U.S. Holder that constitute qualified dividend income will be taxable at the preferential rates applicable to long-term capital gains provided that the holder holds the common stock for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meets other holding period requirements. Distributions in excess of our current and accumulated earnings and profits will be treated as a return of capital to the extent of the holder's basis in the common stock and thereafter as capital gain.

Stock Dividends and Deemed Dividends

As described in “Description of Capital Stock – Series A Founder Preferred Shares – Dividend Rights”, under certain circumstances Series A Founder Preferred Shares may receive distributions of Class A Common Shares. The distribution of Class A Common Shares may be treated as a taxable stock dividend under Section 305(b) of Code, depending on the circumstances that exist at the time of the distribution. One such instance in which a distribution would be taxable is where, as a result of a stock dividend, a shareholder's proportionate interest in the earnings and profits or assets of the Company is increased while any other shareholder receives a distribution (or deemed distribution) of cash or other property from the Company. The application of Section 305 of the Code to the distribution of Class A Common Shares on the Series A Founder Preferred Shares is not clear, and it is possible that the IRS will take a view that is contrary to the position that we take at the time of any future distribution. If Section 305(b) of the Code is applied to a distribution, a U.S. Holder who receives Class A Common Shares could be treated as having received a taxable distribution in an amount equal to the value of such Class A Common Shares. U.S. Holders are strongly urged to consult their tax advisers regarding the risk of having a taxable distribution as a result of the receipt of Class A Common Shares.

U.S. Holders of the Warrants and Series A Founder Preferred Shares may, in certain circumstances, be deemed to have received constructive distributions where an adjustment is made to the number of Class A Common Shares into which Series A Founder Preferred Shares are convertible, as described under “Description of Capital Stock – Series A Founder Preferred Shares – Adjustments”, or an adjustment is made to the Exercise Price with respect to the Warrants, as described under “Description of Capital Stock – Warrants – Adjustments”. Certain adjustments to the conversion rate or Exercise Price made pursuant to a bona fide reasonable adjustment formula that have the effect of preventing the dilution of the interest of the holders of the Series A Founder Preferred Shares or the Warrants, as applicable, generally will not be considered to result in a taxable deemed distribution. However, it is possible that certain adjustments will not qualify as being pursuant to a bona fide reasonable adjustment formula. If such adjustments are made, the holders of the Series A Founder Preferred Shares or the Warrants, as applicable, may be deemed to have received a taxable distribution. Accordingly, U.S. Holders could be considered to have received distributions taxable as dividends to the extent of our current and accumulated earnings and profits even though they did not receive any cash or property as a result of such adjustments. It is unclear whether a deemed distribution would be eligible for the preferential rates of U.S. federal income tax applicable in respect of qualifying dividend income. It is also unclear whether corporate holders would be entitled to claim the dividends received deduction with respect to any such constructive distributions.

Conversion of the Series A Founder Preferred Shares

U.S. Holders should not recognize taxable gain or loss for U.S. federal income tax purposes upon the conversion of their Series A Founder Preferred Shares into Class A Common Shares, as described under “Description of Capital Stock – Series A Founder Preferred Shares – Conversion into Class A Common Shares”. A U.S. Holder should have an initial tax basis in the Class A Common Shares received in the conversion equal to its adjusted tax basis in the Series A Founder Preferred Shares surrendered in exchange therefor. The holding period for the Class A Common Shares received in the conversion should include such holder's holding period for the Series A Founder Preferred Shares surrendered in exchange therefor.

Exercise of Warrants

A U.S. Holder generally should not recognize gain or loss upon the exercise of the Warrants. Rather, a U.S. Holder will recognize taxable gain or loss if and when such U.S. Holder disposes of the Class A Common Shares received in exchange for the Warrants in a taxable transaction. A U.S. Holder's tax basis in the Class A Common Shares received upon exercise will be equal to the Exercise Price plus its tax basis in the Warrants. The holding period of the Class A Common Shares received upon exercise of a Warrant will begin the day that the holder exercises the Warrant.

Sale or Other Disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares

Upon the sale, exchange, certain redemptions or other taxable dispositions of Class A Common Shares, Warrants or Series A Founder Preferred Shares (other than a conversion described in "– U.S. Holders–Conversion of the Series A Founder Preferred Shares"), a U.S. Holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash and the fair market value of any property received upon the taxable disposition and (ii) such holder's adjusted tax basis in the Class A Common Shares, Warrants or Series A Founder Preferred Shares. Such capital gain or loss will be long-term capital gain or loss if the U.S. Holder's holding period in the shares is more than one year at the time of the taxable disposition. Long-term capital gains recognized by non-corporate taxpayers are generally taxed at preferential rates. The deductibility of capital losses is subject to certain limitations.

Non-U.S. Holders

The Company does not expect the Domestication to result in any U.S. federal income tax consequences to non-U.S. Holders of Ordinary Shares, Warrants to acquire Ordinary Shares, or BVI Series A Founder Preferred Shares. The following describes the material U.S. federal income tax consequences to a non-U.S. Holder of the ownership and disposition of Class A Common Shares, Warrants and Series A Founder Preferred Shares after the Domestication. For purposes of this discussion, a "non-U.S. Holder" means a beneficial owner of Class A Common Shares, Warrants or Series A Founder Preferred Shares that is neither a U.S. Holder nor a partnership (or entity or arrangement treated as a partnership) for U.S. federal income tax purposes.

Distributions with Respect to Class A Common Shares, Warrants or Series A Founder Preferred Shares

In general, any distributions made to a non-U.S. Holder with respect to Class A Common Shares, Warrants or Series A Founder Preferred Shares (including any deemed dividends resulting from any stock dividends or certain adjustments to the number of Class A Common Shares into which a Series A Founder Preferred Share is convertible or adjustments to the Exercise Price with respect to the Warrants, as described under "– U.S. Holders – Distributions with Respect to Class A Common Shares, Warrants and Series A Founder Preferred Shares – Stock Dividends and Deemed Dividends") will be treated as a dividend for U.S. federal income tax purposes to the extent made out of the Company's current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Dividends paid to a non-U.S. Holder generally will be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding, a non-U.S. Holder generally will be required to provide to the Company an IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying its entitlement to benefits under the treaty. Because a deemed dividend received by a non-U.S. Holder may not give rise to any cash or property from which any applicable U.S. federal withholding tax could be satisfied, if we pay withholding taxes on behalf of such a non-U.S. Holder, the amount of such withholding tax may be set off against any future distributions of cash or property on such Shares.

The withholding tax does not apply to dividends paid to a non-U.S. Holder that provides an IRS Form W-8ECI certifying that the dividends are effectively connected with the non-U.S. Holder's conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to U.S. tax on a net

income basis at the regular graduated rates and in the manner applicable to United States persons (subject to an applicable income tax treaty providing otherwise). A foreign corporation receiving effectively connected dividends may also be subject to an additional “branch profits tax” imposed at a rate of 30% (or a lower rate under an applicable treaty). If a non-U.S. Holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty, the non-U.S. Holder may obtain a refund of any amounts withheld in excess of that rate by timely filing a refund claim with the IRS.

If the amount of a distribution (or deemed distribution) paid by the Company with respect to Class A Common Shares, Warrants or Series A Founder Preferred Shares exceeds the Company’s current and accumulated earnings and profits, such excess will be treated first as a tax-free return of capital to the extent of the non-U.S. Holder’s adjusted tax basis in such Shares, and thereafter as capital gain from a sale or other disposition of such Shares that is taxed as described below under the heading “– Sale or Other Disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares”.

Conversion of the Series A Founder Preferred Shares

A non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax upon a conversion of Series A Founder Preferred Shares into Class A Common Shares. Any gain recognized by a non-U.S. Holder upon such a conversion will be treated as described below under “– Non-U.S. Holder – Sale or Other Disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares”.

Exercise of the Warrants

A non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax upon an exercise of the Warrants.

Sale or Other Disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares

A non-U.S. Holder generally will not be subject to U.S. federal income tax on gain realized on a sale or other disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares unless:

- (i) the non-U.S. Holder is an individual who was present in the United States for 183 days or more in the taxable year of the disposition and other requirements are met, in which case any gain realized will generally be subject to a flat 30% U.S. federal income tax;
- (ii) the gain is effectively connected with a trade or business of the non-U.S. Holder in the United States (and if an income tax treaty applies, is attributable to a U.S. permanent establishment or fixed base maintained by such non-U.S. Holder), in which case such gain will be subject to U.S. tax on a net income basis at the same graduated rates applicable to United States persons, and, if the non-U.S. Holder is a corporation, an additional “branch profits tax” imposed at a rate of 30% (or a lower rate under an applicable treaty) may also apply; or
- (iii) the Company is or has been a U.S. real property holding corporation at any time within the five-year period preceding the disposition or the non-U.S. Holder’s holding period, whichever is shorter (the “relevant period”), and either (A) the applicable class of Securities is not or has ceased to be regularly traded on an established securities market or (B) the non-U.S. Holder has owned or is deemed to have owned, at any time within the relevant period, more than 5% of the applicable class of Securities.

If paragraph (iii) above applies to a non-U.S. Holder, gain recognized by such non-U.S. Holder on the sale, exchange or other disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of such Class A Common Shares, Warrants or Series A Founder Preferred Shares from a non-U.S. Holder may be required to withhold U.S. income tax at a rate of 15% of the amount realized upon such disposition. The Company will be

classified as a U.S. real property holding corporation if the fair market value of its “United States real property interests” equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes. The Company does not expect to be classified as a U.S. real property holding corporation following the Domestication. However, such determination is factual in nature and subject to change and no assurance can be provided as to whether the Company is or will be a U.S. real property holding corporation with respect to a non-U.S. Holder following the Domestication or at any future time.

Information Reporting Requirements and Backup Withholding

Information returns will be filed with the IRS in connection with payments of dividends on and the proceeds from a sale or other disposition of Class A Common Shares, Warrants or Series A Founder Preferred Shares. A non-U.S. Holder may have to comply with certification procedures to establish that it is not a United States person or otherwise establish an exemption in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid the backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. Holder will be allowed as a credit against such non-U.S. Holder’s U.S. federal income tax liability and may entitle such non-U.S. Holder to a refund, provided that the required information is furnished to the IRS in a timely manner.

Foreign Account Tax Compliance Act

The Code generally imposes a U.S. federal withholding tax of 30% in certain circumstances on dividends in respect of, and the gross proceeds of a disposition of, Class A Common Shares, Warrants or Series A Founder Preferred Shares that are held by or through a “foreign financial institution” (as specifically defined for this purpose) unless such institution enters into an agreement with the U.S. government to, among other things, withhold on “withholdable payments” (which includes interest and dividends from U.S. sources and gains from the disposition of assets that produce interest and dividends) and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners).

The Code also generally imposes a U.S. federal withholding tax of 30% on dividends in respect of, and the gross proceeds of a disposition of, Class A Common Shares, Warrants or Series A Founder Preferred Shares to a non-financial foreign entity unless such entity provides the withholding agent with either a certification that it does not have any substantial direct or indirect U.S. owners or provides certain information regarding direct and indirect U.S. owners of the entity.

Proposed Treasury Regulations issued in December 2018 would eliminate such withholding on payments of gross proceeds entirely. Pursuant to the proposed Treasury Regulations, an issuer and any withholding agent may (but are not required to) rely on these proposed regulations until final Treasury Regulations are issued.

All holders should consult their tax advisors regarding the possible implications of these rules to their ownership and disposition of Ordinary Shares, Class A Common Shares, BVI Series A Founder Preferred Shares, Series A Founder Preferred Shares or Warrants.

DIGITAL LANDSCAPE GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(in thousands, except share and per share amounts and unless otherwise disclosed)

1. Organization

Digital Landscape Group, Inc. (together with its subsidiaries, “Digital Landscape Group”, “DLGI” and/or the “Company”), formerly known as Landscape Acquisition Holdings Limited (“Landscape”), is one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights. The Company purchases, primarily for a lump sum, the right to receive future rental payments generated pursuant to an existing tenant lease (and any subsequent lease or extension or amendment thereof). Typically, the Company acquires the rental stream by way of a purchase of a real property interest in the land underlying the wireless tower or antennae, most commonly easements, usufructs, leasehold and sub-leasehold interests, or fee simple interests, each of which provides the Company the right to receive the rents from the tenant lease. In addition, the Company purchases contractual interests, such as an assignment of rents, either in conjunction with the property interest or as a stand-alone right.

The Company was incorporated with limited liability under the laws of the British Virgin Islands under the BVI Companies Act on November 1, 2017. The Company was originally formed to undertake an acquisition of a target company or business.

On February 10, 2020 (the “Closing Date”), the Company completed its acquisition by purchasing AP WIP Investments Holdings, LP (“AP Wireless”), a Delaware limited partnership and the direct parent of AP WIP Investments, LLC (“AP WIP Investments”) pursuant to a merger agreement entered into on November 19, 2019. The acquisition, together with the other transactions contemplated by the merger agreement are referred to herein as the “Transaction” and/or “APW Acquisition”. In connection with the closing of the Transaction, Landscape changed its name to Digital Landscape Group, Inc.

Upon completion of the Transaction, on the Closing Date, the Company acquired a 91.8% interest in APW OpCo LLC (“APW OpCo”), the parent of AP Wireless and the indirect parent of AP WIP Investments for consideration of approximately \$860,000 less (i) debt as of June 30, 2019 of approximately \$539,000, (ii) approximately \$65,000 to redeem a minority investor in the AP Wireless business, and (iii) allocable transaction expenses of approximately \$10,700 plus (iv) cash as of June 30, 2019 of approximately \$66,500 (subject to certain limited adjustments). The Transaction was completed through a merger of newly created subsidiary of DLGI with and into APW OpCo, with APW OpCo surviving such merger as a majority owned subsidiary of the DLGI. Following the Transaction and as noted above, the Company owned 91.8% of APW OpCo. The remaining 8.2% interest in APW OpCo is owned by certain former partners of Associated Partners, L.P. (“Associated Partners”), the selling party in the Transaction. Such partners of Associated Partners were members of APW OpCo immediately prior to the Closing Date and elected to roll over their investment in AP Wireless in connection with the APW Acquisition (the “Continuing OpCo Members”). As a result, the AP Wireless business is 100% owned by DLGI and the Continuing OpCo Members.

In connection with the APW Acquisition, the Company entered into a subscription agreement, dated as of November 20, 2019 and amended and supplemented as of February 7, 2020 (the “Centerbridge Subscription Agreement”), with Centerbridge Partners Real Estate Fund, L.P., Centerbridge Partners Real Estate Fund SBS, L.P. and Centerbridge Special Credit Partners III, L.P. (collectively, the “Centerbridge Entities”). Pursuant to the Centerbridge Subscription Agreement, the Centerbridge Entities subscribed for \$100,000 of Ordinary Shares at a price of \$10.00 per share (the “Centerbridge Subscription”) in connection with, and contingent upon the consummation of, the APW Acquisition. The cash proceeds from the Centerbridge Subscription are available for general corporate purposes, including the acquisition of real property interests and revenue streams critical for wireless communications.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

Unless the context otherwise requires, the “Company”, refers, for periods prior to the completion of the Transaction, to AP WIP Investments, and its subsidiaries and, for periods after the completion of the Transaction, to Digital Landscape Group and its subsidiaries, including AP WIP Investments and its subsidiaries.

As a result of the Transaction, for accounting purposes, the Company is the acquirer and AP WIP Investments is the acquiree and accounting Predecessor to DLGI, as Landscape had no operations prior to the Transaction. Accordingly, the financial statement presentation includes the financial statements of AP WIP Investments as “Predecessor” for periods prior to the Closing Date and DLGI as “Successor” for periods after the Closing Date, including the consolidation of AP WIP Investments and its subsidiaries. The Transaction was accounted for as a business combination under the scope of the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) 805, *Business Combinations*, (“ASC 805”).

The condensed consolidated financial statements included herein have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) and the rules and regulations of Securities and Exchange Commission (“SEC”). The accompanying condensed consolidated financial statements include the accounts of the Company and its majority-owned or controlled subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

For the Successor period from February 10, 2020 through March 31, 2020, Digital Landscape Group consolidated the financial position and results of operations of AP WIP Investments and its subsidiaries. For the Predecessor periods, the consolidated financial statements include the accounts of AP WIP Investments and its subsidiaries, as well as a variable interest entity (“VIE”).

Use of Estimates

The preparation of the condensed consolidated financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash includes cash on hand and demand deposits. The Company maintains its deposits at high quality financial institutions and monitors the credit ratings of those institutions. The Company considers all highly liquid investments with an original maturity date of three months or less to be cash equivalents. While cash held by financial institutions may at times exceed federally insured limits, the Company believes that no material credit or market risk exposure exists due to the high quality of the institutions. The Company has not experienced any losses on such accounts. Gains and losses on highly liquid investments classified as cash equivalents are reported in other income in the condensed consolidated statements of operations.

Restricted Cash

The Company is required to maintain cash collateral at certain financial institutions. Additionally, amounts that are required to be held in an escrow account, which, subject to certain conditions, are available to the

(in thousands, except share and per share amounts and unless otherwise disclosed)

Company under the loan agreements. Accordingly, these balances contain restrictions as to their availability and usage and are classified as restricted cash in the condensed consolidated balance sheets.

The reconciliation of cash and cash equivalents and restricted cash reported within the applicable balance sheet that sum to the total of the same such amounts shown in the condensed consolidated statements of cash flows is as follows:

| Cash and cash equivalents | \$ 248,862 | \$ 62,892 |

Fair Value Measurements

The Company applies ASC 820, *Fair Value Measurement* (“ASC 820”), which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company’s principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity’s own assumptions based on market data and the entity’s judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The carrying amounts reflected in the condensed consolidated balance sheets for cash and cash equivalents, trade receivables, prepaid expenses and other current assets, accounts payable and accrued expenses, and rent received in advance approximate fair value due to their short-term nature. As of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), the carrying amounts of the Company’s debt approximated its fair value, as the obligation bears interest at rates currently available for debt with similar maturities and collateral requirements.

Level 1 — Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 — Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

Trade Receivables, Net

Trade receivables are recorded at the invoiced amount and are generally unsecured as they are uncollateralized. The Company provides an allowance for doubtful accounts to reduce receivables to their estimated net realizable value. Judgement is exercised in establishing allowances and estimates are based on the tenants' payment history and liquidity. Any amounts that were previously recognized as revenue and subsequently determined to be uncollectible are charged to bad debt expense included in selling, general and administrative expense in the accompanying condensed consolidated statements of operations. The allowance for doubtful accounts was \$529 and \$491 at March 31, 2020 (Successor) and December 31, 2019 (Predecessor), respectively.

Real Property Interests

The Company's core business is to contract for the purchase of cell site leasehold interests either through an up-front payment or on an installment basis from property owners who have leased their property to companies that own telecommunications infrastructure assets. Real property interests include costs recorded under cell site leasehold interest arrangements either as intangible assets or right-of-use assets, depending on whether or not the arrangement is determined to be a lease at the inception of the agreement. For acquisitions of real property interests that meet the definition of an asset acquisition, the cell site leasehold interests are recorded as intangible assets and are stated at cost less accumulated amortization. Amortization is computed using the straight-line method over the estimated useful lives of these real property interests, which is estimated as the lesser of the useful life of the underlying cell site asset or the term of the arrangement.

Accounting Standards Update No. 2016-02, Leases ("ASU 2016-02" and/or "ASC 842") requires the Company to recognize assets and liabilities arising from a lease for both financing and operating leases, along with qualitative and quantitative disclosures. This classification determines whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record right-of-use asset and a lease liability in the balance sheet for all leases with term of greater than twelve months regardless of their classification.

On January 1, 2019, the Company adopted the new lease standard using the modified retrospective method applied to lease arrangements that were in place on the transition date. Commencing with the adoption of ASC 842, the Company determines if an arrangement, including cell site leasehold interest arrangements, is a lease at the inception of the agreement. The Company considers an arrangement to be a lease if it conveys the right to control the use of the asset for a specific period of time in exchange for consideration.

The Company's lease liability is the present value of the remaining minimum rental payments to be made over the remaining lease term, including renewal options reasonably certain to be exercised. The Company also considers termination options and factors those into the determination of lease payments when appropriate. To determine the lease term, the Company considers all renewal periods that are reasonably certain to be exercised, taking into consideration all economic factors, including the cell site's estimated economic life. Leases with an initial term of twelve months or less are not recorded in the condensed consolidated balance sheet. The finance lease right-of-use asset is amortized over the lesser of the lease term or the estimated useful life of the underlying asset associated with the leasing arrangement, which is estimated to be twenty-five years.

Operating Leases

Rights and obligations are primarily related to operating leases for office space. The Company records lease expense for operating leases on a straight-line basis over the lease term.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Maintenance and repairs are charged to expense when incurred. Additions and improvements that extend the economic useful life of the asset are capitalized and depreciated over the remaining useful lives of the assets. The cost and accumulated depreciation of assets sold or retired are removed from the respective accounts, and any resulting gain or loss is reflected in current earnings. Depreciation is provided using the straight-line method in amounts considered to be sufficient to amortize the cost of the assets to operations over their estimated useful lives. Depreciation expense was \$53, \$44 and \$92 for the period from February 10 to March 31, 2020 (Successor), for the period from January 1 to February 9, 2020 (Predecessor), and \$92 for the three months ended March 31, 2019 (Predecessor), respectively.

Long-Lived Assets, Including Definite-Lived Intangible Assets

The Company's primary long-lived assets include real property interests and intangible assets. Intangible assets recorded for in-place tenant leases are stated at cost less accumulated amortization and are amortized on a straight-line basis over the remaining cell site lease term with the in-place tenant, including ordinary renewals at the option of the tenant. The carrying amount of any long-lived asset group is evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows derived from such assets. If the carrying amount of the long-lived asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value. The Company reviewed the portfolio of cell site leasehold interests and intangible assets for impairment, in which the Company identified cell sites for which impairment charges of \$521, \$530 and \$540 were recorded for the period from February 10 to March 31, 2020 (Successor) for the period from January 1 to February 9, 2020 (Predecessor) and for the three months ended March 31, 2019 (Predecessor), respectively.

Goodwill

Goodwill, which represents the excess of purchase price over the fair value of net assets acquired, is carried at cost. Goodwill is not amortized; rather, it is subject to a periodic assessment for impairment by applying a fair value based test. The Company is organized in one reporting unit and evaluates the goodwill for the Company as a whole. Goodwill is assessed for impairment on an annual basis as of October 1st of each year or more frequently if events or changes in circumstances indicate that the asset might be impaired. Under the authoritative guidance issued by the FASB, the Company has the option to first assess the qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform a quantitative goodwill impairment test. If the Company determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the goodwill impairment test is performed. The goodwill impairment test requires the Company to estimate the fair value of the reporting unit and to compare the fair value of the reporting unit with its carrying amount. If the fair value exceeds the carrying amount, then no impairment is recognized. If the carrying amount recorded exceeds the fair value calculated, then an impairment charge is recognized for the difference. The judgments made in determining the projected cash flows used to estimate the fair value can materially impact the Company's financial condition and results of operations. There was no impairment of goodwill for the period ended March 31, 2020 (Successor).

Revenue Recognition

The Company receives rental payments from in-place tenants of wireless communication sites under operating lease agreements. Revenue is recorded as earned over the period in which the lessee is given control over the use of the wireless communication sites and recorded over the term of the lease, not including renewal terms, since the operating lease arrangements are cancellable by both parties.

Rent received in advance is recorded when the Company receives advance rental payments from the in-place tenants. Contractually owed lease prepayments are typically paid one month to one year in advance. At March 31, 2020 (Successor) and December 31, 2019 (Predecessor), the Company's rent received in advance was \$15,219 and \$13,856, respectively.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. Where applicable, the Company records a valuation allowance to reduce any deferred tax assets that it determines will not be realizable in the future.

For periods after the consummation of the Transaction, the Company is subject to U.S. federal and state income taxes. Additionally, AP WIP Investments files income tax returns in the various state and foreign jurisdictions in which it operates. AP WIP Investments' tax returns are subject to tax examinations by foreign tax authorities until the expiration of the respective statutes of limitation. AP WIP Investments currently has no tax years under examination.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest related to unrecognized tax benefits and penalties as a component of income tax expense on the accompanying consolidated statements of operations.

Share-based compensation

The Company expenses share-based compensation over the requisite service period of the awards (usually the vesting period) based on the grant date fair value of awards. For share-based compensation awards with performance-based milestones, the expense is recorded over the service period after the achievement of the milestone is probable or the performance condition is achieved. An offsetting increase to stockholders' equity is recognized equal to the amount of the compensation expense charge. The Company recognizes forfeitures as they occur as a reduction of expense.

Warrants

The Company has warrants issued with its Ordinary Shares and Series A Founder Preferred Shares that were determined to be equity classified in accordance with ASC 815, *Derivatives and Hedging*. The Company also issued warrants with shares issued to non-founder directors for compensation that were determined to be equity classified in accordance with ASC 718, *Compensation – Stock Compensation* ("ASC 718"). The fair value of the warrants was recorded as additional paid-in capital on the issuance date, and no further adjustments were made.

Basic and Diluted Earnings per Ordinary Share

Basic earnings (loss) per Ordinary Share excludes and is computed by dividing net income (loss) attributable to ordinary shares by the weighted average number of Ordinary Shares outstanding during the period. The Company has determined that its Series A Founder Preferred Shares are participating securities as the Series A Founder Preferred Shares participate in undistributed earnings on an as-if-converted basis. Accordingly, the Company used the two-class method of computing earnings per share, for Ordinary Shares and Series A Founder Preferred Shares according to participation rights in undistributed earnings. Under this method, net income applicable to holders of ordinary shares is allocated on a pro rata basis to the holders of Ordinary Shares and Series A Founder Preferred Shares to the extent that each class may share income for the period; whereas undistributed net loss is allocated to Ordinary Shares because Series A Founder Preferred Shares are not contractually obligated to share the loss.

Diluted earnings per ordinary share reflects the potential dilution that would occur if securities were exercised or converted into Ordinary Shares. The Company's dilutive securities include Series A Founder Preferred Shares, warrants, options, and restricted shares. To calculate the number of shares for diluted earnings per ordinary shares, the effect of the participating preferred shares is computed using the as-if-converted method, and effects of the warrants, options, LTIP units and restricted shares are computed using the treasury stock method. For all periods presented with a net loss, the effects of any incremental potential ordinary shares have been excluded from the calculation of loss per Ordinary Share because their effect would be anti-dilutive. Therefore, the weighted-average shares outstanding used to calculate both basic and diluted loss per share are the same for periods with a net loss.

As the Company's Class B Shares and Series B Founder Preferred Shares do not confer upon the holder any right to distributions, neither share class shall be included in the Company's computation of basic or diluted earnings (loss) per Ordinary Share.

Segment Reporting

The Company operates in one reportable segment which focuses on leasing cell sites to companies that own and operate cellular communication towers and other infrastructure. The Company's business offerings have similar economic and other characteristics, including the types of customers, distribution methods and regulatory environment. The chief operating decision maker of the Company reviews investment specific data to make resource allocation decisions and assesses performance by review of profit and loss information on a consolidated basis. The condensed consolidated financial statements reflect the financial results of the Company's one reportable segment.

Foreign Currency

The Company's functional and reporting currency is the U.S. dollar. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the balance sheet date, while revenue and expenses are translated at the average exchange rates during the period. Foreign exchange gains and losses arising from translation are included in the condensed consolidated statements of operations.

Recent Accounting Pronouncements

Accounting Pronouncements Recently Adopted

In June 2016, the FASB issued guidance that modifies how entities measure credit losses on most financial instruments. The new guidance replaces the current “incurred loss” model with an “expected credit loss” model that requires consideration of a broader range of information to estimate expected credit losses over the lifetime of the asset. Effective January 1, 2020, the Company adopted the new guidance and the Company noted that operating lease receivables are not within the scope of this guidance. As such, there was no cumulative-effect adjustment to the condensed consolidated balance sheet as of the effective date. The adoption of this guidance did not have an impact on the Company’s condensed consolidated financial statements.

In January 2017, the FASB issued Accounting Standard Update (“ASU”) No. 2017-04, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* (“ASU-2017-04”). The new ASU removes Step 2 of the goodwill impairment test and requires the assessment of fair value of individual assets and liabilities of a reporting unit to measure goodwill impairments. Goodwill impairment will then be the amount by which a reporting unit’s carrying amount exceeds its fair value. The Company adopted the new standard on January 1, 2020, and the adoption did not have an impact on its condensed consolidated financial statements.

In April 2019, the FASB issued ASU No. 2019-04, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments* (“ASU 2019-04”), to clarify and address implementation issues around the new standards related to credit losses, hedging and recognizing and measuring financial instruments. The Company adopted the new standard on January 1, 2020, and the adoption did not have an impact on its condensed consolidated financial statements.

In March 2020, the FASB issued ASU No. 2020-03, *Codification Improvements to Financial Instruments* (“ASU 2020-03”). The ASU clarifies disclosure guidance for fair value options, adds clarifications to the subsequent measurement of fair value, clarifies disclosure for depository and lending institutions, clarifies the line-of-credit or revolving-debt arrangements guidance, and the interaction of Financial Instruments—Credit Losses (Topic 326) with Leases (Topic 842) and Transfers and Servicing-Sales of Financial Assets (Subtopic 860-20). The Company adopted the new standard on January 1, 2020, and the adoption did not have an impact on its condensed consolidated financial statements.

Accounting Pronouncements Not Yet Adopted

In December 2019, the FASB issued ASU No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, (“ASU 2019-12”). The ASU removes certain exceptions for recognizing deferred taxes for investments, performing intraperiod allocation and calculating income taxes in interim periods. The ASU also adds guidance to reduce complexity in certain areas, including recognizing deferred taxes for goodwill and allocating taxes to members of a consolidated group. The ASU is effective for annual reporting periods beginning after December 15, 2020, including interim reporting periods within those annual periods, with early adoption permitted. The Company is currently evaluating the impact of the new guidance on its condensed consolidated financial statements.

3. Business Combination

On February 10, 2020, the Company completed the APW Acquisition, acquiring AP Wireless in a business combination. The acquisition was completed through a merger of a newly created DLGI subsidiary with and

(in thousands, except share and per share amounts and unless otherwise disclosed)

into APW OpCo, with APW OpCo surviving the merger as a majority-owned subsidiary of DLGI. Following completion of the Transaction on the Closing Date, DLGI owned 91.8% of APW OpCo, and the Continuing OpCo Members owned the remaining 8.2%. The APW Acquisition was accounted for as a business combination using the acquisition method with DLGI as the accounting acquirer in accordance with ASC 805. The interest in APW OpCo not owned by the Company was recognized as a noncontrolling financial interest in the condensed consolidated financial statements.

The aggregate acquisition consideration transferred in the APW Acquisition was \$389,617, which consisted of cash consideration of \$325,424 and equity consideration of \$64,193. The cash component of the consideration was funded through the liquidation of cash equivalents owned by DLGI. The equity component of the consideration represented the fair value of the limited liability company units in APW OpCo issued to the Continuing OpCo Members, and includes Class B Common Units, Series A Rollover Profits Units and Series B Rollover Profits Units (collectively, the "Consideration Units"). The Company determined that the components of the Consideration Units were not freestanding instruments and the economic characteristics of the embedded features of the Consideration Units were considered clearly and closely related to the equity-like host of the Consideration Units, as the value of the embedded features fluctuate with the price of the underlying equity in the Consideration Units. Accordingly, the Consideration Units represented and were then accounted for as a single, hybrid financial instrument, classified as permanent equity and presented as noncontrolling interests in the consolidated balance sheet of the Company. The estimated fair value of the Consideration Units was calculated using a Monte Carlo simulation model, which used the following weighted-average assumptions: 19.2% expected volatility, a risk-free interest rate of 1.5%, estimated term of 9.2 years and a fair value of DLGI's Ordinary Shares of \$10.00.

The Company recorded a preliminary allocation of the acquisition consideration to the acquiree's identified tangible and identifiable intangible assets acquired and liabilities assumed based on their fair values as of the Closing Date. The excess of the acquisition consideration over the fair value of the assets acquired and liabilities assumed was recorded as goodwill. The following is a summary of the estimated fair values of the assets acquired and liabilities assumed:

| | |
|--|-------------------|
| Cash and restricted cash | \$ 48,359 |
| Trade receivables | 8,077 |
| Prepaid expenses and other assets | 31,775 |
| Real property interests | 900,147 |
| Intangible assets | 5,400 |
| Accounts payable and other liabilities | (23,441) |
| Rent received in advance | (15,837) |
| Real property interest liabilities | (33,398) |
| Long-term debt | (570,174) |
| Deferred income tax liability | (50,547) |
| Net identifiable assets acquired | 300,361 |
| Goodwill | 89,256 |
| Total acquisition consideration | <u>\$ 389,617</u> |

The Company has preliminarily allocated the purchase price for the transaction based upon the estimated fair value of net assets acquired and liabilities assumed at the date of acquisition. Accordingly, the preliminary purchase price allocation is subject to change. The Company expects to finalize the allocation of the purchase price upon finalization of the valuation primarily for the real property interests and finance lease and cell site leasehold interest liabilities, as well as the finalization of noncontrolling interests. Any

adjustments to the preliminary fair values will be made as soon as practicable but no later than one year from the acquisition date. The preliminary fair value of the real property interests, which consisted of right of use assets under finance leases and cell site leasehold interests, was estimated under an income approach based upon management's projections of monthly cash flows for the beneficial rights to the respective real property interests. With consideration given to the specified term of each real property interest arrangement, which ranged from 23 to 99 years as of the Closing Date, the monthly cash flow streams were discounted to present value using an appropriate pre-tax discount rate for the geographic region of each arrangement, with the discount rate for each region determined based on a base pre-tax discount rate for the United States with a premium to account for additional risk associated with the respective region. Discount rates used in the determination of the fair value of real property interests ranged from 8.2% to 18.5%.

The identified intangible assets included the in-place tenant leases. The preliminary fair value of the in-place lease intangible assets was estimated under a replacement cost method. This approach measures the value of an asset by the cost to reconstruct or replace it with another of like utility. The in-place lease intangible asset represents the avoided cost of originating the acquired lease with the in-place tenant. Based on industry experience, the Company estimated one month as a reasonable amount of time to allot for origination of a tenant lease. Accordingly, the fair value of the in-place lease intangible asset approximated the cash flows associated with one-month's net cash flows for each in-place tenant lease.

The preliminary purchase price allocation also reflected the recognition of deferred income taxes related to the fair value of assets acquired and liabilities assumed of the AP Wireless foreign subsidiaries over their respective historical tax bases as of the Acquisition Closing Date.

The following unaudited pro forma combined financial information presents the Company's results as though the Transaction had occurred at January 1, 2019. The Company's core business is to purchase cell site leasehold interests either through an up-front payment or on an installment basis from property owners who have leased their property to companies that own telecommunications infrastructure assets. The agreements that provide for the cell site leasehold interests typically are easement agreements, which have stated terms up to 99 years and provide the Company with certain beneficial rights, but not obligations, with respect to the underlying cell site leases. The beneficial rights acquired include, principally, the right to receive the rental income related to the cell site lease with the in-place tenant, and in certain circumstances, additional rents. In most cases, the stated term of the cell site leasehold interest is longer than the remaining term of the cell site lease with the in-place tenant, which provides the Company with the right and opportunity for renewals and extensions. Although the Company has the rights under the acquired cell site leasehold interests over the duration of the entire term, typically, the underlying tenant can terminate their lease acquired by the Company within a short time frame (30- to 90-day notice) without penalty. Under certain circumstances, the Company acquires the fee simple interest ownership, rather than acquiring a leasehold interest. In the instance in which a fee simple interest in the land is acquired, the Company is also assigned the existing cell site lease with the in-place tenant.

Right-Of-Use Assets – Finance Leases and Related Liabilities

Commencing with the adoption of ASC 842 on January 1, 2019, the Company determines if a cell site leasehold interest arrangement is a lease at the inception of the agreement. The Company considers an arrangement to be a lease if it conveys the right to control the use of the cell site or ground space underneath a communications site for a period of time in exchange for consideration. In cases in which the Company acquires a leasehold interest, the Company is both a lessor and a lessee. The Company recorded finance lease expense and interest expense associated with the lease liability in the condensed consolidated statements of operations as follows:

| | <u>Successor</u> | <u>Predecessor</u> | |
|------------------------------------|--|---|--|
| | Period from February 10 to March 31, 2020 | Period from January 1, to February 9, 2020 | Three months ended March 31, 2019 |
| Finance lease expense | \$ 775 | \$ 425 | \$ 31 |
| Interest expense – lease liability | \$ 126 | \$ 95 | \$ 15 |

The Company's lease agreements do not state an implicit borrowing rate; therefore, an internal incremental borrowing rate was determined based on information available at the lease commencement date for the purposes of determining the present value of lease payments. The incremental borrowing rate reflects the cost to borrow on a securitized basis in each market. The weighted-average remaining lease term for finance leases was 39.3 years and 36.7 years and the weighted-average incremental borrowing rate was 3.1% and 7.9% as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), respectively. As of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), the weighted average remaining contractual payment term for finance leases was 3.1 years and 2.9 years, respectively.

Cell Site Leasehold Interests and Related Liabilities

For real property interests that are not accounted for under ASC 842, the Company applies the acquisition method of accounting, recording an intangible asset in cell site leasehold interests, net in the condensed consolidated balance sheet. The recorded amount of the cell site leasehold interest represents the allocation of purchase price to the contractual cash flows acquired from the in-place tenant, as well as the right and opportunity for renewals.

Under certain circumstances, the contractual payments for the acquired cell site leasehold interests are made to property owners on a noninterest-bearing basis over a specified period of time, generally ranging from one to eight years. The Company is contractually obligated to fulfill such payments. Included in cell site leasehold interest liabilities in the condensed consolidated balance sheets, the liabilities associated with cell site leasehold interests were initially measured at the present value of the unpaid payments.

For cell site leasehold interests accounted for under the acquisition method of accounting, amortization expense recorded in the condensed consolidated statements of operations was \$6,120 for the period from February 10 to March 31, 2020 (Successor), \$2,031 for the period January 1 through February 9, 2020 (Predecessor), and \$4,259 for the three months ended March 31, 2019 (Predecessor). As of March 31, 2020 (Successor), amortization expense to be recognized for each of the succeeding five years was as follows:

| | |
|-------------------|-------------------|
| Remainder of 2020 | \$ 28,993 |
| 2021 | 38,658 |

6. Goodwill and Intangible Assets

7. Other Long-Term Assets

The Company often closes and funds its cell site lease prepayment transactions through a third-party intermediary. These intermediaries are generally the Company's retained legal counsel in each jurisdiction. Funds for these transactions are typically deposited with the intermediary who releases the funds once all closing conditions are satisfied. In other circumstances, the Company deposits monies with the owners of the cell sites in advance of consummating a lease prepayment transaction, at which time all conditions are satisfied and remaining payments are made. Amounts held by others as deposits at March 31, 2020 (Successor) and December 31, 2019 (Predecessor) totaled \$2,864 and \$2,311, respectively, and were recorded as other long-term assets in the Company's condensed consolidated balance sheets.

Right-Of-Use Assets – Operating Leases

The Company is a lessee under noncancelable lease agreements, primarily for office space, over periods ranging from one to ten years. Included in accounts payable and accrued expenses and other long-term liabilities in the condensed consolidated balance sheets as of March 31, 2020 (Successor), the liabilities associated with these operating leases were initially measured at the present value of the unpaid payments and a corresponding right of use asset was recorded in the same amount, plus any indirect costs incurred and less any lease incentives received. Amounts included in other long-term assets in the condensed consolidated balance sheets representing operating lease right-of-use assets as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor) totaled \$4,601 and \$2,097, respectively. Included in selling, general and administrative expenses in the condensed consolidated statement of operations was operating lease expense associated with right-of-use assets under operating leases of \$292 for the period from February 10 to March 31, 2020 (Successor), \$107 for the period from January 1 to February 9, 2020 (Predecessor) and \$317 for the three months ended March 31, 2019 (Predecessor).

DWIP Loan Agreement

In 2014, a subsidiary of the Company, AP WIP Holdings, LLC (“DWIP”), borrowed \$115 million under a loan agreement (“DWIP Agreement”), pursuant to which DWIP is the sole borrower and the lending syndicate is a collection of lenders managed by a related party to the administrative agent (the “Lender”). AP Service Company, LLC (“Servicer”), a wholly owned subsidiary of AP WIP Investments Holdings, LP, is the Servicer under the DWIP Agreement. An unrelated party to DWIP was named as backup servicer in the event of a default of the Servicer as defined in the DWIP Agreement. The DWIP Agreement requires an annual rating be performed by a rating agency. In 2016, DWIP repaid \$12,400 of the loan balance.

On October 16, 2018, DWIP signed an amendment that extended the maturity from August 10, 2019, to October 16, 2023, at which time all outstanding principal balances shall be repaid. The amendment allows that principal balances may be prepaid in whole on any date, provided that a prepayment premium equal to 3.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 24 months after October 16, 2018, to 2.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 36 months after October 16, 2018 but after 24 months after October 16, 2018, 1.0% of the prepayment loan

amount shall apply if the payment occurs on or prior to 60 months after October 16, 2018 but after 36 months after October 16, 2018, and 0% of the prepayment loan amount shall apply if the payment occurs after 60 months after October 16, 2018. Additionally, the amendment also adjusted the interest rate from 4.50% to 4.25%.

Interest and fees due under the DWIP Agreement are payable monthly through the application of funds secured in a bank account controlled by the collateral agent (the collection account). The collateral agent sweeps customer collections from DWIP's lockbox account each month. After receipt of a monthly report prepared by the Servicer detailing loan activity, borrowing compliance, customer collections, and general reserve account required balances, the collateral agent disburses funds monthly for interest, fees, deposits to the reserve account (if required), mandatory prepayments (if required), and remaining amounts from the prior months collections to DWIP.

As of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), \$100,000 has been advanced to DWIP under the DWIP agreement and DWIP's escrow account balance and the related liability associated with this balance was \$2,600 as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), the balance of which is included in the carrying amounts of restricted cash and long-term debt in the condensed consolidated balance sheets. The remaining portion of DWIP's restricted cash as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor) included the collection account balance of \$952 and \$1,140, respectively.

DWIP is subject to restrictive covenants relating to, among others, future indebtedness and transfer of control of DWIP, and DWIP must also meet a financial ratio relating to interest coverage (as defined in the DWIP Agreement). For the periods presented, DWIP was in compliance with all covenants associated with the DWIP Agreement.

Facility Agreement (up to £1 billion)

In October 2017, a subsidiary of the Company, AP WIP International Holdings, LLC ("IWIP"), entered into a facility agreement for up to £1.0 billion with AP WIP Investments, LLC, as guarantor, Telecom Credit Infrastructure Designated Activity Company ("TCI DAC"), as original lender, Goldman Sachs Lending Partners LLC, as agent, and GLAS Trust Corporation Limited, as security agent.

TCI DAC is an Irish Section 110 Designated Activity Company. The Facility Agreement is an uncommitted, £1.0 billion note issuance program with an initial 10-year term and was created as a special purpose vehicle with the objective of issuing notes from time to time. The notes may be issued in US Dollars, British Sterling, Euros, Australian Dollar, and Canadian Dollar. No rating of the loans is required.

Under the terms of the Facility Agreement, IWIP is the sole borrower and the finance parties include a lender, an agent and certain other financial institutions. AP WIP Investments, which controls IWIP, is a guarantor of the loan and the loan is secured by the direct equity interests in IWIP. The loan is also secured by a debt service reserve account and escrow cash account of IWIP as well as direct equity interests and bank accounts of certain of IWIP's asset owning subsidiaries. The balance in the escrow account was \$1,796 and \$3,242 as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), respectively; the balance in the debt service reserve account was \$5,174 and \$5,167 as of March 31, 2020 (Successor) and December 31, 2019 (Predecessor), respectively, and are included in the condensed consolidated balance sheets as restricted cash. The Servicer, an affiliate of the Company, is the Servicer under the Facility Agreement. The loan is senior in right of payment to all other debt of IWIP.

The Facility Agreement provides for funding up to £1 billion (uncommitted) in the form of 10-year term loans consisting of tranches in Euros ("Series 1-A Tranche") and tranches in British Sterling ("Series 1-B

Tranche”), with additional tranches available in Canadian, Australian and U.S. dollars. In October 2017, \$266,200 of the amount available under the Facility Agreement was funded, comprising individual loans of €115,000 and £100,000. At closing of the Facility Agreement, \$5,000 was funded to and is required to be held in an escrow account.

During November 2018, an additional \$98,400 of the amount available under the Facility Agreement was funded, consisting of loans of €40,000 (“Series 2-A Tranche”) and £40,000 (“Series 2-B Tranche”).

The Series 1-A Tranche and Series 1-B Tranche accrue interest at an annual rate of 4.098% and 4.608%, respectively. The Series 2-A Tranche and Series 2-B Tranche accrue interest at an annual rate of 3.442% and 4.294%, respectively. Each tranche may include sub-tranches which may have a different interest rate than the other loans under the initial tranche. All tranches will have otherwise identical terms. For any floating interest rate portion of any tranche (or sub tranche), the interest rate is as reported and delivered to IWIP five days prior to a quarter end date. Coupons do not reflect certain related administration or servicing costs from third parties.

The loans mature on October 30, 2027, at which time all outstanding principal balances shall be repaid. Principal balances under the Facility Agreement may be prepaid in whole on any date, subject to the payment of any make-whole provision (as defined in the Facility Agreement).

IWIP is subject to certain financial condition and testing covenants (such as interest coverage, leverage and equity requirements and limits) as well as restrictive covenants relating to, among others, future indebtedness and liens and other material activities of IWIP and its subsidiaries. For the periods presented, IWIP was in compliance with all covenants associated with the Facility Agreement.

DWIP II Loan Agreement

In 2015, AP WIP Domestic Investment II, LLC (“DWIP II”), a wholly owned subsidiary of AP WIP Investments, entered into a Secured Loan and Security Agreement (the “DWIP II Loan Agreement”) whereby DWIP II borrowed an original principal amount of \$40,000 (with an issue price of \$39,950) (the “DWIP II Loan”).

The loan had a maturity date of December 11, 2017. In April 2017, AP WIP Investments signed an amendment that extended the maturity date to September 25, 2018 and permitted DWIP II to borrow an additional \$15,000.

On September 20, 2018, AP WIP Investments amended and restated the loan agreement (the “A&R DWIP II Loan Agreement”). Under the A&R DWIP II Loan Agreement, the A&R DWIP II Loan accrues interest at a fixed rate equal to 6.50%. The maturity date has been reset to the earlier of (a) June 30, 2020 and (b) the maturity date of the loans under the DWIP Agreement. The A&R DWIP II Loan continues to be senior in right of payment to all other debt of DWIP II and continues to be secured by a first priority security interest in (a) cash received by DWIP II as a result of its indirect ownership in DWIP and (b) all books and records in respect of such cash receipts.

Interest due under the A&R DWIP II Loan Agreement continues to be payable monthly through the payment by the paying agent under the DWIP Agreement of any remaining monthly amounts under the DWIP Agreement.

Under the A&R DWIP II Loan Agreement, beginning with the first payment date after March 31, 2019, DWIP II must pay \$250 per calendar quarter in principal, plus any principal necessary to lower the aggregate principal amounts outstanding under the sum of the loans outstanding under the DWIP Agreement and the A&R DWIP II Loan Agreement to no more than twelve times the eligible free cash flow as reported on the most recent Servicer report delivered pursuant to the DWIP Agreement.

DWIP II is subject to restrictive covenants relating to, among others, future indebtedness and liens on the equity interests of DWIP II. For the periods presented, DWIP II was in compliance with all covenants associated with the A&R DWIP II Loan Agreement.

On April 21, 2020, APW OpCo acquired all of the rights to the loans and obligations under the DWIP II Loan Agreement from the lenders thereunder for \$47,961, including accrued interest. In connection with the consummation of this acquisition by APW OpCo, the DWIP II Loan Agreement remained in effect and any amounts outstanding thereunder have been treated as intercompany loans between DWIP II and APW OpCo.

Subscription Agreement (up to £250,000)

On November 6, 2019, AP WIP Investments Borrower, LLC, a subsidiary of AP WIP Investments (“AP WIP Investments Borrower”) and a Delaware limited liability company, which was created on September 25, 2019, entered into a Subscription Agreement to borrow funds for working capital and other corporate purposes. Under the terms of the Subscription Agreement, AP WIP Investments Borrower is the sole borrower and AP WIP is the guarantor of the loan and the loan is secured by AP WIP Investments Holdings, LP direct equity interests in AP WIP. The loan is senior in right of payment to all other debt of AP WIP Investments Borrower. There is no cross default or cross acceleration to senior secured debt other than if there is an acceleration under the senior debt in relation to certain events as per documentation such as the breach by the Guarantor in certain cases. The subscription agreement provides for funding up to £250,000 in the form of nine-year term loans consisting of three tranches available in Euros, British Sterling and U.S. dollars. On November 8, 2019, \$75,480 of the amount available under the Subscription Agreement was funded. This amount was comprised of €68,000 in the form of Class A Tranche. At closing of the Subscription Agreement, \$3,000 was funded to and is required to be held in a debt service reserve account.

The initial Euro Class A Tranche balance outstanding under the Facility Agreement accrues interest at a fixed annual rate equal to 4.25%, which is payable quarterly on the 20th day following the end of each calendar quarter. The loans mature on November 6, 2028, at which time all outstanding principal balances shall be repaid. The loans also carry a 2.00% payment-in-kind interest (PIK), payable on repayment of principal. Principal balances under the Facility Agreement may be prepaid in whole on any date, subject to the payment of any applicable prepayment fee. Each Tranche may include sub-tranches, which may have a different interest rate than other Promissory Certificates under its related Tranche.

AP WIP Investments Borrower is subject to certain financial condition and testing covenants (such as interest coverage and leverage limits) as well as restrictive and operating covenants relating to, among others, future indebtedness and liens and other material activities of AP WIP Investments Borrower and its affiliates. AP WIP Investments Borrower was in compliance with all covenants associated with the Subscription Agreement for the period that borrowings were outstanding during the three months ended March 31, 2020.

Debt Discount and Financing Costs

Amortization of debt discount and deferred financing costs, included in interest expense, net on the condensed consolidated statements of operations, was \$10 for the period February 10 through March 31, 2020 (Successor), \$281 for the period January 1 through February 9, 2020 (Predecessor), and \$558 for the three months ended March 31, 2019 (Predecessor).

10. Income Taxes

The Company's deferred tax asset as of March 31, 2020 (Successor) primarily represented net deductible temporary differences between carrying amounts and tax bases of assets and liabilities, net of valuation allowances. In assessing the realizability of deferred tax assets, the Company considers whether it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences representing net future deductible amounts become deductible. After consideration of all the evidence, both positive and negative, the Company has recorded a valuation allowance against its net deferred tax assets as of March 31, 2020 and December 31, 2019 of \$11,503 and \$18,977, respectively. The Company has determined that it is more likely than not that these assets will not be fully realized due to historical net operating losses incurred. The increase in the valuation allowance since December 31, 2019 was due primarily to the generation of net operating loss carryforwards during the periods from January 1, 2020 to February 9, 2020 (Predecessor) and from February 10, 2020 to March 31, 2020 (Successor).

For the period from February 10 to March 31, 2020 (Successor) and from January 1 to February 9, 2020 (Predecessor), income tax expense was \$987 and \$767, respectively. Income tax expense for the three months ended March 31, 2019 (Predecessor) was \$475. For the period February 10 through March 31, 2020 (Successor), the effective tax rate was (1.3)%, compared with 11.05% for the period January 1 through February 9, 2020 (Predecessor), and (7.3)% for the three months ended March 31, 2019 (Predecessor). The negative effective tax rate in each respective period is primarily due to a limitation on the recognition of tax benefits due to the full valuation allowance.

11. Variable Interest Entity

Prior to October 16, 2019, AP WIP Investments determined that it had one VIE, AP Wireless Infrastructure Partners, LLC ("AP Infrastructure"), for which AP WIP Investments was the primary beneficiary. AP Infrastructure is headquartered in San Diego, California and was formed in 2010 in order to provide employees and other administrative services. All of AP Infrastructure's revenue since inception has been attributed to services performed for AP WIP Investments.

On October 16, 2019, Associated Partners, contributed 100% of the limited liability company interests in Service Company, the parent of AP Wireless Infrastructure, to AP WIP Investments Holdings. The Contribution Agreement led management to reconsider Service Company's VIE status. Management determined AP WIP Investments to be the primary beneficiary of Service Company because AP WIP Investments determined that, through AP WIP Investments Holdings, LP, it had the power to direct all of the activities of Service Company.

As AP WIP Investments was the primary beneficiary of the VIE, AP WIP Investments recorded \$6,856 of assets and \$1,865 in liabilities in the condensed consolidated balance sheet at December 31, 2019 (Predecessor). The assets recognized primarily consisted of cash of \$5,891 and fixed assets, net of \$457 at December 31, 2019 (Predecessor). As of December 31, 2019 (Predecessor), the liabilities recognized consisted primarily of bonuses payable of \$925. All intercompany revenue, payables, and receivables between AP WIP Investments and Service Company were eliminated upon consolidation.

In conjunction with the acquisition of APW OpCo, the Company (Successor) does not have a variable interest in the entities noted above. The assets, liabilities, income and expense of the entities noted above are included the Company's condensed consolidated financial statements (Successor) for the periods subsequent to the Transaction.

12. Shareholders' Equity

Founder Preferred Shares

The Founder Preferred Shares consist of Series A Founder Preferred Shares and Series B Founder Preferred Shares.

Series A Founder Preferred Shares

In connection with Landscape raising approximately \$500,000 before expenses through its initial placement of Ordinary Shares and Warrants in November 2017, the Company issued a total of 1,600,000 Series A Founder Preferred Shares, no par value to certain founders of Landscape. Each holder of Series A Founder Preferred Shares is entitled to a number of votes equal to the number of Ordinary Shares into which each Series A Founder Preferred Share could then be converted, on all matters on which stock holders are generally entitled to vote. There is no restriction on the repurchase or redemption by the Company of the Series A Founder Preferred Shares.

In addition to providing long-term capital, the Series A Founder Preferred Shares were issued to have the effect of incentivizing the holders to achieve the Company's objectives. As described below, they are structured to provide a return based on the future appreciation of the market value of the Ordinary Shares.

Upon the closing of the Transaction and once the average price per Ordinary Share for any ten consecutive trading days is at least \$11.50, a holder of Series A Founder Preferred Shares will be entitled to receive, when, as and if declared by the Board, and payable in preference and priority to the declaration or payment of any dividends on the Ordinary Shares or any other junior stock, a cumulative annual dividend. Such dividend will be payable in Ordinary Shares or cash, in the sole discretion of the Board. In the first year in which such dividend becomes payable, such dividend will be equal in value to (i) 20% of the increase in the market value of one Ordinary Share, being the difference between \$10.00 and the average price, multiplied by (ii) such number of outstanding Ordinary Shares immediately following the Transaction and giving effect to exercises of then outstanding warrants to purchase Ordinary Shares ("Preferred Share Dividend Equivalent"). Thereafter, the dividend will become payable only if the average price during any subsequent year is greater than the highest average price in any preceding year in which a dividend was paid in respect of the Series A Founder Preferred Shares. Such dividend will be equal in value to 20% of the increase in the average price over the highest average price in any preceding year multiplied by the Preferred Share Dividend Equivalent. In addition, the Series A Founder Preferred Shares will also participate in any dividends on the Ordinary Shares on an as-converted to Ordinary Shares basis. In addition, commencing on and after the closing of the Transaction, where the Company pays a dividend on its Ordinary Shares, the Series A Founder Preferred Shares will also receive an amount equal to 20% of the dividend which would be distributable on such number of Ordinary Shares equal to the Preferred Share Dividend Equivalent. All such dividends on the Series A Founder Preferred Shares will be paid contemporaneously with the dividends on the Ordinary Shares.

On the last day of the seventh full financial year of the Company after the closing of the Transaction, the Series A Founder Preferred Shares will automatically convert into Ordinary Shares on a one-for-one basis. Prior to the automatic conversion, a holder of Series A Founder Preferred Shares may require some or all of such holder's Series A Founder Preferred Shares to be converted into an equal number of Ordinary Shares, as adjusted. Also, in connection with the Transaction, the Series A Founder Preferred shareholders entered into the Shareholder Agreement, pursuant to which they agreed, among other things, not to make or solicit any transfer of their Series A Founder Preferred Shares prior to December 31, 2027, subject to certain exceptions.

(in thousands, except share and per share amounts and unless otherwise disclosed)

In accordance with ASC 718, the annual dividend amount, based on the market price of the Company's ordinary shares, resulted in the dividend feature to be deemed compensatory to the Landscape founders receiving the shares and classified as a market condition award settled in shares. As the right to the annual dividend amount was triggered only upon an acquisition event, which was not considered probable until an acquisition had been consummated, the fair value of the annual dividend amount measured on the date of issuance of the Founder Preferred Shares was then recognized upon the consummation of the Transaction. The fair value of the Series A Founder Preferred Shares, \$85.5 million, was measured as of its issuance date using a Monte Carlo method which took into consideration different stock price paths. Of the \$85.5 million fair value of the Series A Founder Preferred Shares, approximately \$69.5 million was attributed to the fair value of the annual dividend amount, which represented the excess of the fair value of the Series A Founder Preferred Shares over the price paid by the founders for these shares and was recorded as share-based compensation expense in the accompanying condensed consolidated statement of operations in the Successor period.

The following assumptions were used when calculating the issuance date fair value:

| | |
|---|-----------|
| Number of securities issued | 1,600,000 |
| Ordinary Share price upon initial public offering | \$10.00 |
| Founder Preferred Share price | \$10.00 |
| Probability of winding-up | 16.7% |
| Probability of an acquisition | 83.3% |
| Time to an acquisition | 1.5 years |
| Volatility (post-acquisition) | 38.68% |
| Risk free interest rate | 2.26% |

Series B Founder Preferred Shares

In connection with the Transaction, the Company issued a total of 1,386,033 Series B Founder Preferred Shares, no par value, of the Company to certain executive officers and were issued in tandem with LTIP Units (see Note 13). Each holder of Series B Founder Preferred Shares is entitled to a number of votes equal to the number of Ordinary and Class B Shares, respectively, into which each Series B Founder Preferred Share could then be converted, on all matters on which stockholders are generally entitled to vote.

The Series B Founder Preferred Shares do not confer upon the holder thereof any right to dividends or distributions at any time, including upon the Company's liquidation.

On the last day of the seventh full financial year of the Company after the Closing Date, i.e. December 31, 2027 (or if any such date is not a trading day, the first trading day immediately following such date), the Series B Founder Preferred Shares will automatically convert into Class B Shares on a one-for-one basis, as adjusted. A holder of Series B Founder Preferred Shares may require some or all of his Series B Founder Preferred Shares to be converted into an equal number of Class B Shares, as adjusted.

Founder Preferred Shares – Voting

For so long as TOMS Acquisition II LLC and Imperial Landscape Sponsor LLC (the "Series A Founder Entities") and William Berkman (collectively with the Series A Founder Entities, the "Founder Entities"), their affiliates and their permitted transferees under the Shareholder Agreement in aggregate hold 20% or more of the issued and outstanding Series A Founder Preferred Shares and Series B Founder Preferred Shares (the "Founder Preferred Shares"), the holders of a majority in voting power of the outstanding

Founder Preferred Shares, voting or consenting together as a single class, will be entitled, at any meeting of the holders of the outstanding Founder Preferred Shares held for the election of directors or by consent in lieu of a meeting of the holders of the outstanding Founder Preferred Shares, to:

- elect four members of the Board of Directors (the “Founder Directors”);
- remove from office, with or without cause, any Founder Director; and
- fill any vacancy caused by the death, resignation, disqualification, removal or other cause of any Founder Director.

Pursuant to the Shareholder Agreement, two of the Founder Directors will be appointed by holders of the Series A Founder Preferred Shares and two of the Founder Directors will be appointed by holders of the Series B Founder Preferred Shares.

Ordinary Shares

As of March 31, 2020 (Successor), the Company had outstanding 58,425,000 Ordinary Shares, no par value comprised of (i) 48,425,000 Ordinary Shares issued in connection with Landscape’s initial placement of Ordinary Shares and Warrants and (ii) 10,000,000 Ordinary Shares issued pursuant to the Centerbridge Subscription Agreement. Each holder is entitled to one vote per share on all matters before the holders of Ordinary Shares. Holders of Ordinary Shares are entitled to ratably receive dividends and other distributions in cash, stock or property of the Company when, as and if declared thereon by the Board from time to time out of assets or funds of the Company legally available. In the event of any liquidation, dissolution or winding up (either voluntary or involuntary) of the Company, the holders of Class A Shares will be entitled to receive the assets and funds of the Company available for distribution to stockholders of the Company, subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares.

Class B Shares

As of March 31, 2020 (Successor), the Company had outstanding 11,414,030 Class B Shares, all of which were issued to (i) the Continuing OpCo Members on the Closing Date pursuant to the Transaction and (ii) certain officers of the Company pursuant to the Long-Term Incentive Plan. Each holder is entitled to one vote per share together as a single class with Ordinary Shares. Class B Shares will be deemed to be non-economic interests. The holders of Class B Shares will not be entitled to receive any dividends (including cash, stock or property) in respect of their Class B Shares. In the event of any liquidation, dissolution or winding up (either voluntary or involuntary) of the Company, the holders of Class B Shares will not be entitled to receive any assets or funds of the Company available for distribution to stockholders of the Company, subject to applicable law and the rights, if any, of the holders of any outstanding series of Preferred Shares. Class B Shares are not convertible or exchangeable for any other class of series of shares of the Company.

Warrants

In connection with Landscape’s initial placement of Ordinary Shares, the Company issued 50,025,000 warrants to the purchasers of both Ordinary Shares and Founder Preferred Shares (including the 25,000 warrants that were issued to non-founder directors of Landscape for their fees). Each warrant has a term of 3 years following the Transaction and entitles a warrant holder to purchase one-third of an ordinary share upon exercise. Warrants are exercisable in multiples of three for one ordinary share at a price of \$11.50 per whole Ordinary Share. The warrants are mandatorily redeemable by the Company at a price of \$0.01 should

the average market price of an Ordinary Share exceed \$18.00 for 10 consecutive trading days (subject to any prior adjustment in accordance with the terms of the warrant). The Company considers the mandatory redemption provision of the warrant to be a cancellation of the instrument given the nominal value to be paid out upon redemption.

Noncontrolling Interest

Noncontrolling interests consist of limited liability company units of APW OpCo not owned by DLGI and includes the following units issued by APW OpCo and further described below: Class B Common Units, Series A Rollover Profits Units and Series B Rollover Profits Units. As of March 31, 2020, the portion of APW OpCo not owned by DLGI was 8.2%, representing the noncontrolling interest.

Class B Common Units

As of March 31, 2020 (Successor), 5,389,030 Class B Common Units were outstanding. The Class B Common Units are held in tandem with Class B Shares. Beginning 180 days after the Closing Date, a member of APW OpCo may redeem the Class B Common Units for cash or Ordinary Shares, at the option of the Company, subject to certain terms and conditions, including the surrender (for no consideration) by the redeeming holder of the Class B Shares held in tandem with the Class B Common Units being redeemed.

Series A Rollover Profits Units

As of March 31, 2020 (Successor), 5,389,030 Series A Rollover Profits Units were outstanding. The Series A Rollover Profits Units serve to provide anti-dilution protection to Class B Common Units from dividends issued to holders of Series A Founder Preferred Shares. Concurrently with any dividend to holders of Series A Founder Preferred Share, APW OpCo is required to distribute to holders of Series A Rollover Profits Units corresponding distributions, which shall be made in either cash or Class B Common Units to the same extent as the distribution was made to the holders of the Series A Founder Preferred Shares. The Series A Rollover Profits Units are forfeited, subject to certain exceptions and limitations, upon the earlier of (i) the date of the conversion of all of the Series A Founder Preferred Shares into Ordinary Shares, and (ii) the date on which there are no Series A Founder Preferred Shares or Series A Founder Preferred Shares outstanding.

Series B Rollover Profits Units

As of March 31, 2020 (Successor), 625,000 Series B Rollover Profits Units were outstanding. Series B Rollover Profits Units become equitized when the such holders' capital accounts maintained for federal income tax purposes exceed a predetermined threshold. Once equitized, a Series B Rollover Profits Unit is treated for all purposes as one Class B Common Unit.

13. Share-Based Compensation

The Digital Landscape 2020 Equity Incentive Plan (the "Equity Plan") is administered by the Compensation Committee of the Board of Directors ("the Compensation Committee"). Awards granted under the Equity Plan as noted herein are subject to ASC 718. Under the Equity Plan, the Compensation Committee is authorized to grant stock options, stock appreciation rights, restricted stock, stock units, other equity-based awards and cash incentive awards. Awards may be subject to a combination of time and performance-based vesting conditions, as may be determined by the Compensation Committee. Except for certain limited situations, all awards granted under the Equity Plan are subject to a minimum vesting period of one year.

(in thousands, except share and per share amounts and unless otherwise disclosed)

Subject to adjustment, the maximum number of shares of company stock (either Ordinary Shares, Class B Shares, or Series B Founder Preferred Shares) that may be issued or paid under or with respect to all awards granted under the Equity Plan is 13,500,000, in the aggregate. Generally, awards will deliver Ordinary Shares, Class B Shares or Series B Founder Preferred Shares. Each Class B Share available under the Equity Plan may only be granted in tandem with Series A LTIP Units in APW OpCo or upon conversion of the Series B Founder Preferred Shares, and each Series B Founder Preferred Share available under the Equity Plan may only be granted in tandem with Series B LTIP Units in APW OpCo. As of March 31, 2020, there were approximately 6,577,753 share-based awards collectively available for grant under the Equity Plan.

The Equity Plan will remain in effect for ten years following February 10, 2020, unless terminated earlier by the Board, and is subject to amendments as the Compensation Committee considers appropriate, subject to the consent of participants if such changes adversely affect the participant's outstanding rights. Shareholder approval is required to increase the permitted dilution limits and change eligibility requirements.

Long-Term Incentive Plan

The Company granted each executive officer of the Company an initial award (each, an "Initial Award") of LTIP Units and, in tandem with the LTIP Units an equal number of Class B Common Shares and/or Series B Founder Preferred Shares (collectively, the "Tandem Shares"), subject to the terms and conditions of the Equity Plan.

The Initial Awards consisted of (i) 3,376,076 time-vesting Series A LTIP Units that either vest over a three-year or five-year service period following the grant date ("Time-Vesting Series A LTIP Units"), (ii) 2,023,924 performance-based Series A LTIP Units that are subject to both time and performance vesting conditions, the latter condition based on the attainment of certain ordinary share price hurdles over seven years, and (iii) 1,386,033 Series B LTIP Units that contain only a performance-based vesting condition based on the attainment of certain ordinary share price hurdles over nine years. The Tandem Shares are subject to the same vesting and forfeiture condition as the related LTIP Units.

A summary of the Company's LTIP Units as of March 31, 2020, and changes during the period ended February 10, 2020 to March 31, 2020 (Successor) is presented below:

| | <u>Shares</u> | <u>Weighted-Average Grant-Date Fair Value</u> |
|--------------------------------|------------------|---|
| Nonvested at February 10, 2020 | — | \$ — |
| Series A LTIP Units: | | |
| Granted | 5,400,000 | 8.32 |
| Series B LTIP Units: | | |
| Granted | 1,386,033 | 6.17 |
| Nonvested at March 31, 2020 | <u>6,786,033</u> | <u>\$ 7.88</u> |

The fair value of each LTIP award was measured as of its grant date using a Monte Carlo method which took into consideration different stock price paths and used the following assumptions:

| | <u>Series A LTIP Units</u> | <u>Series B LTIP Units</u> |
|-------------------------|----------------------------|----------------------------|
| Expected term | 7.9 years | 9.9 years |
| Expected volatility | 18.4% | 19.7% |

(in thousands, except share and per share amounts and unless otherwise disclosed)

The Company recognized \$1,464 in share-based compensation expense during the period from February 10, 2020 to March 31, 2020 (Successor) for LTIP Units. As of March 31, 2020, there was \$52,026 of total unrecognized compensation cost related to LTIP Units granted, which is expected to be recognized over a weighted-average period of 4.2 years.

Restricted Stock

The Equity Plan permits the Compensation Committee to grant restricted stock awards to eligible recipients as detailed in the Equity Plan. Restricted stock awards are subject to the conditions in the Equity Plan as well as an individual award agreement further detailing the conditions of each award.

Restricted stock awards granted under the Equity Plan are non-transferable until vesting of each award is complete. Each restricted stock award granted under the Equity Plan grants the recipient one Class A Share at no cost to the recipient, subject to the terms and conditions of the Equity Plan and associated award agreement.

A summary of the status of the Company's restricted stock awards as of March 31, 2020, and changes during the period from February 10, 2020 to March 31, 2020 (Successor) is presented below:

| | Shares | Weighted-Average Grant-Date Fair Value |
|--------------------------------|----------------|--|
| Nonvested at February 10, 2020 | — | \$ — |
| Granted | 136,002 | 10.00 |
| Vested | — | — |
| Forfeited | — | — |
| Nonvested at March 31, 2020 | <u>136,002</u> | <u>\$ 10.00</u> |

Restricted stock awards granted in the period from February 10, 2020 to March 31, 2020 vest in full upon completion of one year of requisite service by the recipient beginning on the grant date. The Company recognized \$49 in share-based compensation expense during the period from February 10, 2020 to March 31, 2020 (Successor) for restricted stock awards. As of March 31, 2020, there was \$1,314 of total unrecognized compensation cost related to Restricted Stock Awards granted as of March 31, 2020. The total cost is expected to be recognized over a weighted-average period of 0.98 years.

Stock Options

On November 15, 2017, Landscape issued its non-founder directors 125,000 stock options ("Stock Options") to purchase Ordinary Shares of the Company that vested upon the consummation of the Transaction. The Stock Options shall expire on the 5th anniversary following the Transaction and have an exercise price of \$11.50 per share. The fair value of each stock option was estimated at \$2.90 on the grant date using the Black-Scholes option pricing model, which used the following assumptions: expected term – 5 years; expected volatility – 34.8%; and risk-free interest rate – 2.1%. As vesting was contingent upon the consummation of an acquisition transaction, the fair value of the awards, totaling \$363, was recognized in share-based compensation expense in the Successor's condensed consolidated statement of operations and as an increase of additional paid-in capital upon consummation of the Transaction.

The following table summarizes the changes in the number of Ordinary Shares underlying options for the period of February 10, 2020 to March 31, 2020 (Successor):

| | <u>Shares</u> | <u>Weighted- Average Exercise Price</u> | <u>Weighted- Average Intrinsic Value</u> |
|----------------------------------|---------------|---|--|
| Outstanding at February 10, 2020 | 125,000 | \$ 11.50 | \$ — |

| Exercisable at March 31, 2020 | 125,000 | \$ 11.50 | \$ — |

14. Basic and Diluted Loss per Ordinary Share

Net income (loss) is allocated between the Ordinary Shares and other participating securities based on their participation rights. The Series A Founder Preferred Shares represent participating securities. Net loss attributable to Ordinary Shares is not adjusted for the Series A Founder Preferred Shares' right to earnings, because these shares are not contractually obligated to share in losses of the Company. Additionally, the Company excluded the Company's outstanding warrants, stock options, restricted shares, and Series A Founder Preferred Shares because the securities' effect would be anti-dilutive.

The following table sets forth the computation of basic and diluted net loss per ordinary share using the two-class method:

| | <u>Successor Period from February 10, 2020 to March 31, 2020</u> |
|--|--|
| Numerator: | |
| Net loss attributable to Digital Landscape Group, Inc. ordinary shareholders | \$ (78,310) |
| Adjustment for vested participating preferred stock | — |
| Net loss attributable to ordinary shares | \$ (78,310) |
| Denominator: | |
| Weighted average shares outstanding - basic and diluted | 58,425,000 |
| Basic and diluted loss per ordinary share | \$ (1.34) |

The following potentially dilutive securities have been excluded from the computation of diluted weighted average shares outstanding as they would be anti-dilutive:

| | <u>Successor Period from February 10, 2020 to March 31, 2020</u> |
|-----------------------------------|--|
| Series A Founder Preferred Shares | 1,600,000 |

15. Commitments and Contingencies

The Company periodically becomes involved in various claims, lawsuits and proceedings that are incidental to its business. In the opinion of management, after consultation with counsel, the ultimate disposition of these matters, both asserted and unasserted, will not have a material adverse impact on the Company's condensed consolidated financial position, results of operations or liquidity.

16. Management Incentive Plan

AP WIP Investments maintained two incentive plans (collectively, the "Management Carve-Out Plan") for the benefit of certain employees of AP WIP Investments prior to the Transaction and under which non-equity awards were made.

Generally, vesting of awards under the Management Carve-Out Plan was contingent upon a liquidity event. As of the date of the Transaction, no awards vested and subsequent to the Transaction date, the Company ceased all activity under the Management Carve-Out Plan. As of July 10, 2020, all awards under the Management Carve-Out Plan have been canceled.

In conjunction with the Management Carve-Out Plan, loans totaling \$6,134 were made to certain plan participants during 2018 and 2019. No loans were issued during the period from January 1, 2020 to February 9, 2020. It remains the obligation of the employees to repay the loans, with interest, in accordance with the loan agreements. In the period of issuance, the full amount of each loan was expensed in the consolidated statement of operations because the loans were nonrecourse.

17. Note Receivable

In January 2020, AP Working Capital, LLC, a subsidiary of AP WIP Investments, entered into a Secured Promissory Note and Security Agreement (the "Promissory Note Agreement") with an unaffiliated company. Under the terms of the Promissory Note Agreement, AP Working Capital agreed to lend to the borrower up to \$20,000 in three installments. The first two installments totaling \$17,500 were advanced by AP Working Capital, LLC during the period from January 1, 2020 to February 9, 2020 (Predecessor) and the final installment of \$2,500 was advanced during the period from February 10, 2020 to March 31, 2020 (Successor). In March 2020, AP Working Capital, LLC assigned all of its rights and obligations as lender under the Promissory Note Agreement to APW OpCo, in exchange for the principal and interest amounts then due under the Promissory Note Agreement. On April 14, 2020, the borrower repaid the outstanding balance including accrued interest under the Promissory Note Agreement.

18. Subsequent Events

COVID-19 Pandemic

The recent outbreak of COVID-19 (commonly referred to as coronavirus) which first occurred in Wuhan City, China and has subsequently spread to many countries throughout the world, including each of the jurisdictions in which the Company operates, has had a negative impact on economic conditions globally and there are concerns for a prolonged deterioration of global financial conditions. The COVID-19 outbreak has resulted in a more widespread public health crisis than that observed during the SARS epidemic of 2002-2003, which has resulted in protracted volatility in international markets and a decline in global economic conditions, including as a consequence of disruptions to travel and retail segments, tourism and manufacturing supply chains. Beginning in March 2020, the Company took measures to mitigate the broader public health risks associated with COVID-19 to its business and employees, including through

DIGITAL LANDSCAPE GROUP, INC. AND SUBSIDIARIES

office closures and self-isolation of employees where possible in line with the recommendations of relevant health authorities; however, the full extent of the COVID-19 outbreak and the adverse impact this may have on the Company's workforce and operations is unknown. In addition, as a result of the COVID-19 outbreak, there have been and may continue to be short-term impacts on the Company's ability to acquire new rental streams. For example, leasing transactions in certain civil law jurisdictions such as France, Italy and Portugal often require the notarization of legal documents in person as part of the closing procedure. Government-imposed restrictions on the opening of offices and/or self-isolation measures have had, and may continue to have an adverse impact on the availability of notaries or other legal service providers or the availability of witnesses to legal documents in common law jurisdictions such as the UK and Ireland and, consequently, the Company's ability to complete transactions may be adversely impacted during the COVID-19 outbreak. Accordingly, there can be no assurances that there will not be a material adverse effect on the Company's results of operations and financial condition.

AP WIP INVESTMENTS, LLC AND SUBSIDIARIES

Notes to Consolidated Financial Statements
December 31, 2019 and 2018
(Dollar amounts in thousands, unless otherwise disclosed)

1. Organization

AP WIP Investments, LLC (together with its subsidiaries, “AP WIP Investments” and/or the “Company”) was established for the purpose of building a portfolio of high-quality telecommunications infrastructure assets. AP WIP Investments’ focus is on lease prepayments, where AP WIP Investments purchases the right to receive future cell site income over a specified duration from wireless communication tower operators and providers of wireless communications and broadcast services, such as wireless services and wireless data transmission.

AP WIP Investments is headquartered in San Diego, California and was owned by Associated Partners, L.P. (“Associated Partners”) and KKR Wireless Investors, L.P. (“KKR”) until the closing of the Landscape Transaction on February 10, 2020 (see Note 16 – Subsequent Events). AP WIP Investments has subsidiaries and operations internationally, including Luxembourg, the Netherlands, the United Kingdom, Australia, Canada, Germany, France, Italy, Spain, Portugal, Mexico, Brazil, Ireland, Turkey, Chile, Romania, Hungary, Colombia, Belgium and Puerto Rico.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements include the accounts of AP WIP Investments and its wholly owned subsidiaries, as well as a variable interest entity (“VIE”).

The consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). All intercompany transactions and account balances have been eliminated.

Variable Interest Entities

The Financial Accounting Standards Board (“FASB”) provides guidance for determining whether an entity is a VIE. VIEs are defined as entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support. A VIE is required to be consolidated by its primary beneficiary, which is the party that (i) has the power to control the activities that most significantly impact the VIE’s economic performance and (ii) has the obligation to absorb losses, or the right to receive benefits, of the VIE that could potentially be significant to the VIE.

Management performs a qualitative analysis to determine whether it is the primary beneficiary of a VIE. Management considers the rights and obligations conveyed by its implicit and explicit variable interests and the relationship of these with the variable interests held by other parties to determine whether its variable interests will absorb a majority of a VIE’s expected losses or receive a majority of its expected returns, or both. If management determines that its variable interests will absorb a majority of the VIE’s expected losses, receive a majority of its expected residual returns, or both, management consolidates the VIE as the primary beneficiary, and if not, management does not consolidate.

Use of Estimates

The preparation of the consolidated financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the

AP WIP INVESTMENTS, LLC AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Dollar amounts in thousands, unless otherwise disclosed)

reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Functional Currency

The functional currency of each of AP WIP Investments' foreign operating subsidiaries is normally the respective local currency. All foreign currency assets and liabilities held by the subsidiaries are translated into U.S. Dollars, the functional currency of AP WIP Investments, at the exchange rate in effect at the end of the applicable fiscal reporting period and all foreign currency revenues and expenses are translated at the average monthly exchange rates. Translation adjustments are reflected in equity as a component of accumulated other comprehensive loss in the consolidated balance sheets and included as a component of comprehensive loss in the consolidated statements of comprehensive loss. AP WIP Investments has a loan that is not denominated in its functional currency; the foreign exchange gain or loss on this loan is recorded in the consolidated statements of operations.

Cash

Cash includes cash on hand and demand deposits. AP WIP Investments maintains its deposits at high quality financial institutions and monitors the credit ratings of those institutions. AP WIP Investments held no cash equivalents during the years ended December 31, 2019 and 2018.

Restricted Cash

AP WIP Investments is required to maintain cash collateral at certain financial institutions. Additionally, amounts that are required to be held in an escrow account, which, subject to certain conditions, are available to AP WIP Investments under the loan agreements. Accordingly, these balances contain restrictions as to their availability and usage and are classified as restricted cash in the consolidated balance sheets.

The reconciliation of cash and restricted cash reported within the applicable balance sheet that sum to the total of the same such amounts shown in the consolidated statements of cash flows is as follows:

| | December 31, | |
|--------------------------------|---------------------|------------------|
| | 2019 | 2018 |
| Cash | \$62,892 | \$ 13,746 |
| Restricted cash | 1,140 | 1,076 |
| Restricted cash, long term | 14,014 | 86,592 |
| Total cash and restricted cash | <u>\$78,046</u> | <u>\$101,414</u> |

Fair Value Measurements

AP WIP Investments applies Accounting Standards Codification ("ASC") 820, *Fair Value Measurement* ("ASC 820"), which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in AP WIP Investments' principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and

AP WIP INVESTMENTS, LLC AND SUBSIDIARIES

Notes to Consolidated Financial Statements
December 31, 2019 and 2018
(Dollar amounts in thousands, unless otherwise disclosed)

minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The carrying amounts reflected in the consolidated balance sheets for cash, trade receivables, prepaid expenses and other current assets, accounts payable and accrued expenses and rent received in advance approximate fair value due to their short-term nature. As of December 31, 2019 and 2018, the carrying amounts of AP WIP Investments' debt approximated its fair value, as the obligation bears interest at rates currently available for debt with similar maturities and collateral requirements.

Level 1 – Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 – Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

Trade Receivables, Net

Trade receivables are recorded at the invoiced amount and are generally unsecured as they are uncollateralized. AP WIP Investments provides an allowance for doubtful accounts to reduce receivables to their estimated net realizable value. Judgement is exercised in establishing allowances and estimates are based on the tenants' payment history and liquidity. Any amounts that were previously recognized as revenue and subsequently determined to be uncollectible are charged to bad debt expense included in selling, general and administrative expense in the accompanying consolidated statements of operations. The allowance for doubtful accounts was \$491 and \$0 at December 31, 2019 and 2018, respectively.

Changes in the allowance for doubtful accounts are as follows:

| | December 31, | |
|---------------------------------|---------------------|-------------|
| | 2019 | 2018 |
| Beginning balance | \$ — | \$— |
| Allowance for doubtful accounts | 761 | — |
| Write-offs | (270) | — |
| Ending balance | <u>\$ 491</u> | <u>\$—</u> |

Real Property Interests

AP WIP Investments' core business is to contract for the purchase of cell site leasehold interests either through an up-front payment or on an installment basis from property owners who have leased their property to companies that own telecommunications infrastructure assets. Real property interests include costs recorded under cell site leasehold interest arrangements either as intangible assets or right-of-use assets, depending on whether or not the arrangement is determined to be a lease at the inception of the

(Dollar amounts in thousands, unless otherwise disclosed)

agreement. For acquisitions of real property interests that meet the definition of an asset acquisition, the cell site leasehold interests are recorded as intangible assets and are stated at cost less accumulated amortization. Amortization is computed using the straight-line method over the estimated useful lives of these real property interests, which is estimated as the lesser of the useful life of the underlying cell site asset or the term of the arrangement.

Accounting Standards Update No. 2016-02, Leases (“ASU 2016-02” and or “ASC 842”) requires AP WIP Investments to recognize assets and liabilities arising from a lease for both financing and operating leases, along with qualitative and quantitative disclosures. This classification determines whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record right-of-use asset and a lease liability in the balance sheet for all leases with a term of greater than twelve months regardless of their classification.

On January 1, 2019, AP WIP Investments adopted the new lease standard using the modified retrospective method applied to lease arrangements that were in place on the transition date. Results for reporting periods beginning January 1, 2019 are presented under the new standard, while prior-period amounts are not adjusted and continue to be reported in accordance with accounting under the previously applicable guidance.

AP WIP Investments elected certain available practical expedients which permit the adopter to not reassess certain items upon adoption, including: (i) whether any existing contracts are or contain leases, (ii) the classification of existing leases, (iii) initial direct costs for existing leases and (iv) short-term leases, which permits an adopter to not apply the lease standard to leases with a remaining maturity of one year or less and applied the new lease accounting standard to all leases, including short-term leases. AP WIP Investments also elected the practical expedient related to easements, which permits carryforward accounting treatment for land easements (included in cell site leasehold interests) on existing agreements.

Commencing with the adoption of ASC 842, AP WIP Investments determines if an arrangement, including cell site leasehold interest arrangements, is a lease at the inception of the agreement. AP WIP Investments considers an arrangement to be a lease if it conveys the right to control the use of the asset for a specific period of time in exchange for consideration.

AP WIP Investments’ lease liability is the present value of the remaining minimum rental payments to be made over the remaining lease term, including renewal options reasonably certain to be exercised. AP WIP Investments also considers termination options and factors those into the determination of lease payments when appropriate. To determine the lease term, AP WIP Investments considers all renewal periods that are reasonably certain to be exercised, taking into consideration all economic factors, including the cell site’s estimated economic life. Leases with an initial term of twelve months or less are not recorded in the consolidated balance sheet. The finance lease right-of-use asset is amortized over the lesser of the lease term or the estimated useful life of the underlying asset associated with the leasing arrangement, which is estimated to be twenty-five years.

The Company continually reassesses the estimated useful lives used in determining amortization of its real property interests. AP WIP Investments reviewed its estimates of the useful lives of its existing cell site leasehold interest arrangements as of January 1, 2019. Assessments of the remaining useful lives of the underlying cell site assets associated with leasehold interest arrangements indicated that the estimated useful lives used in the determination of amortization expense of cell site leasehold interests accounted for as asset acquisitions should be increased based upon the Company’s experience as well as observable industry data. Accordingly, as of January 1, 2019, AP WIP Investments adjusted the remaining useful life of the existing

AP WIP INVESTMENTS, LLC AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Dollar amounts in thousands, unless otherwise disclosed)

cell site leasehold interests based on a twenty five-year useful life of the underlying cell site asset, which previously was considered to be a fifteen-year useful life. This change in estimate was accounted for prospectively effective January 1, 2019, and resulted in a decrease in amortization and depreciation expense, operating loss and net loss of \$13,259 for the year ended December 31, 2019 from that which would have been reported if the previous estimates of useful life had been used.

Operating Leases

Additionally, as part of the adoption of ASC 842, AP WIP Investments recorded a lease liability of \$1,521 and a corresponding right-of-use asset of \$1,437 upon adoption of the new lease standard. Those rights and obligations are primarily related to operating leases for office space. The Company records lease expense for operating leases on a straight-line basis over the lease term.

Long-Lived Assets, Including Definite-Lived Intangible Assets

The Company's primary long-lived assets include real property interests and intangible assets. Intangible assets recorded for in-place tenant leases are stated at cost less accumulated amortization and are amortized on a straight-line basis over the remaining cell site lease term with the in-place tenant, including ordinary renewals at the option of the tenant. The carrying amount of any long-lived asset group is evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows derived from such assets. If the carrying amount of the long-lived asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying amount exceeds its fair value. AP WIP Investments reviewed the portfolio of cell site leasehold interests and intangible assets for impairment, in which AP WIP Investments identified twenty-seven cell sites for which an impairment charge of \$2,570 was recorded during the year ended December 31, 2019 and four cell sites for which an impairment charge of \$271 was recorded during the year ended December 31, 2018.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Maintenance and repairs are charged to expense when incurred. Additions and improvements that extend the economic useful life of the asset are capitalized and depreciated over the remaining useful lives of the assets. The cost and accumulated depreciation of assets sold or retired are removed from the respective accounts, and any resulting gain or loss is reflected in current earnings. Depreciation is provided using the straight-line method in amounts considered to be sufficient to amortize the cost of the assets to operations over their estimated useful lives or lease terms, as follows:

| <u>Asset category</u> | <u>Depreciable life</u> |
|------------------------|-------------------------|
| Land | Indefinite |
| Hardware | 3 years |
| Software | 3 years |
| Furniture and fixtures | 2 years |
| Tenant improvements | 1 – 3 years |

Revenue Recognition

AP WIP Investments receives rental payments from in-place tenants of wireless communication sites under operating lease agreements. Revenue is recorded as earned over the term of the lease since the operating lease arrangements are cancellable by both parties.

AP WIP INVESTMENTS, LLC AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2019 and 2018

(Dollar amounts in thousands, unless otherwise disclosed)

Rent received in advance is recorded when AP WIP Investments receives advance rental payments from the in-place tenants. Contractually owed lease prepayments are typically paid one month to one year in advance. At December 31, 2019 and 2018, AP WIP Investments rent received in advance was \$13,856 and \$11,290 respectively.

Income Taxes

AP WIP Investments is organized as a limited liability company and is treated as a disregarded entity for U.S. federal income tax purposes. Income and losses of AP WIP Investments are required to be reported in the income tax returns of the members pursuant to applicable tax regulations. No U.S. federal or state income tax provision has been provided for AP WIP Investments in the consolidated financial statements as AP WIP Investments' tax attributes are passed through to the members for inclusion in the members' tax returns.

AP WIP Investments files income tax returns in the various state and foreign jurisdictions in which it operates. AP WIP Investments' tax returns are subject to tax examinations by foreign tax authorities until the expiration of the respective statutes of limitation. AP WIP Investments currently has no tax years under examination.

AP WIP Investments recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. AP WIP Investments records interest related to unrecognized tax benefits and penalties as a component of income tax expense on the accompanying consolidated statements of operations.

Segment Reporting

AP WIP Investments operates in one reportable segment which focuses on leasing cell sites to companies that own and operate cellular communication towers and other infrastructure. AP WIP Investments' business offerings have similar economic and other characteristics, including the types of customers, distribution methods and regulatory environment. The chief operating decision maker of AP WIP Investments reviews investment specific data to make resource allocation decisions and assesses performance by review of profit and loss information on a consolidated basis. The consolidated financial statements reflect the financial results of AP WIP Investments' one reportable segment.

Reclassifications

Certain balances in the prior year have been reclassified to conform to the presentation in the current year, primarily related to the Company's adoption of ASC 842.

Recent Accounting Pronouncements

Accounting Pronouncement Not Yet Adopted

In June 2016, the FASB issued guidance that modifies how entities measure credit losses on most financial instruments. The new guidance replaces the current "incurred loss" model with an "expected credit loss" model that requires consideration of a broader range of information to estimate expected credit losses over the lifetime of the asset. The new guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019, and will be applied using a modified retrospective approach through a cumulative-effect adjustment to retained earnings as of the effective date. AP WIP

Investments is finalizing its analysis of the impact of this guidance on its consolidated financial statements, though as operating lease receivables are not within the scope of this guidance, the Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

Accounting Pronouncements Recently Adopted

In 2014, the FASB issued a new revenue recognition standard entitled Revenue from Contracts with Customers. The objective of the standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows from a contract with a customer. AP WIP Investments adopted Accounting Standards Update No. 2014-09 during the year ended December 31, 2018 and concluded that the adoption did not have a material impact on its consolidated financial statements as current revenue contracts are leases and not within the scope of the Revenue from Contracts with Customers (Topic 606).

In November 2016, the FASB issued new guidance on amounts described as restricted cash or restricted cash equivalents within the statement of cash flows. The guidance requires amounts generally described as restricted cash and restricted cash equivalents be included with cash when reconciling the beginning-of-period and end-of-period balances in the statement of cash flows. AP WIP Investments adopted ASU 2016-18 during the year ended December 31, 2018.

(1) Effective with the adoption of ASC 842, cell site leasehold interests are recorded as finance leases.

(2) Includes cell site leasehold interests acquired prior to the adoption of ASC 842 and fee simple interest arrangements.

AP WIP Investments' core business is to purchase cell site leasehold interests either through an up-front payment or on an installment basis from property owners who have leased their property to companies that own telecommunications infrastructure assets. The agreements that provide for the cell site leasehold interests typically are easement agreements, which have stated terms up to 99 years and provide AP WIP Investments with certain beneficial rights, but not obligations, with respect to the underlying cell site leases. The beneficial rights acquired include, principally, the right to receive the rental income related to the cell site lease with the in-place tenant, and in certain circumstances, additional rents. In most cases, the stated term of the cell site leasehold interest is longer than the remaining term of the cell site lease with the in-place tenant, which provides AP WIP Investments with the right and opportunity for renewals and extensions. Although AP WIP Investments has the rights under the acquired cell site leasehold interests over

the duration of the entire term, typically, the underlying tenant can terminate their lease acquired by AP WIP Investments within a short time frame (30- to 90-day notice) without penalty. Under certain circumstances, AP WIP Investments acquires the fee simple interest ownership, rather than acquiring a leasehold interest. In the instance in which a fee simple interest in the land is acquired, AP WIP Investments is also assigned the existing cell site lease with the in-place tenant.

Right-Of-Use Assets – Finance Leases and Related Liabilities

Commencing with the adoption of ASC 842 on January 1, 2019, AP WIP Investments determines if a cell site leasehold interest arrangement is a lease at the inception of the agreement. AP WIP Investments considers an arrangement to be a lease if it conveys the right to control the use of the cell site or ground space underneath a communications site for a period of time in exchange for consideration. In cases in which AP WIP Investments acquires a leasehold interest, AP WIP Investments is both a lessor and a lessee. AP WIP Investments recorded finance lease expense totaling \$1,235 for the year ended December 31, 2019. Interest expense associated with the finance lease liability totaled \$504 for the year ended December 31, 2019.

AP WIP Investments' lease agreements do not state an implicit borrowing rate; therefore, an internal incremental borrowing rate was determined based on information available at the lease commencement date for the purposes of determining the present value of lease payments. The incremental borrowing rate reflects the cost to borrow on a securitized basis in each market. The weighted-average remaining lease term for finance leases was 36.71 years and the weighted-average incremental borrowing rate was 7.90% as of December 31, 2019. As of December 31, 2019, the weighted average remaining contractual payment term for finance leases was 2.9 years.

Supplemental cash flow information related to finance leases for the year ended December 31, 2019 was as follows:

| | |
|---|----------|
| Cash paid for amounts included in the measurement of finance lease liabilities: | |
| Operating cash flows from finance leases | \$ 38 |
| Financing cash flows from finance leases | \$ 1,255 |
| Finance lease liabilities arising from obtaining right-of-use-assets | \$16,989 |

Cell Site Leasehold Interests and Related Liabilities

For real property interests that are not accounted for under ASC 842, AP WIP Investments applies the acquisition method of accounting, recording an intangible asset in cell site leasehold interests, net in the consolidated balance sheet. The recorded amount of the cell site leasehold interest represents the allocation of purchase price to the contractual cash flows acquired from the in-place tenant, as well as the right and opportunity for renewals.

Under certain circumstances, the contractual payments for the acquired cell site leasehold interests were made to property owners on a noninterest-bearing basis over a specified period of time, generally ranging from one to eight years. AP WIP Investments is contractually obligated to fulfill such payments. Included in cell site leasehold interest liabilities in the consolidated balance sheets, the liabilities associated with cell site leasehold interests were initially measured at the present value of the unpaid payments. For the year ended December 31, 2018, the Company's noncash investing and financing activities included purchases of cell site leasehold interests totaling \$13,940 pursuant to arrangements that finance these purchases.

For cell site leasehold interests accounted for under the acquisition method of accounting, amortization expense recorded in the consolidated statements of operations for the years ended December 31, 2019 and

7. Other Long-Term Assets

AP WIP Investments often closes and funds its cell site lease prepayment transactions through a third-party intermediary. These intermediaries are generally AP WIP Investments' retained legal counsel in each jurisdiction. Funds for these transactions are typically deposited with the intermediary who releases the funds once all closing conditions are satisfied. In other circumstances, the Company deposits monies with the owners of the cell sites in advance of consummating a lease prepayment transaction, at which time all conditions are satisfied and remaining payments are made. Amounts held by others as deposits at December 31, 2019 and 2018 totaled \$2,311 and \$433, respectively, and were recorded as other long-term assets in AP WIP Investments' consolidated balance sheets.

Right-of-Use Assets – Operating Leases

Additionally, AP WIP Investments is a lessee under noncancelable lease agreements, primarily for office space, over periods ranging from one to ten years. In the normal course of business, it is expected that these leases will be renewed or replaced by leases on other properties and equipment. Included in accounts payable and accrued expenses and other long-term liabilities in the consolidated balance sheets as of December 31, 2019, the liabilities associated with these operating leases were initially measured at the present value of the unpaid payments and a corresponding right-of-use asset was recorded in the same amount, plus any indirect costs incurred and less any lease incentives received. For the year ended December 31, 2019, the total lease liabilities recorded as a result of obtaining right-of-use assets under operating leases was \$1,326. Cash paid for amounts included in the measurement of operating lease liabilities was \$953 for the year ended December 31, 2019.

Included in selling, general and administrative expenses in the consolidated statement of operations for the year ended December 31, 2019 was operating lease expense associated with right-of-use assets under operating leases totaling \$1,183.

Maturities of operating lease liabilities as of December 31, 2019 were as follows:

| | |
|---|----------------|
| 2020 | \$ 868 |
| 2021 | 711 |
| 2022 | 363 |
| 2023 | 107 |

| Less amounts representing future interest | (97) |
| Total lease liability | 2,127 |
| Less current portion of lease liability | (824) |
| Non-current lease liability | <u>\$1,303</u> |

The weighted-average remaining lease term for operating leases was 3.01 years and the weighted-average incremental borrowing rate was 7.07% as of December 31, 2019.

\$115 million Loan Agreement

On August 12, 2014, a subsidiary of AP WIP Investments, AP WIP Holdings, LLC (“DWIP”), entered into a \$115 million loan agreement (“DWIP Agreement”). Under the terms of the DWIP Agreement, DWIP is the sole borrower and the lending syndicate is a collection of lenders managed by a related party to the administrative agent (the “Lender”). AP Service Company, LLC (“Servicer”), a wholly owned subsidiary of AP WIP Investments Holdings, LP, is the Servicer under the DWIP Agreement. An unrelated party to DWIP was named as backup servicer in the event of a default of the Servicer as defined in the DWIP Agreement. The DWIP Agreement requires an annual rating be performed by a rating agency.

The DWIP Agreement was fully funded on August 12, 2014. In January 2016, DWIP repaid \$12,400 of the loan balance. Prior to October 16, 2018, interest was payable on borrowings under the DWIP Agreement at a fixed rate equal to 4.50%. Fees equal to 0.80% to 1.00% of the \$102,600 loan amount are payable to the Lender, Servicer, backup servicer, and rating agency of the loan, as applicable.

On October 16, 2018, DWIP signed an amendment that extended the maturity from August 10, 2019, to October 16, 2023, at which time all outstanding principal balances shall be repaid. Incremental fees of \$795 were incurred in connection with the amendment. The amendment allows that principal balances may be

prepaid in whole on any date, provided that a prepayment premium equal to 3.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 24 months after October 16, 2018, to 2.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 36 months after October 16, 2018 but after 24 months after October 16, 2018, 1.0% of the prepayment loan amount shall apply if the payment occurs on or prior to 60 months after October 16, 2018 but after 36 months after October 16, 2018, and 0% of the prepayment loan amount shall apply if the payment occurs after 60 months after October 16, 2018. Additionally, the amendment also adjusted the interest rate from 4.50% to 4.25%. DWIP's interest and fees due under the DWIP Agreement totaled \$5,280 and \$5,504 for DWIP for the years ended December 31, 2019 and 2018, respectively, and were recorded in interest expense in the consolidated statements of operations. Amortization of deferred financing costs for the DWIP Agreement, included in interest expense, net in the consolidated statements of operations, were \$210 and \$431 for the years ended December 31, 2019 and 2018 respectively.

Interest and fees due under the DWIP Agreement are payable monthly through the application of funds secured in a bank account controlled by the collateral agent (the collection account). The collateral agent sweeps customer collections from DWIP's lockbox account each month. After receipt of a monthly report prepared by the Servicer detailing loan activity, borrowing compliance, customer collections, and general reserve account required balances, the collateral agent disburses funds monthly for interest, fees, deposits to the reserve account (if required), mandatory prepayments (if required), and remaining amounts from the prior months collections to DWIP.

As of December 31, 2019 and 2018, \$100,000 has been advanced to DWIP under the DWIP agreement and DWIP's escrow account balance and the related liability associated with this balance was \$2,600, the balance of which was included in the carrying amounts of restricted cash and long-term debt in the consolidated balance sheets. The remaining portion of DWIP's restricted cash as of December 31, 2019 and 2018 included the collection account balance of \$1,140 and \$1,075, respectively.

DWIP is subject to restrictive covenants relating to, among others, future indebtedness and transfer of control of DWIP, and DWIP must also meet a financial ratio relating to interest coverage (as defined in the DWIP Agreement). For the periods presented, DWIP was in compliance with all covenants associated with the DWIP Agreement.

For any floating interest rate portion of any tranche (or sub tranche), the interest rate is as reported and delivered to IWIP five days prior to a quarter end date. Interest expense under the Facility Agreement is payable quarterly and totaled \$18,471 and \$15,036, including fees, for the years ended December 31, 2019 and 2018, respectively.

The loans mature on October 30, 2027, at which time all outstanding principal balances shall be repaid. Principal balances under the Facility Agreement may be prepaid in whole on any date, subject to the payment of any make-whole provision (as defined in the Facility Agreement).

IWIP is subject to certain financial condition and testing covenants (such as interest coverage, leverage and equity requirements and limits) as well as restrictive covenants relating to, among others, future indebtedness and liens and other material activities of IWIP and its subsidiaries. For the periods presented, IWIP was in compliance with all covenants associated with the Facility Agreement.

IWIP incurred \$14,342 in fees to third parties under the Facility Agreement. The loan had a maturity date of December 11, 2017. Under the amendment, the principal payments were reduced to \$250 per calendar quarter. DWIP II is also required to prepay all outstanding amounts under the DWIP II Loan Agreement either (a) upon the repayment in full, termination or refinancing of the loans under the DWIP Agreement or (b) if DWIP II sells any of its assets or refinances the DWIP II Loan, any proceeds of such sale or refinancing received by DWIP II that exceed \$10,000 must be used to repay any outstanding amounts under the DWIP II Loan Agreement. Interest due under the A&R DWIP II Loan Agreement continues to be payable monthly through the payment by the paying agent under the DWIP Agreement of any remaining monthly amounts under the DWIP Agreement.

| Valuation allowance | (18,977) | (18,279) |
| Net deferred income tax asset | <u>\$ 991</u> | <u>\$ 421</u> |

As of December 31, 2019, AP WIP Investments has foreign tax loss carryforwards of \$53,058, which will expire in 2021 and thereafter. A full valuation allowance has been established with respect to the tax benefit of these losses, except for \$6,780 which will be utilized prior to expiration.

In assessing the realizability of deferred tax assets, AP WIP Investments considers whether it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences representing net future deductible amounts become deductible. After consideration of all the evidence, both positive and negative, AP WIP Investments has recorded a valuation allowance against its net deferred tax assets as of December 31, 2019 and 2018 of \$18,977 and \$18,279, respectively. AP WIP Investments has determined that it is more likely than not that these assets will not be fully realized due to historical net operating losses incurred. The valuation allowance increased by \$698 during the year ended December 31, 2019 due primarily to the generation of net operating loss carryforwards during the year.

As of December 31, 2019, AP WIP Investments intends to indefinitely reinvest all cumulative undistributed earnings of foreign subsidiaries, and as such no U.S. income or foreign withholding taxes have been recorded. It is not practicable to determine the amount of the unrecognized deferred tax liability related to any undistributed foreign earnings.

A reconciliation of the activity related to unrecognized income tax benefits follows:

| | December 31, | |
|---|----------------|----------------|
| | 2019 | 2018 |
| Balance at beginning of year | \$3,560 | \$2,089 |
| Increases related to current-year tax positions | 319 | 1,471 |
| Balance at end of year | <u>\$3,879</u> | <u>\$3,560</u> |

AP WIP Investments has unrecognized income tax benefits of \$3,879 and \$3,560 as of December 31, 2019 and 2018, respectively, all of which would impact the effective rate, if recognized. Unrecognized income tax benefits are included in the consolidated balance sheets as a component of other long-term liabilities as AP WIP Investments does not anticipate the unrecognized income tax benefits will be reduced in the next 12 months. AP WIP Investments recognizes interest and penalties accrued on any unrecognized income tax benefits as a component of income tax expense.

11. Variable Interest Entity

Prior to October 16, 2019, the Company determined that it had one VIE, AP Wireless Infrastructure Partners, LLC (“AP Infrastructure”), for which the Company was the primary beneficiary. AP Infrastructure is headquartered in San Diego, California and was formed in 2010 in order to provide employees and other administrative services for AP WIP Holdings and AP WIP International Holdings, LLC. All of AP Infrastructure’s revenue since inception has been attributed to services performed for the Company and IWIP.

On October 16, 2019, Associated Partners, contributed 100% of the limited liability company interests in Servicer, the parent of AP Infrastructure, to AP WIP Investments Holdings, LP (the parent of AP WIP Investments). The Contribution Agreement, between entities under common control, triggered a reevaluation Servicer’s VIE status. Management determined AP WIP Investments to be the primary beneficiary of Servicer through an analysis of qualitative and quantitative factors, including, but not limited to, volume of transactions processed, amount of resources dedicated to asset originations for AP WIP Investments and the rationale for the initial entity formation.

As a result of Servicer and AP Infrastructure, being a VIE and management concluding that AP WIP Holdings is the primary beneficiary, the Company has recorded \$6,856 of assets and \$1,865 in liabilities at December 31, 2019 and \$1,072 of assets and \$1,128 in liabilities at December 31, 2018 in the consolidated balance sheets. Servicer has only been consolidated by the Company from October 16, 2019 through December 31, 2019. The assets recognized primarily consisted of cash of \$5,891 and prepaid expenses of \$457 at December 31, 2019 and cash of \$307 and fixed assets, net of \$290 at December 31, 2018. As of December 31, 2019 and 2018, the liabilities recognized consisted primarily of bonuses payable of \$925 and \$561, respectively. All intercompany revenue, payables, and receivables between the Company, AP Infrastructure and Servicer were eliminated upon consolidation.

12. Equity

AP WIP Investments has authorized and issued Class A Units (held solely by KKR) and Common Units (held solely by Associated). Associated and KKR own 83.32% and 16.68% of AP WIP Investments, respectively.

The holders of the Class A Units are entitled to certain preferential treatment related to distributions in the ordinary course or those resulting from a change of control in or liquidation of AP WIP Investments. In the event of an ordinary course distribution, the holders of Class A Units will be entitled to receive from assets available for distribution to members of AP WIP Investments, before any payment or distribution to holders of any Common Units, an amount in cash (and, to the extent sufficient cash is not available for such payment, property at its fair market value) equal to an 8% annually compounded return in respect of such Class A Units. Thereafter, the holders of Common Units will be entitled to receive an 8% annually compounded return in respect of such Common Units. The holders of Class A Units will then be entitled to receive their capital contributions (and any additional fees due as provided in the LLC Agreement) prior to the holders of Common Units receiving their capital contributions and any additional fees due as provided in the LLC Agreement. In the event of a distribution resulting from a change of control or in a liquidation distribution of AP WIP Investments, the holders of Class A Units will be entitled to receive from assets available for distribution to members of AP WIP Investments, before any payment or distribution to holders of any Common Units, an amount in cash (and, to the extent sufficient cash is not available for such payment, property at its fair market value) equal to an 8% annually compounded return in respect of such Class A Units, plus such holder’s capital contributions (and any additional fees due as provided in the LLC Agreement).

Notes to Consolidated Financial Statements
December 31, 2019 and 2018
(Dollar amounts in thousands, unless otherwise disclosed)

For each Class A Unit or Common Unit held, the holder of such unit is entitled to one vote. Generally, for any matter in which a vote of AP WIP Investments' members is required, a vote must involve a majority of holders of Class A Units and Common Units, voting together as a single class, in order to approve such action.

Under the terms of the LLC Agreement, the holders of the Class A Units have the option to elect to convert their Class A Units to Common Units at their discretion. Upon election to convert to Common Units, the Class A Units would relinquish any accumulated preferred return and all rights granted to the holders of Class A Units as described above. In the event that the holders of the Class A Units would elect conversion to Common Units, AP WIP Investments would account for the conversion in the period in which it occurs.

As of December 31, 2019, the redemption value of the Class A Units was \$60,665, which includes face value of \$34,864 and cumulative return of \$25,801. As of December 31, 2018, the redemption value of the Class A Units was \$55,506, which includes face value of \$34,864 and cumulative return of \$20,642. As of the period presented, the authorized and outstanding units for AP WIP Investments are as follows:

| | <u>Authorized</u> | <u>Outstanding</u> |
|---------------|-------------------|--------------------|
| Class A Units | 4,003,603 | 4,003,603 |
| Common Units | 20,000,000 | 20,000,000 |

13. Geographic Data and Concentration

AP WIP Investments operates in a single reportable segment which focuses on leasing space to companies that own and operate cellular communication towers and other infrastructure. The following tables summarize AP WIP Investments' revenues and total assets in different geographic locations (geographic summary is based on the billing addresses of the related in-place tenant):

Revenue

| | <u>Year ended December 31,</u> | |
|-------------------------|--------------------------------|------------------|
| | <u>2019</u> | <u>2018</u> |
| United States | \$ 15,820 | \$ 15,202 |
| United Kingdom | 15,267 | 12,414 |
| Other foreign countries | 24,619 | 18,790 |
| | <u>\$ 55,706</u> | <u>\$ 46,406</u> |

Total assets

| Other foreign countries | 251,142 | 183,905 |
| | <u>\$532,809</u> | <u>\$472,360</u> |

Although AP WIP Investments monitors the creditworthiness of its customers, a substantial portion of revenue is derived from a small number of customers. The loss, consolidation or financial instability of, or

network sharing among, any of the limited number of customers may materially decrease revenue. AP WIP Investments' revenue concentration was with the following in-place tenants:

| Company | Year ended December 31, | |
|------------------------------------|-------------------------|-------------|
| | 2019 | 2018 |
| American Tower | 13% | 12% |
| Other (less than 10% individually) | 87% | 88% |
| | <u>100%</u> | <u>100%</u> |

14. Commitments and Contingencies

In June 2014, the Company entered into a lease agreement for corporate office space. In March 2018, the Company extended the lease agreement by one year with an additional commitment of \$536. The lease expires on January 31, 2020.

On October 15, 2019, the AP WIP Holdings, through Service Company, entered into a sublease agreement by and between Aries Pharmaceuticals, Inc., as sublessor, and AP Wireless Infrastructure, as sublessee, for subleased premises located in San Diego, California, U.S.A (San Diego New Corporate Office Sublease Agreement). AP WIP Holdings will occupy this premises as new corporate office space to replace the expiring premise lease in San Diego, California, U.S.A. The San Diego New Corporate Office Sublease Agreement has a term of two years and four months at a cost of \$32 in rent per month and required a \$193 letter of credit as a security deposit.

AP WIP Investments periodically becomes involved in various claims, lawsuits and proceedings that are incidental to its business. In the opinion of management, after consultation with counsel, the ultimate disposition of these matters, both asserted and unasserted, will not have a material adverse impact on AP WIP Investments' consolidated financial position, results of operations or liquidity.

15. Management Incentive Plan and Related Party Transactions

During the year ended December 31, 2018, a subsidiary of AP WIP Investments, DWIP, adopted the Management Carve-Out Plan (the "DWIP Plan") for employees of AP WIP Investments. Additionally, during the year ended December 31, 2018, a subsidiary of AP WIP Investments, IWIP, adopted the AP WIP International Holdings, LLC Management Carve-Out Plan (the "IWIP Plan") for employees of AP WIP Investments.

Awards under the DWIP Plan vest over a period of up to four years or upon a liquidity event whereby awardees would be eligible for a payment under the DWIP Plan. As defined in the DWIP Plan, if DWIP achieves an internal rate of return in excess of an agreed-upon percentage, a portion of the proceeds in excess of the internal rate of return would be allocable to the DWIP Plan.

During the years ended December 31, 2019 and 2018, a subsidiary of AP WIP Investments, DWIP, issued loans totaling \$893 and \$5,241, respectively, to certain employees of AP WIP Investments (related parties).

The loans of \$893 and \$5,241 were made in conjunction with the DWIP Plan. It is the obligation of the employees to repay the loans, with interest, in accordance with the loan agreements. Pursuant to the terms of each employee's loan agreement, the DWIP Plan proceeds attributable to an employee participant will be

used to repay the loans. The full amount of the new loans of \$893 and \$5,241, respectively, have been expensed in the consolidated statement of operations because they are nonrecourse loans.

During the year ended December 31, 2019, AP WIP Investments issued no units under the DWIP Plan. As of December 31, 2019, the DWIP Plan has 145,000,000 authorized units, of which 121,580,001 were issued.

There were no employee loans issued pursuant to the IWIP Plan for the periods ended December 31, 2019 and 2018, respectively.

During the year ended December 31, 2019, AP WIP Investments issued no units under the IWIP Plan. As of December 31, 2019, the IWIP Plan has 145,000,000 authorized units, of which 116,775,001 were issued.

As payment to employees is contingent upon a change of control, no compensation expense has been recognized in connection with the DWIP and/or IWIP Plan other than the expense associated with the nonrecourse loans.

16. Subsequent Events

Landscape Transaction

On November 19, 2019, Landscape Acquisition Holdings Limited entered into a definitive agreement to acquire AP WIP Investments Holdings, LP, and the parent company of AP WIP Investments, for consideration of approximately \$859,500 consisting of cash, shares and assumption of debt (the "Landscape Transaction"). The Landscape Transaction closed on February 10, 2020. Landscape Acquisition Holdings Limited now has been renamed as Digital Landscape Group, Inc. ("Digital Landscape"). In connection with the Landscape Transaction, the minority interest in AP WIP Investments, LLC, held by KKR Investors, LP, was redeemed in its entirety.

As a result of the entrance of the agreement, trading of Digital Landscape's ordinary shares and warrants on the London Stock Exchange was suspended on November 20, 2019. The Landscape Transaction was treated as a reverse takeover, and in connection with the closing of the Landscape Transaction, Digital Landscape was granted readmission that was effective on April 1, 2020. Pursuant to readmission, 58,425,000 ordinary shares of no par value and 50,025,000 warrants were added to the Official List and to trading on the London Stock Exchange's main market for listed securities. As soon as practicable, Digital Landscape expects to pursue a change in its jurisdiction of incorporation to Delaware, U.S. and that, in conjunction with such change, it will file a registration statement with the Securities and Exchange Commission and a listing application with a U.S.-based stock exchange that is subject to regulatory approval.

TowerCom B, LLC Working Capital Bridge

On January 2, 2020, AP Working Capital, LLC, entered into a Secured Promissory Note and Security Agreement (the "Promissory Note Agreement") with TowerCom B, LLC, a Delaware limited liability company, as the borrower ("TowerCom B"), and TowerCom, LLC, a Florida limited liability company and owner of 100% of the equity interests in TowerCom B, as the guarantor ("TowerCom"). Under the terms of the Promissory Note Agreement, AP Working Capital agreed to lend to TowerCom B up to \$20,000 in three installments. The first two installments totaling \$17,500 were advanced by AP Working Capital, LLC in January 2020. On March 18, 2020, AP Working Capital, LLC assigned all of its rights and obligations as lender under the Promissory Note Agreement to APW OpCo LLC, a newly formed subsidiary of Digital Landscape as part of the Landscape Transaction, in exchange for the principal and interest amounts then due under the Promissory Note Agreement.

DWIP II Loan Agreement

On April 21, 2020, APW OpCo acquired all of the rights to the loans and obligations under the DWIP II Loan Agreement from the lenders thereunder for \$47,961, including accrued interest. Upon consummation of the acquisition by APW OpCo, the DWIP II Loan Agreement shall remain in effect and any amounts outstanding thereunder will be treated as intercompany loans between DWIP II and APW OpCo.

COVID-19 Pandemic

The recent outbreak of COVID-19 (commonly referred to as coronavirus) which first occurred in Wuhan City, China and has subsequently spread to many countries throughout the world, including the UK, the USA, mainland Europe and the Asia-Pacific region, has begun to negatively impact economic conditions globally and there are concerns for a prolonged tightening of global financial conditions. The COVID-19 outbreak could result in a more widespread public health crisis than that observed during the SARS epidemic of 2002-2003, which may in turn result in protracted volatility in international markets and/or result in a global recession as a consequence of disruptions to travel and retail segments, tourism, and manufacturing supply chains. In particular, in March 2020 the COVID-19 outbreak caused stock markets worldwide to lose significant value and impacted economic activity worldwide. Although the Company is taking measures to mitigate the broader public health risks associated with COVID-19 to its business and employees, including through self-isolation of employees where possible in line with the recommendations of relevant health authorities, the full extent of the COVID-19 outbreak and the adverse impact this may have on the Company's workforce is unknown. In addition, as a result of the COVID-19 outbreak, there may be short-term impacts on the Company's ability to acquire new rental streams. For example, leasing transactions in certain civil law jurisdictions such as France, Italy and Portugal often require the notarization of legal documents in person as part of the closing procedure. Government-imposed restrictions on the opening of offices and/or self-isolation measures may have an adverse impact on the availability of notaries or other legal service providers or the availability of witnesses to legal documents in common law jurisdictions such as the UK and Ireland and, consequently, the Company's ability to complete transactions may be adversely impacted during the COVID-19 outbreak. Similarly, government-imposed travel restrictions may impair the ability of the Company's employees to conduct physical inspections of cell-site infrastructure which are part of the Company's normal transaction underwriting process. Given the fast moving nature of the outbreak and increasing government restrictions, there can be no assurances that there will not be a material adverse effect on the Company's results of operations and financial condition.

Note 1 – Organization

Landscape Acquisition Holdings Limited (the “Company” or “Landscape”) was incorporated with limited liability under the laws of the British Virgin Islands under the BVI Companies Act (as amended) on November 1, 2017. The Company was created by its founders (the Founders) for the purpose of acquiring a target company or business (the Acquisition). The Company’s ordinary shares and warrants were admitted for trading on the Main Market of the London Stock Exchange beginning on November 20, 2017, after raising gross proceeds of approximately \$500 million in an initial public offering (the IPO). The net amount recorded to additional paid-in capital in the statement of stockholders’ equity was approximately \$490.3 million as there were approximately \$9.7 million in fees withheld from the gross proceeds.

On February 10, 2020, the Company completed the acquisition of AP WIP Investment Holdings, LP, a Delaware limited partnership (“AP Wireless”), from Associated Partners, L.P. (“Associated Partners”). AP Wireless is the parent of AP WIP Investments, LLC, a Delaware limited liability company (“AP WIP Investments” and, together with its subsidiaries, the “APW Group”). APW Group is one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights. Effective February 10, 2020, the Company changed its name to Digital Landscape Group, Inc. (See Note 10).

Note 2 – Summary of Significant Accounting Policies

Basis of preparation

The accompanying financial statements are presented in U.S. dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less from the date of purchase to be cash equivalents. While cash held by financial institutions may at times exceed federally insured limits, the Company believes that no material credit or market risk exposure exists due to the high quality of the institutions. The Company has not experienced any losses on such accounts. Gains and losses on highly liquid investments classified as cash equivalents are reported in investment income in the statements of operations.

Marketable Securities

Marketable securities are classified as trading securities and stated at fair value as determined by the most recently traded price of each security at the balance sheet date. All gains and losses are reported in investment income in the statements of operations.

Fair Value Measurements

Fair value is determined using the principles of ASC 820, *Fair Value Measurement*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes and defines the inputs to valuation techniques as follows:

- Level 1 – Observable quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – Quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 – Unobservable inputs that reflect the Company’s own assumptions about the assumptions market participants would use in pricing the asset or liability in which there is little, if any, market activity for the asset or liability at the measurement date.

Marketable securities are recorded at fair value. The Company used the Level 1 fair value hierarchy assumptions to measure the marketable securities as of October 31, 2018. The Company had no marketable securities as of October 31, 2019. The Company’s cash and cash equivalents and accrued expenses are carried at cost, which approximates fair value due to the short-term nature of these instruments and are considered to be Level 1 within the fair value hierarchy.

The inputs used to measure the fair value of an asset or a liability are categorized within levels of the fair value hierarchy. The fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the measurement. There have not been any transfers between the levels of the hierarchy for the years ended October 31, 2019 and 2018.

Share-based compensation

The Company expenses share-based compensation over the requisite service period of the awards (usually the vesting period) based on the grant date fair value of awards. For stock option grants with performance-based milestones, the expense is recorded over the service period after the achievement of the milestone is probable or the performance condition is achieved. The Company estimates the fair value of stock option grants using the Black-Scholes option pricing model. An offsetting increase to stockholders’ equity is recognized equal to the amount of the compensation expense charge. The Company recognizes forfeitures as they occur as a reduction of expense. The Company did not have any forfeitures for the years ended October 31, 2019 and 2018.

Founder Preferred Shares

In connection with the IPO, the Company issued 1,600,000 preferred shares (the “Founder Preferred Shares”) at \$10 per share to TOMS Acquisition II LLC and Imperial Landscape Sponsor LLC (collectively, the “Founder Entities”), entities controlled by the Founders. The Founder Preferred Shares are not mandatorily redeemable and do not embody an unconditional obligation to settle in a variable number of equity shares. As such, the Founder Preferred Shares are classified as permanent equity in the balance sheet. The Founder Preferred Shares are not unconditionally redeemable or conditionally puttable by the Holder for cash. The Founder Preferred Shares are

LANDSCAPE ACQUISITION HOLDINGS LIMITED

Notes to Financial Statements

(in thousands, except share and per share amounts)

considered an equity-like host for purposes of assessing embedded derivative features for potential bifurcation. In accordance with ASC 815, *Derivatives and Hedging*, the conversion features and participating dividends of the Founder Preferred Shares are not bifurcated and are included in permanent equity as they are clearly and closely related to the host. The Founder Preferred Shares do not have a par value or stated value and thus the have been recorded in additional paid-in capital.

Warrants

The Company has warrants issued with its ordinary shares and Founder Preferred Shares that were determined to be equity classified in accordance with ASC 815, *Derivatives and Hedging*. The Company also issued warrants with shares issued to non-founder directors for compensation that were determined to be equity classified in accordance with ASC 718 – *Compensation – Stock Compensation*. The fair value of the warrants was recorded as additional paid-in capital on the issuance date, and no further adjustments were made.

Earnings per Share

Basic earnings (loss) per ordinary share excludes dilution and is computed by dividing net income (loss) attributable to ordinary shares by the weighted average number of ordinary shares outstanding during the period. The Company has determined that its Founder Preferred Shares are participating securities as the Founder Preferred Shares participate in undistributed earnings on an as-if-converted basis. Accordingly, the Company used the two-class method of computing earnings per share, for ordinary shares and Founder Preferred Shares according to participation rights in undistributed earnings. Under this method, net income applicable to holders of ordinary shares is allocated on a pro rata basis to the holders of ordinary shares and Founder Preferred Shares to the extent that each class may share income for the period; whereas undistributed net loss is allocated to ordinary shares because Founder Preferred Shares are not contractually obligated to share the loss.

Diluted earnings per ordinary share reflects the potential dilution that would occur if securities were exercised or converted into ordinary shares. To calculate the number of shares for diluted earnings per ordinary shares, the effect of the participating preferred shares is computed using the as-if-converted method. For all periods presented with a net loss, the effects of any incremental potential ordinary shares have been excluded from the calculation of loss per ordinary share because their effect would be anti-dilutive.

Income Taxes

As a British Virgin Islands limited liability company, the Company is not subject to any income or capital gains taxes in the British Virgin Islands. During the years ended October 31, 2019 and 2018, the Company was subject to U.S. withholding taxes on certain investments in U.S. Treasury Bills. The Company applies the guidance included in ASC 740, *Accounting for Income Taxes* (“ASC 740”), which provides for deferred taxes using an asset and liability approach and requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under ASC 740, recognition of deferred tax assets and liabilities is based on differences between financial reporting and tax bases of assets and liabilities, which are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. As of October 31, 2019 and 2018, the Company did not have any deferred taxes.

(in thousands, except share and per share amounts)

The Company accounts for uncertain tax positions in accordance with the provisions of ASC 740. When uncertain tax positions exist, the Company recognizes the tax benefit of tax positions to the extent that the benefit will more likely than not be realized. The determination as to whether the tax benefit will more likely than not be realized is based upon the technical merits of the tax position as well as consideration of the available facts and circumstances. As of October 31, 2019 and 2018, the Company did not have any significant uncertain tax positions.

Comprehensive Income (Loss)

Comprehensive income (loss) is the same as net income (loss) for all periods presented.

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors as it is the body that makes strategic decisions. The Company does not have any operations and accordingly the Company has one operating and reporting segment.

Foreign Currency

The Company's functional and reporting currency is the U.S. dollar. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the balance sheet date, while revenue and expenses are translated at the average exchange rates during the period. Foreign exchange gains and losses arising from translation are included in the statements of operations.

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those periods, with early application permitted as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that period. The Company adopted the standard on November 1, 2017. The Company does not have any revenue for the years ended October 31, 2019 and 2018. Accordingly, the adoption of this guidance did not have an impact on the Company's financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, *Compensation-Stock Compensation (Topic 718): Scope of Modification Accounting*, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The new standard was effective on January 1, 2018; however, early adoption is permitted. The Company adopted ASU No. 2017-09 as of November 1, 2017. The adoption of this update did not impact the Company's financial statements.

LANDSCAPE ACQUISITION HOLDINGS LIMITED**Notes to Financial Statements****As of October 31, 2019 and 2018****(in thousands, except share and per share amounts)**

In January 2017, the FASB issued an ASU 2017-01, *Business Combinations (Topic 805) Clarifying the Definition of a Business*. The amendments in this ASU clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. The Company adopted ASU 2017-01 on November 1, 2017. The adoption of this update did not impact the Company's financial statements.

In June 2018, the FASB issued ASU 2018-07, *Improvements to Nonemployee Share-Based Payment Accounting*, which simplifies the accounting for share-based payments granted to nonemployees for goods and services. Under the ASU, most of the guidance on such payments to nonemployees would be aligned with the requirements for share-based payments granted to employees. The changes take effect for public companies for fiscal years starting after December 15, 2018, including interim periods within that fiscal year. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, but no earlier than an entity's adoption date of Topic 606. The Company adopted ASU No. 2018-07 as of the period of inception. The adoption of this update did not have a material impact on the Company's financial statements.

Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820), – Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which makes a number of changes meant to add, modify or remove certain disclosure requirements associated with the movement amongst or hierarchy associated with Level 1, Level 2 and Level 3 fair value measurements. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted upon issuance of the update. The Company does not expect the adoption of this guidance to have a material impact on its financial statements.

In February 2016, the FASB issued ASU 2016-2, *Leases*. The new standard establishes a right-of-use ("ROU") model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company does not expect the adoption of this guidance to have a material impact on its financial statements.

Note 3 – Marketable Securities

The Company's investment in marketable securities consists of U.S. Treasury Bills. Investment income is recorded as realized investment income at the time the investment in U.S. Treasury Bills matures.

The change in the unrealized gains on these investments are included in the statements of operations as investment income. The Company had no unrealized gains and losses on marketable securities as of October 31,

2019. Unrealized gains on the U.S. Treasury Bills as of October 31, 2018 are summarized as follows (in thousands):

| | Cost | Gross Unrealized Gain | Gross Unrealized Loss | Net Unrealized Gain | Fair Value |
|------------------------|-----------|-----------------------------|-----------------------------|---------------------------|------------|
| As of October 31, 2018 | | | | | |
| U.S. Treasury Bills | \$489,147 | \$ 980 | \$ — | \$ 980 | \$490,127 |

As of October 31, 2018, all U.S. Treasury Bills were included in marketable securities at fair value in the accompanying balance sheets.

As of October 31, 2019, \$450.0 million of U.S. Treasury Bills were classified as cash and cash equivalents as their maturities were less than three months at the date of purchase. Gains and losses on U.S. Treasury Bills classified as cash equivalents are included in the statement of operations as investment income.

Note 4 – Stockholders’ Equity

In November 2017, the Company’s IPO raised gross proceeds of \$500.0 million, consisting of \$484.0 million through the placement of ordinary shares at \$10 per share, and \$16.0 million through the subscription of 1,600,000 preferred shares at \$10 per share by the Founder Entities. The net amount recorded to additional paid-in capital in the statement of stockholders’ equity was approximately \$490.3 million as there were approximately \$9.7 million in fees withheld from the gross proceeds. Each ordinary share and Founder Preferred Share were issued with a warrant as described below.

Founder Preferred Shares

After the closing of an Acquisition, and if the average stock price of the ordinary shares is at least \$11.50 per share for any ten consecutive Trading Days (as defined in the Prospectus), the holders of the Founder Preferred Shares will be entitled to receive a cumulative dividend in the form of ordinary shares or cash, at the option of the Company, equal to 20% of the appreciation of the market price of ordinary shares issued to ordinary shareholders in the initial offering. In the first year a dividend is payable (if any), the dividend amount will be calculated at the end of the calendar year based on the appreciated stock price (the “Dividend Price”, as defined below) compared to the initial offering price of \$10 per ordinary share. In subsequent years, the dividend amount will be calculated based on the appreciated stock price compared to the highest Dividend Price previously used in calculating the Preferred stock dividends. For the purposes of determining the Annual Dividend Amount, the Dividend Price is the average price per ordinary share for the last ten consecutive Trading Days in the relevant Dividend Year. Upon the liquidation of the Company, an Annual Dividend Amount shall be payable for the shortened Dividend Year. Subsequent to the liquidation, the holders of Founder Preferred Shares shall have the right to a pro rata share (together with holders of the ordinary shares) in the distribution of the surplus assets of the Company.

The Founder Preferred Shares will participate in any dividends on the ordinary shares on an as converted basis. In addition, commencing on and after consummation of the Acquisition, where the Company pays a dividend on its ordinary shares, the Founder Preferred Shares will also receive an amount equal to 20% of the dividend which

LANDSCAPE ACQUISITION HOLDINGS LIMITED

Notes to Financial Statements

As of October 31, 2019 and 2018

(in thousands, except share and per share amounts)

would be distributable on such number of ordinary shares. All such dividends on the Founder Preferred Shares will be paid at the same time as the dividends on the ordinary shares. Dividends are paid for the term the Founder Preferred Shares are outstanding.

The Founder Preferred Shares will be automatically converted into ordinary shares on a one for one basis upon the last day of the seventh full financial year following an Acquisition (the “Conversion”). Each Founder Preferred Share is convertible into one ordinary share at the option of the holder until the Conversion. If there is more than one holder of Founder Preferred Shares, a holder of Founder Preferred Shares may exercise its rights independently of any other holder of Founder Preferred Shares.

In accordance with ASC 718 – *Compensation – Stock Compensation*, the Annual Dividend Amount based on the market price of the Company’s ordinary shares resulted in the annual dividend feature to be classified as a market condition award settled in shares. As the right to the Annual Dividend Amount is only triggered upon an Acquisition (which is not considered probable until an Acquisition has been consummated), the fair value of the Annual Dividend Amount measured on the date of issuance of the Founder Preferred Shares would be recognized upon consummation of an Acquisition. The fair value of the Founder Preferred Shares, \$85.5 million, has been measured on issuance date using a Monte Carlo method which takes into consideration different stock price paths. Of the \$85.5 million fair value of the Founder Preferred Shares, approximately \$69.5 million is attributed to the fair value of the Annual Dividend Amount, which represents the excess of the fair value of the Founder Preferred Shares over the price paid by the Founders for the shares.

At the time of an Acquisition, the estimated fair value of the preferred dividends will be recorded as a one-time charge to the statement of operations. Following are the assumptions used in calculating the issuance date fair value:

| | |
|-------------------------------|-----------|
| Number of securities issued | 1,600,000 |
| Vesting period | Immediate |
| Ordinary share price upon IPO | \$10.00 |
| Founder Preferred Share price | \$10.00 |
| Probability of winding-up | 16.7% |
| Probability of Acquisition | 83.3% |
| Time to Acquisition | 1.5 years |
| Volatility (post-Acquisition) | 38.68% |
| Risk free interest rate | 2.26% |

The Founder Preferred Shares carry the same voting rights as are attached to the ordinary shares being one vote per Founder Preferred Share. Additionally, the Founder Preferred Shares alone carry the right to vote on any Resolution of Members required, pursuant to BVI law, to approve any matter in connection with an Acquisition, or a merger or consolidation in connection with an Acquisition. Initial Founder Preferred Shareholders, that hold 20% of the Founder Preferred Shares, can nominate up to three people as directors of the Company.

Ordinary shares

In connection with the IPO on November 20, 2017, the Company issued 48,400,000 ordinary shares (no par value). Each ordinary share was issued with a Warrant. The aggregate gross proceeds received in the IPO as

LANDSCAPE ACQUISITION HOLDINGS LIMITED

Notes to Financial Statements

(in thousands, except share and per share amounts)

consideration for the ordinary shares and warrants was \$484.0 million. In conjunction with the IPO, the Company also issued an aggregate of 25,000 ordinary shares to non-founder directors for \$10 per share in lieu of their cash directors' fees for one year. The ordinary shares have voting rights and winding-up rights.

Warrants

The Company issued 50,025,000 Warrants to the purchasers of both ordinary shares and Founder Preferred Shares (including the 25,000 Warrants that were issued to non-founder directors for their fees). Each Warrant has a term of 3 years following an Acquisition and entitles a Warrant holder to purchase one-third of an ordinary share upon exercise. Warrants will be exercisable in multiples of three for one ordinary share at a price of \$11.50 per whole ordinary share. The warrants are mandatorily redeemable by the Company at a price of \$0.01 should the average market price of an ordinary share exceed \$18.00 for 10 consecutive trading days (subject to any prior adjustment in accordance with the terms of the Warrants). The Company considers the mandatory redemption provision of the Warrant to be a cancellation of the instrument given the nominal value to be paid out upon redemption.

Note 5 – Commitments and Contingencies

The Company may become involved in lawsuits or claims. As of October 31, 2019 and 2018, there were no known or threatened lawsuits or unasserted claims.

Note 6 – Share-based Compensation

On November 15, 2017, the Company issued its non-founder directors 125,000 stock options (the "Stock Options") to purchase ordinary shares of the Company that vest upon an Acquisition. The non-founder directors are required to have continued service until the time of the Acquisition to vest in the Stock Options. The options expire on the 5th anniversary following an Acquisition and have an exercise price of \$11.50 per share (subject to such adjustment as the Directors consider appropriate in accordance with the terms of the Option). The Stock Options have a performance condition of vesting on an Acquisition (which is not considered probable until an Acquisition is consummated). Therefore, in accordance with ASC 718 – *Compensation – Stock Compensation*, the fair value of the awards, as determined on the grant date, will be recognized as an expense and an increase of additional paid-in capital upon consummation of an Acquisition.

The following table summarizes the stock option activity:

| | Number of Shares | Weighted Average Exercise Price | Aggregate Intrinsic Value |
|---|---------------------|--|---------------------------------|
| Options outstanding at inception | — | \$ — | \$ — |
| Granted | 125,000 | \$ 11.50 | \$ — |
| Options outstanding at October 31, 2018 | 125,000 | \$ 11.50 | \$ — |

The fair value of each stock option was estimated at \$2.90 on the grant date using the Black-Scholes option pricing model with the following assumptions for the grant:

| | |
|-----------------------------|---------|
| Share Price | \$10.00 |
| Exercise Price | \$11.50 |
| Risk-Free Rate | 2.06% |
| Dividend Yield | — |
| Post-Acquisition Volatility | 34.79% |

On November 20, 2017, the Company issued 25,000 ordinary shares and Warrants to independent non-founder directors for their first year's annual fees in lieu of cash. The \$10 fair value of the shares and warrants was based on the price paid by outside shareholders in the equity offering on November 20, 2017 (see Note 4). In accordance with ASC 718 – *Compensation – Stock Compensation*, the fair value of the shares and related Warrants of \$250,000 was recorded as an expense over the one-year service period.

Note 7 – Related Party

During the year ended October 31, 2018, the Company issued the following shares, warrants and options to the directors of the Company:

The Founder Entities, Toms Acquisition II LLC and Imperial Landscape Sponsor LLC or their affiliates, have received reimbursements of expenses of approximately \$0.3 million and \$0.1 million as of October 31, 2019 and 2018, respectively, of which approximately \$0.3 million and \$0.1 million were outstanding at October 31, 2019 and 2018, respectively. Noam Gottesman is the Founder and Managing Partner of Toms Capital LLC and Michael Fascitelli is the Founder and Managing General Partner of Imperial Companies LLC.

Note 8 – Earnings Per Share

Net income (loss) is allocated between the ordinary shares and other participating securities based on their participation rights. The Founder Preferred Shares represent participating securities. Earnings attributable to Founder Preferred Shares is not included in earnings attributable to ordinary shares in calculating earnings per ordinary share. For the years ended October 31, 2019 and 2018, the Company excluded the stock options to purchase 125,000 ordinary shares from the diluted earnings per ordinary share as the performance condition for these stock options was not considered probable until the time of the Acquisition.

The following table sets forth the computation of basic and diluted net income (loss) per ordinary share using the two-class method (in thousands, except share and per share amounts):

Note 10 – Subsequent Events

APW Transaction

On November 19, 2019, the Company entered into a definitive agreement to acquire AP WIP Investment Holdings, LP, one of the largest international aggregators of rental streams underlying wireless sites through the acquisition of wireless telecom real property interests and contractual rights, for aggregate consideration of approximately \$860 million consisting of cash, shares and assumption of debt (the “APW Transaction”). On February 10, 2020, the Company completed the APW Transaction through a merger of one of the Company’s subsidiaries with and into APW OpCo, with APW OpCo surviving such merger as a majority owned subsidiary of the Company. Following the APW Transaction, the Company owns 91.8% of APW OpCo, with certain former partners of Associated Partners who were members of APW OpCo immediately prior to the APW Transaction and who elected to roll over their investment in APW OpCo in connection with the APW Transaction owning the remaining 8.2% interest in APW OpCo. As of the closing of the APW Transaction, the Company will record a one-time, non-cash expense preliminarily estimated to be approximately \$69.5 million, which represents the fair value attributable to the Annual Dividend Amount. See Note 4.

In connection with the APW Transaction, the Company entered into a subscription agreement (the “Centerbridge Subscription Agreement”) with certain entities affiliated with Centerbridge Partners, LP (the “Centerbridge Entities”). Pursuant to the Centerbridge Subscription Agreement, the Centerbridge Entities subscribed for \$100 million of Ordinary Shares, at a price of \$10.00 per Ordinary Share.

As a result of the entrance of the agreement, trading of the Company’s ordinary shares and warrants on the London Stock Exchange was suspended on November 20, 2019, as in accordance with the provisions of the UK Listing Rules, the APW Transaction is treated as a reverse takeover. In connection with the closing of the APW Transaction, the Company was granted readmission that was effective on April 1, 2020. Pursuant to readmission, 58,425,000 ordinary shares of no par value and 50,025,000 warrants were added to the Official List and to trading on the London Stock Exchange’s main market for listed securities. As soon as practicable, the Company expects to pursue a change in its jurisdiction of incorporation to Delaware, U.S. and that, in conjunction with such change, it will file a registration statement with the Securities and Exchange Commission and a listing application with a U.S.-based stock exchange that is subject to regulatory approval.

COVID-19 Pandemic

The recent outbreak of COVID-19 (commonly referred to as coronavirus) which first occurred in Wuhan City, China and has subsequently spread to many countries throughout the world, including each of the jurisdictions in

LANDSCAPE ACQUISITION HOLDINGS LIMITED

Notes to Financial Statements

which we operate, has begun to negatively impact economic conditions globally and there are concerns for a prolonged tightening of global financial conditions. The COVID-19 outbreak could result in a more widespread public health crisis than that observed during the SARS epidemic of 2002-2003, which may in turn result in protracted volatility in international markets and/or result in a global recession as a consequence of disruptions to travel and retail segments, tourism, and manufacturing supply chains. In particular, in March 2020 the COVID-19 outbreak caused stock markets worldwide to lose significant value and impacted economic activity worldwide.

Although the Company, which upon closing of the APW Transaction includes the business and operations of APW Group, is taking measures to mitigate the broader public health risks associated with COVID-19 to its business and employees, including through self-isolation of employees where possible in line with the recommendations of relevant health authorities, the full extent of the COVID-19 outbreak and the adverse impact this may have on the Company's workforce is unknown. Given the fastmoving nature of the outbreak and increasing government restrictions, there can be no assurances that there will not be a material adverse effect on the Company's results of operations and financial condition.

PART II—INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Reference is made to Section 102(b)(7) of the General Corporation Law of the State of Delaware (the “DGCL”), which enables a corporation to provide in its certificate of incorporation that a director of the corporation is not personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability: (1) for any breach of the director’s duty of loyalty to the corporation or its stockholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) pursuant to Section 174 of the DGCL, which provides for liability of directors for unlawful payments of dividends or unlawful stock purchases or redemptions or (4) for any transaction from which a director derived an improper personal benefit.

Reference is also made to Section 145 of the DGCL, which empowers a Delaware corporation to indemnify any person, including an officer or director, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of such corporation) by reason of the fact that such person is or was a director, officer, employee or agent of such corporation or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. The indemnity may include expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, *provided* that such person acted in good faith and in a manner that such person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person’s conduct was unlawful. A Delaware corporation may indemnify directors, officers, employees and other agents of such corporation in an action by or in the right of the corporation under the same conditions, except that no indemnification is permitted without judicial approval if the person to be indemnified has been adjudged to be liable to the corporation. Where a present or former director or officer of the corporation is successful on the merits or otherwise in the defense of any action, suit or proceeding referred to above or in defense of any claim, issue or matter therein, the corporation must indemnify such person against the expenses (including attorneys’ fees) which he or she actually and reasonably incurred in connection therewith.

In accordance with Section 102(b)(7) of the DGCL, the certificate of incorporation of DLGI Delaware (the “Charter”), to be effective upon the Domestication, will provide that no director shall be personally liable to us or any of our stockholders for monetary damages resulting from breaches of its fiduciary duty as a director, except to the extent such limitation on or exemption from liability is not permitted under the DGCL. The effect of this provision of the Charter is to eliminate our rights and those of our stockholders (through stockholders’ derivative suits on our behalf) to recover monetary damages against a director for breach of the fiduciary duty of care as a director, including breaches resulting from negligent or grossly negligent behavior, except as restricted by Section 102(b)(7) of the DGCL. However, this provision does not limit or eliminate our rights or the rights of any stockholder to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of a director’s duty of care.

If the DGCL is amended to authorize corporate action further eliminating or limiting the liability of directors, then, in accordance with the Charter, the liability of our directors to us or our stockholders will be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or amendment of provisions of the Charter limiting or eliminating the liability of directors, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to further limit or eliminate the liability of directors on a retroactive basis.

The bylaws of DLGI Delaware (the “Bylaws”), to be effective upon the Domestication, will provide that we will, to the fullest extent authorized or permitted by applicable law, indemnify any person who was or is a party

to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Company), by reason of the fact that such person is or was a director or officer of the Company, or is or was a director or officer of the Company serving at our request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding; *provided* that a determination has been made (in accordance with the process set forth in the Bylaws) that such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful. Notwithstanding the foregoing, we will not indemnify any claim, issuer or matter as to which such person shall have been adjudged to be liable to us unless and only to the extent that the court in which such action or suit was brought determines upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court deems proper.

Expenses incurred by one of our present or former directors or officers in defending or otherwise participating in any proceeding referenced above will be paid by us in advance of its final disposition, suit or proceeding upon, if required by applicable law, receipt of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it is ultimately determined that such person is not entitled to be indemnified for such expenses under the Bylaws or Charter or otherwise.

The rights to indemnification and advancement of expenses will not be deemed exclusive of any other rights which any person covered by the Charter or Bylaws or may have or hereafter acquire under law, the Charter, the Bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

Any repeal or amendment of provisions of the Charter or the Bylaws, in either case affecting indemnification rights, whether by our Board (if applicable), our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

The Bylaws will include the provisions relating to advancement of expenses and indemnification rights consistent with those set forth in the Charter. In addition, the Bylaws provide for a right of indemnity to bring a suit in the event a claim for indemnification or advancement of expenses is not paid in full by us within a specified period of time. The Bylaws will also permit us to purchase and maintain insurance, at our expense, to protect us and/or any director, officer, employee or agent of our corporation or another entity, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against such expense, liability or loss under the DGCL.

We have entered into indemnity agreements with each of our officers and directors. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law and to advance expenses incurred as a result of any proceeding against them to which they could be indemnified.

Item 22. Undertakings

The undersigned registrant hereby undertakes:

(a) Under Rule 415 under the Securities Act:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate,

[Table of Contents](#)

represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) under the Securities Act ("Rule 424(b)") if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for purposes of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B under the Securities Act or other than prospectuses filed in reliance on Rule 430A under the Securities Act, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness; *provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424 under the Securities Act;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) To respond to requests for information that are incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11 or 13 of this Form S-4, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(c) To supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the registrant has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the city of New York, New York, on July 29, 2020.

Section 3.6 Conversion of Company Securities. Pursuant to this Agreement, at the Effective Time, by virtue of the Merger and without any action on the part of the Company, Landscape, OpCo, Merger Sub or the holders of any of the following securities:

(a) The OpCo Distribution Units issued and outstanding immediately prior to the Effective Time and held by the Company Partners following consummation of the Reorganization shall be cancelled and shall be converted into the right to receive such Company Partner's Allocable Proceeds; and

(b) The limited liability company interests of Merger Sub owned by Landscape as of immediately prior to the Effective Time shall automatically be converted into and become the Carry Unit and such number of OpCo Class B Common Units of the Surviving Company as shall equal the number of issued and outstanding Landscape Ordinary Shares and Landscape Series A Founder Preferred Shares as of immediately prior to the Effective Time.

Section 3.7 No Further Rights in the Units. At the Effective Time, the membership interest transfer books of OpCo shall be closed with respect to the OpCo Distribution Units and there shall be no further registration of transfers of OpCo Distribution Units thereafter on the records of OpCo. From and after the Effective Time, the holders of OpCo Distribution Units outstanding immediately prior to the Effective Time shall cease to have any rights with respect to such OpCo Distribution Units, except as otherwise provided in this Agreement or by Law. Each Election Form will include a representation and warranty to OpCo regarding the Company Partners' title, free and clear of liens other than under the partnership agreement of AP LP, of its partnership interest in AP LP and permit the Company Partner to specify whether, at the Effective Time, following the Reorganization and such Company Partners' receipt of the OpCo Distribution Units, such Company Partner elects to receive (i) Consideration Units in respect of such Company Partners' OpCo Distribution Units, (ii) a pro-rata portion of the Aggregate Cash Consideration in respect of such Company Partners' OpCo Distribution Units ("**Cash Consideration**") or (iii) a combination of Consideration Units and Cash

Consideration. Any OpCo Distribution Units with respect to which the Company does not receive a properly completed Election Form by December 10, 2019 (the “**Election Period**”) will be deemed to have elected to receive Cash Consideration in respect of such Company Partners’ OpCo Interest. Any election made pursuant to this Section 3.8 will be irrevocable unless otherwise agreed to by the Company Partners’ Representative; provided, that any such election may not be changed after December 16, 2019 unless otherwise agreed to by Landscape; provided, further that any such election may not be changed after the Company Partners’ Representative delivers the Consideration Schedule. Notwithstanding the foregoing, regardless of whether any Company Partner shall have elected to receive Consideration Units, Cash Consideration or a combination of Consideration Units and Cash Consideration, a portion of such Company Partners’ OpCo Distribution Units shall, at the Effective Time, be converted into cash and allocated to the Tax Escrow Account in accordance with such Company Partner’s pro-rata portion of the Tax Escrow Amount as set forth on the Consideration Schedule. The Company Partners’ Representative shall deliver or cause to be delivered to Landscape all Elections Forms as promptly as reasonably practicable and in no event later than five (5) Business Days following receipt thereof. Promptly following the delivery of all the Election Forms, the Company and the Company Partners’ Representative shall deliver, or cause to be delivered, to Landscape a preliminary Consideration Schedule, which shall be estimated assuming that the Closing shall have occurred on January 15, 2020.

(b) As of the Effective Time, and upon surrender by each Company Partner to the Company of a duly executed and completed Election Form, such Company Partner shall be entitled to receive, subject to the terms and conditions of this Agreement, such Company Partners’ Allocable Proceeds in the form elected by such Company Partner pursuant to Section 3.8(a).

Article IV **DETERMINATION OF AGGREGATE CONSIDERATION**

The Closing Statement shall be prepared in accordance with GAAP, consistent with and subject to the Accounting Principles and shall be approved in writing by the Company Partners’ Representative.

(c) If Landscape disagrees with the Closing Statement and the Closing Aggregate Consideration, Landscape and the Company Partners' Representative shall reasonably cooperate in good faith to resolve any such disputes and finally determine the Closing Statement and the Closing Aggregate Consideration not later than three (3) Business Days prior to the Closing Date. In the event that the Company Partners' Representative and Landscape cannot so finally determine the Closing Statement and the Closing Aggregate Consideration, the Closing Statement and Closing Aggregate Consideration determined by the Company and the Company Partners' Representative shall be used for the Consideration Schedule and Closing and the Company Partners' Representative and Landscape shall reasonably cooperate in good faith to promptly resolve such dispute post-Closing. Any resolution by Landscape and the Company as to any item or amount identified in the Closing Statement and the Closing Aggregate Consideration shall be set forth in writing and shall be final, binding and conclusive upon the parties hereto.

(d) The Company Partners' Representative and the Company shall deliver to Landscape a schedule setting forth the Allocable Proceeds (which shall include a list of each Company Partner, the OpCo Distribution Units each Company Partner will hold as of the Effective Time and the breakdown of the Consideration Units, the Aggregate Cash Consideration and the Tax Escrow Amount allocable to each Company Partner), payable to each Company Partner (such schedule, the "**Consideration Schedule**") no later than three (3) Business Days prior to the Closing Date. The Company Partners' Representative and the Company shall deliver to Landscape a preliminary Consideration Schedule no later than five (5) Business Days prior to the Closing Date. (a) pay or satisfy in full, on behalf of the Company and the Company Partners, such fees, costs and expenses as the parties shall agree shall be paid at Closing, by wire transfer of immediately available funds, in each case, in accordance with the applicable payoff letters and invoices related thereto and delivered by the Company at or prior to Closing;

(b) deposit, or cause the deposit, with the Escrow Agent, the Tax Escrow Amount into the Tax Escrow Account to be allocated to the Company Partners as specified in the Consideration Schedule and reduce, in accordance with Section 3.8, the Aggregate Consideration exchanged for the OpCo Distribution Units at Closing;

(c) issue, or cause the issuance of, the Aggregate Consideration Units to the Company Partners as specified in the Consideration Schedule; and

(d) pay or cause to be paid the Aggregate Cash Consideration to the Company Partners' Representative, on behalf of the Company Partners as specified in the Consideration Schedule, by wire transfer of immediately available funds to the account designated by Company Partners' Representative. Promptly following receipt of such funds, the Company

Partners' Representative shall distribute to each Company Partner receiving a portion of the Aggregate Cash Consideration, such Company Partner's portion of the Aggregate Cash Consideration as specified in the Consideration Schedule.

Section 4.3 Withholding.

(a) Notwithstanding any other provision of this Agreement, Landscape and any other applicable withholding agent shall be entitled to deduct and withhold from the consideration otherwise payable to any Person pursuant to this Agreement such amounts as may be required to be deducted and withheld under applicable Law. Landscape, the Company and Company Partners shall, and shall cause their respective Affiliates to, act in good faith, reasonably cooperate and use commercially reasonable efforts to (x) determine and calculate amounts required to be deducted and withheld under applicable Law and (y) reduce or eliminate any amounts otherwise required to be deducted and withheld pursuant to this Section 4.3. Accordingly, no later than seven (7) Business Days prior to the expected Closing Date, but no earlier than thirty (30) days before the Closing Date, the Company Partners' Representative shall provide, or cause to be provided, to Landscape:

If it is later determined that an additional amount or payee is

subject to withholding with respect to this Agreement, Landscape shall be entitled to deduct and withhold such amounts, subject to its obligation to reasonably cooperate and use commercially reasonable efforts to reduce or eliminate such amounts, in accordance with this Section 4.3.

(c) In the event Landscape or any other withholding agent deducts and withholds any amounts pursuant to this Section 4.3, Landscape or such withholding agent, as applicable, shall (x) timely remit such deducted and withheld amounts to the applicable Governmental Authority and (y) no later than twenty (20) calendar days after making the applicable payment, deliver to the Company Partners' Representative evidence of the remittance of such deducted and withheld amounts to such Governmental Authority reasonably satisfactory to the Company Partners' Representative; provided, that, for purposes of the foregoing, written confirmation of a wire transfer made to, or a copy of a check made payable to (along with a certified receipt of mailing to), such Governmental Authority shall be deemed to be satisfactory to the Company Partners' Representative.

REPRESENTATIONS AND WARRANTIES RELATING TO THE TARGET COMPANIES

Except as set forth on the corresponding section of the Company Disclosure Letter (or in one or more of the other sections of the Company Disclosure Letter to the extent the relevance of such disclosure to such other section is reasonably apparent), the Company represents and warrants to Landscape as of the date hereof and as of Closing Date as follows:

Section 6.1 Organization; Capitalization.

(a) The Company is a limited partnership, duly organized and validly existing under the Laws of its jurisdiction of organization and has all necessary partnership power to conduct its business in the manner in which it is currently being conducted. The Company is duly qualified or otherwise authorized to do business in each of the jurisdictions in which it is required to be so qualified or otherwise authorized except for those jurisdictions where failure to be so qualified or authorized would not reasonably be expected to be, individually or in the aggregate, material to the Target Companies, taken as a whole. The Company is not the subject of any administration, administrative receivership, insolvency, dissolution, liquidation, receivership, reorganization or similar proceeding and, to the Knowledge of the Company, no steps have been taken for the Company to become the subject of any such proceeding.

(b) All of the outstanding partnership interests of the Company (i) have been duly authorized and validly issued, (ii) are fully paid and nonassessable, (iii) were issued in compliance with applicable Law, (iv) were not issued in breach or violation of any contract or preemptive rights, rights of first refusal or other similar rights and (v) are free and clear of all Encumbrances, except pursuant to applicable Laws and the terms of the Company's Governing Documents and (vi) have not been certificated.

(d) There are no outstanding options, warrants, convertible securities or other rights, agreements, arrangements or commitments of any character relating to any equity interests in the Company or obligating the partners of the Company or the Company to issue or sell any equity interests, or any other partnership interest, in the Company. Other than the Governing Documents of the Company, there are no voting trusts, proxies or other agreements or understandings in effect with respect to the voting or transfer of any of the partnership interests of the Company. Except for the Credit Agreements, there are no agreements that would prohibit the Company or any of its Subsidiaries from making dividends or distributions to its equity holders following the Closing.

(e) The execution, delivery and performance by the Company of this Agreement and the consummation of the Proposed Transaction have been duly and validly authorized and approved by the Company GP and AP LP, as required, and no other action on the part of the Company or the Company Partners is necessary to authorize this Agreement or the Company's performance hereunder. This Agreement has been duly and validly executed and delivered by the Company and, assuming due authorization and execution by each other party hereto, constitutes a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, subject to applicable bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium and similar Laws affecting creditors' rights and remedies.

Section 6.2 Subsidiaries.

(a) Schedule 6.2(a) of the Company Disclosure Letter contains a true, complete and accurate list, as of the date of this Agreement, of all of the material Subsidiaries of the Company and the number and class of equity interests and percentage of the outstanding equity interests of each such Subsidiary owned by the Company and each other Subsidiary of the Company.

(b) Each of the material Subsidiaries of the Company: (i) is duly organized and validly existing under the Laws of its jurisdiction of organization; (ii) has all necessary company or partnership power to conduct its business in the manner in which it is currently being conducted; and (iii) is duly qualified or otherwise authorized to do business in each of the jurisdictions in which such entity is required to be so qualified or otherwise authorized, except, in the case of clause (iii), as would not reasonably be expected to be, individually or in the aggregate, material to the Target Companies, taken as a whole.

(c) All of the outstanding issued share capital, shares or limited liability company or membership interests, other equity rights, interests or other securities of each material Subsidiary of the Company, are duly and validly issued and outstanding, fully paid and non-assessable and are legally and beneficially owned, directly or indirectly, by the Company, free and clear of all Encumbrances, except for pursuant to applicable Laws or Encumbrances in the Governing Documents of the Subsidiaries. The Investor is the record and legal, and to the Knowledge of the Company, beneficial owner of the membership interests in AP WIP held by the Investor.

(d) There are no outstanding options, warrants, convertible securities or other rights, agreements, arrangements or commitments pursuant to which the Company Partners, the Company or any material Subsidiary of the Company is or may become obligated to allot, issue, sell, transfer, purchase, return or redeem any shares or limited liability company or membership interests, other equity interests or other securities of any material Subsidiary of the Company. There is no outstanding or authorized appreciation, phantom interest, profit participation or similar rights with respect to any material Subsidiary of the Company. Such issued share capital, shares, limited liability company or membership interests, other equity rights, interests or other securities or derivatives thereof of the Non-Controlled Minority Investments held by the Target Companies are legally or beneficially owned by the Company or such Subsidiaries of the Company as identified on Schedule 6.2(g) of the Company Disclosure Letter. (a) The AP WIP Financial Statements have been prepared in accordance with the books, records and accounts of the Target Companies referenced therein and in accordance with the Accounting Principles as in effect for the periods covered thereby, with the exception of the absence of normal year-end audit adjustments and footnotes in the unaudited financial statements, and present fairly in all material respects the financial condition and results of operations of the Target Companies referenced therein as of such dates and for such periods indicated therein.

(b) None of the Target Companies has any Liabilities that would be required by GAAP to be reflected or reserved against in a consolidated balance sheet other than Liabilities (i) that are reflected or reserved against in the AP WIP Financial Statements, (ii) incurred in the Ordinary Course of Business since the Locked Box Date, (iii) are incurred as contemplated by this Agreement or in connection with the Proposed Transaction or (iv) that would not reasonably be expected to be, individually or in the aggregate, material to the Target Companies on a consolidated basis.

(c) Each of the Target Companies has established and maintains a system of internal controls over financial reporting. Such internal controls are sufficient to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of the AP WIP Audited Financial Statements in accordance with the Accounting Principles.

(d) There are no arrangements or agreements that would reasonably be likely to result in any Leakage during the Locked Box Period, other than Permitted Leakage.

(e) Each of the Company Partners shall, as a result of the Merger, be entitled to receive the same portion of the Aggregate Consideration as such Company Partner would have been entitled to receive had the Reorganization not occurred and had the Aggregate Consideration been distributed to the Company Partners pursuant to the Governing Documents of AP LP.

policies. Since January 1, 2017, no Target Company has received any written notice regarding (a) the cancellation or invalidation of any of the existing material insurance policies of the Target Companies or (b) any refusal of coverage under or any rejection of any material claim under, any such material insurance policies of the Target Companies.

No action, claim, suit, arbitration or proceeding is pending or threatened in writing that challenges the legality, validity, enforceability, use, or ownership of any material item of Business IP in any material respect, and, to the Knowledge of the Company, there is no basis for such action, claim, suit, arbitration or proceeding. The Target Companies are the sole and exclusive owners of the material Owned IP. Except as listed on Schedule 6.11(a) of the Company Disclosure Letter, all of the Target Companies' material Registered Intellectual Property is subsisting, and to the Knowledge of the Company, valid and enforceable. To the Knowledge of the Company, no current or former employees of the Target Companies, or with respect to material Business IP no independent contractors of the Target Companies, have any ownership interest in or right to any Business IP owned by the Company Partners or any of the Target Companies that prevents the use of such Intellectual Property Rights in the business of the Target Companies. (b) Prior to the Effective Time, the Target Companies shall, and if the Target Companies are unable, Landscape shall cause the Surviving Company after the Effective Time to either (i) maintain in effect for six (6) years after the Closing the Target Companies’ directors’ and officers’ insurance policies and fiduciary liability insurance policies (collectively, “**D&O Insurance**”) in place as of the date hereof with terms, conditions, retentions and limits of liability that are at least as favorable as those contained in the Target Companies’ current D&O Insurance policies in effect as of the date hereof or (ii) purchase a prepaid directors’ and officer’s liability tail insurance policy or other comparable D&O Insurance from an insurance carrier with the same or better credit rating as the Target Companies’ current insurance carrier with respect to directors’ and officers’ liability insurance and fiduciary liability insurance for such six-year period with terms, conditions, retentions and limits of liability that are at least as favorable as those contained in the Target Companies’ D&O Insurance policies in effect as of the date hereof.

(c) If the Surviving Company or any of its successors or assigns consolidates with, merges into or transfers or conveys all or substantially all of its properties and

assets to any Person then, and in each case, to the extent necessary, proper provision shall be made so that the successors and assigns of Landscape, the Target Companies or the Surviving Company, as the case may be, shall assume the obligations set forth in this Section 10.10.

(d) The obligations of the Target Companies, Landscape and the Surviving Company under this Section 10.10 shall not be terminated or modified in such a manner as to adversely affect any Company Indemnitee to whom this Section 10.10 applies without the consent of such affected Company Indemnitee (it being expressly agreed that the Company Indemnities to whom this Section 10.10 applies shall be third-party beneficiaries of this Section 10.10). If the Closing occurs, the Target Companies shall pay all expenses to any Company Indemnitee incurred in successfully enforcing the indemnity or other obligations provided for in this Section 10.10.

Section 10.11 Company Partners' Representative.

(a) AP LP hereby designates AP LP as "Company Partners' Representative" to represent each of the Company Partners following the Closing for all purposes of this Agreement. The Company Partners' Representative shall have the following powers and duties: (i) to take such lawful actions and to incur such costs and expenses as the Company Partners' Representative, in its sole discretion, deems necessary or advisable to safeguard the interests of the Company Partners; (ii) to compromise, modify, settle, waive, relinquish, exchange, liquidate or otherwise resolve the rights of the Company Partners in and to any amounts that are or may be payable after the Closing by Landscape hereunder, which compromise, modification, settlement, waiver, relinquishment, exchange, liquidation or resolution may include payment to the Company Partners of cash, property or any combination thereof; (iii) to employ accountants, investment banks, appraisers, and other experts, attorneys and such other agents as the Company Partners' Representative may deem advisable; (iv) to incur fees, costs and expenses relating to the performance and implementation of this Agreement and the Transaction Documents and the transactions contemplated hereby and thereby (including costs and expenses relating to third-party paying agents, wire expenses and other costs and expenses relating to the payment of any amounts due hereunder); (v) to maintain a register of the Company Partners; (vi) to receive and distribute to the Company Partners the consideration payable hereunder; (vii) execute, deliver and perform under the Transaction Documents; (viii) execute, deliver and perform under any amendment or waiver to this Agreement and the Transaction Documents; and (ix) to take all lawful actions which the Company Partners' Representative deems necessary or advisable in order to carry out the foregoing. The Company Partners' Representative shall serve without compensation. The Company Partners' Representative shall not be liable to the Company Partners for the performance of any act or failure to act so long as it acted (or failed to act) in good faith within what it reasonably believed to be the scope of its authority and for a purpose which it reasonably believed to be in the best interests of the Company Partners.

(b) The appointment of the Company Partners' Representative shall be deemed coupled with an interest and is hereby irrevocable. The provisions of this Section 10.11 are independent and severable, shall constitute an irrevocable power of attorney, coupled with an interest, are given primarily for a business or commercial purpose, shall survive the death, disability, incapacity, bankruptcy, dissolution or liquidation of each Company Partner, and are granted by each of the Company Partners to the Company Partners' Representative, and shall be binding upon the executors, heirs, legal representatives, successors and assigns of each such Company Partner.

(c) The Company Partners' Representative shall act for the Company Partners on all of the matters set forth in this Agreement and the Transaction Documents in the manner the Company Partners' Representative believes in good faith to be in the best interest of the Company Partners and consistent with its obligations under this Agreement. The Company Partners' Representative shall not be responsible to the Company Partners for any damages they may suffer by reason of the performance by the Company Partners' Representative of the powers, authority and duties of the Company Partners' Representative under this Agreement, other than loss or damages arising from a willful and knowing violation of the Law or this Agreement by the Company Partners' Representative.

(d) AP LP agrees to indemnify and hold harmless the Company Partners' Representative from, and promptly reimburse the Company Partners' Representative for, any loss, damage, fees, costs or expenses arising from the performance of the powers, authority and duties of the Company Partners' Representative hereunder, including the reasonable cost of any legal counsel or accountants retained by the Company Partners' Representative on behalf of the Company Partners or otherwise, but excluding any loss or damage arising from a willful and knowing violation of the Law or this Agreement by the Company Partners' Representative.

(e) All actions, decisions and instructions of the Company Partners' Representative taken, made or given pursuant to the power or authority granted to the Company Partners' Representative pursuant to this Section 10.11 shall be conclusive and binding upon each Company Partner, and no Company Partner shall have the right to object to, dissent from, protest or otherwise contest the same. Landscape shall be entitled to rely solely on the Company Partners' Representative with respect to any action or decision required to be made, taken, agreed to or consented to by the Company Partners under this Agreement or the Transaction Documents. Any action or decision taken or made by Landscape under this Agreement or the Transaction Documents with the consent or agreement of, or at the request of, the Company Partners' Representative shall be deemed approved, consented to, conclusive and binding on all Company Partners, regardless of whether any such Company Partner was provided with notice of any such action or decision.

(a) Tax Cooperation. Landscape, the Company and, after the Closing Date, the Company Partners' Representative shall, and shall cause their respective Affiliates to, provide the other parties with such information and records, make such of its officers, directors, employees and agents available and sign such Tax Returns as may reasonably be requested by such other party in connection with the preparation of any Tax Return or any Tax Proceeding that relates to the Target Companies. Landscape, the Company and, after the Closing Date, the Company Partners' Representative shall, and shall cause their respective Affiliates to, retain all books and records with respect to Tax matters pertinent to the Target Companies relating to any taxable period beginning before the Closing Date until the expiration of the statute of limitations (and, to the extent notified by Landscape or the Company, any extensions thereof) of the respective taxable periods.

(b) Pre-Closing Passthrough Returns. The Company Partners' Representative shall prepare, or shall cause to be prepared, at OpCo's expense all Pre-Closing Passthrough Returns. Landscape and the Company Partners' Representative agree that all such Pre-Closing Passthrough Returns shall be prepared consistently with the Tax Return Principles and shall be subject to the review and resolution provisions of clause (d) below. The Company Partners' Representative shall deliver each such Pre-Closing Passthrough Return that is required to be filed after the Closing Date to Landscape for review and comment, subject to the provisions of clause (d) below no later than forty-five (45) days prior to the due date of such Pre-Closing Passthrough Return (giving effect to any extensions thereto).

(c) Straddle Period Passthrough Returns. Landscape shall prepare, or cause to be prepared, at OpCo's expense all Straddle Period Passthrough Returns. Landscape and the Company Partners' Representative agree that all such Straddle Period Passthrough Returns shall be prepared consistently with the Tax Return Principles. Landscape shall deliver a draft of each such Straddle Period Passthrough Return to the Company Partners' Representative no later than forty-five (45) days prior to the due date thereof (giving effect to any extensions thereto) for the Company Partners' Representative's review and comment, subject to the provisions of clause (d) below.

(d) Review and Dispute Resolution. The party preparing the Tax Returns under paragraphs (b) and (c) above is referred to in this Section 10.12 as the "**Preparing Party**," and the other party is referred to in this Section 10.12 as the "**Reviewing Party**". If the Reviewing Party agrees with the drafts of the Tax Returns provided by the Preparing Party pursuant to paragraphs (b) or (c) above, as applicable, or does not object in writing within twenty (20) days after the receipt of such draft Tax Returns, then Landscape shall file or cause the applicable Target Company to file such Tax Returns in the form prepared by the Preparing Party. If, within twenty (20) days after the receipt of such draft Tax Returns, the Reviewing Party notifies the Preparing Party that it disputes the manner of preparation of such Tax Returns, then said parties shall attempt to resolve their disagreement (x) within ten (10) days following the notification of such disagreement. If the parties are not able to resolve their disagreement, then the dispute shall be submitted to the Settlement Accountants for resolution. The parties shall instruct the Settlement Accountants to (x) resolve the dispute within ten (10) days after the date on which they are engaged or as soon as possible thereafter and (y) solely on the basis on whether the applicable Tax Return has been prepared consistently within the Tax Return Principles. The determination of the Settlement Accountants shall be binding on the parties. The cost of the services of the Settlement Accountants will be borne by OpCo. Landscape shall file or cause the applicable Target Company to file the applicable Tax Returns in accordance with the determination of the Settlement Accountants. If the Settlement Accountants have not resolved the disagreement prior to the due date for such Tax Returns, Landscape shall file or cause the Company to file the applicable Tax Returns in the form prepared by the Preparing Party, and shall subsequently amend or cause to be amended such Tax Returns to reflect any changes determined by the Settlement Accountants.

(e) Intended Tax Treatment. The parties intend that, for U.S. Federal income Tax purposes:

(i) The Reorganization will be treated as an “assets-over” division of AP LP pursuant to U.S. Treasury Regulations Section 1.708-1(d)(3)(i), with respect to which AP LP shall be treated as the divided partnership;

(ii) the Merger will be treated, (A) with respect to the Aggregate Cash Consideration paid to the Company Partners, as a sale of such Company Partners’ interests in OpCo to Landscape and, (B) with respect to the Aggregate Consideration Units paid to the Company Partners, as a recapitalization of their partnership interests in OpCo;

(iii) the transactions contemplated by the Redemption Agreement shall be treated as a disguised sale of interests in AP WIP to OpCo under Section 707(a)(2)(B) of the Code that occurs immediately after the Merger (“**Investor Sale**”);

(iv) the Investor Sale shall be treated by OpCo as a liquidating distribution by AP WIP of all of its assets to OpCo and the Investor, followed by a purchase by OpCo of the assets that had been distributed to the Investor in liquidation of the Investor’s interest in AP WIP, in each case consistent with IRS Revenue Ruling 99-6, 1999-1 CB 432; and

(v) following the Merger, Landscape will be treated as a “domestic corporation” pursuant to Section 7874(b) of the Code (the treatment described in this Section 10.12(e), the “**Intended Tax Treatment**”).

The parties shall, and shall cause their respective Affiliates to, (x) report and file Tax Returns in all respects consistent with the Intended Tax Treatment and (y) not take any position in connection with Tax matters (including for purposes of the Tax Balance Sheet) that is inconsistent with the Intended Tax Treatment, in each case unless otherwise required by applicable Law.

(f) Purchase Price Allocation. The adjustments and calculations required under Sections 743(b), 751 and 755 of the Code shall be determined as follows:

(i) Within one hundred and twenty (120) days after the Closing Date, Landscape will prepare and deliver to the Company Partners’ Representative a consolidated balance sheet of the Target Companies that sets out the fair market value of the assets owned by the Target Companies on the Closing Date and the amount of Liabilities of the Target Companies on the Closing Date (the “**Preliminary Balance Sheet**”). The Preliminary Balance Sheet (x) shall be computed by reference to the Aggregate Consideration, the Liabilities of the Target Companies and other amounts required to be taken into account under the Code and (y) shall contain sufficient detail to permit the parties to make the computations and adjustments required under Sections 743(b), 751 and 755 of the Code. Third-party fees and expenses incurred in connection with the Preliminary Balance Sheet shall be borne by the OpCo.

(ii) If the Company Partners’ Representative disagrees with the Preliminary Balance Sheet, then it shall deliver a notice of such disagreement to Landscape within forty-five (45) days after Landscape’s delivery of the Preliminary Balance Sheet (the “**Allocation Notice**”). During such forty-five (45) day period, Landscape shall

provide the Company Partners' Representative and its accountants with reasonable access, upon reasonable notice, at all reasonable times during normal business hours to all books, records and other information (including Landscape's work papers) as the Company Partners' Representative may request for purposes of its review of the Preliminary Balance Sheet, provided that Landscape shall have no obligation to provide any information protected by legal privilege or that Landscape is prohibited by contract from disclosing. After the Company Partners' Representative's delivery of the Allocation Notice, Landscape and the Company Partners' Representative shall negotiate in good faith for forty-five (45) days to resolve all unagreed items or amounts with respect to the Preliminary Balance Sheet. During such forty-five (45) day negotiation period, the Company Partners' Representative shall provide Landscape and its accountants with reasonable access, upon reasonable notice, at all reasonable times during normal business hours to all books, records and other information (including the Company Partners' Representative's work papers) as Landscape may reasonably request for purposes of its review of the Allocation Notice, provided that the Company Partners' Representative shall have no obligation to provide any information protected by legal privilege or that the Company Partners' Representative is prohibited by contract from disclosing.

(iii) If the Company Partners' Representative and Landscape are unable to resolve all such unagreed items and amounts pursuant to clause (ii) above, the Company Partners' Representative and Landscape shall submit the dispute to the Settlement Accountants for resolution. The Company Partners' Representative and Landscape shall instruct the Settlement Accountants to make a determination within thirty (30) days of completion of the parties' submissions and to adjust the Preliminary Balance Sheet to reflect such determination. The parties shall make available to the Settlement Accountants such books, records and other information (including the parties' work papers) as are reasonably requested by the Settlement Accountants in connection with the parties' submissions. All fees and expenses relating to the work, if any, to be performed by the Settlement Accountants shall be borne by the OpCo.

(iv) The Preliminary Balance Sheet, as prepared by Landscape if no Allocation Notice is delivered, as adjusted pursuant to any agreement between Landscape and the Company Partners' Representative during the forty-five (45) days following delivery of the Allocation Notice, or as adjusted by the Settlement Accountants, shall be final and binding on the parties as the "**Tax Balance Sheet**".

(v) The parties shall, and shall cause their respective Affiliates to, (x) report and file Tax Returns in all respects consistent with the Tax Balance Sheet and (y) not take any position in connection with Tax matters that is inconsistent with the Tax Balance Sheet, in each case unless otherwise required by applicable Law. In the event that Landscape or the Company Partners' Representative receives notice of any potential dispute of the Intended Tax Treatment or the Tax Balance Sheet by any Tax Authority, Landscape and the Company Partners' Representative, as applicable, shall notify the other party of such potential dispute.

(g) Transfer Taxes. Landscape shall pay all sales, use, transfer, real property transfer, documentary, recording, stock transfer and similar Taxes arising out of or in

connection with the transactions effected pursuant to this Agreement or any Transaction Document (“**Transfer Taxes**”). Landscape shall timely file, or cause to be timely filed, all Tax Returns required to be filed with respect to Transfer Taxes; provided that the Company and the Company Partners’ Representative shall reasonably cooperate with Landscape in the preparation, execution and filing of any such Tax Returns. Landscape, the Company and Company Partners shall, and shall cause their respective Affiliates to, act in good faith, reasonably cooperate and use commercially reasonable efforts to determine and calculate the amount of Transfer Taxes.

(h) Tax Return Principles. For purposes of preparing Tax Returns pursuant to Section 10.12(b) and Section 10.12(c) and resolving disputes with respect to Tax Returns pursuant to Section 10.12(d), Landscape and the Company Partners’ Representative agree that the following principles will apply:

(i) the applicable Tax Returns will be prepared consistently with applicable Law and the past practice of the applicable Target Companies (except to the extent otherwise required by applicable Law);

(ii) the applicable Tax Returns will include the election made under Section 754 of the Code (and any corresponding provisions of applicable state Law), provided, that, if the applicable Target Company is not required to file a U.S. federal income Tax Return, such election will be made in accordance with Treasury Regulations Section 1.6031(a)-1(b)(5);

(iii) any applicable Straddle Period Passthrough Return shall use the “closing of the books” method under Section 706(d) of the Code to allocate income, gain, deduction and loss in the applicable Straddle Period (and similarly close the books of any applicable Subsidiary partnerships included in such Straddle Period Passthrough Returns as of the last day of the applicable Straddle Period); and

(iv) any items of loss or deduction attributable to any payment, loss, obligation, liability or Tax for which the Company Partners are responsible or that the Company Partners otherwise bear under this Agreement or any Transaction Document shall be included in a tax period (or portion thereof) ending on or before the Closing Date to the maximum extent permissible under applicable Law (the principles described in this Section 10.12(h), the “**Tax Return Principles**”).

(i) Passthrough Tax Proceedings. Notwithstanding any contrary provision of applicable Law:

(i) in the case of any Tax Proceeding with respect to a Pre-Closing Passthrough Return, (x) the Company Partners’ Representative shall control such Tax Proceeding and Landscape shall take any and all actions, including executing any powers of attorney, that are necessary to give the Company Partners’ Representative control of such Tax Proceeding, (y) the Company Partners’ Representative shall, or shall cause the applicable Target Company to, make any available election, and make such allocations and issue such notices, as are required under Section 6226 of the Code and the Treasury Regulations promulgated thereunder, in each case to the extent the failure to make

such election and allocations and issues such notices would reasonably be expected to result in Landscape or any of its Affiliates (including the Target Companies) becoming liable for any Taxes with respect to such Pre-Closing Passthrough Return and (z) the Company Partners' Representative shall not settle or otherwise compromise such Tax Proceeding without the prior written consent of Landscape (such consent not to be unreasonably withheld, conditioned or delayed) if an election under Section 6226 is not made and other actions described in clause (y) above are not taken and Landscape or any of its Affiliates (including the Target Companies) would reasonably be expected to become liable for any Taxes with respect to such Pre-Closing Passthrough Return; and

(ii) in the case of any Tax Proceeding with respect to a Straddle Period Passthrough Return, (x) Landscape shall control such Tax Proceeding and the Company Partners' Representative shall take any and all actions, including executing any powers of attorney, that are necessary to give Landscape control of such Tax Proceeding and (y) Landscape shall not settle or otherwise compromise such Tax Proceeding without the prior written consent of the Company Partners' Representative (such consent not to be unreasonably withheld, conditioned or delayed); provided, that nothing herein shall preclude Landscape from making an election under Section 6226 in connection with a Tax Proceeding with respect to a Straddle Period Passthrough Return.

(iii) With respect to clause (i) above, the Company Partners' Representative shall be the "**Controlling Party**" and Landscape shall be the "**Non-Controlling Party**," and with respect to clause (ii) above, Landscape shall be the "**Controlling Party**" and Company Partners' Representative shall be the "**Non-Controlling Party**." In connection with any Tax Proceeding under clauses (i) and (ii) of this Section 10.12(iii), (x) Landscape and Company Partners' Representative shall cooperate with each other and provide each other with such information as may be reasonably requested with respect to such Tax Proceeding, and (y) the Controlling Party will promptly provide the Non-Controlling Party with copies of all written communications from or to the applicable Tax Authorities, inform the Non-Controlling Party of all conferences, hearings and other matters with respect to any such Tax Proceeding, and reasonably consult with the Non-Controlling Party in the defense, negotiation and settlement of any such Tax Proceeding.

Section 10.13 Financing Cooperation.

(a) Landscape acknowledges and agrees that its obligation to consummate the Proposed Transaction is not contingent upon obtaining any financing of any kind. Prior to the Closing, the Company agrees to, and shall cause the other Target Companies and their respective Representatives to, use their respective commercially reasonable efforts to provide such cooperation and assistance to Landscape for the private placement of equity securities of Landscape or in connection with any Warrant Refinancing in connection with the Proposed Transaction, each on terms and conditions to be mutually agreed by Landscape and the Company Partners' Representative (collectively, the "**Financing**"), as may be reasonably requested by Landscape. Such assistance shall include the following: (a) timely delivery to Landscape and its Representatives of financial statements and other financial information regarding the Target Companies reasonably requested by Landscape; (b) assistance with the preparation or review of

risk factors for any private placement memoranda or other offering materials related to the Financing; and (c) cause Representatives of the Target Companies, in each case, with appropriate seniority and expertise, to, upon reasonable advance notice by Landscape, participate in a reasonable number of meetings and due diligence sessions; provided, in each case, that (i) such requested cooperation does not unreasonably interfere with the ongoing operations of the Target Companies, (ii) under no circumstances shall the Target Companies be required to (A) incur any costs, obligations or liabilities that attach to the Target Companies prior to the Closing, including any obligation to pay any commitment or other similar fee prior to the Effective Time that is not advanced by Landscape or to incur any expense unless such expense is reimbursed by Landscape on the earlier of the Effective Time or termination of this Agreement in accordance with Article XII, (B) take any action that would reasonably be expected to conflict with or violate the Governing Documents of any of the Target Companies or applicable Law, or result in the contravention of, or result in a violation or breach of, or default under, any Material Contract, (C) require any director, officer, general partner or manager to take any action or enter into agreement related to the Financing in such capacity prior to the Closing that is not contingent on the Closing or that would be effective prior to the Closing Date nor (D) provide, or cause to be provided, any legal opinion by their counsel and (iii) Landscape shall indemnify, defend and hold harmless the Target Companies and their Affiliates and their respective Representatives (including legal, financial and accounting advisors), from and against any and all Losses suffered or incurred by them in connection with the Financing or their cooperation hereunder and compliance with Section 10.13.

(b) Landscape shall not use or disclose in any private placement memoranda or other offering materials related to the Financing or in any public disclosure the financial statements or other financial information of the Target Companies without the prior approval of the Company.

Section 10.14 Matters Relating to OpCo and Merger Sub. Prior to the Closing, other than in connection with the performance of their obligations under the Reorganization, this Agreement and the Proposed Transaction, neither OpCo nor Merger Sub shall engage in any business, acquire any asset or incur any Liability, or take any other action that would cause any of the representations and warranties of OpCo set forth in Article VIII or Merger Sub set forth in Article IX of this Agreement not to be true and correct in accordance with the terms thereof.

Section 10.15 Admission.

(a) Each party hereto shall use reasonable best efforts to take, or cause to be taken, all lawful actions and to do, or cause to be done, all things necessary, and execute and deliver, or shall cause to be executed and delivered, such documents and other instruments as may be reasonably requested by another party hereto, that are required in connection with Admission or under the FCA Handbook or the Admission and Disclosure Standards. In particular, Landscape and the Target Companies shall jointly prepare and publish the Prospectus and any other announcement, statement, document or presentation to be made, published or issued by Landscape or the Merger Sub in connection with Admission, and in so doing the parties shall cooperate and consult in good faith with each other.

(b) Landscape shall promptly notify the Company of the receipt of all comments of the FCA with respect to the Prospectus and of any request by the FCA for any amendments or supplements thereto, or for additional information, and shall provide to the Company, after the Company and its advisers shall have had a reasonable opportunity to review and comment on the Prospectus and draft correspondence and due consideration has been given to such comments by Landscape, copies of all correspondence between Landscape, on the one hand, and the FCA, on the other. Landscape shall use reasonable best efforts to promptly provide satisfactory responses to the FCA with respect to all comments received on the Prospectus.

Section 10.16 Locked Box.

(a) The Company covenants and agrees that (i) there shall be no Leakage during the Locked Box Period and (ii) no arrangements or agreements shall be made that would reasonably be likely to result in any Leakage during the Locked Box Period, in each case other than Permitted Leakage. Notwithstanding anything to the contrary herein, the sole remedy for a breach of this Section 10.16(a) will be as provided in Section 10.16(c) and adjustment thereunder shall cure any such breach.

(b) The Company shall notify Landscape in writing promptly after becoming aware of anything which would constitute a breach of any of the covenants in Section 10.16(a) or any of the representations and warranties in Section 6.4(d) (including the specific amount of any Leakage, if known). Notwithstanding anything to the contrary herein, the sole remedy for a breach of this Section 10.16(b) will be as provided in Section 10.16(c) and adjustment thereunder shall cure any such breach.

(c) If there shall be any Leakage during the Locked Box Period (other than Permitted Leakage), the Aggregate Consideration and the Total Equity Value shall be adjusted downward on a dollar for dollar basis, to take into account any such Leakage.

Section 10.17 Representation and Warranty Insurance. Effective on the date hereof, Landscape has obtained a “buyer’s” representations and warranties insurance policy (the “**R&W Insurance Policy**”). The R&W Insurance Policy is acceptable, in form and substance, to the Company, and provides that the insurer may not seek to or enforce any subrogation rights it might have against AP LP, the Company GP, the Company Partners, or any of them, as a result of any alleged breach of any representation or warranty (except in the case of breaches involving fraud).

Section 10.18 Warrant Refinancing. If Landscape shall commence a warrant refinancing and consent solicitation (the “**Consent Solicitation**”) with respect to existing outstanding Landscape Warrants (the “**Warrant Refinancing**”), the terms and conditions of the Warrant Refinancing, including the timing, amount of any applicable consent fee and structure, shall be as mutually agreed among Landscape and the Company Partners’ Representative. Landscape shall pay any consent fee for the Consent Solicitation and all fees and expenses of any solicitation agent, information agent, depository or other Person retained in connection with the Consent Solicitation.

Section 10.19 Certain Legal Fees. Promptly following submission to Landscape of a proper invoice, Landscape shall reimburse AP LP for any legal fees incurred by AP LP in connection with the preparation and negotiation of the employment and other incentive agreements by and among Landscape, the Company and the Management Team in connection with the Proposed Transaction; provided, that the amount so reimbursed shall not exceed \$100,000 in the aggregate.

Article XI

(c) the Company shall have performed in all material respects the obligations, and complied in all material respects with the agreements and covenants, required to be performed by or complied with by it under this Agreement at or prior to the Closing Date;

(d) Landscape shall have received a certificate from an officer of the Company, certifying that the conditions set forth in Section 11.2(a), Section 11.2(b), Section 11.2(c) and Section 11.2(e) have been satisfied with respect to the Company;

(f) the Reorganization shall have been consummated in accordance with the terms of this Agreement applicable thereto;

(g) William Berkman shall not have terminated his Employment Agreement or his Rollover Agreement; and

(h) the Company shall have delivered, or caused to be delivered, the items required by Section 5.1(c).

Section 11.3 Conditions of OpCo and the Company. The obligations of OpCo and the Company to consummate the Closing contemplated shall be further subject to the satisfaction or waiver (in whole or in part, to the extent permitted by Law) at or prior to the Closing of the following conditions:

(a) (i) the Landscape Fundamental Representations (other than Section 7.4 (*Capitalization*)) shall be true and correct in all material respects as of the Closing Date as though made on and as of such date, except as contemplated by this Agreement (unless any such representation or warranty is made only as of a specific date, in which event such representation or warranty shall be true and correct in all respects only as of such specific date) and (ii) the representation and warranty of Landscape contained in Section 7.4 (*Capitalization*) shall be true and correct in all respects as of the Closing Date as though made on and as of such date, except as contemplated by this Agreement (unless any such representation or warranty is made only as of a specific date, in which event such representation or warranty shall be true and correct in all respects only as of such specific date);

(b) the other representations and warranties of Landscape and Merger Sub set forth in this Agreement shall be true and correct in all material respects as of the Closing Date as though made on and as of such date, except as contemplated by this Agreement or where the failure of any such representation and warranty to be so true would not, individually or in the aggregate, reasonably be expected to prevent Landscape from consummating the Proposed Transaction or performing its obligations under this Agreement (unless any such representation or warranty is made only as of a specific date, in which event such representation or warranty shall be true and correct in all material respects only as of such specific date, except as contemplated by this Agreement or where the failure of such representations and warranties to be so true and correct would not prevent Landscape from consummating the Proposed Transaction or performing its obligations under this Agreement);

Section 11.4 Waiver of Conditions. The conditions set forth in Section 11.1 may only be waived by written notice from the party waiving such condition. The conditions set forth in Section 11.2 may only be waived by written notice from Landscape. The conditions set forth in Section 11.3 may only be waived by written notice from the Company Partners' Representative.

Section 11.5 Frustration of Closing Conditions. None of the Company or Landscape may rely, either as a basis for not consummating the Proposed Transaction or terminating this Agreement and abandoning the Proposed Transaction, on the failure of any condition set forth in Section 11.1, Section 11.2 or Section 11.3, as the case may be, to be satisfied if such failure was caused by such party's material breach of any provision of this Agreement or failure to use its reasonable best efforts to consummate the Proposed Transaction.

Article XII **TERMINATION**

Section 12.1 Termination. This Agreement may be terminated at any time prior to the Closing:

(a) by either the Company Partners' Representative or Landscape if the Closing shall not have occurred by March 31, 2020 (the "**Outside Date**"); provided however that the right to terminate this Agreement under this Section 12.1(a) will not be available to any party whose failure to fulfill any obligation under this Agreement has been the cause of, or has resulted in, the failure of the Closing to occur by this date.

(b) by either the Company Partners' Representative or Landscape in the event that any Governmental Authority has enacted, issued, enforced or entered into any statute, rule, regulation, injunction or other order (which the parties hereto shall use reasonable best efforts to lift), restraining, enjoining or otherwise prohibiting the Proposed Transaction that will have become final and non-appealable;

(c) by Landscape if the Company shall have breached in any material respect any of its representations and warranties, covenants or agreements contained in this Agreement, which breach (i) cannot be cured by the Outside Date and (ii) would result in any of the conditions in Section 11.2 not being satisfied by the Outside Date;

(d) by the Company Partners' Representative if Landscape shall have breached in any material respect any of its representations and warranties, covenants or agreements contained in this Agreement, which breach (i) cannot be cured by the Outside Date and (ii) which would result in any of the conditions in Section 11.3 not being satisfied by the Outside Date;

(e) by the Company Partners' Representative if (i) all conditions in Section 11.1 and Section 11.2 have been satisfied or waived (if permissible) in accordance with the terms of this Agreement (other than those conditions that by their nature are to be satisfied at the Closing, but each of which is capable of being satisfied at the date of termination) as of the date of Closing; (ii) the Company Partners' Representative has irrevocably confirmed by written notice to Landscape that it is ready, willing and able to consummate the Closing and (iii) Landscape fails to consummate the Closing on the date on which the Closing would occur in accordance with Section 3.3 following the delivery of the notice from the Company Partners' Representative described in this Section 12.1(e)(ii); or

(f) by the mutual written consent of the Company and Landscape.

The party desiring to terminate this Agreement pursuant to clauses (a)–(e) of this Section 12.1 shall give written notice of such termination to the other party in accordance with Section 14.5, specifying the provision hereof pursuant to which such termination is affected.

Section 12.2 Effect of Termination. In the event of termination of this Agreement under Section 12.1 by written notice to the other parties, this Agreement shall become void and there will be no liability on the part of any party to this Agreement except that (a) nothing in this Agreement will relieve (i) any party to this Agreement from liability for any willful material breach or fraud by such party of the terms and provisions of this Agreement or (ii) Landscape of any liability or damage to the Company resulting from a failure by Landscape to consummate the Proposed Transaction if (A) all conditions in Section 11.1 and Section 11.2 have been satisfied or waived (if permissible) in accordance with the terms of this Agreement (other than those conditions that by their nature are to be satisfied at the Closing, but each of which is capable of being satisfied at the date of termination) as of the date on which the Closing would occur in accordance with Section 3.1; (B) the Company has irrevocably confirmed by written notice to Landscape that it is ready, willing and able to consummate the Closing and (C) Landscape fails to consummate the Closing when otherwise obligated to do so in accordance with Section 3.3 and (b) Article XII and the agreements of Landscape and the Company contained in this Section 12.2 and the Confidentiality Agreement shall survive termination of the Agreement.

Article XIII **SURVIVAL; TAX INDEMNIFICATION MATTERS**

Section 13.1 Survival of Representations, Warranties, Covenants and Agreements. The representations and warranties set forth in this Agreement (and in any certificate, document or instrument delivered in connection with this Agreement) will terminate effective as of Closing and will not, for any purpose, survive the Closing. Following the Closing, no Person will be entitled to any recovery in respect of any inaccuracy or breach thereof or to make any claim whatsoever (including any claim of detrimental reliance or breach of contract or otherwise) or to assert any other right or remedy (whether in contract, in tort, at law, in equity or otherwise) against

the Company, any Affiliate of any Company or any of their respective Representatives, except in the case of Fraud and with respect to the Tax Indemnification Matters as set forth in this Article XIII. The covenants and agreements requiring performance prior to Closing will terminate effective as of the Closing and will not for any purpose survive Closing and the other covenants and agreements set forth herein will survive the Closing in accordance with their respective terms. The parties expressly intend that the foregoing alter any applicable statutes of limitation. Each of Landscape and Merger Sub (for itself and on behalf of their respective Affiliates) hereby acknowledge and agree that these limitations on liability were expressly bargained for and are a material inducement for the Company to enter into this Agreement and consummate the Proposed Transaction contemplated hereby and in furtherance hereof hereby knowingly, voluntarily and irrevocably waive any and all rights and remedies to which they would otherwise be entitled (whether in contract, in tort, at law, in equity or otherwise) in respect of any such inaccuracy, breach, non-performance or non-compliance.

Section 13.2 Tax Indemnification. The Company Partners shall indemnify and hold harmless Landscape and its Affiliates (including, following the Closing, the Target Companies) and their respective directors, officers, employees, agents and other advisors and representatives (collectively, the “**Landscape Indemnified Parties**”), solely from amounts then available in the Tax Escrow Account, from and against any and all Losses incurred, suffered, or paid by the Landscape Indemnified Parties arising out of, relating to or resulting from the items described as Tax Indemnification Matters in Schedule 13.2 of the Company Disclosure Letter (the “**Tax Indemnification Matters**”). The amounts listed on Schedule 13.2 of the Company Disclosure Letter in a currency other than U.S. dollars shall be deemed converted into U.S. dollars at the applicable currency rate as of the date hereof.

Section 13.3 Tax Insurance Policies.

(a) Notwithstanding anything herein to the contrary, as promptly as practicable following the date hereof, Landscape shall use its reasonable best efforts to obtain, or cause to be obtained, as promptly as reasonably practicable and in no event later than December 15, 2019, a buyer’s tax insurance policy with an aggregate limit of at least \$25,000,000 with respect to the Specified Tax Indemnification Matter (the “**Buyer’s Tax Insurance Policy**”) and the Company shall, and shall cause its respective Affiliates to, reasonably cooperate with Landscape and its Affiliates in connection with their obtaining of such Buyer’s Tax Insurance Policy; provided, that, Landscape shall not, and shall cause its Representatives (including its tax insurance broker) not to, solicit a buyer’s tax insurance policy from, or otherwise discuss the Specified Tax Indemnification Matter with, any insurer other than an insurer listed on Schedule 13.3 of the Company Disclosure Letter. Upon binding of the Buyer’s Tax Insurance Policy, the Tax Escrow Amount shall be reduced from \$20,000,000 to \$10,000,000. Fifty percent (50%) of all premiums, fees and expenses associated with the Buyer’s Tax Insurance Policy (whether or not any such policy is bound) shall be a Transaction Expense.

(b) Prior to the Closing Date, the Company shall be entitled to obtain, or cause one of its Affiliates to obtain, a seller’s tax insurance policy with an aggregate limit of at least \$25,000,000 with respect to the Specified Tax Indemnification Matter (the “**Seller’s Tax Insurance Policy**”) and Landscape shall, and shall cause its respective Affiliates to, reasonably cooperate with the Company and its Affiliates in connection with their obtaining of such Seller’s

Tax Insurance Policy; provided, that the Company will not bind the Seller's Tax Insurance Policy unless Landscape has not bound the Buyer's Tax Insurance Policy on or prior to December 15, 2019. If the Company obtains a Seller's Tax Insurance Policy prior to the Closing Date the material terms of which (including the named insureds, conditions, exclusions, coverage, representations, due diligence and persons listed as knowledge parties) are reasonably acceptable to Landscape with respect to the Specified Tax Indemnification Matter, then the Tax Escrow Amount shall be reduced from \$20,000,000 to \$12,500,000. Fifty percent (50%) of all premiums, fees and expenses associated with the Seller's Tax Insurance Policy (whether or not any such policy is bound) shall be Transaction Expenses.

(c) Notwithstanding anything herein to the contrary, (i) any indemnification limitation contained in this Agreement shall not limit Landscape's ability to recover Losses under the R&W Insurance Policy, the Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable, in accordance with the terms thereof, (ii) the terms of the R&W Insurance Policy and the Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable, will be given independent effect from the terms of this Agreement, except to the extent expressly set forth in the R&W Insurance Policy or Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable, (iii) Landscape will first use commercially reasonable efforts to obtain recovery under the R&W Insurance Policy, the Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable (to the extent coverage is reasonably available thereunder, it being understood that the Tax Escrow Account may be used to cover any deductible under any such policy), and (iv) Landscape will ensure that the R&W Insurance Policy and the Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable (if obtained), expressly excludes any right of subrogation by the insurers thereunder against the Company Partners or their Affiliates, except in the case of Fraud.

Section 13.4 Claim Procedure.

(a) A Landscape Indemnified Party will give prompt written notice (a "**Claim Notice**") to the Company Partners' Representative containing (i) a summary of the resolution or judgment of the relevant Tax Authority with respect to a Tax Indemnification Matter and (ii) the estimated or actual amount of Losses incurred. Notwithstanding the foregoing, no delay or deficiency on the part of the Landscape Indemnified Party in so notifying the Company Partners' Representative will relieve the Company Partners of any Liability under this Agreement, except to the extent the Company Partners or the Company Partners' Representative is actually prejudiced by such delay or deficiency.

(b) Within ten (10) Business Days after delivery of a Claim Notice, the Company Partners' Representative will deliver to the Landscape Indemnified Party a written response in which the Company Partners' Representative will either (x) agree that the Landscape Indemnified Party is entitled to indemnification for the Losses identified on such Claim Notice under Section 13.2 or (y) dispute the Landscape Indemnified Party's entitlement to indemnification for some or all of the Losses described in the Claim Notice.

(c) In the event of any dispute with respect to the Claim Notice or otherwise in connection with Tax Indemnification Matters, the dispute may be resolved by any legally available means consistent with Section 14.13.

(d) All Landscape Indemnified Parties' sole recourse for any indemnification claim pursuant to Section 13.2 shall be against the Tax Escrow Account and the Buyer's Tax Insurance Policy or the Seller's Tax Insurance Policy, as applicable. If a Landscape Indemnified Party is entitled to indemnification pursuant to Section 13.2, the Company Partners' Representative and Landscape shall promptly provide joint written instructions to the Escrow Agent pursuant to Section 13.5 to release from the Tax Escrow Account to such Landscape Indemnified Party an agreed amount of Losses incurred (an "**Escrow Payment**").

(e) Landscape shall have sole control over the conduct and settlement of all Tax Proceedings, and the preparation and filing of all Tax Returns (including the U.K. corporate income Tax Returns for the UK Target Companies for the accounting period ending December 31, 2018), relating to Tax Indemnification Matters, and the Company Partners' Representative shall take any and all actions, including executing any powers of attorney, that are necessary to give Landscape such control; provided, that Landscape shall reasonably consult with the Company Partners' Representative in connection with the conduct and settlement of such Tax Proceedings; provided, further, that if Landscape intends to seek recovery from the Tax Escrow Account with respect to a Tax Indemnification Matter, Landscape shall not settle or otherwise compromise any such Tax Proceeding (or file such Tax Return) relating to such Tax Indemnification Matter without the written consent of the Company Partners' Representative (such consent not to be unreasonably withheld, conditioned or delayed). The preparation and filing of such Tax Returns and the costs and expenses thereof shall be borne by Landscape subject to its right to indemnity under Section 13.2 and available insurance, including any Buyer's Tax Insurance Policy or Seller's Insurance Policy, as applicable. For the avoidance of doubt, Landscape shall have the right with the prior written consent of the Company Partners' Representative (such consent not to be unreasonably withheld, conditioned or delayed) but not the obligation, to commence voluntary discussions or other communications with the applicable Taxing Authority with respect to any Tax Indemnification Matter with a view to bringing such Tax Indemnification Matter to final resolution.

(f) If any Landscape Indemnified Party receives from any Taxing Authority a refund of Taxes (or a credit applied in lieu of such refund) or a payment under the Buyer's Tax Insurance Policy reimbursing it for a Loss related to a Tax Indemnification Matter with respect to which an Escrow Payment has been made pursuant to Section 13.3(d), such Landscape Indemnified Party shall pay to the Company Partners' Representative the amount of any such refund, credit or insurance reimbursement within thirty (30) days after receipt thereof, less any Taxes and reasonable out-of-pocket costs and expenses incurred by any Landscape Indemnified Party in connection with obtaining and receiving any such refund, credit or reimbursement.

(g) In the event of any discrepancy or conflict between the provisions of this Article XIII and Section 10.12, this Article XIII shall control.

Section 13.5 Release of Tax Escrow Account. The Company Partners' Representative and Landscape shall provide joint written instructions to the Escrow Agent to release the remaining portion of the Tax Escrow Account (as reduced for any Escrow Payments pursuant to Section 13.4(d)), if any, promptly following the Escrow Release Date; provided, that, if a Tax Proceeding related to a Tax Indemnification Matter (or portion thereof) has been

commenced on or prior to the Escrow Release Date (and not resolved), the portion of the Tax Escrow Account relating to such Tax Indemnification Matter (or portion thereof) shall not be released at such time and shall be held in the Tax Escrow Account pending final resolution of such Tax Indemnification Matter. Any amounts released from the Tax Escrow Account pursuant to this Section 13.5 shall be paid to the Company Partners' Representative for distribution to the Company Partners in accordance with each Company Partner's pro-rata portion of the Aggregate Consideration as set forth on the Consideration Schedule. Notwithstanding the foregoing, to the extent the amount of funds contained in the Tax Escrow Account shall exceed the aggregate amount of all exposures for Tax Indemnification Matters identified on Schedule 13.2 of the Company Disclosure Letter (solely to the extent such Tax Indemnification Matters remain unresolved), then the Company Partners' Representative and Landscape shall provide joint written to the Escrow Agent to release an amount equal to such excess from the Tax Escrow Account.

Section 13.6 Income on the Tax Escrow Account. The parties agree that, for tax purposes, the Tax Escrow Amount shall be treated as property of Landscape and, accordingly, all dividends, interest, gains or other income earned or realized in the Tax Escrow Account ("**Escrow Income**") shall be treated as income earned by Landscape, whether or not such Escrow Income has been distributed to Landscape; provided, that the Company Partners' Representative and Landscape shall provide joint written instructions to the Escrow Agent to release an amount to Landscape equal to (x) the amount of any taxable income recognized by Landscape in respect of the Escrow Income, multiplied by (y) twenty-five percent (25%). All Escrow Income shall be added to the Tax Escrow Amount.

Section 13.7 Sole Recourse. From and after the Closing, except in the case of Fraud, on the part of the Company, the Company Partner's or the Company Partners' Representative, Landscape and its Affiliates' sole recourse and remedy for any breaches of any representation or warranty or pre-closing covenant contained in this Agreement (or any certificate, document or instrument delivered in connection with this Agreement) shall be the R&W Insurance Policy, the Seller's Tax Insurance Policy and Buyer's Tax Insurance Policy and, with the respect to the Tax Indemnification Matters, as set forth in this Agreement.

Article XIV

MISCELLANEOUS

Section 14.1 Announcements.

(a) The parties hereto shall not issue any press release or otherwise make any public statement with respect to this Agreement or the Proposed Transaction without the prior approval of Landscape and the Company Partners' Representative (such approval not to be unreasonably withheld, conditioned or delayed).

(b) The restriction in Section 14.1(a) shall not apply to the extent the public announcement is required by Law or any Governmental Authority; provided, however, that in the case of this clause (b) the party making the announcement shall use its reasonable best efforts to consult with the other party in advance as to its form, content and timing.

Section 14.2 Assignment. This Agreement and the rights and obligations hereunder may not be assigned unless such assignment is consented to in writing by Landscape and the Company Partners' Representative. This Agreement and all the provisions hereof shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns.

Section 14.3 Specific Performance. The parties hereby acknowledge and agree that the failure of any party to perform its agreements and covenants hereunder, including its failure to take all actions as are necessary on its part to consummate the Proposed Transaction, will cause irreparable injury to the other parties, for which monetary damages, even if available, will not be an adequate remedy. Accordingly, each party hereby consents to the granting of injunctive relief by any court of competent jurisdiction to prevent breaches of this Agreement, to enforce specifically the terms and provisions hereof and to compel performance of such party's obligations (including the taking of such actions as are required of such party to consummate the Proposed Transaction), this being in addition to any other remedy to which any party is entitled under this Agreement. The parties further waive any requirement for the securing or posting of any bond in connection with any such remedy, and that such remedy shall be in addition to any other remedy to which a party is entitled at law or in equity.

Section 14.4 Costs and Expenses.

(a) In the event the Proposed Transaction is consummated, Landscape shall be responsible for all costs, charges and other expenses incurred by Landscape and the Target Companies in connection with the Proposed Transaction.

(b) In the event the Proposed Transaction is not consummated, except as otherwise provided in this Agreement, the Company, on the one hand, and Landscape, on the other hand, shall each be responsible for their own costs, charges and other expenses incurred in connection with the Proposed Transaction.

Section 14.5 Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this Agreement will be in writing and will be deemed to have been given when delivered personally to the recipient or when sent to the recipient by facsimile (receipt confirmed) or email, one (1) Business Day after the date when sent to the recipient by reputable overnight express courier services (charges prepaid) or three (3) Business Days after the date when mailed to the recipient by certified or registered mail, return receipt requested and postage prepaid; provided that any notice received at the addressee's location on any Business Day after 5:30 p.m. (addressee's local time) shall be deemed to have been received by 9:00 a.m. (addressee's local time) on the next Business Day. Section 14.6 Entire Agreement. This Agreement, the Transaction Documents and the Confidentiality Agreement set forth the entire agreement among the parties in respect of the Proposed Transaction and supersede any prior agreement (whether oral or written) relating to the Proposed Transaction among the parties or any of their respective Affiliates. No party or any of its Affiliates shall have any claim or remedy in respect of any statement, representation, warranty or undertaking, made by or on behalf of the other party or any of its Affiliates in relation to the Proposed Transaction which is not expressly set forth in this Agreement.

Section 14.7 Waivers. No failure or delay by a party in exercising any right or remedy provided by Law or under this Agreement shall impair such right or remedy or operate or

Section 14.8 Counterparts. This Agreement may be executed in any number of separate counterparts (including by means of facsimile or portable document format (.pdf)), each of which is an original but all of which taken together shall constitute one and the same instrument.

Section 14.9 Amendments. No amendment to this Agreement shall be valid unless it is in writing and duly executed by Landscape and the Company Partners' Representative.

Section 14.10 Severability. Each of the provisions of this Agreement is severable. If any such provision is held to be or becomes invalid or unenforceable in any respect under the Law of any jurisdiction, it shall have no effect in that respect and the parties shall use reasonable best efforts to replace it in that respect with a valid and enforceable substitute provision the effect of which is as close to its intended effect as possible.

Section 14.11 Third-Party Beneficiaries. No Person who is not a party to this Agreement shall have any right to enforce any of its terms and this Agreement is not intended to give any Person other than the parties hereto and their permitted assigns any rights hereunder.

Section 14.12 Governing Law. THIS AGREEMENT AND ANY CLAIM, CONTROVERSY OR DISPUTE ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTION DOCUMENTS OR ANY TRANSACTION CONTEMPLATED HEREBY OR THEREBY, THE RELATIONSHIP OF THE PARTIES HERETO OR THERETO, THE PROPOSED TRANSACTION AND/OR THE INTERPRETATION AND ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER OR RELATED IN ANY WAY TO THE FOREGOING, SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE DOMESTIC LAW OF THE STATE OF DELAWARE WITHOUT GIVING EFFECT TO ANY CHOICE OR CONFLICT OF LAW PROVISION OR RULE (WHETHER OF THE STATE OF DELAWARE OR ANY OTHER JURISDICTION) THAT WOULD CAUSE THE APPLICATION OF THE LAWS OF ANY JURISDICTION OTHER THAN THE STATE OF DELAWARE. THE PARTIES EXPRESSLY ACKNOWLEDGE AND AGREE THAT (A) THE REQUIREMENTS OF 6 DEL. C. § 2708 ARE SATISFIED BY THE PROVISIONS OF THIS AGREEMENT AND THAT SUCH STATUTE MANDATES THE APPLICATION OF DELAWARE LAW TO THIS AGREEMENT, THE RELATIONSHIP OF THE PARTIES, THE PROPOSED TRANSACTION AND THE INTERPRETATION AND ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER, (B) THE PARTIES HAVE A REASONABLE BASIS FOR THE APPLICATION OF DELAWARE LAW TO THIS AGREEMENT, THE RELATIONSHIP OF THE PARTIES, THE PROPOSED TRANSACTION AND THE INTERPRETATION AND ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER, (C) NO OTHER JURISDICTION HAS A MATERIALLY GREATER INTEREST IN THE FOREGOING AND (D) THE APPLICATION OF DELAWARE LAW WOULD NOT BE CONTRARY TO THE FUNDAMENTAL POLICY OF ANY OTHER JURISDICTION THAT, ABSENT THE PARTIES' CHOICE OF DELAWARE LAW HEREUNDER, WOULD HAVE AN INTEREST IN THE FOREGOING.

Section 14.13 Dispute Resolution. EACH PARTY IRREVOCABLY SUBMITS TO THE EXCLUSIVE GENERAL JURISDICTION OF THE DELAWARE COURT OF THE CHANCERY AND ANY STATE APPELLATE COURT THEREFROM WITHIN THE STATE OF DELAWARE (OR, ONLY IF THE DELAWARE COURT OF CHANCERY DECLINES TO ACCEPT JURISDICTION OVER A PARTICULAR MATTER, ANY STATE OR FEDERAL COURT SITTING IN THE STATE OF DELAWARE) FOR THE PURPOSES OF ANY SUIT, ACTION OR OTHER PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTION DOCUMENTS OR ANY TRANSACTION CONTEMPLATED HEREBY OR THEREBY, THE RELATIONSHIP OF THE PARTIES HERETO AND THERETO, THE PROPOSED TRANSACTION AND/OR THE INTERPRETATION OR ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER OR RELATED IN ANY WAY TO THE FOREGOING AND AGREES THAT ALL CLAIMS IN RESPECT OF THE SUIT, ACTION OR OTHER PROCEEDING MAY BE HEARD AND DETERMINED IN ANY SUCH COURT. EACH PARTY AGREES TO COMMENCE ANY SUCH SUIT, ACTION OR OTHER PROCEEDING SOLELY IN THE DELAWARE COURT OF THE CHANCERY (OR, ONLY IF THE DELAWARE COURT OF CHANCERY DECLINES TO ACCEPT JURISDICTION OVER A PARTICULAR MATTER, ANY STATE OR FEDERAL COURT SITTING IN THE STATE OF DELAWARE). EACH PARTY WAIVES ANY DEFENSE OF IMPROPER VENUE OR INCONVENIENT FORUM TO THE MAINTENANCE OF ANY ACTION OR PROCEEDING SO BROUGHT AND WAIVES ANY BOND, SURETY OR OTHER SECURITY THAT MIGHT BE REQUIRED OF ANY OTHER PARTY WITH RESPECT THERETO. ANY PARTY MAY SERVE ANY OTHER PARTY WITH LEGAL PROCESS BY SENDING OR DELIVERING A COPY OF THE PROCESS TO THE PARTY TO BE SERVED AT THE ADDRESS AND IN THE MANNER PROVIDED FOR THE GIVING OF NOTICES IN SECTION 14.5. NOTHING IN THIS SECTION 14.13, HOWEVER, SHALL AFFECT THE RIGHT OF ANY PARTY TO SERVE LEGAL PROCESS IN ANY OTHER MANNER PERMITTED BY LAW OR AT EQUITY. EACH PARTY AGREES THAT A FINAL JUDGMENT IN ANY SUIT, ACTION OR PROCEEDING SO BROUGHT SHALL BE CONCLUSIVE AND MAY BE ENFORCED BY SUIT ON THE JUDGMENT OR IN ANY OTHER MANNER PROVIDED BY LAW OR AT EQUITY. EACH OF THE PARTIES HEREBY WAIVES ITS RIGHT TO A JURY TRIAL WITH RESPECT TO ANY SUIT, ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTION DOCUMENTS OR ANY TRANSACTION CONTEMPLATED HEREBY OR THEREBY, THE RELATIONSHIP OF THE PARTIES HERETO OR THERETO, THE PROPOSED TRANSACTION AND/OR THE INTERPRETATION OR ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HEREUNDER OR RELATED IN ANY WAY TO THE FOREGOING. EACH OF THE PARTIES (I) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HERETO HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVERS AND (II) ACKNOWLEDGES THAT SUCH OTHER PARTY HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE WAIVERS AND CERTIFICATIONS CONTAINED HEREIN.

- 2.8 The Register of Members may be in any such form as the Directors may approve, but if it is in magnetic, electronic or other data storage form, the Company must be able to produce legible evidence of its contents. Until the Directors otherwise determine, the magnetic, electronic or other data storage form shall be the original Register of Members.
- 2.9 A share is deemed to be issued when the name of the Member is entered in the Register of Members.
- 2.10 Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and (except as otherwise provided by these Articles or by law) the Company shall not be bound by or recognise (even when having notice thereof) any interest in any share other than an absolute right of the registered holder to the entirety of a share or fraction thereof.
- 2.11 On a winding up of the Company the assets (if any) of the Company available for distribution to Members shall be distributed to the holders of Ordinary Shares and Series A Founder Preferred Shares pro rata to the number of such paid up shares held by each holder relative to the total number of issued and paid up Ordinary Shares as if such paid up Series A Founder Preferred Shares had been converted into Ordinary Shares immediately prior to the winding-up on a one-for-one basis, subject to adjustment in accordance with these Articles.

- 2.12 The Company may, subject to the provisions of the Act and of these Articles, issue warrants or grant options to subscribe for shares in the Company. Such warrants or options shall be issued upon such terms and subject to such conditions as may be resolved upon by the Board.

3 PRE-EMPTIVE RIGHTS

- 3.1 Section 46 of the Act does not apply to the Company.
- 3.2 Subject to the other provisions of this Article 3, with effect following Admission the Company shall not issue any equity securities (and shall not sell any of them from treasury) to a person on any terms unless:
- (a) it has made a written offer to each person who is a holder of equity securities of that class (other than the Company itself by virtue of it holding Treasury Shares) to issue to him on the same or more favourable terms a proportion of those equity securities which is as nearly as practicable equal to the proportion in value held by the holders of the relevant class(es) of equity securities then in issue; and
 - (b) the period during which any such offer may be accepted by the relevant current holders has expired or the Company has received a notice of the acceptance or refusal of every offer so made from such holders.
- 3.3 Equity securities that the Company has offered to issue to a holder of equity securities in accordance with Article 3.2 may be issued to him, or anyone in whose favour he has renounced his right to their issue, without contravening Article 3.2.
- 3.4 An offer under Article 3.2 shall be made to holders in writing in accordance with the notice provisions of these Articles.
- 3.5 Where equity securities are held by two or more persons jointly, an offer under Article 3.2 may be made to the joint holder first named in the Register of Members in respect of those equity securities.
- 3.6 In the case of a holder's death or bankruptcy, the offer must be made:
- (a) by sending it by post in a prepaid letter addressed to the persons claiming to be entitled to the equity securities in consequence of the death or bankruptcy by name, or by the title of the representatives of the deceased, or trustee of the bankruptcy, or by any like description, at the address supplied for the purpose by those claiming; or

- (b) until any such address has been so supplied giving the notice in any manner in which it would have been given if the death or bankruptcy has not occurred.
- 3.7 If the relevant holder in relation to an offer under Article 3.2 has no registered address in the United Kingdom or the British Virgin Islands for the service of notices on him the offer may be made by causing it or a notice of where a copy may be obtained or inspected to be published in:
 - (i) at least one United Kingdom national daily newspaper; and (ii) either one newspaper circulated widely in the British Virgin Islands or the BVI Gazette.
- 3.8 An offer pursuant to Article 3.2 must state a period of not less than 14 (fourteen) calendar days during which it may be accepted and the offer shall not be withdrawn before the end of that period.
- 3.9 The provisions of Article 3.2 shall not apply in relation to the issue of:
 - (a) bonus shares;
 - (b) equity securities if they are, or are to be, wholly or partly paid up otherwise than in cash; and
 - (c) equity securities which would apart from any renunciation or assignment of the right to their issue, be held under an employee share scheme.
- 3.10 Equity securities held by the Company as Treasury Shares are disregarded for the purpose of this Article 3 so that:
 - (a) the Company is not treated as a person who holds equity securities; and
 - (b) equity securities held as Treasury Shares are not treated as shares in issue of the Company.
- 3.11 Subject to the Act, the Directors may be given by virtue of a Special Resolution of Members the power to issue or sell from treasury equity securities of any class either generally or in respect of a specific issue or sale and, on the passing of the resolution, the Directors shall have the power to issue or sell from treasury pursuant to that authority, equity securities wholly for cash as if the provisions of Article 3.2 above do not apply to the issue or sale from treasury and the authority granted by the Special Resolution of Members may be granted for such period of time as such resolution permits and such authority may be revoked by a further Special Resolution of Members. Notwithstanding that any such resolution may have expired, the Directors may issue or sell from treasury equity securities in pursuance of an offer or agreement previously made by the Company, if the resolution enabled the Company to make an offer or agreement which would or might require equity securities to be issued or sold from treasury after it expired.

- 4.1 The holders of the Series A Founder Preferred Shares shall be entitled to receive, when, as and if declared by the Board out of assets legally available therefor (and payable in preference and priority to the declaration or payment of any dividends on any Ordinary Shares) a cumulative annual dividend of the Annual Dividend Amount for each relevant Dividend Year commencing from the date that is: (i) after the Closing Date; and (ii) after the Average Price per share of Ordinary Shares has been \$11.50 per share or more (as adjusted to account for any subdivision (by share split, subdivision, exchange, dividend, reclassification, recapitalisation or otherwise) or combination (by reverse share split, exchange, reclassification, recapitalisation or otherwise) or similar reclassification or recapitalisation of the outstanding Ordinary Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalisation of the outstanding Series A Founder Preferred Shares) for any 10 (ten) consecutive Trading Days. The Annual Dividend Amount shall be paid in cash or in Ordinary Shares, as determined by the Board in its sole discretion. The Annual Dividend Amount shall be allocated among the holders of Series A Founder Preferred Shares pro rata based on the number of Series A Founder Preferred Shares held by them on the record date for determining the holders of shares of Series A Founder Preferred Shares entitled to receive payment of the Annual Dividend Amount. In the event that the Annual Dividend Amount for the relevant Dividend Year is determined by the Board in its sole discretion to be paid in Ordinary Shares, the aggregate number of Ordinary Shares to be issued therefor shall be determined by dividing the Annual Dividend Amount by the Dividend Price for that Dividend Year; provided, however, that the Company shall not issue fractional shares of Ordinary Shares in connection with the payment of such Annual Dividend Amount and instead, any fractional share of Ordinary Shares otherwise issuable to any holder of Series A Founder Preferred Shares in connection with the payment of such Annual Dividend Amount shall be rounded down to the nearest whole share. For the avoidance of doubt, the Annual Dividend Amount for the relevant Dividend Year shall be payable in full and shall not be subject to prorating notwithstanding such Dividend Year being longer or shorter than 12 (twelve) months. In the event that the Annual Dividend Amount is determined by the Board in its sole discretion to be paid in Ordinary Shares, and Ordinary Shares (or any interests therein) are listed on the London Stock Exchange, the NYSE or other United States securities exchange or quotation system, as applicable, then the Company shall use reasonable efforts, including by the issuance of a prospectus, listing document, registration statement or similar document as may be required so that, upon the payment of such Annual Dividend Amount in Ordinary Shares, such Ordinary Shares are promptly admitted to or listed on such securities exchange or quotation system.

- 4.2 In the event dividends are declared and paid or set aside for payment on the outstanding Ordinary Shares, then there shall also be declared and paid or set aside for payment on the outstanding Series A Founder Preferred Shares an amount per Series A Founder Preferred Share equal to the amount determined by multiplying the dividend amount per Ordinary Share being declared and paid or set aside for payment on the outstanding Ordinary Shares by the number of Ordinary Shares into which each Series A Founder Preferred Share could then be converted pursuant to Article 5.
- 4.3 In the event dividends are declared and paid or set aside for payment on the outstanding Ordinary Shares from and after the Closing Date, an aggregate amount equal to 20 (twenty) per cent. of the dividend which would be distributed on such number of outstanding Ordinary Shares equal to the Preferred Share Dividend Equivalent, such aggregate amount to be allocated among the holders of Series A Founder Preferred Shares pro rata based on the number of Series A Founder Preferred Shares held by them on the record date for determining the holders of Series A Founder Preferred Shares entitled to receive payment of such dividend amount.

5 CONVERSION OF FOUNDER PREFERRED SHARES

- 5.1 Upon the Mandatory Conversion Date: (i) each outstanding Series A Founder Preferred Share shall automatically be converted into 1 (one) Ordinary Share, as adjusted to account for any subdivision (by share split, subdivision, exchange, dividend, reclassification, recapitalisation or otherwise) or combination (by reverse share split, exchange, reclassification or otherwise) or similar reclassification or recapitalisation of the outstanding Ordinary Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalisation of the outstanding Series A Founder Preferred Shares; and (ii) each outstanding Series B Founder Preferred Share shall automatically be converted into 1 (one) Class B Share, as adjusted to account for any subdivision (by share split, subdivision, exchange, dividend, reclassification, recapitalisation or otherwise) or combination (by reverse share split, exchange, reclassification or otherwise) or similar reclassification or recapitalisation of the outstanding Class B Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series B Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalisation of the outstanding Series B Founder Preferred Shares.
- 5.2 Each outstanding: (i) Series A Founder Preferred Share may be converted into 1 (one) Ordinary Share, as adjusted to account for any subdivision (by share split, subdivision, exchange, dividend, reclassification, recapitalisation or otherwise) or combination (by reverse share split, exchange, reclassification or otherwise) or similar reclassification or recapitalisation of the outstanding Ordinary Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series A Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalisation of the outstanding Series A Founder Preferred Shares; and (ii) Series B Founder Preferred

Share may be converted into 1 (one) Class B Share, as adjusted to account for any subdivision (by share split, subdivision, exchange, dividend, reclassification, recapitalisation or otherwise) or combination (by reverse share split, exchange, reclassification or otherwise) or similar reclassification or recapitalisation of the outstanding Class B Shares into a greater or lesser number of shares occurring after the first issuance of one or more Series B Founder Preferred Shares without a proportionate and corresponding subdivision, combination or similar reclassification or recapitalisation of the outstanding Series B Founder Preferred Shares, in either case, by written notice of the holder thereof delivered to the Company specifying the number of Series A Founder Preferred Shares or the number of Series B Founder Preferred Shares, as applicable, to be converted (if such notice is silent as to the number of Series A Founder Preferred Shares or the number of Series B Founder Preferred Shares, as applicable, held by the holder and proposed to be converted hereunder, the notice shall be deemed to apply to all Series A Founder Preferred Shares or all Series B Founder Preferred Shares, as applicable, held by such holder) and the surrender of the certificate(s), if any, representing the Series A Founder Preferred Shares or the Series B Founder Preferred Shares, as applicable, proposed to be converted hereunder, duly endorsed for transfer to the Company, on the 5th (fifth) Trading Day following receipt of said notice and certificate(s), if any, by the Company (the **Optional Conversion Date**). In the event of a conversion of any Series A Founder Preferred Share(s) pursuant to this Article 5.2, the holder whose shares are so converted shall not be entitled to receive, in respect of the Series A Founder Preferred Shares so converted, the relevant pro rata amount of the Annual Dividend Amount which may have been attributable to such Series A Founder Preferred Shares in respect of the Dividend Year in which the Optional Conversion Date occurs.

- 5.3 As a condition to conversion of Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, into Ordinary Shares or Class B Shares, as applicable, pursuant to Article 5.2, such holder shall surrender the certificate(s), if any, representing such Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, to the Company, duly endorsed for transfer to the Company. The Company shall, as soon as practicable, and in no event later than ten (10) days after the delivery of said certificate(s), if any, issue and deliver to such holder, or the nominee or nominees of such holder, confirmation of or certificate(s) representing, as applicable, the number of Ordinary Shares or Class B Shares, as applicable, to which such holder shall be entitled under this Article 5, and the certificate(s), if any, representing any Series A Founder Preferred Share(s) or any Series B Founder Preferred Share(s), as applicable, so converted shall be cancelled. The person(s) entitled to receive Ordinary Shares or Class B Shares, as applicable, issuable upon conversion of Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, pursuant to this Article 5 shall be treated for all purposes as the record holder(s) of such Ordinary Shares or Class B Shares, as applicable, as of the Mandatory Conversion Date or the Optional Conversion Date, as applicable.

- 5.4 Conversion of the Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, pursuant to this Article 5 shall be in such manner as may be determined by the Company, including, without limitation, by redemption of such shares and applying the proceeds in the subscription for the applicable number of Ordinary Shares or Class B Shares, as applicable, by means of sub-division and/or consolidation and/or a combination of both (in which case, for the avoidance of doubt, the requisite sub-division and/or consolidation shall be effected pursuant to the provisions of these Articles), by automatically converting the Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, into Ordinary Shares or Class B Shares, as applicable, or by redesignating any such Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, as Ordinary Shares or Class B Shares, as applicable.

6 ADJUSTMENT

- 6.1 In any circumstances where the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, determine that an adjustment should be made to: (i) any factor relevant for the calculation of the Annual Dividend Amount (including the amount which the Average Price per Ordinary Share must meet or exceed for any ten consecutive Trading Days in order for the right to an Annual Dividend Amount to commence (initially set at US\$11.50)); or (ii) the Preferred Share Dividend Equivalent, whether following a consolidation or sub-division of the issued and outstanding Ordinary Shares, the Company will either: (x) make such adjustment as is mutually determined by the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares (acting reasonably), voting separately as a single class, or (y) failing agreement within a reasonable time, at the Company's expense appoint auditors, or such other person as the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, shall, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) shall be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration shall not apply, the determination of the auditors (or such other expert as may be appointed) shall be final and binding on all concerned and the auditors (or such other expert as may be appointed) shall be given by the Company all such information and other assistance as they may reasonably require.
- 6.2 In any circumstances where: (i) the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class; or (ii) the holders of a majority in voting power of the outstanding Series B Founder Preferred Shares, voting together as a single class, as applicable, determine that an adjustment should be made to the number of Ordinary Shares into which the outstanding Series A Founder Preferred Shares or to the number of Class B Shares into which the outstanding Series B Founder Preferred Shares, as applicable, shall convert, whether following a consolidation or sub-division of the issued and outstanding

Ordinary Shares or Class B Shares, as applicable, the Company will either: (i) make such adjustment as is mutually determined by the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class or the holders of a majority in voting power of the outstanding Series B Founder Preferred Shares, voting together as a single class, as applicable, acting reasonably; or (ii) failing agreement within a reasonable time, at the Company's expense appoint auditors, or such other person as the Company and the holders of a majority of the outstanding Series A Founder Preferred Shares, voting separately as a single class, or the holders of a majority in voting power of the outstanding Series B Founder Preferred Shares, voting together as a single class, as applicable, shall, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) shall be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration shall not apply, the determination of the auditors (or such other expert as may be appointed) shall be final and binding on all concerned and the auditors (or such other expert as may be appointed) shall be given by the Company all such information and other assistance as they may reasonably require.

- 6.3 Without the prior vote of the holders of a majority of the Ordinary Shares then outstanding and the holders of a majority of the Class B Shares then outstanding, each voting separately as a single class, no reclassification, subdivision or combination shall be effected on the Ordinary Shares unless the same reclassification, subdivision or combination, in the same proportion and manner, is made on the Class B Shares.

7 DISCLOSURE REQUIREMENTS

- 7.1 The Company may, by notice in writing (a **Disclosure Notice**) require a person whom the Company knows to be or has reasonable cause to believe is or, at any time during the 3 (three) years immediately preceding the date on which the Disclosure Notice is issued, to have been interested in any shares:

- (a) to confirm that fact or (as the case may be) to indicate whether or not it is the case; and
- (b) to give such further information as may be required in accordance with Article 7.2.

- 7.2 A Disclosure Notice may (without limitation) require the person to whom it is addressed:

- (a) to give particulars of his status (including whether such person constitutes or is acting on behalf of or for the benefit of a Plan or is a US Person), domicile, nationality and residency;

- (b) to give particulars of his own past or present interest in any shares (held by him at any time during the 3 (three) year period specified in Article 7.1);
 - (c) to disclose the identity of any other person who has a present interest in the shares held by him;
 - (d) where the interest is a present interest and any other interest in any shares subsisted during that 3 (three) year period at any time when his own interest subsisted, to give (so far as is within his knowledge) such particulars with respect to that other interest as may be required by the Disclosure Notice; and
 - (e) where his interest is a past interest to give (so far as is within his knowledge) like particulars of the identity of the person who held that interest immediately upon his ceasing to hold it.
- 7.3 Any Disclosure Notice shall require any information in response to such notice to be given within the prescribed period (which is 14 (fourteen) calendar days after service of the notice or 7 (seven) days if the shares concerned represent 0.25 (nought point two five) per cent. or more in number of the issued shares of the relevant class) or such other reasonable period as the Directors may determine.
- 7.4 If any Member is in default in supplying to the Company the information required by the Company within the prescribed period or such other reasonable period as the Directors determine, the Directors in their discretion may serve a direction notice on the Member. The direction notice may direct that in respect of the shares in respect of which the default has occurred (the **Default Shares**) the Member shall not be entitled to attend or vote in meetings of Members or class meetings until such default is rectified. Where the Default Shares represent at least 0.25 (nought point two five) per cent. in number of the class of shares concerned the direction notice may additionally direct that dividends on such shares will be retained by the Company (without interest) and that no transfer of the Default Shares (other than a transfer authorised under the Articles) shall be registered until the default is rectified; or where the Directors have any grounds to believe that such Default Shares are held by or for the benefit of or by persons acting on behalf of a Plan or a US Person, the Directors may in their discretion deem the Default Shares to be held by, or on behalf of or for the benefit of, a Plan or a US Person (as the Directors may determine) and that the provisions of Article 14 should apply to such Default Shares.
- 7.5 Where Default Shares in which a person appears to be interested are held by a Depositary, the provisions of this Article 7 shall be treated as applying only to those shares held by the Depositary in which such person appears to be interested and not (insofar as such person's apparent interest is concerned) to any other shares held by the Depositary.

- 7.6 Where the Member on which a Disclosure Notice is served is a Depositary acting in its capacity as such, the obligations of the Depositary as a Member shall be limited to disclosing to the Company such information relating to any person appearing to be interested in the shares held by it, as has been recorded by it pursuant to the arrangements entered into by the Company or approved by the Board pursuant to which it was appointed as a Depositary.

8 CERTIFICATES

- 8.1 The Company may (but shall not be obliged to) issue to a Member without payment one certificate for all the shares of each class or series held by him (and upon transferring a part of his holding of shares of any class or series to a certificate for the balance of such holding) or several certificates each for one or more of his certificated shares upon payment, for every certificate after the first, of such reasonable sum as the Directors may determine. Every certificate shall specify the number, class or series and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up or partly paid thereon. The Company shall not be bound to issue more than one certificate for certificated shares held jointly by several persons and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them.
- 8.2 All forms of certificate for shares or any other form of security shall be issued in such manner as the Directors may determine which may include under the Seal, which may be affixed to or printed on it or in such other manner as the Directors may approve, having regard to the terms of allotment or issue of shares, and shall be signed autographically unless there shall be in force a Resolution of Directors adopting some method of mechanical signature in which event the signatures (if authorised by such resolution) may be appended by the method so adopted.
- 8.3 If a share certificate is defaced, worn out, lost or destroyed it may be renewed on such terms (if any) as to evidence and indemnity and payment of the liability and expenses reasonably incurred by the Company in investigating evidence as the Directors may determine but otherwise free of charge and (in the case of defacement or wearing out) on delivery up of the old certificate.
- 8.4 Any Member receiving a certificate shall indemnify and hold the Company and its Directors and officers harmless from any loss or liability which it or they may incur by reason of any wrongful or fraudulent use or representation made by any person by virtue of the possession thereof.
- 8.5 No provision of these Articles shall apply so as to require the Company to issue a certificate to any person holding such shares in uncertificated form.
- 8.6 Uncertificated shares of a class or series are not to be regarded as forming a separate class or series from certificated shares of that class or series.

9 LIEN

- 9.1 The Company shall have a first and paramount lien on every share (not being a paid up share) for all monies (whether presently payable or not) payable at a fixed time or called in respect of that share. The Directors may at any time declare any share to be wholly or in part exempt from the provisions of this Article 9. The Company's lien on a share shall extend to any amount payable in respect of it.
- 9.2 The Company may sell in such manner as the Directors determine any shares on which the Company has a lien if a sum in respect of which the lien exists is presently payable and is not paid within 14 (fourteen) calendar days after notice has been given to the holder of the share or to the person entitled to it by transmission or operation of the law, demanding payment and stating that if the notice is not complied with the shares may be sold.
- 9.3 To give effect to a sale the Directors may authorise any person to execute an instrument of transfer of the shares sold to or in accordance with the directions of the purchaser. The title of the transferee to the shares shall not be affected by any irregularity in or invalidity of the proceedings in reference to the sale.
- 9.4 The net proceeds of the sale after payment of the costs shall be applied in payment of so much of the sum for which the lien exists as is presently payable and any residue shall (upon surrender to the Company for cancellation of the certificate for the shares sold and subject to a like lien for any moneys not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.

10 CALLS IN RESPECT OF SHARES AND FORFEITURE

- 10.1 Subject to the terms of allotment the Directors may make calls upon the Members in respect of any monies unpaid in respect of their shares and each Member shall (subject to receiving at least 14 (fourteen) calendar days' notice specifying when and where payment is to be made) pay to the Company as required by the notice the amount called in respect of his shares. A call may be required to be paid by instalments. A call may, before receipt by the Company of any sum due thereunder, be revoked in whole or part and payment of a call may be postponed in whole or part. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect whereof the call was made.
- 10.2 A call shall be deemed to have been made at the time when the resolution of the Directors authorising the call was passed.
- 10.3 The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

- 10.4 If a call remains unpaid after it has become due and payable the person from whom it is due and payable shall pay interest on the amount unpaid from the calendar day it became due and payable until it is paid; either at the rate fixed by the terms of allotment of the share or in the notice of the call or at such rate not exceeding 15 (fifteen) per cent. per annum as the Directors may determine. The Directors may waive payment of the interest wholly or in part.
- 10.5 An amount payable in respect of a share on allotment or at any fixed date, whether in respect of the issue price or premium or as an instalment of a call, shall be deemed to be a call and if it is not paid the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call. The Company may accept from a Member the whole or a part of the amount remaining unpaid on any shares held by him although no part of that amount has been called up.
- 10.6 Subject to the terms of allotment, the Directors may make arrangements on the issue of shares to distinguish between Members as to the amounts and times of payment of calls in respect of their shares.
- 10.7 If a call remains unpaid after it has become due and payable the Directors may give to the person from whom it is due not less than 14 (fourteen) calendar days' notice requiring payment of the amount unpaid together with any interest which may have accrued and any expenses which may have been incurred by the Company in respect thereof. The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will be liable to be forfeited.
- 10.8 If the notice is not complied with any share in respect of which it was given may at any time thereafter before the payment required by the notice has been made be forfeited by a resolution of the Directors and the forfeiture shall include all dividends or other moneys payable in respect of the forfeited shares and not paid before the forfeiture.
- 10.9 A forfeited share may be sold, re-allotted or otherwise disposed of on such terms and in such a manner as the Directors determine either to the person who was before the forfeiture the holder or to any other person and at any time before sale re-allotment or other disposition the forfeiture may be cancelled on such terms as the Directors think fit. Where for the purposes of its disposal a forfeited share is to be transferred to any person the Directors may authorise some person to execute an instrument of transfer of the share to that person.
- 10.10 A person any of whose shares have been forfeited shall cease to be a Member in respect of them and shall surrender to the Company for cancellation the certificate for any certificated shares forfeited but shall remain liable to the Company for all monies which at the date of forfeiture were presently payable by him to the Company in respect of those shares with interest at the rate at which interest was payable on those monies before the forfeiture and/or at such rate as the Directors may determine from the date of forfeiture until payment and all expenses of the Company but the Directors may waive payment wholly or in part or enforce payment without any allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal.

- 10.11 A declaration under oath by a Director or the secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share and the declaration shall (subject to the execution of an instrument of transfer if necessary) constitute a good title to the share and the person to whom the share is disposed of shall not be bound to see to the application of the consideration, if any, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings in reference to the forfeiture or disposal of the share.

11 UNTRACED SHAREHOLDERS

- 11.1 The Company may sell the share of a Member or of a person entitled by transmission at the best price reasonably obtainable at the time of sale, if:
- (a) during a period of not less than 12 (twelve) years before the date of publication of the advertisements referred to in sub-paragraph (c) of this Article 11.1 (or, if published on two different dates, the first date) (the relevant period) at least three cash dividends have become payable in respect of the share;
 - (b) throughout the relevant period no cheque payable on the share has been presented by the holder of, or the person entitled by transmission to, the share to the paying bank of the relevant cheque, no payment made by the Company by any other means permitted by Article 16.8 has been claimed or accepted and, so far as any Director of the Company at the end of the relevant period is then aware, the Company has not at any time during the relevant period received any communication from the holder of, or person entitled by transmission to, the share;
 - (c) on expiry of the relevant period the Company has given notice of its intention to sell the share by advertisement in: (i) a United Kingdom national daily newspaper; (ii) either one newspaper circulated widely in the British Virgin Islands or the BVI Gazette; and (iii) a newspaper circulating in the area of the address of the holder of, or person entitled by transmission to, the share shown in the Register of Members; and
 - (d) the Company has not, so far as the Board is aware, during a further period of three months after the date of the advertisements referred to in sub-paragraph (c) of this Article 11.1 (or the later advertisement if the advertisements are published on different dates) and before the exercise of the power of sale received a communication from the holder of, or person entitled by transmission to, the share.

- 11.2 Where a power of sale is exercisable over a share pursuant to Article 11.1 (a **Sale Share**), the Company may at the same time also sell any additional share issued in right of such Sale Share or in right of such an additional share previously so issued provided that the requirements of sub-paragraphs (b) to (d) of Article 11.1 (as if the words “throughout the relevant period” were omitted from sub-paragraph (b) and the words “on expiry of the relevant period” were omitted from sub-paragraph (c)) shall have been satisfied in relation to the additional share.
- 11.3 To give effect to a sale pursuant to Article 11.1 and Article 11.2, the Board may authorise a person to transfer the share in the name and on behalf of the holder of, or person entitled by transmission to, the share, or to cause the transfer of such share, to the purchaser or his nominee and in relation to an uncertificated share may require the operator of any Relevant System to convert the share into certificated form. The purchaser is not bound to see to the application of the purchase money and the title of the transferee is not affected by an irregularity or invalidity in the proceedings connected with the sale of the share.
- 11.4 The Company shall be indebted to the Member or other person entitled by transmission to the share for the net proceeds of sale and shall carry any amount received on sale to a separate account. The Company is deemed to be a debtor and not a trustee in respect of that amount for the Member or other person. Any amount carried to the separate account may either be employed in the business of the Company or invested as the Board may think fit. No interest is payable on that amount and the Company is not required to account for money earned on it.

12 TRANSFER OF SHARES

- 12.1 Subject to the Act and the terms of these Articles, any Member may transfer all or any of his certificated shares by an instrument of transfer in any usual form or in any other form which the Directors may approve. The Directors may, without assigning any reasons therefor, but subject to any applicable laws and regulations and the facilities and requirements of the Relevant System concerned, refuse to register the transfer of a certificated share (whether paid up or not) unless the instrument of transfer is lodged with the Company and is accompanied by any certificates for the shares to which it relates and such other evidence as the Directors may require to show the right of the transferor to make the transfer. The Directors may also refuse to register a purported transfer of a certificated or uncertificated Class B Share or Series B Founder Preferred Share (whether paid up or not) if the purported transfer does not comply with the restrictions otherwise set forth in these Articles or the OpCo LLC Agreement. Any attempt not in compliance with these Articles or the OpCo LLC Agreement to make any transfer of or with respect to any Class B Share or Series B Founder Preferred Share shall be null and void and of no force or effect, the purported transferee shall have no rights or privileges in or with respect to the Company in respect of such shares, and the Company shall not give any effect in the Register of Members to such attempted transfer.

- 12.2 Subject to the Act, the Directors may accept such evidence of title of the transfer of uncertificated shares as they shall in their discretion determine. The Directors may permit shares (or interests in shares) held in uncertificated form (including in the form of depositary interests or similar interests, instruments or Securities) to be transferred by means of a Relevant System of holding and transferring shares (or interests in shares) in uncertificated form in such manner as the Directors may determine from time to time. The Directors shall, subject always to the Act and any other applicable laws and regulations and the facilities and requirements of any Relevant System concerned and these Articles, have power to implement and/or approve any arrangements they may, in their discretion, think fit in relation to the evidencing of title to and transfer of interests in shares in the Company in uncertificated form (including in the form of depositary interests or similar interests, instruments or Securities), which may include arrangements restricting transfers, and to the extent such arrangements are so implemented, no provision of these Articles shall apply or have effect to the extent that it is in any respect inconsistent (as determined by the Directors in their discretion) with the holding or transfer thereof or the shares in the Company represented thereby. Subject always to the Act and any other applicable laws and regulations and the facilities and requirements of any Relevant System concerned and these Articles, the Directors may from time to time take such actions and do such things as they may, in their discretion, think fit in relation to the operation of any such arrangements, including, without limitation, treating holders of any depositary interests or similar interests relating to shares as if they were the holders directly thereof for the purposes of compliance with any obligations imposed by these Articles.
- 12.3 If the Directors refuse to register a transfer of a share they shall, within 15 (fifteen) Business Days after the date on which the instrument of transfer was lodged with the Company, send to the transferor and the transferee notice of the refusal.
- 12.4 No fee shall be charged for the registration of any instrument of transfer or, subject as otherwise herein provided, any other document relating to or affecting the title to any share.
- 12.5 The Company shall be entitled to retain any instrument of transfer of a certificated share which is registered but any instrument of transfer which the Directors refuse to register shall be returned to the person lodging it when notice of the refusal is given.
- 12.6 Subject always to the Act and any other applicable laws and regulations and the facilities and requirements of any Relevant System concerned and these Articles, no transfer of shares will be registered if, in the reasonable determination of the Directors, the transferee is or may be a Prohibited Person, or the transferee is or may be holding such shares on behalf of a beneficial owner who is or may be a Prohibited Person.
- 12.7 On a transfer of a Common Unit or other applicable Unit held by a holder of Class B Shares in accordance with the provisions of the OpCo LLC Agreement, such holder shall transfer an equal number of Class B Shares to the same transferee (a **Mandatory Transfer**). Each holder of Class B Shares irrevocably appoints the Company as its attorney and hereby authorises the Company to take all steps,

including signing any instruments of transfer and updating the Register of Members, in order to effect a Mandatory Transfer. To the extent permitted under, and subject to any applicable laws and regulations and the facilities and requirements of the Relevant System concerned, the Directors may instruct the operator of such Relevant System to convert any uncertificated Class B Share which is subject to a Mandatory Transfer into certificated form.

- 12.8 No holder of Class B Shares shall transfer any Class B Shares other than with an equal number of Common Units (as such number may be adjusted to equitably reflect any share split, subdivision, combination or similar change with respect to the Class B Shares or Common Units) in accordance with the OpCo LLC Agreement. The transfer restrictions described in Article 12.7 and this Article 12.8 are referred to as the **Restrictions**.
- 12.9 Any purported transfer of Class B Shares in violation of the Restrictions shall, to the fullest extent permitted by applicable law, be null and void. If, notwithstanding the Restrictions, a Person shall, voluntarily or involuntarily, purportedly become or attempt to become the purported transferee of Class B Shares (the **Purported Owner**) in violation of the Restrictions, then the Purported Owner shall, to the fullest extent permitted by applicable law, not obtain any rights in and to such Class B Shares (the **Restricted Shares**) and the purported transfer of the Restricted Shares to the Purported Owner shall, to the fullest extent permitted by applicable law, not be recognised by the Company or its transfer agent.
- 12.10 Upon a determination by the Board that a Person has attempted or is attempting to transfer or to acquire Class B Shares, or has purportedly transferred or acquired Class B Shares, in violation of the Restrictions, the Board may take such lawful action as it deems advisable to refuse to give effect to such attempted or purported transfer or acquisition on the Register of Members, including, to the fullest extent permitted by applicable law, to cause the Company's transfer agent to refuse to record the Purported Owner's transferor as the registered holder and record owner of the Class B Shares, and to institute proceedings to enjoin any such attempted or purported transfer or acquisition, or reverse any entries or records reflecting such attempted or purported transfer or acquisition.
- 12.11 Notwithstanding the Restrictions: (i) in the event that any outstanding Class B Shares shall cease to be held by a registered holder of Common Units or other applicable Units, such Class B Share shall be automatically (and without further action on the part of the Company or the holder thereof) cancelled (by way of deemed surrender by the holder) for no consideration; and (ii) in the event that any registered holder of Class B Shares no longer holds an equal number of Class B Shares and Common Units or other applicable Units (as such numbers may be adjusted to reflect equitably any share split, subdivision, combination or similar change with respect to the Class B Shares or Common Units or other applicable Units), the Class B Shares registered in the name of such holder that exceed the number of Common Units or other applicable Units held by such holder shall be automatically (and without further action on the part of the Company or such holder) cancelled (by way of deemed surrender by the holder) for no consideration.

- 12.12 The Board may, to the fullest extent permitted by applicable law, from time to time establish, modify, amend or rescind regulations and procedures that are consistent with the provisions of this Article 12 and the OpCo LLC Agreement for determining whether any transfer or acquisition of Class B Shares would violate the Restrictions and for the orderly application, administration and implementation of the provisions of this Article 12. Any such procedures and regulations shall be kept on file with the secretary of the Company and with its transfer agent and shall be made available for inspection by any prospective transferee of Class B Shares and, upon written request, shall be mailed or otherwise delivered, as determined by the Company, to a holder of Class B Shares.
- 12.13 The Board shall, to the fullest extent permitted by applicable law, have all powers necessary to implement the Restrictions, including without limitation the power to prohibit the transfer of any Class B Shares in violation thereof.
- 12.14 All certificates or book-entries representing Class B Shares (including the Register of Members) shall bear a legend substantially in the following form (or in such other form as the Board may determine):
- THE SECURITIES REPRESENTED BY THIS [CERTIFICATE] [BOOK-ENTRY] ARE SUBJECT TO THE RESTRICTIONS (INCLUDING RESTRICTIONS ON TRANSFER) SET FORTH IN THE AMENDED AND RESTATED ARTICLES OF ASSOCIATION, AS AMENDED FROM TIME TO TIME (A COPY OF WHICH IS ON FILE WITH THE SECRETARY OF DIGITAL LANDSCAPE GROUP, INC. AND SHALL BE PROVIDED FREE OF CHARGE TO ANY MEMBER MAKING A REQUEST THEREFOR).
- 12.15 If any Class B Share is converted, redeemed, repurchased or otherwise acquired by the Company, in any manner whatsoever, or is cancelled pursuant to the provisions of these Articles, the Class B Share so acquired or cancelled shall, to the fullest extent permitted by applicable law, be retired and cancelled upon such acquisition and may be reissued by the Company.

13 TRANSMISSION OF SHARES

- 13.1 Subject to the Restrictions, if a Member dies, the survivor or survivors where he was a joint holder, and his personal representatives where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest; but nothing herein contained shall release the estate of a deceased Member from any liability in respect of any share which had been held by him.

- 13.2 Subject to the Restrictions, a person becoming entitled to a share in consequence of the death, bankruptcy or incapacity of a Member may, upon such evidence being produced as the Directors may properly require, elect either to become the holder of the share or to make such transfer thereof as the deceased, bankrupt or incapacitated Member could have made. If such person elects to become the holder pursuant to the foregoing sentence, such person shall give notice to the Company to that effect. If such person elects to transfer the share pursuant to this Article 13.2, such person shall execute an instrument of transfer in respect of the share to the transferee. All of the Articles relating to the transfer of shares shall apply to the notice or instrument of transfer as if it were an instrument of transfer executed by the Member and the death, bankruptcy or incapacity of the Member had not occurred.
- 13.3 Subject to the Restrictions, a person becoming entitled to a share in consequence of the death, bankruptcy or incapacity of a Member shall have the rights to which he would be entitled if he were the holder of the share except that he shall not before being registered as the holder of the share be entitled in respect of it to attend or vote at any meeting of the Company or at any separate meeting of the holders of any class of shares in the Company.

14 COMPULSORY TRANSFER

- 14.1 Subject to the Restrictions, the Directors may require (to the extent permitted by any applicable laws and regulations and the facilities and requirements of any Relevant System concerned) the transfer by lawful sale, by gift or otherwise as permitted by law of any shares that, in the reasonable determination of the Directors, are or may be held or beneficially owned by a Prohibited Person to another person who is not a Prohibited Person (including, without limitation, an existing Member) qualified under these Articles to hold the shares. In the event that the Member cannot locate a purchaser qualified to acquire and hold the shares within such reasonable time as the Directors may determine then the Company may seek to locate (but does not guarantee that it will locate) an eligible purchaser of the shares and shall introduce the selling Member to such purchaser. If no purchaser of the shares is found by the selling Member or located by the Company before the time the Company requires the transfer to be made then the Member shall, subject to the Restrictions, be obligated to sell the shares at the highest price that any purchaser has offered and the Member agrees that the Company shall have no obligation to the Member to find the best price for the relevant shares.
- 14.2 The Directors may, from time to time, require of a Member that such evidence be furnished to them or any other person in connection with establishing the eligibility of that Member to hold shares as provided in Article 14.1 above as they shall in their discretion deem sufficient.
- 14.3 In the event that the Directors require the transfer of shares in accordance with Article 14.1 above the Directors will serve a notice (a **Transfer Notice**) on the relevant Member requiring such person within 28 (twenty-eight) calendar days to transfer the applicable shares to another person who, in the sole and conclusive judgment of the Directors is not a Prohibited Person. On and after the date of such Transfer Notice, and until registration of a transfer of the applicable shares to which

it relates the rights and privileges attaching to the relevant shares will be suspended and not capable of exercise. To the extent permitted under, and subject to any applicable laws and regulations and the facilities and requirements of any Relevant System concerned, the Directors may instruct the operator of such Relevant System to convert any uncertificated share which is subject to a Transfer Notice into certificated form.

- 14.4 Members who do not comply with the terms of any Transfer Notice shall forfeit or be deemed to have forfeited their shares immediately. The Directors, the Company and the duly authorised agents of the Company, including, without limitation, the registrar of the Company, shall not be liable to any Member or otherwise for any loss incurred by the Company as a result of any Prohibited Person breaching the compulsory transfer restrictions referred to herein and any Member who breaches such restrictions is required under these Articles to indemnify the Company for any loss to the Company caused by such breach.
- 14.5 Without limitation to any of their powers under Article 7, the Directors may at any time and from time to time call upon any Member by notice to provide them with such information and evidence as they shall reasonably require in relation to such Member or beneficial owner which relates to or is connected with their holding of or interest in shares in the Company. In the event of any failure of the relevant Member to comply with the request contained in such notice within a reasonable time as determined by the Directors in their discretion, the Directors may proceed to avail themselves of the rights conferred on them under these Articles as though the relevant Member were a Prohibited Person.

15 ALTERATION OF SHARES

- 15.1 Subject to Clause 7 of the Memorandum, the Act and Article 6.3, where the Directors consider it necessary or desirable to undertake any action as is specified in sub-paragraphs (a) to (f) below, the Company may, pursuant to a Resolution of Directors obtained at any time where such action is in relation to, or in connection with or resulting from the Acquisition, or pursuant to a Resolution of Members at any time:
- (a) consolidate and divide all or any of its shares into a smaller number than its existing shares;
 - (b) sub-divide its shares, or any of them, into shares of a larger number so, however, that in such sub-division the proportion between the amount paid and the amount (if any) unpaid on each reduced share shall be the same as in the case of the share from which the reduced share is derived;
 - (c) cancel any shares which at the date of the passing of the resolution have not been taken up or agreed to be taken up by any person;
 - (d) convert all or any of its shares denominated in a particular currency or former currency into shares denominated in a different currency, the conversion being effected at the rate of exchange (calculated to not less than three significant figures) current on the date of the resolution or on such other dates as may be specified therein;

- (e) where its shares are expressed in a particular currency or former currency, denominate or redenominate those shares, whether by expressing the amount in units or subdivisions of that currency or former currency, or otherwise; and
 - (f) reduce any of the Company's reserve accounts (including any share premium amount) in any manner.
- 15.2 Whenever as a result of a consolidation of shares any Members would become entitled to fractions of a share, the Directors may, in their discretion, on behalf of those Members, sell the shares representing the fractions for the best price reasonably obtainable to any person (including, subject to the provisions of the Act, the Company) and distribute the net proceeds of sale in due proportion among those Members. The Directors may authorise any person to execute an instrument of transfer of the shares to or in accordance with the directions of the purchaser. The transferee shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

16 DISTRIBUTIONS

- 16.1 The Directors may, by a Resolution of Directors, authorise a distribution at a time and of an amount they think fit if they are satisfied, on reasonable grounds, that, immediately after the distribution, the value of the Company's assets will exceed its liabilities and the Company will be able to pay its debts as they fall due. For the avoidance of doubt, the requirements of this Article 16.1 shall not apply in respect of any issue of Ordinary Shares to the holders of Series A Founder Preferred Shares in satisfaction of any Annual Dividend Amount to which such holders are entitled pursuant to Article 4.1.
- 16.2 Dividends may be paid in money, shares, or other property.
- 16.3 The Board may, before declaring any dividend, carry to reserve out of the profits of the Company (including any premiums received upon the issue of debenture or other securities of the Company) such sums as they think proper as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the Company may be properly applied, and pending such application may, at the like discretion, either be employed in the business of the Company or be invested in such investments as the Board may from time to time think fit. The Board may also without placing the same to reserve carry forward any profits which they may think prudent not to divide.

- 16.4 All dividends or other distributions (including but not limited to dividends or distributions declared and paid in accordance with Clauses 6.1 and 6.3 of the Memorandum and Articles 2.11, 4.1, 4.2 and 4.3) shall be declared and paid only in respect of paid up shares and the holder of any share or shares not paid up as at the date such dividend is declared or such distribution is authorised shall not be entitled to such dividend or distribution. For the purposes of calculating each holder's pro rata share of any dividend or distribution paid, reference shall only be had to paid up shares (as at the date the dividend is declared or the distribution authorised) of the class or classes or series to which the dividend or distribution relates. If any share is issued on terms providing that it shall rank for dividend or other distributions as from a particular date, that share shall rank for dividend or other distribution accordingly.
- 16.5 Any Resolution of Directors declaring a dividend or a distribution on a share may specify that the same shall be payable to the person registered as the holders of the shares at the close of business on a particular date notwithstanding that it may be a date prior to that on which the resolution is passed and thereupon the dividend or distribution shall be payable to such persons in accordance with their respective holdings so registered, but without prejudice to the rights inter se in respect of such dividend or distribution of transferors and transferees of any such shares.
- 16.6 Any Resolution of Directors declaring a dividend or other distribution may direct that it shall be satisfied wholly or partly by the distribution of assets, may authorise the issue of fractional certificates, may fix the value for distribution of any assets and may determine that cash shall be paid to any Member upon the footing of the value so fixed in order to adjust the rights of Members and may vest any assets in trustees. For the avoidance of doubt, the provisions of this Article 16.6 shall not apply in respect of the cash or Ordinary Shares payable to the holders of Series A Founder Preferred Shares in satisfaction of any Annual Dividend Amount to which such holders are entitled pursuant to Article 4.1.
- 16.7 Notice in writing of any dividend that may have been declared shall be given to each Member in accordance with Article 39 and all unclaimed dividends or other distributions may be invested or otherwise made use of by the Directors for the benefit of the Company until claimed and the Company shall not be constituted a trustee thereof. All dividends unclaimed for 3 years after notice shall have been given to a Member may be forfeited by Resolution of Directors for the benefit of the Company, and shall cease to remain owing by the Company.
- 16.8 Any dividend or other moneys payable in respect of a share may be paid by electronic transfer or cheque sent by post to the registered address (or in the case of a Depositary, subject to the approval of the Board, such persons and addresses as the Depositary may require) of the person entitled or, if two or more persons are the holders of the share or are jointly entitled to it by reason of the death or bankruptcy of the holder, to the registered address of the one of those persons who is first named in the Register of Members or to such person and to such address as the person or persons entitled may in writing direct (and in default of which direction to that one of the persons jointly so entitled as the Directors shall in their discretion determine). Every cheque shall be made payable to the order of the

person or persons entitled or to such other person as the person or persons entitled may in writing direct and payment of the cheque shall be a good discharge to the Company. Any joint holder or other person jointly entitled to a share as aforesaid may give receipts for any dividend or other moneys payable in respect of the share. Every cheque is sent at the risk of the person entitled to the payment. If payment is made by electronic transfer, the Company is not responsible for amounts lost or delayed in the course of making that payment.

- 16.9 The Directors may deduct from any dividend or distribution or other monies, payable to any Member on or in respect of a share, all sums of money (if any) presently payable by him to the Company on account of calls or otherwise in relation to the shares.
- 16.10 No dividend or distribution or other moneys payable in respect of a share shall bear interest against the Company unless otherwise provided by the rights attached to the share and no dividend shall be paid on Treasury Shares.
- 16.11 If, in respect of a dividend or other distribution or other amount payable in respect of a share, on any one occasion:
- (a) a cheque is returned undelivered or left uncashed; or
 - (b) an electronic transfer is not accepted, and reasonable enquiries have failed to establish another address or account of the person entitled to the payment, the Company is not obliged to send or transfer a dividend or other amount payable in respect of that share to that person until he notifies the Company of an address or account to be used for that purpose. If the cheque is returned undelivered or left uncashed or transfer not accepted on two consecutive occasions, the Company may exercise this power without making any such enquiries.
- 16.12 Without the prior vote of the holders of a majority of the Ordinary Shares then outstanding and the holders of a majority of the Class B Shares then outstanding, each voting as separately as a single class, no dividend shall be declared or paid or set apart for payment on the Ordinary Shares in (i) Ordinary Shares or rights, options or warrants to purchase Ordinary Shares unless there shall also be or have been declared and set apart for payment on the Class B Shares, a dividend of an equal number of Class B Shares or rights, options or warrants to purchase Class B Shares or (ii) Class B Shares or rights, options or warrants to purchase Class B Shares unless there shall also be or have been declared and set apart for payment on the Class B Shares, a dividend of an equal number of Class B Shares or rights options or warrant to purchase Class B Shares.

17 REDEMPTION OF SHARES AND TREASURY SHARES

- 17.1 The Company may purchase, redeem or otherwise acquire and hold its own shares with the consent of the Member whose shares are to be purchased, redeemed or otherwise acquired.

- 17.2 The purchase, redemption or other acquisition by the Company of its own shares is deemed not to be a distribution where:
- (a) the Company purchases, redeems or otherwise acquires the shares pursuant to a right of a Member to have his shares redeemed or to have his shares exchanged for money or other property of the Company, or
 - (b) the Company purchases, redeems or otherwise acquires the shares by virtue of the provisions of section 176 of the Act.
- 17.3 Sections 60, 61 and 62 of the Act shall not apply to the Company.
- 17.4 Shares that the Company purchases, redeems or otherwise acquires pursuant to this Article 17 may be cancelled or held as Treasury Shares except to the extent that such shares are in excess of 50 (fifty) per cent. of the issued shares of that class or series in which case they shall be cancelled but they shall be available for reissue.
- 17.5 All rights and obligations attaching to a Treasury Share are suspended and shall not be exercised by the Company while it holds the share as a Treasury Share.
- 17.6 Treasury Shares may be disposed of by the Company on such terms and conditions (not otherwise inconsistent with the Memorandum and Articles) as the Company may by Resolution of Directors determine.
- 17.7 Where shares are held by another body corporate of which the Company holds, directly or indirectly, shares having more than 50 (fifty) per cent. of the votes in the election of directors of the other body corporate, all rights and obligations attaching to the shares held by the other body corporate are suspended and shall not be exercised by the other body corporate.

18 MEETINGS AND CONSENTS OF MEMBERS

- 18.1 The Company shall hold the first annual general meeting within a period of 18 months following the date of the Acquisition. Not more than 15 months shall elapse between the date of one annual general meeting and the date of the next, unless such period is extended, or such requirement is waived, by a Resolution of Members.
- 18.2 By a Resolution of Directors, the Directors may convene meetings of the Members at such times and in such manner and places within or outside the British Virgin Islands as the Director considers necessary or desirable.
- 18.3 Upon the written request of Members entitled to exercise 30 (thirty) per cent. or more of the voting rights in respect of the matter for which the meeting is requested, the Directors shall convene a meeting of Members.

- 18.4 The Director convening a meeting shall give not less than 10 (ten) calendar days' written notice of a meeting of Members to:
- (a) those Members who are entitled to vote at the meeting; and
 - (b) the other Directors.
- 18.5 A meeting of Members held in contravention of the requirement to give notice is valid if Members holding at least 90 (ninety) per cent. of the total voting rights on all the matters to be considered at the meeting have waived notice of the meeting and, for this purpose, the presence of a Member at the meeting shall constitute a waiver in relation to all the shares which that Member holds.
- 18.6 The inadvertent failure of a Director who convenes a meeting to give notice of a meeting to a Member or another Director, or the fact that a Member or another Director has not received notice, does not invalidate the meeting.
- 18.7 If the Board, in its discretion, considers that it is impractical or unreasonable for any reason to hold a meeting of Members at the time or place specified in the notice calling the meeting of Members, it may move and/or postpone the meeting of Members to another time and/or place. Notice of the business to be transacted at such moved and/or postponed meeting is not required. The Board must take reasonable steps to ensure that Members trying to attend the meeting of Members at the original time and/or place are informed of the new arrangements for the meeting of Members. Proxy forms can be delivered as specified in Article 20.10 until 24 (twenty-four) hours before the rearranged meeting. Any postponed and/or moved meeting may also be postponed and/or moved under this Article 18.

19 PROCEEDINGS AT MEETINGS OF MEMBERS

- 19.1 The quorum of any meeting of Members shall be Members representing a majority of the votes of shares entitled to vote at such meeting, whether present in person or by proxy and entitled to vote.
- 19.2 A Member shall be deemed to be present at a meeting of Members if he participates by telephone or other electronic means and all Members participating in the meeting are able to hear or read what is said or communicated by each other.
- 19.3 If a quorum is not present within half an hour from the time appointed for the meeting (or such longer period as the chairman of the meeting may think fit and allow), or if during a meeting such a quorum ceases to be present, the meeting, if convened by or upon the requisition of Members, shall be dissolved. If otherwise convened, it shall stand adjourned to such day, time and place as the chairman may determine or as otherwise may be specified in the original notice of meeting, provided that such meeting shall stand adjourned until a quorum is present.
- 19.4 The chairman may invite any person to attend and speak at any meeting of Members of the Company where he considers this will assist in the deliberations of the meeting. The Directors may attend and speak at any meeting of Members and at any separate meeting of the holders of any class or series of shares.

- 19.5 The notice of meeting may also specify a time (which shall not be more than 48 (forty eight) hours before the time fixed for the meeting) by which a person must be entered on the Register of Members in order to have the right to attend or vote at the meeting. Changes to entries on the Register of Members after the time so specified in the notice shall be disregarded in determining the rights of any person to so attend or vote.
- 19.6 The Directors may determine that those persons who are entered on the Register of Members at the close of business on a day determined by the Directors (which may not be more than 21 (twenty-one) calendar days before the date on which the notices of meeting were sent) shall be the persons who are entitled to receive notice.
- 19.7 The chairman may, with Resolution of the Members present at a meeting, adjourn any meeting from time to time, and from place to place. When a meeting is adjourned for 14 (fourteen) calendar days or more, at least 7 (seven) calendar days' notice shall be given specifying the day, time and place of the adjourned meeting and the general nature of the business to be transacted. Otherwise it shall not be necessary to give any such notice.
- 19.8 At any meeting of Members, the chairman (if any) of the Board or, if he is absent or unwilling, any one of the other Directors present at the meeting (as determined by the Director(s) present or, in the absence of such determination, by a Resolution of Members), shall preside as chairman of the meeting. If none of the Directors are present or are present but unwilling to preside, the Members present and entitled to vote shall, by Resolution of Members, choose one of their number to preside as chairman of the meeting.
- 19.9 At any meeting of the Members the chairman is responsible for deciding in such manner as he considers appropriate whether any resolution proposed has been carried or not and the result of his decision shall be announced to the meeting and recorded in the minutes of the meeting. If the chairman has any doubt as to the outcome of the vote on a proposed resolution, he shall cause a poll to be taken of all votes cast upon such resolution. If the chairman fails to take a poll then any Member present in person or by proxy who disputes the announcement by the chairman of the result of any vote may immediately following such announcement demand that a poll be taken and the chairman shall cause a poll to be taken. If a poll is taken at any meeting, the result shall be announced to the meeting and recorded in the minutes of the meeting.
- 19.10 The demand for a poll may be withdrawn before the poll is taken but only with the consent of the chairman. A demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made.
- 19.11 A poll shall be taken as the chairman directs and he may appoint persons (who need not be Members) and fix a day, time and place for declaring the result of the poll. The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

- 19.12 A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either forthwith or at such day, time and place as the chairman directs not being more than 30 (thirty) calendar days after the poll is demanded. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded. Subject to Article 19.10, if a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made.
- 19.13 No notice need be given of a poll not taken forthwith if the day, time and place at which it is to be taken are announced at the meeting at which it is demanded. In any other case at least 7 (seven) calendar days' notice shall be given specifying the day, time and place at which the poll is to be taken.
- 19.14 In the case of an equality of votes, whether on a show of hands or on a poll, the chairman shall not be entitled to a casting vote in addition to any other vote he may have.
- 19.15 The provisions of this Article 19 in relation to any meeting of Members shall apply equally to any separate meeting of a class or series of Members.

20 VOTES OF MEMBERS

- 20.1 Subject to any rights or restrictions attached to any shares or class or series of shares and to the provisions of the Articles:
- (a) on a show of hands every Member who is present in person (or in the case of corporations, present by a duly authorised representative) or by proxy shall have one vote; and
 - (b) on a poll every Member present in person (or in the case of corporations, present by a duly authorised representative) or by proxy shall have one vote for every share of which he is the holder.
- 20.2 The following applies where shares are jointly owned:
- (a) if two or more persons hold shares jointly each of them may be present in person or by proxy at a meeting of Members and may speak as a Member;
 - (b) if only one of the joint owners is present in person or by proxy he may vote on behalf of all joint owners; and
 - (c) if two or more of the joint owners are present in person or by proxy they must vote as one and in the event of disagreement between any of the joint owners of shares then the vote of the joint owner whose name appears first (or earliest) in the Register of Members in respect of the relevant shares shall be recorded as the vote attributable to the shares.

- 20.3 A Member in respect of whom an order has been made by any court having jurisdiction (whether in the British Virgin Islands or elsewhere) in matters concerning mental disorder may vote, whether by a show of hands or by a poll, by his attorney, receiver or other person authorised in that behalf appointed by that court, and any such attorney, receiver or other person may vote by proxy. Evidence to the satisfaction of the Board of the authority of the person claiming to exercise the right to vote shall be deposited at the office of the registered agent of the Company, or at such other place within the British Virgin Islands as is specified in accordance with these Articles for the deposit of instruments of proxy, before the time appointed for holding the meeting or adjourned meeting or the holding of a poll at which the right to vote is to be exercised and in default the right to vote shall not be exercisable.
- 20.4 Unless the Directors otherwise decide, no Member shall be entitled to vote at any meeting of Members or at any separate meeting of the holders of any class or series of shares in the Company, either in person or by proxy, in respect of any share held by him or to exercise rights as a holder of shares unless all calls and other sums presently payable by him in respect of shares of which he is the holder or one of the joint holders have been paid.
- 20.5 No Member shall, if the Directors so determine, be entitled in respect of any share held by him to attend or vote (either personally or by representative or by proxy) at any meeting of Members or separate class or series meeting of the Company or to exercise any other right conferred by membership in relation to any such meeting if he or any other person appearing to be interested in such shares has failed to comply with a Disclosure Notice within 14 (fourteen) calendar days, in a case where the shares in question represent at least 0.25 (nought point two five) per cent. of their class, or within 7 (seven) calendar days, in any other case, from the date of such Disclosure Notice. These restrictions will continue until the information required by the notice is supplied to the Company or until the shares in question are transferred or sold in circumstances specified for this purpose in these Articles.
- 20.6 No objection shall be raised to the entitlement of any voter or to any person to vote as he did except at the meeting or adjourned meeting or poll at which the vote objected to is or may be tendered, and every vote not disallowed at such meeting or poll shall be valid for all purposes. Any such objection made in due time shall be referred to the chairman of the meeting whose decision shall be final and conclusive absent manifest error.
- 20.7 On a poll, a person entitled to more than one vote need not if he votes, use all his votes or cast all votes he uses in the same way.
- 20.8 A Member may appoint another person as his proxy to exercise all or any of his rights to attend and to speak and vote at a meeting of the Company. A proxy need not be a Member. A Member may appoint more than one proxy to attend on the same occasion, provided that each proxy is appointed to exercise the rights attached to a different share or shares held by him. When two or more valid but differing

appointments of proxy are delivered or received for the same share for use at the same meeting, the one which is last validly delivered or received (regardless of its date or the date of its execution) shall be treated as replacing and revoking the other or others as regards that share. If the Company is unable to determine which appointment was last validly delivered or received, none of them shall be treated as valid in respect of that share.

- 20.9 The instrument appointing a proxy shall be in writing in any usual form (or in another form approved by the Board) under the hand of the appointer or his attorney duly authorised in writing or if the appointer is a corporation, either under its common seal or under the hand of an officer or attorney so authorised.
- 20.10 The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed or a notarially certified copy of such power or authority shall be:
- (a) delivered to the office of the registered of the Company or at such other place as is specified for that purpose in the notice of meeting or in the instrument of proxy issued by the Company not less than 24 (twenty-four) hours before the time appointed for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote;
 - (b) given by email or any other electronic method to the address of the Company specified for that purpose in the notice of the meeting or in the instrument of proxy issued by the Company not less than 24 (twenty-four) hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote and subject to the need to deposit any power of attorney or other authority (if any) under which an instrument of proxy is signed, an instrument so given shall be deemed to be duly deposited. However, any power of attorney or other authority (if any) under which an instrument of proxy is executed, or a notarially certified copy of such power or authority, shall not be given by email or any other electronic method;
 - (c) in the case of a poll taken more than 48 (forty-eight) hours after it is demanded, delivered as required by sub-paragraph (a) or (b) of this Article 20.10 not less than 24 (twenty four) hours before the time appointed for the taking of the poll; or
 - (d) in the case of a poll not taken immediately but taken not more than 48 (forty-eight) hours after it was demanded, the time at which it was demanded,

and in default and unless the Board directs otherwise, the instrument of proxy shall not be treated as valid.

- 20.11 No instrument appointing a proxy shall be valid after the expiration of 12 (twelve) months from the date named in it as the date of its execution, except at an adjourned meeting or on a poll demanded at a meeting or an adjourned meeting in cases where the meeting was originally held within 12 (twelve) months from such date. Notwithstanding this Article, the Directors may, at their discretion, accept the appointment of a proxy at any time prior to holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote.
- 20.12 Without limiting the foregoing, in relation to any shares which are held in uncertificated form, the Board may from time to time permit appointments of a proxy to be made by means of an uncertificated proxy instruction and may in a similar manner permit supplements to, or amendments or revocations of, any such uncertificated proxy instruction to be made by like means. The Board may in addition prescribe the method of determining the time at which any such uncertificated proxy instruction (and/or other instruction or notification) is to be treated as received by the Company or a participant acting on its behalf. The Board may treat any such uncertificated proxy instruction which purports to be or is expressed to be sent on behalf of a holder of a share as sufficient evidence of the authority of the person sending that instruction to send it on behalf of that holder.
- 20.13 A vote given or poll demanded in accordance with the terms of an instrument of proxy shall be valid notwithstanding the death or insanity of the principal or the revocation or determination of the instrument of proxy or of the authority under which the instrument of proxy was executed or the transfer of the share in respect of which the instrument of proxy is given, provided that no intimation in writing of such death, insanity, revocation or determination shall have been received by the Company at the office of its registered agent or at such other place at which the instrument of proxy was duly deposited before the commencement of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll taken otherwise than on the same day as the meeting or adjourned meeting) the time appointed for taking the poll.
- 20.14 Notwithstanding anything contained in these Articles, and subject to such being permissible under the Law, the Directors of the Company may elect to provide a facility for using electronic voting and polling by the holders for any purpose deemed appropriate by the Directors, including without limitation, the polling of holders and electronic voting by holders at any meeting of Members.
- 20.15 Any vote given by proxy may be given by email or any other electronic method (including any instruction or message under a Relevant System) to the address of the Company or person nominated by the Company and specified for that purpose in the notice of meeting or in the instrument of proxy issued by the Company (unless using a Relevant System in which case such message may be received by the Company's agent) and, with the exception of votes cast using a Relevant System subject to the need to deposit any power of attorney or other authority (if any) under which a vote given by proxy is made, a vote so given shall be deemed to be duly made. However, any power of attorney or other authority (if any) under which a vote given by proxy is made, or a notarially certified copy of such power or authority, shall not be given by email or any other electronic method.

- 20.16 Subject to the specific provisions contained in this Article 20 for the appointment of representatives of Members other than individuals the right of any individual to speak for or represent a Member shall be determined by the law of the jurisdiction where, and by the documents by which, the Member is constituted or derives its existence. In case of doubt, the Directors may in good faith seek legal advice and unless and until a court of competent jurisdiction shall otherwise rule, the Directors may rely and act upon such advice without incurring any liability to any Member or the Company.
- 20.17 Any corporation which is a Member may, by resolution of its Board or other governing body or officers authorised by such body, authorise such person or persons as it thinks fit to act as its representative at any meeting of the Company or at any meeting of the holders of shares of any class of Members, and the person so authorised shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could exercise if it were an individual Member. A corporation present at any meeting by such representative shall be deemed for the purposes of these Articles to be present in person.
- 20.18 The chairman of any meeting at which a vote is cast by proxy or on behalf of any Member other than an individual may at the meeting but not thereafter call for a notarially certified copy of such proxy or authority which shall be produced within 7 (seven) calendar days of being so requested or the votes cast by such proxy or on behalf of such Member shall be disregarded.
- 20.19 Except as may otherwise be provided by Article 20.20, no action that is required or permitted to be taken by Members of the Company at any meeting of Members may be effected by written consent of the Members in lieu of a meeting of Members.
- 20.20 Notwithstanding the provisions of Article 20.19 above or any other provision of the Memorandum or these Articles to the contrary, any action required or permitted to be taken at any meeting of the holders of the outstanding Founder Preferred Shares voting as a single class, Series A Founder Preferred Shares voting separately as a class or Series B Founder Preferred Shares voting separately as a class, as applicable, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing or by electronic transmission, setting forth the action so taken, shall be signed by the holders of outstanding Founder Preferred Shares, voting together as a single class, Series A Founder Preferred Shares voting separately as a single class or Series B Founder Preferred Shares voting separately as a single class, as applicable, having not less than the minimum number of votes that would be necessary to authorise or take such action at a meeting at which all of the holders of the Founder Preferred Shares, Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, were present and voted and shall be delivered to the Company by delivery to the office of its registered agent, its principal place of business, or an officer or agent of the Company having custody of the book in which minutes of proceedings of shareholders are recorded. Delivery made to the office of the registered agent of the Company shall be by hand or by internationally recognised courier. Prompt notice

of the taking of corporate action without a meeting by less than unanimous consent of the holders of the outstanding Founder Preferred Shares, voting together as a single class, Series A Founder Preferred Shares, voting separately as a single class, or Series B Founder Preferred Shares, voting separately as a single class, as applicable, shall, to the extent required by applicable law, be given to those holders of the outstanding Founder Preferred Shares, Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, who have not consented in writing or by electronic transmission and who, if the action had been taken at a meeting, would have been entitled to notice of the meeting if the record date for notice of such meeting had been the date that consents signed by a sufficient number of holders of outstanding Founder Preferred Shares, Series A Founder Preferred Shares, or Series B Founder Preferred Shares, as applicable, to take the action were delivered by the Company.

- 20.21 The consent contemplated by Article 20.20 may be in the form of counterparts, each counterpart being signed by one or more Members. If such consent is in one or more counterparts, and the counterparts bear different dates, then the consent shall take effect on the earliest date upon which eligible Members holding a sufficient number of votes that would be necessary to authorise or take such action at a meeting at which all of the holders of the Founder Preferred Shares, Series A Founder Preferred Shares or Series B Founder Preferred Shares, as applicable, have consented.

21 SQUEEZE OUT PROVISIONS

Section 176 of the Act shall not apply to the Company.

22 NUMBER OF DIRECTORS

- 22.1 Subject to the terms of any one or more classes or series of Founder Preferred Shares, the Board shall consist of such number of members as fixed from time to time by resolution adopted by the affirmative vote of a majority of all the Directors.

23 POWERS OF DIRECTORS

- 23.1 The business and affairs of the Company shall be managed by, or under the direction or supervision of, the Directors. The Directors have all the powers necessary for managing, and for directing and supervising, the business and affairs of the Company. The Directors may pay all expenses incurred preliminary to and in connection with the incorporation of the Company and may exercise all such powers of the Company as are not by the Act or by the Memorandum or the Articles required to be exercised by the Members.
- 23.2 The continuing Directors may act notwithstanding any vacancy in their body.
- 23.3 Subject as hereinafter provided, the Directors may exercise all the powers of the Company to borrow or raise money (including the power to borrow for the purpose of redeeming shares) and secure any debt or obligation of or binding on the

Company in any manner including by the issue of debentures (perpetual or otherwise) and to secure the repayment of any money borrowed raised or owing by mortgage charge pledge or lien upon the whole or any part of the Company's undertaking property or assets (whether present or future) and also by a similar mortgage charge pledge or lien to secure and guarantee the performance of any obligation or liability undertaken by the Company or any third party.

- 23.4 All cheques, promissory notes, drafts, bills of exchange and other negotiable instruments and all receipts for moneys paid to the Company shall be signed, drawn, accepted, endorsed or otherwise executed, as the case may be, in such manner as shall from time to time be determined by Resolution of Directors.
- 23.5 Section 175 of the Act shall not apply to the Company.

24 DELEGATION OF DIRECTORS' POWERS

- 24.1 The Directors may, by Resolution of Directors, designate one or more committees, each consisting of one or more Directors, and delegate one or more of their powers, including the power to affix the Seal, to the committee. They may also delegate to any other Director (whether holding any other executive office or not) such of their powers as they consider desirable to be exercised by him. Any such delegation may be made subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers and may be revoked or altered. Subject to any such conditions, the proceedings of a committee shall be governed by the Articles regulating the proceedings of Directors so far as they are capable of applying and so far as the same are not superseded by any provisions in the Resolution of Directors establishing the committee, provided that it is not necessary to give notice of a meeting of that committee to Directors other than the Director or Directors who form the committee.
- 24.2 For so long as any Founder Directors are appointed, at least 4/9 (four-ninths) of each committee of Directors shall be comprised of Founder Directors or other Directors selected by the Founder Directors.
- 24.3 The Directors have no power to delegate to a committee of Directors any of the following powers:
- (a) to amend the Memorandum or the Articles;
 - (b) to designate committees of Directors;
 - (c) to delegate powers to a committee of Directors;
 - (d) to appoint or remove Directors;
 - (e) to appoint or remove an agent;
 - (f) to approve a plan of merger, consolidation or arrangement;

- (g) to make a declaration of solvency or to approve a liquidation plan; or
 - (h) to make a determination that the Company will immediately after a proposed distribution, satisfy the solvency test (as defined in the Act).
- 24.4 Articles 24.1 and 24.3 do not prevent a committee of Directors, where authorised by the Resolution of Directors appointing such committee or by a subsequent Resolution of Directors, from appointing a sub-committee and delegating powers exercisable by the committee to the sub-committee.
- 24.5 The Directors may, by power of attorney signed by any one or more persons duly authorised, appoint any person either generally or in respect of any specific matter, to represent the Company, act in its name and execute documents on its behalf.

25 APPOINTMENT AND RETIREMENT OF DIRECTORS

- 25.1 Subject to the Act and these Articles, the Directors shall have power from time to time, without sanction of the Members, to appoint any person to be a Director (other than a Founder Director), either to fill a casual vacancy or as an additional Director (other than an additional Founder Director). A vacancy in relation to Directors occurs if a Director dies or otherwise ceases to hold office prior to the expiration of his term of office.
- 25.2 Subject to the Act and these Articles, the Members may by a Resolution of Members appoint any person as a Director (other than a Founder Director) and there shall be no requirement for the appointment of two or more such Directors to be considered separately.
- 25.3 For so long as the Founder Entities, their Affiliates and their Permitted Transferees in aggregate hold 20 (twenty) per cent. or more of the issued and outstanding shares of Founder Preferred Shares, the holders of a majority in voting power of the outstanding Founder Preferred Shares, voting or consenting together as a single class, shall be entitled to, at any meeting of the holders of the outstanding Founder Preferred Shares held for the election of directors or by consent in lieu of a meeting of the holders of the outstanding Founder Preferred Shares, (i) elect 4 (four) members of the Board (together, the **Founder Directors** and each, a **Founder Director**), (ii) remove from office, with or without cause, any Founder Director and (iii) fill any vacancy caused by the death, resignation, disqualification, removal or other cause of any Founder Director; provided, however, (x) if the holders of the outstanding Founder Preferred Shares, voting or consenting together as a single class, fail to elect a sufficient number of directors to fill the directorships for which they are entitled to elect directors pursuant to this Article 25.3, then any directorship not so filled shall remain vacant until such time as it shall be filled in accordance with this Article 25.3, and no such directorship may be filled by shareholders of the Company other than the holders of the outstanding Founder Preferred Shares, voting or consenting together as a single class, and (y) no vacancy caused by the death, resignation, disqualification, removal or other cause of any Founder Director may be filled by any remaining Founder Director. A majority of the Founder Directors must be “independent” under the rules of the primary stock exchange or quotation system on which Ordinary Shares are then listed or quoted or, if there are no such rules, the rules of the NYSE.

- 25.4 A Director (other than a Founder Director) is appointed for such term as may be specified in the Resolution of Directors or Resolution of Members appointing him. Where the Directors appoint a person as Director (other than a Founder Director) to fill a vacancy, such replacement Director may be appointed for any term as the Directors in their discretion determine.
- 25.5 Each Director (other than a Founder Director) holds office for the term, if any, fixed by the Resolution of Members or Resolution of Directors appointing or otherwise provided for in the relevant Director's service agreement or letter of appointment (if applicable), or until his earlier death, resignation or removal. If no term is fixed on the appointment of a Director, the Director serves indefinitely until his earlier death, resignation or removal.
- 25.6 A person must not be appointed a Director unless he has in writing consented to being a Director of the Company.
- 25.7 A Director may resign his office by giving written notice of his resignation to the Company and the resignation has effect from the date the notice is received by the Company at the office of its registered agent or from such later date as may be specified in the notice, provided in both instances that such resignation is in accordance with the terms of the relevant Director's service agreement or letter of appointment (if applicable). A Director shall resign forthwith as a Director if he is, or becomes, disqualified from acting as a Director under the Act.

26 DISQUALIFICATION AND REMOVAL OF DIRECTORS

- 26.1 The office of a Director shall be vacated if:
- (a) he ceases to be a Director by virtue of any provision of the Law or he ceases to be eligible to be a Director or is disqualified in accordance with the Law or any rule or regulation of the primary stock exchange or quotation system on which the Ordinary Shares are listed or quoted or, if there are no such rules, the rules of the NYSE;
 - (b) he becomes of unsound mind or incapable or an order is made by a court having jurisdiction (whether in the British Virgin Islands or elsewhere) in matters concerning mental disorder for his detention or for the appointment of a receiver or other person to exercise powers with respect to his property or affairs;
 - (c) other than a Founder Director, he is absent from meetings of Directors for a consecutive period of 12 (twelve) months and the other Directors resolve that his office shall be vacated;

- (d) he dies;
 - (e) he resigns his office by written notice to the Company; or
 - (f) other than a Founder Director (who may only be removed in accordance with Article 26.2), he is removed by a Resolution of Members passed at a meeting of Members called for the purposes of removing such Director or for purposes including the removal of such Director or by a written resolution passed by a Resolution of Members; and for the purposes of this Article 26.1, Section 114 of the Act shall not apply.
- 26.2 Any Founder Director may only be removed, with or without cause, by a resolution or consent of the holders of a majority in voting power of the outstanding Founder Preferred Shares, voting or consenting together as a single class.

27 DIRECTORS' REMUNERATION AND EXPENSES

- 27.1 The Directors shall be remunerated for their services at such rate as the Directors shall determine.
- 27.2 The Directors may grant special remuneration to any Director who, being so called upon, shall be willing to render any special or extra services to the Company. Such special remuneration may be made payable to such Director in addition to or in substitution for his ordinary remuneration as a Director and may be made payable by a lump sum or by way of salary or commission or by any or all of those models or otherwise.
- 27.3 The Directors may be paid:
- (a) all reasonable travelling, hotel and other out of pocket expenses properly incurred by them in connection with their attendance at meetings of Directors or committees of Directors or meetings of Members or separate meetings of the holders of any class or series of shares or of debentures of the Company or otherwise in connection with the discharge of their duties; and
 - (b) all reasonable expenses properly incurred by them in seeking independent professional advice on any matter that concerns them in the furtherance of their duties as a Director of the Company.

28 OFFICERS AND AGENTS

- 28.1 The Company may by Resolution of Directors appoint officers of the Company at such times as may be considered necessary or expedient. Such officers may consist of a Chairman of the Board, a Chief Executive Officer, one or more vice-presidents, secretaries, assistant secretaries and treasurers and such other officers as may from time to time be considered necessary or expedient. Any number of offices may be held by the same person.

- 28.2 The officers shall perform such duties as are prescribed at the time of their appointment subject to any modification in such duties as may be prescribed thereafter by Resolution of Directors.
- 28.3 The emoluments of all officers shall be fixed by Resolution of Directors.
- 28.4 The officers of the Company shall hold office until their death, resignation or removal. Any officer elected or appointed by the directors may be removed at any time, with or without cause, by Resolution of Directors. Any vacancy occurring in any office of the Company may be filled by Resolution of Directors.
- 28.5 Subject to the provisions of the Act, the Directors may appoint one or more of their number to the office of managing director or to any other executive office in the Company and may enter into an agreement or arrangement with any Director for his employment by the Company or for the provision by him of any services outside the scope of the ordinary duties of a director. Any such appointment, agreement or arrangement may be made upon such terms as the Directors determine and they may remunerate any such Director for his services as they determine.
- 28.6 The Directors may, by a Resolution of Directors, appoint any person, including a person who is a Director, to be an agent of the Company. An agent of the Company shall have such powers and authority of the Directors, including the power and authority to affix the Seal, as are set forth in the Articles or in the Resolution of Directors appointing the agent, except that no agent has any power or authority with respect to the matters specified in Article 24.3. The Resolution of Directors appointing an agent may authorise the agent to appoint one or more substitutes or delegates to exercise some or all of the powers conferred on the agent by the Company. The Directors may remove an agent appointed by the Company and may revoke or vary a power conferred on him.

29 DIRECTORS' INTERESTS

- 29.1 A Director shall, forthwith after becoming aware of the fact that he is interested in a transaction entered into or to be entered into by the Company, disclose the interest to all other Directors.
- 29.2 For the purposes of Article 29.1, a disclosure to all other Directors to the effect that a Director is a member, director or officer of another named entity or has a fiduciary relationship with respect to the entity or a named individual and is to be regarded as interested in any transaction which may, after the date of the entry or disclosure, be entered into with that entity or individual, is a sufficient disclosure of interest in relation to that transaction.
- 29.3 Subject to any applicable rules or regulations, a Director who is interested in a transaction entered into or to be entered into by the Company may:
- (a) vote on a matter relating to the transaction;

- (b) attend a meeting of Directors at which a matter relating to the transaction arises and be included among the Directors present at the meeting for the purposes of a quorum; and
 - (c) sign a document on behalf of the Company, or do any other thing in his capacity as a Director, that relates to the transaction,
- and, subject to compliance with the Act shall not, by reason of his office be accountable to the Company for any benefit which he derives from such transaction and no such transaction shall be liable to be avoided on the grounds of any such interest or benefit.

30 DIRECTORS' GRATUITIES AND PENSIONS

The Directors may provide benefits, whether by the payment of gratuities or pensions or by insurance or otherwise, for any Director who has held but no longer holds any executive office or employment with the Company or with any body corporate which is or has been a subsidiary of the Company or a predecessor in business of the Company or of any such subsidiary, and for any member of his family (including a spouse and a former spouse) or any person who is or who was dependent on him, and may (as well before as after he ceases to hold such office or employment) contribute to any fund and pay premiums for the purchase or provision of any such benefit.

31 PROCEEDINGS OF DIRECTORS

- 31.1 Subject to the provisions of these Articles, the Directors may regulate their proceedings as they think fit. A Director may, and the secretary at the request of a Director shall, call a meeting of the Directors by notifying each other Director in writing or otherwise. Questions arising at a meeting shall be decided by a majority of votes. In the case of an equality of votes the chairman shall not have a second or casting vote.
- 31.2 A Director shall be given notice of meetings of Directors. A meeting of Directors held without notice having been given to all Directors shall be valid if all the Directors entitled to vote at the meeting who do not attend waive notice of the meeting, and for this purpose the presence of a Director at a meeting shall constitute a waiver by that Director. The inadvertent failure to give notice of a meeting to a Director, or the fact that a Director has not received the notice, does not invalidate the meeting.
- 31.3 The quorum for the transaction of the business of the Directors may be fixed by the Directors; provided that quorum shall not be fixed at a number of Directors that is less than a majority of Directors.
- 31.4 The Directors or any committee thereof may meet at such times and in such manner and places within or outside the British Virgin Islands as the notice calling the meeting provides.

- 31.5 A meeting of Directors may be held notwithstanding that such Directors may not be in the same place if a Director is, by any means, in communication with one or more other Directors so that each Director participating in the communication can hear or read what is said or communicated by each of the others and any such meeting shall be deemed to be held in the place in which the chairman of the meeting is present and each such Director shall be deemed to be present at such meeting and shall be counted when reckoning a quorum.
- 31.6 The continuing Directors or the only continuing Director may act notwithstanding any vacancies in their number, but, if the number of Directors is less than the number fixed as the quorum, the continuing Directors or Director may act only for the purpose of filling vacancies or of calling a meeting of Members. In lieu of minutes of a meeting a sole continuing Director shall record in writing and sign a note or memorandum of all matters requiring a Resolution of Directors. Such a note or memorandum constitutes sufficient evidence of such resolution for all purposes.
- 31.7 The Directors may appoint one of their number to be the chairman of the Board and may at any time remove him from that office. Unless he is unwilling to do so, the Director so appointed shall preside at every meeting of Directors at which he is present. But if there is no Director holding that office, or if the Director holding it is unwilling to preside or is not present within five minutes after the time appointed for the meeting, the Directors present may appoint one of their number to be chairman of the meeting.
- 31.8 All acts done by a meeting of Directors, or of a committee of Directors, or by a person acting as a Director shall, notwithstanding that it be afterwards discovered that there was a defect in the appointment of any Director or that any of them were disqualified from holding office, be as valid as if every such person had been duly appointed and was qualified.
- 31.9 An action that may be taken by the Directors or a committee of Directors at a meeting by Resolution of Directors may also be taken by a Resolution of Directors or a resolution of a committee of Directors consented to in writing or by electronic transmission without the need for any notice. The consent may be in the form of counterparts each counterpart being signed by one or more Directors. If the consent is in one or more counterparts, and the counterparts bear different dates, then the resolution shall take effect on the earliest date upon which sufficient Directors have consented to the resolution by signed counterparts.
- 31.10 The Company shall keep a register of Directors containing:
- (a) the names and addresses, date and place of birth, and nationality of the persons who are Directors;
 - (b) the date on which each person whose name is entered in the register was appointed as a Director;

- (c) the date on which each person named as a Director ceased to be a Director; and
 - (d) such other information as may be prescribed by the Act and/or any applicable law, rules and regulations.
- 31.11 The register of Directors may be kept in any such form as the Directors may approve, but if it is in magnetic, electronic or other data storage form, the Company must be able to produce legible evidence of its contents. Until a Resolution of Directors determining otherwise is passed, the magnetic, electronic or other data storage shall be the original register of Directors.

32 INDEMNIFICATION

- 32.1 Subject to the limitations hereinafter provided, the Company shall indemnify against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred in connection with legal, administrative or investigative proceedings any person who is or was a party or is threatened to be made a party to any threatened, pending or completed proceedings, whether civil, criminal, administrative or investigative, by reason of the fact that the person is or was a Director; provided, however, that except for proceedings to enforce rights to indemnification, the Company shall not be obligated to indemnify a Director in connection with a proceeding initiated by such Director unless such proceeding was authorised or consented to by the Board.
- 32.2 Subject to the limitations hereinafter provided, the Company may indemnify against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred in connection with legal administrative or investigative proceedings any person who is or was a party or is threatened to be made a party to any threatened, pending or completed proceedings, whether civil, criminal, administrative or investigative, by reason of the fact that the person is or was, at the request of the Company, serving as a director of, or in any other capacity is or was acting for, another company or a partnership, joint venture, trust or other enterprise.
- 32.3 The indemnity in Articles 32.1 and 32.2 only applies if the person acted honestly and in good faith with a view to the best interests of the Company and, in the case of criminal proceedings, the person had no reasonable cause to believe that their conduct was unlawful.
- 32.4 The decision of the Directors as to whether the person acted honestly and in good faith and with a view to the best interests of the Company and as to whether the person had no reasonable cause to believe that his conduct was unlawful is, in the absence of fraud, sufficient for the purposes of the Articles, unless a question of law is involved.

- 32.5 The termination of any proceedings by any judgment, order, settlement, conviction or the entering of a *nolle prosequi* does not, by itself, create a presumption that the person did not act honestly and in good faith and with a view to the best interests of the Company or that the person had reasonable cause to believe that his conduct was unlawful.

Notwithstanding the foregoing, for so long as the Founder Preferred Stock shall remain outstanding, the Corporation shall not, without the prior vote or consent of the holders of at least eighty percent (80%) in voting power of the shares of Founder Preferred Stock then outstanding, voting or consenting together as a single class, (i) amend, alter, repeal or adopt any provision inconsistent with Sections B(2)(c) or B(2)(e) of this Article FOURTH, (ii) fix the number of directors constituting the entire Board of Directors (including the Founder Directors) at greater than nine (9), or (iii) issue any additional shares of Founder Preferred Stock other than any additional shares of Founder Preferred Stock issued or issuable in connection with the transactions contemplated by the Merger Agreement.

In the event of a conversion of share(s) of Series A Founder Preferred Stock pursuant to this Section B(2)(e)(B) of Article FOURTH, the holder whose shares are so converted shall not be entitled to receive, in respect of the share(s) of Series A Founder Preferred Stock so converted, the relevant pro rata amount of the Annual Dividend Amount which may have been attributable to such shares of Series A Founder Preferred Stock in respect of the Dividend Year in which the Optional Conversion Date occurs.

(C) **Mechanics of Conversion.** As a condition to conversion of shares of Series A Founder Preferred Stock or shares of Series B Founder Preferred Stock, as applicable, into shares of Class A Common Stock or Class B Common Stock, as applicable, pursuant to Section B(2)(e) of this Article FOURTH, such holder shall surrender the certificate(s), if any, representing such shares of Series A Founder Preferred Stock or such shares of Series B Founder Preferred Stock, as applicable, to the Corporation, duly indorsed for transfer to the Corporation. The Corporation shall, as soon as practicable, and in no event later than ten (10) days after the delivery of said certificate(s), if any, issue and deliver to such holder, or the nominee or nominees of such holder, confirmation of or certificate(s) representing, as applicable, the number of shares of Class A Common Stock or shares of Class B Common Stock, as applicable, to which such holder shall be entitled under Section B(2)(e) of this Article FOURTH, and the certificate(s), if any, representing the share(s) of Series A Founder Preferred Stock or the share(s) of Series B Founder Preferred Stock, as applicable, so converted shall be cancelled. The person(s) entitled to receive share(s) of Class A Common Stock or share(s) of Class B Common Stock, as applicable, issuable upon conversion of share(s) of Series A Founder Preferred Stock or share(s) of Series B Founder Preferred Stock, as applicable, pursuant to Section B(2)(e) of this Article FOURTH shall be treated for all purposes as the record holder(s) of such shares of Class A Common Stock or shares of Class B Common Stock, as applicable, as of the Mandatory Conversion Date or the Optional Conversion Date, as applicable.

(f) Adjustments.

(A) Series A Founder Preferred Stock. In any circumstances where the holders of a majority of the outstanding shares of Series A Founder Preferred Stock, voting separately as a single class, determine that an adjustment should be made to (i) any factor relevant for the calculation of the Annual Dividend Amount (including the amount which the Average Price per share of Class A Common Stock must meet or exceed for any ten consecutive Trading Days in order for the right to an Annual Dividend Amount to commence (initially set at US\$11.50)), or (ii) the Preferred Share Dividend Equivalent, whether following a consolidation or sub-division of the issued and outstanding shares of Class A Common Stock, the Corporation will either (x) make such adjustment as is mutually determined by the Corporation and the holders of a majority of the outstanding shares of Series A Founder Preferred Stock (acting reasonably), voting separately as a single class, or (y) failing agreement within a reasonable time, at the Corporation's expense appoint auditors, or such other person as the Corporation and the holders of a majority of the outstanding shares of Series A Founder Preferred Stock, voting separately as a single class, shall, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) shall be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration shall not apply, the determination of the auditors (or such other expert as may be appointed) shall be final and binding on all concerned and the auditors (or such other expert as may be appointed) shall be given by the Company all such information and other assistance as they may reasonably require.

(B) Founder Preferred Stock. In any circumstances where (i) the holders of a majority of the outstanding shares of Series A Founder Preferred Stock, voting separately as a single class, or (ii) the holders of a majority in voting power of the outstanding shares of Series B Founder Preferred Stock, voting together as a single class, as applicable, determine that an adjustment should be made to the number of shares of Class A Common Stock into which the outstanding shares of Series A Founder Preferred Stock or to the number of shares of Class B Common Stock into which the outstanding shares of Series B Founder Preferred Stock, as applicable, shall convert, whether following a consolidation or sub-division of the issued and outstanding shares of Class A Common Stock or Class B Common Stock, as applicable, the Corporation will either (i) make such adjustment as is mutually determined by the Corporation and the holders of a majority of the outstanding shares of Series A Founder Preferred Stock, voting separately as a single class or the holders of a majority in voting power of the outstanding shares of Series B Founder Preferred Stock, voting together as a single class, as applicable, acting reasonably, or (ii) failing agreement within a reasonable time, at the Corporation's expense appoint auditors, or such other person as the Corporation and the holders of a majority of the outstanding shares of Series A Founder Preferred Stock, voting separately as a single class, or the holders of a majority in voting power of the outstanding shares of Series B Founder Preferred Stock, voting together as a single class, as applicable, shall, acting reasonably, determine to be an expert for such purpose, to determine as soon as practicable what adjustment (if any) is fair and reasonable. Upon determination in either case the adjustment (if any) will be made and will take effect in accordance with the determination. The auditors (or such other expert as may be appointed) shall be deemed to act as an expert and not an arbitrator and applicable laws relating to arbitration shall not apply, the determination of the auditors (or such other expert as may be appointed) shall be final and binding on all concerned and the auditors (or such other expert as may be appointed) shall be given by the Company all such information and other assistance as they may reasonably require.

(g) Waiver.

(A) Series A Founder Preferred Stock. The powers (including voting powers), if any, and the preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations or restrictions, if any, of the shares of Series A Founder Preferred Stock may be waived as to all shares of Series A Founder Preferred Stock in any instance (without the necessity of calling, noticing or holding any meeting of stockholders of the Corporation) by the consent or agreement of the holders of at least a majority of the shares of Series A Founder Preferred Stock then outstanding, voting, consent or agreeing separately as a single class.

(B) Series B Founder Preferred Stock. The powers (including voting powers), if any, and the preferences and relative, participating, optional, special or other rights, if any, and the qualifications, limitations or restrictions, if any, of the shares of Series B Founder Preferred Stock may be waived as to all shares of Series B Founder Preferred Stock in any instance (without the necessity of calling, noticing or holding any meeting of stockholders of the Corporation) by the consent or agreement of the holders of at least a majority of the shares of Series B Founder Preferred Stock then outstanding, voting, consent or agreeing separately as a single class.

FIFTH: The Corporation shall at all times reserve and keep available out of its authorized but unissued shares of Class A Common Stock, solely for the purpose of issuance upon redemption or exchange of the outstanding Common Units or other applicable Units, pursuant to the OpCo LLC Agreement; provided, that nothing contained herein shall be construed to preclude the Corporation from satisfying its obligations in respect of any such redemption or exchange of Common Units or other applicable Units pursuant to the OpCo LLC Agreement by delivering cash in lieu of shares of Class A Common Stock in accordance with the OpCo LLC Agreement or shares of Class A Common Stock which are held in the treasury of the Corporation. The Corporation covenants that all shares of Class A Common Stock issued pursuant to OpCo LLC Agreement shall, upon issuance, be validly issued, fully paid and non-assessable.

SIXTH: Subject to applicable law, including any vote of the stockholders required by applicable law, the Corporation:

(1) shall undertake all lawful actions, including, without limitation, a reclassification, dividend, division, combination or recapitalization, with respect to the shares of Class A Common Stock (and shares of Series A Founder Preferred Stock which may be converted into shares of Class A Common Stock) necessary to maintain at all times a one-to-one ratio between the number of Class A Common Units (as defined in the OpCo LLC Agreement and hereinafter, the “**Class A Common Units**”) owned by the Corporation and the number of outstanding shares of Class A Common Stock (and number of shares of Class A Common Stock into which all outstanding shares of Series A Founder Preferred Stock may be converted), disregarding, for purposes of maintaining such one-to-one ratio, (i) shares of restricted stock issued pursuant to a Corporation equity plan that are not vested pursuant to the terms thereof or any award or similar agreement relating thereto, (ii) treasury shares, (iii) non-economic voting shares, such

as shares of Class B Common Stock and Series B Founder Preferred Stock, or (iv) Preferred Stock or other debt or equity securities (including, without limitation, warrants, options and rights) issued by the Corporation that are convertible into or exercisable or exchangeable for shares of Class A Common Stock (except to the extent the net proceeds from such other securities, including, without limitation, any exercise or purchase price payable upon conversion, exercise or exchange thereof, have been contributed by the Corporation to the equity capital of OpCo) (clauses (i), (ii), (iii) and (iv), collectively, the “**Disregarded Shares**”);

(2) shall undertake all lawful actions, including, without limitation, a reclassification, dividend, division, combination or recapitalization, with respect to the shares of Class B Common Stock (and shares of Series B Founder Preferred Stock which may be converted into shares of Class B Common Stock) necessary to maintain at all times a one-to-one ratio between the number of Class B Common Units, LTIP Units or Rollover Profits Units owned by the holders thereof pursuant to the OpCo LLC Agreement and the number of outstanding shares of Class B Common Stock (and number of shares of Class B Common Stock into which all outstanding shares of Series B Founder Preferred Stock may be converted), owned by such holders;

(3) shall not undertake or authorize (i) any subdivision (by any stock split, stock dividend, reclassification, recapitalization or similar event) or combination (by reverse stock split, reclassification, recapitalization or similar event) of the Class A Common Stock that is not accompanied by an identical subdivision or combination of the Class A Common Units to maintain at all times, subject to the provisions of this Certificate of Incorporation, a one-to-one ratio between the number of Class A Common Units owned by the Corporation and the number of outstanding shares of Class A Common Stock, disregarding, for purposes of maintaining such one-to-one ratio, the Disregarded Shares; or (ii) any subdivision (by any stock split, stock dividend, reclassification, recapitalization or similar event) or combination (by reverse stock split, reclassification, recapitalization or similar event) of the Class B Common Stock that is not accompanied by an identical subdivision or combination of the Class B Common Units, LTIP Units or Rollover Profits Units to maintain at all times, subject to the provisions of this Certificate of Incorporation, a one-to-one ratio between and the number of Class B Common Units, LTIP Units or Rollover Profits Units owned by the holders of shares of Class B Common Stock and the number of outstanding shares of Class B Common Stock, unless, in each case, such action is necessary to maintain at all times both a one-to-one ratio between the number of Class A Common Units owned by the Corporation and the number of outstanding shares of Class A Common Stock, disregarding, for purposes of maintaining such one-to-one ratio, the Disregarded Shares, and a one-to-one ratio between and the number of Class B Common Units, LTIP Units or Rollover Profits Units owned by the holders of shares of Class B Common Stock and the number of outstanding shares of Class B Common Stock;

(4) shall not issue, transfer or deliver from treasury shares or repurchase or redeem shares of Class A Common Stock in a transaction not contemplated by the OpCo LLC Agreement unless in connection with any such issuance, transfer, delivery, repurchase or redemption the Corporation takes or authorizes all requisite action such that, after giving effect to all such issuances, transfers, deliveries, repurchases or redemptions, the number of Common Units owned by the Corporation shall equal on a one-for-one basis the number of outstanding shares of Class A Common Stock, disregarding, for purposes of maintaining such one-to-one ratio, the Disregarded Shares;

(5) shall not issue, transfer or deliver from treasury shares or repurchase or redeem shares of Series A Founder Preferred Stock or Series B Founder Preferred Stock in a transaction not contemplated by the OpCo LLC Agreement unless in connection with any such issuance, transfer, delivery, repurchase or redemption, the Corporation takes or authorizes all requisite action such that, after giving effect to all such issuances, transfers, repurchases or redemptions, (i) the Corporation holds (in the case of any issuance, transfer or delivery) or ceases to hold (in the case of any repurchase or redemption) Class A Common Units or other equity interests in OpCo which (in the good faith determination of the Board of Directors) are in the aggregate substantially equivalent in all respects to the outstanding shares of Series A Founder Preferred Stock so issued, transferred, delivered, repurchased or redeemed or (ii) the holders of Class B Common Units, LTIP Units or Rollover Profits Units hold (in the case of any issuance, transfer or delivery) or cease to hold (in the case of any repurchase or redemption) Class B Common Units or other equity interests in OpCo which (in the good faith determination of the Board of Directors) are in the aggregate substantially equivalent in all respects to the outstanding shares of Series B Founder Preferred Stock so issued, transferred, delivered, repurchased or redeemed, respectively; and

(6) shall not consolidate, merge, combine or consummate one or more other transactions (other than an action or transaction for which an adjustment is provided in one of the preceding paragraphs of this Article SIXTH) in which shares of Class A Common Stock (or shares of Series A Founder Preferred Stock) are exchanged for or converted into other stock, securities or the right to receive cash and/or any other property, unless in connection with any such consolidation, merger, combination or other transaction, either the Common Units, the LTIP Units and Rollover Profits Units shall be entitled to be exchanged for or converted into (without duplication of any corresponding share of Class A Common Stock which the Corporation may elect to issue upon a redemption or exchange of such Common Units by the holder thereof) the same kind and amount of stock, securities, cash and/or any other property, as the case may be, into which or for which each share of Class A Common Stock that such Common Unit, LTIP Unit or Rollover Profits Unit could then be redeemed or exchanged for under the OpCo LLC Agreement, is exchanged or converted, the same kind and amount of stock, securities, cash and/or any other property, as the case may be, into which or for which each share of Class A Common Stock is exchanged or converted, in each case to maintain at all times a one-to-one ratio between (x) the stock, securities or rights to receive cash and/or any other property issuable in such transaction in exchange for or conversion of one share of Class A Common Stock and (y) the stock, securities or rights to receive cash and/or any other property issuable in such transaction in exchange for or conversion of one Common Unit, LTIP Unit or Rollover Profits Unit. The foregoing provisions of this paragraph (6) may be waived in any instance (without the necessity of calling, noticing or holding any meeting of stockholders of the Corporation) by the consent or agreement of the holders of a majority in voting power of (i) the Class A Common Stock then outstanding, voting, consenting or agreeing separately as a single class, and (ii) the Class B Common Stock then outstanding, voting, consenting or agreeing separately as a single class.

SEVENTH: The following provisions are inserted for the management of the business and the conduct of the affairs of the Corporation, and for further definition, limitation and regulation of the powers of the Corporation and of its directors and stockholders.

(a) Management. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors.

(b) Number of Directors. Subject to the terms of any one or more classes or series of Preferred Stock, the Board of Directors shall consist of such number of members as fixed from time to time by resolution adopted by the affirmative vote of a majority of the entire Board of Directors.

(c) Election of Directors.

(A) The directors, other than those who may be elected by the holders of any series of Preferred Stock voting separately as a single class pursuant to this Certificate of Incorporation (including any Certificate of Designation relating to an outstanding series of Preferred Stock) (collectively, the **"Preferred Directors"** and each, a **"Preferred Director"**), shall be elected by the stockholders generally entitled to vote at each annual meeting of the stockholders and shall hold office until the next annual meeting of stockholders and until each of their successors shall have been duly elected and qualified, subject to their earlier death, resignation, disqualification or removal. The election of directors need not be by written ballot unless the Bylaws so provide. No decrease in the number of directors constituting the Board shall shorten the term of any incumbent director.

(B) The vote required for the election of directors by stockholders (other than the Preferred Directors) in an uncontested election shall be the affirmative vote of a majority of the votes cast with respect to a director nominee. In any contested election of directors (other than the Preferred Directors), the director nominees receiving the greatest number of the votes cast for their election, up to the number of directors to be elected in such election, shall be deemed elected. Any incumbent director (other than a Preferred Director) who fails to receive the affirmative vote of a majority of the votes cast in an uncontested election shall submit an offer to resign as director no later than two (2) weeks after the certification by the Corporation of the voting results, which resignation shall specify that it shall be effective upon its acceptance, if any, by the Board of Directors. For purposes of this paragraph, (i) a "majority of the votes cast" shall mean that the number of votes cast "for" a director nominee must exceed the number of votes cast "against" that director nominee, (ii) "abstentions" and "broker non-votes" shall not count as votes either "for" or "against" a director nominee, (iii) an "uncontested election" is one in which the number of individuals who have been nominated for election as a director is equal to, or less than, the number of directors to be elected in such election, and (iv) a "contested election" is one in which the number of individuals who have been nominated for election as a director exceed the number of directors to be elected as of the date that is ten (10) days prior to the date that the Corporation first mails its notice of meeting for such meeting to the stockholders.

(d) Subject to the rights of the holders of any outstanding series of Preferred Stock, newly created directorships resulting from an increase in the authorized number of directors or any vacancies on the Board of Directors resulting from the death, resignation, disqualification, removal or other cause shall be filled solely and exclusively by a majority of the directors then in office, although less than a quorum, or by the sole remaining director. Any director so elected shall hold office until the expiration of the term of office of the director whom he or she has replaced and until his or her successor shall be elected and qualified, subject to such director's earlier, death, resignation, disqualification or removal.

(e) In addition to the powers and authority hereinbefore or by statute expressly conferred upon them, the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation, subject, nevertheless, to the provisions of the GCL, this Certificate of Incorporation, and any Bylaws adopted by the stockholders; provided, however, that no Bylaws hereafter adopted by the stockholders shall invalidate any prior act of the directors which would have been valid if such Bylaws had not been adopted.

EIGHTH: No director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the GCL as the same exists or may hereafter be amended. If the GCL is amended hereafter to authorize the further elimination or limitation of the liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent authorized by the GCL, as so amended. Any repeal or modification of this Article EIGHTH shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

NINTH: The Corporation shall, to the fullest extent permitted by applicable law, indemnify its directors and officers, and such right to indemnification shall continue as to a person who has ceased to be a director or officer of the Corporation and shall inure to the benefit of his or her heirs, executors and personal and legal representatives; provided, however, that, except for proceedings to enforce rights to indemnification, the Corporation shall not be obligated to indemnify any director or officer (or his or her heirs, executors or personal or legal representatives) in connection with a proceeding (or part thereof) initiated by such person in his or her capacity as such unless such proceeding (or part thereof) was authorized or consented to by the Board of Directors. The Corporation shall, to the fullest extent permitted by applicable law, pay the expenses (including attorneys' fees) incurred by a director or officer of the Corporation in defending any proceeding in advance of its final disposition; provided, however, that, to the extent required by applicable law, such payment of expenses in advance of the final disposition of the proceeding shall be made only upon receipt of an undertaking by the director or officer of the Corporation to repay all amounts advanced if it should be ultimately determined that the Covered Person is not entitled to be indemnified under this Article NINTH or otherwise.

The rights to indemnification and to the advance of expenses conferred in this Article NINTH shall not be exclusive of any other right which any person may have or hereafter acquire under this Certificate of Incorporation, the Bylaws, any statute, agreement, vote of stockholders or disinterested directors or otherwise.

Any repeal or modification of this Article NINTH shall not adversely affect any rights to indemnification and to the advancement of expenses of a director or officer of the Corporation existing at the time of such repeal or modification with respect to any acts or omissions occurring prior to such repeal or modification.

TENTH: Subject to the rights of the holders of any outstanding series of Preferred Stock, special meetings of stockholders, for any purpose or purposes, (a) may be called at any time, but only by (i) the Chairman of the Board of Directors, if there be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, (ii) the Chief Executive Officer, if there shall be one, and (iii) the Board of Directors or (v) an officer authorized by the Board of Directors to do so and (b) shall be called by (i) the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board, or (ii) the Secretary, upon the written request of the holders of at least thirty percent (30%) of the voting power of the then outstanding shares of stock generally entitled to vote on the matter for which such special meeting of stockholders is called. Such request shall state the purpose or purposes of the special meeting of stockholders.

ELEVENTH: Except as may otherwise be provided for or fixed pursuant to the provisions of Article FOURTH hereof relating to the rights of the holders of any outstanding series of Preferred Stock, no action that is required or permitted to be taken by the stockholders of the Corporation at any annual or special meeting of stockholders may be effected by written consent of stockholders in lieu of a meeting of stockholders.

TWELFTH: Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer, or employee of the Corporation to the Corporation or the Corporation's stockholders, (iii) any action asserting a claim arising pursuant to any provision of the GCL, this Certificate of Incorporation or the Bylaws, or (iv) any action asserting a claim governed by the internal affairs doctrine of the State of Delaware; provided, however, that, in the event that the Court of Chancery of the State of Delaware lacks jurisdiction over any such action or proceeding, the sole and exclusive forum for such action or proceeding shall be another state or federal court located within the State of Delaware. Unless the Corporation consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the sole and exclusive forum for any action asserting a claim arising under the Securities Act of 1933, as amended. Failure to enforce the foregoing provisions would cause the Corporation irreparable harm and the Corporation shall, to the fullest extent permitted by applicable law, be entitled to equitable relief, including injunctive relief and specific performance, to enforce the foregoing provisions. Any person or entity purchasing or otherwise acquiring any interest in shares of capital stock of the Corporation shall be deemed to have notice of and consented to the provisions of this Article TWELFTH.

THIRTEENTH: In furtherance and not in limitation of the powers conferred by the laws of the State of Delaware, the Board of Directors is expressly authorized to make, alter and repeal the Bylaws, subject to the power of the stockholders of the Corporation to alter or repeal any Bylaw whether adopted by them or otherwise.

FOURTEENTH: The Corporation reserves the right, at any time and from time to time, to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, and other provisions authorized by the laws of the State of Delaware at the time in force may be added or inserted, in the manner now or hereafter prescribed in this Certificate of Incorporation or applicable law, and all rights herein conferred upon stockholders, directors or any other persons whomsoever by and pursuant to the Certificate of Incorporation are granted subject to such reservation.

Meetings of Stockholders

SECTION 2.01. Place of Meetings. Meetings of the stockholders for the election of directors or for any other purpose shall be held at such time and place, either within or without the State of Delaware, as shall be designated from time to time by the Board of Directors. The Board of Directors may, in its sole discretion, determine that a meeting of the stockholders shall not be held at any place, but may instead be held solely by means of remote communication in the manner authorized by Section 211 of the General Corporation Law of the State of Delaware (the “**DGCL**”).

SECTION 2.02. Annual Meetings. The Annual Meeting of Stockholders for the election of directors shall be held on such date and at such time as shall be designated from time to time by the Board of Directors. Any other proper business may be transacted at the Annual Meeting of Stockholders.

SECTION 2.03. Special Meetings. Subject to the rights of the holders of any outstanding series of preferred stock of the Corporation provided for or fixed pursuant to the certificate of incorporation of the Corporation (as amended or amended and restated from time to time, the “**Certificate of Incorporation**”), Special Meetings of Stockholders, for any purpose or purposes, (a) may be called at any time, but only by (i) the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, (ii) the CEO (as defined below), (iii) the Board of Directors or (iv) an officer authorized by the Board of Directors to do so and (b) shall be called by (i) the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, or (ii) the CEO, upon the written request of the holders of at least thirty percent (30%) of the voting power of the then outstanding shares of capital stock of the Corporation generally entitled to vote on the matter for which such Special Meeting of Stockholders is called. Such request shall state the purpose or purposes of the proposed Special Meeting of Stockholders. At a Special Meeting of Stockholders, only such business shall be conducted as shall be specified in the notice of meeting (or any supplement thereto).

SECTION 2.04. Notice. Whenever stockholders are required or permitted to take any action at a meeting, a notice of the meeting, in the form of a writing or electronic transmission, shall be given which shall state the place, if any, date and hour of the meeting, the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such meeting, the record date for determining the stockholders entitled to vote at such meeting, if such date is different from the record date for determining stockholders entitled to notice of such meeting and, in the case of a Special Meeting of Stockholders, the purpose or purposes for which the meeting is called. Unless otherwise required by applicable law, notice of any meeting shall be given not less than ten (10) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote at such meeting as of the record date for determining stockholders entitled to notice of such meeting.

SECTION 2.05. Adjournments and Postponements. Any meeting of the stockholders may be adjourned or postponed from time to time by the chairman of such meeting or by the Board of Directors, without the need for approval thereof by stockholders to reconvene or convene, respectively, at the same or some other place. Notice need not be given of any such adjourned or postponed meeting if the time and place, if any, thereof, and the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such adjourned or postponed meeting are announced at the meeting at which the adjournment is taken or, with respect to a postponed meeting, are publicly announced. At the adjourned or postponed meeting, the Corporation may transact any business which might have been transacted at the original meeting. If the adjournment or postponement is for more than thirty (30) days, notice of the adjourned or postponed meeting in accordance with the requirements of Section 2.04 of this Article II shall be given to each stockholder of record entitled to vote at the meeting. If, after the adjournment or postponement, a new record date for stockholders entitled to vote is fixed for the adjourned or postponed meeting, the Board of Directors shall fix a new record date for notice of such adjourned or postponed meeting in accordance with Section 2.11 of this Article II, and shall give notice of the adjourned or postponed meeting to each stockholder of record entitled to vote at such adjourned or postponed meeting as of the record date fixed for notice of such adjourned or postponed meeting.

SECTION 2.06. Quorum. Unless otherwise required by the DGCL, other applicable law, the Certificate of Incorporation or these Bylaws, the holders of at least a majority in voting power of the outstanding capital stock of the Corporation entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum at all meetings of the stockholders for the transaction of business. A quorum, once established, shall not be broken by the withdrawal of enough votes to leave less than a quorum. If, however, such quorum shall not be present or represented at any meeting of the stockholders, the chairman of such meeting or the Board of Directors shall have power to adjourn the meeting from time to time, in the manner provided in Section 2.05 of this Article II, until a quorum shall be present or represented.

SECTION 2.07. Voting. Unless otherwise required by applicable law, the Certificate of Incorporation or these Bylaws, or permitted by the rules and regulations of any securities exchange or quotation system on which the securities of the Corporation are listed or quoted for trading, any question brought before any meeting of the stockholders, other than the election of directors, shall be decided by the vote of the holders of a majority of the total number of votes of the Corporation's capital stock present at the meeting in person or represented by proxy and entitled to vote on such question, voting as a single class. Unless otherwise provided in the Certificate of Incorporation, and subject to Section 2.11(a) of this Article II and the rights of the holders of any outstanding series of preferred stock of the Corporation provided for or fixed pursuant to the Certificate of Incorporation ("**Preferred Stock**"), each stockholder entitled to vote at a meeting of the stockholders shall be entitled to cast one (1) vote for each share of the capital stock held by such stockholder which has voting power upon the matter in question. Such votes may be cast in person or by proxy as provided in Section 2.08 of this Article II. The Board of Directors, in its discretion, or the chairman of a meeting of the stockholders, in his or her discretion, may require that any votes cast at such meeting shall be cast by written ballot.

SECTION 2.08. Proxies. Each stockholder entitled to vote at a meeting of the stockholders or to express consent or dissent to corporate action in writing without a meeting may authorize another person or persons to act for such stockholder as proxy, but no such proxy shall be voted upon after three (3) years from its date, unless such proxy provides for a longer period. Without limiting the manner in which a stockholder may authorize another person or persons to act for such stockholder as proxy, the following shall constitute a valid means by which a stockholder may grant such authority:

(a) A stockholder may execute a document authorizing another person or persons to act for such stockholder as proxy. Execution may be accomplished in the manner permitted by the DGCL by the stockholder or such stockholder's authorized officer, director, employee or agent.

(b) A stockholder may authorize another person or persons to act for such stockholder as proxy by transmitting or authorizing the transmission of an electronic transmission to the person who will be the holder of the proxy or to a proxy solicitation firm, proxy support service organization or like agent duly authorized by the person who will be the holder of the proxy to receive such transmission, provided that any such transmission must either set forth or be submitted with information from which it can be determined that the transmission was authorized by the stockholder. If it is determined that such transmissions are valid, the inspectors or, if there are no inspectors, such other persons making that determination shall specify the information on which they relied.

Any copy, facsimile telecommunication or other reliable reproduction of the document (including any electronic transmission) authorizing another person or persons to act as proxy for a stockholder may be substituted or used in lieu of the original document for any and all purposes for which the original document could be used; provided, however, that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original document.

SECTION 2.09. Consent of Stockholders in Lieu of Meeting. Except as may be provided for or fixed pursuant to the provisions of the Certificate of Incorporation relating to the rights of the holders of any outstanding series of Preferred Stock, no action that is required or permitted to be taken by the stockholders of the Corporation at any Annual Meeting of Stockholders or Special Meeting of Stockholders may be effected by written consent of stockholders in lieu of a meeting of stockholders.

SECTION 2.10. List of Stockholders Entitled to Vote. The Corporation shall prepare, at least ten (10) days before every meeting of the stockholders, a complete list of the stockholders entitled to vote at the meeting; provided, however, if the record date for determining the stockholders entitled to vote is less than ten (10) days before the meeting date, the list shall reflect the stockholders entitled to vote as of the tenth (10th) day before the meeting date. Such list shall be arranged in alphabetical order, and show the address of each stockholder and the number of shares registered in the name of each stockholder; provided, that the Corporation shall not be required to include electronic mail addresses or other electronic contact information on such list. Such list shall be open to the examination of any stockholder for any purpose germane to the meeting for a period of at least ten (10) days prior to the meeting (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (ii) during ordinary business hours, at the principal place of business of the Corporation. In the event that the Corporation determines to make the list available on an electronic network, the Corporation may take reasonable steps to ensure that such information is available only to stockholders of the Corporation. If the meeting is to be held at a place, then a list of stockholders entitled to vote at the meeting shall be produced and kept at the time and place of the meeting during the whole time thereof and may be examined by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then such list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting.

SECTION 2.11. Record Date. (a) In order that the Corporation may determine the stockholders entitled to notice of any meeting of the stockholders or any adjournment thereof, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than sixty (60) nor less than ten (10) days before the date of such meeting. If the Board of Directors so fixes a date, such date shall also be the record date for determining the stockholders entitled to vote at such meeting unless the Board of Directors

determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of and to vote at a meeting of the stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to vote at a meeting of the stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for determination of stockholders entitled to vote at the adjourned meeting, and in such case shall also fix, as the record date for stockholders entitled to notice of such adjourned meeting, the same or an earlier date as that fixed for determination of stockholders entitled to vote at the adjourned meeting in accordance with the foregoing provisions of this Section 2.11(a) of this Article II.

(b) In order that the Corporation may determine the holders of any outstanding series of Preferred Stock entitled to consent to corporate action in writing without a meeting, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than ten (10) days after the date upon which the resolution fixing the record date is adopted by the Board of Directors. If no record date has been fixed by the Board of Directors, the record date for determining holders of any outstanding series of Preferred Stock entitled to consent to corporate action in writing without a meeting, when no prior action by the Board of Directors is required by applicable law, shall be the first date on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the Corporation by delivery to its registered office in the State of Delaware, its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of the stockholders are recorded. Delivery made to the Corporation's registered office shall be by hand or by certified or registered mail, return receipt requested. If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by applicable law, the record date for determining holders of any outstanding series of Preferred Stock entitled to consent to corporate action in writing without a meeting shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action.

SECTION 2.12. Stock Ledger. The stock ledger of the Corporation shall be the only evidence as to who are the stockholders entitled to examine the list of stockholders required by Section 2.10 of this Article II or to vote in person or by proxy at any meeting of stockholders. As used herein, the stock ledger of the Corporation shall refer to one (1) or more records administered by or on behalf of the Corporation in which the names of all of the Corporation's stockholders of record, the address and number of shares registered in the name of each such stockholder, and all issuances and transfer of capital stock of the Corporation are recorded in accordance with Section 224 of the DGCL.

SECTION 2.13. Conduct of Meetings. The Board of Directors may adopt by resolution such rules and regulations for the conduct of any meeting of the stockholders as it shall deem appropriate. Meetings of stockholders shall be presided over by the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, by their mutual agreement or by resolution of the Board of Directors, or, in the absence of the Chairman or Co-Chairmen of the Board of Directors, the CEO. The Board of Directors shall have the authority to appoint a temporary chairman to serve at any meeting of the stockholders if the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, none of the Co-Chairmen of the Board of Directors, or the CEO is able to do so for any reason. Except to the extent inconsistent with any rules and regulations adopted by the Board of Directors, the chairman of any meeting of the stockholders shall have the right and authority to convene and adjourn the meeting and to prescribe such rules, regulations and procedures and to do all such acts as, in the judgment of such chairman, are appropriate for the proper conduct of the meeting. Such rules, regulations or procedures, whether adopted by the Board of Directors or prescribed by the chairman of the meeting, may include, without limitation, the following: (i) the establishment of an agenda or order of business for the meeting; (ii) the determination of when the polls shall open and close for any given matter to be voted on at the meeting; (iii) rules and procedures for maintaining order at the meeting and the safety of those present; (iv) limitations on attendance at or participation in the meeting to stockholders of record of the Corporation, their duly authorized and constituted proxies or such other persons as the chairman of the meeting shall determine; (v) restrictions on entry to the meeting after the time fixed for the commencement thereof; and (vi) limitations on the time allotted to questions or comments by stockholders. The Board of Directors or the chairman of any meeting of the stockholders may determine that any nomination or business was not properly brought before such meeting and, if the Board of Directors or the chairman of such meeting makes such determination, the chairman of the meeting shall declare to such meeting that the nomination or business was not properly brought before such meeting, and any such nomination or business not properly brought before such meeting shall not be transacted or considered.

SECTION 2.14. Inspectors of Election. In advance of any meeting of the stockholders, the Board of Directors, by resolution, or the chairman of the meeting of the stockholders pursuant to Section 2.13 shall appoint one or more inspectors to act at such meeting or any adjournment thereof and make a written report thereof. One or more other persons may be designated as alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of the stockholders, the chairman of the meeting shall appoint one or more inspectors to act at the meeting. Unless otherwise required by applicable law, inspectors may be officers, employees or agents of the Corporation. Each inspector, before entering upon the discharge of the duties of inspector, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of such inspector's ability. The inspector shall have the duties prescribed by applicable law and when the vote is completed, shall certify to the Corporation the number of shares represented at a meeting of stockholders, the count of all votes and shares and such other facts as may be required by applicable law.

SECTION 2.15. Nature of Business at Meetings of Stockholders. Only such business (other than (i) nominations for election to the Board of Directors, which must comply with the provisions of Section 2.16 of this Article II, (ii) nominations for election of Preferred Directors (as defined below) and (iii) business (other than nominations) required by the Certificate of Incorporation to be voted on solely by the holders of any outstanding series of Preferred Stock) may be transacted at an Annual Meeting of Stockholders as is either (a) specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Board of Directors (or any duly authorized committee thereof), (b) otherwise properly brought before the Annual Meeting of Stockholders by or at the direction of the Board of Directors (or any duly authorized committee thereof), or (c) otherwise properly brought before the Annual Meeting of Stockholders by any stockholder of the Corporation (i) who is a stockholder of record on the date of the giving of the notice provided for in this Section 2.15 of this Article II and on the record date for the determination of stockholders entitled to vote at such Annual Meeting of Stockholders and (ii) who complies with the notice procedures set forth in this Section 2.15 of this Article II.

In addition to any other applicable requirements, for business to be properly brought before an Annual Meeting of Stockholders by a stockholder, such stockholder must have given timely notice thereof in proper written form to the Secretary.

To be timely, a stockholder's notice to the Secretary must be delivered to or be mailed and received at the principal executive offices of the Corporation not less than ninety (90) days nor more than one hundred twenty (120) days prior to the anniversary date of the immediately preceding Annual Meeting of Stockholders; provided, however, that in the event that the Annual Meeting of Stockholders is called for a date that is not within twenty-five (25) days before or after such anniversary date, notice by the stockholder in order to be timely must be so received not later than the close of business on the tenth (10th) day following the day on which such notice of the date of the Annual Meeting of Stockholders was mailed or such public disclosure of the date of the Annual Meeting of Stockholders was made, whichever first occurs. In no event shall the adjournment or postponement of an Annual Meeting of Stockholders, or the public announcement of such an adjournment or postponement, commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above.

To be in proper written form, a stockholder's notice to the Secretary must set forth the following information: (a) as to each matter such stockholder proposes to bring before the Annual Meeting of Stockholders, a brief description of the business desired to be brought before the Annual Meeting of Stockholders and the proposed text of any proposal regarding such business (including the text of any resolutions proposed for consideration and, if such business includes a proposal to amend these Bylaws, the text of the proposed amendment), and the reasons for conducting such business at the Annual Meeting of Stockholders; and (b) as to the stockholder giving notice, and the beneficial owner, if any, on whose behalf the proposal is being made, (i) the name and record address of the stockholder giving notice and the name and principal place of business of such beneficial owner, (ii) (A) the class or series and number of all shares of capital stock of the Corporation which are owned beneficially or of record by such person and any affiliates or associates of such person, (B) the name of each nominee holder of shares of all capital stock of the Corporation owned beneficially but not of record by such person or any affiliates or associates of such person, and the number of such shares of capital stock of

the Corporation held by each such nominee holder, (C) whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest or other transaction has been entered into by or on behalf of such person, or any affiliates or associates of such person, with respect to shares of capital stock of the Corporation and (D) whether and the extent to which any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of capital stock of the Corporation) has been made by or on behalf of such person, or any affiliates or associates of such person, the effect or intent of any of the foregoing being to mitigate loss to, or to manage risk or benefit of stock price changes for, such person, or any affiliates or associates of such person, or to increase or decrease the voting power or pecuniary or economic interest of such person, or any affiliates or associates of such person, with respect to capital stock of the Corporation, (iii) a description of all agreements, arrangements, or understandings (whether written or oral) between or among such person, or any affiliates or associates of such person, and any other person or persons (including their names) in connection with or relating to (A) the Corporation or (B) the proposal, including any material interest in, or anticipated benefit from the proposal to such person, or any affiliates or associates of such person, (iv) a representation that the stockholder giving notice intends to appear in person or by proxy at the Annual Meeting of Stockholders to bring such business before the meeting, and (v) any other information relating to such person that would be required to be disclosed in a proxy statement or other filing required to be made in connection with the solicitation of proxies by such person with respect to the proposed business to be brought by such person before the Annual Meeting of Stockholders pursuant to Section 14 of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), and the rules and regulations promulgated thereunder.

A stockholder providing notice of business proposed to be brought before an Annual Meeting of Stockholders shall further update and supplement such notice, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 2.15 of this Article II shall be true and correct as of the record date for determining the stockholders entitled to receive notice of the Annual Meeting of Stockholders and such update and supplement shall be delivered to or be mailed and received by the Secretary at the principal executive offices of the Corporation not later than five (5) business days after the record date for determining the stockholders entitled to receive notice of the Annual Meeting of Stockholders.

No business shall be conducted at the Annual Meeting of Stockholders except business brought before the Annual Meeting of Stockholders in accordance with the procedures set forth in this Section 2.15 of this Article II; provided, however, that, once business has been properly brought before the Annual Meeting of Stockholders in accordance with such procedures, nothing in this Section 2.15 of this Article II shall be deemed to preclude discussion by any stockholder of any such business.

Nothing contained in this Section 2.15 of this Article II shall be deemed to affect any rights of stockholders to request inclusion of proposals in the Corporation’s proxy statement pursuant to Rule 14a-8 under the Exchange Act (or any successor provision of law).

SECTION 2.16. Nomination of Directors. Only persons who are nominated in accordance with the following procedures shall be eligible for election as directors of the Corporation (other than as Preferred Directors). Nominations of persons for election to the Board of Directors (other than as Preferred Directors) may be made at any Annual Meeting of Stockholders, or at any Special Meeting of Stockholders called for the purpose of electing directors (other than Preferred Directors), (a) by or at the direction of the Board of Directors (or any duly authorized committee thereof) or (b) by any stockholder of the Corporation (i) who is a stockholder of record on the date of the giving of the notice provided for in this Section 2.16 of this Article II and on the record date for the determination of stockholders entitled to vote at such Annual Meeting or Special Meeting of Stockholders and (ii) who complies with the notice procedures set forth in this Section 2.16 of this Article II. For the avoidance of doubt, (a) this Section 2.16 shall not apply to the nomination or election of Preferred Directors and (b) holders of any outstanding series of Preferred Stock shall be entitled to nominate and elect Preferred Directors in accordance with the rights of such outstanding series of Preferred Stock as provided in the Certificate of Incorporation.

In addition to any other applicable requirements, for a nomination to be made by a stockholder, such stockholder must have given timely notice thereof in proper written form to the Secretary.

To be timely, a stockholder's notice to the Secretary must be delivered to or be mailed and received at the principal executive offices of the Corporation: (a) in the case of an Annual Meeting of Stockholders, not less than ninety (90) days nor more than one hundred twenty (120) days prior to the anniversary date of the immediately preceding Annual Meeting of Stockholders; provided, however, that in the event that the Annual Meeting of Stockholders is called for a date that is not within twenty-five (25) days before or after such anniversary date, notice by the stockholder in order to be timely must be so received not later than the close of business on the tenth (10th) day following the day on which such notice of the date of the Annual Meeting of Stockholders was mailed or such public disclosure of the date of the Annual Meeting of Stockholders was made, whichever first occurs; and (b) in the case of a Special Meeting of Stockholders called for the purpose of electing directors, not later than the close of business on the tenth (10th) day following the day on which notice of the date of the Special Meeting of Stockholders was mailed or public disclosure of the date of the Special Meeting of Stockholders was made, whichever first occurs. In no event shall the adjournment or postponement of an Annual Meeting of Stockholders or a Special Meeting of Stockholders called for the purpose of electing directors, or the public announcement of such an adjournment or postponement, commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above.

To be in proper written form, a stockholder's notice to the Secretary must set forth the following information: (a) as to each person whom the stockholder proposes to nominate for election as a director (i) the name, age, business address and residence address of such person, (ii) the principal occupation or employment of such person, (iii) (A) the class or series and number of all shares of capital stock of the Corporation which are owned beneficially or of record by such person and any affiliates or associates of such person, (B) the name of each nominee holder of shares of all capital stock of the Corporation owned beneficially but not of record by such person or any affiliates or associates of such person, and the number of such

shares of capital stock of the Corporation held by each such nominee holder, (C) whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest or other transaction has been entered into by or on behalf of such person, or any affiliates or associates of such person, with respect to shares of capital stock of the Corporation and (D) whether and the extent to which any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of capital stock of the Corporation) has been made by or on behalf of such person, or any affiliates or associates of such person, the effect or intent of any of the foregoing being to mitigate loss to, or to manage risk or benefit of stock price changes for, such person, or any affiliates or associates of such person, or to increase or decrease the voting power or pecuniary or economic interest of such person, or any affiliates or associates of such person, with respect to capital stock of the Corporation, (iv) such person's written representation and agreement that such person (A) is not and will not become a party to any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any person or entity as to how such person, if elected as a director of the Corporation, will act or vote on any issue or question, (B) is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Corporation with respect to any direct or indirect compensation, reimbursement, indemnification or advancement of expenses in connection with service or action as a director of the Corporation that has not been disclosed to the Corporation in such representation and agreement and (C) in such person's individual capacity, would be in compliance, if elected as a director of the Corporation, and will comply with, all applicable publicly disclosed confidentiality, corporate governance, conflict of interest, Regulation FD, code of conduct and ethics, and stock ownership and trading policies and guidelines of the Corporation and (v) any other information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act, and the rules and regulations promulgated thereunder; and (b) as to the stockholder giving the notice, and the beneficial owner, if any, on whose behalf the nomination is being made, (i) the name and record address of the stockholder giving the notice and the name and principal place of business of such beneficial owner, (ii) (A) the class or series and number of all shares of capital stock of the Corporation which are owned beneficially or of record by such person and any affiliates or associates of such person, (B) the name of each nominee holder of shares of capital stock the Corporation owned beneficially but not of record by such person or any affiliates or associates of such person, and the number of shares of capital stock of the Corporation held by each such nominee holder, (C) whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest or other transaction has been entered into by or on behalf of such person, or any affiliates or associates of such person, with respect to capital stock of the Corporation and (D) whether and the extent to which any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of capital stock of the Corporation) has been made by or on behalf of such person, or any affiliates or associates of such person, the effect or intent of any of the foregoing being to mitigate loss to, or to manage risk or benefit of stock price changes for, such person, or any affiliates or associates of such person, or to increase or decrease the voting power or pecuniary or economic interest of such person, or any affiliates or associates of such person, with respect to stock of the Corporation, (iii) a description of (A) all agreements, arrangements, or understandings (whether written or oral) between such person, or any affiliates

or associates of such person, and any proposed nominee, or any affiliates or associates of such proposed nominee, (B) all agreements, arrangements, or understandings (whether written or oral) between such person, or any affiliates or associates of such person, and any other person or persons (including their names) pursuant to which the nomination(s) are being made by such person, or otherwise relating to the Corporation or their ownership of shares of capital stock of the Corporation, and (C) any material interest of such person, or any affiliates or associates of such person, in such nomination, including any anticipated benefit therefrom to such person, or any affiliates or associates of such person, (iv) a representation that the stockholder giving notice intends to appear in person or by proxy at the Annual Meeting of Stockholders or Special Meeting of Stockholders, as the case may be, to nominate the persons named in its notice, and (v) any other information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with the solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder. Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and to serve as a director if elected.

A stockholder providing notice of any nomination proposed to be made at an Annual Meeting of Stockholders or Special Meeting of Stockholders, as the case may be, shall further update and supplement such notice, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 2.16 of this Article II shall be true and correct as of the record date for determining the stockholders entitled to receive notice of the Annual Meeting of Stockholders or Special Meeting of Stockholders, as the case may be, and such update and supplement shall be delivered to or be mailed and received by the Secretary at the principal executive offices of the Corporation not later than five (5) business days after the record date for determining the stockholders entitled to receive notice of such Annual Meeting of Stockholders or Special Meeting of Stockholders, as the case may be.

No person shall be eligible for election as a director of the Corporation unless nominated in accordance with the procedures set forth in this Section 2.16 of this Article II.

ARTICLE III

Directors

SECTION 3.01. Number, Election; Qualifications. The number of directors constituting the Board of Directors shall be determined in the manner set forth in the Certificate of Incorporation. Directors shall be elected and shall hold office in the manner set forth in the Certificate of Incorporation. Each director shall be a natural person.

Subject to applicable law and the Certificate of Incorporation, including the rights of the holders of any outstanding series of Preferred Stock, voting separately as a single class, to elect one or more directors pursuant to any applicable provisions of the Certificate of Incorporation (collectively, the “**Preferred Directors**” and each, a “**Preferred Director**”), the Board of Directors shall consist of one or more members, the number thereof to be determined from time to time by resolution adopted by the affirmative vote of a majority of the entire Board of Directors. The directors (other than the Preferred Directors) shall be elected by the

stockholders generally entitled to vote at each Annual Meeting of Stockholders and shall hold office until the next Annual Meeting of Stockholders and until each of their successors shall have been duly elected and qualified, subject to their earlier death, resignation, disqualification or removal. The vote required for the election of directors by stockholders (other than the Preferred Directors) in an uncontested election shall be the affirmative vote of a majority of the votes cast with respect to a director nominee. In any contested election of directors (other than the Preferred Directors), the director nominees receiving the greatest number of the votes cast for their election, up to the number of directors to be elected in such election, shall be deemed elected. For purposes of this Article III, (a) a “**majority of the votes cast**” means that the number of votes cast “for” a director nominee must exceed the votes cast “against” that director nominee, (b) “abstentions” and “broker non-votes” shall not count as votes either “for” or “against” a director nominee, (c) an “**uncontested election**” is one in which the number of individuals who have been nominated for election as a director is equal to, or less than, the number of directors to be elected in such election, and (d) a “**contested election**” is one in which the number of individuals who have been nominated for election as a director exceed the number of directors to be elected as of the date that is ten (10) days prior to the date that the Corporation first mails its notice of meeting for such meeting to the stockholders. Directors need not be stockholders. Each director shall be a natural person.

SECTION 3.02. Vacancies. In accordance with the Certificate of Incorporation, including subject to the rights of the holders of any outstanding series of Preferred Stock, newly created directorships resulting from an increase in the authorized number of directors or any vacancies on the Board of Directors resulting from the death, resignation, disqualification, removal or other cause shall be filled solely and exclusively by a majority of the directors then in office, although less than a quorum, or by the sole remaining director. Any director so elected shall hold office until the expiration of the term of office of the director whom he or she has replaced and until his or her successor shall be elected and qualified, subject to such director’s earlier death, resignation, disqualification or removal.

SECTION 3.03. Duties and Powers. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors which may exercise all such powers of the Corporation except as may be otherwise provided in the DGCL or the Certificate of Incorporation.

SECTION 3.04. Meetings. The Board of Directors and any committee thereof may hold meetings, both regular and special, either within or without the State of Delaware. Regular meetings of the Board of Directors or any committee thereof may be held without notice at such time and at such place as may from time to time be determined by the Board of Directors or such committee, respectively. Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, the CEO or by a majority of the directors then in office. Special meetings of any committee of the Board of Directors may be called by the chairman of such committee, if there shall be one, the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, the CEO or by a majority of the directors serving on such committee. Notice of any special meeting of the Board of Directors or any committee thereof stating the place, date and hour of such meeting shall be given to each director (or, in the case of a committee, to each member of such committee) not less than twenty-four (24) hours before such meeting.

SECTION 3.05. Organization. At each meeting of the Board of Directors or any committee thereof, the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors as chosen by the Co-Chairmen of the Board of Directors or the Board of Directors, or the chairman of such committee, as the case may be, or, in his or her absence or if there shall be none, a director chosen by a majority of the directors present, shall act as chairman of such meeting. Except as provided below, the Secretary shall act as secretary at each meeting of the Board of Directors and of each committee thereof. In case the Secretary shall be absent from any meeting of the Board of Directors or of any committee thereof, an Assistant Secretary shall perform the duties of secretary at such meeting; and in the absence from any such meeting of the Secretary and all the Assistant Secretaries, the chairman of the meeting may appoint any person to act as secretary of the meeting. Notwithstanding the foregoing, the members of each committee of the Board of Directors may appoint any person to act as secretary of any meeting of such committee and the Secretary or any Assistant Secretary may, but need not if such committee so elects, serve in such capacity.

SECTION 3.06. Resignations and Removals of Directors. Any director of the Corporation may resign from the Board of Directors or any committee thereof at any time, by giving notice in writing or by electronic transmission to the Corporation, which shall be deemed to have been given to the Corporation if given to the Chairman of the Board of Directors, if there shall be one, or, if there shall be Co-Chairmen of the Board of Directors, either of the Co-Chairmen of the Board of Directors, the CEO or the Secretary and, in the case of a committee, to the chairman of such committee, if there shall be one. Such resignation shall take effect when delivered or, if such resignation specifies a later effective time or an effective time determined upon the happening of an event or events, in which case, such resignation takes effect upon such effective time. Unless otherwise specified in such resignation, the acceptance of such resignation shall not be necessary to make it effective. A resignation which is conditioned upon the director failing to receive a specified vote for reelection as a director may provide that it is irrevocable. Any incumbent director (other than a Preferred Director) who fails to receive the affirmative vote of a majority of the votes cast in any uncontested election shall submit an offer to resign as director no later than two (2) weeks after the certification by the Corporation of the voting results, which resignation shall specify that it shall be effective upon its acceptance, if any, by the Board of Directors. Except as otherwise required by applicable law and except for Preferred Directors, any director or the entire Board of Directors may be removed from office at any time, with or without cause, by the affirmative vote of the holders of at least a majority in voting power of the outstanding capital stock of the Corporation entitled to vote in the election of such directors. Subject to the rights, if any, of the holders of any outstanding series of Preferred Stock, any director serving on a committee of the Board of Directors may be removed from such committee at any time by the Board of Directors.

SECTION 3.07. Quorum. Except as otherwise required by applicable law, or the Certificate of Incorporation or the rules and regulations of any securities exchange or quotation system on which the securities of the Corporation are listed or quoted for trading, at all meetings of the Board of Directors or any committee thereof, a majority of the entire Board of Directors or a majority of the directors constituting such committee, as the case may be, shall constitute a quorum for the transaction of business and the vote of a majority of the directors or committee members, as the case may be, present at any meeting at which there is a quorum shall be the act of the Board of Directors or such committee, as applicable. If a quorum shall not be present at any meeting of the Board of Directors or any committee thereof, the directors present thereat may adjourn the meeting from time to time, without notice other than announcement at the meeting of the time and place of the adjourned meeting, until a quorum shall be present.

SECTION 3.08. Actions of the Board by Written Consent. Unless otherwise provided in the Certificate of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting, if all the members of the Board of Directors or such committee, as the case may be, consent thereto in writing or by electronic transmission. Any person, whether or not then a director, may provide, through instruction to an agent or otherwise, that a consent to action will be effective at a future time (including a time determined upon the happening of an event), no later than sixty (60) days after such instruction is given or such provision is made and such consent shall be deemed to have been given at such effective time so long as such person is then a director and did not revoke the consent prior to such time. Any such consent shall be revocable prior to its becoming effective. After an action is taken, the consent or consents relating thereto shall be filed with the minutes of the proceedings of the Board of Directors or the committee thereof, as the case may be, in the same paper or electronic form as the minutes are maintained.

SECTION 3.09. Meetings by Means of Conference Telephone. Unless otherwise provided in the Certificate of Incorporation or these Bylaws, members of the Board of Directors or any committee thereof may participate in a meeting of the Board of Directors or such committee, as the case may be, by means of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this Section 3.09 of this Article II shall constitute presence in person at such meeting.

SECTION 3.10. Committees. The Board of Directors may designate one or more committees, each committee to consist of one or more of the directors of the Corporation. For so long as any Founder Directors (as defined in the Certificate of Incorporation) shall be serving on the Board of Directors, at least four-ninths (4/9) of each committee (rounded up to the nearest whole number of committee members) shall be comprised of Founder Directors or other directors selected by the Founder Directors. Each member of a committee must meet the requirements for membership, if any, imposed by applicable law and the rules and regulations of any securities exchange or quotation system on which the securities of the Corporation are listed or quoted for trading. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting

of any such committee. Subject to the rules and regulations of any securities exchange or quotation system on which the securities of the Corporation are listed or quoted for trading, in the absence or disqualification of a member of a committee, and in the absence of a designation by the Board of Directors of an alternate member to replace the absent or disqualified member, the member or members thereof present at any meeting and not disqualified from voting, whether or not such member or members constitute a quorum, may unanimously appoint another qualified member of the Board of Directors to act at the meeting in the place of any absent or disqualified member. Any such committee, to the extent permitted by applicable law and provided in the resolution establishing such committee, shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the Corporation, and may authorize the seal of the Corporation to be affixed to all papers which may require it; provided, however, that no such committee shall have the power or authority to (i) approve, adopt, or recommend to the stockholders any action or matter (other than the election or removal of directors) expressly required by the DGCL to be submitted to stockholders for approval, or (ii) adopt, amend, or repeal any of these Bylaws. Each committee shall keep regular minutes and report to the Board of Directors when required. Notwithstanding anything to the contrary contained in this Article III, the resolution of the Board of Directors establishing any committee of the Board of Directors (which, to the fullest extent permitted by applicable law, shall include the charter of any such committee) may establish requirements or procedures relating to the governance, operation and/or the conduct of business of such committee that are different from, or in addition to, those set forth in these Bylaws and, to the extent that there is any inconsistency between these Bylaws and any such resolution, the terms of such resolution shall be controlling.

SECTION 3.11. Subcommittees. Unless otherwise provided in the Certificate of Incorporation, these Bylaws, or the resolution of the Board of Directors designating a committee (which, to the fullest extent permitted by applicable law, shall include the charter of such committee), such committee may create one or more subcommittees, each subcommittee to consist of one or more members of the committee, and delegate to a subcommittee any or all of the powers and authority of the committee. Except for references to committees and members of committees in Section 3.10 of this Article III, every reference in these Bylaws to a committee of the Board of Directors or a member of a committee shall be deemed to include a reference to a subcommittee or member of a subcommittee.

SECTION 3.12. Compensation. The directors may be paid their expenses, if any, of attendance at each meeting of the Board of Directors and may be paid a fixed sum for attendance at each meeting of the Board of Directors or a stated salary for service as director, payable in cash or securities. No such payment shall preclude any director from serving the Corporation in any other capacity and receiving compensation therefor. Members of special or standing committees may be allowed like compensation for service as committee members.

SECTION 3.13. Interested Directors. No contract or transaction between the Corporation and one or more of its directors or officers, or between the Corporation and any other corporation, partnership, association or other organization in which one or more of its directors or officers are directors or officers or have a financial interest, shall be void or voidable

solely for this reason, or solely because the director or officer is present at or participates in the meeting of the Board of Directors or committee thereof which authorizes the contract or transaction, or solely because any such director's or officer's vote is counted for such purpose if: (i) the material facts as to the director's or officer's relationship or interest and as to the contract or transaction are disclosed or are known to the Board of Directors or the committee, and the Board of Directors or committee in good faith authorizes the contract or transaction by the affirmative votes of a majority of the disinterested directors, even though the disinterested directors be less than a quorum; or (ii) the material facts as to the director's or officer's relationship or interest and as to the contract or transaction are disclosed or are known to the stockholders entitled to vote thereon, and the contract or transaction is specifically approved in good faith by vote of the stockholders; or (iii) the contract or transaction is fair as to the Corporation as of the time it is authorized, approved or ratified by the Board of Directors, a committee thereof or the stockholders. Common or interested directors may be counted in determining the presence of a quorum at a meeting of the Board of Directors or of a committee which authorizes such contract or transaction.

ARTICLE IV

The Board of Directors, in its discretion, also may choose one Chairman of the Board of Directors or two Co-Chairmen of the Board of Directors (each of whom (i) must be a director and (ii) shall be considered a Chairman of the Board of Directors for purposes of these Bylaws) and one or more Vice Presidents, Assistant Secretaries, Assistant Treasurers and other officers. The Chairman of the Board of Directors, if there shall be one, or the Co-Chairmen of the Board of Directors, if there shall be more than one, shall also perform such other duties and may exercise such other powers as may from time to time be assigned to such officer by these Bylaws or by the Board of Directors. SECTION 4.05. Chief Executive Officer. The CEO shall, subject to the direction and control of the Board of Directors, have general supervision of the business of the Corporation and shall see that all orders and resolutions of the Board of Directors are carried into effect. The CEO shall execute all bonds, mortgages, contracts and other instruments of the Corporation requiring a seal, under the seal of the Corporation, except where required or permitted by applicable law to be otherwise signed and executed and except that the other officers of the Corporation may sign and execute documents when so authorized by these Bylaws, the Board of Directors or the CEO. In the absence or inability or refusal to act of the Chairman of the Board of Directors, if there shall be one, or the Co-Chairmen of the Board of Directors, if there shall be more than one, or if there shall be none, the CEO shall preside at all meetings of the stockholders and, if the CEO is also a director, the Board of Directors. The CEO shall also perform such other duties and may exercise such other powers as may from time to time be assigned to the CEO by these Bylaws or by the Board of Directors.

ARTICLE V

Stock

SECTION 5.01. Stock Certificates; Uncertificated Shares. The shares of capital stock of the Corporation shall be represented by certificates, provided that the Board of Directors may provide by resolution or resolutions that some or all of any or all classes or series of its capital stock shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the Corporation. Every holder of stock represented by certificates shall be entitled to have a certificate signed by, or in the name of, the Corporation by any two (2) authorized officers of the Corporation representing the number of shares registered in certificate form. Each of a Chairman of the Board, the CEO and the Secretary, in addition to any other officers of the Corporation authorized by the Board of Directors or these Bylaws, is hereby authorized to sign certificates by, or in the name of, the Corporation.

SECTION 5.02. Signatures. Any or all of the signatures on a certificate may be a facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if such person were such officer, transfer agent or registrar at the date of issue.

SECTION 5.03. Lost Certificates. The Corporation may issue a certificate or uncertificated shares in place of any certificate theretofore issued by the Corporation alleged to have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen or destroyed. The Corporation may require the owner of such lost, stolen or destroyed certificate, or such owner's legal representative, to give the Corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the Corporation on account of the alleged loss, theft or destruction of such certificate or the issuance of such new certificate or uncertificated shares.

SECTION 5.04. Transfers. Shares of capital stock of the Corporation shall be transferable in the manner prescribed by applicable law, subject to any valid restrictions on transfer or registration of transfer, or on the amount of stock that may be owned by any person or group of persons, imposed by the Certificate of Incorporation, these Bylaws or an agreement among any number of security holders of the Corporation or among such holders and the Corporation or a subsidiary thereof.

SECTION 5.05. Dividend Record Date. In order that the Corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than sixty (60) days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

SECTION 5.06. Record Owners. The Corporation shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, and to hold liable for calls and assessments a person registered on its books as the owner of shares, and shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise required by applicable law.

SECTION 5.07. Transfer and Registry Agents. The Corporation may from time to time maintain one or more transfer offices or agencies and registry offices or agencies at such place or places as may be determined from time to time by the Board of Directors.

Notices

SECTION 6.01. Notices. Whenever written notice is required by the DGCL, the Certificate of Incorporation or these Bylaws to be given to any director, member of a committee or stockholder, such notice may be given in writing directed to such director's, committee member's or stockholder's mailing address (or by electronic transmission directed to such director's, committee member's or stockholder's electronic mail address, as applicable) as it appears on the records of the Corporation and shall be given: (a) if mailed, when the notice is deposited in the United States mail, postage prepaid; (b) if delivered by courier service, the earlier of when the notice is received or left at such director's, committee member's or stockholder's address; or (c) if given by electronic mail, when directed to such director's, committee member's or stockholder's electronic mail address unless such director, committee member or stockholder has notified the corporation in writing or by electronic transmission of an objection to receiving notice by electronic mail or such notice is prohibited under the DGCL, the Certificate of Incorporation or these Bylaws. A notice to a stockholder by electronic mail must include a prominent legend that the communication is an important notice regarding the Corporation. Without limiting the manner by which notice otherwise may be given effectively to stockholders, but subject to Section 232(e) of the DGCL, any notice to stockholders given by the Corporation under the DGCL, the Certificate of Incorporation or these Bylaws shall be effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. Any such consent shall be revocable by the stockholder by written notice or electronic transmission to the Corporation. Notice given by electronic transmission, as described above, shall be deemed given: (i) if by facsimile telecommunication, when directed to a number at which the stockholder has consented to receive notice; (ii) if by a posting on an electronic network, together with separate notice to the stockholder of such specific posting, upon the later of (A) such posting and (B) the giving of such separate notice; and (iii) if by any other form of electronic transmission, when directed to the stockholder. Notwithstanding the foregoing, a notice may not be given by an electronic transmission from and after the time that (i) the Corporation is unable to deliver by such electronic transmission two (2) consecutive notices given by the Corporation and (ii) such inability becomes known to the Secretary or an Assistant Secretary or to the transfer agent, or other person responsible for the giving of notice, provided, however, the inadvertent failure to discover such inability shall not invalidate any meeting or other action.

SECTION 6.02. Waivers of Notice. Whenever any notice is required by the DGCL, the Certificate of Incorporation or these Bylaws to be given to any director, member of a committee or stockholder, a waiver thereof in writing, signed by the person or persons entitled to notice, or a waiver by electronic transmission by the person or persons entitled to notice, whether before or after the time stated therein, shall be deemed equivalent to notice. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except where the person attends the meeting for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened. Neither the business to be transacted at, nor the purpose of, any Annual Meeting of Stockholders or Special Meeting of Stockholders or any regular or special meeting of the directors or members of a committee of directors need be specified in any written waiver of notice or any waiver by electronic transmission unless so required by the Certificate of Incorporation or these Bylaws.

ARTICLE VII

SECTION 7.01. Dividends. Dividends upon the capital stock of the Corporation, subject to the requirements of the DGCL and the provisions of the Certificate of Incorporation, if any, may be declared by the Board of Directors at any regular or special meeting of the Board of Directors (or any action by written consent in lieu thereof in accordance with Section 3.08 of Article III hereof), and may be paid in cash, in property, or in shares of the Corporation's capital stock.

SECTION 7.02. Disbursements. All checks or demands for money and notes of the Corporation shall be signed by such officer or officers of the Corporation or such other person or persons as the Board of Directors may from time to time designate.

ARTICLE VIII

Indemnification

SECTION 8.01. Power to Indemnify in Actions, Suits or Proceedings other than Those by or in the Right of the Corporation. Subject to Section 8.03 of this Article VIII, the Corporation shall, to the fullest extent permitted by applicable law, indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation), by reason of the fact that such person is or was a director or officer of the Corporation, or is or was a director or officer of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that such person's conduct was unlawful.

SECTION 8.02. Power to Indemnify in Actions, Suits or Proceedings by or in the Right of the Corporation. Subject to Section 8.03 of this Article VIII, the Corporation shall, to the fullest extent permitted by applicable law, indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that such person is or was a director or officer of the Corporation, or is or was a director or officer of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation; except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the Court of Chancery of the State of Delaware or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery of the State of Delaware or such other court shall deem proper.

SECTION 8.03. Authorization of Indemnification. Any indemnification under this Article VIII (unless ordered by a court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the present or former director or officer is proper in the circumstances because such person has met the applicable standard of conduct set forth in Section 8.01 or Section 8.02 of this Article VIII, as the case may be. Such determination shall be made, with respect to a person who is a director or officer of the Corporation at the time of such determination, (i) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (ii) by a committee of such directors designated by a majority vote of such directors, even though less than a quorum, or (iii) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion or (iv) by the stockholders. Such determination shall be made, with respect to former directors and officers, by any person or persons having the authority to act on the matter on behalf of the Corporation. To the extent, however, that a present or former director or officer of the Corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding described above, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith, without the necessity of authorization in the specific case.

SECTION 8.04. Good Faith Defined. For purposes of any determination under Section 8.03 of this Article VIII, a person shall, to the fullest extent permitted by applicable law, be deemed to have acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, or, with respect to any criminal action or proceeding, to have had no reasonable cause to believe such person's conduct was unlawful, if such person's action is based on the records or books of account of the Corporation or another enterprise, or on information supplied to such person by the officers of the Corporation or another enterprise in the course of their duties, or on the advice of legal counsel for the Corporation or another enterprise or on information or records given or reports made to the Corporation or another enterprise by an independent certified public accountant or by an appraiser or other expert selected with reasonable care by the Corporation or another enterprise. The provisions of this Section 8.04 of this Article VIII shall not be deemed to be exclusive or to limit in any way the circumstances in which a person may be deemed to have met the applicable standard of conduct set forth in Section 8.01 or Section 8.02, as the case may be, of this Article VIII.

SECTION 8.05. Indemnification by a Court. Notwithstanding any contrary determination in the specific case under Section 8.03 of this Article VIII, and notwithstanding the absence of any determination thereunder, any present or former director or officer of the Corporation may apply to the Court of Chancery of the State of Delaware or any other court of competent jurisdiction in the State of Delaware for indemnification to the extent otherwise permissible under Section 8.01 or Section 8.02 of this Article VIII or for advancement of expenses (including attorneys' fees) under Section 8.06 of this Article VIII. The basis of application for indemnification by such court shall be a determination by such court that indemnification of such present or former director or officer is proper in the circumstances because such person has met the applicable standard of conduct set forth in Section 8.01 or Section 8.02, as the case may be, of this Article VIII. Neither a contrary determination in the specific case under Section 8.03 of this Article VIII nor the absence of any determination thereunder shall be a defense to such application or create a presumption that the present or former director or officer seeking indemnification has not met any applicable standard of conduct. Notice of any application for indemnification or advancements pursuant to this Section 8.05 of this Article VIII shall be given to the Corporation promptly upon the filing of such application. If successful, in whole or in part, the present or former director or officer seeking indemnification or advancements under this Section 8.05 shall also be entitled to be paid the expense of prosecuting such application.

SECTION 8.06. Expenses Payable in Advance. Expenses (including attorneys' fees) incurred by a present or former director or officer of the Corporation or a present or former director or officer of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise in defending any civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon, if required by applicable law, receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the Corporation as authorized in this Article VIII or otherwise.

SECTION 8.07. Nonexclusivity of Indemnification and Advancement of Expenses. The indemnification and advancement of expenses provided by, or granted pursuant to, this Article VIII shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under the Certificate of Incorporation, these Bylaws, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office, it being the policy of the Corporation that indemnification of the persons specified in Section 8.01 and Section 8.02 of this Article VIII and the advancement of expenses to the persons specified in Section 8.06 of this Article VIII shall be made to the fullest extent permitted by applicable law. A right to indemnification or to advancement of expenses arising under a provision of the Certificate of Incorporation or these Bylaws shall not be eliminated or impaired by an amendment to the Certificate of Incorporation or these Bylaws after the occurrence of the act or omission that is the subject of the civil, criminal, administrative or investigative action, suit or proceeding for which indemnification or advancement of expenses is sought, unless the provision in effect at the time of such act or omission explicitly authorizes such elimination or impairment after such action or omission has occurred. The provisions of this Article VIII shall not be deemed to preclude the indemnification of any person who is not specified in Section 8.01 or Section 8.02 of this Article VIII or the advancement of expenses to any person who is not specified in Section 8.06 of this Article VIII, but whom the Corporation has the power or obligation to indemnify or advance expenses to, respectively, under the provisions of the DGCL or otherwise.

SECTION 8.08. Insurance. The Corporation may purchase and maintain insurance on behalf of any person who is or was a director or officer of the Corporation, or is or was a director or officer of the Corporation serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the Corporation would have the power or the obligation to indemnify such person against such liability under the provisions of this Article VIII or otherwise.

SECTION 8.09. Certain Definitions. For purposes of this Article VIII, references to "**the Corporation**" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors or officers, so that any person who is or was a director or officer of such constituent corporation, or is or was a director or officer of such constituent corporation serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this Article VIII with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued. The term "**another enterprise**" as used in this Article VIII shall mean any other corporation or any partnership, joint venture, trust, employee benefit plan or other enterprise of which such person is or was serving at the request of the Corporation as a director, officer, employee or agent. For purposes of this Article VIII, references to "**fines**" shall include any

excise taxes assessed on a person with respect to an employee benefit plan; and references to “**serving at the request of the Corporation**” shall include any service as a director, officer, employee or agent of the Corporation which imposes duties on, or involves services by, such director or officer with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “**not opposed to the best interests of the Corporation**” as referred to in this Article VIII.

SECTION 8.10. Survival of Indemnification and Advancement of Expenses. The indemnification and advancement of expenses provided by, or granted pursuant to, this Article VIII shall continue as to a person who has ceased to be a director or officer and shall inure to the benefit of the heirs, executors, or personal or legal representatives of such a person.

SECTION 8.11. Limitation on Indemnification. Notwithstanding anything contained in this Article VIII to the contrary, except for proceedings to enforce rights to indemnification or advancements (which shall be governed by Section 8.05 of this Article VIII), the Corporation shall not be obligated to indemnify or advance expenses to any present or former director or officer (or his or her heirs, executors or personal or legal representatives) in connection with a proceeding (or part thereof) initiated by such person unless such proceeding (or part thereof) was authorized or consented to by the Board of Directors.

SECTION 8.12. Indemnification of Employees and Agents. The Corporation may, to the extent authorized from time to time by the Board of Directors, provide rights to indemnification and to the advancement of expenses to employees and agents of the Corporation similar to those conferred in this Article VIII to directors and officers of the Corporation.

ARTICLE IX

Any transfer made while the Register is so closed shall, as between the Company and the person claiming under the transfer (but not otherwise), be considered as made immediately after the reopening of the Register. The Warrantholders or any of them, and any person duly authorised by any such holder, shall be at liberty at all reasonable times during office hours to inspect the Register and to take copies of or extracts from the same or any part thereof.

The Investor understands that the Shares may not be resold, transferred, pledged or otherwise disposed of by the Investor absent an effective registration statement under the Securities Act except (i) to the Company or a subsidiary thereof, (ii) to non-U.S. persons pursuant to offers and sales that occur outside the United States within the meaning of Regulation S under the Securities Act or (iii) pursuant to another applicable exemption from the

registration requirements of the Securities Act, and in each of cases (i) and (iii) in accordance with any applicable securities laws of the states and other jurisdictions of the United States, and that any certificates representing the Shares shall contain a legend to such effect. The Investor acknowledges that the Shares will not be eligible for resale pursuant to Rule 144A promulgated under the Securities Act. The Investor understands and agrees that the Shares will be subject to transfer restrictions and, as a result of these transfer restrictions, the Investor may not be able to readily resell the Shares and may be required to bear the financial risk of an investment in the Shares for an indefinite period of time. The Investor understands that it has been advised to consult legal counsel prior to making any offer, resale, pledge or transfer of any of the Shares.

(c) The Investor will be acquiring the Shares for its own account, the account of its affiliates or for accounts over which it has investment authority and for investment purposes only, and will not be purchasing the Shares for subdivision, fractionalization or distribution; the Investor has no contract, undertaking, agreement or arrangement with any person to sell, transfer or pledge to such person or anyone else the Shares (or any portion thereof) in violation of the Securities Act; and the Investor has no present plans or intentions to enter into any such contract, undertaking or arrangement.

(d) The Investor understands and agrees that the Investor is purchasing Shares directly from the Company. The Investor further acknowledges that there have been no representations, warranties, covenants and agreements made to the Investor by the Company, or its officers or directors, expressly or by implication, other than those representations, warranties, covenants and agreements included in this Subscription Agreement.

(e) The Investor is not (i) an employee benefit plan as defined in section 3(3) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) (whether or not subject to the provisions of Title I of ERISA, but excluding plans maintained outside of the US that are described in Section 4(b)(4) of ERISA); (ii) a plan, individual retirement account or other arrangement that is described in Section 4975 of the U.S. Internal Revenue Code, as amended (the “Code”), whether or not such plan, account or arrangement is subject to Section 4975 of the Code; (iii) an insurance company using general account assets, if such general account assets are deemed to include assets of any of the foregoing types of plans, accounts or arrangements for purposes of Title I of ERISA or Section 4975 of the Code; or (iv) an entity which is deemed to hold the assets of any of the foregoing types of plans, accounts or arrangements that is subject to Title I of ERISA of Section 4975 of the Code. The Investor’s acquisition and holding of the Shares will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Code, or any applicable similar law.

(f) The Investor has carefully read the Disclosure Package and the Financial Statements. The Investor represents and agrees that the Investor and the Investor’s professional advisor(s), if any, have had the full opportunity to ask such questions, receive such answers and obtain such information as the Investor and such Investor’s professional advisor(s), if any, have deemed necessary to verify the accuracy of the information contained or referred to in the Disclosure Package or the Financial Statements or otherwise to make an investment decision with respect to the Shares (including the right to receive a copy of the Transaction Agreement, when available).

(g) The Investor became aware of this offering of the Shares solely by means of direct contact between the Investor and the Company or a representative of the Company, and the Shares were offered to the Investor solely by direct contact between the Investor and the Company or a representative of the Company. The Investor did not become aware of this offering of the Shares, nor were the Shares offered to the Investor, by any other means. The Investor acknowledges that the Company represents and warrants that the Shares (i) were not offered by any form of general solicitation or general advertising and (ii) are not being offered in a manner involving a public offering under, or in a distribution in violation of, the Securities Act, or any state securities laws.

(h) The Investor acknowledges that it is aware that there are substantial risks incident to the purchase and ownership of the Shares, including those summarized in the section of the Disclosure Package entitled "Risk Factors." The Investor has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of an investment in the Shares, and the Investor has sought such accounting, legal and tax advice as the Investor has considered necessary to make an informed investment decision.

(i) The Investor acknowledges that neither the Disclosure Package nor the Financial Statements contain any pro forma financials for the combined business and the Investor accepts the risk that any unaudited, interim and pro forma financial information that may be subsequently disclosed may present information that may be material to the Company's business, operations and financial position and that may be materially different from the information on which the Investor is basing an investment decision and that such information may adversely affect the value of the Shares.

(j) Alone, or together with any professional advisor(s), the Investor has adequately analyzed and fully considered the risks of an investment in the Shares and determined that the Shares are a suitable investment for the Investor and that the Investor is able at this time and in the foreseeable future to bear the economic risk of a total loss of the Investor's investment in the Company. The Investor acknowledges specifically that a possibility of total loss exists.

(k) In making its decision to purchase the Shares, the Investor represents that it has relied solely upon the Disclosure Package and the Financial Statements and independent investigation made by the Investor.

(l) The Investor understands and agrees that no governmental agency has passed upon or endorsed the merits of the offering of the Shares or made any findings or determination as to the fairness of this investment.

(m) The Investor has been duly formed or incorporated and is validly existing in good standing under the laws of its jurisdiction of incorporation or formation.

(n) The execution, delivery and performance by the Investor of this Subscription Agreement are within the powers of the Investor, have been duly authorized and will not constitute or result in a breach or default under or conflict with any order, ruling or regulation of any court or other tribunal or of any governmental commission or agency, or any agreement or other undertaking, to which the Investor is a party or by which the Investor is bound, and, if the

Investor is not an individual, will not violate any provisions of the Investor's charter documents, including, without limitation, its incorporation or formation papers, bylaws, indenture of trust or partnership or operating agreement, as may be applicable. The signature on this Subscription Agreement is genuine, and the signatory, if the Investor is an individual, has legal competence and capacity to execute the same or, if the Investor is not an individual the signatory has been duly authorized to execute the same, and this Subscription Agreement constitutes a legal, valid and binding obligation of the Investor, enforceable against the Investor in accordance with its terms.

(o) Neither the due diligence investigation conducted by the Investor in connection with making its decision to acquire the Shares nor any representations and warranties made by the Investor herein shall modify, amend or affect the Investor's right to rely on the truth, accuracy and completeness of the Company's representations and warranties contained herein.

(p) The Investor is not (i) a person or entity named on the List of Specially Designated Nationals and Blocked Persons administered by OFAC or in any OFAC List, or a person or entity prohibited by any OFAC sanctions program, (ii) a Designated National as defined in the Cuban Assets Control Regulations, 31 C.F.R. Part 515, or (iii) located, organized, or ordinarily resident in a jurisdiction that is the subject of comprehensive OFAC sanctions (currently, Cuba, Iran, North Korea, Syria, or Crimea). The Investor agrees to provide law enforcement agencies, if requested thereby, such records as required by applicable law, provided that the Investor is permitted to do so under applicable law. If the Investor is a financial institution subject to the BSA/PATRIOT Act, the Investor maintains policies and procedures reasonably designed to comply with applicable obligations under the BSA/PATRIOT Act. To the extent required, it maintains policies and procedures reasonably designed for the screening of its investors against the OFAC sanctions programs, including the OFAC List. To the extent required, it maintains policies and procedures reasonably designed to ensure that the funds held by the Investor, and used to purchase the Shares, were legally derived. The Investor is, and since January 1, 2016 has been, in material compliance with all applicable laws, including the BSA/PATRIOT Act, other applicable anti-money laundering and anti-terrorist financing laws, the OFAC sanctions programs, and Anti-Bribery Laws. The Investor has not, and will not, take (or refrain from taking) any action that foreseeably would cause the Company or any of its subsidiaries and affiliates to be in violation of the BSA/PATRIOT Act, other applicable anti- money laundering and anti-terrorist financing laws, the OFAC sanctions programs, or Anti- Bribery Laws.

9. **London Stock Exchange Listing.** The parties hereto anticipate that application will be made to the Financial Conduct Authority for all of the Ordinary Shares (including the Shares) to be admitted to the Official List (by way of a standard listing under Chapter 14 of the Listing Rules) and to the London Stock Exchange plc for such Ordinary Shares to be admitted to trading on the London Stock Exchange's main market for listed securities (together, the "Readmission") as soon as reasonably practicable following the date hereof. The Company agrees to use all reasonable best efforts as soon as reasonably practicable following the date hereof (i) to prepare a draft prospectus (that shall be made available to the Subscriber for review and comment, which comments shall be considered by the Company in good faith, no later than December 15, 2019) for Readmission in accordance with the Prospectus Regulation Rules of the Financial Conduct Authority (and with sufficient time for such draft prospectus to be approved prior to the date for proposed Readmission), and (ii) to procure that Readmission will become effective and that unconditional dealings will commence on or before April 30, 2020.

10. Registration Rights. The Company agrees that it will maintain a listing of the Ordinary Shares on the London Stock Exchange plc's main market for listed securities until the Shares (i) have been registered for resale under the Securities Act of 1933, as amended (the "Securities Act") pursuant to an effective registration statement and (ii) are free from any and all restrictive legends and stop transfer orders. In connection with the Closing, the Company agrees to enter into a registration rights agreement with each Investor prior to the Closing (on terms reasonably satisfactory to the Investor and the Company) providing, (i) to the extent the Company, and/or any successor entity, is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, for the registration of the Shares for resale under the Securities Act, (ii) one (1) underwritten demand offering in any twelve-month period, provided that any such demand registration in which the Subscriber is subject to cutback in excess of twenty-five percent (25%) of the securities it requested to register shall not count as a demand registration of the purposes of this clause, and (iii) customary piggyback rights on all registrations of sales of Company equity. The Company agrees that the Company will cause such registration statement or another registration statement (which may be a "shelf" registration statement) to remain effective until the earlier of (i) two years from the listing of the Ordinary Shares for trading on a securities exchange in the United States and (ii) the first date on which the Subscriber can sell all of its Shares (or shares received in exchange therefor) under Rule 144 of the Securities Act without limitation as to the manner of sale or the amount of such securities that may be sold.

11. Termination. This Subscription Agreement shall terminate and be void and of no further force and effect, and all rights and obligations of the parties hereunder shall terminate without any further liability on the part of any party in respect thereof, upon the earlier to occur of (a) following the execution of the Transaction Agreement, such date and time as the Transaction Agreement is terminated in accordance with its terms, (b) upon the mutual written agreement of each of the parties hereto to terminate this Subscription Agreement, and (c) if any of the conditions to Closing set forth in Section 4 of this Subscription Agreement are not satisfied or waived on or prior to the Closing and, as a result thereof, the transactions contemplated by this Subscription Agreement are not consummated at the Closing or if the closing of the Transaction has not occurred prior to March 31, 2020; *provided* that nothing herein will relieve any party from liability for any willful breach hereof prior to the time of termination, and each party will be entitled to any remedies at law or in equity to recover losses, liabilities or damages arising from such breach. The Company shall promptly notify in writing the Subscriber of the termination of the Transaction Agreement promptly after the termination of such agreement.

12. Voting Agreement. The Subscriber acknowledges that, in connection with the Transaction, certain shareholders of the Company will enter into a Shareholders' Agreement pursuant to which (i) such shareholders will be entitled to nominate directors for election to the Company's Board of Directors (the "Director Nominees") and (ii) such shareholders have agreed to vote their voting shares of the Company in favor of the other shareholders' Director Nominees. The Subscriber agrees that in connection with the closing of the Transaction, it will enter into a voting agreement in the form attached hereto as **Exhibit B** whereby the Subscriber will agree to vote any Ordinary Shares owned by it, certain of its transferees and any of its affiliates in favor of the Director Nominees for a period of one (1) year following the Closing.

13. Centerbridge Director Nominee. For so long as the Subscriber, together with its affiliates, holds at least fifty percent (50%) of the Shares purchased by the Subscriber hereunder,

the Company shall obtain that the Subscriber is entitled to nominate one (1) director to the Company's Board of Directors, subject to such person's reasonable approval by APWireless (the "Subscriber Nominee"). The Subscriber Nominee may share with, and otherwise make available to, the Subscriber any information he or she receives, in his or her capacity as a Subscriber Nominee, from or on behalf of the Company and its subsidiaries; *provided*, that any such information shared shall be held in confidence. Upon the request of the Subscriber, the Company shall reimburse (or cause to be reimbursed) the Subscriber's Director Nominee for any and all reasonable out-of-pocket costs and expenses incurred by such Director Nominee in connection with his or her service as a director on the Company's Board of Directors. Notwithstanding the foregoing, the Subscriber Nominee shall not be added to the Company's Board of Directors prior to the date that is two (2) business days following the Closing Date. At all times while the Subscriber Nominee is serving as a member of the Company's Board of Directors, and following such Subscriber Nominee's cessation as a director in such former Subscriber Nominee's capacity as a former director, the Subscriber Nominee shall be entitled to all rights to indemnification, exculpation and insurance, in each case, as are made available to any other member of the Company's Board of Directors. The Company shall purchase and maintain directors' and officers' insurance, on behalf of the Subscriber Nominee, that shall provide coverage commensurate with that of an independent member of the Company's Board of Directors.

14. Other Equity Capital Raises. If, following the date hereof and prior to the Closing, the Company enters into any agreements or understandings (other than as contemplated by the Transaction Agreement) with respect to any additional equity investment in the Company that is in a dollar amount that is less than or equal to 1.15 times the aggregate subscription amount paid by the Subscriber under this Subscription Agreement (any such investment, an "Other Equal Equity Capital Raise") that includes any terms that are more favorable to an investor in the Other Equal Equity Capital Raise (excluding terms that apply proportionately relative to the size of such investor's proposed investment in the Other Equal Equity Capital Raise) than the terms applicable to the Subscriber hereunder, the Company shall provide notice of such terms to the Subscriber no later than three (3) days after entry into such agreement and, absent a written objection from the Subscriber, no later than ten (10) days after the date of such notice, such terms shall be deemed without further action to be incorporated into this Subscription Agreement.

15. Indemnification and Third-Party Claims.

(a) Each of the Company and the Subscriber (an "Indemnifying Party") shall indemnify and hold each other and their respective directors, officers, employees, advisors, and agents (collectively, the "Indemnified Party") harmless from and against any losses, claims, damages, fines, expenses and liabilities of any kind or nature whatsoever, including but not limited to any investigative, legal and other expenses incurred in connection with, and any amounts paid in settlement of, any Third-Party Claim (as defined below) (collectively, "Losses") resulting from or arising out of: (i) the breach of any representation or warranty of such Indemnifying Party contained in this Subscription Agreement or any schedule or exhibit hereto; or (ii) the violation or nonperformance, partial or total, of any covenant or agreement of such Indemnifying Party. In calculating the amount of any Losses of an Indemnified Party hereunder, there shall be subtracted the amount of any insurance proceeds and third-party payments received by the Indemnified Party with respect to such Losses, if any.

(b) If any third party shall notify any Indemnified Party in writing with respect to any matter involving a claim by such third party (a “Third-Party Claim”) which such Indemnified Party believes would give rise to a claim for indemnification against the Indemnifying Party under this Section 15, then the Indemnified Party shall promptly (i) notify the Indemnifying Party thereof in writing within thirty (30) days of receipt of notice of such claim and (ii) transmit to the Indemnifying Party a written notice (a “Claim Notice”) describing in reasonable detail the nature of the Third-Party Claim, a copy of all papers served with respect to such claim (if any), and the basis of the Indemnified Party’s request for indemnification under this Subscription Agreement.

(c) Upon receipt of a Claim Notice with respect to a Third-Party Claim, the Indemnifying Party shall have the right to assume the defense of any Third-Party Claim by, within thirty (30) days of receipt of the Claim Notice, notifying the Indemnified Party in writing that the Indemnifying Party elects to assume the defense of such Third-Party Claim, and upon delivery of such notice by the Indemnifying Party, the Indemnifying Party shall have the right to fully control and settle the proceedings; *provided*, that any such settlement or compromise shall be permitted hereunder only with written consent of the Indemnified Party (such consent not to be unreasonably withheld or delayed).

(d) If requested by the Indemnifying Party, the Indemnified Party shall, at the sole cost and expense of the Indemnifying Party, cooperate with the Indemnifying Party and its counsel in contesting any Third-Party Claim which the Indemnifying Party elects to contest, including the making of any related counterclaim against the person asserting the Third-Party Claim or any cross complaint against any person. The Indemnifying Party shall have the right to receive copies of all pleadings, notices and communications with respect to any Third-Party Claim, other than any privileged communications between the Indemnifying Party and its counsel, and shall be entitled, at its sole cost and expense, to retain separate co-counsel and participate in, but not control, any defense or settlement of any Third-Party Claim assumed by the Indemnifying Party pursuant to Section 15(c).

(e) In the event of a Third-Party Claim for which the Indemnifying Party elects not to assume the defense or fails to make such an election within the thirty (30) days of Claim Notice, the Indemnified Party may, at its option, defend, settle, compromise or pay such action or claim at the expense of the Indemnifying Party; *provided*, that any such settlement or compromise shall be permitted hereunder only with the written consent of the Indemnifying Party (such consent not to be unreasonably withheld or delayed).

(f) Notwithstanding the foregoing, the Indemnifying Party shall have no liability (for indemnification or otherwise) with respect to any Losses in excess of the total purchase price for the Shares.

16. Miscellaneous.

(a) The Subscriber acknowledges that the fact that the Company is in discussions regarding the Transaction, including the identity of AP Wireless, and the information contained in the Disclosure Package and the Financial Statements constitutes material, non- public information and that neither such information nor any information relating to the offering of the Shares pursuant hereto should be shared with, or disclosed to, any individual or entity unless and until such information has been publicly disclosed.

(b) Neither this Subscription Agreement nor any rights that may accrue to the Subscriber hereunder (other than the Shares acquired hereunder, if any) may be transferred or assigned; *provided, however*, that the Subscriber may transfer or assign this Subscription Agreement or any rights that may accrue to the Subscriber hereunder (including the Shares acquired hereunder, if any) to any of its affiliates.

(c) The Company may request from the Subscriber such additional information as the Company may deem necessary to evaluate the eligibility of the Subscriber to acquire the Shares, and the Subscriber shall provide such information as may reasonably be requested, to the extent readily available and to the extent consistent with its internal policies and procedures.

(d) The Subscriber acknowledges that the Company and others will rely on the acknowledgments, understandings, agreements, representations and warranties contained in this Subscription Agreement. Prior to the Closing, the Subscriber agrees to promptly notify the Company if any of the acknowledgments, understandings, agreements, representations and warranties set forth herein are no longer accurate. The Subscriber agrees that each purchase by the Subscriber of Shares from the Company will constitute a reaffirmation of the acknowledgments, understandings, agreements, representations and warranties herein (as modified by any such notice) by the Subscriber as of the time of such purchase.

(e) The Company is entitled to rely upon this Subscription Agreement and is irrevocably authorized to produce this Subscription Agreement or a copy hereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby.

(f) All the agreements, representations and warranties made by each party hereto in this Subscription Agreement shall survive the Closing.

(g) This Subscription Agreement may not be modified, waived or terminated except by an instrument in writing, signed by the party against whom enforcement of such modification, waiver, or termination is sought.

(h) This Subscription Agreement constitutes the entire agreement, and supersedes all other prior agreements, understandings, representations and warranties, both written and oral, among the parties, with respect to the subject matter hereof. This Subscription Agreement shall not confer any rights or remedies upon any person other than the parties hereto, and their respective successor and assigns.

(i) Except as otherwise provided herein, this Subscription Agreement shall be binding upon, and inure to the benefit of the parties hereto and their heirs, executors, administrators, successors, legal representatives, and permitted assigns, and the agreements, representations, warranties, covenants and acknowledgments contained herein shall be deemed to be made by, and be binding upon, such heirs, executors, administrators, successors, legal representatives and permitted assigns.

(j) If any provision of this Subscription Agreement shall be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions of this Subscription Agreement shall not in any way be affected or impaired thereby and shall continue in full force and effect.

(k) This Subscription Agreement may be executed in one or more counterparts (including by facsimile or electronic mail or in .pdf) and by different parties in separate counterparts, with the same effect as if all parties hereto had signed the same document. All counterparts so executed and delivered shall be construed together and shall constitute one and the same agreement.

(l) The parties hereto agree that irreparable damage would occur in the event that any of the provisions of this Subscription Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches of this Subscription Agreement and to enforce specifically the terms and provisions of this Subscription Agreement, this being in addition to any other remedy to which such party is entitled at law, in equity, in contract, in tort or otherwise.

(m) All references in this Subscription Agreement to “\$” or “dollars” are to the lawful currency of the United States.

(n) THIS SUBSCRIPTION AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK, WITHOUT REGARD TO THE PRINCIPLES OF CONFLICTS OF LAWS THAT WOULD OTHERWISE REQUIRE THE APPLICATION OF THE LAW OF ANY OTHER STATE. EACH PARTY HERETO HEREBY WAIVES ANY RIGHT TO A JURY TRIAL IN CONNECTION WITH ANY LITIGATION PURSUANT TO THIS SUBSCRIPTION AGREEMENT AND THE TRANSACTIONS CONTEMPLATED HEREBY.

[Signature Page to Amendment to Subscription Agreement]

February 7, 2020

Mr. William D. Rahm
Centerbridge Partners, L.P.
375 Park Avenue, 11th Floor
New York, NY 10152

Mr. Rahm:

Reference is made to that certain Subscription Agreement, dated as of November 20, 2020 (the “Subscription Agreement”), entered into by and among Landscape Acquisition Holdings Limited, a company incorporated with limited liability under the laws of the British Virgin Islands (the “Company”), and Centerbridge Partners Real Estate Fund I, L.P., Centerbridge Partners Real Estate Fund SBS, L.P. and Centerbridge Special Credit Partners III, L.P. (collectively, the “Centerbridge Entities”), pursuant to which the Centerbridge Entities have agreed to purchase from the Company ordinary shares of the Company on the Closing Date. Capitalized terms used but not defined in this letter agreement (the “Letter Agreement”) shall have the respective meanings ascribed thereto in the Subscription Agreement.

Section 10 of the Subscription Agreement provides that in connection with the Closing, the Company and the Centerbridge Entities will enter into a registration rights agreement prior to the Closing (on terms reasonably satisfactory to the Company and the Centerbridge Entities) providing the Centerbridge Entities with certain registration rights.

This Letter Agreement reflects the parties agreement that:

- (a) The Company shall maintain a listing of the Ordinary Shares on the London Stock Exchange plc’s main market for listed securities until the Shares (i) have been registered for resale under the Securities Act pursuant to an effective registration statement and (ii) are free from any and all restrictive legends and stop transfer orders. The Company shall cause such registration statement or another registration statement (which may be a “shelf” registration statement) to remain effective until the earlier of (i) two (2) years from the listing of the Ordinary Shares for trading on a securities exchange in the United States and (ii) the first date on which the Subscriber can sell all of its Shares (or shares received in exchange therefor) under Rule 144 of the Securities Act without limitation as to the manner of sale or the amount of such securities that may be sold.
- (b) The parties will negotiate and enter into the registration rights agreement referenced in Section 10 of the Subscription Agreement (the “Registration Rights Agreement”) following the Closing but prior to such time as the Company becomes subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act.
- (c) As set forth in Section 10 of the Subscription Agreement, the Registration Rights Agreement will provide, among other things, (i) to the extent the Company, and/or any successor entity, is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, for the registration of the Shares for resale under the Securities Act, (ii) one (1) underwritten demand offering for the Subscriber in any twelve-month period, provided that any such demand registration in which the Subscriber is subject to cutback in excess of twenty-five percent (25%) of the securities it requested to register shall not count as a demand registration of the purposes of this clause, and (iii) customary piggyback rights on all registrations of sales of Company equity.

- (d) The terms and conditions of the Registration Rights Agreement will otherwise be equivalent to the terms and conditions set forth in “Article VI – Registration Rights” of that certain Shareholder Agreement dated as of the Closing Date by and among the Company, William Berkman, Berkman Family Investments, LLC, TOMS Acquisition I LLC, Imperial Landscape Sponsor LLC, as Investors, Berkman Family Investments, LLC, as AG Investors’ Representative, and TOMS Acquisition II LLC, as Landscape Investors’ Representative are to the Investors thereunder, in the form as of the date hereof, and shall include (A) the provisions of clause (c) above, (B) that the Company will be required to effect an underwritten offering for the Shares at the request of the Centerbridge Entities pursuant to the terms of the Registration Rights Agreement only (i) for offerings with anticipated proceeds in excess of \$35,000,000 and (ii) until such time as the Centerbridge Entities and their affiliated entities collectively own less than 50% of the Shares issued to the Centerbridge Entities at the Closing, at which point the Centerbridge Entities will no longer have the right to demand that the Company effect an underwritten public offering of the Shares, (C) that the Company shall maintain a registration statement pursuant to Rule 415 under the Securities Act relating to the offer and sale of the Shares issued to the Centerbridge Entities at Closing from time to time in accordance with the methods of distribution elected by the Centerbridge Entities, and the Company shall cause such registration statement to become effective under the Securities Act prior to or upon the date on which the Company is listed on the New York Stock Exchange and (D) that the Centerbridge Entities’ piggyback rights on all registrations of sales of Company equity shall be effective as of the date of the Registration Rights Agreement. - (f) The parties hereby acknowledge and agree that the failure of any party to perform its agreements and covenants hereunder will cause irreparable injury to the other parties, for which monetary damages, even if available, will not be an adequate remedy. Accordingly, each party hereby consents to the granting of injunctive relief by any court of competent jurisdiction to prevent breaches of this Letter Agreement, to enforce specifically the terms and provisions hereof and to compel performance of such party’s obligations. The parties further waive any requirement for the securing or posting of any bond in connection with any such remedy, and that such remedy shall be in addition to any other remedy to which a party is entitled at law or in equity.

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, and certain other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Agreement to Vote. Each Investor, as a beneficial owner of Voting Securities of the Company, hereby agrees on behalf of (i) itself and (ii) any affiliate of each Investor that beneficially owns or controls any Voting Securities, now owned or subsequently acquired (including, without limitation any Voting Securities of the Company issued with respect to, upon conversion of, or in exchange or substitution for such Voting Securities or other securities) to hold all such Voting Securities subject to, and to vote all such Voting Securities at a regular or special meeting of shareholders (or by written consent) in accordance with, the provisions of this Agreement. For purposes of this Voting Agreement, the term "Voting Securities" shall mean securities having the right to vote generally in any election of directors or comparable governing body which, for the avoidance of doubt shall include, all classes of the Company's Ordinary Shares.

Each Investor shall, and shall cause each Investor Holder to, take all actions necessary to cause the nomination of the Company Nominees in accordance with Section 3.01 of the Shareholders Agreement, for election and appointment as directors of the Company. Each Investor shall, and shall cause each Investor Holder to not, by any voluntary action, avoid or seek to avoid the observance or performance of any of the terms to be performed by such Investor or Investor Holder hereunder, but will at all times in good faith assist reasonably in the carrying out of all of the provisions of this Agreement.
4. No Liability for Election of Recommended Directors. No Party to this Agreement, nor any officer, director, shareholder, partner, member, employee or agent of any such Party, makes any representation or warranty as to the fitness or competence of the nominee of any Party hereunder to serve on the Board by virtue of such Party's execution of this Agreement or by the act of such Party in voting for such nominee pursuant to this Agreement.

5. Remedies.

Further, each Party hereto waives any claim or defense that there is an adequate remedy at law for such breach or threatened breach.

ARTICLE II

Registration Rights

Section 2.01. Registration. (a) If at any time after the Effective Date the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, then the Company shall as promptly as reasonably practicable and in any event no less than 30 days after the Company becomes subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act (the “Filing Date”) prepare and file with the SEC a Registration Statement providing for the offer and sale for cash by the CB Investors of the Registrable Securities not already covered by an effective Registration Statement (giving effect to any amendments thereto) for an offering to be made on a delayed or continuous basis pursuant to Rule 415. The Registration Statement shall be on Form S-3 (except if the Company is not then eligible to register for resale the Registrable Securities on Form S-3, in which case such registration shall be, at the election of the CB Investors’ Representative, on behalf of the CB Investors, on Form S-1 or another appropriate form for such

purpose) and, if the Company qualifies as a WKSJ, shall be an Automatic Shelf Registration Statement. Thereafter, the Company shall use its commercially reasonable efforts to cause any such Registration Statement to be declared effective or otherwise to become effective under the Securities Act as soon as reasonably practicable, but, in any event, no less than 45 days after filing such Registration Statement with the SEC. The Company shall use its commercially reasonable efforts to keep such Registration Statement continuously effective under the Securities Act until the Company Class A Shares subject to this Article II cease to be Registrable Securities (the “Effectiveness Period”).

(b) At any time and from time to time on or after the Effective Date and until such time as the CB Investors and any of their Affiliates beneficially own less than fifty percent (50%) of the Company Class A Shares issued to the CB Investors on February 10, 2020, if the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, upon the written request (a “Demand Notice”) of the CB Investors’ Representative requesting that the Company effect an Underwritten Offering of Registrable Securities of the CB Investors (a “Demand Offering”), the Company shall use its commercially reasonable efforts to effect no more than one time in any 12-month period, as promptly as reasonably practicable, an Underwritten Offering of such Registrable Securities; provided, however, (x) at the time of the Demand Offering, there shall be an existing and effective Registration Statement pursuant to Section 2.01(a) that covers the Registrable Securities for which a Demand Offering has been requested or the Company shall then be WKSJ eligible, (y) with respect to any Registrable Securities, the Company shall be obligated to effect no more than one Roadshow Offering in any 12-month period (provided, that if any such Roadshow Offering is reasonably likely to be completed outside of such 12-month period, the Company’s obligations to effect such Demand Offering shall continue) and (z) the Registrable Securities for which a Demand Offering has been requested will have a value (based on the average closing price per share of Company Class A Shares for the ten trading days preceding the delivery of such Demand Notice) of not less than \$35,000,000. Each such Demand Notice will specify the number of Registrable Securities owned by the demanding CB Investors and the number of Registrable Securities proposed to be offered for sale and will also specify the intended method of distribution thereof. Notwithstanding the foregoing, any Demand Offering in which any CB Investor is subject to cutback in accordance with Section 2.03 in excess of twenty- five percent (25%) of the Registrable Securities it requested to register shall not be considered as exercised for purposes of this Section 2.01(b).

(c) In the event of a Demand Offering, the Underwriters (including the lead Underwriter) for such Demand Offering will be a nationally recognized investment bank selected by the CB Investors’ Representative on behalf of the applicable CB Investors with the approval of the Company (which approval shall not be unreasonably withheld).

(d) Notwithstanding anything to the contrary in this Agreement, the CB Investors may not request a Demand Offering during a period commencing upon the date of the public announcement of (or such earlier date that is not more than 30 days prior to such public announcement if the Company has given notice to the CB Investors’ Representative that it so intends to publicly announce) an Underwritten Offering of Company Class A Shares by the Company (for its own account or for any other security holder in each case provided the CB Investors are entitled to participate in such offering pursuant to Section 2.02) and ending upon the earliest to occur of (i) 90 days after the consummation of such Underwritten Offering, (ii) 30 days

after the Company has given notice to the CB Investors' Representative that it intends to publicly announce an Underwritten Offering if no such Underwritten Offering has been publicly announced within such 30-day period, (iii) upon withdrawal of such Underwritten Offering if it has been publicly announced but not commenced or (iv) upon written notice to the CB Investors' Representative that the Company no longer intends to conduct an Underwritten Offering.

(e) The CB Investors will be permitted to rescind a Demand Notice or request the removal of any Registrable Securities held by them from any Demand Offering at any time (so long as, in the case of a Demand Offering, after such removal it would still constitute a Demand Offering, including with respect to the required value thereof under Section 2.01(b)); provided, however, that, if the CB Investors rescind a Roadshow Offering after commencement of marketing efforts, such Roadshow Offering will nonetheless count as a Roadshow Offering for purposes of determining when future Roadshow Offerings can be requested by the CB Investors pursuant to this Section 2.01, unless the CB Investors reimburse the Company for all Offering Expenses incurred by the Company in connection with such Roadshow Offering (provided, the CB Investors shall not be required to so reimburse the Company for the Company's out-of-pocket expenses incurred to prepare and file any Registration Statement pursuant to Section 2.01(a) or any amendment thereto necessary to maintain the effectiveness of such Registration Statement or for the Company's internal expenses (including all salaries and expenses of its officers and employees performing legal or accounting duties)).

Section 2.02. Piggyback Offering. If, at any time after the Effective Date, the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act and the Company proposes or is required to effect an Underwritten Offering of Equity Securities of the Company for (a) the Company's own account (other than (i) pursuant to an offering in connection with a merger, acquisition or other business combination, (ii) an offering on Form S-8 (or any substitute or similar form that may be adopted by the SEC) or (iii) an offering of securities solely to the Company's existing security holders) or (b) the account of any holder of Company Class A Shares (other than the CB Investors) pursuant to a demand offering requested by such holder, then the Company will give written notice of such proposed filing to the CB Investors' Representative not less than 10 business days prior to filing with the SEC for the applicable offering, and upon the written request, given within 10 business days after delivery of any such notice by the Company, of the CB Investors to include Registrable Securities in such Underwritten Offering (which request shall specify the number of Registrable Securities proposed to be included in such Underwritten Offering), then the Company shall, subject to Section 2.03, include all such Registrable Securities in such Underwritten Offering, on the same terms and conditions as the Company's or such other holder's Company Class A Shares (a "Piggyback Offering"); provided, however, that if, at any time after giving written notice of such proposed Underwritten Offering and prior to the effecting of such Underwritten Offering, the Company or such other holder shall determine for any reason not to proceed with the proposed Underwritten Offering of the Company Class A Shares or delay the Underwritten Offering of the Company Class A Shares, then the Company will give written notice of such determination to the CB Investors' Representative and (i) in the case of a determination not to proceed with the proposed Underwritten Offering of Company Class A Shares, shall be relieved of its obligation to offer any Registrable Securities in connection with such abandoned Underwritten Offering and (ii) in the case of a determination to delay the Underwritten Offering of its Company Class A Shares, shall be permitted to delay the offer of Registrable Securities for the same period as the delay in the offering of such Company Class A

Shares; provided that any delay of more than 30 days shall be deemed to be an abandonment of the applicable Underwritten Offering for purposes of this Section 2.02, and the Company shall be required to issue the CB Investors' Representative a new notice pursuant to this Section 2.02 and grant the CB Investors a new opportunity to participate in such Underwritten Offering pursuant to this Section 2.02 in the event a determination is made to proceed with such Underwritten Offering. The Company or such other holder will select the lead Underwriter in connection with any offering contemplated by this Section 2.02 and the CB Investors' right to participate shall be conditioned on each participating CB Investor entering into an underwriting agreement in customary form and acting in accordance with the provisions thereof.

Section 2.03. Reduction of Underwritten Offering. Notwithstanding anything to the contrary in this Agreement, if the lead Underwriter of an Underwritten Offering described in Section 2.01 or 2.02 advises the Company in writing that in its reasonable opinion, the number of Equity Securities of the Company (including any Registrable Securities) that the Company, the CB Investors and any other Persons intend to include in any Underwritten Offering is such that the success of any such offering would be materially and adversely affected, including the price at which the securities can be sold or the number of Equity Securities of the Company that any participant may sell, then the number of Equity Securities of the Company to be included in the Underwritten Offering for the account of the Company, the CB Investors and any other Persons will be reduced pro rata by proposed participation (unless otherwise provided below) in the Underwritten Offering to the extent necessary to reduce the total number of securities to be included in any such Underwritten Offering to the number recommended by such lead Underwriter; provided, however, that (a) priority for inclusion of Equity Securities of the Company in a Demand Offering pursuant to Section 2.01 will be (i) first to be included, the Registrable Securities requested to be included in the Demand Offering for the account of the Founder Investors and the CB Investors, (ii) second to be included, securities to be offered by the Company for its own account, and (iii) third to be included, securities of the Company (pro rata based on then ownership of Voting Securities of the Company) requested to be included for the account of other holders having contractual piggyback registrations rights, so that the total number of securities to be included in any such Demand Offering for the account of all such Persons (including the Founder Investors and the CB Investors) will not exceed the number recommended by such lead Underwriter; (b) priority in the case of an Underwritten Offering initiated by the Company for its own account which gives rise to a Piggyback Offering pursuant to Section 2.02 will be (i) first to be included, securities initially proposed to be offered by the Company for its own account, (ii) second to be included, the Registrable Securities requested to be included in the Piggyback Offering for the account of the Founder Investors and the CB Investors, and (iii) third to be included, securities of the Company (pro rata based on then ownership of Voting Securities of the Company) requested to be included in the Piggyback Offering for the account of other holders having contractual piggyback registrations rights granted after the Effective Date, so that the total number of securities to be included in any such offering for the account of all such Persons (including the Founder Investors and the CB Investors) will not exceed the number recommended by such lead Underwriter; and (c) priority with respect to inclusion of securities in an Underwritten Offering initiated by the Company for the account of holders other than the Founder Investors and the CB Investors pursuant to contractual rights afforded such holders will be (i) first to be included, securities (including Registrable Securities) of the Company (pro rata by proposed participation) requested to be included in the Underwritten Offering for the account of such initiating holders, the Founder Investors and the CB Investors, (ii) second to be included, securities requested to be

included in such Underwritten Offering by the Company for its own account, and (iii) third to be included, pro rata among any other securities of the Company requested to be included in such Underwritten Offering for the account of other holders having contractual piggyback registrations rights, so that the total number of securities to be included in any such offering for the account of all such Persons (including the Founder Investors and the CB Investors) will not exceed the number recommended by such lead Underwriter.

Section 2.04. Registration Procedures. (a) Subject to the provisions of Section 2.01 and Section 2.02 hereof, in connection with the registration of the sale of Registrable Securities hereunder, the Company will as promptly as reasonably practicable:

(A) furnish to the CB Investors' Representative without charge, if requested, prior to the filing of a Registration Statement or any related prospectus or any amendment or supplement thereto, (i) copies of all such documents proposed to be filed (in each case including all exhibits thereto and documents incorporated by reference therein, except to the extent such exhibits or documents are incorporated by reference and currently available electronically on EDGAR or any successor system of the SEC), which documents (other than those incorporated by reference) will be subject to the review and good faith objection and comment of the CB Investors' Representative prior to filing, (ii) copies of any and all transmittal letters or other correspondence with the SEC relating to such documents (except to the extent such letters or correspondence is currently available electronically via EDGAR or any successor system of the SEC) and (iii) such other documents as the CB Investors' Representative may reasonably request, in each case in such quantities as the CB Investors' Representative may reasonably request;

(B) use its commercially reasonable efforts to (i) prepare and file with the SEC such amendments, including post-effective amendments, and supplements to each Registration Statement and the prospectus used in connection with the offer and sale of the Registrable Securities as may be necessary under applicable Law with respect to the disposition of all Registrable Securities covered by such Registration Statement to keep such Registration Statement continuously effective as to the applicable Registrable Securities for the Effectiveness Period, (ii) cause the related prospectus to be amended or supplemented by any required prospectus supplement, and as so supplemented or amended to be filed pursuant to Rule 424 under the Securities Act and (iii) respond as promptly as reasonably practicable to any comments received from the SEC with respect to each Registration Statement or any amendment thereto;

(C) use its commercially reasonable efforts to register or qualify such Registrable Securities under such other securities or blue sky laws of such jurisdictions as the CB Investors' Representative reasonably request or as may be necessary by virtue of the business and operations of the Company and its Subsidiaries and do any and all other acts and things as may be reasonably necessary or advisable to enable the CB Investors to consummate the disposition of such Registrable Securities in such jurisdictions; provided, however, that neither the Company nor any of its Subsidiaries will be required to (x) qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify but for this Section 2.04(a)(C), (y) subject itself to taxation in any such jurisdiction or (z) consent to general service of process in any such jurisdiction;

(D) notify the CB Investors' Representative at any time when a prospectus relating to Registrable Securities is required to be delivered under the Securities Act, of the happening of any event as a result of which the prospectus included in a Registration Statement or the Registration Statement or amendment or supplement relating to such Registrable Securities contains an untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, and the Company will promptly prepare and file with the SEC a supplement or amendment to such prospectus and Registration Statement (and comply fully with the applicable provisions of Rules 424, 430A and 430B under the Securities Act in a timely manner) so that, as thereafter delivered to the purchasers of the Registrable Securities, such prospectus and Registration Statement will not contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(E) advise the Underwriters, if any, and the CB Investors' Representative promptly and, if requested by such Persons, confirm such advice in writing, of the issuance by the SEC of any stop order suspending the effectiveness of the Registration Statement under the Securities Act or of the suspension by any state securities commission of the qualification of the Registrable Securities for offering or sale in any jurisdiction, or the initiation of any proceeding for any of the preceding purposes;

(F) use its commercially reasonable efforts to avoid the issuance of, or, if issued, obtain the withdrawal of (i) any order suspending the effectiveness of a Registration Statement, or (ii) any suspension of the qualification (or exemption from qualification) of any of the Registrable Securities for sale in any jurisdiction, as promptly as reasonably practicable;

(G) in connection with a Demand Offering, enter into customary agreements and use commercially reasonable efforts to take such other actions as are reasonably requested by the CB Investors' Representative in order to expedite or facilitate the disposition of such Registrable Securities in such Demand Offering, including preparing for and participating in a road show and all such other customary selling efforts as the Underwriters, if any, reasonably request in order to expedite or facilitate such disposition;

(H) if requested by the CB Investors' Representative or the Underwriters, if any, promptly include in any Registration Statement or prospectus, pursuant to a supplement or post-effective amendment if necessary, such information as the CB Investors' Representative and such Underwriters, if any, may reasonably request to have included therein, including information relating to the "Plan of Distribution" of the Registrable Securities, information with respect to the number of Registrable Securities being sold to such Underwriters, the purchase price being paid therefor and any other terms of the offering of the Registrable Securities to be sold in such offering, and make all required filings of such prospectus supplement or post-effective amendment as soon as practicable after the Company is notified of the matters to be included in such prospectus supplement or post-effective amendment;

(I) make available for inspection by the CB Investors' Representative, any Underwriter participating in any disposition of such Registrable Securities, and any attorney for the CB Investors or such Underwriter and any accountant or other agent retained by the CB Investors or such Underwriter (collectively, the "Inspectors"), all financial and other records, pertinent corporate documents and properties of the Company and its Subsidiaries (collectively, the "Records") as will be reasonably necessary to enable them to conduct customary due diligence with respect to the Company and its Subsidiaries and the related Registration Statement and prospectus, and cause the Representatives of the Company and its Subsidiaries to be made available to the Inspectors for such diligence and supply all information reasonably requested by any such Inspector; provided, however, that (x) Records and information obtained hereunder will be used by such Inspector only to conduct such due diligence and (y) Records or information that the Company determines, in good faith, to be confidential will not be disclosed by such Inspector unless (A) the disclosure of such Records or information is necessary to avoid or correct a material misstatement or omission in a Registration Statement or related prospectus, (B) the release of such Records or information is ordered pursuant to a subpoena or other order from a court or governmental authority of competent jurisdiction or (C) necessary for defense in a legal action;

(J) (A) cause the Representatives of the Company and its Subsidiaries to supply all information reasonably requested by the CB Investors' Representative, or any Underwriter, attorney, accountant or agent in connection with the Registration Statement and (B) provide the CB Investors' Representative and its counsel with the opportunity to participate in the preparation of such Registration Statement and the related prospectus;

(K) in connection with a Demand Offering, use its commercially reasonable efforts to obtain and deliver to each Underwriter and the CB Investors' Representative a comfort letter from the independent registered public accounting firm for the Company (and additional comfort letters from the independent registered public accounting firm for any company acquired by the Company whose financial statements are included or incorporated by reference in the Registration Statement) in customary form and covering such matters as are customarily covered by comfort letters or as such Underwriter and the CB Investors' Representative may reasonably request, including (x) that the financial statements included or incorporated by reference in the Registration Statement or the prospectus, or any amendment or supplement thereof, comply as to form in all material respects with the applicable accounting requirements of the Securities Act and (y) as to certain other financial information for the period ending no more than five Business Days prior to the date of such letter;

(L) in connection with a Demand Offering, use its commercially reasonable efforts to obtain and deliver to each Underwriter and the CB Investors' Representative a 10b-5 statement and legal opinion from the Company's counsel in customary form and covering such matters as are customarily covered by 10b-5 statements and legal opinions as such Underwriter and the CB Investors' Representative may reasonably request;

(M) otherwise use its commercially reasonable efforts to comply with all applicable rules and regulations of the SEC, and make generally available to its security holders, within the required time period, an earnings statement (which need not be audited) covering a period of 12 months beginning with the first fiscal quarter after the effective date of the Registration Statement relating to such Registrable Securities (as the term “effective date” is defined in Rule 158(c) under the Securities Act), which earnings statement will satisfy the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder or any successor provisions thereto; and

(N) use its commercially reasonable efforts to cause such Registrable Securities to be listed or quoted on the NASDAQ or, if Company Class A Shares are not then listed on the NASDAQ, then on any other securities exchange or national quotation system on which similar securities issued by the Company are then listed or quoted.

(b) In connection with a Demand Offering, (i) the Company and the participating CB Investors agree to enter into a written agreement with each Underwriter selected in the manner herein provided in such form and containing such provisions as are customary in the securities business for such an arrangement between such Underwriter and companies of the Company’s size and investment stature and, to the extent practicable, on terms consistent with underwriting agreements entered into by the Company (it being understood that, unless required otherwise by the Securities Act or any other applicable Law, the Company will not require any Investor to make any representation, warranty or agreement in such agreement other than with respect to such CB Investor, the ownership of such CB Investor’s securities being registered and such CB Investor’s intended method of disposition) and (ii) the CB Investors agree to complete and execute all such other documents customary in similar offerings, including any reasonable questionnaires, holdback agreements, letters or other documents customarily required under the terms of such underwriting arrangements (but specifically excluding custody agreements and powers of attorney). In the event a Demand Offering is not consummated because any condition to the obligations under any related written agreement with such Underwriter is not met or waived in connection with a Demand Offering, and such failure to be met or waived is not primarily attributable to the fault of the Investors, such Demand Offering will not be deemed exercised.

Section 2.05. Conditions to Offerings. (a) The obligations of the Company to take the actions contemplated by Section 2.01, Section 2.02, Section 2.03 and Section 2.04 with respect to an offering of Registrable Securities will be subject to the following conditions:

(A) the Company shall be subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act;

(B) the Company may require the participating CB Investors to furnish to the Company such information regarding the participating CB Investors or the distribution of such Registrable Securities as the Company may from time to time reasonably request in writing, in each case only as required by the Securities Act or under state securities or blue sky laws; and

(C) in any Demand Offering, the participating CB Investors, together with the Company, will enter into an underwriting agreement in accordance with Section 2.04(b) above with the Underwriter or Underwriters selected for such underwriting, as well as such other documents customary in similar offerings.

(b) the CB Investors agree that, upon receipt of any notice from the Company of the happening of any event of the kind described in Section 2.04(a)(D) or Section 2.04(a)(E) hereof or a condition described in Section 2.06 hereof, the CB Investors will forthwith discontinue disposition of such Registrable Securities pursuant to the Registration Statement covering the sale of such Registrable Securities until the CB Investors' receipt of the copies of the supplemented or amended prospectus contemplated by Section 2.04(a)(D) hereof or notice from the Company of the termination of the stop order or Deferral Period.

Section 2.06. Blackout Period. (a) The obligations of the Company to take the actions contemplated by Section 2.01, Section 2.02 and Section 2.04 hereof will be suspended (i) upon the receipt of comments from the SEC on any document incorporated by reference in the Registration Statement or (ii) if compliance with such obligations would (A) violate applicable Law or otherwise prevent the Company from complying with applicable Law, (B) require the Company to disclose a financing, acquisition, disposition or other transaction or corporate development (other than the contemplated offering), and the Board has determined, in the good faith exercise of its reasonable business judgment, that such disclosure is not in the best interests of the Company, (C) otherwise require premature disclosure of information the disclosure of which, the Board has determined, in the good faith exercise of its reasonable business judgment, is not in the best interests of the Company, or (D) otherwise represent an undue hardship for the Company; provided, however, that any and all such suspensions pursuant to this Section 2.06 will not exceed 90 consecutive days or a total of 120 days in the aggregate in any 12-month period (any period during which such obligations are suspended, a "Deferral Period"). The Company will promptly give the CB Investors' Representative written notice of any such suspension containing the approximate length of the anticipated delay, and the Company will notify the CB Investors upon the termination of any Deferral Period. Upon receipt of any notice from the Company of any Deferral Period, each of the CB Investors shall forthwith discontinue disposition of the Registrable Securities pursuant to the Registration Statement relating thereto until the CB Investors' Representative receives copies of the supplemented or amended prospectus contemplated hereby or until they are advised in writing by the Company that the use of the prospectus may be resumed and have received copies of any additional or supplemented filings that are incorporated by reference in the prospectus, and, if so directed by the Company, the CB Investors will, and will request the lead Underwriter or Underwriters, if any, to, deliver to the Company all copies, other than permanent file copies, then in the CB Investors' or such Underwriter's or Underwriters' possession of the current prospectus covering such Registrable Securities.

(b) The parties hereto further agree and acknowledge that any suspension or non-use of the Registration Statement due to the updating of the Registration Statement to include any financial statement the Registration Statement is required to contain (the "Required Financial Statements") shall not be deemed to be a suspension for purposes of Section 2.06(a), unless and until the seven business day period referenced in Section 2.06(c) shall have passed without the updating of financial statements required by Section 2.06(c).

(c) The Company shall use its commercially reasonable efforts to update the Registration Statement on each date on which it shall be necessary to do so to cause the Registration Statement to contain the Required Financial Statements; provided, however, that, with respect to any financial period ending after the Effective Date, the Company shall not be obligated to update the Required Financial Statements pursuant to Section 2.06(b) and shall not be deemed to be in default under this sentence until seven business days after (or such earlier date as may be reasonably practicable) the date upon which such updated financial statements are required to be filed with the SEC.

Section 2.07. Offering Expenses. Except as set forth in the next sentence, all Offering Expenses will be borne by the Company upon the request of the CB Investors' Representative. The Company shall not be obligated to pay the Offering Expenses in respect of any Demand Offering if the Company shall have paid, upon the request of the CB Investors' Representative, the Offering Expenses in connection with one Demand Offering during the 12-month period immediately prior to such offering, in which case such Offering Expenses shall instead be borne by the participating Investors pro rata based on securities sold (or, if other holders of Company securities participate in such offering, pro rata among the participating Investors and such other holders based on securities sold), and the Company shall be promptly reimbursed (by wire transfer) by the Investors for their portion of such out-of-pocket Offering Expenses incurred by the Company upon the submission of invoices for such expenses by the Company to the Investors; provided, however, that (a) if any such offering is reasonably likely to be completed outside of such 12-month period, the Company's obligations hereunder to pay the associated Offering Expenses shall continue, but the Company shall not in any event become obligated to pay the Offering Expenses associated with such offering unless it is completed after the expiration of such 12-month period and (b) the Company shall not be so reimbursed for its out-of-pocket expenses incurred to prepare and file any Registration Statement pursuant to Section 2.01(a) or any amendment thereto necessary to maintain the effectiveness of such Registration Statement; provided, further, that, notwithstanding anything to the contrary set forth herein, the Company shall always bear the Company's internal expenses (including all salaries and expenses of its officers and employees performing legal or accounting duties). Notwithstanding anything to the contrary in this Agreement, the CB Investors will bear and pay any underwriting discounts and commissions applicable to Registrable Securities offered for their accounts, transfer taxes and fees and expenses of the CB Investors' counsel.

Section 2.08. Indemnification; Contribution. (a) In connection with any registration of Registrable Securities pursuant to this Article II, the Company agrees to indemnify and hold harmless, to the fullest extent permitted by applicable Law, each of the CB Investors and their respective Affiliates, the CB Investors' Representative and each of its respective Affiliates, and each Person who controls a CB Investor or the CB Investors' Representative within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act, and the directors, officers, employees, partners, affiliates, members, managers, shareholders, assignees and representatives of each of the foregoing (collectively, the "Indemnified Persons") from and against any and all losses, claims, damages, liabilities, judgments, actions and expenses (including reasonable attorneys' fees) ("Losses") joint or several arising out of or based upon (i) any untrue or alleged untrue statement of material fact contained in any part of any Registration Statement, any preliminary or final prospectus or other disclosure document used in connection with the Registrable Securities, any Issuer FWP or any amendment or supplement to any of the foregoing, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein (in the case of a prospectus, in the light of the circumstances under which they were made) not misleading or (ii) any violation or alleged violation by the Company or any of its Subsidiaries of any federal, state, foreign or common law rule or regulation applicable to the Company or any of its Subsidiaries and relating to action or

inaction in connection with any such registration, Registration Statement, other disclosure document or Issuer FWP; provided, however, that the Company will not be required to indemnify any Indemnified Person for any Losses resulting from any such untrue statement or omission if such untrue statement or omission was made in reliance on and in conformity with information with respect to any Indemnified Person furnished to the Company in writing by the CB Investors expressly for use therein.

(b) In connection with any Registration Statement, preliminary or final prospectus, or Issuer FWP, each Investor agrees to indemnify, severally and not jointly, the Company, its Directors, its officers who sign such Registration Statement and each Person, if any, who controls the Company (within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act) to the same extent as the foregoing indemnity from the Company to the Investors, but only with respect to information with respect to such CB Investor furnished to the Company in writing by such CB Investor expressly for use in such Registration Statement, preliminary or final prospectus, or Issuer FWP to the extent such information is included therein in reliance upon and in conformity with the information furnished to the Company by such CB Investor expressly for use therein; provided, however, that in no event shall any Investor's liability pursuant to this Section 2.08 in respect of the offering to which such loss, claim, damages, liabilities, judgments, actions or expenses relate exceed an amount equal to the proceeds to such CB Investor (after deduction of all Underwriters' discounts and commissions) from such offering less the amount of any damages which such Investor has otherwise been required to pay by reason of such information.

(c) In case any claim, action or proceeding (including any governmental investigation) is instituted involving any Person in respect of which indemnity may be sought pursuant to Section 2.08(a) or (b), such Person (hereinafter called the "indemnified party") will (i) promptly notify the Person against whom such indemnity may be sought (hereinafter called the "indemnifying party") in writing; provided, however, that the failure to give such notice shall not relieve the indemnifying party of its obligations pursuant to this Agreement except to the extent such indemnifying party has been prejudiced in any material respect by such failure; (ii) permit the indemnifying party to assume the defense of such claim, action or proceeding with counsel reasonably satisfactory to the indemnified party to represent the indemnified party; and (iii) pay the fees and disbursements of such counsel related to such claim, action or proceeding. In any such claim, action or proceeding, any indemnified party will have the right to retain its own counsel, but the fees and expenses of such counsel will be at the expense of such indemnified party (without prejudice to such indemnified party's indemnity and other rights under the Charter, Bylaws and applicable Law, if any) unless (A) the indemnifying party and the indemnified party have mutually agreed to the retention of such counsel, (B) the named parties to any such claim, action or proceeding (including any impleaded parties) include both the indemnifying party and the indemnified party and the indemnified party has been advised in writing by counsel, with a copy provided to the Company, that representation of both parties by the same counsel would be inappropriate due to actual or potential conflicting interests between them, (C) the indemnifying party has failed to assume the defense of such claim and employ counsel reasonably satisfactory to the indemnified party, or (D) any such, claim, action or proceeding is a criminal or regulatory enforcement action. It is understood that the indemnifying party will not, in connection with any claim, action or proceeding or related claims, actions or proceedings in the same jurisdiction, be liable for the reasonable fees and expenses of more than one separate firm of attorneys for the

indemnified parties (in addition to any local counsel at any time for all such indemnified parties) and that all such reasonable fees and expenses will be reimbursed reasonably promptly following a written request by an indemnified party stating under which clause of (A) through (C) above reimbursement is sought and delivery of documentation of such fees and expenses. In the case of the retention of any such separate firm for the indemnified parties, such firm will be designated in writing by the indemnified parties. The indemnifying party will not be liable for any settlement of any claim, action or proceeding effected without its written consent (which consent shall not be unreasonably withheld), but if such claim, action or proceeding is settled with such consent or if there has been a final non-appealable judgment for the plaintiff, the indemnifying party agrees to indemnify the indemnified party from and against any loss or liability by reason of such settlement or judgment. Notwithstanding the foregoing sentence, if at any time an indemnified party will have requested an indemnifying party to reimburse the indemnified party for reasonable fees and expenses of counsel as contemplated by the third sentence of this Section 2.08(c), the indemnifying party agrees that it will be liable for any settlement of any proceeding effected without its written consent if (i) such settlement is entered into more than 45 days after receipt by such indemnifying party of the aforesaid request and (ii) such indemnifying party has not reimbursed the indemnified party in accordance with such request or reasonably objected in writing, on the basis of the standards set forth herein, to the propriety of such reimbursement prior to the date of such settlement. No indemnifying party will, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding (i) in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding or (ii) which involves the imposition of equitable remedies on the indemnified party or the imposition of any obligation on the indemnified party, other than as a result of the imposition of financial obligations for which the indemnified person will be indemnified hereunder.

(d) If the indemnification provided for in this Section 2.08 from the indemnifying party is unavailable to an indemnified party hereunder in respect of any losses, claims, damages, liabilities, judgments, actions or expenses referred to in this Section 2.08, then the indemnifying party, in lieu of indemnifying such indemnified party, will contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages, liabilities, judgments, actions or expenses (i) in such proportion as is appropriate to reflect the relative fault of the indemnifying party and indemnified party in connection with the actions that resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations, or (ii) if the allocation provided by clause (i) is not permitted by applicable Law, in such proportion as is appropriate to reflect not only the relative fault referred to in clause (i) but also the relative benefit of the Company, on the one hand, and the CB Investors, on the other, in connection with the statements or omissions that resulted in such losses, claims, damages, liabilities, judgments, actions or expenses, as well as any other relevant equitable considerations. The relative fault of such indemnifying party and indemnified party will be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, has been taken by, or relates to information supplied by, such indemnifying party or indemnified party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the losses, claims, damages, liabilities and expenses referred to above will be deemed to include, subject to the limitations set forth in Section 2.08(c), any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding.

(e) The parties agree that it would not be just and equitable if contribution pursuant to Section 2.08(d) were determined by pro rata allocation or by any other method of allocation that does not take into account the equitable considerations referred to in Section 2.08(d). No Person guilty of “fraudulent misrepresentation” (within the meaning of Section 11(f) of the Securities Act) will be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation. Notwithstanding the provisions of Section 2.08(d) and this Section 2.08(e), each CB Investor’s liability pursuant to Section 2.08(d) in respect of the offering to which such loss, claim, damages, liabilities, judgments, actions or expenses relate shall not exceed an amount equal to the proceeds to such CB Investor (after deduction of all Underwriters’ discounts and commissions) from such offering less the amount of any damages which such CB Investor has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. Each CB Investor’s obligation to contribute pursuant to this Section 2.08 is several in proportion to the respective number of Registrable Securities held by such Investor hereunder and not joint.

(f) For purposes of this Section 2.08, each Indemnified Person shall have the same rights to contribution as such CB Investor, and each officer, Director and Person, if any, who controls the Company within the meaning of Section 15 of the Securities Act or Section 20(a) of the Exchange Act shall have the same rights to contribution as the Company, subject in each case to the limitations set forth in the immediately preceding paragraph. Any party entitled to contribution will, promptly after receipt of notice of commencement of any action, suit or proceeding against such party in respect of which a claim for contribution may be made against another party or parties under this Section 2.08, notify such party or parties from whom contribution may be sought, but the omission to so notify such party or parties shall not relieve the party or parties from whom contribution may be sought from any obligation it or they may have under this Section 2.08 or otherwise except to the extent that it has been prejudiced in any material respect by such failure. No party shall be liable for contribution with respect to any action or claim settled without its written consent; provided, however, that such written consent was not unreasonably withheld.

(g) If indemnification is available under this Section 2.08, the indemnifying party will indemnify each indemnified party to the full extent provided in Sections 2.08(a) and (b) without regard to the relative fault of said indemnifying party or indemnified party or any other equitable consideration provided for in Section 2.08(d).

Section 2.09. Lock-up. If and to the extent reasonably requested by the lead Underwriter of an Underwritten Offering of Equity Securities of the Company, the Company and each CB Investor agrees to enter into an agreement, at the time of execution of the applicable underwriting agreement, not to effect, and to cause their respective Affiliates not to effect, except as part of such registration and subject to such other carve-outs sufficient to permit charitable gifting, any offer, sale, pledge, transfer or other distribution or disposition or any agreement with respect to the foregoing of the issue being registered or offered, as applicable, or of a similar security of the Company, or any securities into which such Equity Securities are convertible, or any securities convertible into, or exchangeable or exercisable for, such Equity Securities,

including a sale pursuant to Rule 144, during such period agreed to with the Underwriters but in no event a period of up to seven days prior to, and during a period of up to 45 days after, the effective date of such registration (the “Lock-up”); provided, however, that no Investor shall be obligated to enter into a Lock-up more than one time in any 12-month period. The lead Underwriter shall give the Company and each CB Investor prior notice of any such request.

Section 2.10. Termination of Registration Rights. This Article II (other than Sections 2.08, 2.10 and 2.11) will terminate on the date on which all Voting Securities of the Company subject to this Article II cease to be Registrable Securities; provided, however, that if a Lock-up is in effect at the time of such termination then such Lock-up shall expire in accordance with its terms.

Section 2.11. Rule 144. For so long as the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, the Company agrees that it will file the reports required to be filed by it under the Securities Act and the Exchange Act and the rules and regulations adopted by the SEC thereunder and it will take such further action as the CB Investors’ Representative (on behalf of the applicable CB Investors) reasonably may request, all to the extent required from time to time to enable the Investors to sell Registrable Securities within the limitation of exemptions provided by (a) Rule 144, as such Rule may be amended from time to time, or (b) any similar rule or regulation hereafter adopted by the SEC. Upon the request of the CB Investors’ Representative (on behalf of the applicable CB Investors), the Company will deliver to the CB Investors a written statement as to whether it has complied with such requirements.

ARTICLE III Miscellaneous

Section 3.01. Adjustments. References to numbers or prices of shares and to sums of money contained herein will be adjusted to account for any reclassification, exchange, substitution, combination, division, stock split or reverse stock split of the shares.

Section 3.03. Expenses. Except as otherwise set forth herein, each party to this Agreement shall pay its own expenses incurred in connection with this Agreement.

Section 3.04. Amendments; Waivers; Consents. (a) No provision of this Agreement may be amended or waived unless such amendment or waiver is in writing and signed, in the case of an amendment, by the CB Investors' Representative and the Company; provided, however, that any amendment that materially adversely affects the rights of an individual Investor hereunder, shall also require the signature of such affected CB Investor or, in the case of a waiver, by the party against whom the waiver is to be effective.

(b) The failure of any party to this Agreement to assert any of its rights under this Agreement or otherwise will not constitute a waiver of such rights nor will any single or partial exercise by any party to this Agreement of any of its rights under this Agreement preclude any other or further exercise of such rights or any other rights under this Agreement. The rights and remedies herein provided will be cumulative and not exclusive of any rights or remedies provided by Law or otherwise.

Section 3.05. Interpretation. The headings contained in this Agreement and in the table of contents to this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement. All Schedules annexed hereto or referred to herein are hereby incorporated in and made a part of this Agreement as if set forth in full herein. The definitions of terms herein shall apply equally to the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The word “will” shall be construed to have the same meaning as the word “shall”. The words “include”, “includes” and “including” shall be deemed to be followed by the phrase “without limitation”. The word “extent” in the phrase “to the extent” shall mean the degree to which a subject or other thing extends, and such phrase shall not mean simply “if”. The word “or” shall not be exclusive. The phrase “date hereof” or “date of this Agreement” shall be deemed to refer to July 10, 2020. Unless the context requires otherwise (i) any definition of or reference to any contract, instrument or other document or any Law herein shall be construed as referring to such contract, instrument or other document or Law as from time to time amended, supplemented or otherwise modified, (ii) any reference herein to any Person shall be construed to include such Person’s successors and assigns, (iii) the words “herein”, “hereof” and “hereunder”, and words of similar import, shall be construed to refer to this Agreement in its entirety and not to any particular provision hereof and (iv) all references herein to Articles, Sections and Schedules shall be construed to refer to Articles and Sections of, and Schedules to, this Agreement. This Agreement shall be construed without regard to any presumption or rule requiring construction or interpretation against the party drafting or causing any instrument to be drafted.

Section 3.06. Severability. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any Law, or public policy, all other conditions and provisions of this Agreement will nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties will negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end that the purpose of this Agreement is fulfilled to the fullest extent possible.

Section 3.07. Counterparts. This Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other parties. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic image scan transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

Section 3.08. Entire Agreement; No Third-Party Beneficiaries. This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof and is not intended to and does not confer upon any Person other than the parties any rights or remedies, including specifically the terms and conditions set forth in the Letter Agreement.

Section 3.09. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York applicable to agreements made and to be performed entirely within such State, without regard to the conflict of laws principles of such State.

Section 3.10. Assignment; Binding Effect.

(a) Neither this Agreement nor any of the rights, interests or obligations under this Agreement will be assigned, in whole or in part, by any of the parties without the prior written consent of the other parties.

(b) Any such Transfer and assignment referred to in Section 3.10(a) shall only be effective if (i) the Company is furnished with written notice of such Transfer and assignment within five (5) days thereof, including the name and address of such transferee or assignee and the amount of Registrable Securities with respect to which such registration rights are assigned and (ii) such transferee becomes a party hereto by executing and delivering to the Company (A) a joinder agreement substantially in the form of Exhibit A attached hereto agreeing to be bound by and subject to the terms of this Agreement, including without limitation Section 2.09 contained herein, and (B) a counterpart signature page of this Agreement.

(c) All covenants and agreements contained in this Agreement shall bind and inure to the benefit of the respective successors and valid assigns of the parties hereto. Nothing in this Agreement, expressed or implied, is intended to confer upon any Person other than the parties hereto and their respective successors and valid assigns any rights, remedies, obligations or liabilities under or by reason of this Agreement, except as expressly provided in this Agreement (including in Section 2.08 and Section 2.09, it being understood and agreed that the Persons referred to therein who or which are not parties hereto shall be entitled to the benefits of, and to enforce the provisions of, such Section).

Section 3.11. Enforcement. (a) The parties acknowledge and agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with its specific terms or were otherwise breached, and that monetary damages, even if available, would not be an adequate remedy therefor. It is accordingly agreed that the parties shall, to the fullest extent permitted by applicable Law, be entitled to an injunction or injunctions, or any other appropriate form of equitable relief, to prevent breaches of this Agreement and to enforce specifically the performance of the terms and provisions of this Agreement in any court referred to in Section 2.11(b), without proof of damages or otherwise (and each party hereby waives, to the fullest extent permitted by applicable Law, any requirement for the securing or posting of any bond in connection with such remedy), this being in addition to any other remedy to which they are entitled at law or in equity. The parties further agree, to the fullest extent permitted by applicable Law, not to assert that a remedy of specific enforcement is unenforceable, invalid, contrary to Law or inequitable for any reason, nor to assert that a remedy of monetary damages would provide an adequate remedy. Each of the parties acknowledges and agrees that the right of specific enforcement is an integral part of the transactions contemplated by this Agreement and without such right, none of the parties would have entered into this Agreement.

(c) In addition, to the fullest extent permitted by applicable Law, each of the parties hereto hereby irrevocably submits to the exclusive jurisdiction of the courts in Delaware for the purpose of any proceeding arising out of or relating to this Agreement or the actions of the Investors or the Company in the negotiation, administration, performance and enforcement thereof, and each of the parties hereby irrevocably agrees that all claims with respect to such proceeding shall be heard and determined exclusively in such court. To the fullest extent permitted

by applicable Law, each of the parties hereto (i) consents to submit itself to the personal jurisdiction of the courts in Delaware in the event any proceeding arises out of or relates to this Agreement or the actions of the Investors or the Company in the negotiation, administration, performance and enforcement thereof, (ii) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from such court, (iii) irrevocably consents to the service of process in any proceeding arising out of or relating to this Agreement or the actions of the Investors or the Company in the negotiation, administration, performance and enforcement thereof on behalf of itself or its property, by U.S. registered mail or recognized international courier service to such party's respective address set forth in Section 3.02 (provided that nothing in this Section 3.11 shall affect the right of any party to serve legal process in any other manner permitted by applicable Law) and (iv) agrees that it will not bring any proceeding arising out of or relating to this Agreement or the actions of the Investors or the Company in the negotiation, administration, performance and enforcement thereof in any court other than the courts in Delaware. Notwithstanding the foregoing, the parties hereto agree that a final trial court judgment in any such proceeding shall, to the fullest extent permitted by applicable Law, be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by applicable Law; provided, however, that nothing in the foregoing shall restrict any party's rights to seek any post-judgment relief regarding, or any appeal from, such final trial court judgment.

(d) Each party hereto hereby waives, to the fullest extent permitted by applicable Law, any right it may have to a trial by jury in respect of any claim, suit, action, investigation or proceeding arising out of or relating to this Agreement or the actions of the Investors or the Company in the negotiation, administration, performance and enforcement thereof. Each party hereto (a) certifies that no representative, agent or attorney of any other party has represented, expressly or otherwise, that such party would not, in the event of any claim, suit, action, investigation or proceeding, seek to enforce the foregoing waiver and (b) acknowledges that it and the other parties hereto have been induced to enter into this Agreement by, among other things, the mutual waiver and certifications in this Section 3.11(c).

Section 3.12. Effectiveness; Termination; Survival. This Agreement shall be effective upon the Effective Date. Notwithstanding anything to the contrary contained in this Agreement, this Agreement will automatically terminate, (i) with respect to any CB Investor, the first date on which no Registrable Securities held by such CB Investor remain outstanding, and this Agreement shall thereafter, to the fullest extent permitted by applicable Law, be null and void with respect to such CB Investor, except that this Article III shall survive any such termination indefinitely, and (ii) with respect to all parties hereto, upon the consummation of a Strategic Transaction. .

Notwithstanding anything to the contrary in this Agreement, Section 3.13 shall survive with respect to each CB Investor for three years following the date of termination of this Agreement. Nothing in this Section 3.12 will be deemed to release any party from any liability for any willful and material breach of this Agreement or to impair the right of either party to compel specific performance by the other party of its obligations under this Agreement.

Section 3.13. Confidentiality; Non-Disparagement. (a) The CB Investors and their Representatives shall (x) hold confidential and not disclose, without the prior written approval of the Board, all confidential or proprietary written, recorded or oral information or data (including research, developmental, technical, marketing, sales, financial, operating, performance, cost, business and process information or data, knowhow and computer programming and other software techniques) provided by or on behalf of the Company or any of its Subsidiaries to the CB Investors or their Representatives, whether such confidentiality or proprietary status is indicated orally or in writing or CB Investors and their Representatives should reasonably have understood that the information should be treated as confidential, whether or not the specific words “confidential” or “proprietary” are used (“Company Confidential Information”), and (y) use such Company Confidential Information only for the purpose of performing such Investor’s obligations hereunder, managing and monitoring the CB Investors’ investment in the Company and its Subsidiaries and carrying on the business of the Company and its Subsidiaries; provided that the CB Investors and their Representatives may disclose or use such Company Confidential Information in their capacity as Directors, officers or employees of the Company on behalf of the Company.

(b) The CB Investors and their Representatives shall (x) hold confidential and not disclose, without the prior written approval of a disclosing CB Investor, any actions taken (or not taken) under or in connection with this Agreement by such CB Investor, whether such confidentiality or proprietary status is indicated orally or in writing or CB Investor and their Representatives should reasonably have understood that the information should be treated as confidential, whether or not the specific words “confidential” or “proprietary” are used (“CB Investor Confidential Information”, together with the Company Confidential Information, the “Confidential Information”) without the prior written approval of the Investor disclosing such CB Investor Confidential Information, and (y) use such Investor Confidential Information only for the purpose of performing such Investor’s obligations.

(c) Notwithstanding the foregoing, the confidentiality obligations of Section 3.13(a) will not apply to Company Confidential Information or CB Investor Confidential Information obtained other than in violation of this Agreement:

(A) which any CB Investor or any of its Representatives is required to disclose by judicial or administrative process, or by other requirements of applicable Law or regulation or any governmental authority (including any applicable rule, regulation or order of a self-governing authority, such as the London Stock Exchange or NASDAQ); provided that, where and to the extent legally permitted and reasonably practicable, such CB Investor shall (A) give the Company reasonable notice of any such requirement and, to the extent protective measures consistent with such requirement are available, the opportunity to seek appropriate protective measures and (B) cooperate with Company in attempting to obtain such protective measures;

(B) which becomes available to the public other than as a result of a breach of Section 3.13(a); or

(C) which has been provided to any CB Investor or any of its Representatives by a Third Party who obtained such information other than from the CB Investors or any of their Affiliates or other than as a result of a breach of Section 3.13(a).

(d) None of the CB Investors nor any Principal shall at any time publicly denigrate or disparage any other holder of contractual registration rights as of the Effective Date (or any of their principals), the Company, OpCo or, with respect to their relationship with the Company or OpCo, any of the Company's or OpCo's officers or directors in their capacity as officers or directors of the Company or OpCo. The Company, OpCo and the Company's and OpCo's officers and directors shall not, at any time publicly denigrate or disparage the Principal or CB Investors. This Section 3.13(d) shall not prohibit (i) the Company, OpCo or the Company's or OpCo's officers or directors, individually or as a group, from testifying truthfully under oath pursuant to a lawful court order or subpoena or in connection with any litigation or arbitration between the CB Investors, the Company or any of the Company's or OpCo's officers or directors or (ii) the Principal or the CB Investors from making the permitted disclosures set forth in Section 3.13(e). Furthermore, if any of the CB Investors (or the Principal), the Company or OpCo (or any officer or director of the Company or OpCo) makes any statement in breach of this Section 3.13(d), then a truthful response to such statement by the other party shall not be considered a breach of such party's obligations pursuant to this Section 3.13(d).

(e) Nothing in this Agreement or elsewhere shall prohibit the CB Investors, the Principal in his capacity as an officer, director or other representative of any CB Investor, the Company or OpCo or any of the Company's or OpCo's officers or directors in their capacity as officers or directors of the Company or OpCo from: (a) contacting, filing a claim with, or cooperating in an investigation by the Securities Exchange Commission, Department of Justice or other federal, state or local agency; (b) exercising any legally protected whistleblower rights (including pursuant to Rule 21F under the Exchange Act); (c) utilizing and disclosing information, including the Confidential Information, in connection with discharging such person's duties to the Company and OpCo; (d) disclosing Confidential Information to the extent such Person (i) is compelled to disclose such Confidential Information or else stand liable for contempt or suffer other censure or penalty or is required to disclose by judicial or administrative process, or by other requirements of applicable law or regulation or any governmental authority (including any applicable rule, regulation or order of a self-governing authority, such as the national securities exchange, national quotation system or primary stock or quotation system on which securities issued by the Company or any of its Subsidiaries are then listed or quoted), provided that, where and to the extent legally permitted and reasonably practicable, (A) the CB Investors, the Company and OpCo shall be given reasonable notice of any such requirement and, to the extent protective measures consistent with such requirement are available, the opportunity to seek appropriate protective measures and (B) the other Persons shall cooperate with the CB Investors, the Company, OpCo or any of the Company's or OpCo's officers or directors in their capacity as officers or directors of the Company or OpCo in attempting to obtain such protective measures or (ii) discloses such information in connection with any litigation or arbitration between the CB Investors, the Company, OpCo and/or any of the Company's or OpCo's officers or directors in their capacity as officers or directors of the Company or OpCo; (e) disclosing documents and information in confidence to an attorney or other professional for the purposes of securing professional advice; (f) retaining, and using appropriately, documents and information relating to such Person's personal rights and obligations; or (g) disclosing such Person's notice obligations, and post-employment restrictions, in confidence in connection with any potential new employment or business opportunity. Nothing in Section 8.13(e) shall prohibit the Principal or other Representative of a CB Investor who serves as a Director from discharging his or her fiduciary duties as Director.

Section 3.14. Representations and Warranties. (a) The Company hereby makes the representations and warranties set forth in Annex A to the CB Investors, each of which is true and correct as of the date hereof.

(b) Each CB Investor, severally and not jointly, hereby makes the representations and warranties set forth in Annex B to the Company and each other CB Investor solely as to itself, each of which is true and correct as of the date hereof.

Section 3.15. CB Investors' Representatives. (a) Each CB Investor hereby irrevocably appoints Centerbridge Partners, L.P., as its agent and true and lawful attorney-in-fact, with full power and authority, including substitution and re-substitution, and for, in the name, place and stead of such Investor, to the same extent and with the same effect as such Investor can, would or could do under applicable Law for all purposes of this Agreement, including to receive and give all notices and to take actions and exercise any rights permitted or required to be taken by the CB Investors' Representative under this Agreement.

(b) The Company and the other Investor shall, to the fullest extent permitted by applicable Law, be entitled to rely on the appointment and authority of the CB Investors' Representative until receipt of written notice of the appointment of a successor CB Investors' Representative made in accordance with this Section 3.15(b). In so doing, the Company and the other CB Investors shall, to the fullest extent permitted by applicable Law, be entitled to rely on any and all actions taken by, elections and exercises of rights made by and decisions of the CB Investors' Representative under this Agreement notwithstanding any dispute or disagreement among any of the CB Investors or the CB Investors' Representative with respect to any such action or decision without any liability to, or obligation to inquire of, any CB Investor, the CB Investors' Representative or any other Person. To the fullest extent permitted by applicable Law, any decision, designation, selection, objection, election, comment, request, act, consent, instruction or similar action of the CB Investors' Representative shall constitute an action or decision of the Investors on whose behalf such CB Investors' Representative was appointed and shall be final and binding upon each of the CB Investors on whose behalf such CB Investors' Representative was appointed. At any time after the Effective Date, the CB Investors may remove the prior CB Investors' Representative and designate a successor CB Investors' Representative by a written instrument that is signed in writing by holders of at least a majority-in-interest of the CB Investors (determined in proportion to such CB Investor's respective Voting Securities ownership divided by the total number of Voting Securities owned by all CB Investors) and delivered to the Company; provided that any successor CB Investors' Representative must be a controlled Affiliate of the CB Investors. Under such circumstances, the Company shall, to the fullest extent permitted by applicable Law, be entitled to rely on any and all actions subsequently taken and decisions subsequently made by such replacement CB Investors' Representative (and shall cease to rely on any and all actions subsequently taken and decisions subsequently made by the replaced CB Investors' Representative). If the CB Investors' Representative shall at any time resign, be removed or otherwise cease to function in its capacity as such for any reason whatsoever, and a majority-in-interest of the CB Investors fails to provide notice to the Company that a successor has been appointed by the CB Investors within 10 Business Days, then, under such circumstances, the Company shall be entitled to rely on any and all actions taken and decisions made by the Person that served as the CB Investors' Representative prior to such resignation, removal or incapacity or any Person that is designated prior to such resignation, removal or incapacity by the outgoing or incapacitated CB Investors' Representative, if any, until receipt of written notice by a majority-in-interest of the CB Investors of the appointment of a successor CB Investors' Representative is made in accordance with this Section 3.15(b).

(B) the Landscape Investors' Representative on behalf of the Founder Preferred Investor, will have the right to designate two natural persons as two of the Founder Directors, in each case for election by the holders of the AG Preferred Shares and Landscape Preferred Shares in accordance with the provisions of the Charter;

provided, however, if an Investors' Representative fails to designate, on behalf of its applicable Investors, the number of Founder Directors as provided in Section 2.01(a)(i) and Section 2.01(a)(ii), the other Investors' Representative shall be entitled to so designate for election such additional number of natural persons so that there are in aggregate four (4) nominees as Founder Directors. So long as William Berkman is Chief Executive Officer of the Company, the AG Investors' Representative agrees with the Landscape Investors that it shall designate him as one of the AG Directors unless the Company receives advance notice in accordance with the Bylaws or otherwise that a shareholder of the Company intends to nominate one or more directors at the next annual or special meeting of shareholders of the Company, in which case Mr. Berkman may be replaced as an AG Director effective as of such annual or special meeting (for the avoidance of doubt, neither Mr. Berkman nor the AG Investors' Representative shall have any obligation to the Company to nominate Mr. Berkman as one of the AG Directors).

(ii) The AG Investors' Representative and the Landscape Investors' Representative each shall have the right, to be exercised in accordance with the provisions of the Charter, to (A) designate its own designated AG Director or Landscape Director, as the case may be, for removal, with or without cause, at any time and (B) designate a natural person for election as a Founder Director to fill any vacancy caused by the death, resignation, disqualification, removal or other cause of an AG Director or Landscape Director, respectively.

(iii) The Investors' Representatives shall take all appropriate action, exercised in accordance with the provisions of the Charter, so that at all times prior to the Board Designation Expiration Date there are two (2) AG Directors and two (2) Landscape Directors.

(b) From and after the Effective Date, until the Board Designation Expiration Date, each of the Investors agrees (i) to cause all Voting Securities owned of record or beneficially owned by such Investor to be present (in person or by proxy) at any duly called and noticed annual or special meeting of shareholders of the Company at which Directors are elected or removed, (ii) vote or cause to be voted at such meeting or by consent in lieu of a meeting of shareholders of the Company all such Voting Securities, and (iii) take any and all other lawful action, in each case so (A) that all actions required by Section 2.01(a) are promptly effected (and in any event no later than the next regular or special meeting of the Board) and (B) all Company Nominees are elected as members of the Board of Directors.

(c) Notwithstanding anything to the contrary in this Agreement, no Investors' Representative shall designate a natural person as an Investor Director pursuant to the Charter if the other Investors' Representative provides written notice that such designee is not reasonably acceptable to it, in which case such Investors' Representative shall be entitled to so designate another natural person as an Investor Director without regard to Section 2.01(d).

(d) In furtherance of the appointment of the Investor Directors to the Board of Directors, (i) each Investors' Representative, on behalf of its applicable Investors, shall give written notice to the other Investor Representative, on behalf of its applicable Investors, of its applicable Investor Directors no later than the date that is (x) 60 days prior to the anniversary of the date that the Company's annual proxy statement, annual report or other similar disclosure document for the prior year's annual meeting of shareholders of the Company was disseminated to shareholders or (y) in the case of any other meeting at which Directors are to be elected, the later of (A) 105 days prior to the date of such meeting and (B) 30 Business Days after the Company provides such Investors' Representative with written notice of the date of such meeting.

The Registration Statement shall be on Form S-3 (except if the Company is not then eligible to register for resale the Registrable Securities on Form S-3, in which case such registration shall be, at the election of the requesting Investor Representative, on behalf of the applicable Investors, on Form S-1 or another appropriate form for such purpose) and, if the Company is a WKSI as of the Filing Date, shall be an Automatic Shelf Registration Statement. Thereafter, the Company shall use its commercially reasonable efforts to cause any such Registration Statement to be declared effective or otherwise to become effective under the Securities Act as soon as reasonably practicable but, in any event, no later than the Effectiveness Deadline, and shall use its commercially reasonable efforts to keep such Registration Statement continuously effective under the Securities Act until the Company Class A Shares subject to this Article VI cease to be Registrable Securities (the "Effectiveness Period").

(b) At any time and from time to time on or after the 12-month anniversary of the Effective Date if the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, upon the written request (a "Demand Notice") of any Investor requesting that the

Company effect an Underwritten Offering of Registrable Securities of the Investors (a “Demand Offering”), the Company shall use its commercially reasonable efforts to effect, as promptly as reasonably practicable, an Underwritten Offering of such Registrable Securities; provided, however, (w) at the time of the Demand Offering, there shall be an existing and effective Registration Statement pursuant to Section 6.01(a) that covers the Registrable Securities for which a Demand Offering has been requested or the Company shall then be WKSI eligible, and (x) with respect to any Registrable Securities, the Company shall be obligated to effect no more than one Roadshow Offering in any 12-month period (provided, that if any such Roadshow Offering is reasonably likely to be completed outside of such 12-month period, the Company’s obligations to effect such Demand Offering shall continue) and (y) the Registrable Securities for which a Demand Offering has been requested will have a value (based on the average closing price per share of Company Class A Shares for the ten trading days preceding the delivery of such Demand Notice) of not less than \$50,000,000. Each such Demand Notice will specify the number of Registrable Securities owned by the demanding Investors and the number of Registrable Securities proposed to be offered for sale and will also specify the intended method of distribution thereof.

(c) In the event of a Demand Offering, the Underwriters (including the lead Underwriter) for such Demand Offering will be a nationally recognized investment bank selected by the demanding Investor Representative on behalf of the applicable Investors with the approval of the Company (which approval shall not be unreasonably withheld).

(d) Notwithstanding anything to the contrary in this Agreement, the Investors may not request a Demand Offering during a period commencing upon the date of the public announcement of (or such earlier date that is not more than 30 days prior to such public announcement if the Company has given notice to the Investor Representatives that it so intends to publicly announce) an Underwritten Offering of Company Class A Shares by the Company (for its own account or for any other security holder in each case provided the Investors are entitled to participate in such offering pursuant to Section 6.02) and ending (i) 90 days after the consummation of such Underwritten Offering, (ii) 30 days after the Company has given notice to the Investor Representatives that it intends to publicly announce an Underwritten Offering if no such Underwritten Offering has been publicly announced within such 30-day period, (iii) upon withdrawal of such Underwritten Offering if it has been publicly announced but not commenced or (iv) upon written notice to the Investor Representatives that the Company no longer intends to conduct an Underwritten Offering.

(e) The Investors will be permitted to rescind a Demand Notice or request the removal of any Registrable Securities held by them from any Demand Offering at any time (so long as, in the case of a Demand Offering, after such removal it would still constitute a Demand Offering, including with respect to the required value thereof under Section 6.01(b)); provided, however, that, if the Investors rescind a Roadshow Offering, such Roadshow Offering will nonetheless count as a Roadshow Offering for purposes of determining when future Roadshow Offerings can be requested by the Investors pursuant to this Section 6.01, unless the Investors reimburse the Company for all Offering Expenses incurred by the Company in connection with such Roadshow Offering (provided, the Investors shall not be required to so reimburse the Company for the Company’s out-of-pocket expenses incurred to prepare and file any Registration Statement pursuant to Section 6.01(a) or any amendment thereto necessary to maintain the effectiveness of such Registration Statement or for the Company’s internal expenses (including all salaries and expenses of its officers and employees performing legal or accounting duties)).

Section 6.02. Piggyback Offering. If, at any time after the 30-month anniversary of the Effective Date, the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act and the Company proposes or is required to effect an Underwritten Offering of Equity Securities of the Company for (a) the Company's own account (other than (i) pursuant to an offering in connection with a merger, acquisition or other business combination, (ii) an offering on Form S-8 (or any substitute or similar form that may be adopted by the SEC) or (iii) an offering of securities solely to the Company's existing security holders) or (b) the account of any holder of Company Class A Shares (other than the Investors) pursuant to a demand offering requested by such holder, then the Company will give written notice of such proposed filing to the Investor Representatives not less than 10 business days prior to filing with the SEC for the applicable offering, and upon the written request, given within 10 business days after delivery of any such notice by the Company, of the Investors to include Registrable Securities in such Underwritten Offering (which request shall specify the number of Registrable Securities proposed to be included in such Underwritten Offering), then the Company shall, subject to Section 6.03, include all such Registrable Securities in such Underwritten Offering, on the same terms and conditions as the Company's or such other holder's Company Class A Shares (a "Piggyback Offering"); provided, however, that if, at any time after giving written notice of such proposed Underwritten Offering and prior to the effecting of such Underwritten Offering, the Company or such other holder shall determine for any reason not to proceed with the proposed Underwritten Offering of the Company Class A Shares or delay the Underwritten Offering of the Company Class A Shares, then the Company will give written notice of such determination to the Investor Representatives and (i) in the case of a determination not to proceed with the proposed Underwritten Offering of Company Class A Shares, shall be relieved of its obligation to offer any Registrable Securities in connection with such abandoned Underwritten Offering and (ii) in the case of a determination to delay the Underwritten Offering of its Company Class A Shares, shall be permitted to delay the offer of Registrable Securities for the same period as the delay in the offering of such Company Class A Shares; provided that any delay of more than 30 days shall be deemed to be an abandonment of the applicable Underwritten Offering for purposes of this Section 6.02, and the Company shall be required to issue the Investor Representatives a new notice pursuant to this Section 6.02 and grant the Investors a new opportunity to participate in such Underwritten Offering pursuant to this Section 6.02 in the event a determination is made to proceed with such Underwritten Offering. The Company or such other holder will select the lead Underwriter in connection with any offering contemplated by this Section 6.02 and the Investors' right to participate shall be conditioned on each participating Investor entering into an underwriting agreement in customary form and acting in accordance with the provisions thereof.

Section 6.03. Reduction of Underwritten Offering. Notwithstanding anything to the contrary in this Agreement, if the lead Underwriter of an Underwritten Offering described in Section 6.01 or 6.02 advises the Company in writing that in its reasonable opinion, the number of Equity Securities of the Company (including any Registrable Securities) that the Company, the Investors and any other Persons intend to include in any Underwritten Offering is such that the success of any such offering would be materially and adversely affected, including the price at which the securities can be sold or the number of Equity Securities of the Company that any participant may sell, then the number of Equity Securities of the Company to be included in the

Underwritten Offering for the account of the Company, the Investors and any other Persons will be reduced pro rata by proposed participation (unless otherwise provided below) in the Underwritten Offering to the extent necessary to reduce the total number of securities to be included in any such Underwritten Offering to the number recommended by such lead Underwriter; provided, however, that (a) priority for inclusion of Equity Securities of the Company in a Demand Offering pursuant to Section 6.01 will be (i) first to be included, the Registrable Securities requested to be included in the Demand Offering for the account of the Investors and the Centerbridge Entities (ii) second to be included, securities to be offered by the Company for its own account, and (iii) third to be included, securities of the Company (pro rata based on then ownership of Voting Securities of the Company) requested to be included for the account of other holders having contractual piggyback registrations rights, so that the total number of securities to be included in any such Demand Offering for the account of all such Persons (including the Investors and the Centerbridge Entities) will not exceed the number recommended by such lead Underwriter; (b) priority in the case of an Underwritten Offering initiated by the Company for its own account which gives rise to a Piggyback Offering pursuant to Section 6.02 will be (i) first to be included, securities initially proposed to be offered by the Company for its own account, (ii) second to be included, the Registrable Securities requested to be included in the Piggyback Offering for the account of the Investors and the Centerbridge Entities, and (iii) third to be included, securities of the Company (pro rata based on then ownership of Voting Securities of the Company) requested to be included in the Piggyback Offering for the account of other holders having contractual piggyback registrations rights, so that the total number of securities to be included in any such offering for the account of all such Persons (including the Investors and the Centerbridge Entities) will not exceed the number recommended by such lead Underwriter; and (c) priority with respect to inclusion of securities in an Underwritten Offering initiated by the Company for the account of holders other than the Investors or the Centerbridge Entities pursuant to contractual rights afforded such holders will be (i) first to be included, securities (including Registrable Securities) of the Company (pro rata by proposed participation) requested to be included in the Underwritten Offering for the account of such initiating holders, the Investors and the Centerbridge Entities, (ii) second to be included, securities requested to be included in such Underwritten Offering by the Company for its own account, and (iii) third to be included, pro rata among any other securities of the Company requested to be included in such Underwritten Offering for the account of other holders having contractual piggyback registrations rights, so that the total number of securities to be included in any such offering for the account of all such Persons (including the Investors and the Centerbridge Entities) will not exceed the number recommended by such lead Underwriter.

Section 6.04. Registration Procedures. (a) Subject to the provisions of Section 6.01 and Section 6.02 hereof, in connection with the registration of the sale of Registrable Securities hereunder, the Company will as promptly as reasonably practicable:

(A) furnish to the Investor Representatives without charge, if requested, prior to the filing of a Registration Statement or any related prospectus or any amendment or supplement thereto, (i) copies of all such documents proposed to be filed (in each case including all exhibits thereto and documents incorporated by reference therein, except to the extent such exhibits or documents are incorporated by reference and currently available electronically on EDGAR or any successor system of the SEC), which documents (other than those incorporated by reference) will be subject to the review and good faith objection

and comment of the Investor Representatives prior to filing, (ii) copies of any and all transmittal letters or other correspondence with the SEC relating to such documents (except to the extent such letters or correspondence is currently available electronically via EDGAR or any successor system of the SEC) and (iii) such other documents as the Investor Representatives may reasonably request, in each case in such quantities as the Investor Representatives may reasonably request;

(B) use its commercially reasonable efforts to (i) prepare and file with the SEC such amendments, including post-effective amendments, and supplements to each Registration Statement and the prospectus used in connection with the offer and sale of the Registrable Securities as may be necessary under applicable Law with respect to the disposition of all Registrable Securities covered by such Registration Statement to keep such Registration Statement continuously effective as to the applicable Registrable Securities for the Effectiveness Period, (ii) cause the related prospectus to be amended or supplemented by any required prospectus supplement, and as so supplemented or amended to be filed pursuant to Rule 424 under the Securities Act and (iii) respond as promptly as reasonably practicable to any comments received from the SEC with respect to each Registration Statement or any amendment thereto;

(C) use its commercially reasonable efforts to register or qualify such Registrable Securities under such other securities or blue sky laws of such jurisdictions as the Investor Representatives reasonably request or as may be necessary by virtue of the business and operations of the Company and its Subsidiaries and do any and all other acts and things as may be reasonably necessary or advisable to enable the Investors to consummate the disposition of such Registrable Securities in such jurisdictions; provided, however, that neither the Company nor any of its Subsidiaries will be required to (x) qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify but for this Section 6.04(a)(C), (y) subject itself to taxation in any such jurisdiction or (z) consent to general service of process in any such jurisdiction;

(D) notify the Investor Representatives at any time when a prospectus relating to Registrable Securities is required to be delivered under the Securities Act, of the happening of any event as a result of which the prospectus included in a Registration Statement or the Registration Statement or amendment or supplement relating to such Registrable Securities contains an untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, and the Company will promptly prepare and file with the SEC a supplement or amendment to such prospectus and Registration Statement (and comply fully with the applicable provisions of Rules 424, 430A and 430B under the Securities Act in a timely manner) so that, as thereafter delivered to the purchasers of the Registrable Securities, such prospectus and Registration Statement will not contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

(E) advise the Underwriters, if any, and the Investor Representatives promptly and, if requested by such Persons, confirm such advice in writing, of the issuance by the

SEC of any stop order suspending the effectiveness of the Registration Statement under the Securities Act or of the suspension by any state securities commission of the qualification of the Registrable Securities for offering or sale in any jurisdiction, or the initiation of any proceeding for any of the preceding purposes;

(F) use its commercially reasonable efforts to avoid the issuance of, or, if issued, obtain the withdrawal of (i) any order suspending the effectiveness of a Registration Statement, or (ii) any suspension of the qualification (or exemption from qualification) of any of the Registrable Securities for sale in any jurisdiction, as promptly as reasonably practicable;

(G) in connection with a Demand Offering, enter into customary agreements and use commercially reasonable efforts to take such other actions as are reasonably requested by the Investor Representatives in order to expedite or facilitate the disposition of such Registrable Securities in such Demand Offering, including preparing for and participating in a road show and all such other customary selling efforts as the Underwriters, if any, reasonably request in order to expedite or facilitate such disposition;

(H) if requested by the Investor Representatives or the Underwriters, if any, promptly include in any Registration Statement or prospectus, pursuant to a supplement or post-effective amendment if necessary, such information as the Investors' Representative and such Underwriters, if any, may reasonably request to have included therein, including information relating to the "Plan of Distribution" of the Registrable Securities, information with respect to the number of Registrable Securities being sold to such Underwriters, the purchase price being paid therefor and any other terms of the offering of the Registrable Securities to be sold in such offering, and make all required filings of such prospectus supplement or post-effective amendment as soon as practicable after the Company is notified of the matters to be included in such prospectus supplement or post-effective amendment;

(I) make available for inspection by the Investor Representatives, any Underwriter participating in any disposition of such Registrable Securities, and any attorney for the Investors or such Underwriter and any accountant or other agent retained by the Investors or such Underwriter (collectively, the "Inspectors"), all financial and other records, pertinent corporate documents and properties of the Company and its Subsidiaries (collectively, the "Records") as will be reasonably necessary to enable them to conduct customary due diligence with respect to the Company and its Subsidiaries and the related Registration Statement and prospectus, and cause the Representatives of the Company and its Subsidiaries to be made available to the Inspectors for such diligence and supply all information reasonably requested by any such Inspector; provided, however, that (x) Records and information obtained hereunder will be used by such Inspector only to conduct such due diligence and (y) Records or information that the Company determines, in good faith, to be confidential will not be disclosed by such Inspector unless (A) the disclosure of such Records or information is necessary to avoid or correct a material misstatement or omission in a Registration Statement or related prospectus, (B) the release of such Records or information is ordered pursuant to a subpoena or other order from a court or governmental authority of competent jurisdiction or (C) necessary for defense in a legal action;

(J) (A) cause the Representatives of the Company and its Subsidiaries to supply all information reasonably requested by the Investor Representatives, or any Underwriter, attorney, accountant or agent in connection with the Registration Statement and (B) provide the Investor Representatives and their respective counsel with the opportunity to participate in the preparation of such Registration Statement and the related prospectus;

(K) in connection with a Demand Offering, use its commercially reasonable efforts to obtain and deliver to each Underwriter and the Investor Representatives a comfort letter from the independent registered public accounting firm for the Company (and additional comfort letters from the independent registered public accounting firm for any company acquired by the Company whose financial statements are included or incorporated by reference in the Registration Statement) in customary form and covering such matters as are customarily covered by comfort letters or as such Underwriter and the Investors' Representative may reasonably request, including (x) that the financial statements included or incorporated by reference in the Registration Statement or the prospectus, or any amendment or supplement thereof, comply as to form in all material respects with the applicable accounting requirements of the Securities Act and (y) as to certain other financial information for the period ending no more than five Business Days prior to the date of such letter;

(L) in connection with a Demand Offering, use its commercially reasonable efforts to obtain and deliver to each Underwriter and the Investor Representatives a 10b-5 statement and legal opinion from the Company's counsel in customary form and covering such matters as are customarily covered by 10b-5 statements and legal opinions as such Underwriter and the Investor Representatives may reasonably request;

(M) otherwise use its commercially reasonable efforts to comply with all applicable rules and regulations of the SEC, and make generally available to its security holders, within the required time period, an earnings statement (which need not be audited) covering a period of 12 months beginning with the first fiscal quarter after the effective date of the Registration Statement relating to such Registrable Securities (as the term "effective date" is defined in Rule 158(c) under the Securities Act), which earnings statement will satisfy the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder or any successor provisions thereto; and

(N) use its commercially reasonable efforts to cause such Registrable Securities to be listed or quoted on the NYSE or, if Company Class A Shares are not then listed on the NYSE, then on any other securities exchange or national quotation system on which similar securities issued by the Company are then listed or quoted.

(b) In connection with a Demand Offering, (i) the Company and the participating Investors agree to enter into a written agreement with each Underwriter selected in the manner herein provided in such form and containing such provisions as are customary in the securities business for such an arrangement between such Underwriter and companies of the

Company's size and investment stature and, to the extent practicable, on terms consistent with underwriting agreements entered into by the Company (it being understood that, unless required otherwise by the Securities Act or any other applicable Law, the Company will not require any Investor to make any representation, warranty or agreement in such agreement other than with respect to such Investor, the ownership of such Investor's securities being registered and such Investor's intended method of disposition) and (ii) the Investors agree to complete and execute all such other documents customary in similar offerings, including any reasonable questionnaires, holdback agreements, letters or other documents customarily required under the terms of such underwriting arrangements (but specifically excluding custody agreements and powers of attorney). In the event a Demand Offering is not consummated because any condition to the obligations under any related written agreement with such Underwriter is not met or waived in connection with a Demand Offering, and such failure to be met or waived is not primarily attributable to the fault of the Investors, such Demand Offering will not be deemed exercised.

Section 6.05. Conditions to Offerings. (a) The obligations of the Company to take the actions contemplated by Section 6.01, Section 6.02, Section 6.03 and Section 6.04 with respect to an offering of Registrable Securities will be subject to the following conditions:

(A) the Company shall be subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act;

(B) the Company may require the participating Investors to furnish to the Company such information regarding the participating Investors or the distribution of such Registrable Securities as the Company may from time to time reasonably request in writing, in each case only as required by the Securities Act or under state securities or blue sky laws; and

(C) in any Demand Offering, the participating Investors, together with the Company, will enter into an underwriting agreement in accordance with Section 6.04(b) above with the Underwriter or Underwriters selected for such underwriting, as well as such other documents customary in similar offerings.

(b) the Investors agree that, upon receipt of any notice from the Company of the happening of any event of the kind described in Section 6.04(a)(D) or Section 6.04(a)(E) hereof or a condition described in Section 6.06 hereof, the Investors will forthwith discontinue disposition of such Registrable Securities pursuant to the Registration Statement covering the sale of such Registrable Securities until the Investors' receipt of the copies of the supplemented or amended prospectus contemplated by Section 6.04(a)(D) hereof or notice from the Company of the termination of the stop order or Deferral Period.

Section 6.06. Blackout Period. (a) The obligations of the Company to take the actions contemplated by Section 6.01, Section 6.02 and Section 6.04 hereof will be suspended (i) upon the receipt of comments from the SEC on any document incorporated by reference in the Registration Statement or (ii) if compliance with such obligations would (A) violate applicable Law or otherwise prevent the Company from complying with applicable Law, (B) require the Company to disclose a financing, acquisition, disposition or other transaction or corporate development (other than the contemplated offering), and the Board has determined, in the good faith exercise

of its reasonable business judgment, that such disclosure is not in the best interests of the Company, (C) otherwise require premature disclosure of information the disclosure of which, the Board has determined, in the good faith exercise of its reasonable business judgment, is not in the best interests of the Company, or (D) otherwise represent an undue hardship for the Company; provided, however, that any and all such suspensions pursuant to this Section 6.06 will not exceed 90 consecutive days or a total of 120 days in the aggregate in any 12-month period (any period during which such obligations are suspended, a “Deferral Period”). The Company will promptly give the Investor Representatives written notice of any such suspension containing the approximate length of the anticipated delay, and the Company will notify the Investors upon the termination of any Deferral Period. Upon receipt of any notice from the Company of any Deferral Period, each of the Investors shall forthwith discontinue disposition of the Registrable Securities pursuant to the Registration Statement relating thereto until the Investor Representatives receive copies of the supplemented or amended prospectus contemplated hereby or until they are advised in writing by the Company that the use of the prospectus may be resumed and have received copies of any additional or supplemented filings that are incorporated by reference in the prospectus, and, if so directed by the Company, the Investors will, and will request the lead Underwriter or Underwriters, if any, to, deliver to the Company all copies, other than permanent file copies, then in the Investors’ or such Underwriter’s or Underwriters’ possession of the current prospectus covering such Registrable Securities.

(b) The parties hereto further agree and acknowledge that any suspension or non-use of the Registration Statement due to the updating of the Registration Statement to include any financial statement the Registration Statement is required to contain (the “Required Financial Statements”) shall not be deemed to be a suspension for purposes of Section 6.06(a), unless and until the seven business day period referenced in Section 6.06(c) shall have passed without the updating of financial statements required by Section 6.06(c).

(c) The Company shall use its commercially reasonable efforts to update the Registration Statement on each date on which it shall be necessary to do so to cause the Registration Statement to contain the Required Financial Statements; provided, however, that, with respect to any financial period ending after the Effective Date, the Company shall not be obligated to update the Required Financial Statements pursuant to Section 6.06(b) and shall not be deemed to be in default under this sentence until seven business days after (or such earlier date as may be reasonably practicable) the date upon which such updated financial statements are required to be filed with the SEC.

Section 6.07. Offering Expenses. Except as set forth in the next sentence, all Offering Expenses will be borne by the Company upon the request of the Investor Representatives. The Company shall not be obligated to pay the Offering Expenses in respect of any Demand Offering if the Company shall have paid, upon the request of the Investor Representatives, the Offering Expenses in connection with one Demand Offering during the 12-month period immediately prior to such offering, in which case such Offering Expenses shall instead be borne by the participating Investors pro rata based on securities sold (or, if other holders of Company securities participate in such offering, pro rata among the participating Investors and such other holders based on securities sold), and the Company shall be promptly reimbursed (by wire transfer) by the Investors for their portion of such out-of-pocket Offering Expenses incurred by the Company upon the submission of invoices for such expenses by the Company to the Investors; provided, however,

that (a) if any such offering is reasonably likely to be completed outside of such 12-month period, the Company's obligations hereunder to pay the associated Offering Expenses shall continue, but the Company shall not in any event become obligated to pay the Offering Expenses associated with such offering unless it is completed after the expiration of such 12-month period and (b) the Company shall not be so reimbursed for its out-of-pocket expenses incurred to prepare and file any Registration Statement pursuant to Section 6.01(a) or any amendment thereto necessary to maintain the effectiveness of such Registration Statement; provided, further, that, notwithstanding anything to the contrary set forth herein, the Company shall always bear the Company's internal expenses (including all salaries and expenses of its officers and employees performing legal or accounting duties). Notwithstanding anything to the contrary in this Agreement, the Investors will bear and pay any underwriting discounts and commissions applicable to Registrable Securities offered for their accounts, transfer taxes and fees and expenses of the Investors' counsel.

Section 6.08. Indemnification; Contribution. (a) In connection with any registration of Registrable Securities pursuant to this Article VI, the Company agrees to indemnify and hold harmless, to the fullest extent permitted by applicable Law, each of the Investors and their respective Affiliates, the Investor Representatives and each of their respective Affiliates, and each Person who controls an Investor or the Investor Representatives within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act, and the directors, officers, employees, partners, affiliates, members, managers, shareholders, assignees and representatives of each of the foregoing (collectively, the "Indemnified Persons") from and against any and all losses, claims, damages, liabilities, judgments, actions and expenses (including reasonable attorneys' fees) ("Losses") joint or several arising out of or based upon (i) any untrue or alleged untrue statement of material fact contained in any part of any Registration Statement, any preliminary or final prospectus or other disclosure document used in connection with the Registrable Securities, any Issuer FWP or any amendment or supplement to any of the foregoing, or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein (in the case of a prospectus, in the light of the circumstances under which they were made) not misleading or (ii) any violation or alleged violation by the Company or any of its Subsidiaries of any federal, state, foreign or common law rule or regulation applicable to the Company or any of its Subsidiaries and relating to action or inaction in connection with any such registration, Registration Statement, other disclosure document or Issuer FWP; provided, however, that the Company will not be required to indemnify any Indemnified Person for any Losses resulting from any such untrue statement or omission if such untrue statement or omission was made in reliance on and in conformity with information with respect to any Indemnified Person furnished to the Company in writing by the Investors expressly for use therein.

(b) In connection with any Registration Statement, preliminary or final prospectus, or Issuer FWP, each Investor agrees to indemnify, severally and not jointly, the Company, its Directors, its officers who sign such Registration Statement and each Person, if any, who controls the Company (within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act) to the same extent as the foregoing indemnity from the Company to the Investors, but only with respect to information with respect to such Investor furnished to the Company in writing by such Investor expressly for use in such Registration Statement, preliminary or final prospectus, or Issuer FWP to the extent such information is included therein in reliance upon and in conformity with the information furnished to the Company by such Investor expressly for use therein; provided, however, that in no event shall any Investor's liability pursuant to this

Section 6.08 in respect of the offering to which such loss, claim, damages, liabilities, judgments, actions or expenses relate exceed an amount equal to the proceeds to such Investor (after deduction of all Underwriters' discounts and commissions) from such offering less the amount of any damages which such Investor has otherwise been required to pay by reason of such information.

(c) In case any claim, action or proceeding (including any governmental investigation) is instituted involving any Person in respect of which indemnity may be sought pursuant to Section 6.08(a) or (b), such Person (hereinafter called the "indemnified party,") will (i) promptly notify the Person against whom such indemnity may be sought (hereinafter called the "indemnifying party") in writing; provided, however, that the failure to give such notice shall not relieve the indemnifying party of its obligations pursuant to this Agreement except to the extent such indemnifying party has been prejudiced in any material respect by such failure; (ii) permit the indemnifying party to assume the defense of such claim, action or proceeding with counsel reasonably satisfactory to the indemnified party to represent the indemnified party; and (iii) pay the fees and disbursements of such counsel related to such claim, action or proceeding. In any such claim, action or proceeding, any indemnified party will have the right to retain its own counsel, but the fees and expenses of such counsel will be at the expense of such indemnified party (without prejudice to such indemnified party's indemnity and other rights under the Charter, Bylaws and applicable Law, if any) unless (A) the indemnifying party and the indemnified party have mutually agreed to the retention of such counsel, (B) the named parties to any such claim, action or proceeding (including any impleaded parties) include both the indemnifying party and the indemnified party and the indemnified party has been advised in writing by counsel, with a copy provided to the Company, that representation of both parties by the same counsel would be inappropriate due to actual or potential conflicting interests between them, (C) the indemnifying party has failed to assume the defense of such claim and employ counsel reasonably satisfactory to the indemnified party, or (D) any such claim, action or proceeding is a criminal or regulatory enforcement action. It is understood that the indemnifying party will not, in connection with any claim, action or proceeding or related claims, actions or proceedings in the same jurisdiction, be liable for the reasonable fees and expenses of more than one separate firm of attorneys for the indemnified parties (in addition to any local counsel at any time for all such indemnified parties) and that all such reasonable fees and expenses will be reimbursed reasonably promptly following a written request by an indemnified party stating under which clause of (A) through (C) above reimbursement is sought and delivery of documentation of such fees and expenses. In the case of the retention of any such separate firm for the indemnified parties, such firm will be designated in writing by the indemnified parties. The indemnifying party will not be liable for any settlement of any claim, action or proceeding effected without its written consent (which consent shall not be unreasonably withheld), but if such claim, action or proceeding is settled with such consent or if there has been a final non-appealable judgment for the plaintiff, the indemnifying party agrees to indemnify the indemnified party from and against any loss or liability by reason of such settlement or judgment. Notwithstanding the foregoing sentence, if at any time an indemnified party will have requested an indemnifying party to reimburse the indemnified party for reasonable fees and expenses of counsel as contemplated by the third sentence of this Section 6.08(c), the indemnifying party agrees that it will be liable for any settlement of any proceeding effected without its written consent if (i) such settlement is entered into more than 45 days after receipt by such indemnifying party of the aforesaid request and (ii) such indemnifying party has not reimbursed the indemnified party in accordance with such request or reasonably objected in writing, on the basis of the standards set forth herein, to the propriety of such reimbursement prior to the date of such

settlement. No indemnifying party will, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding (i) in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding or (ii) which involves the imposition of equitable remedies on the indemnified party or the imposition of any obligation on the indemnified party, other than as a result of the imposition of financial obligations for which the indemnified person will be indemnified hereunder.

(d) If the indemnification provided for in this Section 6.08 from the indemnifying party is unavailable to an indemnified party hereunder in respect of any losses, claims, damages, liabilities, judgments, actions or expenses referred to in this Section 6.08, then the indemnifying party, in lieu of indemnifying such indemnified party, will contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages, liabilities, judgments, actions or expenses (i) in such proportion as is appropriate to reflect the relative fault of the indemnifying party and indemnified party in connection with the actions that resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations, or (ii) if the allocation provided by clause (i) is not permitted by applicable Law, in such proportion as is appropriate to reflect not only the relative fault referred to in clause (i) but also the relative benefit of the Company, on the one hand, and the Investors, on the other, in connection with the statements or omissions that resulted in such losses, claims, damages, liabilities, judgments, actions or expenses, as well as any other relevant equitable considerations. The relative fault of such indemnifying party and indemnified party will be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, has been taken by, or relates to information supplied by, such indemnifying party or indemnified party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the losses, claims, damages, liabilities and expenses referred to above will be deemed to include, subject to the limitations set forth in Section 6.08(c), any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding.

(e) The parties agree that it would not be just and equitable if contribution pursuant to Section 6.08(d) were determined by pro rata allocation or by any other method of allocation that does not take into account the equitable considerations referred to in Section 6.08(d). No Person guilty of "fraudulent misrepresentation" (within the meaning of Section 11(f) of the Securities Act) will be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation. Notwithstanding the provisions of Section 6.08(d) and this Section 6.08(e), each Investor's liability pursuant to Section 6.08(d) in respect of the offering to which such loss, claim, damages, liabilities, judgments, actions or expenses relate shall not exceed an amount equal to the proceeds to such Investor (after deduction of all Underwriters' discounts and commissions) from such offering less the amount of any damages which such Investor has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. Each Investor's obligation to contribute pursuant to this Section 6.08 is several in proportion to the respective number of Registrable Securities held by such Investor hereunder and not joint.

(f) For purposes of this Section 6.08, each Indemnified Person shall have the same rights to contribution as such Investor, and each officer, Director and Person, if any, who controls the Company within the meaning of Section 15 of the Securities Act or Section 20(a) of the Exchange Act shall have the same rights to contribution as the Company, subject in each case to the limitations set forth in the immediately preceding paragraph. Any party entitled to contribution will, promptly after receipt of notice of commencement of any action, suit or proceeding against such party in respect of which a claim for contribution may be made against another party or parties under this Section 6.08, notify such party or parties from whom contribution may be sought, but the omission to so notify such party or parties shall not relieve the party or parties from whom contribution may be sought from any obligation it or they may have under this Section 6.08 or otherwise except to the extent that it has been prejudiced in any material respect by such failure. No party shall be liable for contribution with respect to any action or claim settled without its written consent; provided, however, that such written consent was not unreasonably withheld.

(g) If indemnification is available under this Section 6.08, the indemnifying party will indemnify each indemnified party to the full extent provided in Sections 6.08(a) and (b) without regard to the relative fault of said indemnifying party or indemnified party or any other equitable consideration provided for in Section 6.08(d) or (e).

Section 6.09. Lock-up. If and to the extent reasonably requested by the lead Underwriter of an Underwritten Offering of Equity Securities of the Company, the Company and each Investor agrees to enter into an agreement, at the time of execution of the applicable underwriting agreement, not to effect, and to cause their respective Affiliates not to effect, except as part of such registration and subject to such other carve-outs sufficient to permit charitable gifting, any offer, sale, pledge, transfer or other distribution or disposition or any agreement with respect to the foregoing of the issue being registered or offered, as applicable, or of a similar security of the Company, or any securities into which such Equity Securities are convertible, or any securities convertible into, or exchangeable or exercisable for, such Equity Securities, including a sale pursuant to Rule 144, during such period agreed to with the Underwriters but in no event a period of up to seven days prior to, and during a period of up to 45 days after, the effective date of such registration (the “Lock-up”); provided, however, that no Investor shall be obligated to enter into a Lock-up more than one time in any 12-month period. The lead Underwriter shall give the Company and each Investor prior notice of any such request.

Section 6.10. Termination of Registration Rights. This Article VI (other than Sections 6.08, 6.10 and 6.11) will terminate on the date on which all Voting Securities of the Company subject to this Article VI cease to be Registrable Securities; provided, however, that if a Lock-up is in effect at the time of such termination then such Lock-up shall expire in accordance with its terms.

Section 6.11. Rule 144. For so long as the Company is subject to the requirements of Section 13, 14 or 15(d) of the Exchange Act, the Company agrees that it will file the reports required to be filed by it under the Securities Act and the Exchange Act and the rules and regulations adopted by the SEC thereunder and it will take such further action as the Investor Representatives (on behalf of the applicable Investors) reasonably may request, all to the extent required from time to time to enable the Investors to sell Registrable Securities within the

limitation of exemptions provided by (a) Rule 144, as such Rule may be amended from time to time, or (b) any similar rule or regulation hereafter adopted by the SEC. Upon the request of the Investor Representatives (on behalf of the applicable Investors), the Company will deliver to the Investors a written statement as to whether it has complied with such requirements.

ARTICLE VII

(e) The Company shall keep such Investor reasonably informed as to the Company's (i) material existing and proposed merger and acquisition activity, (ii) existing and proposed material capital markets and financing activities, (iii) actual and, to the knowledge of the Company, threatened material litigation, and (iv) and such other matters as such Investor may reasonably request from time to time (collectively, the "Designated Matters") through in-person or telephonic meetings to be held on a schedule to be mutually agreed (or in another mutually agreed upon manner on a mutually agreed upon schedule) (the "Routine Informational Meetings"). In between a Routine Informational Meeting, if specifically requested by such Investor, the Company shall promptly and reasonably inform such Investor of any significant developments with respect to a Designated Matter since such Routine Informational Meeting (which may be accomplished in any reasonable manner sufficient to alert such Investor that an update is available (e.g., voicemail, text, etc.)).
